Chapter 1121 ordinary married life

Lei Zhenyu smiled and looked at her bending down to pick ribs. Her waterfall-like black hair slid down and covered half of her face. Her eyelashes were very long. Looking from the side, they looked like butterfly wings. As her eyelids fluttered, she looked like a fan. It was very moving.

The curve of her jaw was not particularly sharp, but oval. From his angle, it looked like a peeled cooked duck egg. Her skin was crystal clear with a hint of pink. It was so beautiful that it was soul-stirring.

Her Pink Lips were slightly pursed, and she looked very focused as she picked the ribs. She looked like a young housewife who went to the supermarket after work to buy groceries and prepare dinner.

Lei Zhenyu pushed the cart and looked at her blankly. He was suddenly absent-minded and forgot where he was at this moment.

“Hey, this is the main dish. What else do you want to eat?” Ru Yu straightened up and put the ribs in his shopping cart. She looked at Lei Zhenyifan, who was standing at the side in a daze, and asked, “how about stir-fried beef with green pepper?”

“I didn’t buy green pepper just now.” Lei Zhenyu finally came back to his senses, and then patiently explained, “the green pepper just now didn’t seem very fresh.”

“Okay, then make another fried pork with chives. You just took a handful of chives.” As Ru Yu spoke, she bent down and picked up a box of lean meat.

“This box of lean meat is not good.” Lei Zhenyu quickly put down the box of lean meat from her hand, and then he picked up another box of lean meat and handed it to her. “This box is good. This box is the back muscle. It’s very tender when stir-fried, and it’s very delicious.”

Ru Yu was embarrassed. She did not expect Lei Zhenyu to be so familiar with the ingredients and meat. It seemed that he must have been a good young man who used to frequent the kitchen.

After buying the ingredients, Ru Yu was ready to push it out and walk towards the cashier. Lei Zhenyu then said carefully, “how about we go and buy a cake? We’re getting married today. Don’t newlyweds always eat cake? It means sweet and sweet.”

Three black lines immediately fell on Ru Yu’s forehead. What was sweet and sweet about their business marriage? Wasn’t it just for show?

“The cake is too sweet. I don’t like sweet food,” Ru Yu directly rejected his proposal. What cake? This fake marriage was more real than real. She and Jin Zhengnan were married at that time, but they didn’t eat cake.

Lei Zhenyu saw that Ru Yu opposed buying cake, so he didn’t insist. The two of them pushed the shopping cart to the cashier. Because they bought more things, there were two shopping carts. Finally, the security guard of the mall helped to send them to his car.

On the way back, Ru Yu hugged the pair of heart-hugging pillows and pressed her face against them. She could not help but sigh, "it's so soft. It must be very comfortable to hug and sleep at night."

Lei Zhenyu turned his face to look at her and could not help but tease her, "fine, you hug the heart-hugging pillows to sleep. Then what should I hug at night?"

"Two heart-hugging pillows. Why don't you just hug one each?" Ru Yu rolled her eyes at him and said, "I didn't say that I wanted to monopolize two by myself."

Lei Zhenyu was very satisfied with her distribution, but he still said indifferently, "I don't like to hug to sleep."

"Of course you don't like pulling. Usually, only girls sleep with throw pillows. You'RE A boy." Ru Yu did not delve into his words at all. She only understood the reason why he said he did not like sleeping with throw pillows based on common sense.

Chapter 1122 ordinary married life 1

The shopping mall was not very close to Lei Zhenyu's apartment, nor was it very far. It was neither too far nor too close. It was already evening when the two of them came out of the shopping mall. NEON lights were already flashing in the high-rise buildings. The street lamps on both sides of the street were uniformly lit up like the pearl shells that someone had accidentally scattered. They shone brilliantly!

Finally, they returned to the residential area where Lei Zhenyu's apartment was located. Although it was located in a busy city, it was a typical quiet place in a noisy place. The apartment buildings in the garden were not tall, and each floor was very far apart from each other. In the middle, there was a large area of green lawns and trees. In a place like Seoul where every inch of land was expensive, this kind of garden-style apartment was too extravagant.

"I bought it seven years ago. At that time, the price was not considered expensive." Lei Zhenyu saw Ru Yu getting out of the car and used her gaze to size up the residential area. She calmly explained, "but now, the price has increased by three times."

