

The National Goddess Reborn 261-269

Chapter 261: Do You Like Me? (3)

He looked at Nian Yue, wanting to hear her reply.

However, Nian Yue did not reply after waiting for a long time.

On the other hand, Nian Yue looked at him curiously. Her eyes were extremely clean.

She gave him the impression that if he didn't clear her doubts, he would feel guilty from the bottom of his heart.

"Cough, cough..."

Lin Lang coughed dryly. "I suspect that someone close to you saved you..."

However, according to the information he had found, Nian Yue's mother had already died 18 years ago, and her father was missing.

"I think so too." Nian Yue crossed her arms and leaned lazily against the wall. "Is there a surveillance camera?"

Someone had come to her room while she was unconscious.

He had interacted with her body before.

She could clearly feel it.

“Sorry, no.”

Was he tired of living?

How would he dare to set up surveillance cameras in the room of Fu Xiuyuan’s wife?

Wouldn’t he have to say goodbye to this world in advance?!

“Then you were quite talkative just now.” Nian Yue raised her eyebrows and stood up from her seat. She casually took the medical book over and asked, “Do you mind if I read this for a few more days?”

“I don’t mind, I don’t mind.”

Lin Lang waved her off.

In any case, she couldn't surpass Fu Xiuyuan no matter how much she read.

After all, that was someone whom all the heads of the various countries were willing to support.

"Thank you."

Nian Yue waved her hand and left.

Lin Lang chuckled as he watched her leave.

How adorable.

...

When Nian Yue pushed the door open and entered, Fu Xiuyuan was dealing with business at his desk.

Fu Xiuyuan seemed to be very free these few days.

He spent most of his time chatting with her.

He only brought his computer over to handle work today.

He was in a meeting when Nian Yue left. Now that she was back, he was still dealing with it.

Nian Yue raised her eyebrows. Seeing that he was busy, she put down her book and was about to leave.

Fu Xiuyuan had already retracted his computer and leaned back in his chair. "The wind is strong outside."

Her injuries were not healed yet, and it was not appropriate for her to go out.

"Are you done?" Nian Yue walked over slowly.

"Fortunately, I'm not very busy." Fu Xiuyuan's lips twitched as he glanced at the medical book in her hand. "Are you interested in Chinese medicine?"

"I'm just a little bored." Nian Yue casually passed the book to him.

Fu Xiuyuan took it and flipped through two pages. "The Imperial University has a module in pharmaceuticals. If you're interested, you can learn more."

"Oh, sure."

Nian Yue yawned. "Go ahead..."

Just as she was about to leave, her wrist was grabbed by someone. Nian Yue turned around and met those deep eyes.

"Do you want to try it out?" Nian Yue suddenly asked.

Fu Xiuyuan glanced at her chest.

Because she was wearing a hospital gown, it was a little loose and draped over her body.

It made her look even more frail.

"Sure..."

Before Fu Xiuyuan could finish speaking, Nian Yue stretched her muscles and threw a punch.

After being a porcelain doll for a few days, she had long wanted to exercise!

“Heh...”

Fu Xiuyuan dodged over and looked at her helplessly.

Seeing that she had been obedient for a few days, he thought that she had changed.

He did not expect her to be as troublesome as before.

Nian Yue had never fought with Fu Xiuyuan, but her instincts told her that this man was not weak.

It was vaguely above her.

The two of them started sparring very quickly. Nian Yue’s eyes were filled with interest.

It had been a long time since she had encountered such a troublesome opponent!

Fu Xiuyuan really made her excited!

Both of them were extremely fast, so fast that only the silhouette of their movements could be seen!

Five minutes later

Nian Yue kicked him!

Fu Xiuyuan felt a little helpless when his ankle was grabbed. "Your injury hasn't recovered yet. If you continue fighting, you'll have to stay in the hospital for another half a month."

He could play with her occasionally as long as she was happy. But not if it threatened her health.

Only then did Nian Yue retract her foot slowly. "It was a draw..."

The moment she turned around, she suddenly turned around and grabbed Fu Xiuyuan's wrist. She was about to move behind him when he quickly dodged!

Then, she fell straight down!

The floor was behind her. If she fell like this, her injuries would probably worsen!

Nian Yue was about to turn over and get up when she felt a grip on her waist and she was already brought into Fu Xiuyuan's embrace.

Nian Yue opened her eyes and met the man's deep eyes.

"Yue Yue, you really like to throw yourself at me."

Fu Xiuyuan's lips twitched, a hint of teasing in his eyes.

He seemed to like this restless personality.

"Sorry, I used too much force." Nian Yue rubbed her temples. She just felt that the previous fight should not have ended so quickly.

She wanted to test Fu Xiuyuan's ability again, but she didn't expect it to backfire.

