

Chapter 171, first job

Mu Ru lowered her head. In the Xi family, she had always been a servant. She was treated like a servant. Outsiders did not know about her situation, but Cheng Feier and she had been classmates from primary school to university, so she knew better.

“Mu Ru, I think you should stop caring about your mother. She hasn’t cared about you since you were young anyway,” Cheng Feier said when she saw Mu Ru’s silence. Then, she quickly said to her, “think about it. You’ve never enjoyed mother’s love since you were young. Your parents gave all their love to Xi Muxue. Now that the Xi family is in trouble, why isn’t Xi Muxue taking care of it? Instead, it’s you, the daughter they’ve despised since you were young, taking care of it?”

Mu Ru remained silent. She had never thought about these questions. Perhaps it was because she had been busy for the past ten days after the Xi family’s incident, so she didn’t have time to think about it.

“Mu Ru, I called my mother this afternoon and told her that a classmate of mine is homeless and wants to stay at my house. He doesn’t want to occupy the space at home. He can just sleep with me at night. Anyway, my room is for sleeping and my mother said it’s fine. You can arrange this yourself.”

Cheng Feier paused for a moment. Then she looked at Mu Ru and asked softly, “Mu Ru, how about this?” “You can move to my place. My family isn’t rich, and my parents are only working people, but I can still make ends meet. After you move there, I’ll go to bed. From now on, we’ll go to school together. Your grades are good, so you don’t need any tuition fees at all. A scholarship is enough. As for your living expenses, on Saturday and Sunday, the two of us can go to McDonald’s KFC bakery to do short-term work. We’ll definitely earn it back...” “...”

“Fei’er, thank you,” Mu Ru quickly interrupted Cheng Feier. Then, she sincerely said to her, “I really thank you for thinking of me when I was in trouble. However, I’m not alone now. I still have a mother. Even though my mother didn’t give me much maternal love, she gave me life. In the end, she didn’t throw me into the river to drown when I was young. In short, she still treats me like her daughter.”

Mu Ru paused. Then, she bit her lips and said, “that’s why I can’t leave her behind. Besides, she’s still sick. Heart disease is an old illness. Now, because of the Xi family, she’s relapsed. And because she can’t handle the family crisis, she’s gone crazy.”

Cheng Feier didn’t know what to say after hearing Mu Ru’s words because Mu Ru was right. No matter what, she was her mother. Even though they didn’t have a deep relationship, after something like this happened.. Who could really be ruthless enough to ignore their own mother?

Cheng Feier chatted with Mu Ru for a while, and then forced her to leave with 300 yuan. This money was also Cheng Feier’s leftover pocket money.

Xiaosu went to a real estate company in the Eastern Development Area above the new city square in the afternoon to apply for a temporary worker. This real estate company had developed a large-scale villa development in the eastern area. Now, the temporary workers were hired to distribute promotional materials in the major prosperous downtown areas, and their wages were 60 yuan a day.

This kind of work did not require any experience. As long as people were honest and willing to work hard, it would be fine. Mu Ru had all these qualities, so that afternoon, she received a bunch of promotional pages and information about the apartment type and went back.

Chapter 172: Meeting Dongfang Jun.

Mu Ru's first job seemed simple, but it was actually very difficult. These promotional materials were required to be sent out one by one, and not just thrown away in a trash can because every time they were sent out.. They required the recipient to sign on the notebook and leave their contact number, and these contact numbers had to be handed back to the company. The company had someone to call these people who had received the promotional materials.

The next morning, Mu Ru followed the location that the real estate company had given her and came to a street not far from a high-class residence. There was a lot of traffic here, and the people living nearby were all rich. And rich people naturally had the ability to buy a villa.

Mu Ru used a shopping bag to carry the documents and then put on a sun hat that Xi Muxue had left behind. She stood by the dusty roadside and handed out the promotional materials in her hands one by one.

This job seemed easy, but it was actually very difficult to do because many passers-by were not willing to reach out to receive the promotional materials you handed out. Occasionally, some were willing to reach out to receive them, but most were not willing to leave their contact numbers.

