

**Chapter 111 Heaven knows, Earth knows, you know, I know**

Mu Ru had been dawdling in the kitchen. She did not help Mama Liu bring breakfast to the dining room. Instead, she had been helping out in the kitchen. It was not that she was too diligent in treating herself as a servant, but she did not want to go out and face Dongfang Yu because that would be very awkward.

Therefore, she dawdled and did not go to the dining room to have breakfast with everyone. Instead, she hid in the kitchen and ate a little, but her ears were always paying attention to the movements in the dining room.

It was not until there was no more noise in the dining room and it was not until Mama Liu went to the dining room to clean up the dishes and came in that she secretly heaved a sigh of relief. Then, she smiled at Mama Liu and pretended that she had finished her work before walking out of the kitchen.

As expected, there was no one in the dining room. She looked at a man who was mopping the floor and was about to ask her if she knew where there was a flower seed shop nearby. She wanted to buy some orchids and Camellias to plant them on the newly dug open land in the south.

However, just as she walked to a man's side and was about to speak, Dongfang Jun ran in from outside the door. When he saw her, he hurriedly called out, "Mu Ru, quickly go upstairs to get your bag and follow me to school. Big Brother has agreed to let you go to school."

When Mu Ru heard this, she was stunned. She looked at Dongfang Jun with a shocked expression, as if she had misheard. She blinked her eyes and could not help but ask, "what did you say just now?"

"I said that big brother agreed to let you go to school." Dongfang Jun could not help but laugh when he saw her shocked expression. He took two steps towards her and said, "hurry up. I happen to be going to school too, so I'll bring you along."

"This... is impossible, right? When did he say that to you?" Mu Ru stood there without moving. She was also dubious about Dongfang Jun's words. Last time, she messed up when she met Nangong Xun. Dongfang Mo said that she did not seize the opportunity, so she could never go to school.

"Last night?" Dongfang Jun hurriedly explained to her, "last night, after you had dinner, you went upstairs. I originally wanted to go upstairs to give you a book, but Big Brother said that there was no need to send it off. He told you to go to school tomorrow. Anyway, you can't help much at home, so you'll only make trouble for him."

When Mu Ru heard this, she felt extremely uncomfortable. She had already tried her best to learn how to be the first lady of the Dongfang family, but because she was young and did not have any experience, there were many things that she could not do well.

Of course, what Dongfang Mo said about her causing trouble for him was probably referring to the night she went missing. As for how Uncle Liu reported that night to Dongfang Mo, she did not know. However, what happened between her and Dongfang Yu... She did not think that Uncle Liu would know, right?

The night before last on the yacht, after Dongfang Yu and she fought to the death, she finally woke up. She was so ashamed that she wanted to jump into the sea and drown. This was because she actually did such a dirty thing with her brother-in-law.

Dongfang Yu held her hand and whispered to her, "this matter is between us. There's no need for a third person to know. Because the yacht ran out of oil, and Uncle Liu and a Hao went to look for oil nearby. "

"Mu Ru, what are you thinking about?" Dongfang Jun saw that Mu ru was absent-minded, so he immediately pushed her arm and urged her, "hurry up and go upstairs. If you don't hurry up, you might be late. Don't you want to go to school?"

Only then did mu ru react, so she quickly ran upstairs. Who didn't want to go to school She really wanted to go to school. Now that there was such a good opportunity, she definitely wanted to go to school.

### **Chapter 112 is there a rumor about your husband**

Mu Ru went back to school and her days were peaceful. However, Dongfang Mo did not allow her to take Dongfang Jun's car, saying that she had to avoid suspicion between uncle and sister-in-law.

She could not take Dongfang Jun's car, and of course, she could not let Dongfang Yu drive her because Dongfang Yu and Xi Muxue were married. She and Dongfang Yu were also uncle and sister-in-law, so of course she had to avoid suspicion.