Chapter 262: Treat her Himself (1)

However, she forgot that her waist was still being held. She subconsciously wanted to stand up, but she felt a force on her waist and she fell again!

Her lips heated up and she saw that magnified handsome face.

It was only when she met that pair of teasing eyes that Nian Yue suddenly felt that she might have been taken advantage of?

But why did she feel like she was the one taking advantage of him?

After all, if she were to compare her appearance with Fu Xiuyuan, she would be more biased towards him.

However, it would be a waste not to take advantage of someone who delivered himself to her doorstep!

At the thought of this, Nian Yue narrowed her eyes and deepened the kiss.

When the kiss ended, Fu Xiuyuan pinched her cheek. "You're pretty bold?"

Other girls would be shy but she had used her rights with her boyfriend and pressed him under her.

In the entire country, only she had the guts.

"I'm alright." Nian Yue got up from him. "After all, I was taking advantage of you."

She could not afford to lose out.

...

At the Mercenary Headquarters, the shadow came over with a brocade box in both hands. "Regiment commander, this is a gift from the Alliance Master."

Mo Yi could not even be bothered to look up. His face was still filled with a cynical smile, but his eyes darkened. "Has the big gift been delivered?"

"I sent it over."

The shadow was still maintaining his posture. "In order to express his apology, the president specially sent you a gift."

"You should like it..." The shadow added.

He was afraid that with Mo Yi's sloppy personality, he might throw the thing away without even looking.

"Give it to me," Mo Yi said lazily.

The shadow handed the brocade box over. Mo Yi opened it casually. When he saw the contents, his eyes were filled with interest.

"Violet Spirit Grass?"

This was something rare even in the International Alliance.

"The president said you might need it."

The shadow lowered its head.

He knew that Nian Yue was seriously injured.

This herb had the effect of resurrecting the dead.

Mo Yi would not reject it.

“Got it.”

Mo Yi’s expression could not be seen. “Remember to ask him to prepare more next time. What’s one stalk worth?”

The shadow was speechless

If this plant was placed internationally, it would probably be snatched away by a group of people, right?!

“Oh right...”

The shadow was about to leave when he was stopped by someone behind him. “Give this grass to Yue. She will probably like it.”

It had been three days

If she still did not wake up, he would think of a way to go to Country Z and snatch her away to treat her himself.

...

Nian Yue had been recuperating for half a month. Most of the time, she was reading Lin Lang's medical books. Occasionally, she would find them boring and would stay in the laboratory with Lin Lang to fiddle with some reagents.

Lin Lang's jaw almost dropped when he saw her concoct another bottle of reagent.

This was the tenth bottle he did not manage to concoct well. He passed it to Nian Yue and she concocted it easily.

"It's really a waste if you don't learn pharmaceuticals!"

He could not figure it out. Nian Yue was so talented, why did she not go to medical school?

Back then, Qu Fu and Manxi were talented in pharmaceuticals and were treated like treasures by Teacher Su.

If she had known that Nian Yue was so talented, she would have gone crazy long ago!

"Imperial University has pharmaceuticals." Nian Yue looked up and casually passed the drug to him. "You can't solve problems fast using your brains."

Lin Lang was speechless.

Compared to using her brain, Nian Yue preferred to use brute force to solve problems.

...

“How is Manxi?”

Teacher Su stood in front of the hospital bed and frowned.

“She was frightened. She should be fine,” the doctor said. “She’ll wake up later.”

When Manxi woke up, she saw Teacher Su standing in front of the hospital bed with a rarely seen ugly expression.

“Teacher Su?”

“Who was the last person you saw before you fainted?” Mr. Su asked.

“It should be Nian Yue...”

Manxi rubbed her temples. “She must have offended the International Alliance...”

She could see the symbol on that woman’s body clearly.

It was a black datura symbol.

It was the unique symbol of an elder of the International Alliance.

“The International Alliance?”

Teacher Su narrowed her eyes. “Don’t tell anyone that I came over.”

“Okay, I know.”

Manxi nodded.

“There will be a potion competition in a few days. I hope to see you then.” Before Teacher Su left, she did not forget to remind her.

Chapter 263: Treat her Himself (2)

“Okay.”

Manxi nodded and the room fell silent again.

The scene before she fainted still lingered in her mind.

The international alliance sought to catch Nian Yue and wanted her blood.

What was in Nian Yue’s blood?

Manxi narrowed her eyes. Was it because of her supernatural power?

...

Nian Yue had been recuperating for half a month but had not lost contact with the capital.

Occasionally, Wang Zhizhi would send her a message to tell her about the situation in the Imperial Capital. Most of the time, she would study the books in the laboratory base.

Occasionally, she would take time to help Lin Lang purify some medicine.

While she was away, the Imperial University had already started a pharmaceutical course.

The first lesson of the pharmaceutical class began. Teacher Su held the student register and took attendance.

