

MY HIDDEN 1511

Chapter 1511: Continue

Outside the ward, Fu Shiqin felt relieved when he found out that his nephew and niece were not injured, but he was still furious.

“Which brat dares to kick our Tiantian? I will break his legs now!”

The two little buns were spoiled at home and it was their first time being bullied by a child.

On the way here, they saw the CCTV video and saw the two children crying so terribly. His brother was so worried about the children that he wanted to drag his wife and children out of the video.

“Your father has driven the He Family who are related to the Wei Family of Far East Enterprise out of the capital,” Mrs. Fu said.

Although it was just a small conflict between children, the grandparent of the child was way too much.

“If we drive them out of the capital, we will be letting them off too easily.” Fu Shiqin was not convinced and he said, “I will go to them now.”

“Alright, it is just a small bump from the child, do you still want them to pay with their life?” Mrs. Fu stopped him and said, “The He Family’s company is going smoothly. Now, if we make them leave the capital and disallow them from coming back, this is already a very big punishment for them.”

If they went too far, they would be making a big fuss out of it.

If the children were really injured, they would not let them off so easily. If the two children were not injured, they should let them off somewhat. They should just treat it as helping the two children mature.

With his hands on his waist, Fu Shiqin still felt very annoyed.

“Dad, where did you find this morning school? They even accepted such a person and yet you brought Youyou and Tiantian there.”

Fu Shengying stayed silent and did not counter Fu Shiqin’s accusation.

He felt worse than anyone else that the two children were so frightened.

Fu Shiqin was about to continue when Mrs. Fu glared at him.

“You and your brother are both here, but shouldn’t you be leaving to watch over the company?”

Fu Shiqin checked the time. “I better go, our brother will drive my sister-in-law and the children home.”

His brother would definitely not return to the company when his wife and children were met with such a situation.

But there was an important meeting in an hour and someone had to go.

“Go.” Mrs. Fu nodded and agreed. She turned to Fu Shengying and said, “You can go home too. I will accompany them back first and return to the old mansion later.”

“I will go back with Youyou and Tiantian,” Fu Shengying said.

“You can see them in a couple of days. Must you invite your son to lecture you later?” Mrs. Fu said.

He was the one who suggested going to the morning education center, and now that the child was hurt, he would be blamed.

Fu Shengying sighed and left with his hands behind his back.

Seeing him leaving, Mrs. Fu said as she entered the ward, “Take the children home first. There are many patients and germs in the hospital.”

“Yes, it is time to go home.” Gu Weiwei checked the time and said, “They will eat when they wake up.”

Having said these words, she was about to carry her sleeping son.

“Let me carry him, you have been taking care of them for a long time.” Mrs. Fu took her grandson so that Gu Weiwei could take a rest.

Gu Weiwei did not turn her down, so she followed Fu Hanzheng downstairs and into the car empty-handed.

Unexpectedly, the moment they reached home, Fu Shiqin made a call.

“Brother, look at the news on the phone. The Old Lady of the He Family has gone crazy. She told the TV Station that we forced the entire family to leave the capital. It has become very popular online.”

Chapter 1512: One Step At a Time

Fu Hanzheng’s expression sank. Seeing Gu Weiwei removing her coat for the two children, he went upstairs to the study.

“What happened?”

“I was going to deal with this matter. Our father asked the He Family to leave the capital, but the Old Lady insisted on calling the police and told the media that we were bullying her because of our wealth,” Fu Shiqin said.

Most people in the world hated the rich.

So when they saw the Old Lady seeking death and complaining that the wealthy and powerful Fu Family was forcing them to leave the capital because of a small conflict between children, they all pitied Mrs. He and blamed the Fu Family for bullying her.

Fu Hanzheng looked calm and said calmly, “Since they are not leaving, let the He Family stay in the capital.”

The Fu Family had been through a lot these years and they were not afraid of an unreasonable old lady.

