

Spoiled by Mr. Russell Chapter 920

"I don't care about what hobbies you have. Just behave yourself. Marrying into the Riggs family will benefit not only you but the Russells as well. Your dad's preference for your brother is the only reason Alex is the way he is. If you were a better son, why wouldn't he pass the family fortune to you instead of to that little b*stard?"

"Dad is obviously biased! He has always favored Patrick and his son. Otherwise, who would hand over the company to their grandson instead of their son? After so many years, people are still laughing at me about this!"

Ralph was riled up as soon as this was mentioned.

Ralph's circle of friends was mostly made up of wealthy family sons.

Even though not all of them succeeded in taking over the family businesses, this was typically because of disputes between brothers. No one was fighting with their nephew like he was.

To be frank, there was no time or place for him to fight for the company at all.

When Hugo was still alive, he had already decided that all his fortunes would be passed on to Alexander, one after the other.
