

Oh My God 1471

## Chapter 1471 Monster Truck

The vehicle in front was also not loaded with much cargo. Its tonnage was even smaller than the truck that Ai Lei had stolen. Ai Lei immediately pushed it to the side, and even the guards who were leaning on the door were thrown off, falling into the mud by the side of the road. "Stop her! Hurry up and stop her!" A few guards realized that the situation was not good, they instantly sounded the alarm.

However, by then, Ai Lei had already crashed through the gate and forcefully rushed out.

Since it was the exit of the valley, it was obviously in the shape of a horn. It was wide on the outside but tight on the inside.

The moment she rushed out of the valley, Ai Lei's vision suddenly became clear and her speed instantly soared to the limit.

On the other hand, her pursuers at the back were flustered. Several vehicles were blocked at the valley entrance at the same time. The driver could only curse in exasperation.

The problem was that in order to deal with the flood and the explosion, a large number of drones circle in the air.

After receiving the order from Red Creek Ditch, these drones immediately flew to the top of Ai Lei's head like Falcons that had locked onto their prey.

Ai Lei was so anxious that her eyes were spitting fire.

However, no matter how fast the truck was, it was impossible for it to be faster than the drones that were high up in the sky.

Not to mention that the torrential rain had almost destroyed all the roads, turning the hardened roads into mud.

The truck that she was driving had problems with suspension and shock absorption. If she drove too fast, she might sink into the mud and be unable to move.

At this time, the pursuers had also gotten rid of the chaos and were gradually catching up.

Whether it was the off-road vehicle equipped with Caterpillar Tracks and anti-skid kits or the all-terrain vehicle equipped with bionic crawling feet, they were both more agile and faster than the clumsy truck.

Dozens of dazzling beams of light pierced through the driver's cabin like dozens of burning javelins.

Through the reflection of the rear-view mirror, they pierced into Ai Lei's eyes again.

"Damn it!"

Ai Lei cursed and could only continue to bombard the accelerator.

Her reckless action had finally caused the chassis of the truck to exceed the limits of fatigue.

When they passed through a seemingly shallow pool at high speed, the right front wheel hit the deep pit at the bottom of the pool and bounced.

The front of the truck rose high and smashed down violently. With a crack, an unknown part of the chassis exploded. The truck shook violently, and the speed of the truck plummeted. The hands and numbers on the dashboard., all of them were jumping around wildly as if they had gone mad.

Even though she was wearing a seatbelt, Ai lei still jumped up from the seat. Her head hit the roof of the car, causing her to groan in pain.

Before she could rub the top of her head, Ai lei saw a few off-road vehicles with the Huanyu Group logo painted on them appear on her left and right.

There were also two drones that flew over her head and hovered in front of her.

“Stop the car!”

Supervisor Wang’s exasperated voice came from the drones. “Miss Ai Lei, Stop the car before you make things completely out of hand!”

“Get lost.”

Ai lei muttered to herself, “Things are completely out of hand!”

She did not care and continued to hit the accelerator.

The two drones sprayed a large amount of foam at the front of the truck.

The two drones were originally used for fire fighting. There was a compressed foam spray can attached to each of them.

The fire-fighting foam was extremely sticky, and it covered ai Lei’s field of vision.

Even though Ai lei had activated the windshield wiper and scratched the window back and forth.

Her field of vision was greatly affected, and she was about to walk into a trap.

At the critical moment, a voice came from behind Ai lei:

“Get out of the way, I’ll do it.”

“Ah!”

Ai lei screamed, her hair standing on end.

She was horrified to see a man wearing the same camouflage combat suit, with the brim of his hat lowered and his face covered in mud. He looked like a mine security guard. He climbed out from behind the seat of her car unhurriedly.

This truck was a heavy-duty model specially designed for industrial and mining companies.

The emphasis was on the quantity of goods to be loaded in a single short-distance trip.

The need to stay up all night and drive continuously was usually not considered.

Therefore, there was no rest area behind the seat. Through the rearview mirror, the entire cab could be seen at a glance.

However, Ai Lei had no idea when this man had crawled into the cab and how it was possible for him to hide under her eyes for so long.

Before she was injured, even the earth-drilling mouse, who was best at hiding, would not be able to escape from her eyes! Before ai Lei's heart and brain could thaw out from their shock.

She had already been carried from the driver's seat to the passenger's seat by the man who looked like a security guard.

When the man's hand gently grabbed the back of her neck, Ai Lei felt a weak electric current wrapping around her entire spine in an instant, preventing her from having the courage to struggle.

Ai Lei, who was still in shock, swallowed a few mouthfuls of saliva and slightly recovered the ability to move her eyeballs. However, she did not dare to speak recklessly and could only use the corner of her eyes to secretly observe this mysterious fellow.

Although this fellow's face was covered in mud and her face could not be seen clearly.

Her intuition still told ai lei that this fellow was very young and was very likely to be of the same age as her.

However, he had a pair of unfathomable eyes that young people would never have.

His eyes were like a storm that had swept through countless fleets. The vast ocean that contained countless treasures was enough to accommodate the most violent storms that seemed to be able to destroy the world.

In Ai Lei's short but exciting life, she had only seen a few people who had similar eyes.

All of them were the strongest among the strong.

But —

“Even if they are the strongest among the strong, what can they do to this old car? Its chassis is almost ruined!”

Ai Lei was not convinced.

Under her half-surprised and half-curious gaze, Meng Chao pressed the accelerator.

It seemed to be no different from Ai Lei's simple and violent action just now.

However, Meng Chao's spiritual energy flowed into the crystal engine and the entire driving system of the truck through the soles of his feet like a trickle of water.

For a moment, his life magnetic field seemed to have merged with the vibrating spiritual magnetic field inside the crystal engine.

The truck that was about to fall apart turned into an extension of Meng Chao's limbs.

His will was carried out into every gear and every bolt.

Boom!

The Roar of the beast came from the front of the truck.

All the numbers on the dashboard stopped falling and rose after falling to the bottom.

Ai Lei felt a strong push on her back.

It was as if someone had kicked her in the chest and pinned her to the seat. She could hardly breathe.

There was clearly a windshield in front of them.

However, Ai Lei had the illusion that she was in a convertible sports car and had accelerated to the maximum in an instant.

“How... How is this possible?!”

Ai Lei was dumbfounded.

Never in her wildest dreams did she expect that a thick, clumsy, and heavy truck could accelerate to such an unbelievable degree in an instant!

What was more terrifying than acceleration was its stability.

The suspension and shock absorption system of this truck was already seriously malfunctioning

Just now, when Ai Lei was driving, even when she was driving on the paved road, she was jolted up and down, and the violent tremors shook her to the point that all the bones in her body were about to fall apart.

The interior of the truck was also constantly emitting a cacophony of noises and the sound of metal fatigue, which made people’s hearts palpitate. They were worried that this truck could disintegrate at any time.

However, Meng Chao had already sped up to 30% faster than Ai Lei’s speed limit.

Furthermore, he had deviated from the paved road and plunged into the rugged and muddy mountains.

There were a few times when ai lei could see the huge rocks, deep pits, and even cracks in front of her through the blurry window. She was ready to take off.

However, the heavy truck was like walking on flat ground. There was not even the slightest bump or bump.

If she closed her eyes, Ai lei almost had the illusion that she was not in the body of a charging steel monster, but in the old sofa that she had used for more than ten years, but it was still soft and comfortable!

“Has this guy started to touch the steering wheel since he was in his mother’s womb?”

Ai Lei could not figure out the depth of this old driver beside her.

At this moment, Meng Chao had already driven the heavy truck up a rugged hill.

Due to the heavy rain, mudslides, and landslides, the hill, which had no roads to speak of, was full of traps and killing intent.

Several off-road vehicles that were in hot pursuit, even if they were equipped with caterpillar tracks and anti-chemical kits, were stuck in the mud and could not move.

They even slid down the slope along the flowing mud.

Only a few armed off-road vehicles that had been modified and were also driven by extraordinary humans were still able to bite Meng Chao's tail.

Whoosh!

Whoosh! Whoosh! Whoosh! Whoosh!

The armed off-road vehicle couldn't take it anymore and began to fire beast-catching harpoons at the heavy truck.

This weapon that was originally used to catch monsters had a sharp spearhead that was made of a special alloy and filled with barbs.

It also had a set of extremely tough steel ropes and a noose system.

Once it was shot into the monster's body, it would be able to firmly lock the monster's bones and nerves.

It could also use the steel ropes and the Alloy Fork head to enter the monster's body with high-voltage electric arcs that could be fatal.

Then, through the rotation of the winch, it could control the retracting and retracting of the steel ropes. It could play the game of "Kite flying" with the monster and slowly drain the monster's blood and combat strength.

Meng Chao dodged three monster trappers in a row.

However, through the rearview mirror, he saw that the other party was still lingering. He frowned slightly and decided to slow down his speed. He took the initiative to meet the fourth and fifth monster trappers.

Puff! Puff!

The heavy truck was locked by the two armed

**SUVS.**

However, before the armed SUV could tighten the winch,

Meng Chao slammed the accelerator again.

Ai Lei felt that a volcano was erupting under her butt.

The driver's seat, which had been quiet and stable all this while, finally let out a deafening mechanical roar.

The heavy truck seemed to have been given an unruly life and was about to unlock its even fiercer second form.

"Hold on tight."

Meng Chao said, "We're going to accelerate."

"..."

Ai Lei was dumbfounded and wanted to ask, "Wh-what the hell? Could it be that we didn't accelerate at all just now?"

Chapter 1472 Roller Coaster

Before she could react.

Ai Lei could taste the acceleration of the rocket.

The truck had seemingly been whipped by an old driver beside it-it was a burning iron whip wrapped in thorns.

The steel monster let out a heart-wrenching roar.

A total of eighteen tires, which were half the height of a man, all scraped the ground and produced thick smoke.

Dazzling flames were shooting out from the radiator tubes on both sides of the front of the car.

They rushed out without a care for anything else.

Immediately after, the wire rope that the two traps were dragging became taut.

The two armed SUVs were like two fishermen who saw their fishing line tightened.

Before they could rejoice, they discovered that the big fish that had taken the bait was actually a vicious man-eating shark.

The man-eating shark charged forward, and the two armed SUVs were like broken sampans in a stormy sea.

The driver smashed the weapon system on the dashboard, trying to subdue this unruly giant steel beast with high-voltage electric arcs.

But they had already output an electric current that could subdue even the ferocious beasts of hell.

They were about to squeeze out all their fuel.

The high-voltage electric current was like a clay ox entering the sea. There was no reaction at all.

It was even as if it was charging the other party. Instead, it caused the heavy truck to accelerate and charge even more fiercely.

Finally, when they passed by a slope with a larger slope, the heavy truck made a sharp turn. Relying on the tires on the right side, it tilted at a 45-degree angle and narrowly flew over.

The two armed off-road vehicles had already lost control. At this moment, they crashed into each other.

The two steel ropes first intersected, and then broke together, causing their master to spin seven or eight times in the air, and lie down in the mud at the bottom of the hill.

Ai Lei was still in shock.

She felt as if her internal organs were about to vomit.

She had never expected that riding a heavy truck would be as exciting as riding a roller coaster.

There were no more lights for the pursuers behind them.

However, the sounds of drones still passed over their heads from time to time.

Ai Lei secretly glanced at Meng Chao.

“Alright, even if you can get rid of all the suvs and atvs –“

Ai lei thought to herself, “But how are you going to get rid of the drones?”

“Even if you increase the speed of this heavy truck by three to five times, even if you completely scatter the truck, it’s still impossible to get rid of the drones, right?”