Moreover, she was even more unwilling to take Dongfang Yu's car. No, she did not want to see Dongfang Yu at all. Fortunately, ever since the incident of her being kidnapped by Nangong Xun, half a month had passed, and she had only seen Dongfang Yu twice.

The first time was a week ago, when she had finished breakfast and was preparing to go to school. At that time, she went upstairs to get her schoolbag. When she reached the door of her room, she saw the door next door open and Dongfang Yu and Xi Muxue walked out.

She lowered her head and quickly went to twist the door of her room. However, because she was flustered and her palms were sweating, she could not open it after a long time. Dongfang Yu came up and naturally held her hand and the door lock handle to help her open the door.

The second time was yesterday afternoon. When she walked out of the school gate after school, she found his car parked at the school gate. She thought that he was here to pick her up. When she was wondering if she should take his car, she saw that he did not see her at all She walked past her and walked towards Kuang Yingying who was walking towards the school gate.

She was slightly stunned, then she quickly turned around and walked towards the bus on the main road outside. Dongfang Yu and Kuang Yingying had been together for a long time. Later on, when he married Xi Muxue, she thought that he and Kuang Yingying had broken up, but she did not expect that.. It turned out that behind his back, he and Kuang Yingying were still in contact.

No, it could not be said to be behind his back, because after Dongfang Yu and Xi Muxue got married, they seemed to have never restrained themselves. He was still dating his former lover, Tang Lili, non-

stop. Now that he was openly driving to pick up Kuang Yingying, presumably.. He didn't care if Xi Muxue knew about this, right?

Mu Ru left in a hurry. Someone had thrown a banana peel on the ground, but she didn't see it, so she accidentally stepped on it. Her whole body slid forward, and she cried out in fear. Fortunately, there was a tree in front of her. In a flurry, she hugged the tree trunk and finally stabilized her body.

"Hahaha," Cheng Feier, who was following behind her, saw her in such a sorry state and couldn't help but laugh. She walked up and patted her shoulder "Hey, Xi Muxue, I saw your husband just now. No, it's your brother-in-law. He's picking up Kuang Yingying. Moreover, after Kuang Yingying got into the car, the two of them had a long kiss without even closing the car window." Mu Ru listened to Cheng Feier's words. Her little hand could not help but touch her slightly dry lips. When she thought about how he was actually kissing someone else, her heart could not help but ache.

"Xi Muxue, I'm talking to you. Did you hear me?" Cheng Feier saw that Mu Ru was walking with her head lowered without saying a word. She quickly nudged her. "What's wrong? Are you deaf?" "I heard you." Mu Ru rolled her eyes at her. "Why are you telling me this? Dongfang Yu is Xi Muxue's husband, not mine. I don't want to hear about his scandals."

"F \* Ck, boring." Cheng Feier shook Mu Ru's hand away "women, aren't we all gossiping when we're together? If I don't gossip about Dongfang Yu's scandals with you, do you think I'll gossip about your husband Dongfang Mo's scandals with you? But the key is, your husband Dongfang Mo, does he have scandals for us to gossip about?"

### **Chapter 113 Xi Muxue is pregnant**

Mu Ru's head hurt when she thought about what Cheng Feier had asked her yesterday.

Cheng Feier was a natural gossip and liked to get to the bottom of everything. When they went to wait for the bus yesterday afternoon, not only did she say that her husband did not have any scandals, she also asked her, "Mu Ru, is your husband really not allowed to be mean to you?"

She immediately blushed and glared at Cheng Feier, but Cheng Feier laughed out loud. Then, she whispered to her, "Mu Ru, why are you so shy? You're already a married woman, why are you afraid to talk about this? Nowadays, many girls have seen Japanese porn at the age of 16. Who doesn't know about that? It's just a question of whether it's practical or not."

Mu Ru felt even more ashamed after hearing her words. Coincidentally, someone had vomited in the trash can beside the bus stop, but it didn't go in. It was placed there and looked disgusting. Thus, she covered her mouth with her hand and vomited as well.