They had caused the two children to cry in fright and when Weiwei was taking care of the two children, they were aggressive. They had already shown mercy by letting them leave the capital.

But if they refused to leave, they could stay in another way.

Fu Shiqin understood what his brother meant. "Got it, I will ask someone to do it."

Since the He Family refused to leave, it would be easy to keep He Xu in the capital.

His company had taken some shortcuts ever since it was established. As long as such information was provided to the related departments, he would not be able to leave the capital.

"Also, don't let the media report about it." Fu Hanzheng stressed.

Fu Shiqin replied with a smile, "I know, but... many media outlets seem to be curious about Youyou, Tiantian and sister-in-law. We have taken away all the CCTV videos from the morning education center, but it is better if sister-in-law and the two children don't show up in public these coming days."

Sister-in-law had never liked her private life being paid too much attention to by the media and her relationship with her family had never been known to outsiders. If this news was dug out, it would definitely be the biggest piece of news in the entertainment industry.

In this way, her and the child's every move would become the focus of attention.

"Okay," Fu Hanzheng answered calmly, before he thought for a while and said, "Also, keep an eye on the Old Lady of the He Family, don't kill her."

"That old woman is very arrogant, but I don't believe that she will really die." Fu Shiqin snorted.

She had been so energetic when she was bullying his sister-in-law and the two children at the morning education center, and now she was showing off in front of the media, saying that she had been forced into a corner.

But she had caused everything step by step.

When it came to Tiantian, as long as the other party apologized nicely and the child was not injured, they would still feel sorry for the child, but they would not drive them away from the capital.

But not only did the Old Lady not apologize, but she also stopped the doctor from seeing Tiantian and even yelled at his sister-in-law, frightening the two children.

Even if that was the case, they could still leave the capital and live a good life with money.

Instead of leaving, she had to call the police and reveal the situation to the media, thinking that she could stay in the capital this way.

Alright, since she wanted to stay, he would let them stay.

"Just in case," Fu Hanzheng said calmly.

After all, if he turned in her son's company and had him charged or something, the Old Lady would be so desperate that she would threaten him with her life. That would cost a life and it might affect the stock prices of Fu's Enterprise.

Chapter 1513: Brother

“Okay, I will get someone to keep an eye on her.” Fu Shiqin agreed.

If it had been any other time, he would not have been so careful.

But the Gu Family was getting restless too. If they wanted to make a fuss out of it, it would be very troublesome.

“Also, don’t mention this in front of Weiwei.” Fu Hanzheng stressed.

“Got it, I will make the arrangements.”

Having said these words, Fu Shiqin hung up.

However, Fu Hanzheng had just reminded Fu Shiqin not to tell Gu Weiwei when he found Fu Shiyi already at home.

Also, he was saying furiously, “That old woman is really something. She allowed her own child to injure someone but did not apologize. Now she wants them to stay in the capital and she is even putting on an act in front of the media, saying that we are making a big fuss and bullying others...”

Fu Hanzheng looked cold and glanced at Fu Shiyi.

Fu Shiyi shut up. “Brother, don’t look at me like that. It is scary.”

Gu Weiwei looked at Fu Hanzheng and said worriedly, “The He Family has revealed the news to the media, we must deal with it in time, otherwise it will affect the Fu Enterprise’s reputation.”

It had been a small matter, but now it was getting more and more difficult to deal with.

“I know, Shiqin has dealt with it,” Fu Hanzheng said calmly.

“What should we do with them? We must teach such a person a lesson! Children are spoiled by adults!” Fu Shiyi was very annoyed. How could the little darling of the Fu Family be bullied by outsiders?

Instead of answering him, Fu Hanzheng took hold of Gu Weiwei’s shoulders and said with a gentle voice, “You are tired from taking care of the two children, go back to your room and rest. If the children wake up, I will take care of them.”