In the morning, Mu Ru had yet to distribute one-third of the documents. At noon, although it was mid-december, Binhai was a southern city. It was still very hot, so she had to stand under a tree to distribute them.

However, there were very few people at noon. She put the materials under the tree and took out her own bottle of cold water to drink. In fact, she was hungry after standing there for the whole morning, but she could not spend the money she had on her. So she took out the bread she bought at the mall last night and bought two-for-one before it closed.

Just as she was drinking water and eating dry bread, someone suddenly stopped in front of her. She did not see the person clearly and only thought that he was going to get the promotional materials, so she hurriedly stuffed the water and bread into her bag. Then, she took the promotional page and handed it over.

"Sir, this is the shore of the Azure villa east of Binhai. It has a panoramic view of the sea and you can fish on your balcony at home. Our villa community has also launched top-notch real estate. It's just that there are two top-notch courtyard houses in the community center. Moreover, during the opening period, we have a 10% discount. Now, we sincerely accept the offer. We will hand over 50,000 tops for 200,000. It's very worth it, sir..." ..

Mu Ru raised her head as she spoke. When she saw the person clearly, she couldn't continue because the person standing in front of her was actually Dongfang Jun!

"I'm sorry," Mu ru quickly retracted her hand and quietly put it back into her shopping bag.

“Mu Ru, ” Dongfang Jun saw that she was about to pack up and leave, so he reached out to grab her “I’ve been looking for you these past few days, but I couldn’t find you. I’ve been to the XI family a few times, but they don’t know where you’ve been. I only heard from Cheng Feier this morning that you were handing out flyers. ”

“thank you for your concern. I’m very well! ” Mu Ru quickly pulled her hand out of his palm and said calmly, “third young master Dongfang, if there’s nothing else, I’ll be leaving. It’s my time to work now, so please don’t interfere with my work, okay? ”

“Mu Ru, I told you that I would take you overseas... ”

“enough, third young master Dongfang. ” Mu Ru quickly interrupted Dongfang Jun’s words and then said coldly, “I know that you’ve always wanted me to walk out of the Dongfang family’s one inch Mo city. Now, your wish has finally been fulfilled, hasn’t it? ”

After saying this, Mu ru immediately ran to the public bus stop in front. She didn’t expect to meet Dongfang Jun here when she was distributing the flyers. It was all because of that Damn Cheng Feier. Why should she say anything?

Chapter 173: late-night flower delivery

Mu Ru ran to the bus stop. Coincidentally, there was a bus that opened the door for guests, so she dashed forward. Coincidentally, she was the best one to get on the bus. The bus closed the door and shut Dongfang Jun outside.

The bus started. Dongfang Jun was still shouting at her outside, but she could not hear him. As the bus drove further away, Dongfang Jun’s figure soon disappeared from the window.

When she was in the hospital, Dongfang Jun suggested that she be kicked out of one-inch ink city by Dongfang Mo. she thought that Dongfang Jun had good intentions, but later, when she was really kicked out of one-inch ink city by Dongfang Mo.. When she saw the smug look on Dongfang Mei’s face, she suddenly understood that this was all a trap set up by Dongfang Jun and Dongfang Mei.

Although she did not quite understand the secret collusion of the Dongfang family, she was very clear about one thing. Dongfang Jun and Dongfang Mo were not blood brothers, and Dongfang Mei had very little shares in the Dongfang Group.

She remembered that when she first married Dongfang Mo, Dongfang Mei had treated her well. But later, after she helped Dongfang Mo organize a pile of bills, and after she found out about an extremely well-hidden company, Dongfang Mei gradually changed her attitude towards her.

Even a fool would understand that the two companies she found out were most likely related to Dongfang Mei, not to mention that she was not a fool?

Now that she had been chased out by the Dongfang Family, and the XI family had gone bankrupt even if they did not, she had already accepted her fate. Therefore, whether Dongfang Jun truly cared for her or used her falsely, she did not dare to have any interaction with him anymore.