When she called Nian Yue's name, no one answered.

"Where's Nian Yue?" Teacher Su looked around.

"She took leave."

Wang Yang raised his hand lazily.

"Is there a letter of permission?"

"No." Wang Yang didn't even look up. "General Yin specially approved it."

The teachers were already used to Nian Yue's sloppy personality. After all, even if she did not come, she could still complete the tasks assigned to her.

Teacher Su did not say anything. She put down the name list and swept his gaze across the class. "I know that you guys can enter Imperial University's Class A and are all prodigies, but with me, everyone is treated equally."

She did not say it explicitly, but everyone knew what she meant.

Li Yi lazily glanced at her, his expression unclear.

However, when class ended, Jin Xuan called out to Teacher Su.

"Teacher Su, I approved Nian Yue's leave."

Jin Xuan was wearing a pair of gold-framed spectacles. A classmate saw him and greeted him.

As a god-like figure in his second year of university, coming to teach Class A this semester had already given him a mysterious aura.

"I haven't seen her yet, but she's quite popular." Teacher Su glanced at him lazily. Since Jin Xuan had specially come to greet her, she had to be polite.

“Since you’ve told General Yin, I won’t say anything.” Teacher Su’s lips twitched. “As long as she doesn’t fail the subject, I’ll pretend that this never happened.”

Before Jin Xuan could say anything, Teacher Su had already left in her high heels.

Jin Xuan chuckled.

He raised his eyes and looked into the distance. The sky was dark and heavy. Snowflakes had already drifted down from the sky.

When was Nian Yue coming back?

Life at the Imperial University without her was quite slow.

He was quite looking forward to the day when Nian Yue would return.

...

“Your vital signs look good. Although your physical data seems a little unstable, there isn’t much difference compared to before,” Lin Lang said to Nian Yue, who was lying on the hospital bed, holding the report that Nian Yue had just checked.

Nian Yue sat up from the bed. When she saw her physical statistics, she frowned. “It’s fallen a little too much.”

She had always been strict with herself. Although she was usually sloppy, she had never gone easy on her training.

This was a habit she had developed as a soldier in her previous life.

“After all, your body can’t do strenuous exercise...” Lin Lang’s lips twitched. “I suggest that you don’t do any strenuous exercise for half a year...”

After all, a gunshot wound was not a joke.

“I’m sorry, but I won’t take your suggestion.”

Nian Yue took the data report and threw it into the shredder. “I’ll get going first. Thank you for your hospitality.”

“How carefree...”

Lin Lang rubbed his temples helplessly as he watched her leave.

With Nian Yue seriously injured this time, she would probably have to face the international alliance next.

Although he quite liked Nian Yue staying here to chat with him, her words were a little annoying sometimes.

But he wanted her to be healthy. Lying on the hospital bed was sickly and not suitable for her.

Sensing the burning gaze at the door, Lin Lang subconsciously turned his head and saw a man standing at the door.

Lin Lang suppressed the joy in his eyes and asked, "What does Young Master Fu want?"

"I don't want to see her data report anywhere else."

Nian Yue's body was too special and too many people coveted her.

Returning to Imperial University was the safest thing for her.

“Don’t worry, Young Master Fu. I know what to do.” Lin Lang pushed his glasses up the bridge of his nose. “Nian Yue will probably like the medical books I’ve just sorted out.”

He casually took a few medical books from the drawer.

Nian Yue’s ancient language comprehension ability was not too good. She looked like she was struggling with the original language.

Chapter 264: Treat her Himself (3)

These books were translated by him.

He had deep medical knowledge and had translated some ancient languages better than what was sold on the market.

Fu Xiuyuan glanced at the few beautifully packaged medical books in his hand, his eyes deep. “No need.”

The aloof man turned around and left. When he reached the door, he paused. “Don’t entertain thoughts you shouldn’t have.”

The room fell silent again.

Lin Lang looked at the medical books in his hand and smirked.

He threw the books into the rubbish bin.

...

The private jet back to the capital from the laboratory base belonged to the Fu family.

Because the Imperial University was special to the country, it had a small airport.

However, it was rarely open.

It was only when the president came to inspect that a special passage would be opened.

Today, the airport was opened for the first time.

The plane stopped. Nian Yue was about to get off when her wrist was grabbed.

Nian Yue turned around and saw a cold man with deep eyes.

A hint of doubt flashed past Nian Yue's eyes. After thinking for a long time, she turned around and kissed the side of his face.

"Be good."

Before she left, Nian Yue did not forget to remind him.

She had seen scenes like this in television dramas when she came to this world.

She had never had a boyfriend, but this was how she saw it play out on television. However, she subconsciously portrayed herself as the male lead.

It seemed like Fu Xiuyuan was the little wife who was waiting for her to come home. If Fu Xiuyuan knew what she was thinking, he would probably be angered to death.