Cheng Feier quickly asked if she was feeling unwell. She shook her head and pointed at the trash can not far away. Cheng Feier glanced at it. She immediately covered her mouth with her hand and said, "It's quite disgusting. Our car is here. Hurry up and get on the car. Otherwise, I'm afraid I'll vomit too."

The bus had indeed arrived. The two of them squeezed onto the bus. Cheng Feier was in the same direction as her, but she lived in the city. She only needed to take three stops.

She lived in one inch Mo city, which was in the suburbs, so she had to take thirteen stops. That was ten stops more than Cheng Feier.

The traffic jam last night had lasted for more than an hour. When she got home, it was already past 8 pm. There was no one in the living room except for mother Liu, who was still waiting for her in the dining room. She said that she had saved some food for her.

When she was having dinner, Mother Liu sat at the side and nagged her. She said that Xi muxue would throw up as she ate. After throwing up, her face turned pale and she walked unsteadily. She almost fainted.

When she heard this, she was slightly stunned. She casually asked if she was sick, but mother Liu said that she did not know. Anyway, Dongfang Yu had driven to the hospital.

Last night, because she had returned home late, she had not seen anyone other than Dongfang Yu. Of course, because Dongfang Jun was going abroad soon, he had gone to Hong Kong to take his exams in the next few days, so she had not seen him.

Today was Saturday, so she did not have to go to class. Moreover, last night, when she was reviewing her homework, she felt extremely sleepy, so she overslept. When she opened her eyes, it was already eight o'clock in the morning.

She had never slept so late before. She wondered if Dongfang Mo would be having breakfast at home this morning. If he was there and found out that she did not appear in the dining room, he would probably teach her a lesson again.

Hence, she hurriedly got out of bed and waited for her to hurriedly wash up and tidy up before running downstairs. Only then did she realize that almost all the Dongfang family members had gathered in the Dongfang family's living room.

As for Xi Muxue, her noble and beautiful younger sister, no, she was now her sister-in-law. Right now, she was sitting on the sofa with a smile on her face. Next to her were Dongfang Mei and Dongfang Yu, and of course, a bunch of servants.

Just as Mu ru was wondering what was going on.. She heard Dongfang Mei say, "Ah Yu, since Mu Xue is pregnant, this is the bloodline of our Dongfang family. We can't be careless at all. I think she doesn't need to go to school anymore. We should focus on protecting the fetus. Everything else has to wait until the child is born."

Dongfang Yu nodded and echoed Dongfang Mei, "Aunt Gu is right. Why don't we send a servant to take care of her? "

#### **Chapter 114 was titled Young Madam as a servant**

"MMM. " Dongfang Mei nodded She looked at Dongfang Yu and said, "AH MO discussed it with me last night. He said that this is the heir of the Dongfang family and that he must be extremely careful. He must not make any mistakes, so he must send at least one servant to specially serve Second Madam. "

“Then let a min take care of her,” Dongfang Yu heard Dongfang Mei say Hence, he said plainly, “even though a min is also a girl in her twenties, she has been working in one inch Mo city for a few years. I think it’s pretty good for her to do things...”

“I don’t want a min.” Xi muxue snatched her away before Dongfang Yu could finish his sentence. When she looked up, she saw mu ru walking down the stairs. Her eyes darted around Hence, she smiled and said, “I think it’s better for sister-in-law to accompany me. Anyway, sister-in-law and I have been sisters since we were young. When we were young, she was used to being my companion. sister-in-law is pretty good at what she does, and I like her cooking too.”

Mu Ru was shocked when she heard this. She was about to say that she did not know how to take care of a pregnant woman, but before she could say anything, Dongfang Mei spoke first in front of her.

Dongfang Mei frowned and said, “Mu Xue, it was a long time ago when mu ru was your sister. Now that she’s in our Dongfang family, she’s the first young Madam. She doesn’t belong to the servants, so how can she take care of you Not to mention that she’s not willing, even if she was willing, ah Mo would definitely not be willing, right?”