Meng Chao’s face was still calm.

**wa**

Compared to Tu Lanze’s soul-stirring battle, as well as the treacherous and unpredictable battle in the Sacred Mountain Temple.

In Ai Lei’s eyes, the soul-stirring chase just now.

In Meng Chao’s eyes, it was just a leisurely stroll after a meal.

He no longer took detours.

He drove straight up the hill.

He even turned on all the headlights.

He was not afraid of being exposed to the drone’s vision.

Ai Lei did not realize what Meng Chao was trying to do at first.

But she soon saw a snake-like shadow lying on the ground in front of her through the high-beams.

Ai lei blinked hard.

Then she took a deep breath.

“A cliff!”

Ai lei screamed, “There’s a cliff in front of us!”

This area was the border between the monster mountain range and Tulanze.

The space ripples caused by the transmigration of Dragon City tore the land into pieces. On the undulating land, there were cracks and valleys everywhere.

There were also cliffs that went straight up and down, falling more than a hundred meters.

There was no road ahead.

But Meng Chao drove faster and faster.

After a deafening roar, the hood of the truck flew high into the air, and the crystal engine started burning. It seemed that Meng Chao wanted to fly directly up the cliff and over the rift valley.

The problem was that the rift valley in front of them was at least thirty to fifty meters wide.

And the opposite cliff was slightly higher than the one they were on.

No matter how fast a truck was, it would be difficult for it to fly over like a specially modified stunt car because it was too heavy.

There was a higher probability that they would crash into the cliff on the other side.

They would turn into a huge fireball and fall into the depths of the cliff, shattering into pieces.

This was not running for their lives.

This was suicide!

Ai Lei could not imagine how the old driver beside her could be so crazy and calm at the same time.

But she could not stop him.

Meng Chao’s series of dazzling operations had drained all her strength and scattered every bone in her body.

She could only curl up in her seat and hold on to everything around her, screaming hysterically. While Allie screamed.

Sparks and lightning shot out from the truck.

It left two burning tracks behind it.

When it ran over a slightly raised stone slab on the edge of the cliff, the entire chassis was completely destroyed and several wheels flew out.

However, the truck itself soared into the sky like a ROC spreading its wings.

It drew a nearly perfect arc in the air.

It actually flew up!

Unfortunately —

Ai Lei's judgment was right.

This rift valley was too wide.

The heavy truck was too heavy.

The landing point on the other side was also a little too high.

Meng Chao had already squeezed the steel beast under him to the limit.

He was still unable to make inertia overcome gravity.

Before they crossed the middle line of the rift.

They had already felt a strong sense of weightlessness.

It was as if they had been grabbed by an invisible hand from the depths of the rift and dragged into the darkness.

"Ah!"

Ai Lei saw that the steep mountain wall opposite them was getting larger and larger in front of her.

Then, with a boom, the truck crashed into the mountain wall brutally. The entire front of the truck was completely dented, like a can that had been stepped on by someone.

The crystal engine that had gone out of control a long time ago exploded even more violently after the collision. It exploded into colorful fireworks and fell toward the bottom of the Dark Valley.

Allie felt that her world was spinning, and her soul was out of her body.

Her eyes were temporarily blinded by the tremendous pressure inside her skull.

The wind was blowing in her ears, too, as if she had fallen into an endless abyss with the truck.

"AM I... Am I DEAD?"

Allie's brain turned into a mess.

Her thoughts were a little chaotic.

Shouldn't she have been destroyed together with the crystal engine that exploded the moment the truck crashed into the mountain wall?

Why was this feeling, which was a hundred times more exciting than riding on a roller coaster, still lingering?

Who was the lunatic who had dragged her to commit suicide? What was going on now!

After an unknown amount of time.

Allie's soul returned to her messed up brain.

Before she could open her eyes, the first thing she did was lie on the ground and spit out her bile.

Then, she sprawled on the ground and looked up at the starry sky with tears in her eyes.

She was still alive.

It took Eiley half a minute to realize this fact.

She grinned foolishly, but tears still gushed out uncontrollably.

After another half a minute, she gradually regained control of her body and basic professional qualities.

Eiley's eyes and brain began to rotate again.

The more they rotated, the faster they went.

She got up with difficulty.

She found herself somehow over the Rift Valley, lying on the other side of the cliff, in a natural pit blocked by three jagged rocks.

She looked down the cliff.

The wreckage of the heavy truck was still burning at the bottom of the valley, two or three kilometers away from them.

All the drones, attracted by the flames and debris, were circling two or three kilometers away.

This ravine was extremely deep, and the cliff was quite steep. After the heavy rain, the structure of the mountain was very fragile, which posed a great challenge to the search.

Ai Lei estimated that the pursuers would not take the risk and go deep into the ravine to search for their bodies in the wreckage of the heavy truck.

After a period of time, when the rain and mud completely buried the wreckage of the heavy truck, no one would be able to tell where their bodies were.

"I see."

Ai Lei came to a sudden realization. "This guy didn't want to directly use the truck to fly over the rift — even if he flew over, it would be useless. The drone would still be chasing after us.

"He used the suicide charge of the truck to attract the attention of the pursuers, making them think that I fell off the cliff and died.

"The question is, how did we escape from the driver's seat the moment the truck hit the cliff?"

**were e sev**

a

**m**

“Also, we were several kilometers away from the place where the truck fell.

“How did we get here? Why do I have no memory of it?”

Ai Lei looked at Meng Chao, who was still calm, with lingering fear.

She felt that this ‘little security guard’, who did not look shocking, was becoming more and more unfathomable.

Of course, he was also becoming more and more valuable.

“Thank you, thank you!”

Ai Lei’s mind spun rapidly.

However, she pretended to be weak and helpless, like a little white rabbit that had just escaped death from the Big Bad Wolf’s bloody mouth. The corners of her eyes were sparkling as she covered her chest and thanked Meng Chao, “It’s all thanks to Senior’s righteous action. Otherwise, I, I really don’t know what to do in the face of the evil hands of these bad guys!”

Meng Chao glanced at Ai lei from top to bottom.

He said indifferently, “I saw it.”

Ai Lei was slightly stunned.

She asked carefully, “What did senior see?”

“I saw you use a weak and innocent disguise to numb the vigilance of the two guards. Then, with a fierce flying knee, you crashed into the lower abdomen of one of the guards.”

“So,” Meng Chao said, “You are definitely not ‘not sure what to do’. You have plenty of solutions.”

Ai lei laughed dryly.

“Not ‘lower abdomen’, but ‘upper abdomen’.”

Ai Lei explained, “Don’t worry, senior. I know what to do. We are all working here. There’s no need for me to be ruthless. Therefore, I avoided the critical part of the guard very carefully. I promised that there wouldn’t be any sequelae that would affect his physiological functions.”

“Then, you really have a lot of professional ethics!”

“Who are you exactly?” Meng Chao asked. “Why did you sneak into the Universal Group’s Crystal Warehouse? Why did you run away after being controlled by them?”

Chapter 1473 Extraordinary Means

Ai Lei blinked.

“Senior, in order to save me, you didn’t hesitate to offend Universe Group. Of course, I’ll explain the whole story to you.

“But, senior, can you tell me your name first?” she probed.

“No.”

Meng Chao refused.

“Okay, okay!”

Ai Lei took a deep breath and decided to take a gamble. “My name is Ai Lei, and I’m a reporter for The Dragon City Light. Senior, you’ve probably heard of it, right?”

Meng Chao had obviously heard of The Dragon City before.

It was one of the largest media groups in Dragon City.

Its stance had always been fair, and it did not belong to the nine mega corporations or any other forces. Its reports were neutral, serious, detailed, and very credible.

However, Meng Chao did not express his stance.

He only signaled Ai Lei to continue with his eyes.

“Half a month ago, The Dragon City Light received insider information. It was said that there was a shocking conspiracy behind the Universe Group’s Red Creek Project. There were a large number of illegal operations, profit transfers, and internal transactions. The level of involvement was very high. Even many famous figures from the Shen family, heroes in the Monster War, might be involved in it. Therefore, they sent me to investigate.”

Ai Lei said, “I interviewed the director of the Red Creek Project, Shen Yulin, through public channels first and found that he was indeed guilty.

“Therefore, after the interview, I snuck back to Red Creek and tried to sneak into the crystal warehouse to check the real storage of the raw crystals, hoping to capture some critical evidence or get some testimonies from the staff at the bottom level.

“Unexpectedly, the moment I got close to the warehouse, the entire warehouse was hit by an extremely violent explosion before I could gather any clues. The shock wave threw me dozens of meters away and knocked me out.

“Thankfully, I was half a step too slow. Otherwise, I would have been blown to pieces along with the warehouse.

“When I slowly woke up, I was already captured by the people of the universal group.

“They had ulterior motives. Naturally, they didn’t want me to tell them the truth about the Red Creek Creek project. They were going to lock me up and hand me over to Shen Yuling for punishment.

“Of course, I couldn’t just sit around and wait for my death. Who would dare open a crystal mine? They were all ruthless people who had fought their way through mountains of corpses and seas of blood!

“For people like Shen Yuling, it was much easier to arrange an ‘accident’ for me than to eat or drink.

“That’s why I risked everything to escape.

"I never expected that I would be discovered by the people of the Universal Corporation.

"Thankfully, senior helped me out. If not, I would probably have been killed!

"My personal life is unimportant, but as long as the inside story of the Red Creek Creek project is not made public to all the citizens of Dragon City, Shen Yulin and his accomplices will not stop for a day. The crystals that should belong to all the citizens of Dragon City will be illegally sent into the pockets of very few people without the transcendental tower's statistics and approval. They will dig into the corners of Dragon City to increase their strength!

"Let me finish. If... If senior is also a member of the Huanyu Corporation, and if senior is even Shen Yuling's accomplice, then I'll admit defeat even if it's just a trick to gain my trust!"

Ai lei puffed out her chest with a determined look on her face, as if she would rather die than surrender.

Meng Chao raised his eyebrows slightly and looked at ai lei up and down. He asked curiously, "You dare to investigate the secrets of the Huanyu Corporation alone? Aren't you afraid of Death?"

"Yes, of course I'm afraid of death. Just now, I thought that I was going to fall off the cliff with the truck. I was so scared that my heart almost jumped out of my throat. Even now, my calf is still cramping!"

Ai lei smiled self-deprecatingly. She bent down and punched her calf twice.

When she looked up again, her gaze became more determined. "But compared to death, I'm more afraid that the truth will not be made public and justice will not be served!"

"Truth and Justice?"

Meng Chao seemed to be in awe. "But, how can I Believe Your Words? Did you capture anything?"

"Unfortunately, no. The other party was very careful and the explosion happened too suddenly."

Ai lei seemed to have thought of something. She took out a card from the inside pocket of her close-fitting clothes. "But, I have this."

It was her press card.

A corner of it had been scorched by the flames caused by the explosion.

However, the words 'light of dragon city' and her photo could still be seen. Meng Chao placed the press card in his palm and weighed it.

Suddenly, he laughed.

He stretched out his little finger and gently stroked the edge of the press card.

The press card, which was less than a millimeter thick, was sliced into two thinner pieces by him.

"Why isn't there a chip?"

Meng Chao showed the inside of the two reporter's IDs to Ai Lei, "As far as I know, for a regular large-scale media group like 'Light of Dragon City,' There should be an identification chip embedded in their

employee's ID, which is used to punch the card, enter the designated area, and store and transmit key information.

"Why isn't there anything in your card?" "Oh, my identification card was accidentally damaged during the last interview mission."

