

My Crown 1591

Chapter 1591: Blocking the Way

“Qiaoqiao, how about we first find an inn to stop over at. Once we settle down, we can come out and explore the city. What do you think?”

In actuality, neither of them were carrying much luggage. However, in order to conceal their identities while traveling away from home, they both slung a bag over their shoulders in pretense.

Other than a set of old clothes and some food, there basically wasn't anything else in this bag.

The two girls were meticulous and also low-key.

Additionally, Qiao Mu's new aura-repressing talisman had reached the yellow rank. It could completely conceal all traces of cultivation in their bodies.

Once they applied it, it could last for one month. It made the two of them look like normal people while they were traveling.

Other than Qiao Mu's appearance which attracted a lot of attention, no one would know that they were great mystic cultivators level 13 and over.

Traveling outside was different from being at home. It was naturally best to be careful and take preventive measures.

Qi Xuanxuan exclaimed with a smile, “Ay, that owner of Deyi Inn does have a conscience! When we left, he gave us ten buns for free, and meat buns too. It is rare for him to be so generous for once.”

“If not for these ten buns, I would have surely destroyed his Deyi Inn before leaving! He truly is a profiteer to have charged us so much for lodging. Twenty spirit currency per day! With food expenses, that's forty per day.”

“The most abominable part was that the guy was unwilling to lower the price! He looked like I was going to take his life when I asked him to waive some of the fees. Simply incomprehensible!”

Qiao Mu twitched her mouth and looked at her helplessly. “Actually, it's all only a small amount of money.”

They had spent a little over 200 spirit currency staying at Deyi Inn for six days. It wasn't considered too expensive! Nouveau Riche Qiao mused.

Previously, the traveling expenses for riding the terrestrial whale had cost her 480 spirit currency.

“Even though it's a small amount of money, you can't let profiteers swindle it from you either.” Qi Xuanxuan puffed out her cheeks.

“Alright, I know you are strict at budgeting for expenses.” Qiao Mu nodded and said, “Then the mission of finding a good inn will be on you.”

Hearing this, Qi Xuanxuan gave a wide smile. “Alrighty, just watch me. I will surely find an inexpensive and comfortable inn.”

After all, they would probably be staying in Wengka City for a period of time before enrollment. The most important task at hand was to find a comfortable place to stay.

The duo passed through the bustling main street of Wengka City toward the inner district.

Vendors' cries came from both sides of the street and mixed in with the noisy crowd. They interwove into a vibrant and lively scene.

Qi Xuanxuan skipped up ahead. Sometimes, she would run up to the front of the crowd and watch the acrobatics. At other times, she would watch other people's transactions just to get in on the excitement. The wide smile on her face was full of vigor the entire time.

Qiao Mu had been observing her for a long time. She reached up to rub her own icy little stoic face and lamented: *This was probably how girls her age normally acted.*

Swish!

Suddenly, a large folding fan that could cover her entire face whipped open in front of her.

On the fan was inscribed: 'Elegant and unrestrained, savoring delicacies for half a lifetime. A jade tree in the wind, tasting the resplendence of all ages.'

There were even four saucy characters written in the center: 'A beauty as exquisite as jade!'

*Simply bullsh*t!*

Qiao Mu looked up and saw a man around 27 or 28 who had a large hairy mole at the corner of his mouth.

He leered at Qiao Mu with his beady eyes, almost unable to contain his drool.

Chapter 1592: A Big Price to Pay

Qiao Mu looked at him with loathing before turning to make a detour.

Yet that young man with a black mole also moved to the side, continuing to block her way. He said with a leer, "Where is this young lady going? Why don't you let Brother escort you?"

"Retard!" Qiao Mu declared with a stoic face.

Re-re-re-retard??

Who are you talking about?

That man turned around to take a look, and the four burly men accompanying him simultaneously put on expressions that said "Young Master, I am a retard."

The man nodded in satisfaction and then turned to say to Qiao Mu with a chuckle, "This young lady, this young master is the son of the third manager of Wengka City's City Lord's Estate. Why don't we get to know each other."

"Scram!" This concise word expressed Qiao Mu's irritation.

