

The National Goddess Reborn 271-276

Chapter 270: A Slap in the Face (3)

Teacher Su nodded and looked at Nian Yue in disdain. "Why? Do you want to try?"

With her understanding of Nian Yue, she could get first place in all the other subjects. However, she was the only pharmaceutical student who had studied for a month.

She should hurry up and plead with her after the exam. She might consider giving her a pass to prevent her from delaying her graduation.

"Of course."

Nian Yue sneered. Her face was extremely cold.

"Boss, you haven't been here the whole time..."

Someone said worriedly.

No matter how good Nian Yue's memory was, the potion test was not as simple as memorizing formulae.

“Alright! Then I’ll see how many points you can get!”

Teacher Su sneered!

She had long found Nian Yue an eyesore. She had to teach her a lesson in this exam!

Because there were not many students in the pharmaceutical class, there was no need to go to the examination hall at all.

Even if all the students were sitting together, Teacher Su was not worried that this group of students would cheat.

After all, the school had a huge punishment for cheating students.

In addition, there were surveillance cameras, so there were no students who would want to cause trouble for themselves.

Soon, the exam began.

The moment the papers were handed out, all the students started writing with a frown.

They recognized all the words, but when they were combined, they became exceptionally difficult to understand.

The group of people simultaneously looked in Nian Yue's direction.

Teacher Su probably wanted to make things difficult for Nian Yue.

Even those who had attended classes felt that such a complicated exam question was difficult, let alone someone like Nian Yue who had never taken a class.

After Teacher Su distributed the papers, she looked in Nian Yue's direction.

However, from the start to the end, Nian Yue had been extremely calm.

Hmph...

Teacher Su sneered in her heart. She wanted to see how long Nian Yue could hold on.

After Nian Yue received the paper, she picked up her pen and started doing it.

Nian Yue had already finished her paper halfway through the exam.

Then, she handed in her papers.

Teacher Su saw that her paper was filled with answers and felt disdain in her heart.

A student like Nian Yue who did not know how to do anything had probably copied all the knowledge about pharmaceuticals that she had memorized just now!

Did she naively think that she would be merciful and give her two points as long as she wrote down the knowledge she had memorized?

Dream on!

After the theoretical examination in the morning, it was soon time for the practical exercise.

The practical content was very simple. Each student was given a pile of herbs, a random question, and had to concoct the potion according to the ratio.

After the potion was concocted, the teachers would evaluate according to the efficacy of the potion and the ratio of herbs.

Soon, the day's examination ended.

The group of people heaved a sigh of relief simultaneously.

Although they were quite worried about Nian Yue's test results, they restrained themselves from asking when they thought of Nian Yue's strength, .

...

And on the other side

After Teacher Su collected the papers, she returned to the office and saw Manxi in the office.

"Teacher Su..."

When she saw Teacher Su enter, Manxi had already walked up to her. "How was the test this time? Did you find any talents?"

Although this test was only to test what they had learned in the past month, if some students had extremely strong talent in pharmaceuticals, they could still tell a thing or two from the test paper.

“I haven’t looked at the papers yet. I guess this batch of students is far from your batch...” Teacher Su sneered.

Manxi was one of the few good talents she had her eyes on who had extremely high talent in concocting potions.

None of the students he accepted later could compare to Manxi.

“Not necessarily...”

Manxi laughed and started flipping through the papers.

When she flipped to the last paper, Manxi’s expression became uglier.

Then, she took the test paper and started reading it carefully.

“What’s the matter? Is there a big problem with this paper?! Is it Nian Yue’s?”

Chapter 271: Making Things Difficult

Teacher Su sneered. She knew that Nian Yue was useless.

Even if she had vowed to get first before the exam, it was just a bluff!

“No...” Manxi held the paper, her expression turning uglier.

She could not understand Nian Yue’s paper.

“Bring it over and let me take a look...”

Seeing Manxi’s expression, Teacher Su was certain that Nian Yue had done badly in the exam this time!

Teacher Su took the paper from Manxi’s hand. She was getting more and more curious about how bad Nian Yue’s paper was, causing Manxi’s expression to be so ugly.

However, when she saw the answer on the paper, Teacher Su could no longer hold it in.

How was that possible?

Teacher Su looked incredulous. “Where’s her practical answer?”

Teacher Su put down her papers and walked over quickly. She found the medicine that the students had concocted for the afternoon exam.