Ai Lei's expression did not change as she replied smoothly, "This is a temporary card that I just applied for. I haven't had the time to embed an identification chip in it yet."

"Is that so?"

Meng Chao smiled. "Your psychological quality is very outstanding. If it weren't for the 0.3 second heart rate, I would almost believe it.

"Also, if 'light of Dragon City' really wants to investigate the universal group, I think they will definitely send a large, professional, well-equipped, and even an expert to escort the interview and Investigation Team. How can a broken star like you go into the Tiger's Den and fight alone?"

"This –"

Ai Lei's face was red. She braced herself and said, "Senior, I'm really a reporter. Please believe me!"

"I believe that. You are indeed an outstanding reporter."

Meng Chao said, "That's why I can't believe that an outstanding reporter like you wouldn't be able to capture anything."

Meng Chao's gaze instantly became as sharp as two scalpels. Starting from Ai Lei's hair, he scanned it inch by inch.

Ai lei instantly felt that her entire body was transparent and there was nowhere to run.

She took half a step back and covered her chest, displaying a look of panic and shame.

However, Meng Chao's gaze did not stop at her chest.

Instead, he continued to scan her lower leg patiently.

Ai Lei's left leg was wrapped in a bandage, and it was already soaked in fresh blood.

However, Meng Chao did not show any mercy at all. He struck out with lightning speed and grabbed her ankle, lifting her up upside down.

Despite ai Lei's struggle and protest, Meng Chao still used his little finger to cut open the bandage that was emitting a medicinal fragrance and the smell of blood, revealing the bloody wound.

It looked like a burn wound.

Although it had been debrided and bandaged, the wound was still in a mess because it had been soaked in the dirty water for too long. The pungent smell was unbearable to look at.

After observing for a moment, Meng Chao did something shocking.

He actually directly tore off the burnt flesh on Ai Lei's calf.

Ai lei screamed.

An unbelievable thing happened.

Meng Chao had clearly torn off a large piece of flesh, but the wound did not expand. No, there was no wound at all!

Ai Lei's calf was clean and clean. Not even a few hairs had grown on it. Other than a few faint old wounds, how could there be any traces of being burned by the flames?

"The wounds are not bad, but they are not professional enough."

Meng Chao put down Ai Lei and said calmly, "If I were you, I would really make a wound on my body and stuff the memory chip into it. Then, I would inject the cell growth drug around the wound to promote the healing of the wound and seal the memory chip inside."

**a men**

While he was speaking, Meng Chao picked out a memory chip the size of half a fingernail from the fake wound that ai lei had glued onto her body.

Meng Chao had a portable data processor that he had gotten from the crystal mine.

The performance of this device was not too strong. The advantage was that it was sturdy, resistant to falling, waterproof, radiation-proof, and anti-interference. It also had a very rich data interface.

It was for mining engineers to carry out simple data operations near the Crystal Mine Deep Underground.

Meng Chao stuffed ai Lei's memory chip into the corresponding interface of the processor.

A line of information popped up on the mini screen.

The chip was locked.

It needed a password to be activated.

Meng Chao looked at Ai Lei.

Ai lei gritted her teeth.

"It seems that you don't quite understand your situation. The trouble you have gotten into is not as simple as the Universal Corporation."

Meng Chao said, "If I hadn't saved you before you did, you would have probably fallen into an unknown devil's Den and suffered a torture that was worse than death. You would never have the chance to see the Sun Tomorrow.

"In order to save you and save more people, I need your unconditional and complete cooperation.

"I don't have much time to convince you in times of emergency. If you still don't cooperate, I can only resort to the most extreme means."

Ai Lei saw that Meng Chao did not have any killing intent and did not seem to be threatening.

“What methods?” She asked curiously.

“Tell me everything.” Meng Chao pointed at the cliff. “Or, I can throw you down.”

“Open, what are you playing at –“

Before the word “Laugh” could leave her mouth,

Meng Chao grabbed the soft flesh behind her neck and threw her down the cliff.

“Ah!”

Ai Lei once again experienced the feeling of riding a roller coaster all the way down to the gate of Hell.

Every goosebumps on her body were screaming, fighting to escape from her body.

Her internal organs were all squeezed into a ball, and she tasted the pain of being smashed into pieces in advance.

Ai Lei once again lost consciousness temporarily.

She did not know how she survived.

She did not even know if she was still alive.

She was drenched in cold sweat as she looked around in shock.

She found that there was stinky mud under her feet, and she was surrounded by dark mountain walls and sharp rocks.

Only the narrow crack above her head emitted faint starlight.

This was the bottom of the cliff, deep in the Rift Valley.

That... that lunatic was serious!

“Password.”

Meng Chao’s voice came from the darkness behind Ai lei.

“LCDYNSF666!”

Ai lei blurted out.

Chapter 1474 Nightmarish Romance

Meng Chao frowned. “What does that mean?”

Ai Lei coughed dryly. “These are the characters for ‘Dragon City’s richest woman’ and the meaning of 666.”

Meng Chao was silent for a moment before he said, “Do you really want to be rich?”

Ai Lei shrugged. “Who doesn’t want to be rich?”

Meng Chao ignored her. He directly entered the password and unlocked the memory chip. As expected, he found a folder inside. It was filled with photos of the Red Creek Project that she had just taken, especially the photos around the crystal warehouse.

Due to the high wind and heavy rain that night, Ai Lei had hidden in the dark, not daring to get too close to take photos.

Most of the buildings and facilities in the photos were very blurry.

The crystal warehouse was like a giant black beast crouching in the valley. At first glance, there seemed to be nothing unusual.

Meng Chao was very patient. He flipped through the photos one by one, not missing a single pixel.

From the pictures' perspective, he could see that Ai Lei was getting closer and closer to the tunnel behind the crystal warehouse.

She was also getting closer and closer to danger.

Sure enough, when he got to the seventeenth picture, Meng Chao found a few black dots that had almost merged with the darkness in the upper left corner of the picture.

From the distinct outlines of their horns, they were orcs, or in other words, members of the Blood Alliance, who were pretending to be orcs!

Meng Chao glanced at Ai Lei.

He found that her expression didn't change at all.

It seemed that she still didn't know what she had captured by accident.

Of course, even if she had captured the real orcs, it wouldn't be a big deal.

Through eavesdropping on the conversation between the miners and the guards, Meng Chao knew that the armed personnel of the nine Super Enterprises had already had many fierce conflicts with the rat people who used to live in this area.

The people of Dragon City were no strangers to the orcs.

In the case of "Conclusive evidence, "it was not important whether the orcs were captured or not.

But what if what ai lei captured was not the orcs?

Meng Chao narrowed his eyes. A few thin halos of light appeared around his pupils, which were constantly zooming in and out. He scanned the photos back and forth.

Soon, he found traces of the "Orcs" in the corners of the three photos.

Unfortunately, the photos were blurred. It was hard to see their real faces just by looking at their silhouettes.

It could only be said that the positions of the black dots in the photos seemed to be too professional and well-trained. It was too human-like.

It didn't matter. As long as the photos were sent to the technical department and scanned and rendered layer by layer using image enhancement technology, they should be able to capture more details, such as the bulging backpack, the crystal bombs that the orcs would never make, and so on.

If they wanted to make the warehouse, which was seriously lacking in crystal ore reserves, explode with such a magnificent sound and photoelectric effect, the members of the Blood Union wouldn't sneak in empty-handed.

"This is it."

Meng Chao pulled out the memory chip and held it firmly in his palm.

Once again, he was glad that he had saved Ai Lei.

Otherwise, once the Blood Union people know that there is such a close-by witness, and her identity is still a reporter.

They're gonna do whatever it takes to keep Allie quiet.

And it could kill a lot of the general staff at Universal who are guarding Alai.

This is also the reason why Meng Chao staged a thrilling car chase with great fanfare.

He had to send a very clear signal to the members of the Blood Union that Ai Lei had been rescued. What happened next had nothing to do with Universal Group. At least, it had nothing to do with those ordinary employees who knew nothing about Universal Group.

"So, which faction are you from exactly?"

Meng Chao's gaze focused on Ai Lei's face again. "Who sent you here?"

Ai Lei saw that the exclusive photos that she had painstakingly taken had all fallen into Meng Chao's hands, but she did not dare to fight for them. As if resigned to her fate, she said honestly, "No one sent me here. I'm a Lone Wolf."

Meng Chao was stunned. "What do you mean by 'Lone Wolf'?"

"It means that you work for yourself. You Don't have to obey any orders, nor are you at the mercy of any forces. You just do your best to pursue truth and Justice!"

At this point, Ai Lei puffed up her chest again, and her eyes shone with stubbornness and pride, "Senior, I'm not lying to you. These photos can also be used as evidence. I'm really a reporter. I received insider information and came to Red Creek Valley to investigate the secret of Huanyu Group!"

"Is that so?"

Meng Chao said, "Then you said that your dream is to become the richest woman in Dragon City?"

"That's not contradictory!"

Ai Lei said righteously, "I believe that all the citizens of Dragon City Need Truth and justice. As long as I work hard to dig out the truth and expose the shocking news, so that all the citizens of Dragon City know

that 'Ai Lei' is a female hero who dares to challenge a colossus that can blot out the sky by herself, someone will definitely be willing to pay for my courage.

"When the time comes, all the citizens of Dragon City will get the truth and justice, and I will get money and honor. Isn't this killing two birds with one stone?"

"That makes sense."

Meng Chao said, "Then, what channels do you usually use to publish your reports?"

"In order to maintain the spirit of fairness, neutrality, integrity, never going along with the trend and pursuing the truth and justice to the end, I rarely cooperate with traditional large-scale media groups. Even 'The Light of Dragon City', which is a big business, is inextricably linked to all aspects. It's always inconvenient to conduct interviews and reports."

Ai Lei said, "On the Internet, I have a multi-platform news studio called 'Wind Catcher'. It specializes in reporting cutting-edge information in the circle of extraordinary people in Dragon City, analyzing the first-hand news of the recent cultivation world, and exposing all kinds of unjust and undisclosed insider information. Of course, it will also carry out direct comments and thorough analysis.

"My studio is called 'wind catcher'. Among the news-related media on many platforms, the number of users and traffic are among the best. I have created many explosive news articles, and the total number of fans I have is in the millions. Everyone believes that I will be able to dig out the truth that the major media can not, or that they are unwilling, afraid, and can not disclose.

"I, on the other hand, am full of the trust and expectation of millions of supporters. That's why I have the courage to fight those behemoths to the end!"

Meng Chao ignored the bragging at the end.

He searched for the name "Wind catcher" in his memory.

It was really strange. Logically speaking, he had been away from Dragon City for a whole year.

Even when he was in Dragon City, he had to cultivate, participate in the activities of the martial god Temple, the remnant star association, and the Blue Homeland, control the strategic direction of the Super Star Group, and go to the Relic Research Institute to explore the mysteries of the Archean relics, he also had to help the Bureau of Investigation of Exotic Beasts to fight small monsters. He was so busy that he couldn't wait to spend forty-eight hours a day.

He certainly didn't have the time and energy to pay attention to such a so-called 'News Studio'.

But why did the name 'wind catcher' sound so familiar that it made his teeth itch?

Suddenly, Meng Chao remembered!

His pupils constricted into two needle tips as he stared at Ai Lei.

"So, you are the 'wind catcher'?"

Meng Chao mumbled, "I remember that your media account wrote an article called 'Nightmare of Love'. It was about Meng Chao and Lu Siya in the depths of the jungle where monsters ran rampant. Because

of the strange poison in their bodies, they went crazy and lost control of their minds. They couldn't control themselves and finally broke through the last barrier and bottom line between their close comrades. It was like a volcano erupting, with hot streams surging out, or a flood flooding in. It was unstoppable

"That's right. It turns out that senior has read the press release I wrote. Could it be that senior is also a reader of the 'wind catcher'?"

