

## Spoiled by Mr. Russell Chapter 941

Ever since Lily was pregnant, Alexander had hired people to make sure that Lily was well taken care of. He had instructed his employees to lock the door to the lab to prevent Lily from entering.

Alexander had even asked Olivia to keep an eye on her, and if Lily tried to charm her way into the lab, Olivia should call him.

Otherwise, he would make sure she was fired.

For the sake of her well-paid and comfortable job, Olivia was strict toward Lily. She would not even allow Lily to see her current workplace. Her actions rendered Lily speechless.

"You know I have nothing to do, right? I promise I won't touch anything. Just let me watch!"

"I can't. Mr. Russell has already instructed me that you need to rest. Besides, there are so many chemicals in the lab that they'll only affect your baby negatively. Please, just go home and rest," Olivia advised.

Seeing Olivia standing in her way, Lily tried to threaten her, "You do know who's the one paying your salary, right?"

Olivia almost replied, "Mr. Russell!" but when she saw Lily's expression, she quickly changed what she was about to say.

"It's you, but I agree with what Mr. Russell had said, so I'm listening to him."

"Olivia Hart!"

Lily called her name threateningly.