"Let's go."

Fu Xiuyuan's lips twitched and a rare hint of gentleness appeared in his deep eyes.

...

Knowing that Nian Yue was coming back today, Wang Yang, Li Yi, and the others had been waiting for a long time.

She still looked sloppy. Nian Yue had one hand in her pocket, but she had lost weight in half a month.

“Yue Yue, you’ve lost weight...”

When Wang Zhizhi saw her, she suddenly pounced into her embrace. “There’s no flesh left. It’s not as comfortable as before...”

In the past, Wang Zhizhi did not have the guts to interact intimately with Nian Yue.

After all, Nian Yue had the aura of a big boss. One look at her and her heart would race for a few days.

“You’ve never hugged me before.” Nian Yue rubbed her hair and said with a rare gentleness.

Wang Yang, Lin Nan, and the rest looked at Wang Zhizhi with jealousy.

They also wanted Nian Yue to hug them...

However, when they thought about how they, as men, might have their hair rubbed by Nian Yue, they felt a chill in their heart.

Forget it. They would let Nian Yue maintain her aloof personality in their hearts.

“Boss, why did you disappear for so long this time?”

Li Yi asked as he released Wang Zhizhi.

“I had to deal with something that was troublesome.” Nian Yue’s lips twitched.

“How are your injuries?”

Lin Nan sized her up a few times. However, Nian Yue was dressed too tightly, so he could not tell.

“Yes.” Nian Yue nodded. “I’m fine.”

The few of them walked back with her. They knew that Nian Yue had a cold personality and there were probably reasons why she was unwilling to say more.

When Nian Yue was willing to speak, they were willing to listen at any time.

“By the way, the pharmaceutical class has been in progress for almost half a month. Take some time to go to the class. I think that Teacher Su has quite an opinion of you.”

Lin Nan reminded her.

“Who cares?” Wang Yang whistled. “No matter how well she learns, will that give her the joy of actual combat?”

If Nian Yue hadn't been here, he would have gone to the army camp with Li Yi.

He could find a sparring partner anytime he wanted there. it was terribly boring where they were.

He could not use his full strength in a fight. After all, if he crippled someone, Nian Yue would have to clean up the mess.

“Are you itching for a beating?” Nian Yue glanced at him lightly.

“No, no, no...”

Wang Yang hurriedly waved his hands. He had no intention of fighting with Nian Yue.

“I’ll see you at the arena tonight.”

Nian Yue stretched her muscles. Since she had been idle for more than half a month, the various statistics on her body decreased drastically.

She could still use Wang Yang to practice.

She also wanted to see if these people had been lazy in the two weeks that she was gone.

“Boss, I was just joking. Don’t take it seriously!”

Wang Yang was filled with regret!

“Take care.” Lin Nan gave him a knowing look.

Of all the people he could have offended, he had to offend Nian Yue. Wasn’t this a masochistic move?

The group of them chatted and laughed as they went to the dining room. When they came out of the dining room after eating, Nian Yue was stopped.

“Hello, Miss Nian. This is your parcel. Please sign for it.”

The person who stopped her was the delivery boy.

“Where was it sent from?” Nian Yue raised her eyebrows.

She did not have the habit of shopping online and rarely bought anything.

“This is an international parcel.”

Nian Yue received the parcel. It was filled with a long string of English addresses, but she had no impression of them.

Chapter 265: It's Time to Settle Our Feud (1)

Nian Yue took the pen and signed it.

The bag was not big and the wrapping was very tight. It was not an ordinary paper box but a waterproof material..

The packaging alone would cost more than ten thousand dollars.

Nian Yue raised her eyebrows and casually opened the package. Inside was a palm-sized brocade box.

The moment Nian Yue took the box, she felt an endless stream of wood-elemental powers.

Violet Spirit Grass?

Nian Yue raised her eyebrows.

This thing was extremely helpful in helping her recover from her gunshot wound.

Even those who were not injured could use it to cleanse their marrow and improve their physical fitness within a short period of time.

Who was so generous?

Nian Yue rubbed the brocade box and felt a faint electric current slide across it.

Mo Yi!

Of the people she knew, only that sick man had the same power as her.

Nian Yue smirked and kept the item.

One Violet Spirit Grass was equivalent to owing Mo Yi a favor.

She would have to pay it back in the future.

However, with this Violet Spirit Grass, it could at least guarantee that her body would recover in the short term.

She could do strenuous exercises.

After all, she was not supposed to exercise vigorously for at least half a year after the operation.

After putting away the Violet Spirit Grass, Nian Yue went straight to the arena.

Before Wang Yang went on stage, he was dejected.

“If I die, my inheritance will be inherited by Boss.”

