

# The National Goddess Reborn 283-289

Chapter 283: Successful Development of the Cure?

Everyone looked towards the door at the same time and saw Ming Fu rushing in.

Behind him was a girl who looked to be 18 years old.

Her face was extremely cold, but at the same time, her aura could not be ignored.

“Brother, what’s the matter?”

Ming Shao still had a smile on his face, but it did not reach his eyes.

“Why are you gathering so many doctors?” Ming Fu’s expression did not look too good.

“Of course it’s something important. I invited Teacher Su from the Imperial University to treat Father...”

Ming Shao smiled insincerely. “Doctor Li told me just now that he has a 50% chance of developing a drug to treat cancer...”

“Teacher Su?”

Ming Fu instantly understood what Ming Shao was thinking.

“Other than Teacher Su who has been invited by Second Young Master to research the cure for cancer, I have also invited one.” Ming Fu could not be bothered to beat around the bush with him and went straight to the point. “Is there anyone who is willing to follow Miss Nian!”

Ming Fu asked the group of doctors.

This group of doctors had already noticed Nian Yue when she came in.

After all, the girl in front of him was extremely beautiful and her cold aura could not be concealed.

But how could a girl only be beautiful? Furthermore, this girl looked like she was not even 20 years old. No one believed that she could really develop a drug to treat cancer!

“I’ll follow Teacher Su...”

A doctor raised his hand weakly.

After him, more and more doctors followed. Without exception, they were all following Teacher Su.

On the other hand, Nian Yue's team was empty.

Seeing that Ming Fu's expression was getting uglier and uglier, Ming Shao's lips curled into a triumphant smile. "You have to think carefully. If you follow Teacher Su, it will be difficult to change in the future!"

"We promise not to change our minds!"

The other doctors hurriedly shook their heads!

What a joke. This was a great opportunity to follow Teacher Su and Doctor Li! Only a fool would follow a young girl!

"Brother, this was their decision. I have no right to interfere..." Ming Shao shrugged helplessly.

"Miss Nian, I'm really sorry..." Ming Fu apologized to Nian Yue helplessly. "I'll send some medical staff over from the Imperial University Affiliated Hospital..."

"No need." Nian Yue waved her hand.

To her, it didn't matter if she had an assistant or not.

"Wait a minute..."

Their conversation was interrupted by a female voice. Someone rushed in from outside.

The person looked to be in her twenties. She had a high ponytail and was wearing a white laboratory coat and heavy glasses.

It looked like she had just come out of the hospital.

"Ran, why are you here?"

Ming Fu looked puzzled.

Ming Ran was the third daughter of the Ming family and had been studying abroad for more than ten years.

She had just returned this year and was still interning in the hospital.

“I’m willing to join Miss Nian’s team!”

Ming Ran walked over quickly.

“Ming Ran!”

Ming Shao glared at her and said sternly, “You have to think carefully!”

“Second Brother, you don’t have to say anymore. I came for Miss Nian this time.”

Ming Ran’s attitude was firm. She walked up to Nian Yue and stretched out her hand. “Hello, Miss Nian. I’m Ming Ran. I’m willing to join your team and be your assistant.”

“Hello.”

Nian Yue stretched out her hand and shook it slightly.

“In that case, we’ll wait and see!”

Ming Shao sneered and turned to leave.

When the other medical staff saw that Ming Ran was actually following Nian Yue, they shook their heads and sighed simultaneously.

As the eldest daughter of the Ming Family and the medical skills she had learned overseas, wouldn't it be easy for her to find a good mentor under her family's halo after she graduated?

If Teacher Su developed a drug to treat cancer this time, she could become famous at such a young age!

However, she had chosen the most unlikely Nian Yue!

When most of the doctors in the laboratory had left, Ming Ran asked Nian Yue, "Miss Nian, I have all the information on my father's treatment period. I'll send it to you later. Is there anything else I can help you with?"

"Help me find an absolutely quiet laboratory."

Nian Yue instructed.

"Alright, I'll get someone to arrange it."

Ming Ran hurriedly nodded.

She had long wanted to follow Nian Yue. Now that she had the chance to learn from Nian Yue, she would not let it go!

...

Ming Shao brought his men to the laboratory that had just been prepared.

“Teacher Su, Doctor Li, I believe you will be able to develop a drug to treat cancer.”

With that, Ming Shao left.

The group of doctors followed behind, eager to try.

“Lan Xin...”

Teacher Su instructed Lan Xin, “Take this group of doctors and organize the information. I will look for you for further research.”

“Okay.”

Lan Xin nodded and said to the doctors, “Come with me!”

When they arrived at the laboratory, Lan Xin had just taken out the information when a group of doctors impatiently surrounded her!

“Lan Xin? Are you the student who came in first in Teacher Su’s exam?”

“The paper you guys took was a nightmare! We didn’t even get 60 points! You actually got first place!”

“And I heard that you’re only 18 years old. You’re not even 20 years old, but you can already study cancer with Teacher Su!”

...

The group of doctors’ voices were filled with envy!

“You’ve flattered me.” Lan Xin smiled.

However, she could not hide the smugness in her heart!

They were right. She was only 18 years old this year. She still had a long way to go!

If the cancer research was successful this time, she would definitely have a meteoric rise in the future!

Teacher Su and Doctor Li's research was very fast because Doctor Li was Old Master Ming's attending doctor.

However, when it came to the last drug, Doctor Li was in a dilemma. This drug had just been developed and had yet to be used clinically.

"What's the matter, Doctor Li?"

Teacher Su asked when she saw that Doctor Li was troubled.

"This medicine..."

Teacher Su glanced at the bottle. There were only a few simple English letters on it.

“Not only do I have to increase it, I have to increase it to the maximum!”

Teacher Su’s voice was extremely certain!

“But if something happens...”

Doctor Li was still a little hesitant.

Old Master Ming was the future and hope of the Ming family. If anything happened to this medicine, the two of them would be the ones responsible!

“If you don’t add it, something will happen now.” Teacher Su reminded him. “Besides, if both of us do not divulge it, who will know?”

This was his only chance to make a name for himself! Yes, when Doctor Li heard Teacher Su’s words, he had already made up his mind!

If he and Teacher Su could not figure it out and Nian Yue beat them to it, they would lose face! At the thought of this, Doctor Li placed the medicine inside.

The transparent liquid entered the test tube and produced a violent chemical reaction!