Ru Yu nodded. In the past few years, real estate had been growing rapidly. After the rain of prices, the spring bamboo shoots kept rising. And Lei Zhenyu's apartment was in this prime location. It was not inferior to the residential area where she and Jin Zhengnan used to live. Naturally, the price of the apartment had reached a certain high point.

When they returned to Lei Zhenyu's apartment, it was just past six o'clock at night. It was the time to cook dinner. Lei Zhenyu moved the pots and pans into the kitchen and arranged them according to the layout of the kitchen.

Ru Yu rolled up her sleeves and went to Cook. Lei Zhenyu would help her after he was done. Ru Yu used a knife to cut the meat while Lei Zhenyu helped wash the potatoes and bamboo shoots in the sink.

The newly bought kitchen knife was not easy to use, and Ru Yu was not comfortable with it. She could not cut the meat no matter how hard she tried. She could not help but feel a little irritated, so she pulled hard, and then... ..

“Ah!” She cried out instinctively in pain. She threw the knife away with her right hand, and blood oozed out from her left index finger and stained the meat. She immediately took it away and grimaced in pain.

Lei Zhenyu turned around when he heard her cry out “ah”. When he saw the blood on her left index finger jump, he quickly came over and grabbed her left hand. Without thinking, he directly opened his mouth and put it in his mouth.

Ru Yu could not help but cry out in shock, “Lei Zhenyu, you...”

Before she finished crying out in shock, she immediately realized that her index finger did not seem to hurt as much in his mouth. A moment later, he took out her index finger and spat out a mouthful of red saliva.

“If your finger is injured, you should use disinfectant,” Lei Zhenyu explained patiently as he pulled her towards the living room. “I’ve just returned to China for more than 20 days. There’s no first-aid kit at home, so I can only use saliva to sterilize you. Fortunately, I have a handkerchief, so I’ll bandage you right away.”

This was the first time Ru Yu had heard of the method of saliva sterilization. Of course, she didn’t know how feasible it was. However, after her finger came out of his mouth, he clenched it tightly, and it didn’t bleed anymore.

Lei Zhenyu tied a white handkerchief to her index finger. Then, he wrapped it with a red thread. Finally, he tied a bow on it. It looked very delicate and beautiful.

Ru Yu’s left hand was wrapped in the handkerchief. Of course, she could not cook anymore. Therefore, Lei Zhenyu let her sit on the Sofa in the living room and watch TV. He said that he would take care of dinner.

Ru Yu could not sit still. Within a few minutes, she lost interest in the TV. So, she went to the kitchen door and looked at the man who was bending over and carefully cutting the ribs. The piece of meat that she had cut a few times was already cut into pieces and marinated on a porcelain plate.

Chapter 1123 ordinary married life 2

Lei Zhenyu’s movements were very fast. It was obvious that she was a regular cook. Ru Yu stood at the side and could not help but ask jokingly, “Aiyu, zhenyu-kun, who did you learn your culinary skills for? You’re quite skilled, aren’t you?”

“For myself,” Lei Zhenyu replied faintly. “I went to America seven years ago. I ate foreign fast food hamburgers every day until I wanted to throw up. So I had no choice but to go to the mall to buy the ingredients and then buy the recipe to cook.”

Ru Yu didn’t say anything more after hearing this. When one was in a foreign country, one would always encounter such things. Some things would be over with gritted teeth, while some things couldn’t be endured with gritted teeth. And eating was a big deal.. If she really couldn’t stand the living habits there, the only thing she could do was to do it herself.

Just like her, although she had lived in Korea since she was young, her mother had lived in Korea when she was young. At that time, she didn't have to worry about eating. Later, when she returned to Korea alone, she wasn't used to eating Pu Zhihui's dishes.

At that time, she was young and could not eat. Her father was anxious, so she could only buy Chinese recipes to cook for her. However, her father was often not at home. In the end, she learned to cook Chinese food first.

Half an hour later, Lei Zhenyu finally made two dishes and one soup. stir-fried pork with Water Sheng, braised spareribs with potatoes, and a tomato and egg soup. It was very beautiful on the dining table. Just looking at it made one have an appetite.