Ai Lei was both surprised and delighted.

'Nightmare of Love' was indeed her famous work.

She had also relied on this press release, which was full of sweat, lively, and real, to create an explosive amount of money and accumulate a large number of loyal readers, it was only then that she gradually started to create the "Wind catcher" from a media account.

"... I've read it."

Meng Chao took a deep breath, "Including the sequel you wrote, Meng Chao and Lu Siya. Because of their different backgrounds and ideals, and because they were obstructed by the Lu family, an intense conflict erupted between the two of them. Meng Chao had a new lover, and Lu Siya got drunk in the middle of the night. I've read all the series of stories."

"Aiya, so senior is really my loyal reader!"

Ai Lei was extremely excited, "Then you must have read the final report of the series of 'Nightmare of Love'— after Meng Chao's unfortunate death, LÜ Siya suddenly realized how deep her feelings for Meng Chao had become. She was determined to inherit Meng Chao's will and never marry. As the 'Bride of Dragon City', she would replace Meng Chao and fight for Dragon City Forever?"

Meng Chao said, "I've been busy recently, so I haven't had the chance to read this one yet."

"Then you must go and take a look."

Ai lei said, "It's not that I'm putting myself on a pedestal, but in order to write this press release, I've really put in all my effort. It can be considered to be the most perfect ending to the 'Nightmare of Love' series."

"Alright, I'll definitely read the masterpiece when I have time."

Meng Chao said, "However, I have a question. Can the things you've written really be considered a 'press release'?"

"Of course!"

Ai Lei said, "I understand what senior means. For those of us who work in the media, when we write a press release, our wording and style of writing are often bolder and livelier than those in traditional media. They don't look that serious.

"However, this is only to consider the acceptability of the readers. It doesn't mean that the authenticity of our news will be compromised at all!"

“Is that so?”

Meng Chao looked at her. “So, ‘Nightmare of Love’ is about the truth. When Meng Chao and Lu Siya were rolling around in the remote jungle of monsters, were you hiding in the bushes next to them

“Well, the source of our information is a trade secret. Besides, we are responsible for the safety of the informants. It’s impossible for us to reveal their identities.”

“That’s right,” Ai Lei said. “I can only guarantee it with my personality, reputation, and professional ethics as a media person. Every word I write is based on evidence and represents truth and justice.

“If I’m making things up, why don’t Meng Chao, Lu Siya, the remnant star association, and the Superstar Group come to the ‘wind catcher’ and sue me for violating their reputation?”

Chapter 1475 Wind Catcher

Ai Lei’s eyes were open. Her expression was firm, her tone was forceful, and her chest was held high.

If Meng Chao had not been involved, he would have believed her.

Meng Chao closed his eyes and rubbed the bridge of his nose. He was too lazy to talk to this woman who had no integrity, credibility, or professional ethics.

He carefully searched his memory for information related to the “Wind Catcher.”

Thanks to the article “Nightmarish Love,” Meng Chao had a good understanding of this self-media’s situation.

If gossip was also considered news, then Ai Lei was a dedicated “journalist.”

Her reporting style, just like the name “Wind Catcher,” had always been known for making up stories, adding fuel to fire, sensationalizing things, and having no bottom line.

The contents of her reports were often based on various unknown “truths, secret history, and inside information” on the circle of superhumans, especially dirty gossip about what was in their pants.

Such things as the change in the love of a veteran powerhouse, gossip about a rising star, the stories of superheroes and seventy-two female confidants that had to be told, and so on. Every time people saw the person involved, their lungs would explode with anger.

The problem was that many users would fall for such a trick.

The more shocking the words were, the more attention and traffic they would attract. They would make a lot of money for themselves and the platform, and they would be pampered and protected by the platform.

And the extraordinaires, because of their identity, could not really get involved with a stinky fish like the “Wind catcher.”

For example, would Meng Chao and Lu Siya sue the “Wind catcher” for violating their reputation rights because of the article “Nightmare of Love”?

This kind of Bullsh \* t lawsuit took a long time, but on the other hand, the truth was not clear at all.

Even if it was clear in the end, what was the point of having the 'wind catcher' apologize in public?

The traffic of the other party had increased tenfold because of the lawsuit, but Meng Chao's side was still covered in mud. How could he wash it clean!

Speaking of which, it was now the era of the eyeball economy. There were all kinds of media, and there were countless so-called "Journalists" who specialized in the third way. No matter how exaggerated the story was, they didn't even need to blink, they could make up a hundred and eighty articles without repeating themselves.

It was a cliché to say that Meng Chao and Lu Siya were dating. Meng Chao remembered that there was another article that said that he was the illegitimate son of the "Martial God" Lei Zongchao and had the support of the entire martial god temple's abundant resources, his leveling speed was only so fast, including the word "Chao" in Meng Chao's name. It was all in memory of Lei Zongchao. What the F\* ck was going on?!

Under such intense competition, Ai lei's "Wind catcher" was still able to carve out a bloody path in the smelly puddle of gossip, leaving a deep impression on Meng Chao.

He had to admit that this woman was also a talent.

Millions of fans, on Earth, were certainly not enough.

But don't forget, Dragon City only had a total of tens of millions of people.

It was equivalent to 10% of the citizens, all of whom were readers of Ai lei.

Even if the data was flooded, judging from the number of comments and content below Meng Chao's series of reports on "Wind catcher", this woman's influence among the gossipy ordinary citizens was also quite astonishing, in the jargon, it was "Extremely high user activity and extremely sticky".

Moreover, Meng Chao believed that in order to run such a low-class "News Studio", Ai Lei could have no character, credibility, and integrity.

But she must have a large amount of inside information and the channels through which she could get inside information.

She must have a lot of friends and informants among the various sects and schools.

If Meng Chao didn't intend to reveal his identity for the time being and asked for help from any force.

Such a character seemed to have her uses,

too?

"I remember that you're mainly in the field of emotional information. Aren't you doing quite well?"

At this point, Meng Chao's gaze returned to Ai lei. "How did you change your style and go outside the monster mountain range to dig up the secrets of the Universal Group?"

"Senior, you don't know?"

Ai Lei was a little surprised, and her eyes flashed. "There seems to be no reason for senior not to know. Nowadays, all the major platforms in Dragon City don't allow discussion of emotional topics involving extraordinaires, especially senior powerhouses!"

Meng Chao knew that Ai Lei's sense of smell was very sharp.

There must be some sort of flaw in his question.

But he could not care much about it and could only continue asking, "Why?"

"Because most girls want to marry extraordinaires. Even if they don't have a status, as long as they can get the extraordinaire's favor, it's good enough. If they really can't find an extraordinaire, they would rather not get married and spend their time and energy on family life on their own cultivation. This makes ordinary people unable to find a wife and spend their days in low spirits, Grumbling."

Ai lei said, "Under such circumstances, do you think it's appropriate for us to continue reporting on how wonderful the love lives of extraordinaires are, and how beautiful the women around us are, constantly stimulating ordinary people?"

"The major platforms are under pressure and have locked down the flow of the extraordinaires' love topics. I have no choice but to start from scratch."

"I see."

Meng Chao continued to ask, "However, isn't it a little too dangerous for you to dig deep into the secrets of the Universal Corporation?"

"If it's not dangerous, how are we going to earn money?"

Ai lei said, "There's no point in messing around. If we want to do it, we have to do it with a big shot like the Universal Corporation. If I really manage to pull this off, we will become famous overnight and have financial freedom. We can even retire!"

Meng Chao could not help but laugh. He asked again, "You're so stubborn. Aren't you afraid of Death?"

This time, Ai lei gave a different answer than truth and justice. "Yes, of course I'm afraid. But if I'm not killed by Universal Corporation, I'll die of poverty."

"Rather than die of poverty, I'd rather be killed by someone else."

"After all, dying of poverty is a lifelong thing. Killing someone is just a matter of time"

"Are you really that short of money?"

Meng Chao was doubtful. "I remember that your 'wind catcher' has made quite a name for himself. You must have earned quite a lot in the past two years, right?"

"Senior, you are not from our circle. You Don't know how fierce our competition is and how hard it is to earn money."

Ai lei sighed bitterly, "In our business, we make a lot of money at a loss. Most of our income is used to buy traffic even before it is warmed up in our arms. If you don't buy traffic for three days, all the users will run away. No matter what you write, no dog will read what you write!

"In addition, I'm different from my peers. I have character, credibility, and professional ethics. Even if it's the most common gossip, my peers are just doing it behind closed doors and talking nonsense. I will pay for my own expenses and conduct an investigation. I will clarify all the clues and details around the parties involved and try my best to write good articles that are reasonable, flesh and blood, shocking people, and other organs!

"As the saying goes, 'The Devil is in the details'. and the details are all polished with real gold and silver!

"More than half a year ago, in order to let the 'wind catcher' rise to the next level and allow the number of his fans to surpass ten million and become a real head, I almost went bankrupt and obtained a batch of very exciting and authentic insider news.

"Just as I was about to release a few shocking pieces of news, shocking bad news came. The major platforms joined hands and locked down the topic of extraordinary people's emotions. This batch of insider news of mine was all thrown into my hands and was not worth a single cent.

"Up until now, I still owe a huge debt. If I don't take a gamble, how can I make a comeback?"

"Then you really deserve it!"

Meng Chao sighed and said, "I really want to believe your words, but there's another crucial point that I can't figure out no matter how hard I try.

"Just now, director Wang of the Universal Corporation said that the general manager of the Universal Corporation's project stationed at Red Creek Creek Valley, Shen Yulin, accepted your exclusive interview?"

"Yes."

Ai lei nodded and pointed at Meng Chao's palm. "This memory chip contains my interview recording. Senior, if you don't believe me, you can listen to it and see if it's Shen Yulin's voice."

"I believe you."

Meng Chao said, "I just don't understand. Huanyu group should have a very well-established interview system. At Shen Yulin's level, no matter which media outlet he accepts an interview with, he will investigate the other party's background clearly in advance. Even the interview content will be communicated in advance to ensure that it conforms to Huanyu group's caliber.

"The light of Dragon City is an old large-scale media group

"It must be working closely with Huanyu Group.

"Their brains might even be eating and drinking at the same table.

"How can you approach Shen Yulin by pretending to be a person from the light of Dragon City with a fake press card?"

Ai Lei was silent.

Her eyes rolled over and over again.

“You’re a smart person. You should be able to understand the current situation.”

Meng Chao said, “Even if you’re not afraid of death and are only afraid of being poor, the Huanyu Group is also a large company that abides by the law. It’s impossible for them to do such a thing.”

“But based on the fact that you impersonated a reporter from ‘light of Dragon City’, the legal department of the Huanyu Group and the legal department of ‘Light of Dragon City’ have joined forces to wipe you out within the industry. It’s easier than crushing a bug.”

Ai Lei’s face was pale.

Meng Chao’s words clearly hit her right where it hurt.

Her expression was even uglier than when she had fallen from the 100-meter cliff.

“Yes, it’s the informant.”

Ai Lei closed her eyes and gritted her teeth. “The informant helped me get an interview with Shen Yulin. According to the informant, I don’t have to worry about anything. I just need to test Shen Yulin.”

“So, this informant is the key!”

Meng Chao’s gaze was as sharp as lightning.

He asked ai lei a few more questions.

He gradually figured out the timeline of several events that happened on this stormy night.