The color gradually turned transparent, turning pink and finally transparent!

“Our... experiment was successful!”

The two of them looked at each other and saw desire in each other’s eyes! This was the only drug in the world that could treat cancer!

The two of them hurriedly told Ming Shao the news, and he rushed over immediately.

Ming Shao’s eyes were filled with impatience when he saw the transparent bottle!

“Use it now!”

It had already been three days, but there was still no movement from Nian Yue’s side! What did this mean? Even the heavens were helping him.

As long as Old Master Ming used this potion to treat his cancer, wouldn’t it be easy for him to inherit the Ming family?

Ming Shao rushed to Old Master Ming’s ward with a group of medical staff.

Old Master Ming was still lying on the bed with a ventilator. His face looked even paler than it had a few days ago.

Doctor Li removed the ventilator for Old Master Ming and administered the drug.

The doctors who had been following behind them all held their breaths at the same time.

Success or failure depended on this!

Old Master Ming was lying on the bed, breathing steadily. However, after he took the medicine to treat cancer, his face gradually displayed a pained look. He even started coughing.

The doctors stared at Old Master Ming without blinking, afraid that they would miss anything.

Finally, Old Master Ming opened his eyes.

“He’s awake! Old Master Ming is awake!”

“We did it! This is the only drug in the world that can treat cancer!”

“That’s great! We did it!”

...

The group of medical staff was already indescribably excited!

If this cancer medicine was successful, the few of them would definitely become the targets of various hospitals in the future!

“Old Master, how are you feeling?”

Teacher Su walked over and asked.

“Other than my limbs aching, I don’t feel anything else...”

Old Master Ming coughed twice. At this moment, the door was pushed open from the outside and he saw Ming Fu rushing in. “Dad, how are you...”

“Ming Shao asked Doctor Li to develop a drug to treat cancer. I feel pretty good now.” Old Master Ming pretended to get off the bed.

Although he was unconscious, his hearing was still there. He could still hear what was happening outside.

“That’s good, that’s good.”

Ming Fu hurriedly nodded. “I’m arranging for the medical staff to do a full-body checkup on you.

### **Chapter 284: Help With the Emergency!**

No matter who developed the potion in the end, as long as it could cure Old Master Ming’s illness, it should be done!

The results showed that Old Master Ming’s body was normal!

What did this mean? Doctor Li and Teacher Su had successfully developed a drug to treat cancer! This was the first drug in the world to treat cancer!

This was quickly reported across the major news newspapers! After all, it was the first drug to treat cancer! In an instant, Doctor Li and Teacher Su became popular!

Even Lan Xin’s Weibo account instantly gained a million fans! Many fans had flooded her social media account! Lan Xin opened her social media page and saw that most of the comments were compliments!

“The front row is here to report! Let me introduce her to everyone. She is the youngest student in our Imperial University’s pharmaceuticals department! She scored first place in the previous pharmaceutical exam!”

“Is this cancer?! I heard that Little Missy is only 18 years old! She’s actually so talented!”

“Ahhh! We’re both successors of socialism, but why is Miss so outstanding!”

“I heard that there was a new student in the pharmaceutical class. She was not satisfied with Teacher Su’s scoring and even took the exam again! This time, she also participated in the research of cancer!”

“I know thi but don’t just tell half the story! I heard that this student is not convinced by Teacher Su’s team and has specially established his own team! In the end, there’s still no movement!”

...

Because of the advent of the cure for cance, Lan Xin was instantly trending!

Lan Xin looked at the comments about her and could not hide the smugness on her face!

She knew it. She was much better than Nian Yue!

They had already successfully experimented with the drug to treat cancer, but there was still no news from Nian Yue!

This made her doubt Nian Yue's ability more and more!

Perhaps the score she scored on the field last time was also faked!

At the thought of this, Lan Xin posted on on her own account.

“Thank you very much for your likes. The research and development of the cancer potion was everyone's joint efforts! We just have to do our best. We don't need to care about any Tom, Dick, or Harry.

There was also a blurred photo accompanying the post. It was a scene of Lan Xin in a white coat doing experiments in the laboratory.

Almost as soon as she posted on Weibo, the message became 99+.

“Our little miss is the most arrogant! No matter what the process is, we only care about the outcome!”

“Yes, yes, yes! There are some cats and dogs that we don’t need to care about at all. It’s simply affecting our mood!”

“Our little miss is still the most magnanimous! If it were me, I would definitely slap their faces ruthlessly this time after being bullied by other students!”

“That classmate is probably an ugly freak too. Even now, there’s still no movement!”

...

Many fans had already flooded Lan Xin’s social media account and they were full of mockery towards Nian Yue.

Lan Xin smiled smugly when she saw so many fans’ comments. So what if Nian Yue took the exam again! The netizens still remembered that she was first!

Furthermore, she was the youngest person to develop a cancer potion! She was countless times stronger than Nian Yue!

Lan Xin put away her phone in satisfaction after looking at the comments.

She saw Ming Ran walking past the laboratory door.

In order to facilitate their research, the Ming family had specially prepared two laboratories.

Their laboratories were on the same floor as the one Nian Yue used, but one was on the east and the other was on the west.

Seeing Ming Ran walk past, Lan Xin raised her head arrogantly.

She was Old Master Ming's savior! Ming Ran would probably have to thank her!

Lan Xin was waiting for Ming Ran, but she did not expect that Ming Ran did not even look at her when she passed her!

Lan Xin's expression changed on the spot and she looked at Ming Ran with hatred!

What good could it do for her to still follow Nian Yue around? She would wait for the day when Ming Ran was willing to acknowledge her as her teacher!

...

When Ming Ran entered the laboratory, she saw that Nian Yue was still wearing her lab coat and fiddling with the reagent in her hand.

Over the past few days, Nian Yue had only appeared occasionally. She had already done countless experiments with the reagent in her hand.

“Miss Nian, is there anything else I can help with?”

Ming Ran walked over and asked.

“The team over there has developed their cure. Aren’t you going over?” Nian Yue raised her eyebrows.

She still had that cavalier attitude. Either she did not care or she was confident.

Of the two possibilities, Ming Ran believed the latter more!

Some people were born with an aura that made people subconsciously submit.

Ming Ran and Nian Yue had not known each other for long, but she trusted Nian Yue unconditionally!

“I don’t care about what happens with the other team. I’m following Miss Nian.” Ming Ran smiled mischievously.