Qiao Mu looked apathetically at this man with a big mole in front of her, her delicate eyebrows subconsciously creasing.

At this time, Qi Xuanxuan sprinted to Qiao Mu's side and angrily questioned that man with a big mole, "Who are you?"

She knew he wasn't any good person from this man's sleazy expression!

Was he tired of living to dare block her Qiaoqiao's way?

The man with a big mole had a lascivious look on his hideous face as he cackled, "Step aside, you."

Only the little stoic's frosty face existed in his eyes right now. He was so floored that he wished he had an extra pair of eyes to ogle her with.

He of course had no eyes for the little round-faced Qi Xuanxuan, who could only be considered delicate and pretty.

Qi Xuanxuan flared up. "Hey, who are you telling to go aside? Who are you?"

"This young master is the son of the third manager of Wengka City's City Lord's Estate. Who do you say I am?" The big mole face declared conceitedly, "In the entire City Lord's Estate, my dad's authority is only second to the city lord, the senior manager, and the second manger. One sentence from my dad is enough to drive you two out of the city. So that's why, this little lady, heh heh heh, do you want to..."

Before the man with a big mole could finish his sentence, he suddenly realized that the little lady before his eyes had moved!

An immobilization talisman landed on the big mole face.

The man with a big mole instantly felt his entire body freeze. He just stood there stiffly on the street, gazing dumbly at the little lady in stupefaction.

What was going on? Why couldn't he move?

He had seen that girl pull out some kind of talisman just now and fling it onto his body. He was unable to move after that.

Which meant that it was definitely due to this little lady's antics!

The man with the big mole gazed at Qiao Mu with shock and bewilderment. He opened his mouth but discovered that he wasn't able to utter a sound either.

He couldn't help but panic.

What's going on? How come he had even lost his voice? Could it be... it was also thanks to this little lady in front of him!

Was this girl even human? She just immobilized him in the middle of the street over a minor conflict, making the passersby look at him like he was a monkey performing tricks.

Right now she even poisoned him into a mute!

My Heavens! He had just wanted to chat with her because he saw that she looked cute. Did she have to make him so wretched when retaliating?

The man with a big mole did not know that the immobilization talisman and the poison powder were merely appetizers.

Qiao Mu slowly pulled out a water spirit talisman from her inner world. She then flung it out lightly and activated the talisman with a flick of her finger. Subsequently, the water spirit talisman split apart with a boom.

The water spiritual energy streaming out suddenly circled around the man with a big mole three times, bundling him into a cocoon.

Everyone on the street halted their footsteps in fright and looked incredulously at the man with a big mole.

Chapter 1593: Who Told You to Act Big

They all recognized this man as the son of the third manager of the City Lord's Estate.

As the only son of the third manager, he frequently stirred up trouble in Wengka City.

Everyone was afraid of provoking him because of his dad's special authority.

If they provoked him, his old man would certainly jump out. At that time, the consequences wouldn't be something they could bear.

They might even be stripped of their residency status in Wengka City.

"Hey, look quickly! The third manager's son seems to have finally shot himself in the foot!"

Everyone rejoiced in his misfortune.

Even though they were only making sarcastic remarks as they gossiped in secret, their eyes were glimmering with excitement.

It was wonderful that there was finally someone who could teach this prodigal a lesson for them. Just go all out. They wouldn't mind at all.

"Uah, uah. Uah!" The man with a big mole wanted to speak, but his throat could only utter this monosyllable.

He panicked as he looked at the little lady in front of him.

Yet what he saw was the little stoic gazing at him coldly without a ripple of emotion in her eyes.

"Didn't you want to get to know me? Come, let the talismans in my hand properly get to know you."

"Attack talismans!" Qiao Mu flicked her wrist, and she shockingly produced a dozen attack talismans from her hand.

The attack power of these yellow-rank blue attack talismans had already reached a proportion of reproducing the strength of eighty percent of the talisman practitioner's cultivation.

What did this signify?

It signified that each of these dozen talismans the little fellow casually tossed out contained the strength of a level-11 mystic cultivator's attack.