Indeed, there was an appetite. Ru Yu did not know if she was hungry, but she ate a lot, especially the spareribs. Lei Zhenyu braised it very badly. He gently bit the meat and it came down. The potatoes had been braised into a lot of mashed potatoes, which wrapped around the SPARERIBS, making people's appetite increase greatly.

In fact, Jin Zhengnan's cooking skills were not bad. During the three years of their marriage, Jin zhengnan would occasionally get angry with her and fall out with her. His greatest ability was to go to the kitchen and quietly cook, and then he would cook a table full of delicious dishes for her to eat.

At that time, she ate Jin Zhengnan's dishes, and even if she was very angry, she would have calmed down.

Jin zhengnan's cooking skills should have been trained since he was young. After all, he was born into a poor child. Wasn't there a saying that said that the child of a poor person should be in charge of the House early? Jin Zhengnan had followed his weak and sick mother since young, so he could not not do it.

Lei Zhenyu took out two goblets and poured two half glasses of red wine. He said that since they were getting married, it was fine if they did not eat cake. However, they had to drink this glass of wine. Otherwise, it would not look like they were getting married.

Ru Yu did not know whether to laugh or cry when she heard this. Fortunately, Lei Zhenyu was also joking. She did not think too deeply into it. The people who came with the red wine clinked their glasses very politely, then raised their heads and drank it in one gulp.

Perhaps it was because she was in a good mood, or perhaps it was because she was extremely hungry. In short, ru Yu ate a lot tonight. In the end, she ate until her stomach was full Then, she stroked her stomach and said with a smile, "fortunately, my finger was injured. Otherwise, I would have to wash the dishes even though I'm so full. I don't like washing dishes the most."

Lei Zhenyu smiled and said as he tidied up the dishes and walked towards the kitchen, "alright, I'll do the dishes from now on. However, whoever comes back first will have to do the cooking."

Ru Yu agreed with a smile. She did not hate going into the kitchen at first. Then, Lei Zhenyu washed the dishes and tidied up the kitchen while she sat on the Sofa and casually took out the remote control to turn on the television.

There was nothing to watch. She had never been interested in Korean dramas. In fact, she rarely watched TV and usually watched movies. Turning on the TV at this moment was purely boring.

Chapter 1124 ordinary married life 3

“since you don’t like watching TV, then go and take a shower.” Lei Zhenyu tidied up the kitchen and walked out. When he saw Ru Yu curled up on the SOFA, he said softly, “today’s wedding has been torturous enough. You should be tired. Rest early.”

Ru Yu nodded and got up from the SOFA. She had just taken two steps when she turned around again. She looked at Lei Zhenyu awkwardly and said, “well, I don’t have any clothes here. Today’s wedding is sudden. Then, we should drive to my father’s house in the afternoon to get some clothes. I . . . Why don’t I go back and live there?”

“You can still wear mine.” Lei Zhenyu walked into the room and took out a set of pajamas and handed it to her. “It’s the same one you wore last time. Hurry up and go. Go home tomorrow and bring your things over. From now on, we are husband and wife.”

Ru Yu heard this and found it funny. What kind of husband and wife were they?

She took the pajamas from his hand and walked towards the bathroom. Since she wore it last time, it didn’t matter if she wore it again.

She had entered Lei Zhenyu’s bathroom once, so it wasn’t particularly strange. It was still a monotonous few cleaning supplies. She was physically and mentally exhausted. She stood under the shower and allowed the warm water to pour on her body.

It was an unexpected situation when she was about to finish showering. At that time, she had already turned off the shower and was taking a bath towel to wipe herself. Then, a warm current overflowed from her lower body, and her lower abdomen instinctively tightened.

Well, she had never thought that there would be such an awkward moment. The red liquid flowing down her thigh mercilessly told her an unavoidable fact, which was that her period had come a day earlier.

Fortunately, she had been sketching since she was young, so it was not the first time she had encountered such an unexpected event like her period. And usually, her bag would contain one or two emergency sanitary pads a few days in advance.

However, at this moment, her bag was not with her and she was in the bathroom. Therefore, she was in an unprecedented embarrassment and did not know how to solve such a problem.

There was an old saying that when one was unlucky, cold water would fill one’s teeth. She did not believe it before, but now she really believed it, because she was really unlucky today.