She did not have the habit of changing sides at the last minute. Furthermore, she believed in Nian Yue!

Nian Yue chuckled and did not say anything else. Instead, she asked Ming Ran to go over to discuss the reagent reaction.

Although Ming Ran was also a member of the Ming family, she was optimistic and generous. Her openness made her suitable for scientific research.

As such, Nian Yue was also willing to give more pointers to Ming Ran. When Ming Ran heard her discuss medical knowhow, she hurriedly nodded and listened attentively.

Nian Yue did not talk much and her voice was cold. However, the contents of her words were easy to understand and she spoke in simple terms!

Unknowingly, Ming Ran became fascinated.

When Nian Yue finished her class, Ming Ran was still a little unsatisfied. She told herself that she would seize the next opportunity to let Nian Yue talk more.

...

Because Doctor Li and Teacher Su had developed a drug to treat cancer, it caused a sensation throughout the country! Calls for Doctor Li and Teacher Su's never stopped coming in!

In the end, the Ming family decided to hold a press conference. As the main researcher this time, Doctor Li and the other medical staff had to attend. Even Lan Xin was no exception.

When Lan Xin went to class, the students in the class surrounded her.

"Lan Xin, you're so awesome! You've done such a big project with Teacher Su at such a young age!"

"That's right! This is a drug that has been developed to treat cancer! You will be a divine doctor in the future!"

"Lan Xin, don't forget us when you get rich in the future!"

"That's right, that's right! You will definitely become a celebrity in the future! Give me your autograph first! Maybe in a few days, your autograph will be priceless!"

"Sign one for me!"

“Sign one for me too!”

“Me too!”

...

The class was filled with chatter as they surrounded Lan Xin.

After Lan Xin signed her autograph for the group of students, she slowly said to Lin Nan, “Do you guys want it?”

“No.”

Lin Nan rolled his eyes.

To think that he had thought that Lan Xin’s family background was not good and thought about getting the Lin family to sponsor her studies!

He did not expect Lan Xin to be someone who pretended to be humble and down-to-earth.

Her pretentiousness was really disgusting!

When Lan Xin saw them, she sneered in her heart. Sooner or later, this group of people would willingly submit to her!

Soon, it was time for the Ming Family's press conference. As the main person in the development of cancer medicine was from the Imperial University, a banner was hung at the entrance of the Imperial University.

"Congratulations to the Imperial University Pharmaceutical Class for successfully developing a drug to treat cancer!"

This time, the battle was intense!

The Imperial University even sent a car to ferry Teacher Su and Lan Xin!

When the two of them arrived at the press conference, there were already reporters waiting there for a long time.

The two of them followed the staff and sat down on the podium. Old Master Ming finally arrived.

Because Old Master Ming had just woken up and his body was still very weak, he was pushed in a wheelchair by the Ming family!

Ming Shao and Ming Ran followed behind.

Soon, the press conference began.

The group of reporters rushed to ask, "May I ask if the medicine for Old Master Ming can really treat cancer?"

"Has Old Master Ming recovered? Will you consider using these drugs to treat cancer for mass production?"

"If these drugs are planned for mass production, what will the price be? Will ordinary people be able to accept it?"

...

The reporters asked one question after another!

"Don't worry, everyone. Our old master is currently very healthy," Ming Fu said from the side. "As for whether the potion can be listed, we still have to discuss it later."

“If Old Master has recovered, can we get Old Master Ming to answer our questions?” a reporter continued to ask.

“Sure.” Old Master Ming nodded. “About the medicine to treat cancer this time... Plop!”

Before Old Master Ming could finish speaking, he fainted on the ground.

The scene was an uproar!

“What happened to Old Master Ming? He was fine just now...”

“Hurry up and call 120!”

“There’s no time. I saw Old Master Ming vomit blood!”

Someone said and everyone hurriedly looked at Old Master Ming.

As expected, Old Master Ming spat out a layer of bright red blood!

“Isn’t there a doctor? Can we perform emergency treatment on the spot?”

“Or other emergency pills...”

The reporters were in a mess and took advantage of this opportunity to take photos.

“What should we do? There’s still some time before the ambulance comes...” Ming Ran was extremely anxious. She quickly checked Old Master Ming but could not find the cause of the illness.

“I’ll do it.”

A sonorous and forceful voice sounded.

### **Chapter 285: Rising From the Dead, Becoming Popular Overnight!**

Hearing the declaration, everyone simultaneously looked in the direction of the door.

The aloof girl had already walked over.

When they saw that it was Nian Yue, the medical staff revealed looks of disdain.

“Nian Yue, I advise you to have some self-awareness! Do you know what illness Old Master Ming has?”

“That’s right! You’ve been studying the cancer drug for so long, but there’s no movement at all!”

“Even with so many medical staff, we can’t do anything. What can a student like you do?”

...

Their faces were filled with disdain.

They had to take this opportunity to make Nian Yue look bad!

“The ambulance isn’t here yet? My dad doesn’t have a heartbeat...”

Ming Ran was so anxious that she was about to cry.

Old Master Ming was already in the late stage of cancer. It was not easy for him to consume the cancer drug and his body had just recovered.

Who would expect the illness to rebound!

Now that Old Master Ming was lying on the ground, his illness seemed to be even worse than before!

“Doctor Li, Teacher Su, come and take a look quickly...” Ming Ran cried and shook her head.

“Let’s prepare for the funeral as soon as possible...” Doctor Li shook his head.

With just one look, he could conclude that Old Master Ming had fainted because he had taken the drug they had developed to treat cancer.

It was because of the last drug.

However, only he and Teacher Su knew about this. If they did not say it, who would know?

“Impossible!”

Ming Ran cried and shook her head. “My father was fine just now. He can’t have disappeared in the blink of an eye! Oh right, Nian Yue...”

Ming Ran wiped her tears and hurriedly went to look for Nian Yue. “Miss Nian, you said just now that you have a way to save my father...”

“Here, the potion from the last time.”

Nian Yue spoke calmly. The transparent bottle of medicine was still lying in her palm.

“You mean the drug that was developed to treat cancer?” Ming Ran reacted almost instantly. “But isn’t that for cancer?”

“Why? You don’t believe me?” Nian Yue raised her eyebrows.

“I believe you.”

Ming Ran took the medicine and was about to feed it to Old Master Ming.

However, before she could walk over, she was stopped by Doctor Li.