Gu Weiwei nodded. “They should eat when they are awake. We should give them supplementary food and fruits this afternoon.”

“Got it,” Fu Hanzheng said as he walked her back to the master bedroom.

However, the moment he closed the door, he turned to Fu Shiyi with a cold expression.

“Can’t you control your mouth?”

“Ah?” Fu Shiyi was startled and looked innocent.

What had he done to irritate his brother?

“Don’t say such troublesome things in front of your sister-in-law,” Fu Hanzheng said coldly.

Fu Shiyi pursed his lips and said, "If sister-in-law doesn't go out for a day and we don't say anything, she will be out of touch with what's going on."

"What about sorting out the problem first?" Fu Hanzheng sounded even colder.

Fu Shiyi laughed dryly. "Got it, I will obey the imperial edict."

No wonder he glared at him the moment he came in. He was blaming him for mentioning the He Family in front of his sister-in-law.

Fu Hanzheng asked the nursery teacher to prepare the supplementary food for the two children whilst he fiddled with the unfinished Lego blocks in the children's room, watching over the two children.

Since Fu Shiyi had nothing to do, he followed him into the children's room.

"Luckily, it is only the He Family who are causing trouble, so the Wei Family is quite smart."

On the way home, he asked Lei Meng about it. Only the Old Lady of the He Family was making a fuss and the Wei Family did not interfere.

Fu Hanzheng kept silent as he worked on the building blocks. If the Wei Family did not know how to behave, they would not be able to survive in the capital.

Fu Shiqin mumbled as he played with Youyou's toy car, "Brother, you and sister-in-law are really not going to make your relationship public? If your relationship was made public today, no one would have dared to touch her and the two children."

"You are too nosy," Fu Hanzheng said coldly.

After all, what happened today was a coincidence, but if their relationship was revealed to the public, the two children would become the focus of the public and it would not be beneficial for the children's growth.

Also, some people with ulterior motives would approach her on purpose, which was more harmful than good.

Weiwei had thought about all of this, so she had never pressed for their relationship to be made public.

Also, they were not married and had children for anyone else to see.

Chapter 1514: Crush

At the same time, after Mrs. He saw the news report, she returned home proudly after being supported online.

But when she arrived home, she found that her son and daughter-in-law were busy packing, looking as if they were ready to leave the capital.

"Stop packing, we are not leaving."

The daughter-in-law was packing as she complained.

"You have already offended the Fu Family, how can we not leave?"

Now that her husband's career was doing well, she was considered a wealthy lady.

But within a few days, the good days were ruined by this Old Lady.

Mrs. He poured herself a cup of water and took a big sip as she said to her son and daughter-in-law, "I have already called the police and reported it to the media. They are all supporting us online."

"Mom!" When his son heard that she had not come home to pack and had instead done these things, he was so angry that he almost passed out. "Are you trying to kill us?"

What was the Fu Family's position in Hua Land? It was a piece of cake for them to target a small company like his.

But his mother did not know how high the sky was or how deep the earth was. She was openly challenging Fu's Enterprise and that was the same as killing him.

"Mom, we are no longer able to stay in the capital, what more do you want us to do?"

The daughter-in-law threw down the things in her hands and was not in the mood to pack.

"I am doing this so that we can stay in the capital and keep the company," Mrs. He said confidently, "Look at how many people are supporting us online."

"Mom, no matter how many people support us online, it is useless. Can you stop making a fuss?" He Xu really wanted to kneel down in front of her and beg.

They had offended the Fu Family, the Fu Family that could crush him with a single finger.

Because she went to make a fuss with the media, he would be in even more trouble.

"I went to the police today and they said that they don't care because there is no evidence. Then I will make a big fuss out of it. If I make a big fuss out of it, the police will have to deal with it." Mrs. He insisted on her direction and showed no intention of changing it.

It was just a small accident between two children. One was not injured and the other was not bleeding, but they were bullying them by not letting them stay in the capital.