“In order to not inherit your assets, Boss will also show mercy,” Li Yi yawned, ignoring his cries.

He was the best at pretending.

He looked like a simple-minded person, but when he was on the field, he was a different person.

He would beat his opponents to death.

Therefore, during the combat class, he was the only one who was given a group. After all, those coming up against him had to be prepared to be beaten to death.

He could not be bothered with Li Yi and went on stage to fight with Nian Yue.

Half an hour later, the two of them came down from the stage drenched in sweat.

“Get up.”

Nian Yue was already drenched in sweat. Her hair was wet and stuck to her face, giving her an aura of abstinence.

He grabbed her hand and stood from the ground. "Thank you very much."

"You can train more."

Nian Yue smirked. This was equivalent to giving affirmation to his performance.

She rarely praised people. Everyone in the special forces knew that it was harder than ascending to the heavens to get her approval.

"Boss, have you regressed?"

He stood up and asked curiously.

In the past, it would have been much more strenuous for him to fight Nian Yue.

But now, he had actually fought with Nian Yue for half an hour. Even he found it strange.

In any case, he did not believe that he could improve so quickly.

“Yes.” Nian Yue stretched her muscles. “I haven’t been moving for half a month, so I’m a little behind. I’ll recover in a week.”

She had a detailed plan for herself. Coupled with the effects of the Violet Spirit Grass, she was confident that she could return to the peak of her previous life.

It was only when they returned to the dormitory that Nian Yue took out the Violet Spirit Grass. She raised her hand slightly and under the effect of her wood-elemental power, a purple herb was already floating in the air.

At the same time, an endless stream of foreign powers entered her body.

Ten minutes later

The faint purple Violet Spirit Grass became more and more transparent in the air before finally disappearing.

Nian Yue opened her eyes. Her eyes were as deep as ever, but at this moment, they were extremely bright.

Nian Yue's lips twitched. This Violet Spirit Grass was extremely helpful to her!

She could already vaguely feel that nearly eighty percent of her strength from her previous life had returned!

This also meant that her current superpower was vaguely above Mo Yi's.

The goal she had set for herself was to tie with Mo Yi. She could not improve slower than him.

But now, she had more important things to do.

"I found the person you were looking for..."

The aloof girl received a call from Fu Xiuyuan.

"Give me your location." Nian Yue raised her eyebrows.

The message was sent to her very quickly. Nian Yue raised her eyebrows when she saw the exact location. "Don't go."

It was naturally better for her to take revenge herself.

“Alright, contact me anytime if you want someone.” Fu Xiuyuan nodded. He knew that Nian Yue abhorred evil, so it was naturally better for her to take revenge herself.

“Yes, thank you very much.”

Nian Yue hung up the call and took off her down jacket, revealing a white shirt underneath.

Snowflakes fell from the sky. Nian Yue jumped down from the third floor.

Chapter 266: It's Time to Settle Our Feud (2)

She jumped down from the third floor without making a sound.

In the night, her figure became smaller and smaller before disappearing.

...

At the same time

Li Zhizi stood outside the airport, looking a little anxious. She had already waited for three days and the other party said that they would come and pick her up today, but there was still no news.

“What’s the rush? It’s been half a month and nothing has happened. She might already be gone,” the man said slowly.

“No.” Li Zhizi shook her head. “I have a feeling she’s fine.”

She had deliberately held back at that time and would not have taken Nian Yue’s life.

Now that half a month had passed and Nian Yue had not come to look for her, she felt a little flustered.

The sound of a plane overhead made Li Zhizi’s eyes light up. “The commander-in-chief has sent someone...”

The plane stopped in front of them and a man in military uniform got down. “Where is she?”

This was the first thing Jack said when he came down.

“She was shot twice and was taken away...” Li Zhizi braced herself and replied, “It was the Fu family...”

There was no doubt about the Fu family's status in the International Alliance. No one dared to risk their lives to go against the Fu family.

"The Fu family..."

Jack scoffed, his face full of pride. "Has he forgotten whose world the International Alliance is now?"

"He has a destructive power..." LI Zhizi was still frightened when she thought of the flames that day.

She had only vaguely heard about that man before, but when she saw him use his supernatural power, she realized how terrifying that power was!

"Destruction-type?"

Jack was interested. "Fire-type supernatural power?"

Among the five elements, fire and lightning powers were the most terrifying.

Lightning power existed in Nian Yue. Therefore, the first destructive power that Jack thought of was the fire element.

“It’s light blue...”

Li Zhizi did not dare to think back to that day.

One of the two kings of the International Alliance used a light blue supernatural power.

She had only heard of the two kings and had never seen them.

“Two kings?”

Jack raised his eyebrows. “In the capital?”

“I’m not sure.” Chestnut Zhizi shook her head. “He only appeared once...”

Jack’s eyes were deep and he thought of something. In the end, he only curled his lips.