Xi muxue heard Dongfang Mei’s words, so she deliberately covered her stomach with her hand Then, she looked at Dongfang Yu coquettishly and said, “Ah Yu, can you call your big brother and ask Mu ru to take care of me? If it’s not possible, I want my mother to bring mother Wang over. I’m used to the XI family’s servants...”

Xi Muxue was about to stand up and go upstairs to call her mother when Dongfang Yu quickly pressed his hand on her shoulder He said impatiently, “alright, alright, don’t move anymore. I’ll call big brother now and ask for his opinion.”

Then, he immediately took his phone and walked out the door. Of course, Dongfang Yu called Dongfang Mo from the courtyard. As for how he told Dongfang Mo, no one knew.

About five minutes later, Dongfang Yu walked into the hall again and looked at Mu Ru He then looked at Xi Muxue and said, “alright, big brother has already agreed. He said that sister-in-law has nothing to do all day anyway and has already married him. It’s no longer important whether she studies or not. The most important thing now is the heir of the Dongfang family in your belly, so he asked sister-in-law to take care of you during your pregnancy.”

When Mu ru heard this, a trace of hope instantly fell to the bottom of the valley. Never in her wildest dreams would she have thought that even though she had married someone and was even the first young mistress, she still could not escape the fate of being Xi Muxue’s servant.

A Mother’s value is determined by her child. This idiom had been very practical in China for generations. With the Dongfang family’s situation, the task of carrying on the family line was naturally in Dongfang Yu’s hands, while Xi Muxue was pregnant with Dongfang Yu’s child. Naturally, the Dongfang family would pay attention to her Mu Ru had already thought of this before.

However, she never dreamed that the Dongfang family would pay so much attention to Xi Muxue. Not only did they have to send a maid to take care of her, they even demoted her, the first young mistress, to a maid to take care of her.

On the surface, she was the eldest young Madam, but as she was transferred to take care of Xi Muxue, in reality, Xi Muxue had already become the eldest young madam and she had become a maid.

### **Chapter 115: The Servant who takes care of a pregnant woman**

Thus, Mu Ru's studies had to be interrupted once again because her identity had changed imperceptibly. Thus, she was no longer idle in one inch ink city, but a little servant who was busy all day long.

Ever since she was sent by Dongfang Mei to take care of Xi Muxue last Saturday, this week, she had entered a professional training period for pregnant nannies. This was because her first task every day was to take care of Xi Muxue, and her second task was to take care of Xi Muxue.

Last Saturday, in order to take better care of pregnant women, under Xi Muxue's command, she even specially got uncle Liu to drive to the bookstore and specially bought a large pile of pregnant women's books.

Of course, these books were not for Xi Muxue to read, but for Xi Muru to read. In Xi Muxue's words, "my task is to let the baby in my stomach grow healthily. For other things, you, Xi Muru, the nanny, can just go and do it. Why should I read? Just tell me when you've read the books."

When Mu ru heard this, she no longer taught Xi Muxue to read pregnant women's books. Instead, she took care of Xi muxue every day. When Dongfang Yu came back at night, she would marry her safely to Dongfang Yu. She then returned to her room to read these pregnant women's books.

Actually, taking care of Xi Muxue was not an easy task because she had to eat this and that in the morning. However, when she helped her make it, she might say that it was not delicious after a taste and then think of another way.

Especially the morning before yesterday, she had made nine servings of breakfast for her in a row and filled the entire table. However, she insisted that it was not to her appetite and even asked Mu ru to make fresh shrimp dumplings for her.

At that time, she was slightly stunned. She was just about to say that she did not know if there were fresh shrimp at home. If it was not used, she would have to go to the market to buy it. After she bought it, she would make dumplings. She reckoned that it would not be breakfast but lunch.

However, before she could say anything.. She heard mother Liu at the kitchen door say, "second young Madam, I don't think the first young Madam is suitable to take care of you. Why don't I report this situation to the first young master today and let your maid or your mother take care of you?"