“Miss Ming, this medicine has an unknown origin. Are you sure you can give it to Old Master Ming?”

“That’s right! Miss Ming, It’s hopeless...”

“None of us doctors dare to say that there’s a way to treat Old Master Ming. Now you actually believe the words of a young lady...”

...

“That’s right. Sister, you have to think carefully. If you give Dad this bottle of medicine, you have to bear the consequences.” Ming Shao sneered.

He had thought that he could embarrass Old Master Ming this time, but he did not expect him to be gone!

“How can you still have the mood to fight over this at a time like this!”

Ming Fu’s expression immediately turned ugly. “Ran, hurry up and give the medicine to Dad!”

“Okay!”

Ming Ran walked around everyone and hurriedly gave it to Old Master Ming!

Old Master Ming lay on the ground without moving. Everyone held their breaths and waited, but after waiting for nearly two minutes, Old Master Ming did not move at all!

“Make way! The ambulance is here!”

Someone shouted and the group of reporters hurriedly moved to the side.

Old Master Ming was quickly carried into the ambulance!

The reporters were not to be outdone and hurriedly chased after her!

Old Master Ming was the head of the Ming family and a famous figure in the business industry!

If today’s cancer treatment press conference turned into Old Master Ming’s funeral, it might not be a bad thing for them!

Now, it depended on who could get the exclusive information first! Therefore, a group of reporters surrounded Old Master Ming’s hospital. They were all fighting for first place.

Even Ming Fu had thought that the resuscitation would take a long time. Unexpectedly, the doctor came out in only five minutes.

“Doctor, how is my father?” Ming Fu rushed over.

Doctor Li and Teacher Su, who had been following them, saw the disrespect in each other's eyes. Indeed, they felt that Nian Yue was not capable.

It had only been five minutes and Old Master Nian was already dead! At the thought of this, there was no need for the two of them to stay in the hospital anymore. They turned around and left.

Unexpectedly, when the two of them reached the entrance of the hospital, the reporters' eyes lit up. "Doctor Li, how is Old Master Ming?"

"That's right. It's been five minutes now. Did that medicine work..."

"The resuscitation time this time is very short..."

...

"It's only been five minutes. What good news can there be?" Teacher Su sneered. "Old Master Ming has already passed away!"

"Really? What exactly caused Old Master Ming's death this time? I thought it was a press conference to treat cancer, but I didn't expect Old Master Ming to die on the spot..."

“Is Old Master Ming’s death related to the drug to treat cancer?”

“That’s right. He was clearly normal a second ago, but the next second, he was lying on the ground...”

...

“The hospital will give an explanation for Old Master Ming’s death.” Teacher Su’s face darkened on the spot. Then, she turned around and left!

It was not easy for her to become famous overseas with the medicine to treat cancer. The people from the Medical Alliance were about to arrive!

This time, she could not let these people ruin her plans!

Almost as soon as Doctor Li and Teacher Su left, the doctor said, “Old Master Ming’s vital signs are very stable now. When he arrived at the hospital, his heartbeat had already recovered. We did another comprehensive examination on him and found that Old Master Ming’s vital signs are all normal... but...”

At the mention of this, the doctor was a little hesitant. “When we were examining Old Master Ming, we found the TR potion...”

“What is that?” Ming Fu continued to ask.

“That’s a drug that’s prohibited in medicine. It can kill cancer cells in a short period of time and allow the patient to recover temporarily. But before long, the patient will die.” The doctor frowned. “And after using this drug, it will be metabolized in the patient’s body within 24 hours.”

“Then how did you find out?” Ming Fu frowned.

“Did someone drug Old Master Ming?” The doctor continued to ask, “I found another drug in Old Master Ming’s body. The latter drug can lure out the previous one. Furthermore, I actually discovered that not only did this drug kill all the cancer cells in Old Master Ming’s body, it even reconstructed his previous cells!”

This medicine was too powerful! He could not find any side effects!

“Young Master Ming, may I know this expert?”

To be able to develop a drug to treat cancer without any side effects, one could imagine how powerful this person was!

“I’m afraid we need her approval.”

Ming Fu frowned.

“Thank you, Young Master Ming!” The doctor’s voice was filled with gratitude!

It was a pity that he did not see the drug that could treat cancer with his own eyes!

Ming Fu had just reached the entrance of the hospital when he was stopped by a group of reporters.

“Young Master Ming, has Old Master Ming passed away in the hospital?”

“Is Old Master Ming’s death related to the last drug used to treat cancer?”

...

“Who said that my father has passed away?” Ming Fu frowned and his expression turned ugly. “He’s lying in the hospital!”

“Do you mean that Old Master Ming has recovered?”

“But Teacher Su and Doctor Li said that Old Master has already passed away...”

The reporter who asked the question had lingering fears. If they had not asked Ming Fu just now and sent out the news, the Ming family would never have let them off!

“Bullshit!”

Ming Fu’s expression instantly turned ugly. “Not only has Old Master woken up, his various physical indicators are all normal! It’s all thanks to the drug that Miss Nian developed to treat cancer!”

“Do you mean that Old Master Ming woke up all because of Miss Nian’s medicine? Then the medicine that was developed to treat cancer...”

“It’s fake!” Ming Fu’s face was as black as charcoal. “I will investigate this matter thoroughly!”

Almost as soon as he finished speaking, the reporters who were asking questions just now became active!

“Oh my god! Young Master Ming, do you mean that the person who developed the cancer medicine is the young lady who appeared today?”

“But that young lady looks like she’s not even twenty years old! And I saw the bottle of medicine in her hand! It was a transparent bottle of medicine that looked no different from ordinary medicine!”

“At the press conference just now, Old Master Ming was declared dead by Doctor Li! Now that he’s awake, does this mean that the bottle of medicine has the effect of reviving the dead?!”

“Revive the dead?”

...

Almost as soon as he finished speaking, the reporters below the stage exploded!

Resurrection!

This was simply a heaven-defying existence!

“Yes, it does have this effect,” Nian Yue explained calmly. “It’s only limited to people who are on the verge of death.”

When the group of reporters saw her, they hurriedly turned the microphone to her!

“Did you research that bottle alone? Does this bottle really have the effect of treating cancer?”

“Can this potion only be used to treat Old Master Ming alone, or is it suitable for all cancers?”

“Cancer has been a problem that has troubled humans for many years. Before you, many people had not been able to overcome it. May I ask how long you spent developing the drug?”