There would be a dozen level-11 mystic cultivators attacking the man with a big mole in a barrage!

"Uah!" The man with a big mole wanted to beg for mercy, but because he could not speak, he had no choice but to put his hopes on the four burly men behind him.

Unfortunately, before those four burly men could make a move, Qi Xuanxuan had rushed up and sent each of them flying with a punch.

The man with a big mole was simply gobsmacked. He was completely unable to comprehend why these two little ladies in front of him possessed such terrifying strength when they just looked so plain and ordinary!

He was very aware of those four burly men's capabilities.

Level-12 mystic cultivators didn't amount to much in Shuntian Prefecture, but Wengka City was merely a small city a distance away from its capital.

Level-12 mystic cultivators could be considered a rather outstanding lot in Wengka City.

At this time, the passersby were simply unable to contain their indescribable excitement.

They communicated with furtive gazes and muttered queerly under their breaths. They were jubilantly thinking that once they got back, they would spread the news of the big mole face's humiliation today far and wide.

By this time, the water spirit talismans had already completed their design.

When everyone took another look, they saw that the big mole face had been sealed shut inside a cubic ice box.

Separated by the thick layer of ice, the big mole face stared at the little lady in front of him in horror.

His eyes had maintained the same terrified expression from before. Meanwhile, he was completely unable to shift his limbs or facial expression!

Qi Xuanxuan clapped her petite hands and strutted up to the ice block. She made a circle around it before suddenly covering her eyes with her hand and squealing, "Yuck, so disgusting."

It turned out that the ice block was making the big mole face so cold that tears and snot had streamed down his face. At the moment, they had frozen into three ice trails that were hanging from his nose and the corners of his eyes...

Chapter 1594: Make You Anguish

“Third Manager, it’s awful, it’s awful! The young master got beaten up on the street and has suffered serious injuries. He is now lying in an alley off the main street and is on his last breath!”

“What?” The third manager’s expression changed as he shot up from his seat.

This manager was around 60 years old and was sporting a goatee. Since the big mole face was his only son, he had spoiled him from young, hence nurturing him into a capricious prodigal.

“Third Manager, hurry and send people to look after the young master. The young master is not in good condition right now.”

“How outrageous! Who dared beat my son so brutally?”

“Third Manager, I also do not know what happened. By the time we hurried over, the young master was already in such a miserable state! The perpetrator had long vanished.”

“Then don’t you know to find out from a passerby? Could it be that with so many people there, no one saw who beat my son so brutally?”

The middle-aged man who was currently reporting to the third manager also gave a bitter smile. He answered with a shake of his head, “Apologies, Third Manager, I have already asked a good many passersby, but none of them were able to describe what the perpetrator looked like. They only know that it was a young girl.”

“Ridiculous! There are so many young girls in the whole of Wengka City! How do you want me to pinpoint the perpetrator?” The third manager questioned furiously, “Besides, how could a young girl so easily defeat my son’s four burly subordinates? Do you think this is possible?”

The middle-aged man pursed his lips noncommittally. *Actually, this wasn’t impossible. After all, there’s always someone better out there.*

“Alright, don’t say anything more. Quickly bring me to see how the young master is.”

It wasn’t until the third manager had hurried over to his son under his subordinate’s lead that he discovered his son was in an extremely wretched state. It wasn’t as his subordinate had described in his succinct report at all.

It was even worse than being on his last breath!

There was no need to mention how his entire body had been beaten black and blue. The main thing was that he had also been sealed inside a sturdy block of ice.

The third manager rushed forward and felt the exterior ice layer. It was already good that this thick block of ice hadn’t suffocated him to death after sealing him inside.

He could see his son’s terrified face that was plastered with tears and snot through the ice layer.

He flared up upon seeing his son’s wretched state.

He roared through the ice layer at his son, “Who did this to you.”

The third manager's middle-aged subordinate quickly stepped up and advised quietly, "Manager, you had best refrain from blaming him at the moment. I observe that the young master is not in a very good condition right now. We have to quickly get him out from the ice block."

The third manager found it very strange how his son didn't even make a sound even though he had said so much.

"Why isn't he talking?" The third manager questioned.