Xi muxue immediately fell silent when she heard mother Liu's words. Even though mother Liu did not seem to have much status in the Dongfang family, she was actually a high-ranking cook because she was Dongfang Mo and Dongfang Yu's wet nurse. She was mainly in charge of breakfast and supper in the kitchen, and there were other chefs busy with the big meals.

Perhaps because of Mother Liu's words, Xi Muxue did not have to do much with breakfast these two days. However, she would still find some messy things to do with her during the day. In short, she did not need to take a moment to rest.

Mu Ru had just finished speaking when she looked up and saw Xi muxue walking towards them. It was already late November and the weather was a little cold, but because she was pregnant, she was actually wearing a very loose bubble skirt-style autumn skirt. The walking posture shows its delicate, the cheeks rippled with a layer of ruddy, the face is unable to suppress the joy, the corner of the eyes with a hint of proud show off.

Mu Ru lowered her head and continued weeding, ignoring her. Although she was in charge of taking care of her, she did not need anyone to take care of her at this moment. She could also do other things, not to mention that she was a restless person.

“Aiyo, Mu Ru, don’t you know that you’re very capable of weeding flowers and things like that? You’re on par with a MIN.” Xi Muxue stood beside the imperial cuisine, her fair little hand resting on her stomach. Her stomach was deliberately propped forward, and her smile was very smug.

When Mu ru heard her words, she instinctively frowned. Although she was taking care of her now, her identity was still that of the first young mistress. She had actually put her and a min together. Wasn’t this openly praising her and secretly belittling her?

Mu Ru did not make a sound, but a min, who was at the side, could not stand it anymore. She looked at the way she held her waist with one hand and put the other hand on her stomach. She could not help but ask, “Second Madam, have you been learning how to walk like a model recently? Is this your latest pose?”

A Min’s words stunned Xi Muxue. Then, she said unhappily, “a Min, what does an old lady like you know? Pregnant women have to be careful when they walk. I have to take care of my lower back and my stomach. I can’t just walk like before. I have to think about the baby in my stomach, don’t I?”

### **Chapter 117 the mistress of the Dongfang family**

When Mu ru heard her words, she could not help but raise her head to glance at Xi Muxue’s stomach. To be honest, she was only seven weeks pregnant, and her stomach was flat as if she was not pregnant. Xi Muxue’s current posture.. It was as if she was five to six months pregnant. It was as if everyone in one inch ink city still did not know that she was pregnant.

“since the second young mistress is pregnant, then quickly go back to your room and sit down to rest,” Mu Ru said plainly. She did not even look at her. “We’re watering the flowers here. There will inevitably be water or something later. What if you slip and fall?”

“I have to go back quickly,” Xi muxue answered proudly. Then, she looked at mu ru whose hands were covered in mud and said, “Um, Mu Ru, just now, aunt Gu said that it’s a good thing for the Dongfang family to be pregnant and that they should go to the Dharma Temple to burn incense. Aunt Gu has already called big brother, and big brother also said that they should go...”

“That’s your business. Why are you telling me this?” Mu Ru felt that Xi muxue’s words were a little funny. Was there something wrong with the brain of a pregnant woman? Whether she wanted to burn incense or petition, what did it have to do with her?

“You’re the first young Madam, ” Xi Muxue’s voice sounded even more intimate as she walked closer to Mu Ru With a sweet smile on her face, she said, “Mu Ru, you’re my sister, and now you’re my sister-in-law. I want to go to the Dharma Temple to burn incense and petition. Of course, I want you to accompany me, even though you’re my sister and sister-in-law, don’t you think so? ”

Mu Ru’s expression was still cold. She had already seen Xi Muxue’s tricks in the XI family. It was not for this reason, but she did not know who she was putting on an act for because there was only a min by her side And it was a maid.

Of course, Xi Muxue walking up to her and saying all this was undoubtedly mocking her. So what if you, Xi Muru, are the first lady Aren’t you still a widow every day And you’ve never had the chance to experience the joy of being pregnant and having a child in your life.