...

The reporters asked one question after another!

“All types of cancer. Three days.”

The aloof girl spoke calmly. Her answer was efficient, sonorous and forceful!

In an instant, the internet was filled with reports!

Almost everyone saw the girl who had developed the potion in three days!

Nian Yue’s social media account exploded in popularity overnight!

**Chapter 286: Increase in Followers (1)**

Nian Yue's social media account was registered for her role in "Commander". There was only a simple letter Y on it.

Her posts were almost all idle. The only post was from the production team when "Commander" was announced.

Even so, the comments below had already reached ten thousand.

Now that the netizens had followed the internet, the comments below were still multiplying exponentially!

"Ahhh! I finally found her online! I didn't expect her to have a social media account!"

"Those who can meet each other in the comments section of Little Missy's social media account today should be fellow Daoists, right? I'll kneel down first! What kind of god-like big boss is this! She actually developed a drug to treat cancer in three days!"

"Are you sure it was three days? Didn't you lose two points?! Oh my god, I can't take it anymore. I'm about to faint from this news. Let me take a breather!"

"Sister is awesome! I can't find any other adjectives to describe her!"

...

In an instant, Nian Yue's account was attacked by the netizens!

Many netizens came over to worship her, but there was no lack of doubts.

"Three days? Why didn't you say three hours? Please draft a script before you brag next time!"

"That's right! Cancer has been around for so many years. There are all kinds of doctors who want to tackle it, but none of them have succeeded?! How can you succeed?"

"In my opinion, she's crazy about fame! She probably wants to take advantage of this wave of hype! Everyone, hurry up and report this! Let's make sure this kind of liar has nowhere to hide!"

...

"Are you guys crazy?! It wasn't easy to find a way to cure cancer. It's one thing for you not to thank her, but now you actually think that it's a lie!"

"It's precisely because of the existence of keyboard warriors like you that so many people commit suicide from the vitriol!"

“How easy is it to type on the keyboard?! If you have the ability, why don’t you come up with a drug to treat cancer?!”

...

With current science and technology, one could not even overcome one type of cancer, let alone all types!

“Maybe it’s just a coincidence that she can cure Old Master Ming! Since she said that she can cure cancer, let’s find a few cancer patients to try!”

...

Nian Yue’s social media account was in a mess. One side was doubtful and the other was supportive. Both sides were arguing non-stop and it looked like they were about to fight!

On the other hand, Nian Yue did not even take a look at the comments section. She turned a blind eye to the netizens’ comments.

In her opinion, there were still other very important things to do in life. It was a waste of time for a group of strangers to quarrel online.

Even so, Nian Yue’s social media account gained tens of millions of fans overnight!

There were even many private messages from the hospital asking her to give a lecture.

At this moment, Ming Fu called. "Miss Nian, do you have time now? My father wants to see you."

"What is it?" Nian Yue raised her eyebrows.

"Firstly, we want to thank you for saving my father's life. Secondly, the director of the affiliated hospital wants to see you."

Ming Fu replied.

Ever since he lost to Nian Yue the last time, he was even more convinced by her.

Therefore, most of the time, he spoke to Nian Yue respectfully.

"Sure."

Nian Yue nodded.

When she left the campus, the Ming family's car had already been waiting at the hospital entrance for a long time.

Seeing her come out, the chauffeur hurriedly went up to her. "Miss Nian Yue, I'll send you there."

Imperial University was not far from the affiliated hospital. In just ten minutes, they arrived at the hospital.

Old Master Ming had recovered well and was lying on the bed watching television.

When he saw Nian Yue enter, he stood up to welcome her.

"Old Master Ming, there's no need."

Nian Yue raised her hand to stop him.

She did not care about such things. Besides, she did not need an old man who had just recovered from cancer to welcome her.

"Miss Nian, thank you very much this time." Old Master Ming thanked her sincerely.

If not for Nian Yue, he would have died at the press conference.

“You’re welcome. It’s my duty to help others solve problems when I’ve received money.”

She had only spent three days researching a bottle of medicine and had earned a million dollars.

To her, this was a profitable business.

As if he did not expect her to be so straightforward, Old Master Ming was a little surprised. Then, he laughed. “You’re quite mature.”

She did not hide anything and just said it openly.

This was much cuter than the old foxes he often dealt with!

“Is Miss Nian here?”

While the two of them were chatting, they saw a doctor rushing in from outside.

“Dean Zhou.”

When Ming Fu saw her enter, he introduced her. “This is Miss Nian Yue, who developed the cancer drug. Miss Nian, this is Director Zhou.”

When Director Zhou saw Nian Yue, he could not hide the excitement on his face. “Miss Nian, you’re really my idol! I’ve been a doctor for so many years, but I never thought that there would really be someone who could treat cancer!”

This was cancer!

The cancer that had troubled humans for many years!

In the end, it was actually conquered by Nian Yue!

“By the way, Miss Nian, you said previously that your medicine can treat all cancers. I wonder if we can experiment with it?”

Director Zhou suggested to her, “You might not know much about the current situation. In the modern medical world, our country is not considered outstanding. We don’t even have any representatives at the Medical Alliance...”

The country had more than 5,000 years of history, and had many advancements in medicine. However, after entering modern society, it experienced a decline in the level of advancements in the medical field and could not catch up to other countries.

If the medicine developed by Nian Yue this time could treat all cancers, then the status of the country internationally would definitely improve greatly!

“Sure.”

Nian Yue nodded.

She had long been unhappy with those people from the International Alliance. Since she was unhappy, she would do it.

“Alright, I’ll get someone to prepare it!”

Director Zhou was overjoyed!

“Wait a minute.” Nian Yue stopped him. “Let Ming Ran go with you.”

Ming Ran had not had the chance to speak to Nian Yue since she came in. Now that Nian Yue had suddenly called her out, she was overjoyed when she heard Nian Yue’s instructions.

“Thank you, Miss Nian!”

She had already learned a lot from Nian Yue.

Now that she was with Dean Zhou, she would naturally improve!

On the other hand, since he wanted to test if Nian Yue’s medicine could treat all cancers, he had to find cancer patients.

Therefore, the news of recruiting cancer patients for the experiment had already spread throughout the hospital.

Almost every cancer patient was ecstatic and wanted to sign up. However, some patients were still skeptical about this.