She thought that as long as the matter was blown up and many people paid attention to it, the Fu Family would not dare to let them leave the capital and attack her son's company.

"Mom, we are in the wrong. If you had not made a fuss and apologized to her properly, things would not have turned out this way." His son, He Xu, bellowed with reddened eyes.

She was not stopping now, and she was driving him into a corner.

Annoyed, the daughter-in-law punched her troublesome husband.

"It is you! It is because of you! I asked you to run away, why are you so disobedient?"

Seeing her grandson getting hit, Mrs. He stepped forward to defend him.

"You hit my grandson?! If you hit him again, you can just leave the He Family."

“Okay, I will leave right now. I can’t live like this any more,” the daughter-in-law said as she packed her luggage and was about to leave the family.

“Wife! Wife! You can’t leave.” He Xu stopped her.

“I don’t want to stay in this family any more. Your mother can do whatever she wants. I am not waiting on her any more.”

The family was arguing fiercely when Wei Ziting’s family arrived. Before they entered the room, they heard arguing and a child crying.

Mrs. Wei pushed open the door and bellowed when she saw the people inside.

“What are you still arguing about?”

Chapter 1515: Fu Hanzheng’s Daughter

Seeing the Wei Family approaching, the family stopped arguing.

“Aunt, what are you doing here?” He Xu asked.

Wei Ziting looked at the Old Lady and said, “Aunt, are you crazy? You are causing trouble with the media and saying that the Fu Family is a bully?”

So what if the Fu Family was a bully, what could they do?

Even the Wei Family would not be able to stop the Fu Family, let alone the He Family.

It was not enough that she had caused trouble at the morning education center, but now she was trying so hard to sue the Fu Family.

“I did all of this just to keep your cousin’s company.” Mrs. He glanced at Mrs. Wei and Wei Ziting and snorted. “It is fine if you don’t help, but don’t come here telling me what to do.”

“You are not helping him, you are killing him!” Wei Ziting bellowed.

The Fu Family had only asked them to leave the capital.

They came back to pack their things, and this way the properties and company would not suffer much loss.

Then he could open a new company outside the capital and the Wei Family could help him. Although it was not as convenient as it was in the capital, it was definitely not that bad.

After what she had done, if the Fu Family continued to pursue the matter, they would not be able to leave.

Mrs. Wei was both angry and sincere as she tried to persuade her. “Even if you cause a ruckus with the media, the Fu Family can still turn the situation around. If you continue to cause a ruckus, He Xu will be in even more danger.”

“If they dare to touch my son, I will kill those people at Fu’s Enterprise!” Mrs. He said fiercely.

“Enough!” Wei Ziting glared at this disappointing aunt and bellowed. “You are courting death, don’t drag the Wei Family down with you.”

Far East Enterprise was bidding for a promising project under Fu’s Enterprise, and if she made a fuss now, it would be totally hopeless.

He Xu looked at Mrs. Wei and Wei Ziting anxiously. “Aunt, what should we do now? Will the Fu Family still pursue the matter?”

“You injured Fu Hanzheng’s daughter and forced Fu Hanzheng’s wife. Now you are causing trouble with the media. Do you think the Fu Family will pursue the matter or not?” Wei Ziting was not in a good mood.

He had thought that his cousin was capable and his mother had asked him to help him, so he had been helping his cousin these past few years.

Two years ago, he opened a company and the Wei Family provided him with much help.

But his mother had caused such a big mess the moment she came to the capital and it would even affect Far East Enterprise. He could not be nice.

“Fu Hanzheng’s daughter?” Startled, He Xu asked, “Fu Hanzheng is married?”

“I asked someone and Fu Shiqin just got a girlfriend. Fu Shiyi also just revealed his relationship a while ago. It can’t be them, so it can only be Fu Hanzheng’s wife and child,” Wei Ziting said.