During the wedding, her ex-husband and mistress came to demonstrate. At the critical moment, Lei Zhenyu abandoned her in public. Later, he escaped with Zheng Junji. In the end, he was chased back by Lei Zhenyu.

Well, the so-called wedding was finally completed. At night, they even drank the so-called exchange of drinks. This marriage, which was based on the purpose of the transaction and the theme of the agreement, had nothing to do with love, was finally set in stone and implemented.

However, at this moment, she was just taking a shower and preparing to rest, but her period did not let her go and insisted on torturing her a day in advance. Was There any justice in the heavens?

The Heavens had been silent and ignored her angry accusations. She stood in the bathroom, looking around. Well, people said that there was always a way out, but at this moment, she could not find a single way out.

She had read some melodramatic romance novels in the past. It seemed that the heroine could use toilet paper to deal with the sudden arrival of her period in the bathroom, but what about her?

At this moment, she searched the entire bathroom, but she could not find a single piece of toilet paper. Lei Zhenyu, do you have to be so stingy?

Why can't you even put a roll of toilet paper in the bathroom Don't tell me that when you poop, you wash your butt with water instead of using toilet paper to wipe your butt?

Chapter 1125 ordinary married life 4

Lei Zhenyu Sat on the SOFA and watched the television for a long time. He did not know what was on the television. After about half an hour, ru Yu still had not come out. He finally could not sit still.

"Ru Yu. " He knocked on the bathroom door with his hand and asked with some concern, "Ru Yu, are you okay? Are you ready? "

"I... I'm ready. " Ru Yu's voice was almost crying ...

"come out as soon as you're ready. " Lei Zhenyu kindly reminded her, "don't stay in the bathroom for too long. The air in the bathroom is not good. " "I. . . Zhenyu, can you help me take something? " Ru Yu finally spoke.

"Get what? " Lei Zhenyu asked naturally. "Didn't you bring anything in? Where do you put it? I'll go get it for you. "

"Put it in my Satchel. " Ru Yu's voice was as low as a mosquito. "It's... It's a Tampon..." "

"Ah? " Lei Zhenyu let out an 'ah' almost instinctively. Then, he quickly replied, "Oh, I know. I'll go get it for you now. "

After saying that, he immediately turned around and walked to the SOFA. Ru Yu's Satchel was very big. He hesitated for a moment before unzipping it. Then, he rummaged around inside and finally found two pieces of tampons.

His face turned red almost instinctively. He had lived for thirty years. Although he knew that there was something like this in the mall, in the end, he had never directly faced it, let alone come into contact with it.

After hesitating for a moment, he used his hand to take a thin piece and walked to the bathroom door. He gently knocked on the door and softly shouted, "Ru Yu, I've brought it for you. "

The bathroom door was slightly opened from the inside, and a jade-white hand stretched out. His slender fingers shone brilliantly under the light, and his lower abdomen instinctively tightened. He had the urge to grab that jade-white hand and push the door open, throwing himself into it.

But he did not do it in the end. He only used his trembling hand to pass the thin Tampon to her. However, the moment it touched her palm, it was as if he was electrocuted, and he instinctively pulled it back. His heartbeat accelerated in an instant.

Ru Yu took the thin tampon inside and leaned against the wall. She had never done such a shameful thing in her life. Even though she had been married to Jin Zhengnan for three years, she had never let him come into contact with tampons.

Well, she and Lei Zhenyu had just gotten married, and it was an arranged marriage. On the first day of their marriage, she actually asked him to deliver the Tampon for her. She really wanted to dig a hole and bury herself in it.

Unfortunately, the bathroom was covered in marble floors. There was not even soil to be found. Moreover, this was a high-rise building. Even if she wanted to dig a hole, she reckoned that she would not be able to dig it out.

Finally, she finished tidying herself up. Wearing Lei Zhenyu's wide pajamas, she opened the door and walked out. She lowered her head and looked at her toes, but she did not even have the courage to look up at Lei Zhenyu.

Lei Zhenyu walked over and helped her open the bedroom door. His voice sounded softly above her head, "hurry up and go in and rest. I've just taken out all the things I need. You sleep in the bedroom, and I'll sleep in the study."

Ru Yu nodded and ran into the bedroom as if she was running away. She flipped her hand and quickly closed the door. She leaned against the door and let out a long sigh. In the end, she did not hesitate to leave the lock on the door.