After all, Old Master Ming’s cancer was much worse than theirs. What if the drug that Nian Yue had developed was only effective for Old Master Ming and was useless for them?

At the thought of this, many people hesitated.

“I’ll sign up!” an old man in his seventies or eighties said in the ward.

“Old Master, your illness is still considered normal. If you continue with chemotherapy, you can be cured using conventional methods,” the family member beside Old Master advised.

“I heard everything you said to the doctor...”

The old man sighed. “I’m already at the late stage of cancer. Even if she has extraordinary abilities, I can’t be saved! I just want to contribute to society...”

Since he was going to die anyway, so what if he became an experimental subject!

If his participation benefited the future patients, his life would not have been in vain!

“Add me in too. I don’t have many days left anyway!”

Another old lady in the same ward said.

She was as thin as a matchstick and her hair was all shaved. She looked a little scary.

This old lady had lost weight because she had cancer for a period of time and went through chemotherapy.

“Don’t worry...” The medical staff calculated and said to the two of them, “ This time, we’re only informing everyone to sign up. Whether they can be chosen in the end will depend on the hospital’s arrangements. ”

After all, this matter had blown up so much that it had been on the hot search for a few days. Almost everyone was paying attention to the cancer potion experiment.

In the end, after some consideration, the hospital decided to temporarily hire the two old elderly patients as volunteers.

Early in the morning, the two elderly patients had just woken up when they were informed that they could take the medicine to treat cancer.

They took the potion and drank it in one gulp. They could see the freedom in each other’s eyes. After they finished drinking the potion, they did not have any special reaction.

On the other hand, the reporters who had been waiting outside the hospital had already rushed in impatiently.

“Sir, Madam, do you feel anything special after taking the potion?”

“That’s right. Do you feel any heat or pain?”

...

“I don’t think I feel anything...” one of the old men said.

“Me too. It’s like drinking water. It’s cold...” the old lady said.

“Two elders, please think back carefully. Do you really not feel anything at all?”

The reporters were relentless!

This was a drug to treat cancer!

How could they not feel anything?!

If the medicine really worked, the patient should be able to feel it!

“I really didn’t...” The two elders shook their heads.

“Could this cancer potion be a lie?”

“That’s right. I knew it. How could there be a potion to treat all cancers!”

“Oh my god! Did this experiment fail?”

### **Chapter 287: Social Media Account Paralyzed, AwesomeSister Yue Is So Awesome!**

Failure?

This was what almost everyone was thinking!

After all, as long as it was a drug, it would definitely have a reaction when it was used on a person!

Especially cancer patients!

The stronger the effect, the greater the reaction!

But now, the two elders did not react at all!

Because the matter of recruiting volunteers for the cancer potion was very big, when the major news media came to interview, they immediately started a live broadcast!

In addition, today was the first day of the experiment. The number of viewers online had already reached more than 100,000 and continued to escalate!

Those who came to the live-stream today were all curious! Therefore, when they heard the possibility of the experiment failing, the news in the live-stream exploded!

“The experiment actually failed?! That’s impossible!!”

“That’s right. I heard that Old Master Ming didn’t even breathe at the press conference back then. He relied on a bottle of medicine to revive!”

“The photos at the scene were not leaked. Who knows if what was said at that time was true! Maybe this person who can develop a cancer drug is a liar!”

“Liar! Big liar! Disregarding human lives!”

She had given the patient so much hope for nothing, but in the end, it was all for nothing??

“I knew that this experiment would definitely fail! How could there be a drug to treat cancer in the world! Every cancer has a different pathogenesis. If there is a bottle of drug that can treat cancer, it must be fake!”

“Fake, fake!”

...

The comments in the live-stream were a mess.

“Why are you guys so agitated?”

One of the old men said bluntly, “I was supposed to be a volunteer for the experiment. Isn’t it normal to fail?”

“That’s right. There are always failures in the development of any drug. Who can guarantee that it will succeed every time?”

Another old lady said.

However, the netizens were not satisfied with their words.

At this moment, the live-stream was flooded with bots!

“I don’t care! A liar is a liar! I don’t think she has any ability at all!”

“That’s right! It’s a waste of our time! I think it’s a lie that she wants to study cancer potions. She wants to be famous!”

“I heard that this person who shamelessly said that she can treat all the cancer potions is a student of the Imperial University. Let’s go to the Imperial University’s official website to cause trouble! We must get the Imperial University to give everyone an explanation!”

“That’s right, let’s go to the Imperial University’s official website!”

Lan Xin had been observing the situation. When she saw that a large number of netizens were spamming about the scam, she felt much better!

She knew it. How could Nian Yue have developed a drug to treat all cancers?

If she could have developed it, she would have done so when Old Master Ming was sick. Why would she have waited until now?!

It was probably a coincidence that she could save Old Master Ming this time!

If this matter blew up on the official website, the school would definitely consider expelling Nian Yue for the sake of their reputation!

By then, her path in the pharmaceutical class would be smooth!

At the thought of this, Lan Xin logged into her social media account and posted a message.

“All the truths will be proven in practice! Good morning, everyone!”

The accompanying photo was a coffee and a thick stack of papers on the corner of the table.

Because of the previous incident with Teacher Su, Lan Xin gained a few million fans overnight.

Although Ming Fu had said on the spot that there was a problem with the drug that Teacher Su had developed to treat cancer, the final result was not out. This group of fans was still firmly on Lan Xin's side!

Seeing Lan Xin's post, this group of fans could not wait to comment.

“My Lanxin is still as beautiful as ever! She’s not like some students who have already set up a flag before the results are out!”

“That’s right! I heard that Lan Xin is in the same class as that classmate. Why is the difference between the students in the same class so huge!?”

“Our Lan Xin has been very humble from the start to the end! She only opened a social media account when the experimental results were out!”

...

Lan Xin’s social media account was filled with fans’ comments.

Of course, there were also many fans who were neutral.

“The final outcome is not out yet. Isn’t it too early for you to come to a conclusion!”

“Lan Xin’s fans are so obvious!”

“You have to see what kind of person the master is and what the servant girl is like! The results are not out yet and Lan Xin is already secretly making her presence known and stepping on Nian Yue. How disgusting! I’ll never see her again!”

“I’m going to deactivate it too!”

“Our Nian Yue is still the best. She has been low-key and humble from the start to the end! Unlike some people!”

...

“If you want to leave, hurry up and leave. Our Lan Xin doesn’t lack fans like you!”