Another deeper meaning was that the so-called first lady, after I’m pregnant with the Dongfang family’s child, is already almost like a maid. Now, I’m going to enjoy the life of this noble identity, and you, are still going to be like the XI family Be a servant then.

Fortunately, Mu Ru had been in the XI family for 19 years, so she was already used to Xi Muxue’s tricks Therefore, she replied calmly, “I’m sorry, when you go to the Dharma Temple to burn incense tomorrow, your husband, second young Master Dongfang, should accompany you. I won’t be a third wheel anymore. ”

“Aiyo, sister-in-law, what are you saying? ” Xi Muxue’s voice became gentler “Just now, Aunt Gu said that burning incense and petitioning is the matter of the Dongfang family’s mistress. Now that you’re the first young Madam, of course, you’re also the Dongfang family’s mistress. You’ll definitely have to lead me there, don’t you think so? ”

Mu Ru was stunned when she heard this. Just as she was about to reject again, she looked up and saw that Dongfang Mo’s wheelchair had already turned behind Xi Muxue.

She immediately understood that Xi Muxue’s pretense was not for Ah Min to see, but for Dongfang Mo to see. It was probably to re-establish the image of a gentle and virtuous lady in Dongfang Mo’s heart After all, because she had once refused to marry Dongfang Mo, Dongfang Mo did not have a good impression of her.

Before Mu ru could say anything, Dongfang Mo, who was standing behind Xi Muxue, spoke up An old and hoarse voice rang out. “Second sister-in-law, you’re right. Mu Ru, you’re the mistress of the Dongfang family. You’ll have to bring second sister-in-law with you when you go to the Dharma Temple to pray. ”

### **Chapter 118 treatment for the mistress of the Dongfang family**

When Mu ru heard Dongfang Mo’s words, she laughed bitterly in her heart. She was the mistress of the Dongfang family. who had ever seen the mistress take care of a pregnant woman like a servant?

However, she obviously would not question Dongfang Mo. Furthermore, Dongfang Mo did not give her the chance to question him. After he said this, he turned his wheelchair and walked away.

Since Dongfang Mo had ordered her to go, then she would go. After all, this was her fate. In the Xi family's Xi Yuancheng, she was treated like air. In one inch Mo city, Dongfang Mo treated her as a chess piece and placed her wherever he wanted.

On the morning of the third day, after breakfast, Dongfang Mei was talking about offering incense. Of course, Mu Ru was the mistress now, so she had to go.

Originally, the Dongfang family's male master should have gone too, but Dongfang Mo's ghost face definitely couldn't go out, so he ordered Dongfang Yu to replace him as the Dongfang family's male master to go to the Dharma Temple to offer incense.

There were three cars parked outside one inch Mo city. Dongfang Mei drove one, Dongfang Yu and Xi Muxue used one, so of course it was Dongfang Yu's sports car. As the mistress, Mu Ru naturally had to ride Dongfang Mo's rolls-royce.

However, Mu Ru did not know how to drive herself, which was a little troublesome. Initially, Mu ru wanted to ask uncle Liu to drive for her, but Uncle Liu said that Dongfang Mo had arranged for him to send her to the company for a meeting. Today was the monthly board meeting Therefore, Dongfang Mo did not know how long he would be staying at the company, so he did not dare to leave without permission.

Thus, Mu Ru came to Dongfang Mei apologetically and said, "I'm sorry, aunt Gu. I don't know how to drive myself, so I won't go, right? "

Aunt Gu was slightly stunned when she heard this, then she smiled and said, "Mu Ru, you're the first lady of the Dongfang family. If you don't go, this petition probably won't be effective. Why don't you sit in my car? I'm going anyway. "

"This... alright then. " Mu Ru thought about it and did not feel that there was anything wrong with it. Thus, she reached out her hand to pull Dongfang Mei's car to the back seat and got in.