Chapter 1126 physical pain

She slept on this strange big bed again. She smelled a slightly familiar smell. She hugged the blanket that was still considered strange. She hugged the love pillow that Lei Zhenyu had already placed on the bed for her. She had insomnia.

She tossed and turned on the bed, unable to fall asleep. In fact, in her situation, she should lie on her back and not move around. This was because if she moved the Tampon around, she might have side leaks or something like that.

However, she could not fall asleep while lying down. She had no choice but to turn her body around. She wanted to find a comfortable position, but she had to lie on her left. She could not fall asleep. She lay on her right, but she still could not fall asleep.

She remembered the first night she came to Lei Zhenyu's place. At that time, it should have been even stranger. However, she actually fell asleep. Tonight, it should be said that she was a little more familiar with it. Why was it that she could not fall asleep.

In fact, she was not an easy person to choose a life. Moreover, she did not choose a bed. Because of her profession, she would often go out to sketch or go to strange places during the year. Usually, when she was tired, she could sleep at any inn or farmhouse.

She thought that she could not fall asleep tonight because she had indeed experienced a lot of things today. Moreover, these things had made her a little unlucky, so she could not fall asleep.

Of course, another reason why she couldn't fall asleep was the abdominal pain. Every time she had her period, her lower abdomen would be in excruciating pain. Ever since she started her first period at the age of 13, this pain had been accompanying her.

The first time she had her period was at Binhai. At that time, she went on vacation to one inch Mo city. That time, she happened to meet her period. The pain was so painful that she rolled on the bed, shouting that she didn't want this thing. She wanted Mommy to find a doctor for her. She would never want this thing in her entire life. The pain was excruciating.

Mommy smiled and explained to her that a woman's period was a physiological reaction. It proved that you were growing up, and dysmenorrhea was a physical pain. Many women would experience this kind of physical pain. When they grew up, they would find someone who was connected to their heart. After getting married and having children, the physical pain would slowly heal.

Later on, when she read more, she naturally understood these principles. When she was in high school, some of her classmates were rolling on the bed in pain. At that time, the people in the dormitory were talking about finding a prince charming when she went to university. Then, after she graduated from university, she would quickly get married and have children. This was because not only could this lead a happy life, but women could also receive special benefits, which was that after giving birth, they would not suffer from menstrual cramps every month.

She was once a child who came from that dream age. Just like ordinary girls, at the age of seventeen or eighteen, they also had that dream. She could meet a prince charming and then hold her in the palm of her hand like a princess.

Later on, when she was about to graduate from university, next to that grain mound, when Jin Zhengnan lit a match in that dark night to illuminate the surrounding darkness, she could not help but be attracted to it. She even thought that this was the prince that God had given her.

Unfortunately, the heavens were playing tricks on her. After she married Jin Zhengnan, not only did she not have the so-called happy life that she used to dream about, she did not even have the little bit of welfare that a woman should have.

As a result, her physical pain was still in pain. The pain that came every month on time never disappeared.

She tossed and turned on the bed for an unknown amount of time. She really could not fall asleep. She felt that the Tampon below was already wet, so she had no choice but to get out of bed and walk out of

the bedroom. She pressed one hand on the cramping pain in her lower abdomen. Then, he tiptoed toward his Satchel on the Living Room Sofa.

Chapter 1127 sharing a bed

She remembered that she had put two tampons in her SACHEL. There should be another one. She only hoped that this one would last until after eight o'clock tomorrow morning. She could use the fastest speed to go downstairs to find a convenience store to buy a pack.

However, just as she reached the SOFA, she was shocked to find that there was already a pack of unopened Tampons by the side of her Satchel. She was slightly stunned, and then her entire face could not help but blush.

It must have been Lei Zhenyu who went out to buy it for her after she went into the bedroom to lie down. She really did not expect him to be so meticulous. She was... ..

She changed into a new sanitary pad in the bathroom, but her lower abdomen was still cramping. Her period on the first day of the month was always painful. She had no choice but to press her lower abdomen with her hand again and then tiptoe towards the kitchen. She hoped that she could find a glass or something to boil some water and fill a thermos bottle with water.

