

Chapter 327 Let's Have A Meal!

Standing in the corridor, Mattie didn't know what to say to make Trevor forgive her.

At that time, a young man from the other end of the corridor greeted Mattie, "Hi, President Yates."

Hearing the familiar voice, Mattie turned around and found that Marlon and the other members of the student union were coming over towards them.

Marlon didn't notice the pale look on Mattie's face and said, "President Yates, today is the last day of this semester. We have been busy the whole semester and it was very hard for us to clean all the examination classrooms a few days ago. So, I'll treat you a big meal for all your hard work today."

Hearing his words, the members of the student union cheered loudly and flattered Marlon continuously.

Although Luisa was among the excited crowd, she didn't cheer like the others.

Instead, she gave them a faint sweet smile and turned her head to look at Trevor.

Only then did Marlon notice Trevor. Looking at him, he spoke.

Although Luisa was among the excited crowd, she didn't cheer like the others.

Only then did Marlon notice Trevor. Looking at him, he spoke.

"Trevor, why are you here? Do you want to have a meal with us too?"

Without tearing his gaze from Trevor, Marlon said to Mattie, "President Yates, just ignore this loser. Let's go and have a big meal. A poor loser like him doesn't deserve it."

Of course, Luisa was unhappy to hear his words.

Therefore, she was about to say that she wouldn't be going if Trevor didn't go.

However, before she could say anything, Mattie said in a hurry, "Shut up, Marlon!"

Only after saying that, Mattie realized that her tone was very harsh.

What was more, Marlon wasn't someone she could offend either.

Therefore, she softened her tone and said in an almost pleading tone, "Trevor has done a lot of work two days

ago. Let him come with us today."

Seeing that Marlon was surprised, Mattie gritted her teeth and said, "I will treat you."

All the students of the student union were shocked to hear her words.

As the president of the student union, Mattie was always mean to Trevor. She targeted him in every possible way.

Then, why was she treating Trevor so well all of a sudden? Moreover, she even volunteered to pay the bill by herself.

Had she gone crazy because of the exams?

On the other hand, Luisa was surprised too.

She didn't expect that Mattie would defend Trevor even before she could say anything.

None of them, except Trevor, knew that Mattie had been fired from the position of the president of the student union.

For Mattie's sake, Marlon reluctantly agreed, "Okay, I'll let Trevor come with us."

Obviously, Marlon wouldn't let Mattie pay for the bill even if she insisted. After all, he was capable of treating the whole group.

However, he couldn't help but feel disgusted because Trevor was joining them.

Every time he had dinner with Trevor, he didn't end up

well.

Therefore, he was afraid to have a meal with a jinx like Trevor.

This time, he brought everyone to the Nora Restaurant, which was a bit far from the school.

Besides, since this restaurant was owned by his good friend, he thought that nothing would go wrong this time.

Not long after, they arrived at the private room of the restaurant.

When arranging the seats, Marlon deliberately arranged Luisa and Mattie on both sides of an empty seat.

His plan was to take the empty seat himself.

However, unexpectedly, Luisa took the initiative to say to Trevor, "Trevor, you can come and sit here." ④

When Trevor heard her words, he sat down on the empty seat directly without thinking twice.

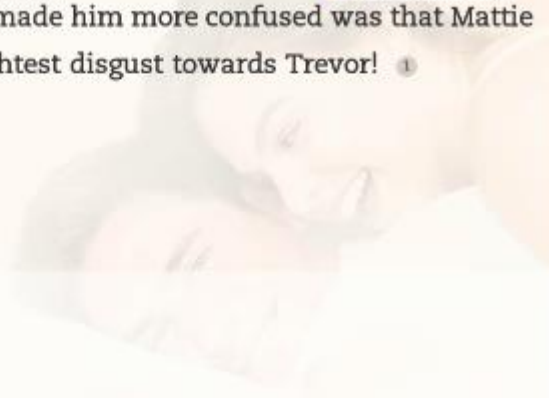

Trevor's actions halted Marlon who had planned to take the seat. ④

Even a blind person could see his master plan. He deliberately arranged Luisa and Mattie to sit beside the empty seat.

It was because he wanted to sit between the two beautiful girls.

Now that Trevor had intervened his plan, he was angry.

However, what made him more confused was that Mattie didn't show slightest disgust towards Trevor! ①