First, Ai Lei pretended to be a reporter from the light of Dragon City to interview Shen Yulin.

Not long after, Shen Yulin contacted his superior in the Blood Union.

Then, he appeared by accident and interfered with the blood union’s operation, causing Shen Yulin’s identity to be exposed.

The Blood Union had no choice but to activate the backup plan.

Of course, it could also be that the blood union was prepared to blow up the crystal warehouse from the beginning and only hid it from Shen Yulin.

No matter what, Ai Lei’s interview must have touched Shen Yulin’s sensitive nerve.

Even if it was not the direct cause of the Blood League’s desperation.

At least, it was the fuse and catalyst!

Chapter 1476 Money or Death

“Who’s the informant?”

Meng Chao’s mind raced.

Since the informant was familiar with the Red Creek Project's inside story and was so resourceful, Ai Lei, who was pretending to be a reporter from The Dragon City Light, came to Shen Yulin and gave him an exclusive interview.

He had to be an insider of Universe Corporation or even a core member of the Shen family.

As for the purpose of inviting Ai Lei to investigate the Red Creek Project, it was not difficult to guess. It was nothing more than a game of intrigue, power struggle, and uneven distribution of the spoils.

Meng Chao estimated that the informant was coveting the "juicy meat" of the Red Creek Project and was jealous of Shen Yulin's dog-shit luck. He also knew that Shen Yulin had violated the rules and secretly delivered crystals to the Shen family's bigwigs.

Therefore, he wanted to use the scandal to bring Shen Yulin down.

However, the informant never expected that, firstly, there would be a huge difference between the actual and expected reserves of the Red Creek Project. It was not "juicy meat" at all, but a hot potato filled with barbs.

Secondly, not only had Shen Yulin violated the rules and secretly transported crystals to the Shen family behind the backs of the other shareholders and the Supernatural Tower, but he had also been bold enough to provide a large number of cultivation resources to the Blood Alliance!

It was just as Shen Yulin said. If every mining group and private mining team in Dragon City were to report every crystal mined to the Supernatural Tower and pay a full amount of resources tax, then only using the crystals for cultivation after obtaining approval from the Supernatural Tower, the sun would probably rise from the west!

### **reso**

As long as one did not go too far, it was considered an unspoken rule within the industry. It had to be rectified, but as long as it did not run into a gun.., the problem was not as big as he had imagined. There was no need for Shen Yulin to take the risk.

But now, not only did Shen Yulin have a ghost in his heart, he was a ghost himself, a ghost from the Blood Union!

In this way, not only would the blood union be forced, they could only use the most intense means to clean up the mess.

Ai Lei and this informant had also placed themselves in an extremely dangerous situation.

The Blood Union would definitely do everything they could to find out their identities, find them, interrogate them, and silence them.

In other words, if Super Meng could find this informant earlier than the blood union, it was possible that he would be waiting for the opportunity to grab the blood union's tail again!

"Who is the informant?"

Super Meng's gaze was like lightning as he stared at Ai lei.

“I, I don’t know. I don’t know the informant at all.”

Ai Lei also smelled danger from Meng Chao’s expression. She quickly shook her head.

“You don’t know the informant, yet the other party dares to entrust such an important matter like investigating the universal group to You?”

Meng Chao gave a faint smile.

“This, I feel that it must be because of my professionalism and professional ethics that I have a good reputation within the industry, right?”

Ai Lei Thought for a moment and said, “If a large media group like ‘Light of Dragon City’ were to investigate this matter, their internal personnel would definitely have countless connections with the universal group. It would be very easy to alert them. “A smaller media group or a lone wolf like me often don’t have the ability and courage to investigate.

“I’m the only one who has the determination to stick to the truth and justice in the face of such a colossus as the Universal Corporation.

“It’s probably because of this that the informant came to me.”

Meng Chao narrowed his eyes.

By reading the micro-expressions, he realized that Ai lei was not lying.

If he thought about it carefully, if the informant was only fighting for power and benefits and did not want to open the lid and expose the unspoken rules in the crystal mining circle to the public, he would have been the one who had the courage to do so.

It was indeed the best choice to look for a self-media person like ai lei, who had a certain amount of ability and traffic that could stimulate Shen Yuling’s nerves without blowing the matter up. or even if ai lei wanted to blow the matter up, the other party would have a hundred ways to put out the fire, it was indeed the best choice.

“How did the informant find you?”

Meng Chao continued to ask.

“Through a friend. Well, it’s not really a friend. We’re not that close.”

Ai lei said, “It’s through a broker. The informant didn’t show up during the whole process. He passed on the information and requests through this broker.”

“Then you should know this broker.”

Meng Chao said, “Tell me his name.”

“I can’t say that.”

Ai lei put on a bitter face. “There are rules in the industry. In our line of work, we often have to rely on these informants and brokers to provide information, pull in business, and gather intelligence, and their identities are often very sensitive.

“Selling out the informants and brokers is equivalent to ruining my job. If I dare say the name of the broker today, I will be completely disgraced in the circle tomorrow. No one will give me any more information. No one will help me contact any other business. Then, I won’t be able to survive at all

“It seems that you haven’t figured out the seriousness of the problem yet.”

Meng Chao said, “Do you think that the explosion of the crystal warehouse was really an accident?

“Today, these people dared to cause the explosion of the Crystal Warehouse, and the Orcs were also involved. Do you think that they will dare to kill you, the broker, and the informant without even blinking tomorrow?

“You are already at the end of your life, yet you are still pondering whether or not you can survive in the industry

“I know, I know, but... But...”

Ai lei was frowning and scratching her ears and cheeks. After hesitating for a long time, she checked Meng Chao’s expression and carefully said, “I’m not saying that I’m really not afraid of death. If you really want to know, I’m not either. I definitely can’t tell you the name of the broker.

“However, I hope that you understand that selling out the broker is really, really, really against my professionalism and my professional ethics. So, can you, can you...”

“Can what?”

Meng Chao frowned deeply.

“Can you give me a little more money?”

Ai lei rubbed her fingers and made a gesture of “Give me more money”.

Meng Chao was shocked.

He had never seen such a woman who was so desperate for money.

“I know. It must be very difficult for you to understand. You might even look down on people like me.”

Ai lei pretended to be pitiful again, “After all, Senior’s strength is unparalleled. The resources that you retrieved with just a casual attack are astronomical. I’m afraid that you have never been troubled by money in your entire life. How can you understand the hardships of us remnant star transcendents and ordinary people?

“You see, I’ve been injured before. I was bitten by the ‘intentionless spider’. The poison has penetrated deep into my bones and is completely incurable. Up until now, every time there is a continuous rain, my spiritual vein will feel a dull pain. Not only can I not cultivate to a higher level, but I also have to inject gene drugs every day to ensure that my extremely weak extraordinary strength will not be completely annihilated.

“Right now, the prices of all kinds of crystal resources are changing day by day, and they are rising rapidly.

“Without money, I’m really living a life worse than death.

“Also, also, I can’t only think about myself. I have to think about my broker friend. I have to spend a lot of money to appease his anger and pry open his mouth, right?”

Meng Chao snorted coldly.

“Of course. I believe that you have ten thousand ways to pry my broker friend’s mouth open without spending money. But there is one thing that I don’t know if you have considered.”

“Yes, “ai lei said. “The explosion of the crystal warehouse of the Red Creek Creek Creek project is something that can not be hidden no matter what. I’m afraid that the relevant news has already spread all over Dragon City.

“As a broker, of course, he is the most well-informed local snake.

“Do you think that my broker friend will still show his face foolishly when he hears that the crystal warehouse here exploded ‘inexplicably’ on the day I came to investigate the Red Creek Project?”

Meng Chao was slightly dazed.

Ai Lei’s words made sense.

If he were the broker, he would have sensed the danger the moment he received the news. He would have guessed that the explosion of the Crystal Warehouse of the Red Creek project was not as simple as an ‘accident’.

‘I’ had been dragged into an extremely dangerous swirl by accident. It was a routine operation to find a place to hide for half a month to check the situation.

Any broker who did not understand the logic would not have lived to this day.

“Please believe me, senior. I really do not know where the friend of the broker is hiding right now. I believe that he must have cut off all contact with the outside world, or at least with a big trouble like me.”

Ai lei said, “It’s not difficult to find him. Just throw money at him. As long as the money is in place, all sorts of people will know where he’s hiding.

“This is the simplest way.

“I think it’s also the most acceptable method for senior.

“After all, when you’ve cultivated to Senior’s realm, you must regard money as dirt. In your eyes, money is not a problem at all, right?”

Meng Chao felt his teeth ache.

Ai Lei was right. Generally speaking, for a godly state expert, a problem that could be solved with money wasn’t a problem at all.

In other words, without money, it was impossible to cultivate to the godly state.

However, Meng Chao's situation was quite special.

For the time being, he didn't want to expose his identity.

He didn't know who could be trusted in the circle of extraordinary people in Dragon City. who could possibly be a member of the Blood Union like Shen Yulin.

He didn't want to get involved in this extremely dangerous whirlpool for those who he could absolutely trust, such as his father, mother, and little sister. He even didn't want to contact his family for the time being, he didn't want the enemy to find out that he was still alive and use his family to threaten him.

When he left red gold city, "Jackal"kanus prepared a batch of rare treasures of the Tulan civilization for him.

This included the materials for totem beasts that had been processed by the Witch Doctor's Secret Medicine for over a thousand years.

There were also divine weapons that had fused with spirit magnets.

These were all priceless treasures.

The problem was that these treasures were too eye-catching

It was impossible for Meng Chao to find a random market for monster materials and trade these exotic-style treasures that came from Tulan Ze.

That would definitely arouse the vigilance of the blood union.

"Eh?"

His expression stunned ai lei for a while, and then she asked in disbelief, "Senior, you... you don't have money, right?"

Chapter 1477 Dragon City!

Meng Chao coughed dryly.

A dangerous light blossomed in his eyes.

However, Ai Lei had already completely recovered from the fear of falling off the cliff.

Perhaps she had also figured out that it was better to die of poverty than fall to her death. There was no way out for her. This mysterious peerless expert in front of her was her last hope!

"No, there's no reason. For a top-notch expert like this senior to casually make a move, how could he not be able to get a mountain of gold and silver? How could he be short of money?" Ai Lei muttered to herself.

The light in her eyes grew brighter and brighter. "However, thinking about it carefully, this senior's appearance is indeed quite strange. Logically speaking, with his strength, there must be a powerful and wealthy organization behind him. He has thousands of troops under him, ready to serve him at any time. How could they let him personally take action to deal with these useless men from Universe Corporation?"

“Could it be... Could it be that this senior has encountered some difficulties?”

This woman’s sense of smell was really sharp.

The more she analyzed, the more excited she became. As if she had made up her mind, she suddenly punched her fist. “It’s Alright, Senior. No matter what difficulties you encounter, Ai Lei will be able to help you solve them. I’ll be at your service!”

Meng Chao snorted coldly. “I need you to ‘solve the problems’?”

“In terms of combat ability, of course, I can’t even compare to one of senior’s little fingers.”

Ai lei giggled, “However, if senior wants to find someone to get some information and spread some rumors to contact the major organizations, but doesn’t want to show up in public, these are all within my scope of business. I guarantee that I can help senior do it beautifully!”

Meng Chao pondered. If he didn’t want to expose his identity for the time being...

He wouldn’t be able to use any of the channels he had in the past.

Although ai lei’s professional ethics was very questionable...

He couldn’t find a more suitable candidate in a short period of time.

Besides, Ai Lei had long been involved in the whirlpool. The Blood Union would find her sooner or later.

Meng Chao couldn’t just watch the blood union kill one innocent person after another.