It was not her home after all. Although she had been here twice, and she had entered the kitchen once last night, she did not notice where Lei Zhenyu had pressed the switch, so she fumbled at the kitchen door for a long time but could not find the light switch.

She muttered in her heart that she should have brought her phone over, at least it would have some light. Just as she was about to turn around, her hand touched a protruding square on the wall. Then the kitchen light suddenly lit up, and she actually touched the induction switch.

The pitch-black space suddenly became as bright as day, and the light was very dazzling. She blinked her eyes a few times to get used to it, then walked into the kitchen, looking for an empty glass bottle.

Of course not, because there had never been cooking here before. She had just bought some supplies and ingredients last night. She had only used a little bit of soy sauce, vinegar, cooking wine, and other bottles, and it was still full.

And they hadn't even drunk half of the bottle of red wine that they had drunk last night. It would be a pity if they emptied the remaining half of the bottle of red wine. Lei Zhenyu wasn't cheap in this bottle of red wine.

She was slightly disappointed and could only leave the kitchen. Only then did she realize that the lights in the dining room were actually on. Lei Zhenyu stood there and looked at her, who was pressing her abdomen with her hand in pain. He couldn't help but frown and quickly walked over. He asked in a low voice, "what's wrong? Are you not feeling well?"

"I... Have a pain in my lower abdomen." She grunted, and then a sharp pain hit her. She finally couldn't help but bend down, her small face scrunched up into a ball ...

“Your lower abdomen is in pain, and you still want to get up and walk around?” He really had to give in to her. Seeing her in such pain, he did not think much about it and immediately bent down to pick her up and walked towards the bedroom.

“Ah...” she cried out in shock. She was about to struggle, but he had already carried her to the bed and put her down. She secretly heaved a sigh of relief. Before she could say anything, he had already followed her to the bed and laid down beside her. He pulled the air-conditioner blanket over them and only covered them both.

“Hey!” She could not help but let out a low groan, and almost instinctively shouted in protest, “Lei Zhenyu, why are you on my bed? We have an agreement...”

Before she could finish her sentence, Lei Zhenyu had already stretched out one of his arms. With a little force, her body rolled uncontrollably into a warm embrace.

“Why is your body so cold?” His voice whispered in her ear, and a warm breath sprayed onto her neck.

She instinctively tightened her body, but did not make a sound. In her heart, women who had their period usually had a cooler body. Lei Zhenyu, could it be that you had never had a girlfriend before?

Chapter 1128 cooked rice

“Take your hand away. Let me rub it for you.” As soon as he finished speaking, his hand had already reached her lower abdomen. Before she could react, her hand that was pressing on her lower abdomen had already been forcefully pulled away by him. Then, he covered it with his large palm. Then, he slowly rubbed it.

The cold air that had originally been decided to have no temperature was finally warmed up. Her body was nestled in a warm embrace, and her back seemed to be leaning against a warm stove.

The large palm on her lower abdomen continued to rub gently, as if there was a thin stream of warmth constantly pouring in. The pain in her abdomen gradually disappeared, and was replaced by the usual comfort. Her heart trembled slightly. An unprecedented experience instantly attacked her heart.

It was not that she had never slept with a man. During the three years of marriage with Jin Zhengnan, although she often went out to sketch, and Jin Zhengnan often went on business trips and was not at home, but.. They still slept in the same bed a lot of times.

She remembered the wedding night three years ago. That night, she was filled with anticipation and fear, worried about the pain of her first virginity, so her whole person was in a state of nervousness and excitement.

She still remembered that she was lying on the bed with the quilt, her body slightly trembling. Nervousness, fear, timidity, and anticipation attacked her in an instant, so much so that her hands were clenched into fists under the quilt. She imagined the scene of her turning from a girl into a woman, thinking that she was finally going to be married to him.

However, in reality, her fear, nervousness, and anticipation were all superfluous. After Jin Zhengnan went to bed, she did not know if he was drunk or something, but he just lay on the side of the bed with

his back facing her. Within a few minutes, he fell asleep. She completely did not remember that it was their wedding night.

After all, she was a girl. She would not take the initiative in such matters, right? Since he did not look for her, then she, of course, could only play dumb and pretend that she did not know that there was such a thing between husband and wife.