“I really don’t want to take you back without completing the mission...”

Li Zhizi was shocked when she heard this and knelt down. "Commander-in-chief, please punish me!"

"Alright! Tell the president when we get back!" Jack couldn't even be bothered to look up.

The moment she turned around, she saw a slender figure on the railing not far away.

She still had that sloppy attitude, but her eyes were extremely bright...

"Nian Yue?"

Li Zhizi was the first to exclaim, "Are you alright?"

She had been on tenterhooks these few days. Only when she saw Nian Yue did she feel relieved.

"We should settle our feud."

Nian Yue stood up from the railing. It was clearly an arm-thick railing, but she stood as if she was walking on flat ground!

The silver bracelet on her wrist had become a small silver pistol!

Then, the gun was aimed at Jack!

“Someone from the International Alliance?”

Nian Yue raised her eyebrows.

“You want my life?”

When Jack saw her, his eyes revealed the excitement of seeing his prey!

“You must be dreaming!”

As the commander-in-chief of the international alliance, he had experienced hundreds of assassinations!

This was the first time he had encountered someone who came alone like Nian Yue!

However, he had to admit that he admired Nian Yue’s courage!

Although she was brave, she would have to return in disappointment!

“Let’s see who’s dreaming!”

Nian Yue’s lips curled up slightly and she was already in front of Jack in the blink of an eye!

She was extremely fast. The few of them only saw a shadow as the gun was already aimed at Jack!

At the same time, dozens of people had already appeared in the dark and surrounded them!

These people seemed to have appeared out of nowhere!

Li Zhizi did not dare to be careless and joined the battle!

However, the further she went, the more she realized that Nian Yue’s improvement was astonishing!

Compared to the previous time, Nian Yue was faster and more ruthless!

Similarly, it was more lethal!

The group of people under her actually had the vague intention of being defeated! Even Jack was forced to retreat by her strong momentum!

Countless water pillars had already appeared behind Jack. All the water pillars instantly turned into sharp blades and attacked her!

Chapter 267: It's Time to Settle Our Feud (3)

Another water-elemental power?!

Nian Yue narrowed her eyes and raised her hand slightly. Countless vines had already surrounded her!

There was a faint blue glow on the vines.

That was her lightning power!

Electric wood and lightning were used together!

“Pfft!”

Jack could no longer hold it in and spat out a mouthful of blood!

“Commander...”

“Commander...”

...

Li Zhizi could not care about anything else and wanted to rush to him.

However, the vines under her feet seemed to have eyes and wrapped around her ankles, making it difficult for her to move!

“I don’t care what your goal is...”

The aloof girl still had one hand in her pocket. Her eyes were extremely bright, but her words seemed to weigh a thousand pounds.

“Whatever you have done to me, I will return to you!”

Almost as soon as she finished speaking, the lightning power behind her had already surrounded the entire venue!

In an instant, there was lightning and thunder!

Snowflakes were falling from the dark sky.

At the same time, a few bolts of lightning flashed, illuminating the entire sky!

“Control lightning...”

Jack’s expression was already extremely ugly. “It’s even more terrifying than that person’s superpower...”

He had been careless!

He had thought that there would not be such a powerful Esper in the country!

However, Nian Yue’s appearance had completely shattered his understanding!

She was too awesome!

“You’ve realized it too late...” Nian Yue curled her lips and a few lightning bolts struck him!

With such a situation, they would lose a few lives!

When the air returned to silence, Nian Yue looked at her palm.

It did not feel good to have only recovered 80% of her Esper Ability.

Jack, who had been clamoring to teach her a lesson, was already lying on the ground.

...

– At the International Alliance headquarters –

“Jack was killed?!”

When Riel heard this news, she was furious!

She never expected that Jack would become a corpse when he returned from his trip!

“The commander-in-chief isn’t dead, but he has lost half his life.”

The person who came back to report was a little speechless. “I think that person used both wood and lightning...”

Just one lightning power was enough to make many people flock to an Esper.

No matter how powerful Jack was, he could not go against someone with lightning power!

“Lightning power...”

Rielle narrowed her eyes, which were dark. “Was it the man’s child?”

In this world, no one else but that person had such a powerful natural power.

“Let’s go to the Alliance Master’s Mansion!”

...

The people from the International Alliance came and went quickly.

“It seems like her supernatural power has improved quite a bit.”

Fu Xiuyuan’s lips twitched, and a rare hint of gentleness appeared on his face.

However, Fu Xiuyuan was still a little worried when he thought of how she had used so much of her supernatural power when her injuries had just healed.

He called her to ask about the situation.

When Nian Yue received Fu Xiuyuan’s call, she was on the way back.

Because it was night and it was snowing again, the sky was filled with heavy snow. She was only wearing a simple white shirt, and her face was a little cold.