He could even use Ai lei to lure out the new blood union members.

Thinking of this, he said to Ai lei, “I have a batch of natural treasures. Can you help me find a suitable buyer?” “Natural Treasures?”

Ai Lei’s eyes lit up as her imagination ran wild.

“I had some grudges with some people from the universal group.”

Meng Chao satisfied her curiosity. “When we were settling the grudges, I was seriously injured and was knocked off the cliff by the other party. I was lucky to survive and fell into a blessed land with abundant spiritual energy.

“It was a blessing in disguise. I had been cultivating in seclusion for a long time in the blessed land, and I just came out of seclusion. I’m not well-informed, and I don’t know anything about the recent changes in Dragon City. I do need a guide.

“The heavenly materials and earthly treasures that I brought out from the blessed land are very special in shape. It’s easy for people to trace them back to me.

“For the time being, I don’t want to be exposed, lest I arouse the vigilance of my enemy.

“Therefore, I hope to find a reliable buyer. The price is not a problem. The key is to keep my mouth shut and never reveal the details of the deal

“I see!”

Ai Lei's eyes rolled over and over again.

She racked her brain crazily, and a series of eighty episodes, which involved family, money, beauty, ethics, betrayal, and revenge, had been generated in her mind automatically.

Meng Chao was not afraid of her imagination, either.

For Super Enterprises like Universal Group and Atlas Group, which had made their fortune by exploiting crystals, it was impossible for Meng Chao to be afraid of Meng Chao's imagination.

The conflicts over the crystal veins were extremely complicated. Who did not have a hundred and eighty enemies? They were too embarrassed to greet their peers.

Based on the ambiguous information, Ai lei could not confirm whether it was true or not, let alone connect it to his real identity.

"Yes!"

As expected, Ai Lei did not doubt it at all, at least on the surface.

She nodded heavily. "I know some very reliable buyers. As long as the goods are genuine, they will definitely not care about the price or the origin of the heavenly materials and Earthly Treasures!"

"Very good." Meng Chao stared at Ai Lei. "As long as you have money, you will be able to find that broker friend and find the informant through Him?"

"I Promise!"

Ai lei nodded again. "As long as you have money, there is nothing that I, Ai Lei, can not do

"If you want me to believe you –"

Meng Chao said, "Then help us think of a way to return to Dragon City with a fake name and identity!"

The two of them wandered around the mining area until dawn.

They had never heard of any other accidents besides the explosion of the Crystal Warehouse in the Red Creek Creek project.

Meng Chao couldn't find any suspicious-looking guys either.

It seemed that the blood union had achieved their tactical goals and was once again in the dark.

Indeed, the explosion of the crystal warehouse alone was enough to arouse the anxiety and hatred of the people of Dragon City.

Apart from the Red Creek project, Meng Chao heard people talking about the threat of the orcs in several crystal mines.

There were also people who couldn't wait for a brand new war.

As the sky became brighter, the torrential rain that had been raging for the whole night finally turned into drops of water.

The raging flood gradually receded, revealing the broken walls that had been soaked in the mountain torrents and mud for the whole night.

The order of the mining area was still not restored, and there were chaotic crowds everywhere.

Many survivors were so frightened that they temporarily lost the ability to move or even speak.

There were also many people who had been washed away by the flood and lacked something to prove their identity.

Under such circumstances, Meng Chao and Ai Lei easily obtained dozens of work cards and identification cards, as well as seven or eight sets of various types of work clothes that were similar to their bodies.

Due to the need of work, Ai Lei herself was an expert in disguising herself.

However, Meng Chao's skill in changing his appearance made her even more flabbergasted, exclaiming that it was inconceivable.

Dragon City's identity identification system was very crude. Up until now, there was still no city-wide internet-connected identity database.

On one hand, because dragon city's spiritual and magnetic environment was very complicated, the wireless network was often disturbed by spiritual storms, and the cable was often broken because of monsters gnawing on it.

Although humans claimed to have won the monster war, those enormous apocalyptic beasts that could destroy the world were indeed suppressed by human will, sabers, steel guns, iron fists, tracks, and train cannons.

However, insect-type monsters and rodent-type monsters that were extremely small and had high reproductive ability were another matter.

Things such as mutated cockroaches and Spiritualized rats, even if the Red Dragon Army and all the extraordinaires were mobilized to carry out numerous sweeping operations in the city, they would never be eliminated.

On the other hand, the main enemies of humans in the past were either zombies or monsters.

Whether they were zombies or monsters, their appearances were very different from normal people. They could be seen at a glance without using the identification system.

Therefore, with these dozens of badges and identification cards found in the ruins, Meng Chao and Ai Lei, who had changed their appearances, could stay low-key in Dragon City for a long time.

At around 10 a.m. , the airspace above the mining area became calm, meeting the requirements of restarting the route.

Dozens of armored airships, full of wounded people, set off one after another.

Although each crystal mine had its own medical room.

After all, it was only to prepare for common diseases and common accidents in the mines. The number of medical equipment and medical personnel was quite limited. They could not accommodate thousands of casualties caused by floods and torrential rain.

Therefore, the moment the route was restarted, each crystal mine suspended the task of transporting resources to Dragon City. They gathered all the armored airships and sent the wounded back to the rear.

Meng Chao and Ai Lei were also among them.

As soon as the armored airships were launched, Meng Chao felt the rapid technological development of Dragon City in the past year.

Compared to the armored airships he had seen in Dragon City a few years ago.

After the Monster War, these armored airships had been upgraded and modified. They had smaller airbags, larger pods, lighter frame structure, and a more agile, streamlined, flying fish-like shape.

With the same amount of air filling, Meng Chao estimated that the capacity of the new armored airship could reach at least 150% of the past.

As for the faint vibration coming from below the deck, Meng Chao could also sense that the sixteen crystal engines on both sides and at the rear of the armored airship were operating strongly and stably, the crystal reaction efficiency was also greatly improved compared to the past.

The most direct effect of this improvement was that the climbing speed of the new armored airship was almost twice as fast as before.

The once insurmountable chasm — The Monster Mountain Range that pierced into the sky like a forest of swords and halberds, was now conquered by humans step by step.

Soon, the mountain peak that was once shrouded in mist and unclimbable swept past the feet of humans.

And the progress of Dragon City was not only reflected in the ice-cold machinery.

Meng Chao narrowed his eyes and took a deep breath.

The huge pod was packed full of injured people. All the injured people were smeared with ointment made of crystal powder and monster materials. Meng Chao could smell the refreshing medicinal fragrance, i smell several genetic agents that used to be quite valuable.

It seems that once only extraordinary people can use genetic medicine, now into the thousands of households, even basic miners are eligible to enjoy.

Also, in a corner of the pod, four relatively advanced medical pods were installed.

Meng Chao had only seen similar facilities in the intensive care unit of a large general hospital in the past. Now, they had actually been allocated to a mobile medical station.

“It seems that our efforts have not been in vain.

“Although the doomsday threat has yet to be resolved, Dragon City today is already a hundred times stronger than anything I’ve seen in any Nightmare!”

Meng Chao muttered to himself.

At this moment, a few rays of golden sunlight shone through the porthole and into the pod, stirring up a commotion.

Many survivors who were slightly injured struggled to sit up and leaned against the porthole. No matter how the fierce sunlight dazzled their eyes, they could not take their eyes off the magnificent scene below, then, they exclaimed with mixed feelings:

“Look, Dragon City!

“We’re home!”

Chapter 1478 The New Dragon City

Go home!

For some reason, when Meng Chao heard those words, his heart began to beat rapidly. Even when he was facing the ferocious Apocalyptic Beasts or the unfathomable Egg of Chaos, his heart had never beat so fast.

Looking at the injured people around him, a relieved smile appeared on their faces that were illuminated by the sunlight. Meng Chao also seemed to be affected by their emotions, and the corners of his mouth unwittingly curl up.

He swallowed a mouthful of saliva and suppressed his excitement. He squeezed himself in front of the viewing porthole that protruded out like the eyes of a goldfish, and he looked down at the magnificent land below.

The sky was blue after the rainstorm. Not a single wisp of cloud could obstruct his vision.

His view was instantly drowned by a golden sea.

“This is...”

Meng Chao was greatly shocked.

He had never seen such a beautiful city.

In Meng Chao’s memory, the main melody of Dragon City had always been gray, clumsy, crowded, messy, and bloodstained ruins.

There were reinforced concrete blockhouses and barricades everywhere. There were the sounds of guns and roars of humans and monsters fighting. There were thick smoke, flames, and even mushroom clouds everywhere.

In order to fend off monsters, there were very few high-rise buildings in Dragon City other than the transcendental tower.

Most of the buildings were constructed in the shape of terraced fields and pyramids.

Even if they were hit by apocalyptic beasts, they would not collapse easily.

Similarly, there was no need to even think about the relatively fragile glass curtain walls.

Even the windows and the entrances and exits were usually extremely small. Moreover, there were also mezzanines and steel plates inside the thickened walls to ensure that when they entered combat mode, the steel plates could completely cover the windows, turning the ordinary residential buildings.., into airtight battle fortresses.

This kind of silly and thick black architectural style ensured that the human civilization would stand firm in the decades of bloody battles with the monster civilization.

However, there must be a lot of unreasonable and inhuman aspects to life and living.

With the end of the Monster War, the human desire for a better life suddenly burst out.

In the new dragon city in front of them, a large number of elegant, light, slender, and even strange-shaped high-rise buildings appeared.

And these high-rise buildings were all designed with steel frames and glass curtain walls without exception. The windows were as big as they could be, ensuring that the sunlight could shine on every corner of the buildings and directly shine into the human heart.

Even the old buildings that could not be demolished had their windows and doors enlarged, adding all kinds of humane facilities.

Since it was really impossible to renovate, the exterior of the building was heavily painted. At first glance, it was colorful and full of flowers. It made people feel extremely happy.

This scene made Meng Chao feel very relieved.

With one look, it was obvious that even if the undercurrents were still surging, the main theme of Dragon City today was still positive and full of light.

Otherwise, people would not spend their efforts on beautifying their homes.

At the same time, Meng Chao also saw the landmark building that stood in the middle of the city — the transcendental tower.

In the past, the transcendental tower stood out like a crane among chickens. It was a unique existence.

Now, more tall buildings appeared around the transcendental tower like stars surrounding the moon, forming a brand new central business district. No, it should be the central cultivation district.

Meng Chao roughly calculated the area of Dragon City's main city based on the distance from the transcendental tower to the edge of the steel jungle. In the past year, it had expanded by at least 30%.

This was because he did not have to worry about the invasion of monsters.

The speed at which humans built their homes could be described as 'crazy'.

The continuous increase in the area of the main city meant that ordinary citizens had the opportunity to enjoy a larger living space.

There was no longer a need to curl up in a dark, narrow, dilapidated old neighborhood or even a slum like in the past.

Meng Chao narrowed his eyes and poured his spiritual energy between his retina and his lens. His cone cells instantly became crystal clear.

He activated his extraordinary vision to its limit and looked toward the northwest of the main city.

He could vaguely see that a satellite city had been built in the wild waves mountain range far away from the main city.

The battle in the Wild Waves mountain range was the first battle that Meng Chao had officially participated in.

It was there that he got to know LÜ Siya and was baptized by the Crimson Jade and the mother stone of the Blue Plateau, which laid the foundation for his rapid advancement.

It seemed that the strategic goal of launching the furious wave campaign had been fully realized after a few years.

The wild land where monsters used to run rampant in the past had indeed been built into a brand-new development zone by the humans.