Later on, she and Jin Zhengnan started the so-called husband and wife life, but Jin Zhengnan seemed to have never had such a need. Every night, he went to bed, and her husband and wife life gradually lost all expectations.

Later on, their life was as peaceful as water. They spent less time together and more time apart. Occasionally, they were both in Seoul and at home. Then, the two of them slept on the same bed. The two of them lay peacefully on the bed with a distance of nearly one meter between them. It was a gap that they had never crossed before.

The three years of husband-and-wife life with Jin Zhengnan was either as peaceful as water when they were both calm or as cold as ice. It was after the two of them occasionally had a conflict over a certain matter.

“Ru Yu, tonight, the two of us are sharing a bed.” Lei Zhenyu’s voice sounded in Ru Yu’s ear with a hint of mockery. “Just now, we were even having skin-to-skin contact. This is like cooking cooked rice.”

Ru Yu’s face turned red. Her abdomen no longer hurt, so she struggled gently. She wanted to break free from his embrace, but he hugged her even tighter. Then, she laughed softly and said, “Isn’t it already cooked rice? How can you still escape? From now on, you can only lie in my arms for the rest of your life.”

Ru Yu didn’t know whether to laugh or cry when she heard his words. It was already late, and she was too lazy to argue with him about this issue. So, she snuggled in his arms and chose a comfortable position. She closed her eyes and actually slowly fell asleep.

The consequence of sleeping late was waking up late. By the time Ru Yu woke up, Lei Zhenyu was already gone from the bed. She rubbed her eyes with her hands, and her face couldn’t help but burn up.

Last night, she actually slept so soundly in Lei Zhenyu’s arms. She was really confused and thought of him as her husband.

Chapter 1129: Finally Getting married

This was the first time she had slept so comfortably during her menstrual period. She could not help but feel better. She immediately rushed to the bed and first checked if there were any red marks on the bedsheets.

Every time her period came, she could not sleep well. Usually, she would lie on the bed without moving because there would be a leak if she moved. Every time she slept at home, she would lay a disposable bedsheet on the bedsheet. Usually, she would throw it away if it got dirty.

Last night, she slept on Lei Zhenyu's bed. Moreover, she did not expect her period to come. Of course, she did not have a disposable bedsheet by her side.

Fortunately, there was no blood on the bed sheets. She secretly heaved a sigh of relief. It seemed that she had slept soundly, so she did not toss and turn. There was no such thing as missed edges.

Ru Yu took her clothes to the bathroom to wash up and change her clothes. She made everything ready and walked out of the room. She happened to see Lei Zhenyu push the door open and walk in. He was carrying a few high-class food containers in his hands.

"We only remembered to buy the ingredients for dinner at the supermarket yesterday and forgot to buy the ingredients for breakfast." He looked at Ru Yu and explained with a smile. He waved the high-class lunch box in his hand and said, "this is the breakfast I bought at the Hong kong-style tea restaurant downstairs. Come and eat it quickly."

Ru Yu's face blushed slightly. She nodded and walked over. She sat down at the dining table and opened the lunch box that Lei Zhenyu placed on the dining table. It was indeed Hong kong-style breakfast. There were barbecued pork buns, barbecued pork buns, and so on.

Lei Zhenyu brought the bowls and chopsticks from the kitchen over. The two of them sat at the dining table and ate breakfast together. They were not familiar with each other at first, but after last night, they were not as unfamiliar as before. During the meal, they would occasionally raise their heads and meet the eyes of the person sitting opposite them. Then, they moved away a little embarrassedly.

When breakfast was about to end, Lei Zhenyu's phone rang. He picked up the phone and glanced at Ru Yu. He did not avoid suspicion and walked to the side to answer the phone. Instead, he directly pressed the answer button at the dining table.

The dining room was very quiet. The two of them sat on both sides of the dining table. Ru Yu vaguely heard a male voice ringing from Lei Zhenyu's phone. However, she could not hear what he said clearly. She only heard Lei Zhenyu answering with an 'ah'.

"There's no rush. We'll see in a few days." Lei Zhenyu naturally made the call. "Yes, I understand. Of course, I'm not that stupid."

"Last night?" Lei Zhenyu said these two words. Then, he raised his head and looked at Ru Yu meaningfully. Then, he chuckled and said to the man on the phone, "of course, I cooked the raw rice last night. I'm already married."