"This, this..." The middle-aged man stammered, "The young master seems to have been affected by an immobilization talisman and is thus immobilized inside the ice block. Additionally, I inquired about it and everyone said that that female talisman practitioner was extremely powerful."

"She threw a dozen attack talismans at the young master, and they all passed through the ice layer before striking the young master's body. However, the ice block did not get damaged, which goes to show that she has incredible control over water spiritual energy."

"She is a great spiritual cultivator?" The third manager had an unsightly expression. If she was a great spiritual cultivator, then perhaps he would not have a chance in this lifetime to exact vengeance on her with his cultivation.

Chapter 1595: Immobilized Until Tomorrow

"Find her! Find this female talisman practitioner for me even if you have to dig three feet in the ground!"

"Then what should we do about the young master?"

"Immediately send someone to ask for Great Master Yan to come over," the third manager ordered.

That middle-aged man immediately left to carry out this order. Great Master Yan was the city's most reputed talisman practitioner. He would definitely be able to undo the immobilization talisman affecting the young master.

Just as the third manager and his subordinates were in a tizzy seeking Great Master Yan's help.

Qiao Mu and Qi Xuanxuan had already found a quiet and cozy inn to settle into.

"Qiaoqiao, how long can that immobilization talisman keep the big mole face frozen for?" Qi Xuanxuan was puzzled.

"At least two hours. But I tacked ten additional immobilization talismans on that fellow!" Qiao Mu responded nonchalantly.

Qi Xuanxuan gaped at this declaration before bursting out in laughter.

The big mole face truly was unlucky to have provoked Qiaoqiao of all people.

"In that case, that means he'll end up immobilized until tomorrow morning." Qi Xuanxuan couldn't hold it in and started cracking up again.

It was too funny that that wastrel would be immobilized until tomorrow morning! She found it a pity that she could not continue to admire the big mole face's woeful and pitiable expression in person.

"We've been busy the whole day, so rest up earlier!" The main thing was that they had spent a long time finding the way. The two little ones with no sense of direction had nearly been unable to find Wengka City.

They of course could not tell this to other people. It would just make them laugh their heads off.

"Fine then. Let's tour the city tomorrow, and then... in a couple of days, it will be the date of the entrance exam."

"Let's go check out the mission distribution center tomorrow. Perhaps there will be a notice regarding the exam."

"Mhm," Qiao Mu replied before turning in to rest.

The next day, the duo only woke up after the sun had risen high into the sky. After randomly grabbing a bite, they exited the small inn and headed for the city center.

"Normally, mission notice boards are at the city center. I wonder if it will be different in Shuntian Prefecture compared to before," Qi Xuanxuan muttered in contemplation. "How about, we go accept a mission or something. If we can finish a small mission in these two days, we will be able to earn money."

"It's more worth it to sell a spirit talisman than to accept a mission!" Qiao Mu responded flatly.

Qi Xuanxuan immediately suffered a blow.

Heavens, you filthy rich person! Can you shut up and stop talking!

"Hey, there is a talisman shop here. Do you want to go in and take a look?"

"Hm, it's fine." *She didn't want to sell talismans right now anyway.*

Just as the pair were about to pass by the talisman shop.

A man and woman walked out, causing them to meet face-to-face.

The man, who was around twenty-something years old, had rather refined eyebrows.

The woman, who was around 17 years old, was wearing a peacock blue dress with a jade necklace adorning her neck. She seemed to carry an aloof air.

The two people were matched in age.

When the woman walked out while holding the man's arm, she cast Qiao Mu and Qi Xuanxuan a glance.

On the other hand, upon seeing them, the man nodded politely toward Qiao Mu and Qi Xuanxuan.

The woman knitted her brows when she saw this. "Senior Brother, do you know them?"

The person whom the woman referred to as "Senior Brother" was surprised but then shook his head and answered, "Oh, I don't know them."

The woman frowned as she eyed Qiao Mu again. In the end, she pulled her senior brother away from the talisman shop.

Qi Xuanxuan followed them with her gaze before giving a frown and whispering to Qiao Mu.

Chapter 1596: Registration

“These two people may look matched in age, but they don’t make a good pairing at all.”