From now on, Xi Muru was Xi Muru, and the Dongfang family was the Dongfang family. They had nothing to do with her, and the matter of her being Dongfang Mo's wife would gradually be forgotten as Dongfang Mo got married again, and no one would ever remember it again. She would also think of the past as a dream.

Mu Ru thought that the past was already in the past, and that she had nothing to do with the Dongfang family anymore. Moreover, because she lived at the bottom and the Dongfang family lived in the upper class society, she would never have any contact with anyone from the Dongfang family in her lifetime.

However, this thought of hers was shattered a week later.

That day, she was going to take a new job because the short-term work in the real estate company had ended. She had also been introduced by a colleague she had met when she was distributing promotional materials. She found a job in a flower shop to help deliver flowers. The owner of the flower shop was a very nice person. Seeing that she was down-to-earth, he promised to calculate her salary once a week.

That night, it was already 21 o'clock. It was already time to get off work. Mu Ru helped the lady boss of the flower shop to pack up and prepare to go home. However, the lady boss received a phone call, saying that they were waiting for a bouquet of champagne roses. She told them to send it over as soon as possible and to double the tip.

Of course, Mu Ru would not reject such a good thing. Thus, she took the beautifully wrapped champagne roses from the lady boss and directly took a taxi to the designated location — the Grand Plum Garden Hotel.

According to the address given to her by the lady boss, the guest was in room 1119. She took the elevator straight up and found room 1119 very smoothly. Then, she politely rang the Doorbell.

"Come in, the door is not locked!" A low voice came from inside. Perhaps it was because there was a door between them, the voice was a little buzzing.

Mu Ru pondered for a moment and used one hand to hold the champagne rose in her arms firmly. Then, she used the other hand to gently push open the door of the room and stood at the door to look inside.

The luxurious room was very quiet and there was no one in the room. She frowned and walked in. Just as she was about to ask if anyone was there, the bathroom door opened and a man with only a towel around his waist walked out... ..

Chapter 174-are you in love with me

Mu Ru never dreamed that she would meet Dongfang Yu here, because the address given to her by the lady boss of the Flower Shop clearly stated: Fragrant Plum Garden Hotel, room 1119, Mr. Fang.

She wondered if she had misread the room number, so she quickly backed out of the door and raised her head to look again. That's right, room 1119.

Could it be that the lady boss of the flower shop had misheard the phone call. He was talking about Mr. Dongfang, and she had heard Mr. Fang?

“Why are you still standing at the door? Are you going to throw my flowers away?” Dongfang Yu’s voice was emotionless, as if they had never met before.

Mu Ru finally reacted. She held the bouquet of champagne roses in her arms and walked into the room again. As she handed the flowers to Dongfang Yu, she said politely and formally, “Mr. Dongfang, your flowers have been delivered. Could you please sign for them?”

As Mu Ru spoke, she took out the delivery list from her bag with her other hand and handed it to him.

Dongfang Yu was watching her from a step away. It had only been twenty days since they last saw each other. This woman, who was originally the first lady of one inch ink city, was now an ordinary flower delivery worker.

Perhaps it was because she had not been living well recently, but her face was dark and thin. However, because of her dark and thin face, it covered up the original pallor of her weak body after the miscarriage.

He reached out his hand, but he did not catch the flowers in her arms. Instead, he grabbed her arm while he was catching the flowers. With a little force, he pulled her into his arms.

“Hey,” Mu Ru shouted in alarm. Then, she released the roses in her arms, and her body started to struggle uncontrollably. She used her hands to push Dongfang Yu’s chest. She kept shouting, “Dongfang Yu, what do you want to do?”

“What do I want to do?” Dongfang Yu couldn’t help but laugh out loud. He used a little strength in his arms to pick her up, turned around, and walked towards the bedroom in the inner room.