“Yes, the twins look very much like the boss of Fu’s Enterprise.” He Xu’s wife interrupted.

Mrs. He had thought that she could make a big fuss with the media, so the other party would not dare to do anything.

But hearing what they said, she seemed to have made a huge mistake.

“Then... what should we do now?”

“Leave it to God.” Wei Ziting threw a cold look at this disappointing aunt of his and said, “You caused the trouble yourself and you offended her yourself. It is useless to blame anyone now.”

At this moment, the Wei Family could not help them or save them.

They had offended the Fu Family and he did not want the Wei Family to be involved.

Chapter 1516: Mrs. Fu

Mrs. He looked at Mrs. Wei in fright and begged.

“Sister, you know that He Xu’s father died early and it was not easy for me to bring him up alone. You are his aunt and you can’t watch the He Family suffer.”

“Aunt, you are the cause of this mess, haven’t we helped you enough all these years?” Wei Ziting looked at Mrs. He who was on the verge of kneeling down and begging him. He snorted. “I told you to behave yourself in the capital, but you didn’t!”

In the eyes of ordinary people, the He Family and the Wei Family were very wealthy, but there were many more people who were richer and more powerful than them in the capital.

They could have offended anyone, but they had offended the Fu Family, whom they could not afford to offend.

Mrs. Wei glanced at Mrs. He and said with a serious face, "I had asked you to leave, but you did not want to suffer any losses. Who knows what will happen after you've made a fuss?"

When she left the morning education center, she told them to pack up and leave the capital. As for the properties and the company, the Wei Family would sell them back to them and they would not be at a disadvantage.

But her sister-in-law turned around and called the police and the TV Station, making a big fuss.

She did not pay attention to the news online until her son Wei Ziting returned. Then she realized that the matter had blown up.

Although the Wei Family was a prestigious family in the capital, they were nothing compared to the Fu Family.

"It was just a bump from the child, why did it have to turn out like this?" Mrs. He still could not believe that a small conflict at the morning school would make them unable to stay in the capital.

"You don't think so now, but where did you go before?" Wei Ziting snapped back.

It was just a small bump for the child, but the reason why the matter had reached this stage was because of the adult's attitude.

This aunt normally held her grandson in her hands, fearing that he would fall. She treated him like a chocolate that if she held it in her mouth, she was afraid that it would melt, so he was like a little ancestor to her.

But now, because she spoiled her grandson, she had caused so much trouble.

Mrs. Wei glanced at her angry son and whispered, "I asked you to come here to think of a way, not to argue."

"They have already offended them thoroughly, what else can we do?" Wei Ziting sounded unfriendly.

He could not plead with the Fu Family about this matter, but even if he had a way, he did not want to get involved with this mess again.

Mrs. He bit her lips and mumbled, "How would we know that the two children of that vulgar woman would belong to the Fu Family?"

Wei Ziting snorted and said, "There are so many people in the capital who want to meet Mrs. Fu and suck up to her, but they can't even meet her. You guys are so nice to have offended her so badly."

After the He Family made a fuss in the media, some netizens started to blame the Fu Family for bullying others.

But most of the companies in the capital were asking about the mother of the twins, Mrs. Fu.

Fu Hanzheng had always been very professional when it came to business collaborations, and very few people dared to flatter him.

Therefore, they all thought that if they could meet Mrs. Fu and ask her to put in a good word for them, it would be very beneficial for them to get to know her.

But when so many people in the capital were trying to get information about Mrs. Fu, the He Family had totally offended her.

Chapter 1517: Secret Marriage

Hearing her words, Mrs. Wei looked at her sister-in-law in disappointment.

“Do you remember what Mrs. Fu looked like?”

Mrs. He and her daughter-in-law exchanged a look and shook their heads.

“I only remember that she was wearing black-framed glasses, nothing special.”

“Nothing special?” Mrs. Wei was confused. With Fu Hanzheng’s status, Mrs. Fu should not be so unremarkable.