“It’s obvious that the man is gentle and refined, with an extremely good temper. The woman, though, isn’t so much. She’s so irritable and wears such an aloof expression. Who does she think she’s putting on that attitude for.”

Qiao Mu chortled and turned to Qi Xuanxuan, remarking, “We don’t know them anyways, so what’s the use in minding so much.”

Qi Xuanxuan nodded. After circling around the city center, sure enough, they saw written on the notice board: ‘Two days later, Sunlight Academy will proceed with the first round of student screenings in Wengka City! If interested, head to the registration site at the city center to proceed with the exam.’

Seeing that the notice had included so many details, Qi Xuanxuan read it over silently twice to memorize it.

“Alright, I’ve memorized it.” She then took Qiao Mu’s hand and walked back.

“If there isn’t anything else, how about we cultivate in closed-door cultivation during these two days.”

“There isn’t much to do in this Wengka City anyway. I reckon it’s just a bit bigger than Julu City.”

“Sure,” Qiao Mu agreed with a nod.

However, the duo did not know that their closed-door cultivation for the next two days made the people outside anxious to death.

The third manager’s son got sealed inside that ice block for a full 20 hours!

The third manager had finally rescued his son from the ice block after requesting for many experts and masters’ assistance. He had truly made a Herculean effort!

After finally getting his son out, the third manager discovered that his son was still unable to speak. He seemed to have been poisoned mute.

This time, he was afraid to lose his temper and hastily sent people to search for that female talisman practitioner. He did not hesitate to spend a huge sum to mobilize the entire city in this search for Qiao Mu, just so she could detoxify his son’s poison.

However, Qiao Mu was completely oblivious to all of this. By the time she and Qi Xuanxuan had come out of closed-door cultivation, Sunlight Academy’s entrance exam was already proceeding like a raging fire at the city center.

After the two washed up and grabbed a quick bite, they hurried toward Sunlight Academy’s registration site.

From afar, there was a huge mass of black heads at the city center, and the duo looked at each other in dismay.

Nevertheless, Qi Xuanxuan was giddy. "Sunlight Academy lives up to its name. This registration site is truly packed! We probably have to wait a long time with so many people registering."

There were four testing tables set up at the registration site. The duo lined up at the end of the third line. Seeing that the line was inching forward at a turtle's pace, Qiao Mu couldn't help looking around.

Qiao Mu couldn't help but be deflated when she didn't catch a glimpse of Situ Yi and the rest even after looking for a long time.

Where did Senior Brother Situ and the others go?

Could it be that they had some fortuitous encounter just upon entering Shuntian Prefecture?

"Qiaoqiao, don't think too much. Just make the best out of the situation. Since we don't know where to go anyway, we might as well go to Sunlight Academy and train for half a year in a closed environment to advance our cultivation. What do you think?"

"Of course, it is all up to good luck for our cultivation to advance by leaps and bounds."

"Hey, Qiaoqiao! Look over there, they carried out another table. Is it because there are too many people that they temporarily added another testing table?"

"It's very possible!" Qiao Mu nodded.

"Then let's hurry over!" Qi Xuanxuan deftly bounced toward the fifth table that had just been set up with Qiao Mu in tow.

The two people were coincidentally the first ones at the table.

"It's you two?" An aloof voice suddenly entered the duo's ears.

Qiao Mu looked up and saw that it just so happened to be that man and woman they encountered at the entrance of the talisman shop two days earlier.

Chapter 1597: Thwarting In Every Possible Way

"We are seventh-grade seniors of Sunlight Academy. Because there are a lot of people registering this year, we added a testing table. But you two, are you certain you can pass the test at such a young age?"

That woman was wearing a peacock blue dress, her chin raised up with an arrogant air.

Qiao Mu creased her brows upon seeing this. Beside her, Qi Xuanxuan even muttered quietly, "You think you're a peacock just because you wear peacock blue clothes?"

The woman's expression changed when she heard this, and she arched her eyebrows in anger as she snapped, "What did you say?"