“Dongfang Yu, put me down!” Mu Ru struggled in his arms. At the same time, she cursed, “you disgusting man, you irresponsible man, where were you when I was forced to drink abortion medicine? Why didn’t you even look at me when I had a miscarriage in the hospital? Now, I have nothing to do with you, what right do you have to treat me like this? Do you want to put me down? If you don’t, I will... ..”

“Dong” with a soft sound, Mu Ru was thrown onto the bed, and the words she was cursing were interrupted at the same time.

She was about to get up, but unfortunately, she was still one step too late. Dongfang Yu’s body had already pressed down on her, directly pressing her under him.

Looking at the woman’s face full of anger and hatred, the corners of his mouth curled up into a smile. He chuckled. “It seems like you’re very disappointed that I didn’t show up for your pregnancy and miscarriage. Are you blaming me for not taking you seriously with all those curses just now?”

Mu Ru’s body was pressed down by him, and she could not struggle at all, so she could only stare at her with a pair of cold and sharp eyes. She thought, if looks could kill, then she would have already killed Dongfang Yu by now.

Dongfang Yu saw her gaze and frowned instinctively. Then, he asked plainly, “Xi Muru, could it be that you’ve fallen in love with me?”

Chapter 175 the strange throbbing

Perhaps it was because she had not been doing well recently, her face was dark and thin. However, because of her dark and thin face, it was able to cover up the paleness of her weak body after the miscarriage.

He reached out his hand, but he did not catch the flowers in her arms. Instead, he grabbed her arm while he was catching the flowers. With a little strength, he pulled her into his arms.

“Hey, ” Mu ru shouted in alarm. Then, she let go of the roses in her arms. Her body could not help but struggle. Her hands also went to recommend Dongfang Yu’s chest that had been squeezed over She kept shouting, “Dongfang Yu, what are you doing? ”

“What am I doing? ” Dongfang Yu could not help but laugh out loud. He used a little strength in his arms and carried her struggling little body up. He turned around and walked towards the bedroom in the inner room.

“Dongfang Yu, put me down! ” Mu Ru struggled hard in his arms At the same time, she cursed, “you disgusting man, you irresponsible man. Where were you when I was forced to drink abortion medicine Why didn’t you even look at me when I had a miscarriage in the hospital Now, I have nothing to do with you, how can you treat me like this Do you want to put me down If I don’t, I’M GONNA... .”

“Dong” with a slight sound, Mu Ru has been thrown to the bed, and her mouth is cursing words were also interrupted.

She a carp hit hit to get up, but in the end or slow a step, the body of the East Yu has been pressed down, directly pressed her under the body.

Looking at the woman’s angry and hateful eyes, the corners of his mouth curled up into a smile He chuckled. “It seems like you’re disappointed that I didn’t show up when you had a miscarriage. Were you blaming me for not taking you seriously just now? ”

Mu Ru’s body was pressed down by him. She could not struggle at all, so she could only stare at her with a pair of cold and sharp eyes. She thought that if looks could kill, she would have killed Dongfang Yu by now.

Dongfang Yu saw her gaze and frowned instinctively. Then, he asked plainly, “Xi Muru, could it be that you’ve fallen in love with me? ”

“Love your head! Love? ” Xi Muru was so angry that she started cursing uncontrollably. Her family was broken and her life was not smooth. Every day, her mother would scold her indiscriminately. These repressions were knotted in her heart and she could not find an outlet to vent them At this moment, because of Dongfang Yu, it was as if she had found the point of contact in an instant and exploded like the lava below.

“Dongfang Yu, aren’t you too narcissistic? Do you think that just because you have a body that everyone loves, you think that all the animals in the world that call women will fall in love with you “actually, women don’t fall in love with you at all. They just fall in love with your money. A man like you either relies on his sex appeal or his family’s stinky money to conquer women. In fact, a real man doesn’t have any charm at all. Let me tell you, I don’t like your sex appeal and I don’t like your money, so... “...”. “...”

Xi Muru did not continue her rant. In fact, she did not even have the chance to continue her rant because her mouth, which was full of curses, was blocked by the other thin lips.