However, just as her hand touched Dongfang Mei's car door handle, Dongfang Yu walked over. He saw her and said indifferently, "sister-in-law, aunt Gu is an elder. How can you let an elder be your chauffeur? Do you understand the rules of the Dongfang family? "

Mu Ru was stunned when she heard Dongfang Yu's words. Then, she said somewhat helplessly, "then you guys can drive first. I'll go outside and hail a taxi to Hongfa Temple. Is that alright? "

"You can get into your own car. I'll drive for you, " Dongfang Yu said very naturally. When he saw mu ru standing there in a daze.. He couldn't help but frown and said, "I'm your brother-in-law, and you're my sister-in-law. It's normal for me to drive for you. It's in accordance with the Dongfang family's rules. "

"But... What about Mu Xue? " Mu Ru knew that it was in accordance with the rules because Dongfang Yu was the one who drove for her when she first married ...

Moreover, Dongfang Yu was the groom for her and Dongfang Mo's wedding. However, Dongfang Yu was already married and his wife was pregnant.

“What about her? Doesn’t she know how to drive?” Dongfang Yu said nonchalantly. When he saw that Mu ru was still standing there in a daze, he could not help but growl, “are you waiting for big brother to drive for you?”

When Mu ru heard this, she immediately headed towards her own car obediently. In fact, it was Dongfang Mo’s rolls-royce. Dongfang Yu, who was behind her, stuck his head in and said something to Xi Muxue, so she was not in the mood to care.

## **Chapter 119**

Dongfang Yu drove the car for her. Mu Ru did not want to be too close to Dongfang Yu, so she took the initiative to sit in the back. She wanted to be a little further away from him so that she would be out of sight and out of mind.

Dongfang Yu looked at her from the rearview mirror and chuckled. “Why? Am I that scary? You don’t even dare to sit in the front passenger seat anymore?”

Mu Ru stared at him fiercely in the rearview mirror, then growled, “hurry up and drive away. Don’t you see that aunt Gu and your wife have already driven the car out of one inch ink city?”

“Aiyo, sister-in-law, why are you so fierce?” Dongfang Yu asked unhappily as he started the car. Then, he stepped on the accelerator and the car sped out of one inch Mo city.

Mu Ru was slightly stunned when she heard Dongfang Yu’s words. Then, she turned her head away from the car window and ignored him. was she very fierce She just didn’t want to see him.

Dongfang Yu saw that mu ru didn’t say anything more. It was obvious that she didn’t want to talk to him. His heart couldn’t help but thump. Did she hate Dongfang Yu to such an extent now She always avoided him when she had nothing to do. Today, she was finally sitting in a car. She actually hid in the back seat of the car?

When he thought of this, he could not help but feel uncomfortable. The women outside would surround him like flies when they saw him. The woman at home was good. Whenever she saw him, she would hide as far away as she could.

Perhaps this was the common problem of men. Every man liked women to revolve around him. This was the so-called self-esteem of men since ancient times. It did not have much to do with whether he loved that woman or not.

Although Dongfang Yu and Mu Ru’s relationship was that of brother-in-law and sister-in-law, in the end, they had already broken through that layer of relationship. From Dongfang Yu’s point of view, Mu Ru must have missed him very much and wanted to be with him in private. After all.. That night of intimacy, both of them felt that it was incomparably beautiful.

However, in reality, Mu Ru did not want to see him at all and did not miss him. Hence, he could not help but think angrily in his heart that this woman was really able to hold on. She was indeed suitable to be the first young mistress of the Dongfang family.

Thinking of this, the corner of his mouth unconsciously curled up into a smile. She could hold on, very good. It seemed that this was what he wanted.

Mu Ru sat in the back row. She could not notice Dongfang Yu's expression, nor could she guess what Dongfang Yu was thinking. The only thing she prayed in her heart was that the Dharma temple would arrive soon so that she could get off the car early so that she would not be in the same space as Dongfang Yu.

However, the more anxious she was, the more trouble the car was in. Just as they reached a remote corner at the foot of Wutong Mountain, Dongfang Yu's car suddenly stopped at the side slowly.