Qi Xuanxuan pursed her lips and gave a shrug. She responded nonchalantly, "Instead of wasting your breath, you could actually just start the test. As for whether we can pass, we'll only know once we do the testing."

The woman scoffed. "Don't you see so many people lining up behind you? If you know that you won't succeed, why do you insist on lining up. It'll just hinder the people behind you."

Qi Xuanxuan flared up. "How do you know we won't succeed? How hard is this test of yours? How would we know if you don't tell us?"

The woman sniggered as she said, "This test of ours examines multiple aspects. Not only does it test one's disposition and willpower, it also tests one's ability to withstand outside temptations. This determines how far one can go on the path of cultivation."

"Don't make a fuss here when you're so young. Leave quickly," the woman said irritably.

Qi Xuanxuan simply couldn't believe her ears. She argued, "Aren't you too opinionated! How do you know we're wasting time if we haven't even done the testing yet? It might be you who is wasting our time instead?"

The man beside them also creased his brows and said to the woman, "Junior Sister, you cannot be so subjective. You had better let them attempt it."

Qi Xuanxuan involuntarily cast the woman a glance when she heard this. She gave a harrumph and said, "Here, what your senior brother says is considered fair, but you? You're wilfully obstructing us for no reason. It couldn't be that you're scared our test scores will be better than yours, so you're trying to assert your presence?"

"You!" The woman glared at them angrily before giving a sneer. She turned to the people who had lined up behind them and asked with a smile, "What do you all think? Do you agree to letting these two fellows waste everybody's time?"

"Junior Sister." The man creased his brows and swept a look of disapproval at the woman in peacock blue.

The woman in peacock blue, He Wei, pursed her lips in objection before explaining to the man with a smile, "Senior Brother, I am thinking on behalf of the people behind them. With so many people lined up there, we have to make the most of our limited time, right."

"You also know that each test takes up a certain amount of time. If these two people don't have staunch wills and get lost in our testing environment! Then it'll be over. Everyone behind them will only be able to watch helplessly and wait for at least five minutes. If everyone is like them, then who knows when we will be able to finish conducting this test."

"Since this d*mn test of yours is so phenomenal, let us take it! See if we'll get lost, huh?" Qi Xuanxuan gave the woman a look of disdain.

*They hadn't even done the testing yet, so what was she bullsh*tting about?*

Qiao Mu did not say a word as she swept a glance at the woman in peacock blue.

Afterall, Qiao Mu never liked to say more than she had to when her abilities could crush all opposition.

“Junior Sister He Wei, don’t cause trouble..”

Chapter 1598: Not Welcomed

The person the woman in peacock blue referred to as Senior Brother, Xu Liang, admonished her with narrowed eyes.

Yet the latter suddenly stood up and walked toward someone at the edge of the crowd.

A short while later, she smilingly led over a woman in a luxurious pink dress with pearl and jade accessories adorning her entire head.

While separated by the crowd, He Wei whispered into the ear of the woman wearing a luxurious pink dress.

The woman in a pink dress then directed an unfriendly gaze at Qiao Mu and Qi Xuanxuan.

Qiao Mu and Qi Xuanxuan looked at each other in bewilderment.

They saw that woman in a pink dress walk over and stare at them while questioning, “I am You Xin, the daughter of Sunlight Academy’s Dean. How old are you two this year? Are you qualified to register? Those registering for our Sunlight Academy cannot be over 20 years old! Your strength must be level-13 mystic cultivation or above.”

“This strength I’m talking about refers to your actual combat strength.”

“That means you won’t pass this test if you consumed drugs to reach level-13 mystic cultivation. Because the opponents you will be facing may be level-14 or level-15 mystic cultivators, or perhaps even beginner-level spiritual cultivators!”

“Are you certain you will be able to be victorious in our academy test’s simulation environment?”

“I might as well tell you that the injuries, or even death, sustained in the testing environment are real and actual! So you must think it over carefully. I think that you won’t be able to withstand the consequences of defeat!”

You Xin, the daughter of Sunlight Academy’s Dean, crossed her arms as she lifted up her chin and coldly said this to the girls in front of her.

Qiao Mu, however, merely swept her an indifferent glance. “Liar.”