“MMM...” Mu Ru let out an instinctive cry late into the night. Before she could react, Dongfang Yu’s large hand had already grabbed the back of her head while his other hand grabbed her hands, which were constantly waving and pushing her away.

Chapter 176: The miserable Xi Muru

Dongfang Yu saw the look in her eyes and frowned instinctively. Then, he asked plainly, “Xi Muru, could it be that you’ve fallen in love with me?”

“Love Your head! Love?” Xi Muru was so angry that she started cursing uncontrollably. Her family was in ruins and her life was not going well. Every day, her mother would scold her indiscriminately. These repressed feelings were knot in her heart and she could not find an outlet to vent them. At this moment, because of Dongfang Yu, it was as if she had found the point of contact in an instant. All of a sudden, she erupted like the lava below.

“Dongfang Yu, aren’t you too narcissistic? Do you think that just because you have a body that everyone loves, you think that all the animals in the world that call women will fall in love with you “actually, women don’t fall in love with you at all. They just fall in love with your money. A man like you either relies on his sex appeal or his family’s stinky money to conquer women. In fact, a real man doesn’t have any charm at all. Let me tell you, I don’t like your sex appeal and I don’t like your money, so... “... “...”

Xi Muru did not continue her rant. In fact, she did not even have the chance to continue her rant because her mouth, which was full of curses, was now completely blocked by the other thin lips.

“MMM...” Mu Ru let out an instinctive cry in the middle of the night. Before she could react, Dongfang Yu’s large hand had already grabbed the back of her head, while his other hand grabbed her hands, which were constantly waving and pushing her away.

Xi Muru felt as if she could not even breathe when she hit herself. She was really going to die, and she was about to say goodbye to the world.

This was perhaps the saddest thing in her life. Ever since she was born, her father had viewed her as an evil creature. She should have been thrown into the river and drowned. Then, because of her mother’s sudden softness, she was able to keep her little life.

Later on, she had taken Xi Muxue’s place to marry the devil, Dongfang Mo. Then, something happened when she was pregnant with a bastard child. When she was bleeding non-stop in the small fish pond, she had wondered if she was going to die together with the child in her stomach?

However, God did not take her life away at that time. He only took the life of the child in her stomach. Therefore, she thought that she probably had not suffered enough in this world, so God still kept her.

Just, she did not expect, she is suffering, hard to find a job as a florist, but in the flowers on the way to meet Dongfang Yu, and... ...

Now, she was probably really going to die, because Dongfang Yu had sealed off all her breathing passages, and his lips and tongue had never let her go. It seemed that she had died so tragically, and had actually been kissed to death by Dongfang Yu. It was really embarrassing.

It's just, she's gone. What about her mother?

In this world, she was Lin Xinyue's only family member. If she died, how would she be able to live on with her crazy and heart-stricken Lin Xinyue?

When she thought of this, she suddenly realized that she couldn't die, at least not yet!

Thus, at the moment when she was about to suffocate, Xi Mumu dropped her teeth and bit Dongfang Yu's lips. Blood quickly filled each other's mouths, and the cruel smell of blood spread in each other's mouths... ..

However, the smell of blood did not force Dongfang Yu back. Instead, it made him even more out of control. He had no intention of letting go of Xi Muru at all.

Mu Ru saw that Dongfang Yu was still unwilling to retreat, so she once again bit down hard on her teeth and took another bite.

Chapter 177: A woman who does not suffer

This time, Xi Muru's bite was indeed a little heavy, because she herself felt the pain. Meanwhile, Dongfang Yu, who had been frantically raping her, suddenly stopped. He was clearly stunned. Because he did not expect Xi Muru to really bite him.

While he was in a daze, Mu ru took the opportunity to break free from her hands. She used all her strength to push Dongfang Yu, who was pressing on her body, away. Then, she got up and slid under the bed.

She used her hands to support herself on the bedside table and panted heavily. She opened her mouth and inhaled the fresh air greedily. For the first time, she did not know that the air tasted so good. It was so good that one could not leave it for even a moment.