As for the west side, it was the ultimate nest of the monster civilization, the foggy extinction domain.

The humans had occupied that place for a short time. Moreover, the jungle was originally the most unsuitable place for civilization to colonize. For the time being, Meng Chao had yet to see the continuous city skyline.

However, he saw hundreds of densely packed black dots.

It should be hundreds of armored airships gathering in the sky above the hidden fog region. It seemed that the development of the hidden fog region by the humans was also proceeding in an orderly manner.

As the armored airships they were on got closer and closer to the city, and their altitude gradually decreased, Meng Chao noticed even more interesting details.

The first thing was the colorful, shining neon lights.

They covered almost every building in the city.

Even in broad daylight, they shone dazzlingly.

It was as if human beings had developed a serious rebellious mentality towards the monotonous, dull, and depressing life of the past few decades. Whenever they had the chance, they wanted to release all the colors of life.

There were also all kinds of advertisements played on the huge display screen that occupied the entire glass wall.

It wasn't that Dragon City didn't have similar super-huge display screen technology in the past.

However, because the glass wall and super-huge display screen were too fragile, they were easily damaged by monsters.

And the overly gorgeous acousto-optic and electrical effects would also stimulate the monsters, causing them to become even more violent.

Therefore, the talents of dragon city rarely used such facilities.

Even if they did, it was usually for military purposes, such as broadcasting advertisements of godly state experts to boost morale, or broadcasting the latest information about monster activities, so that all the citizens would be ready to defend and support, and so on and so forth.

But now, Meng Chao roughly calculated that 70% of the advertisements projected on the glass curtain wall were civilian products.

For example, the intelligent toilet that was powered by psionic energy allowed the sphincter muscles of the people on Earth to enjoy the nourishment of spiritual energy.

Very good, very good. This meant that psionic technology had entered every household.

And mankind had gradually gotten rid of the threat of survival and started to meet higher-level needs.

There was also something that surprised Meng Chao.

More than half of the advertisements came from the nine super corporations such as universal and Atlas, needless to say.

And he had also seen the advertisements of his own company, the Super Star Corporation, on many glass walls.

For example, the psionic toilet that allowed all the transmigrators on Earth to step into the era of extraordinariness just now was a product of the Super Star Corporation.

There was also some compound feed that could be used in the monster farming industry to ensure that when the monsters ate it, they would quickly grow bigger and fatter. Moreover, they had a gentle personality and would definitely not hurt or bite people. They were good helpers for the monster farmers of all sizes.

Also, there were heavy traffic between the raging waves mountain range, the hidden fog domain, and the Dragon City District. There was an endless stream of air traffic lines. Most of the armored airships..., of course, they were all painted with the Red Dragon Army's and the nine Super Corporations' logos.

However, Meng Chao also saw several armored airships that were painted with the superstar group's logo.

The latest version of the logo was developed by him and Lu Siya back then.

There were quite a few armored airships with their own logo painted on them. They were large, graceful, and had powerful firepower.

In the past, they would have been qualified to be the flagship of an air escort troop. Three to five years ago, even private cars were something that Meng Chao did not even dare to dream of.

He did not expect that his family would have an armored airship now.

It was truly extravagant!

“It seems that superstar corporation has developed quite well while I’ve been in seclusion!”

Meng Chao Sighed.

He didn’t think that his attention on superstar corporation would arouse Ai Lei’s suspicion.

Ever since the survival committee was established, the nine corporations had always been high and mighty. Very few people could challenge their authority.

It was incredible that Superstar Corporation could rise miraculously in just a few years and have the ability to compete with the nine corporations.

According to Meng Chao’s character, it would be weird if he didn’t click his tongue in amazement.

“Senior, the current leader of the Super Star Corporation is Lu Siya, who was born in the Atlas Corporation.”

Ai Lei was not surprised at all. She replied obediently, “Yes.” “Ms. Lu had amazing abilities and ambitions in the first place. She also seized the opportunity of the era and helped the Super Star Corporation reach a strategic cooperation agreement with the Remnant Star Association, the War God’s temple, the blue homeland, and the Red Dragon Army. She became the spokesperson of these organizations and forces in the business world.

“At the same time, Meng Chao’s death in the fierce battle with the main brain of the monster also allowed him to ascend to godhood in one battle. He received the support of countless ordinary citizens. As for the relationship between Lu Siya and Meng Chao, as I described in ‘Nightmare of love’, it was well-known.

“Therefore, as long as there was room to choose, the citizens were very willing to try the products and services of the Superstar Group.

“Many people believe that the Super Star Corporation is the only corporation that truly belongs to the ordinary citizens. It is an enterprise that belongs to the remnant star transcendents and the middle-level and low-level transcendents. It is unlike the super corporations such as Atlas, Huanyu, and the others, which only belong to the noble cultivation families and the godly state experts

Chapter 1479 It Turned out to Be That Lu Siya?

Meng Chao could hear the hidden meaning in Ai Lei’s words.

It seemed that one year after the end of the Monster War, the ordinary citizens of Dragon City were dissatisfied with the nine mega corporations!

about Lu Siya and Superstar Company anymore.

He was afraid that this woman with a keen sense of smell would see through the clues.

Fortunately, at this time, the armored airship had already landed slowly in the northern suburbs of Dragon City, carrying the injured and survivors. It was a newly built and unfinished airport.

The airport had long been filled with ambulances, and they could send the seriously injured to the hospital with well-equipped facilities.

There were also a large number of field medical vehicles, which formed a mobile medical station to treat the survivors who were less injured and could move on their own.

The Survival Committee was well aware that many of the survivors' communications facilities... had been washed away by the flood, and that overnight torrential rains... had disrupted wireless communications inside and outside Monster Mountain Range. Many of the survivors had yet to contact their family in Dragon City.

Therefore, it was very thoughtful to prepare a mobile communication center that was full of communication terminals for survivors and families to report that they were safe.

Meng Chao did not contact his family.

Instead, he sent Ai Lei away and started the browser and search tools.

Taking a deep breath, he typed the words "Lu Siya" into the search bar.

He could not wait to know what had become of this jungle banshee that had been parasitized by the main brain of the monster after a year?

Without the damage of the monster, the spiritual magnetic environment had also become more stable. The internet speed in Dragon City was much faster than Meng Chao remembered.

As he tapped on the keyboard, hundreds of messages related to Lu Siya immediately popped up in the browser.

Meng Chao sorted them according to the news's popularity and time, checking up on Lu Siya's recent situation.

The first message was that Lu Siya was cutting the ribbon for the newly completed Superstar Corporation's headquarters, a skyscraper near the transcendental tower that was more than eighty-eight stories tall.

At the ribbon-cutting ceremony, Lü Siya publicly announced that the Superstar Corporation was able to miraculously develop from a small harvesting team a few years ago to the present day with the support of all the citizens. They were able to build the headquarters in the central business district near the transcendental tower., .

The Superstar Corporation would always remember that after the headquarters building was officially put into operation, a full ten floors would be set aside for cultivation, medical treatment, and education. It would be open to all the citizens for free, any citizen of Dragon City would be able to experience the most cutting-edge psionic technology here, bringing benefits to all mankind.

The second piece of news was that a few days ago, LÜ Siya donated ten new training pods jointly developed by the Superstar Corporation and the Red Dragon Army to a newly completed welfare school that was specially designed to take in orphans who lost their parents during the Monster Wars.

**wa**

In the news, LÜ Siya, who was holding a chubby little girl in her arms, said that the super star group would bear all the genetic potions needed for the cultivation of these war orphans before they were 16 years old, they would ensure that they had the same rights to awaken their extraordinary powers as the children of wealthy families who came from cultivation families.

As long as the Super Star Group remained standing in Dragon City, this promise would be forever valid.

The third piece of news was that superstar group supported remnant star's extraordinary business and supported a disabled veteran to become a well-known pig-raising king. Meng Chao saw that in the photos related to the news, Lu Siya was wearing denim work clothes, a leather apron, and plastic waterproof boots. She was standing shoulder to shoulder with the old soldier who had scars all over his face and lost an arm, she smiled as she looked at the sword-halberd demon pig raised by the old soldier. The pig had a fat head and big ears, and it looked innocent and harmless.

In the next few photos, Lu Siya was even splashed with mud by the sword-halberd demon pig.

However, she didn't care at all. Instead, she was grinning from ear to ear for the fat body of the sword-halberd demon pig and the road to riches that the disabled star old soldier had found.

**II**

**11**

Meng Chao frowned and kept zooming in the photo, trying to see every strand of Lu Siya's hair clearly.

Compared with the daughter of the Lu family, who was born in a wealthy family in the past and was somewhat arrogant no matter how hard she tried to hide it, the Lu Siya in front of him could be described as 'returning to the simplicity'.

Watching her roll up her sleeves and stir the monster feed developed by the Superstar Corporation together with the disabled star veteran while feeding the sword-halberd demon pig, Meng Chao could not tell that she was born in the largest mining group in Dragon City at all, now, she was in charge of another 'aircraft carrier' that was rushing forward.

She was more like the younger sister of the remnant star veterans, a hardworking, brave, honest, and kind peasant girl.

Although she did not wear any makeup, Meng Chao felt that LÜ Siya had undergone the same process as him, which was the side effect of the erosion of her body by the main brain of the monster.

Her skin became smoother and more delicate, faintly giving off a crystal-clear feeling. It made people subconsciously trust and like her. It was impossible to tell that she was a powerful woman who was several years older than Meng Chao.

Of course, it had nothing to do with the long green hair that Meng Chao had seen with his

ago. It was as if a strange flame was burning, and his eyes were as deep as a whirlpool, as if it wanted to swallow Meng Chao along with his skin and bones, it had nothing to do with it at all.

If it wasn't for the vivid memories of the past.

Meng Chao almost suspected that there was something wrong with his memory.

Lu Siya hadn't been corrupted by the main brain of the monster, nor had she transformed into a forest banshee?

But soon, he found a news interview program.

The content was Lu Siya telling the reporters everything that had happened on the god of Fog Mountain.

In the video, Lu Siya was completely white. Her cheeks were deeply sunken, and her eyes were somewhat dull and hollow. It was as if she was still deeply immersed in the painful memories, unable to extricate herself.

According to what she said, the main brain of the monster was indeed not dead. At least, it was not completely dead.

After all, the traces of the intense battle on the god of Fog Mountain were something that could not be covered up no matter what.

A god-level powerhouse with an extremely sharp sense of smell would be able to see the traces left behind by the main brain of the monster with just a glance.

And it was precisely in order to destroy the final power of the main brain of the monster that Meng Chao was willing to go all out.

That was why he did not hesitate to go berserk and ignite his own body, turning himself into the hottest and most dazzling torch. Together with the possibility of the revival of the monster civilization, they fell into the raging Tiger River and perished together.

wa

As Meng Chao's closest comrade-in-arms, he was also the person that Meng Chao risked his life to save.

Lu Siya must carry on Meng Chao's legacy and lead the Super Star Corporation and even the entire Dragon City to continue moving towards the future, towards a better tomorrow than today!

The popularity of this interview was very high.

From the heated discussion in the comment section below, it could be seen that many ordinary citizens had been sacrificed by Meng Chao's heroic sacrifice, as well as the extremely touching friendship between Meng Chao and Lu Siya's comrades-in-arms. Perhaps there was even a deeper level of affection that surpassed the friendship between comrades-in-arms., they were deeply shocked and moved.

Especially at the end of the interview.

Speaking of the last time she saw Meng Chao...

Tears silently flowed out from the depths of Lu Siya's eyes, which seemed to have dried up.

