

## Spoiled by Mr. Russell Chapter 793

Arianna had been exceptionally quiet throughout the meeting, barely saying a word, to the point where people almost forgot she was there.

Once Donovan called her out, everyone turned to look at her.

However, Damian was still calm about it as he stood there with a smug smile.

Although everything was a mess now, he felt it was not his fault. Donovan's accusing attitude upset Damian.

'Who does he think he is to question me like that?'

"Mr. Elm, everything happened so suddenly. I do feel like it's premeditated."

After thinking about it, Arianna continued, "I think this woman is quite suspicious as well."

"Exactly! There's something fishy about this woman! She's trying to frame the company and me on purpose!"

Damian interrupted, "Maybe La Beauté Group sent her. I'll go look into her at once!"

Donovan shot him a look, and Damian immediately lost his arrogance.