Just as she was about to turn around and run to the door, she looked down and realized that her clothes had been torn apart by Dongfang Yu. The little cutie who was dressed well inside had also been torn apart by him. Her fair and delicate skin was exposed to the air and she breathed in the fresh air with her.

Xi Muru was out of breath and panted heavily. The redness on her face had not subsided for a while. She lowered her head and realized that her fair skin was exposed. Her face instantly turned red from embarrassment... ..

Mu Ru could not help but suck in a breath of cold air. The suspenders on her clothes were broken and she could not wear them properly. She hurriedly pulled the torn clothes over, trying to cover her upper body that was gradually in a sorry state.

Unfortunately, the torn clothes had been torn into strips of cloth and could not cover her upper body at all. She barely pulled the strips of cloth to her chest and clenched her hands tightly. However, she realized that it was futile.

“DISGUSTING!” Mu Ru cursed angrily through gritted teeth.

She glared at Dongfang Yu with murderous eyes. If there was a knife at this moment, she would definitely capture and chop Dongfang Yu’s two demons and throw them to feed the dogs.

Disgusting Dongfang Yu was obviously stunned when he heard Xi Muru’s curse. Then, he immediately took mu Ru’s curse as a compliment.

Dongfang Yu was instantly in a good mood when he saw Xi Muru like this. He completely ignored Xi Muru’s gnashing of her teeth and murderous eyes. He curled his tongue gently at the corner of his mouth. He sucked all the faint blood into his mouth.

The warm orange light was a little dim. Dongfang Yu’s deep, dark eyes looked even redder under the light. The emotions on his face did not fade as the woman beneath him retreated. His handsome face became even more seductive because of the blood-sucking action just now. It made the heart of any animal that was called a woman beat faster.

“Mu Ru, why are you so weak?” Dongfang Yu approached her again. His deep voice carried a rare smile. It was clearly a reprimand, but at this moment, he did not hide his good mood at all.

Even though he had already had sex with Xi Muru, seeing that she did not even know how to breathe when kissing tonight, this was enough to prove that she was inexperienced. She probably had never kissed another man before.

Thinking of the fact that she had never kissed another man before, his mood instantly brightened. It seemed that tonight, he could fully enjoy the fun of teaching this inexperienced woman.

Chapter 178: softness and firmness

Mu Ru was sorting out the torn fabric on her chest with her hands in great distress. When she heard Dongfang Yu’s words, she glared at him angrily again. She was very dissatisfied with his accusation.

“Xi Muru has always known what it means to be clean and self-loving since she was young. Of course, she can’t be compared to a battle-hardened warrior like second young Master Dongfang. However, Mu Ru doesn’t think that it’s more shameful to not go through a lot of trouble than to be a battle-hardened warrior,” Xi Muru’s voice was tinged with sarcasm. The deeper meaning in her words was, Dongfang Yu, you are just a pig that goes to bed every time you see a woman.

Dongfang Yu frowned slightly when he heard Xi Muru’s words. Back in one inch ink city, he had always thought that Xi Muru was a little stupid. She was a person who would not fight back or scold back.

However, he had never expected that Xi Muru, who had actually walked out of one inch ink city, would be so sharp-tongued. It seemed that women still had to be raised in captivity. Once they were raised in captivity, they would lose their nature.

Seeing the woman who was holding onto the front of her clothes turn around and walk out of the door, he immediately reached out and grabbed her arm again. He pulled her into his arms again with a little force.

His brows raised slightly, and the corners of his lips curled up into a happy smile. His arms tightly held her in his embrace. He lowered his head and buried his head in her delicate and fragrant shoulders. He breathed a warm breath into her ear and whispered softly,

“since you don’t suffer from torture, then let me teach you...”

“I don’t want it,” Mu ru quickly retorted. Although she could not break free from Dongfang Yu’s control, she could still reject him. “Dongfang Yu, I don’t want anything. Let go of me now!”