The corner of her mouth, however, seemed to be filled with the hope of a beautiful tomorrow. It trembled and curled up slightly.

Her superb acting skills left a deep impression in the hearts of countless citizens on this half-sorrowful and half-determined face.

It was also the first time that countless middle-level and low-level extraordinaires from humble families treated Lu Siya, who was born in a wealthy family, as one of their

**own.**

“This woman is too confusing. She is even more difficult to deal with than I imagined!”

Meng Chao closed his eyes and rubbed his nose gently.

It was not surprising that Lu Siya could become the CEO of the Super Star Corporation.

After all, the Super Star Group had grown from a small harvesting team to the present day. It could not compete with the nine corporations without LÜ Siya’s support, and it had even gambled with its life.

It did not matter if it was investing a lot of money to develop the Honghui jade vein.

It did not matter if it was investing a lot of money to develop the Honghui jade vein.

Or regardless of the cost, no return on investment Meng Chao based on “Doomsday Memory’, those now seem to be whimsical long-term projects. As long as Meng Chao opened his mouth, LÜ Siya never refused.

So much so that before you know it, all of Lucia’s assets and lives are in the hands of the Super Star Group.

Shares in her name, and Meng Chao Father and son, was originally one of the Super Star Group’s big bosses.

Now that Meng Chao’s flag of the Super Star Corporation had fallen.

It was reasonable for Lu Siya to step forward and turn the tide at the critical moment.

However, Meng Chao didn’t expect that Lu Siya, who was obviously controlled by the monster mainframe, didn’t change her business strategy and corporate culture after taking control of the Super Star Corporation.

Instead, she carried forward and carried out Meng Chao’s purpose of “Serving all citizens, especially ordinary citizens.”.

At first, Meng Chao thought that when he returned to Dragon City, he would see a female version of the “Doomsday Wolf,” a tyrannical, arrogant, and aggressive female devil!

“No, don’t be fooled by her appearance. LÜ Siya has been corrupted by the main brain of the monster, and the main brain of the monster is most likely the same thing as mother origin, who is hiding in the depths of Tulanze, the egg of chaos as mentioned by the Temple of Holy Light.

“The Blood of Shen Yulin, a member of the Blood Union, has also developed an intense reaction to the hope potion, which is specially designed to counter mother origin. “This proves that the blood union and the egg of chaos are inextricably linked.

“What about Lu Siya?

“What is her relationship with the Blood Union? Is She... the leader of the Blood Union?”

Meng Chao felt complicated.

No matter what Lusiya had become...

At the very least, before she was corrupted by the main brain of the monster, the two of them had been close comrades-in-arms and cultivation partners who had saved each other’s lives many times. Even when her body was deeply corrupted and controlled by the main brain of the monster, her will was still resisting intensely, which gave Meng Chao a chance to escape.

At that time, as long as Lu Siya’s will was slightly relaxed,

Meng Chao wouldn’t have been able to follow the raging Tiger River and drift to Tu Lanze.

He had already been torn to pieces by the main brain of the monster on the god of Fog Mountain.

Therefore, now —

“Just wait, Lu Siya!

“I’ll rip apart all the evil existences that are attached to you, be it the main brain of the monster or the egg of chaos.

“I will save the real you!”

Chapter 1480 Tailless Monkey and Giant-Toothed Crocodile

Meng Chao typed in his father and mother’s names in the search bar again.

Compared with Lu Siya, whose name was known all over the city, his father and mother were undoubtedly much more low-key.

Meng Chao only found a few news articles about their participation in charity events.

Looking at the dates, they were all recent events.

His old folks had a few wrinkles at the corners of their eyes, and they looked good in the photo. There should not be too many changes, except for signs of their own aging.

Meng Chao breathed out a sigh of relief.

He typed in “Bai Jiacao” again.

The reason why he put his little sister at the end was not that he did not care about his little sister.

It was because he was worried that he would find something strange like the “Dark Witch.”

Fortunately, the future had changed, and that nightmare did not happen.

His little sister was still enjoying her university life without any worries. Moreover, she had already displayed her amazing martial arts talent and was gradually making a name for herself.

Meng Chao speculated that the Bai Jiacao in his nightmare was just an ordinary person with no background. Even if she mysteriously disappeared, it would not cause a huge uproar.

In addition, the drastic changes in her family had caused her personality to be extreme. That was why, under the bewitchment of those with ulterior motives, she set foot on the path of a witch.

However, the Bai Jiacao now had her own protective talisman. Her target was too big. If the Blood Alliance wanted to touch her, they would definitely have to weigh the pros and cons. If they were slightly careless, it would be very easy for them to get away with it.

Of course, Meng Chao would not entrust the safety of his family to the mercy of the enemy. Even if it was for the sake of his little sister being able to live in the bright sunlight and never worry, he would do everything he could to remove the thorn of the Blood Union!

Just as he was thinking, a news pop-up popped up in the lower right corner of the browser.

It was broadcasting the series of events that happened outside the monster mountain range last night, such as the torrential rain, the flood, and the explosion of the Crystal Warehouse.

Compared to the thousands of casualties when the Beast Tide attacked and destroyed the entire block.

The casualties caused by the rainstorm, floods, and the explosion of the crystal warehouse last night were almost negligible.

It did not cause too much psychological trauma to the people of Dragon City who had been honed through the flames of war.

The people of Dragon City had long been mentally prepared for the casualties they would have to pay if they wanted to conquer the other world.

However, due to the heavy rain, floods, and even the explosion of the crystal warehouse, the commissioning date of the Red Creek Project and several nearby crystal ore mines had been repeatedly delayed. The mining volume after the official commissioning might not be as high as expected, this explosive news, however, was not stingy in throwing a heavy bomb at the financial market of Dragon City, causing a great uproar.

Affected by the negative news, the composite financial index of Dragon City dropped more than three points in the first half hour of trading

The crystal resources section could only be described as “a river of blood, a terrible sight.”

So many analysts used such terrifying words as “guillotine” when commenting on today’s plummeting trend.

When Meng Chao clicked on the details, he was even more shocked.

It was not because of how severe the one-day decline in the index was.

It was because he discovered that the shares of the nine mega corporations, including Sky Pillar Corporation and Universe Corporation, had actually risen by more than 200%, or even several times, compared to when he left Dragon City more than a year ago.

One had to know that these were not small and small enterprises that could easily turn around.

They were colossals of astonishing size, like nine huge Emperor Mammoths.

In just a short year, it was as if they had been injected with super large doses of hormones and stimulants, or even directly injected with air, and it had inflated by three to five times!

“How... How is this possible?”

“Although the victory of the Monster War was indeed a great benefit.

“However, it is not so easy to perfectly digest and absorb the war dividends.

“Even if they have perfectly inherited the legacy of the monster civilization, the Dragon City civilization still faces problems such as being remote, lacking resources, and limited market capacity. It is completely different from the local customs of different races in the other world, and it is difficult to completely open up the external market in the short term.

“With this restriction, it is already good enough that Dragon City does not have an economic crisis.

“How can the financial market be so hot?

“The market values of the nine super enterprises have all been blown into the sky. The problem is that these behemoths can not always float in the sky.

“The higher the blow now, the harder the fall will be.

“And this rainstorm, flood, and the big explosion that happened at the Red Creek Project are very likely to be the fuse. It is an incomparably sharp steel needle that is enough to burst a bubble!”

Meng Chao kind of understood what Shen Yulin meant by, “Dragon City needs war.”

Indeed, many people have identified the orcs as responsible for the explosion of the Red Creek Project. The activists of Universe Corporation and Sky Pillar Corporation, at the first moment, all issued impassioned declarations, declaring that in order to ensure the safety of the human mining areas, they must strike with a thunderous momentum, launch a special military operation against the orcs.

Due to the positioning of this special military operation is to “protect the mining area”, only the mobilization of corporate arms and the nine families of practice their own extraordinary, without the need to launch the Red Dragon Army.

So, you don't have to get permission from the Survival Council.

Affected by this, in the resources plate fell in Huala at the same time, the military industry plate is rising against the trend, a solo show.

Countless ordinary investors who owned military industry stocks were also excited. They believed that even the apocalyptic beasts that could destroy the world had fallen at the feet of humans. The Little

Orcs were as dirty and weak as rats, they dared to provoke the humans on their own initiative. They were simply courting death!

“Use the iron flood of Dragon City to make those damn beasts accept the baptism of human civilization!”

Yes, in the eyes of these people, the Tulan Orcs were not even human. They were only beasts in human form.

Meng Chao had a headache.

The citizens of Dragon City could not be blamed for being too fanatical.

Without such fanaticism, Dragon City would not have been able to survive the monster wars that had lasted for decades.

Moreover, if the Tulan Orcs were slightly weaker and did not have the ultimate threat of the Holy Light Camp behind them,

Starting a foreign war might also be one of the ways to solve internal problems.

If Meng Chao hadn't had two vivid nightmares related to the end of the world.

Perhaps, in order to survive, he would also become the most radical militant.

Speaking of which, such public opinion didn't make Meng Chao worry about the morale of the dragon city civilization when they needed to go to the land of Holy Light One day.

Meng Chao wanted to browse more information.

Ai Lei's soft footsteps came from behind him.

Meng Chao closed the browser and got up to leave the communication terminal to the survivors who needed it more.

“How is it?”

He asked as he motioned for Ai Lei to sneak out of the medical camp.

“As expected, Tailless Monkey has disappeared.”

Ai Lei's face was full of helplessness. “I've changed several sets of previously agreed contact methods, but none of them succeeded in contacting him. It seems that he was either killed by someone or has gone into hiding in advance.”

Tailless Monkey was Ai Lei's broker friend.

He was also the person who had set up the mysterious informant who was hiding within Universe Corporation, as well as Ai Lei.

It was said that this guy was very well-informed. He was as alert and agile as a monkey and had never been caught by anyone before.

That was how he came to be known as the “Tailless Monkey.” “However, there is one thing that is very strange.”

Ai Lei added, “I found some other friends and asked them about Tailless Monkey. I found out that he did not go missing last night, but the day before yesterday or the day before yesterday. Anyway, nobody has seen Tailless Monkey for at least forty-eight hours.”

“Forty-eight hours?”

Meng Chao was slightly dazed.

Only twelve hours had passed since the explosion of the crystal warehouse of the Red Creek Project.

It had been less than twenty-four hours since Ai lei had interviewed Shen Yulin.

Before that, Tailless Monkey wouldn’t have sensed the danger.

After all, if the tailless monkey had sensed the danger from the beginning, he wouldn’t have needed to introduce such a business deal to Ai Lei and put himself in the treacherous vortex.

“The big explosion in the crystal warehouse was a complete accident. Tailless Monkey couldn’t have foreseen it and hid in advance to avoid the trouble.”

“Therefore, I suspect that Tailless Monkey had provoked someone he shouldn’t have provoked and was either hiding or captured,” Ai Lei said.

“The broker is a high-risk profession. The more famous he is in the business, the more people he will offend. He is often confused and doesn’t even know how to die!

“I heard from Tailless Monkey that not long ago, due to a business dispute, he accidentally offended the black market boss, Giant-toothed Crocodile.

“In fact, in order to raise funds and solve the problem between him and Giant-toothed Crocodile, Tailless Monkey took the risk and asked me to investigate Universe Corporation’s scandal. As long as we can discover the ugly man’s identity, there is no need to expose him to the media. We can directly give him to some people in Universe Corporation or sell him to Sky Pillar Corporation in exchange for real money to solve our urgent problem.

“So it’s very likely that Tailless Monkey has been captured by the crocodile. Even if the black market mogul hasn’t caught Tailless Monkey yet, he must know something.”