The potions Nian Yue concocted were no different from ordinary people.

However, her pills looked smaller than those concocted by ordinary people.

Under normal circumstances, the size of the pill determined the healing effect of the medicine.

After all, it was only an exam. There was almost no time for them to extract the essence of the herbs.

Therefore, the more herbs there were in the potion, the larger the pill would be.

And Nian Yue's pill looked smaller than an ordinary person's. This meant that there were very few herbs in the pill she concocted.

Teacher Su took the pill and sniffed it.

How was that possible?!

“Teacher Su, how is her concoction?”

Manxi was even more puzzled when she saw Teacher Su’s expression.

“There must be something wrong with my sense of smell. How is that possible?!”

Teacher Su sniffed the potion that the others had concocted.

Compared to Nian Yue’s, theirs were far from it! However, Nian Yue had clearly concocted such a small potion. How could there be so many Chinese herbs inside?!

During the practical examination, she clearly did not have that much time to purify the Chinese herbs!

“What?”

When Manxi saw Teacher Su, she hurriedly took Nian Yue’s potion and sniffed it.

“She’s simply a genius!”

Manxi was shocked!

Even though she was very accomplished in medicine, she still felt inferior when she saw the medicine Nian Yue had concocted!

If this was not a simple exam, she would even suspect that this pill was concocted by a high-level pharmacist!

“Teacher Su...”

Manxi could not hide the excitement in her heart. It had been too long since she had met an extremely talented pharmacist like Nian Yue!

She had no doubt that her talent was much higher than her own!

If Fu Xiuyuan’s illness had not been attended to by her but Nian Yue, he might have been able to control it much better than now!

“Nian Yue is probably worthy of being first this time...”

Manxi’s voice was filled with surprise.

“I won’t let it happen.”

Teacher Su sneered. How could Nian Yue be first?

“Teacher Su, Nian Yue is extremely talented in pharmaceuticals. If we don’t give her first place, I’m afraid the people from the special forces will not let it go.”

Manxi was filled with worry.

It would have been fine if Nian Yue was just an ordinary student, but she was the leader of the special forces.

If those people who never played by the rules knew that Teacher Su was playing tricks behind their backs, they would definitely turn the school upside down!

Chapter 272: Failed? (1)

“Ha...”

When Teacher Su heard the name of the special forces, she sneered in disdain.

“So what? Don’t think that I have to lower my voice to them just because I’m carrying the reputation of the special forces!”

She was a famous pharmacist at Imperial Capital University. There were many people internationally who wanted to hire her as a teacher!

If Principal Xu had not repeatedly asked her to come over, she would not have become a teacher at a small Imperial University!

Furthermore, Nian Yue was an arrogant student. She could not stand her!

This time, she had to use this exam to dampen her spirits!

“Well...”

Manxi wanted to say more, but seeing Teacher Su’s firm attitude, she could only shut up.

Now, she only hoped that everything she worried about was unnecessary.

...

At this moment, Nian Yue and the others had just finished their exams and Nian Yue had already returned to the dormitory.

As Nian Yue was often elusive, another classmate was shocked to see her return to the dormitory.

“Why? Did I enter the wrong place?” Nian Yue asked curiously.

“No, no, no...”

The girl hurriedly shook her head and hurriedly put away the broom at the door.

She had heard of Nian Yue’s reputation outside.

In addition, Nian Yue rarely smiled. She almost subconsciously treated Nian Yue as someone who was not easy to talk to. Nian Yue did not care much. Instead, she returned to her bed and closed her eyes to rest.

Wang Zhizhi returned to her seat and took out a thick medical book to study. Everyone had talents and shortcomings. She was just better at calculations. However, her memory was average and the ratio of potions tested one’s memory the most.

After Wang Zhizhi had been reading for an hour, another roommate took out her phone and whispered, "I heard that Nian Yue is going to be expelled?"

"What?" Wang Zhizhi hurriedly put down the medical book and asked in shock, "When did this happen? Why didn't I know?"

"I saw it in the class group chat just now. Go take a look..."

After her roommate's reminder, Wang Zhizhi hurriedly took out her phone and opened the class group chat.

The group chat exploded.

There were already two hundred messages.

Wang Zhizhi climbed for a long time before she found the top message.

The top message was from the class monitor.

Class Monitor: The results of the pharmaceutical examination are out. Nian Yue is ranked last. According to the rules with Teacher Su, Nian Yue will be punished by the school for skipping class for a month.