Dongfang Yu did not seem to hear Mu Ru’s rejection. His head was still buried in her shoulder. A scorching hot breath spread across Mu Ru’s neck, quickly staining her fair skin with a layer of pink.

Mu Ru’s body trembled uncontrollably. She instinctively stepped back, wanting to push him away, but no matter how hard she tried, she could not.

Dongfang Yu was an experienced lover. He had obviously caught the message from her body at the first moment.

Xi Muru, who was still young and inexperienced, was indeed too inexperienced to fight against Dongfang Yu in matters of love. Dongfang Yu, who had seen countless people, naturally knew how to stir up the desire hidden in the deepest part of a woman’s body at this time Moreover, Xi Muru was a woman he had already touched.

Mu Ru’s body could not move in Dongfang Yu’s embrace, so she raised her hand to push Dongfang Yu’s head away from her shoulder. Because he was on her neck, the heat from his breath was unbearable for her.

However, the torn cloth on her chest suddenly scattered because she let go of her hand... ... Omit a hundred words here, and the relatives closed their eyes to fantasize

Dongfang Yu let out an almost inaudible low laugh, and his arms tightened again, pressing her body tightly against his... ... Omit thirty words here, and the relatives thought

The soft and hard contact, of course, did not create sparks in an instant, but it was an instant of intimacy.

Dongfang Yu turned around and pressed her back against the wardrobe door. His body exerted a little more force... ... Omit the twelve words here, dear ones, don’t blame me, I have no idea what to do

Chapter 179: Soft and strong resistance

Mu Ru was being harassed by Dongfang Yu’s flirtatious flirting. The skin on her body started to break out in pink spots, and her body was being pressed down by him. She wanted to escape, but she couldn’t.

“Xi Muru, have you not showered for a long time? Why does your body smell sour?” Dongfang Yu saw that she was no longer resisting and was in a good mood, so he moved his thin lips to her butterfly bones and gently licked and kissed her.

“since you think my body smells sour, why are you still...” Mu ru had just opened her mouth to say a few words when Dongfang Yu’s mouth quickly covered hers... ..

At this moment, Dongfang Yu was no longer in the mood to continue flirting with Mu Ru. He immediately picked her up, turned around, and pushed her onto the bed once again.

Mu Ru used all her strength to push Dongfang Yu, who was once again pressing onto her body

She wanted to use all her strength to push this playboy away, to push this shameless man, who had no sense of responsibility at all, away

However, there was a huge gap between men and women in terms of natural strength. To Dongfang Yu, her strength was just like scratching an Itch, and her push-back actions did not seem to be a rejection, but rather a welcome.

“Mu Ru, did you miss me?” His voice was deep and hoarse, with a deadly seduction, like Adam Seducing Eve.

Miss him Mu Ru only felt that this man’s skin could be thick to the Max. No, he was simply shameless.

What had he given her Was it worth her to miss him?

The pain, the hurt, and the shame that she was ashamed to remember?

Could it be that these were things that women were worth remembering?

Could a man really be so shameless to this extent?

Mu Ru gritted her teeth and looked at the man beside her. She had to admit that her body was beginning to miss him uncontrollably. However, her will was clear at this moment and she was not bewitched by him.

Hence, her sharp gaze landed on Dongfang Yu’s face like an ice blade. She gritted her teeth and said,

“Dongfang Yu, if you still think that my days aren’t miserable enough, if you still think that it’s not enough for me to bear a bastard child in one inch ink city of the Dongfang family, if you still want me to bear another bastard child in such a dire situation...”

When Mu Ru said this, she saw that the head that was buried deep in her chest had lifted up. Hence, she gritted her teeth as though she had made up her mind

“Alright, Dongfang Yu, you can take whatever you want. It doesn’t matter. At most, I’ll get pregnant again. At most, I won’t even have the money to go to the hospital for an abortion. At most... I’ll just die together with the child...”