When she rushed over, Mrs. Fu had already brought the child to the hospital and she did not see her.

Many people went to the morning training center to check the CCTV, but the Fu Family had already removed the CCTV.

Therefore, the public only knew that Fu Hanzheng and someone else had a hidden marriage and that they had twins.

But no one knew who the Mrs. Fu he married was.

“She looks very ordinary and dressed casually,” Mrs. He’s daughter-in-law said.

Mrs. Wei pursed her lips. Mrs. Fu, who was able to marry Fu Hanzheng, was not an ordinary person.

Forget it, they were brainless people, so she could not expect them to be able to tell her anything.

Wei Ziting checked the time and said impatiently, “I have booked the plane tickets for tonight, pack up and go to the airport.”

“You really want us to leave?” Mrs. He still did not give up.

Mrs. Wei sighed. “If we don’t leave now, it will be too late.”

“Maybe... maybe they are just trying to scare us. Don’t you see that there is nothing happening now?”

Mrs. He looked at them and said, “No one from the Fu Family wants us to leave. We are just scaring ourselves.”

“You have offended Fu Hanzheng’s wife and injured his daughter, do you think that everything will be so easy to get over?” Wei Ziting looked at his naive aunt. If the He Family was going to disappear from the capital, the Fu Family would not have to do it themselves.

As long as he gave the order, someone would soon do it for him.

“Even if I had a bad attitude back then, his child was not seriously injured. If you want me to apologize, I can apologize to him. Why make a big fuss out of it?” Mrs. He made up her mind. At most, she would lower her head and apologize to the Fu Family.

Wei Ziting looked at his mother and said coldly, “I have said what I need to say. If they still refuse to leave, don’t look for me or drag the Wei Family down.”

He had done everything he could to persuade them and if they still refused to leave, he would be helpless.

“It is already so late and we haven’t even eaten anything. How can we make it in time if we leave in such a hurry?” Mrs. He sized up the messy house and was unwilling to leave.

Wei Ziting said straightforwardly, “Then you can do whatever you want, just leave us alone.”

Having said these words, he tugged at Mrs. Wei’s sleeves, indicating that she should leave too.

Mrs. Wei sighed and tried to persuade He Xu.

“Take the time to pack up and leave tonight. As for what happens after that, I will talk with the Old Master and find someone to talk with the Fu Family.”

Anyway, it was impossible for them to stay in the capital any more.

At least not in the short term.

He Xu nodded. After Wei Ziting and his mother left, he and his wife finally packed up.

But Mrs. He refused to leave and the family spent the entire night together.

However, the company called early in the morning.

“President He, the people from the prosecution and tax bureau are at the company. They said that they want to ask you some questions about the bidding of Heng Yang 2. They are waiting to see you.”

He Xu’s hand shivered and his face turned pale.

Chapter 1518: Useless

“What is it? What happened?” Mrs. He asked nervously.

He Xu looked at his mother who had brought him up single handedly and felt both angry and annoyed.

“Mom, now are you satisfied? We don’t have to leave the capital.”

“You don’t need to leave?” Mrs. He was overjoyed, thinking that it was because she had exposed the situation to the TV Station. “I knew it, they were just trying to scare us, but they really couldn’t drive us out of the capital. This Fu Family is not a Fu Family...”

“I don’t need to leave, but I may be sent to jail.” He Xu glared at his incompetent mother.

“Sent to jail? What jail?” Mrs. He asked anxiously.

He Xu did not want to talk with her anymore, so he called Mrs. Wei first.

“Aunt, the project of Heng Yang 2 has been checked and the people from the prosecution and tax bureau are already at the company...”

Mrs. Wei had just woken up and panicked when she heard the news.

“Wasn’t this matter kept under wraps?”

He Xu sighed. “The Fu Family is the only one who has the ability to reveal what we have been hiding.”