There was also a report card behind.

Nian Yue's name was extremely eye-catching on the last line.

"What? Teacher Su is too much!" Wang Zhizhi was about to explode from anger when she saw the last line.

The passing mark was 60 points, and Nian Yue had coincidentally scored 59 points. Wasn't this intentional?!

"What's done on purpose?" Nian Yue happened to hear the last sentence and got down from the bed slowly.

"Nian Yue, let me show you a message. Don't get angry after reading it..."

Wang Zhizhi hurriedly walked over, her voice still uncertain.

After all, Nian Yue had a fiery personality. She definitely had reason to believe that Nian Yue would settle scores with Teacher Su the moment she found out about this!

"I've already heard it..." Nian Yue's lips curled up slightly as she spun her phone in her hand.

“Then what do you plan to do? If you fail this exam, the school will punish you...” Wang Zhizhi was worried.

Although Nian Yue was now the leader of the special forces and had applied for leave because of her health, would Teacher Su be so easy to talk to??

“The school rules only make it difficult to get a graduation certificate...” Nian Yue said calmly, “ Besides, did I fail just because she said so? ”

“You mean...”

Wang Zhizhi reacted almost instantly. “Teacher Su deliberately gave you a low score?”

She knew Nian Yue’s ability very well.

Putting aside the fact that Nian Yue had been reading medical books for so long before the exam, Nian Yue’s talent in medicine was definitely higher than hers and the other special forces teams!

How could such a person fail the exam?!

Most importantly, Nian Yue was only one point away from passing!

“We’ll know if it was intentional or not when we go take a look.”

Nian Yue got down from the bed and walked out.

Chapter 273: Failed? (2)

Today’s pharmaceutical class had already begun. The moment Nian Yue entered the class, the bell rang.

Teacher Su snorted and stood on the podium. She glanced at the students below the stage and sneered, “The results of the previous potion examination are out. I believe you have already found out that the student in first place is Lan Xin.”

Almost as soon as she said it, the group of people simultaneously looked in Lan Xin’s direction!

Lan Xin was also very surprised. She did not expect to get first place this time.

She looked a little embarrassed.

“On the other hand, Nian Yue, who skipped class for more than a month last time, scored 59 points this time...”

Teacher Su ordered, "Nian Yue, what do you think?"

"Does the principal of the Imperial University know that you're biased?" Nian Yue asked nonchalantly. Her eyes seemed to be able to see through people's hearts.

Her face was clearly not stern and even had a hint of indifference, but when her sharp eyes looked at you, they went straight to your heart!

For some reason, Teacher Su felt a chill down her spine. Could it be that Nian Yue knew something?

However, Teacher Su shook her head hurriedly. How was that possible? She must be overthinking! How could Nian Yue know how many points she could get?

At the thought of this, Teacher Su regained her courage.

"What do you mean?" Teacher Su sneered. "Are you questioning my authority as a teacher?"

"There's no need to doubt your authority." Nian Yue sneered. "Because you're wrong."

"Shut up!"

Hearing Nian Yue's words, Teacher Su was so angry that she almost jumped up. "As a student of the Imperial University, it's one thing if you don't study hard, but now you're questioning the authority of your teacher! Why am I wrong? Are you right? If you're better than me, why do you still want to be my student?!"

Teacher Su was used to being arrogant. In addition, she was hired by Imperial Capital University with a high pay.

As a result, she was arrogant and looked down on even the students at the Imperial University.

Now that Nian Yue said that she was in the wrong on the spot, she immediately flew into a rage out of humiliation.

"Why? Is this a classic example of 'if you can do it, do it yourself'?" Lin Nan could not stand it and immediately said, "I bought a fridge and thought that the fridge's cooling effect was not good. Do I have to learn how to cool myself?"

Almost as soon as he finished speaking, the entire class laughed.

"You're revolting..."

Teacher Su was so angry that she almost fainted. "Alright, you guys are awesome, right? I can't teach your class. I'm not teaching anymore!"

Teacher Su walked out of the class angrily.

Lan Xin, who had been silent all this while, saw Teacher Su walk out and hurriedly followed behind.

Teacher Su went to the principal's office immediately. Principal Xu was dealing with the formula when he saw her walk in angrily. He looked a little surprised. "What's the matter? Did Nian Yue make you angry?"

"Hmph!"