"PFFT... cough cough... cough cough..." Ru Yu spat out a mouthful of soy milk that she had drunk. Then, she quickly got up and ran into the kitchen to cough violently ...

Lei Zhenyu quickly hung up the phone and went into the kitchen. He looked at the woman who was still coughing at the sink and immediately reached out to pat her back gently to help her breathe. However, a beautiful smile appeared on his face.

The marriage ended just like that. Both of them had jobs, so they went out together after breakfast. Ru Yu's car did not drive over, so Lei Zhenyu drove her to the studio first. Then, he drove to the law firm where he worked.

Ru Yu called her father and said that she was married to a poor boy who was kicked out of the family.

Che Qixuan laughed on the phone and said, "Yu Yu, it doesn't matter if he is poor or not. What matters is whether he will treat you well. Father believes that Yu Yu is a smart child."

Chapter 1130 was a huge loss

When ru Yu heard this, her nose turned sour and she couldn't help but feel a little sad. In fact, a large part of the reason why she had gotten to this point in her life was due to Che Qixuan's doting on her. It was probably because of this sentence from him, "Daddy believes that Yu Yu is a smart child."

Three years ago, when she married Jin Zhengnan, Che Qixuan also said the same thing. He believed in her and had always believed in her because he felt that she was a smart child.

Well, now, her first marriage ended in failure. She originally thought that daddy would interfere in her matters, but who knew that in the end, Che Qixuan still said the same thing. He believed in her.

At noon, she was supposed to go back to her car and move her luggage. She did not expect Lin Yuxin to come looking for her. Ru Yu glared at her angrily. "D * MN It, Lei Zhenyu's friends were still waiting at the church yesterday. I only informed you of one friend. Why did you leave and cause me to have no friends at the entire wedding?"

Lin Yuxin immediately retorted without hesitation, "Che ru Yu, get it straight. You were the one who told me to leave. If you said that there was no wedding, how could I not leave. Lei Zhenyu's friends stayed there because Lei Zhenyu told their friends that there would be a wedding. He told them to wait."

Ru Yu was at a loss for words. It seemed that it was not Lin Yuxin's fault yesterday. Moreover, as the bride, she had run away. How could she blame Lin Yuxin?

"You and Lei Zhenyu are married, and Lei Zhenyu is indeed from a wealthy family." Lin Yuxin reminded ru Yu as she ate her steak. "However, don't forget that Lei Zhenyu's brother is the CEO of the Lei Corporation. If Lei Zhensheng really wants to chase his own brother out of the Lei family for his illegitimate daughter, then the end result will be that Lei Zhenyu is a penniless poor boy. And when you marry Lei Zhenyu, you also did not break up the marriage between Jin Zhengnan and Lan Ruoshui. Aren't you losing a lot?"

"What's there to lose?" Ru Yu rolled her eyes at Lin Yuxin. Then, she said indifferently, "when I decided to marry Lei Zhenyu, I didn't know that he was the second young master of the Lei family." "Lei Zhenyu has his own business. His position in the legal world is not to be underestimated. He has the ability to earn money to support his family. Moreover, he is just a man who lives on the savings of his family. I'm afraid that I'm the one who has lost out."

Ru Yu paused when she said this. Then, she said lightly, "as for the Jin Zhengnan and Lan Ruoshui that you mentioned, if they want to be together, then so be it. I've already thought it through. After I divorced Jin Zhengnan, he and I have no relationship at all. He is a man who has never had me in his heart. Why should I care about who he is with?"

Lin Yuxin was stunned when she heard her words. Then, she gave a thumbs up and said, "alright, your eldest miss is a rich person. She has a broad mind and a big heart. She has only divorced Jin Zhengnan for a few days. No, to be more precise, she has only known Lei Zhenyu for a short while, but she has already healed her scars and looked at the pain. She can even tolerate Jin Zhengnan and Lan Ruoshui. Should I bow down to you?"

Ru Yu frowned. What did being broad-minded have to do with money? Were people with little money narrow-minded?

Lin Yuxin rolled her eyes at her and asked angrily, "Ru Yu, have you read any books? Don't you know the saying, 'when one is poor, one's ambition is short'?" You are a man who is full, but you don't know the suffering of a man who is hungry.