“Our Lan Xin can only be beautiful without you!”

...

The fans on both sides started fighting.

It even reached the top of the search rankings.

Almost all the netizens were discussing the results of the experiment!

On the other hand, there was no movement from the Imperial University Affiliated Hospital!

Some of the reporters had already returned after knowing the results. Only a small number of reporters were still loitering at the entrance of the hospital to see if there would be a turnaround.

After all, as long as the Imperial University Affiliated Hospital did not say anything, the results of this experiment would not be decided.

At the Imperial University Hospital, Dean Zhou looked at the laboratory report and frowned.

How was that possible?

At that time, he could not find any cells related to cancer in Old Master Ming's body, which meant that the drug was effective against cancer.

But why was the new potion useless against the two volunteers?

"Director, the public opinion on the internet has already pointed to our hospital..." A doctor rushed over.

"I'm not replying yet." Dean Zhou's temples were throbbing.

Then, he called Nian Yue. “Miss Nian, the results of this experiment...”

He deliberated before speaking.

“The results are not out yet. What’s the rush?” Nian Yue said calmly.

“Then how long will it take?”

Dean Zhou continued to ask. He needed time to predict.

“We’ll do a new evaluation of the two volunteers in 12 hours.”

Nian Yue could not help but shake her head after she hung up.

Why were young people nowadays so impatient?

They could not even wait for a while.

...

Finally, at seven in the evening, the Imperial University Affiliated Hospital made a post on time.

“Experiment ended! The two volunteers are in good health!”

The account recorded the changes in the various indicators of the two volunteers from the moment they took the medicine until 12 hours later.

By midnight, almost all of the cancer cells were eliminated!

What did this mean?!

This meant that Nian Yue’s research on the medicine to treat cancer had succeeded!

Most importantly, other than the article, there was also a video below.

The video was taken inside the hospital. The two volunteers were in high spirits.

“Aiya! I told you I’m in good health now! I’m alive and kicking, as if I’ve returned to my twenties! You didn’t believe me and insisted on giving me another full-body checkup!” one of the old men said with a smile.

“Me too! The medicine you brought today to treat cancer is too amazing! I’ve already written my will, but my body is so good now. It’s awesome!”

The other old lady was overjoyed. Even her bald head, which had been shaved off for chemotherapy, looked more adorable now.

In an instant, the word “cancer drug developed successfully” became the number one trending topic!

Everyone was excited!

This was a drug to treat all cancers!

In an instant, the server collapsed!

Because too many netizens had squeezed in, the social media platform was paralyzed!

When all the netizens refreshed their social media accounts, they kept saying, “Please reload!”

The official staff hurriedly worked overtime to repair the server. After ten minutes, it returned to normal!

In just a few minutes, the comments below the Imperial University Affiliated Hospital had already become 100,000+!

On the other hand, Nian Yue's Weibo comments became 100 million+ in just five minutes!

The comments below were even more dazzling.

"Ahhh! What did I see in my lifetime?! Cancer can actually be cured one day!"

"Boss! Please accept my knee! The problem that so many doctors and hospitals could not solve was actually solved by a young lady!"

"I worship you! I worship you! Boss, do you think it's too late for me to acknowledge my father now? Do you lack a son?"

...

“Hahaha! I’m dying of laughter! I wonder who was the one who swore to step on the young lady today! Isn’t it a slap in the face now?”

“Has Lan Xin’s face been slapped?! The potion she developed herself was already problematic, yet she still has the cheek to jump around!”

“Our Miss Nian Yue has been recognized by the Imperial University Affiliated Hospital! What does she have in her heart? Experience helping others? Hahaha...”

“That’s right! Have you guys forgotten that Lan Xin is just a small assistant? Hearing her boastful tone every day, those who don’t know might think that she’s the main researcher!”

...

In an instant, the comments were one-sided.

### **Chapter 288: Trash! I’ll Send You to Hell! (1)**

Lan Xin saw that almost all the comments were on Nian Yue’s side.

She was so angry that her face turned green. Especially when all the comments on her page were scolding her.

“I was wondering why I smelled a strong smell of malevolence early this morning. It turned out that someone was up to no good!”

“You didn’t expect to be slapped in the face on the spot, did you? Nian Yue is much better than you.”

“That’s right! The last time you scored more than 90 points, she used her strength to prove that she could get full marks! You’re just not as good as her! Can’t she just admit it openly! Why did you have to play these tricks behind her back!”

“Shame on you! I’m done! Goodbye! I’ll never see you again!”

...

In an instant, Lan Xin’s fans left.

The speed at which Lan Xin’s fans fell was several times faster than the time she gained them!

Lan Xin watched helplessly as her fans fell from a few million to a few hundred thousand!

Of the hundreds of thousands of fans, a large portion were bots.

Lan Xin was so angry that her face turned green.

The Imperial University Affiliated Hospital was completely blown up this time because the cancer drug could treat all cancer patients!

In the middle of the night, the reporters were all waiting at the door to interview Dean Zhou.

Unfortunately, the Imperial University Affiliated Hospital had done a good job keeping it a secret.

Other than posting an article about the cancer potion on the official website, there was nothing else.

...

At the Medical Alliance

“President, someone in Country Z has already developed a drug to treat all cancers...” Zhang Shan rushed in. He was holding an article posted by the Imperial University Affiliated Hospital today.

“All cancers?”

As if he had heard a joke, Zhang Qian looked a little disdainful. “There’s actually a day when the country developed such a potion?”

Although the country’s medical technology had been developing rapidly over the years, it was still far from being comparable to the international market!

How could someone from the country have developed such a thing in a short period of time?

“Yes, I don’t believe it either.”

Zhang Shan explained, “But that article is reasonable. Most importantly, the person who developed the cancer medicine is a girl who is not even twenty years old!”

“A girl?”

Hearing this, Zhang Qian was interested. “How capable can a girl who’s not even twenty years old be?”

In his eyes, this was the age to go to school.

At most, she only knew how to answer college entrance examination questions. How could she have developed a drug to treat cancer?

“She seems to be... the person who hurt Jack back then...” Zhang Shan suddenly said.

“What?!”

Zhang Qian could not sit still anymore!

“Do you have her information?” Zhang Qian’s face immediately darkened.

It was already shocking enough that she could hurt someone from the International Alliance and remain unscathed!