Teacher Su was furious and threw her book onto the desk. "I really can't teach Nian Yue anymore! Either she drops out of school or I resign..."

"Teacher Su..."

Principal Xu pushed his glasses up the bridge of his nose. "The other teachers have given me pretty good feedback on Nian Yue's situation."

Nian Yue was just a little cold, but because of her outstanding results, the other teachers had a good impression of her.

“Principal Xu, do you mean that it’s my problem?” Teacher Su sneered. It was obvious that she disagreed with Principal Xu.

“It’s because of the results of the pharmaceutical exam, right?”

Principal Xu instantly guessed what Teacher Su was here for.

“Nian Yue, this student, still refuses to admit that she’s in last place! She just has to think that she’s in first place. This time, it’s clearly Student Lanxin who’s in first place...”

Teacher Su was furious. When he saw Lan Xin outside, she hurriedly waved her in. “Student Lan Xin, come in.”

Lan Xin was originally at the entrance of the principal’s office and was a little hesitant. Now that she heard Teacher Su calling her, she came in. “Hello, Principal. Hello, Teacher Su...”

“Lan Xin, tell the principal directly how much did you score this time?” Teacher Su sneered.

“I...”

Lan Xin was a little careful. She usually did not like to talk and was almost invisible in the class.

Chapter 274: Failed? (3)

However, she did not expect to get first place in the pharmaceutical examination.

“I scored 91...”

Because pharmaceuticals was more difficult, not only did one have to memorize more things, but there were also many chemical reactions to take note of.

Therefore, in the entire pharmaceutical class, she was the only one who scored 90 points and came in first place.

“How much did Nian Yue score?” Principal Xu continued asking.

“59 points...”

“59?” Principal Xu was interested when he heard this score.

With Nian Yue’s ability, she either scored full marks or 59 points.

She should be able to control these two scores.

“I believe Teacher Su knows if it’s 59 or 99.” Nian Yue had already walked in.

Behind her were Wang Zhizhi and the others.

“Since Teacher Su thinks that 59 points is normal, and I think 99 points is normal, why don’t we calculate again?” Nian Yue leaned against the door, looking extremely nonchalant.

Her words were filled with joy.

Teacher Su’s back stiffened almost as soon as she heard her words. “Are you questioning my fairness?”

“Questioning?”

As if she had heard a joke, Nian Yue sneered. “I’m not questioning it, I don’t believe it!”

“You...”

“Enough.”

Principal Xu interrupted the two of them. "Since there are doubts about this paper, why don't we take out Nian Yue's paper for a review? Isn't it better to let the entire school be a witness?"

"Sure! It should have been like this a long time ago!"

Lin Nan was the first to stand up and express his support. "You should have done this a long time ago, lest you say that we bullied you!"

"Well..."

Teacher Su's expression was clearly a little ugly.

"Why? It can't be that you can't find the papers now after the exam, right?"

Wang Yang added fuel to the fire.

"Who said so?"

At this moment, Teacher Su would never admit that he had already destroyed the evidence to prevent others from seeing that there was a problem with the test papers!

“Isn’t it unfair to take out the previous papers again? I happen to have another paper here that Nian Yue can take again.”

The test paper that was used to test the entire class last time was of medium difficulty. This gave Nian Yue the opportunity to score high.

This time was different. Since Nian Yue insisted on coming to her to be tortured, she would give her a big gift.

When the time came, she would definitely make Nian Yue apologize to her obediently!

“Nian Yue, what do you think?”

Principal Xu threw the question to Nian Yue.

“No problem.”

Nian Yue agreed readily. Then, she looked at Teacher Su. “However, if I can get first place in this paper, what will Teacher Su do?”

“Full marks? Are you joking?”

As if she had heard a joke, Teacher Su laughed out loud. “From the start of the pharmaceutical class until now, no student has ever boasted of getting full marks.”

Even Manxi, whom she had personally coached, had never scored full marks for medicine!

“Why? Are you afraid?” Nian Yue sneered and slowly steadied herself. The phone in her hand spun around.

She clearly had a cynical smile on her face, but Teacher Su felt a chill down her spine.

However, when she thought about how today was meant to be the day she established her authority, could she still be afraid of being humiliated for a year?

At the thought of this, Teacher Su immediately straightened her chest.

“Afraid? How is that possible!”

Teacher Su sneered. “If you don’t get full marks this time, you’ll be expelled.”

