

## Spoiled by Mr. Russell Chapter 983

Meanwhile, Alexander did not sit idly by either since he needed to determine Heather's intentions and the secret his grandfather wanted to discuss before passing away—the Russel family's secret.

Moreover, the Riggs family was most likely the one that had sent the Light- Shadow Killers to the Russell family's house.

However, he was still unsure what they intended to accomplish and whether or not they were planning to harm Lily.

Alexander did not know what was happening but was determined to nip everything in the bud.

Lily was unaware of these things and had much time on her hands lately.

Aside from tending to her garden and caring for herself, she could only focus on caring for her unborn child.

She had not been to her lab for a long time, but Olivia occasionally sent her updates about her perfumes.

Olivia had succeeded in developing two new formulas and wanted to ask Lily for some opinions.

Lily was impressed with Olivia's progress, as the formulas looked good.

To Lily's delight, an unexpected guest showed up.