When the company was first established, he used improper methods to win the bid for the second project of Heng Yang Enterprise. It was also because of this project that his company gradually gained a foothold in the capital.

However, it was impossible for the newly established company to get a project like Heng Yang 2, so the Wei Family had bribed the responsible contact and his company successfully took over the project, bringing huge profits to the company.

During this period, he had tried all kinds of methods to avoid taxes.

Due to the protection of Far East Enterprise, no one had found out anything about him.

Now that the news was out, his company would not only be fined a large amount but he could also be jailed for years.

This matter had been very peaceful for the past few years, but it was dug out today and the people from the prosecution department came to their door so quickly.

After all, it was because of the Fu Family. Only the Fu Family could find out this information without being suppressed by the Wei Family.

Mrs. Wei brushed her hand through her hair in frustration and asked with gritted teeth, “Why didn’t you leave last night?”

If they had left last night, even if the people from the prosecution department had gone to the company today, they could still think of a way to plead with the Fu Family and make the matter smaller.

But the people from the prosecutor’s office had gone to the company and if they left now, they would be considered as having run away.

He Xu looked at his mother who kept asking him questions. “Forget it, it is useless to say these things. I will go to the company to take a look. Aunt, help me hire a good lawyer.”

But if the Fu Family wanted him to suffer, it would be useless to hire a good lawyer.

“Got it, don’t say anything when you are there, we will think of something,” Mrs. Wei said.

She had been worried that the Fu Family would continue to pursue the matter after seeing the reports online.

Sure enough, what was supposed to happen was here.

He Xu hung up the phone, looked at his mother, Mrs. He, with an ashen face and hugged his tearful wife.

“Take good care of yourself and the child, I may not be able to come home for some time.”

“What happened? Explain yourself!”

Mrs. He did not understand what had happened, but she could tell from her son’s expression that it was not a good thing.

He Xu grabbed his coat and car keys and hurried to the company for the investigation.

Mrs. He ran out and saw He Xu driving away. She made a call to the police after returning home.

“Is this the police station? Someone wants to harm my son. If they are after our family, then it must be the Fu Family, the Fu Family of Fu’s Enterprise...”

Chapter 1519: Useless 2

He Xu’s wife grabbed the phone and smashed it in front of her.

“Are you done? Are you not satisfied until you kill us all?”

If she had not made things difficult for Mrs. Fu and the two children, they would not have offended the Fu Family.

They had planned to leave the capital and leaving the capital would definitely affect the company, but as long as the arrangements were right, the losses would be minimized.

But she refused to leave and kept seeking death by going to the media, claiming that Fu’s Enterprise was trying to kill their family.

And now they could not leave.

Mrs. He slumped on the sofa and cried bitterly.

Mrs. Wei did not even eat breakfast at home and rushed to the He Family. Before she entered the house, she heard Mrs. He crying.

“Why didn’t you leave last night?”

They had booked the plane tickets and arranged the car, but they were still here.

He Xu’s wife squinted at Mrs. He who was crying. “She refuses to leave. She is sick and in pain.”

Mrs. Wei calmed herself down and bellowed at Mrs. He.

“Enough, stop crying. You are the cause of everything.”

“Why are they arresting people? Why are they arresting people?” Mrs. He cried until she was out of breath and said to Mrs. Wei, “Is it really necessary to arrest people for such a small matter? Is it really necessary?”

“It is not up to you or me to decide,” Mrs. Wei said coldly.

Mrs. He gritted her teeth and said, "I am going to ask the media to see how the Fu Family have bullied us and forced us into a corner..."

Mrs. Wei frowned, picked up a cup of cold water from the table and splashed it on Mrs. He's face.

"Is the situation still not messy enough?"

"What do you want me to do? They are taking my son away!" Mrs. He asked furiously.

Mrs. Wei took a deep breath and said, "If you don't want He Xu to live, you can continue making a fuss. If you make a fuss, your family will be ruined and you will not make it out."

