Spoiled by Mr. Russell Chapter 980

Heather was disgusted with Ralph.She did not even want to touch him, nor was she planning to be a real couple with him.She just wanted that book and used Ralph's connection to the Russell family to slowly swallow the family business from within and incorporate it into the Riggs family.

After that, she would just divorce him.

However, Heather had changed her mind.

If her marriage partner were that man instead, she would not have to go through so much trouble.She could still obtain the book and the Russell family's wealth simultaneously.

Unfortunately, he was already married.

Soon, she was back at her own villa.

The Riggs family's villa was cold, unlike the noisy atmosphere of the Russell family's place.She would not have suggested moving into that house if it was not for the book.

Heather had been a talented fighter since she was young.

Unfortunately, the previous generation of Riggs was not gifted in this aspect, so her parents had lost interest in the family's fighting skills.

If it were not for her, the Riggs family would have already been kicked out of the list of ancient martial arts families.