Nian Yue stopped and stretched out her hand. A sparkling snowflake had already landed on her palm.

The street lamps overhead elongated her shadow, making her look even more lonely.

Nian Yue lowered her head, her long eyelashes casting a long shadow on her face.

“Look up.”

There was an inexplicable gentleness in the voice.

Nian Yue looked up and saw a man walking over with an umbrella in his hand.

He walked up to her and stood in front of her. Fu Xiuyuan raised his hand to hand her the umbrella, then took off his jacket and draped it over her.

The thick black coat and his body temperature did not seem out of place on her.

“Why are you here?” Nian Yue raised her eyebrows.

“Because you were there.”

Fu Xiuyuan took the umbrella from her hand and put his arm around her shoulders.

“Because you were there, I came.”

“I killed Jack from the International Alliance.” Nian Yue walked with him.

There was already a thick layer of snow on the ground.

The two of them stepped on it and made creaking sounds.

The hand holding her shoulder tightened. It was not possible to see Fu Xiuyuan’s expression. “You used your dual powers?”

“Yes.” Nian Yue nodded. “It’s more powerful that way.”

At that time, there were more than ten people surrounding her. Together with Li Zhizi and Jack, they were not so easy to deal with.

With her dual-elemental abilities, she could solve problems as quickly as possible while protecting herself.

“It’s alright. I’ll hold it for you even if you die.”

After a long while, Fu Xiuyuan's lips twitched. When his eyes looked at Nian Yue, they were filled with warmth.

It was just Jack.

He had ways to protect her.

"Even if he's not dead, he would be disabled." Nian Yue raised her eyebrows.

"Aren't you curious about your identity?" Fu Xiuyuan raised his eyebrows.

Chapter 268: A Slap in the Face (1)

Wave after wave of people from the International Alliance and Pandora arrived.

Their motive was to catch her.

Nian Yue rubbed her temples. "The only one who has lightning power and such perfect confidentiality measures is probably someone from the International Alliance."

This could also explain why the International Alliance had mobilized such a huge force to bring her back.

After all, lightning power was too powerful. Whoever could rope in its wielder was equivalent to having their own force.

Now that Nian Yue had both her supernatural powers, it would be strange if the people from the International Alliance did not come for her!

“Right, there’s one more thing...”

Nian Yue thought of what she had sensed while she was unconscious. “Lin Lang told me the person who came to save me during my coma was related to me by blood.”

Since she was not the biological daughter of the Nian Family, who were her biological parents?

“I’m also getting someone to investigate this matter.” Fu Xiuyuan’s lips twitched. “I believe the results should be out soon.”

After all, the Fu family had their own information system, and it was easy to check on someone.

All kinds of information about Nian Yue were encrypted. As long as he wanted to, he could find out if he spent more effort.

News of Jack being killed in the Imperial Capital because he wanted to catch the lightning-powered person spread quickly in the international alliance.

This made people even more curious about the person who had such great abilities that even Jack's henchmen were killed cleanly!

Fu Xiuyuan was very fast. He had already investigated the information in three days.

"Let's see."

When Fu Xiuyuan passed the information to her, Nian Yue did not shy away. As she opened the information and saw the contents, there was no emotion on her face. She only raised her eyebrows and asked, "Am I that person's daughter?"

The person she was talking about was one of the very few Esper Kings who had wood-elemental powers. Because they had extremely strong healing powers, they had an extremely high status in the entire country.

But this was twenty years ago.

Ever since the disaster twenty years ago, the Esper King disappeared, along with all the other Espers with wood-elemental powers.

Some of these Espers had died over the years, some were recruited by the new forces, but most of them disappeared into thin air.

“Yes.” Fu Xiuyuan nodded. “In principle, this is the only possibility.”

“Are you going to the International Alliance?”

Fu Xiuyuan continued asking. His eyes were deep, and when he stared at her without blinking, it was as if there were stars in his eyes.

Nian Yue casually placed the information on the table and crossed her arms. “Yes.”

She agreed readily. She also wanted to see how strong the International Alliance was. To see if everyone was as bad as Jack.

Jack was already one of the best experts in the international alliance. If that group of people knew Nian Yue’s thoughts, they would probably be angered to death. Were they just tools in her eyes?

“I’ll go with you.” Fu Xiuyuan’s lips twitched as he grabbed her wrist. His voice was very soft, but it sounded more like a promise.

The last time, he was not by her side and almost caused her to lose half her life. This time, no matter what, he had to face it with her.

Nian Yue raised her head and coincidentally met that pair of bottomless eyes.

Her heart warmed instantly, as if something was gradually filling her heart.

“Okay.”

After a long while, Nian Yue nodded.

No matter what they faced in the future, they would face it together.

This was probably the most valuable friendship she had gained after coming to this world.