Dongfang Yu looked at the woman beneath him like that. Her gaze was as cold as a knife as she gritted her teeth. Her lips were red and swollen, and they were bleeding non-stop. However, there were no tears in her eyes, not even a single tear.

Carrying another bastard child and having an abortion again. What harsh words. They were like poisonous silver needles that pierced into his heart without warning. It was so painful that he could not even scream!

He finally stood up slowly and completely pulled his body away from her. He looked at the woman lying on the bed with her clothes torn. He pulled open the wardrobe and took out a woman's clothes and threw them to her.

"Go to the bathroom and change your clothes. You probably can't go out like this. "

His voice was very faint, and there was no emotion to be heard. As for himself, he turned around and walked towards the balcony where the lights were not turned on.

Chapter 180 was all about clothes

Xi Muru went to the bathroom as fast as she could to change her clothes. Then, she used the speed of light to escape in a hurry.

When she ran out of the door of the Fragrant Plum Garden Hotel and finally reached the bus stop not far away, she took out her wallet and was ready to take the bus Only then did Meng remember that she had not received the money from the bouquet of champagne roses from Dongfang Yu.

Oh my God A bouquet of champagne roses, 39 of them. The cost of one of them was already 5 yuan, and there was also a packaging fee, shipping fee, and other miscellaneous fees The lady boss had sold this bouquet of champagne roses for 599 RMB.

Originally, she had thought that she could earn some tips by sending this bouquet of roses tonight, but who knew that she would meet Dongfang Yu?

Not only had she been harassed, but now not only did she not earn any tips, she had not even received any money to spend. Was She really that unlucky?

She turned around and looked at the Fragrant Plum Garden Hotel 200 meters away. She shook her head. Even if she were given a few more guts, she would not have the courage to go back and ask Dongfang Yu for the bouquet of roses.

By the time she dragged her exhausted body back home, it was already past 23 p.m. . It was winter now. Although it was a southern city, the night was still very cold, not to mention that it had rained for the past two days.

She opened the door with the key and walked in. Before she could take off the bag in her hand, a fierce and heavy slap was delivered at lightning speed.

"PA!" The crisp sound of the slap rang out in the quiet room in the middle of the night. It was ear-piercing and loud, and it immediately left five fingerprints on Mu Ru's face.

"You're back so late. Where the hell have you been? "

Lin Xinyue's voice was laced with vicious curses as she pointed at the clothes on her body. "Did you seduce a man again? Do you think that what you did at the Dongfang family isn't embarrassing enough?"

"No, I sent flowers for the lady boss," Mu ru instinctively defended herself. She put down her bag with one hand and covered her face that was burning from Lin Xinyue's slap with the other. She had never known that the pampered Lin Xinyue.. So her hands were so strong.

"No, what is this?" Lin xinyue tugged at the new clothes on her body She asked fiercely, "am I blind? This is Chanel's famous brand clothes, worth several thousand yuan. How much money do you earn in a day? How can you afford such good clothes?"

Mu Ru immediately fell silent because she didn't expect the clothes to show flaws, so she hurriedly explained, "mom, the lady boss of the flower shop lent me this. My own clothes got wet when the flower shop helped to water it. "

"The flower shop's lady boss lent you a dress that cost a few thousand yuan?" Lin Xinyue obviously did not believe her daughter's words, so she tugged at the dress on her body. "Take it off for me."

Mu Ru was stunned for a moment before she quickly said, "mom, the flower shop's lady boss lent this to me. I have to return it to her tomorrow, I really can't give it to you. "

Mu Ru knew that her mother had taken a liking to this dress. Lin Xinyue had always lived a pampered life in the Xi family. She usually wore designer clothes and had servants to serve her. Now that she was living a poor life with her, of course, she could not stand it Hence, when she saw the dress on her, she wanted to take it over.

Lin Xinyue was her mother. She should have given her a good dress, but she could not give it to her mother because she did not receive the money for the bouquet of flowers tonight, so she decided to pawn the dress tomorrow At the very least, it could be used as a bouquet of flowers, right?