A student like Nian Yue would only lead the school astray.

Only when she left would everyone be happy!

“Of course.” Nian Yue agreed readily. “However, if I score full marks, Teacher Su, don’t forget to address me as Teacher.”

“Deal!” Teacher Su agreed readily. “We’ll administer the exam in front of the entire school at two in the afternoon.”

Coincidentally, she could also prevent Nian Yue from cheating.

She had to hurry back and take out another paper.

She did not believe that Nian Yue could get full marks this time! She was just bluffing!

Teacher Su returned to the laboratory and called Manxi over. “Have you been researching how to tackle cancer at this stage? Give me the data...”

“Are you planning to use the data on cancer to produce the test paper?”

Manxi disagreed. “Teacher, Nian Yue has just entered school. Although she has been in pharmaceuticals for a month, she has almost never attended classes. No matter how talented she is, she won’t be able to score much!”

Asking Nian Yue to concoct a drug to treat cancer was equivalent to asking a primary school student to do the college entrance examination questions!

Chapter 275: Test on the Spot, Slap in the Face! (1)

“Hmph...”

Teacher Su sneered. “She can’t get high marks.”

When they made the bet, no one stipulated what kind of module it would be.

Even if Nian Yue could not do it, it was all fair and square!

“But...”

Manxi wanted to say something else, but Teacher Su interrupted her rudely. “Manxi, you’re my good student. I believe you won’t disappoint me.”

After all, she was her student. She knew Manxi’s personality very well.

She was indecisive and had no opinions.

If not for the fact that Manxi could barely catch her eye after so many years, she would have changed students long ago!

Although Nian Yue was the most talented student she had ever seen after teaching for so many years, that person was born rebellious. Since she could not be used by her, she would destroy her as soon as possible!

“I understand, Teacher.”

Manxi didn't dare to say anything else. She lowered her head and hurried to prepare the information.

And on the other side

The news that Nian Yue's pharmaceutical class was going to take the exam again spread throughout the entire Imperial University in an instant!

There were even students who started betting on the forum.

Who would win this time!

“The bet has been made! Our freshman Nian Yue made a bet with Teacher Su. If she can get full marks for the pharmaceutical examination this time, she will be Teacher Su’s teacher. If not, she will drop out of school! Let’s bet on who will win this time!”

This post was quickly pushed to the top by the students of the Imperial University.

There were many students following.

“Oh my god! Is the news from the original poster true? To think there are actually students and teachers who fight head-on these days? This is too exciting!”

“Did Teacher Su make a bet with the students? That’s not surprising. Everyone knows that Teacher Su from the Medical Department looks down on people and is arrogant. Not many students in the class like her.”

“Hahaha! Did you say that? This is too exciting! I bet on Nian Yue. She’s simply a genius among the students I know. She’s almost omnipotent!”

“I’ll bet on Nian Yue too. I’ll wait for Teacher Su to receive a slap in the face!”

...

“Was it Nian Yue who came to report at that time and became famous because of her looks? Oh my god! I’m so jealous of her looks. I still have her photo on my phone!”

...

“I’m just raising my hand weakly. Don’t any of you think that Teacher Su will win? I heard that Teacher Su has already returned to the office to set questions. The questions she set must be whatever she says the answer is.”

“That’s right. Besides, Teacher Su has been teaching for decades. His professional knowledge must be richer than Nian Yue’s. I think Teacher Su can win.”

...

Although Nian Yue was indeed a genius, this exam was about pharmaceuticals. There were still many students who did not comment on how many points Nian Yue could get.

Therefore, the forum was quickly divided into two factions, with one betting on Nian Yue and the other on Teacher Su. The students of the two factions argued non-stop on the forum.

Soon, it was time for Nian Yue to take the exam again. Nian Yue sat on the podium in the field. The cold girl looked a little indifferent as she leaned against the chair slowly. She did not have the sense of urgency to take the exam.

Many students who had no classes in the afternoon had already gathered at the field to watch the exam live.

The field was in a mess. There were even students who started a live-stream with their phones.

“Quiet.”

Principal Xu had already walked to the middle of the podium and said to the students below the stage.

Almost as soon as he finished speaking, the noisy field instantly fell silent.

“Because this exam involves a certain level of medical secrets, please keep quiet and put away your phones. On the other hand, it’s also for Nian Yue to be able to focus on her questions in a quiet environment...”