You Xin’s expression instantly turned unsightly.

Someone called her a liar to her face? This aggravated You Xin, who had always been arrogant.

Particularly so when the other party’s stoic face, expressionless as it may be, was so desolately beautiful.

She was still young, and her face still possessed the innocence of childhood. If she were two years older, which young lady would still dare stand beside her?

Qi Xuanxuan immediately concurred with a nod when she heard Qiao Mu. "I see that some of those people lining up are merely level-11 and level-12 mystic cultivators. Have they died or gotten injured?"

"If the testing environment is as you say, that you'll get injured even if you don't die, do you think those people are all idiots? They all ran over here to seek death? They're tired of living?"

She really didn't know if it was this Miss High and Mighty who was dumb, or if it was that she treated everyone else as fools. This IQ of hers really was worrying!

You Xin glared at Qi Xuanxuan.

This feeling of getting slapped soundly in the face was really uncomfortable, but she was unable to refute them at all!

It truly was abominable!

She had thought that these two girls were still naive about the ways of the world based on their young age, but she didn't expect them to be this hard to hoodwink.

If she really allowed them to pass the test successfully, then wouldn't she be feeling like she had swallowed a fly if she had to see this d*mn stoic face every day in the future?

"Senior Sister You Xin, forget it!" He Wei smirked.

"Since... some people are so unafraid of death, then just let them attempt this testing environment."

He Wei snickered contemptuously at the two girls. "In any case, they'll be responsible for their injuries and deaths. Since they don't believe it, let them suffer inside the testing environment!"

After saying this, she sent You Xin a look with a sinister smile on her lips.

You Xin immediately understood and nodded back at He Wei.

Since the two little lasses were intent on seeking death, she naturally was unable to stop them.

Chapter 1599: Duping Qiaoqiao

It had to be known, the danger level in this testing simulation environment was categorized into low, medium, and high!

*Everything was in the palm of her, You Xin's, hand. These two d*mn lasses were new here yet they were barreling forward like small calves. It was time to give them a lesson to remember!*

Qiao Mu's eyes flashed, and she ruminated while observing You Xin: This woman was obviously concocting some wicked idea. Don't think that she wasn't aware.

Just now, that woman's gaze was flickering evasively. It was evident that something was up.

But all kinds of tricks and schemes were bound to get crushed in the face of actual strength.

You Xin took out an exquisite, small red box.

She opened the lid and retrieved a ring inlaid with a bright yellow gemstone.

She looked triumphantly at Qiao Mu. "It's still not too late to beat a retreat right now."

After saying this, she sized up Qiao Mu and Qi Xuanxuan with a contemptuous look.

These two normal girls without a hint of mystic energy actually wanted to muddle through the test and worm their way into Sunlight Academy?

What kind of joke was that?

It was simply delusional!

"I'll do the testing first," Qiao Mu told her coldly.

"Wait!" Senior Brother Xu Liang couldn't help but stand up and gazed at You Xin and He Wei in disapproval.

These two were clearly wanting to make things difficult for the two girls.

In reality, the first round of testing only required the person to touch the spiritual measuring stone.

Only those whom the spiritual measuring stone gauged to have reached level-14 cultivation would be given preferential treatment. They would undergo a second round by getting transferred into the simulation environment for further testing.

Yet now? These two girls clearly did not seem to even possess a single mystic energy ripple.

You Xin and He Wei were clearly targeting the two girls by doing this. Senior Brother Xu Liang was unable to tolerate it anymore.

"In my view, we had best use the spiritual measuring stone to gauge their cultivation level. After that, we can decide whether or not to let them enter the simulation environment."

Hearing their Senior Brother Xu Liang speak on Qiao Mu and Qi Xuanxuan's behalf, You Xin and He Wei detested the duo even more.

In You Xin's eyes, Qiao Mu had basically already been elevated to a seductress.

She kept criticizing in her mind: *She truly is shameless to be seducing men at such a young age, making it so that they would defend her.*

Qiao Mu naturally was unaware of the two women's inner thoughts. She was merely a bit curious about the ring in You Xin's hand.

