

Spoiled by Mr. Russell Chapter 831

"What if the Perfumers' Society puts pressure on La Beauté Group?" Lily asked.

"Umm..."

Olivia was stunned.

"I don't think so!"

As one of the largest companies, why would La Beauté Group be afraid of a mere Perfumers' Society? Lily smiled and glanced at her.

"Do you think the Perfumers' Society is just a simple non-governmental organization?"

"Not to mention many well-known perfumers joined the Perfumers' Society. If they all unite to go against us, this will impact our perfume production. It includes the director and president of the Perfumers' Society. Do you think they're just perfumers?"

Most members were well-known and prestigious in politics.

That was why even though they were under a higher level, they still had the authority to set various industry regulations, dictate, and even end one's career because of humiliation due to rejection. It was one of the reasons why Lily did not like the Perfumers' Society. It had gradually deviated from its original purpose, and she did not want this to happen to her.

"Since that's the case, how can you still joke around? Why don't you hurry up and think of a way to deal with them?"

be so serious. She initially thought that with Alexander around, he could solve everything without a