Chapter 269: A Slap in the Face (2)

However, before she went to the International Alliance, she still had something to settle.

Because the pharmaceutical class had already been popular for a period of time, and because Nian Yue was not around, she had missed many classes.

Therefore, during this period of time, Nian Yue took the books related to potions and revised them earnestly.

Wang Zhizhi, who was watching from the side, was dazzled by her speed of flipping through the books. She was so shocked that her chin almost fell off. “Yue Yue, I know you missed a lot of classes, but no matter how anxious you are, you can’t be so extreme...”

Everyone knew that pharmaceuticals was the most difficult course to learn.

It was different from comprehensive combat.

After all, comprehensive combat used technique and strength. As long as one was willing to put in enough effort and train for a long time, one would definitely be able to achieve satisfactory results.

However, pharmaceuticals was different. There were many formulae to learn.

The various chemical formula and Latin letters were dazzling. If it involved Chinese medicine, there would probably be even more knowledge to memorize.

However, judging from Nian Yue’s speed at flipping through the books, she was not reading. She was clearly flipping through them casually...

“That’s right, Boss...”

The others chimed in, “We’ve been learning for a while now. These formulas and various reactions are simply a headache...”

They knew that Nian Yue had a good memory and learned things quickly.

But it was better to forget about pharmaceuticals.

“How would you know I couldn’t remember?” Nian Yue’s lips twitched.

She had dual-elemental powers and had sharp ears and eyes. Her vision and memory were many times better than those of ordinary people.

It was just a medical book. It was nothing to her.

“It looks like Nian Yue is very confident?”

Teacher Su was already standing on the podium.

She had long found Nian Yue an eyesore. However, she was too powerful and had that old fellow Yin Han protecting her.

While she was unhappy with Nian Yue, the latter had not been around. She had a stomach full of anger and did not know who to vent it on.

But it was different now. Nian Yue was back.

“Teacher Su...”

When Wang Zhizhi saw her, she immediately shut her mouth.

She only had stronger logical thinking and computational ability. She was not adept at anything related to memory.

Teacher Su walked to the podium and took out the paper in her hand.

“Today’s exam will affect your graduation evaluation. I hope everyone will take it seriously.”

“Huh?! It’s only been a month. Why is the exam coming up?!”

“That’s right! She didn’t even inform us before the exam. How is this different from a blind exam?”

“Yes, yes, yes! Teacher Su, you’re too inhumane...”

Almost as soon as Teacher Su finished speaking, everyone started wailing.

“Quiet!”

Teacher Su slapped the table. “If I have to inform you before every exam, what would I need you for?”

Teacher Su sneered. “You wouldn’t bother when I told you to study well. Now that it’s the exam, are you suddenly afraid? This exam has theory and practical segments. Some students shouldn’t think that they can get full marks just because they have some knowledge...”

Teacher Su unintentionally glanced at Nian Yue.

Wasn’t Nian Yue an influential figure in school?

Usually, she would be the first in any subject. This time, he wanted to see if Nian Yue, who had been absent for a month, could pass!

“Teacher Su, this is too unfair!” When Wang Zhizhi heard the request, she was so angry that her face turned red. “You clearly know that Yue Yue hasn’t been here for a month. Aren’t you asking her to score zero for the exam now?!”

Although they came in with high scores, graduation was not easy for them.

It could even be said that it was even harder for them to get their graduation certificate than ordinary people. Ordinary people were allowed to take all kinds of exams during university.

If they fail, they would have to extend their graduation and might even face the problem of not being able to graduate.

“That’s right! If Boss gets a zero, she won’t be able to graduate! You have bad intentions...”

“If you arrange it this way, I won’t take the exam!”

“Yes! This is too unfair! I’m not taking the exam either...”

The other members of the special forces were about to quit!

“You...”

Faced with this group of people, she was so angry that she almost fainted!

Hers was a rather prestigious existence in school, but now, these people actually dared to skip their exams in her class. They were simply too arrogant!

“Sure!”

Teacher Su calmed herself down and only reacted after a long time. “Alright, you’re not taking the exam, right? Then no one can think of graduating!”

She did not believe that these students could go against her if she used their graduation certificate to suppress them!

“Do you think we can’t graduate just because you said so?! Does your family own the school? Whether we can graduate or not depends on our performance!”

Wang Zhizhi retorted.

“You...”

Teacher Su was so angry that her face turned red.

She did not expect this group of people to be so unruly. She had thought that it would be fine if Nian Yue was the only thorn. She did not expect that once this group of people were confronted with matters concerning Nian Yue, they would be harder to deal with than Nian Yue herself!

“Enough...”

Nian Yue, who had been standing at the side, then said lazily, “I remember that our school has a rule. If you can get first in the pharmaceutical examination, you can make an unconditional request to the school...”

“Of course!”