"What's wrong?" Mu Ru saw that the car had already stopped, and she could not help but poke her head forward to ask, "have we arrived at Dharma Temple?"

"No," Dongfang Yu muttered a little impatiently. Then, he checked the car and said, "I think there's no oil." "Ah? There's no oil?" Mu Ru was shocked and asked, "Why is there no oil?"

"How would I know?" Dongfang Yu said impatiently. He took out his phone to make a call and said, "this isn't my car. Who knows what happened to Uncle Liu? He actually forgot to fill up the car. I guess Big Brother hasn't driven this car for a long time?"

"Then what should we do?" Mu Ru became anxious after hearing Dongfang Yu's words. "Don't tell me we have to walk to the Dharma Temple? How far is it from here?"

#### **Chapter 120 sharing a car**

"What should we do? Get to the gas station to deliver the gas," Dongfang Yu said and immediately got out of the car to make a call. Mu Ru guessed that he was calling the gas station.

Dongfang Yu talked for about three minutes before he opened the door. Mu Ru thought that he wanted her to get out, so she moved her body and prepared to get out of the car.

However, Dongfang Yu did not let her get out of the car. Instead, he quickly squeezed into the car. Mu Ru was shocked. She could not help but quickly move her body to the other car window and frowned at him. She asked nervously, "why did you get into the car if you're fine?"

"WHO said I'm fine?" Dongfang Yu's voice was low and contained a hint of mockery. With a bang, he closed the door and squeezed towards her.

"What do you want?" Mu Ru became even more nervous. Her body was already pressed against the car door. In her panic, she reached out to push the car door, but in an instant, she realized that the car door was locked.

"What do you think?" Dongfang Yu saw her nervous expression and felt that it was funny. Initially, he only wanted to get into the car to sit with her. After all, it would take more than half an hour to get gas. It was boring to stand under the car.

However, this woman was like a mouse seeing a cat. She instinctively stimulated the game of cat and mouse deep in his heart, so he couldn't help but squeeze closer to her.

“Don’t squeeze closer!” Mu Ru couldn’t help but roar. She stared at Dongfang Yu’s head and turned it out of the window, but because she was too quick, she bumped into the car window.

“ouch,” she couldn’t help but let out a low cry.

“What’s wrong? Did you hurt yourself?” Dongfang Yu quickly asked with concern. His body, which was originally squeezing closer, also stopped.

“I’m fine,” Mu ru replied indifferently. She could not help but raise her hand to rub the scar where she had been stitched up. Because the scar had not fully grown back, this bump naturally caused some pain.

She used her hand to gently rub it. The pain made her rosy lips pucker up cutely. Her expression was a little angry. It was less elegant and indifferent as usual, but more playful like an eighteen or nineteen-year-old girl.

Dongfang Yu was immediately attracted by Mu Ru’s small movement. Mu Ru had always given him the impression that she was indifferent and indifferent. Of course, she was also enduring humiliation She had a tough but overly mature and rational heart that did not match her eighteen or nineteen-year-old age.

Other than the time when he was caught by Nangong Xun to drug her and completely lost his composure, he had never seen her show her feminine side. Her face, on the other hand, seemed to always wear a mask, no matter if someone scolded her or hit her.. She would always accept it calmly, face it calmly, and handle things much more mature and calm than her actual age.

Of course, he also knew that Mu Ru’s personality came from the environment she had lived in since she was young. She might have been deeply ingrained in her heart to accept it, which was why when Xi muxue asked her to take care of her without reason, she did not resist Instead, she silently accepted such unfair treatment.

Seeing this little woman in front of him display such a vivid expression once again, Dongfang Yu’s heart could not help but jump up and down. Unknowingly, an unfamiliar feeling that he did not even know.. Actually, it was something that was screaming in his heart.

“Mu Ru, come here!” He could not help but call her softly. His voice was slightly trembling in his deep and hoarse voice.