Unexpectedly, she had developed a drug to treat cancer!

“I can’t find anything...”

Zhang Shan looked troubled. “All her information is encrypted! I can’t crack it at all...”

Not only that, all his information was gathered by the public platform of the country!

He could not even find a photo of that person online!

“Zhang Shan, the international alliance is a little disappointing...” Zhang Qian said slowly.

Which one of those who could enter the International Alliance was not a dragon or phoenix among men?

But now, Zhang Shan could not even find any information about a young lady!

Zhang Shan’s face turned pale.

The people of the International Alliance thought highly of themselves and looked down on the people from Country Z.

However, he did not expect that today, he could not even find any information about the most ordinary girl in the country.

“Alliance Master, please give me three more days. I will definitely find out more about that person!”

Zhang Shan promised solemnly!

He did not believe that a small countryman could be so powerful.

“Alright, I’ll give you three days.”

Zhang Qian waved his hand in agreement.

There was nothing that the international alliance could not do.

Furthermore, it was just a small country.

However, it looked like he had to make a trip to the Alliance Master Mansion.

Thinking of this, Zhang Qian instructed, “Prepare to go to the Alliance Master Mansion.”

There were many branches under the International Alliance. Other than the Hacker Alliance, there was also the Medical Alliance and others.

### **Chapter 289: Trash! I’ll Send You to Hell! (2)**

The Medical Alliance was also managed by the International Alliance.

The helicopter was already parked in the back garden. Zhang Qian boarded the plane and rushed to the Alliance Master Mansion.

The thick door was pushed open and a butler had been waiting at the door for a long time.

“Mr. Zhang, follow me.”

The waiter said respectfully.

After entering the entrance of the Alliance Master Mansion, the waiter led him straight to the back garden.

It was summer now, and the flowers in the back garden were blooming beautifully.

Not far away, there was a man-made mountain and flowing water. Under the brick-red octagonal pavilion, there was an old man lying on a rocking chair.

The Alliance Master’s ancestors were from Country Z, so all the decorations in the Alliance Master’s Mansion were mainly from Country Z.

“Alliance Master, he’s here.”

The waiter walked over and spoke respectfully.

“I understand. You can leave.”

The president waved his hand at him and said slowly, “Since you’re here, don’t be shy. Is it because of the cancer medicine developed by the country?”

The Alliance Master looked to be in his forties and was holding a string of Buddhist beads.

He was the president of the international alliance, Yang Zhao.

And Jack, who went to Country Z last time, was the vice president.

“You already know?”

Zhang Qian was a little surprised. “This person is a little strange. In the history of the country, no medicine to treat cancer has been developed. I heard that this young lady is not even twenty years old. How can she be so capable?”

“Other than human factors, there should be other non-human actions.” Yang Zhao touched his chin.

“You mean...”

Zhang Qian reacted almost instantly. “She’s an Esper?”

If that was the case, everything seemed to make sense!

After all, Espers had various superpowers!

Other than metal, wood, water, fire, and earth, there were other supernatural powers.

Healing power was something that almost all Espers yearned for!

But there was only that person in the country. But from what Yang Zhao said, there was actually someone else?

“Zhang Qian, your news is too outdated,” Yang Zhao said slowly. “The last time Jack went over, he had already probed. Other than that person, there’s another person with a powerful supernatural power.”

“You mean the young lady who developed the cancer medicine this time? She developed it because she used her supernatural power?”

Zhang Qian thought very quickly.

“It’s her.”

Yang Zhao nodded. “Not only does she have supernatural power, her main supernatural power is lightning, and her auxiliary supernatural power is wood...”

That was a lightning power!

She could control all the lightning in the world!

Whether it was lightning power or wood power, as long as an ordinary person had one of these two powers, this person could bring unimaginable wealth.

And yet she had two.

She also seriously injured Jack!

“No wonder Jack...”

No matter how powerful Jack was, he was only a water-elemental superpower. If he encountered a dual-elemental superpower, he would only suffer.

“She might be that person’s daughter...”

Yang Zhao sighed. “It looks like our international alliance will gradually become lively...”

“Then on your side...”

Zhang Qian could not figure out Yang Zhao’s attitude.

“Let’s wait and see.”

Yang Zhao said calmly. He was also looking forward to the extent of that young lady’s supernatural power awakening.

...

And on the other side

Ever since Nian Yue developed a drug to treat cancer, the entire Imperial University was filled with people every day. Especially the reporters. One after another, they wanted to interview her.

However, Nian Yue was elusive. Even the students in the dormitory did not know where she had gone.

On the other hand, Lan Xin had lost a lot of fans because of her actions. Not only that, even when she walked on campus, students would criticize her.

Therefore, even when Lan Xin went out, she deliberately covered herself, afraid that other students would see it.

When they reached the agreed place, Lan Xin took off her hat and called out shakily, "Teacher Su..."

"You came by yourself, right?" Teacher Su's face was pale and looked extremely ugly.

Over the past few days, she had been living in fear because of Nian Yue's research on the cancer medicine.

The Ming family was still investigating the potion he used last time. If the evidence was conclusive, she would definitely not be able to escape!

Therefore, what she had to do now was to drag someone down with her before she died.

“Yes.” Lan Xin hurriedly nodded.

“I have a big gift for Nian Yue.” Teacher Su sneered.

She had become like this today because of Nian Yue!

If not for the fact that Nian Yue had developed the potion, Ming Fu would not have been able to find out about it! When the time came, her career would soar! She would not be in a constant state of anxiety like she was today.

“That’s not too good...”

Lan Xin was a little afraid when she saw the address.

“We’re all in the same boat now. If Ming Fu has concrete evidence, do you think you can escape?”  
Teacher Su sneered.

Lan Xin felt a chill run down her spine.

“Alright, I’ll do it!”

In the end, Lan Xin gritted her teeth and sent a message to Nian Yue.

When Nian Yue came out of the hospital, she saw that she had already received a message on her phone.

It was from an unknown number.

“Nian Yue, I have a video of you here. I believe you will be interested.”

A video followed. Before Nian Yue could open it, it was already playing automatically.

The protagonist in the video was Nian Yue. She was holding herbs in her hand and one could vaguely see a faint blue glow in her palm.

As the light grew larger, the herb in her palm had become a pill.

The video stopped abruptly.

“If you don’t want others to know about this, come here.”

An address was sent over.

When she saw that video, Nian Yue sneered.