With Principal Xu’s words, the students who were preparing to broadcast quickly put away their phones.

Seeing that the students were very cooperative, Principal Xu continued, “In order to ensure the fairness of this exam, the papers and answers will be thrown onto the screen later.”

“This exam will take two hours. Nian Yue can hand in her paper after she finishes.” Principal Xu then looked at Nian Yue. “Nian Yue, do you have any questions?”

“No.”

Chapter 276: Test on the Spot, Slap in the Face! (2)

“Alright, I announce that the exam begins now!”

Principal Xu sent the papers to Nian Yue. At the same time, the papers and answers were already projected onto the electronic screen on the podium.

Many students who came to watch the exam today were from the medical school.

However, when they saw the questions on the paper, the students below were stunned!

“What kind of question is this? Even a doctor might not know how to answer such a question?!”

“Why is Teacher Su’s question so difficult this time! Especially the answer. I know every word. Why is it that when combined, I can’t understand a word!”

“Even a doctor with decades of experience can’t treat cancer, let alone a doctoral student. Isn’t this making things difficult for others?!”

“I thought that Nian Yue would be able to slap Teacher Su in the face this time. It looks like she’s not interested this time!”

...

Lin Nan, who was also in the crowd, could not stand it anymore. When he saw the questions, he wanted to go up and fight with Teacher Su.

“Teacher Su is going too far! What kind of bullshit question is this! How can he get a student to solve the cancer problem? He might as well come up with a question on preventing volcano eruptions! He did it on purpose!”

Lin Nan was so angry that his face turned pale!

It looked like his Sister Yue had been too good-tempered these two days. Teacher Su was actually bullying her like this!

“Lin Nan, don’t be rash.”

Wang Zhizhi hurriedly pulled him back. “Since Yue Yue dares to bet with Teacher Su, she must know what she’s doing. What we have to do is to trust her.”

“Besides, the answer is on the electronic screen. I don’t think Teacher Su will dare to do anything else,” Wang Yang continued.

“Are we just going to watch her play tricks?” Lin Nan was furious.

“Have you forgotten the saying that it’s never too late for a gentleman to take revenge?” Li Yi glanced at him, but the smile on his lips had a deeper meaning.

The few of them looked at each other and instantly understood what he meant.

Ever since Teacher Su sent the papers to Nian Yue, she had been staring at her intently.

She wanted to see how she would solve these problems since Nian Yue would never cheat in front of the entire school. Besides, could such a problem be solved by cheating?

As time passed, Nian Yue was extremely calm.

Almost half an hour later, she had already finished her paper.

As this exam was held in the field in front of all the students, the portion regarding the ratio of pharmaceutical concoctions needed to be conducted in the laboratory. This was just a written exam.

“I’m done.”

Nian Yue spoke slowly.

The students who had been waiting below the stage almost had their jaws drop when they saw that she had finished her paper!

“It’s only been half an hour and Nian Yue is already done?”

“Could it be that Nian Yue gave up because she knew that she couldn’t do it?”

“But isn’t it too early to give up? In half an hour, she probably hasn’t even finished reading the papers...”

The students below were already discussing non-stop.

“Let’s go, let’s go. I thought that there would be a miracle this time, but I didn’t expect that I was thinking too much! I’m afraid that even a doctoral student in the medical field might not be able to get full marks for such an exam! I actually hope that Nian Yue can get full marks! It’s indeed an extravagant hope!”

“That’s right. What kind of miracle can happen in half an hour? She must have handed in a blank paper... It’s a pity for Nian Yue. When she entered, she had such a high score, but she’s going to be expelled...”

“Who asked Nian Yue to overestimate herself and insist on making a bet with Teacher Su? She should have seen Teacher Su’s teaching standards!”

...

Hearing the discussion below, Teacher Su raised her chin arrogantly.

This paper was specially issued by her mentor when she was in school. At that time, there were only a handful of students in the class who passed, not to mention getting full marks. This was in spite of the fact that science and technology had been constantly developing over the years, and many problems were being solved one by one!

Cancer was a problem that humans had not been able to overcome for so many years!

Furthermore, before she came up with the test paper, she had specially increased the difficulty!

She did not believe that Nian Yue could score full marks for this exam.

Teacher Su took the paper and said to Nian Yue almost without even looking at it, “Nian Yue, if you apologize to me now, I can forgive you this time on account that you’ve corrected your mistake.”