Mrs. He wiped the water off her face with a napkin and seemed to have calmed down.

"What should we do now?"

"If you had left the capital without hesitation, you wouldn't have lost anything. Now, not only will the company face a huge fine, He Xu might even be imprisoned. You..." Mrs. Wei looked at Mrs. He and did not want to scold her anymore.

"Can't we help He Xu at all?" Mrs. He asked worriedly.

Her husband had died early, and her son was her life.

"How do you want to help?" Mrs. Wei squinted at her and snorted. "If you ask the media reporters to back you and accuse the Fu Family of bullying your son's company, who would believe you?"

Now it was the people from the prosecutor's office who were investigating, and the unfair competition and bribery were all true.

But they had never found out about it.

But after she made a fuss with the media, the Fu Family decided to reveal the truth, so that He Xu's company would be fined heavily and he might even be detained.

They knew that the Fu Family was behind all of this, but it was not the Fu Family who was doing the work. They were just adding fuel to the fire.

So no matter what she said in the media, no one would believe her.

After all, they had indeed tampered with the Heng Yang 2 project and used unusual methods to compete for it.

Chapter 1520: Useless 3

The Fu Family was behind all of this.

But they had done those things themselves. What the Fu Family had done was to let some related departments know about these unknown things.

From the beginning to the end, she was never able to resist the Fu Family.

Then no matter what she said in front of the media, they would just think that she was crazy.

Mrs. Wei knew very well that it was impossible to retreat at this stage, but at least the He Family would suffer the least losses.

But the prerequisite was that they should not act rashly and force the Fu Family to do something.

“Then there is nothing we can do but watch them take him away?” Mrs. He asked anxiously.

Mrs. Wei sighed and said, “As long as you stop provoking the Fu Family, He Xu will not be held for long.”

“How much is the fine?” Mrs. He asked.

Mrs. Wei sighed deeply. “I am afraid that you will have to spend all of your money.”

“So much?” Mrs. He was so frightened that her face turned pale.

Seeing her devastated face, Mrs. Wei said coldly, “When you were here, I warned you to be polite when you speak or do things in the capital. However, you saw that He Xu’s business has improved these past two years and you no longer regarded anyone as important. There are always dragons and tigers in the capital, but you just had to offend the Fu Family, whom you should not have offended.”

Mrs. He realized that she was in the wrong, so she bit her lips and mumbled, “It is just a small matter and yet it has reached this stage. So what if they are rich and powerful?”

Mrs. Wei sighed speechlessly. “It is such a small matter and you started it yourself. Who can you blame now?”

She had done everything step by step.

She was worried that she would cause trouble again, so she hurried here.

“Then... what should I do?” Mrs. He asked guiltily.

If she had known that such a small conflict at the morning education center would bring such a disaster to the He Family, she would not have done that.

But there were no ‘what ifs’ in the world. What happened had happened, and she could only accept it.

“Don’t say anything, just wait at home.” Mrs. Wei warned.

Mrs. He thought for a while and said, “Sister, you must have a way for me to meet the Fu Family, right? Take me to the Fu Family and I will apologize to them. As long as they let He Xu go, I can do anything.”

...

“It’s too late,” Mrs. Wei said coldly.

If she had had this attitude back at the morning education center, things would not have turned out this way.

Now when she saw that her most beloved son was in trouble, she truly felt her heart ache.

“It is not too late. If you bring me there, I will even kneel and kowtow, as long as they let my son go,” Mrs. He said.

However, Mrs. Wei turned her down.

“The Wei Family has been in the capital for years, but we have never had any direct contact with the Fu Family. We have not even reached the threshold of becoming a famous tycoon.”

Actually, there were some friends of hers who were familiar with the Fu Family, but they would not be willing to introduce them to each other.

Also, although she wanted to help the He Family, she did not want the Wei Family to be involved.
