

Nothing To Give But My Heart Chapter 102

Ye Moxuan's eyes flashed dangerously, and he hissed through clenched teeth, "How dare you?!"

Lu Xunchang snorted in laughter. "I am now just like a disabled person; do you really think that I have anything to lose? Ye Moxuan, if it were in the past, I would have tolerated you, but now... why should I be afraid?"

The busy tone then came from the phone.

Lu Xunchang had hung up on Ye Moxuan right after that.

Ye Moxuan decided promptly. "Locate the position of this phone number, and we'll rush over there straight away. Inform them to send help over immediately as well."

"Yes!"

Xiao Su didn't waste another second. He whipped his phone out while pushing Ye Moxuan to leave the event right away.

On the other side, after hanging up on the phone call, Lu Xunchang stared unblinkingly at the woman lying in bed. She was still unconscious, and there was a large bowl of medicine beside her.

Lu Xunchang gave her a deadly stare before instructing, "Feed her the medicine."

"Yes, Young Master Lu!"

Under his command, his subordinates forced Shen Qi's mouth open before pouring the medicine into her mouth forcefully.

Shen Qi woke up with a start as she choked on the medicine, and she grabbed onto her throat while she started coughing. When she regained her consciousness and realized that she was being force-fed some medicine, she instinctively shoved the bowl away.

However, she had already consumed at least half a bowl's worth of medicine by then.

Meanwhile, Lu Xunchang laughed evilly at her.

Shen Qi covered her mouth before scuttling to the corner of the room, her eyes wide open with fear.

"Ye Moxuan's assistant, *ha!* I wanted to fool around with you, but it's a shame you didn't know what's good for you. In that case, you should just wait here while you are overwhelmed with lust."

Shen Qi's eyes bulged in shock when she heard that. "The medicine you fed me..."

"Do you think Ye Moxuan will come and rescue you?"

The color drained from Shen Qi's face, and she lowered her head while sticking her finger down her throat, trying her best to vomit whatever she had taken earlier.

"It's no use," commented Lu Xunchang with a faint smile. His grin was like a beast that was baring its fangs. "The medicine will take effect in another ten minutes, and this is the strongest medicine we have. Even if Ye Moxuan came for you, he is just a cripple, who is not functional. I don't suppose he could be of much help!"

His subordinates laughed at Lu Xunchang's comment while rubbing their hands together. "Young Master Lu, if Young Master Ye can't help her, why don't we...?"

Lu Xunchang snorted in disdain while scanning the room. "Seal the windows and door, and light the incense. All we have to do now is to wait for Ye Moxuan to fall into our trap."

"Just because Ye Moxuan is impotent, he wants others to end up like him? If that is the case, I'll let him experience the torture of unfulfilled and pent up lust."

Shen Qi immediately guessed what Lu Xunchang meant after putting together what he said, and when she saw the men lighting up the incense, her expression changed drastically. She immediately tried getting up, but she had no energy at all, and her whole body felt boneless.

"You bastard..."

After lighting the incense, Lu Xunchang left with his men before locking the door and windows.

The room fell into dead silence, leaving only Shen Qi lying in bed. Her finger twitched when she tried with all her might to get up from the bed.

She finally struggled to sit up after much difficulty, but she rolled down the bed by accident and ended up on the cold floor.

It's so painful...

Shen Qi's tiny face distorted in pain from the fall.

Lu Xunchang is such a despicable jerk. He knows very well that... Ye Moxuan is incapable in that department, but he drugged me anyway. Besides, he lighted that ecstasy incense, and Ye Moxuan will be affected the moment he enters.

But... I can't move at all, and I have no energy left.

My eyelids feel so heavy. Shen Qi almost drew blood from biting her lower lip, and soon, her eyes rolled up before she was completely knocked out.

...

"Young Master Ye, we got the location."

"Where is she?"

"They are at Li Hao Hotel."

"Step on the accelerator."

Soon, Ye Moxuan and his people arrived at their destination. Xiao Su asked in a stern voice the moment they came to a stop, "We are here, Young Master Ye. Should we go up now?"

"Mm-hmm."

"But..." Xiao Su paused for a while. "I think it's best for you to not head up for now, Young Master Ye. It's more than enough for the group of us to head upstairs and rescue Assistant Shen."

Ye Moxuan frowned deeply when he heard that, and just as he was about to say something, his mobile phone rang.

It was Lu Xunchang. Ye Moxuan pressed the button to answer the phone call calmly.

"It seems that like the assistant is really important to you, Young Master Ye..."

Xiao Su looked stricken when he heard that, and he scanned the surroundings immediately.

Ye Moxuan remained expressionless while not replying to Lu Xunchang.

Lu Xunchang smirked. "Your assistant has been drugged with a very intense medication, and if you don't save her in person, Young Master Ye, your subordinates might very well see her naked! There is also the possibility where she might throw herself at them under the drug influence. Well, of course, I have to remind you that I tripled the normal dosage for her, and if she doesn't get the release she needs within an hour, she might very well bleed through her orifices to death... *Sigh*, such a pitiful assistant."

Xiao Su gritted his teeth and clenched his fists. "Lu Xunchang, you are a shameless scoundrel!"

"Ye Moxuan, I am glad that I will soon have the chance of witnessing you unable to release your sexual frustration. I am truly looking forward to it."

With that, Lu Xunchang hung up the phone call.

Xiao Su advised promptly, "Lu Xunchang set the trap on purpose to lure you in, Young Master Ye, so you must not be fooled by his tricks."

Ye Moxuan looked out of the car window with an icy stare before ordering him, "Push me out."

Xiao Su paused before calling out, "Young Master Ye!".

"What is it? Do I even need others to save my woman?"

"But—" Xiao Su tried searching for the right thing to say.

"You will phone the hospital immediately, whereas the rest of the men should search for Lu Xunchang's hiding spot quickly and find him."

Since he did not have a choice, Xiao Su could only agree before pushing Ye Moxuan out of the car, and he then pointed at the men behind him. "Didn't you guys hear Young Master Ye's orders? Go ahead and get that sorted now!"

"Yes."

After assigning the tasks accordingly, Xiao Sue led a few men and brought Ye Moxuan up the building immediately.

Once they arrived at the entrance of the room, Xiao Su kicked the room door open straight away. But before he could check the state of the room, Ye Moxuan instructed sternly, "Shut your eyes!"

Xiao Su turned around swiftly while glaring at his men. "Guard the room outside, and you're not allowed in the room."

Ye Moxuan rolled his wheelchair and was about to enter the room alone when Xiao Su's expression changed drastically before he stopped him hastily. "Young Master Ye!"

Ye Moxuan caught a whiff of a distinct fragrance in the air, which made him scowl. "Get everyone to cover their mouths and noses because there is an ecstasy incense lighted in the room."

Xiao Su nodded immediately while handing masks to everyone, and he allowed Ye Moxuan to enter the room by himself only after putting a mask on him.

In the hotel room.

Shen Qi thought that she might burst into flames due to the heat, and her clothes were disheveled while she lay on the icy-cold floor. She was very weak, but under the influence of the drug, she shed all her clothes, while leaving only her undergarments on. The coolness from the floor radiated throughout her body, which helped ease her scorching temperature.

Nevertheless, it did not solve the root cause at all.

Shen Qi was semi-conscious, and she felt a strange feeling in her lower abdomen, which embarrassed her!

Never in her wildest dreams did she imagine that someone would drug her. She was helpless and didn't have the strength to resist it at all, and her primitive needs... were simply summoned and stimulated by the drugs.

Conflict, discomfort, pain, despair, and all sorts of emotions overwhelmed Shen Qi.