This ring was most likely a spiritual weapon. Its greatest use was in sustaining a simulation environment by absorbing the spiritual energy between heaven and earth normally.

"After entering this simulation environment, you will encounter various types of beasts." You Xin declared with an uppity tone, "Your goal is to defeat at least five beasts! Before you can come out."

"Or, persevering inside this simulation environment for two hours would also be considered a pass."

Everyone couldn't help but be shocked. *Persevering for two hours? How many beast types were inside? If beast packs attacked in a horde, don't talk about two hours—they might not even last for half an hour.*

Qiao Mu glanced at You Xin indifferently.

She really looked down on this woman. *The woman had said so much yet had purposely skipped over what to watch out for inside the simulation environment!*

This was so that she would be caught unprepared after entering the simulation environment and end up in a passive state without being able to retaliate?

From the looks of it, that Senior Brother Xu Liang had a slightly better moral character..

Chapter 1600: Was That Possible?

Unfortunately, he, as a man, was embarrassed to keep arguing with his two junior sisters.

You Xin turned the ring, and everyone saw a curtain of light appear before their eyes.

The glaring red light caused the people standing in front to squint. By the time they opened their eyes again, they saw an isolated transparent barrier in front of the table.

You Xin was standing before this transparent barrier and gave Qiao Mu a triumphant look. She smirked, "How about it? Do you still want to enter right now?"

Qiao Mu paid no attention to her and turned to placate Qi Xuanxuan with a nod. Afterwards, she quickly walked into that transparent barrier.

After entering, she immediately found the scene before her somewhat familiar.

A bolt of lightning suddenly struck down from the skies with a resounding boom!

Qiao Mu found the plains before her eyes more familiar the more she observed it.

Wait, wasn't this the Thunder Plains from before?

She didn't expect that this simulation environment could even replay her past experiences and simulate the entire Thunder Plains. *This was rather incredible!*

Qiao Mu sprinted forth on the Thunder Plains as she deftly dodged the striking thunderbolts.

Outside the transparent barrier, everyone could only see a slender figure moving about nonstop inside at an extreme speed.

Even though the transparent barrier highly restricted her area of movement, not everyone was able to discern her movements clearly.

She had basically transformed into an afterimage as she moved left, right, up, and down inside the barrier.

Fast! So fast that they practically couldn't catch her figure.

"So fast!" Senior Brother Xu Liang couldn't help exclaiming.

You Xin and He Wei were also stupefied.

Their expressions turned ugly as their faces alternated between flushed and ashen.

He Wei moved next to You Xin and asked quietly, "Senior Sister You Xin, did you or did you not set the simulation environment to the highest level?"

You Xin snapped back, "You think I'm an idiot and can't distinguish between the highest and lowest level? This is already the highest-level simulation environment."

But Qiao Mu's skillful movements really put them in a bad mood.

So much time had passed already, yet not a single thunderbolt had struck Qiao Mu.

At this time, thunderbolts were intertwining inside the barrier, and Qiao Mu was swiftly darting in between them.

She had almost become a bolt of lightning herself, making great spiritual cultivators and below unable to make out her path of motion.

Only those who possessed a powerful spiritual conscious were able to see it.

Suddenly, Qiao Mu paused slightly as she looked up at the Thunder Plains.

She could not drag it on here any longer. She needed to find a way out.

How much time had she wasted here already. Qiao Mu was a bit irritated.

"Roar—" A furious roar came from afar on the Thunder Plains.

Qiao Mu reflexively dodged and turned to take a look.

*F*ck, it was a mammoth elephant.* It was around ten times her height.

This mammoth elephant formed using spiritual energy probably only looked huge in this simulation environment and might not actually be so fearsome.

Qiao Mu kicked off the ground lightly and dashed toward the mammoth elephant.

Midway, she whisked out a miniature club.

In the blink of an eye, the club had already enlarged to twice the size of a normal club.

Everyone who was watching outside practically had their eyeballs bulge out.

Qiao Mu rested the club against her shoulder as she landed on the elephant's nose with a swish. She cut to the chase and smashed her club down toward where she was standing.

Senior Brother Xu Liang felt his heart quiver..
