

Passive Skills 181

Chapter 181

Upon hearing the other non-Berserker classes' arguments, the eight Berserkers present grew anxious.

What a joke, this divine weapon mission item indeed did not indicate the profession requirements.

However, with the word "axe blade," it must be something related to an axe.

wasn't that just a berserker's weapon? what did it have to do with other classes?

If all the other classes present were to ROLL for it, there would be a total of 50 people.

What did the Berserkers have to do with this? this was absolutely unacceptable.

alright, stop joking around. Let's roll for the Berserker.

Feng Yun realm stopped the others' bickering and started to roll for the axe blade shard.

windcloud blade and the other berserkers silently prayed and then rolled their dice.

Windcloud blade said dejectedly after dropping 76 points.

f * ck, he dropped the ball at such a crucial time. Why is it only 76 points? "

however, the others had even fewer points.

"F * ck, I only have 17 points. What's the meaning of this?"

the eight berserkers rolled together, but two of them only rolled a dozen points.

The remaining five players didn't have a lot of points either, with the highest being 54 points.

Windcloud blade's 76 points were the highest in the entire game.

haha, you losers, none of you can fight. The divine weapon is mine.

Seeing that the others' points were even lower than his, Windcloud blade could not help but laugh wildly.

The Alliance could not be blamed for their bad luck. No one had any objections to the result of the roll, so Feng Yun realm gave the axe blade shard to Feng Yun blade.

"I will soon become a man with a divine weapon, hehe."

after receiving the axe fragment, wind cloud blade was still showing off.

Zhang Shan could not bear to hurt him.

The divine artifact mission item was only the first step to obtaining a divine artifact. There were probably many more requirements to follow.

It definitely wouldn't be that simple. It would at least need a divine material.

zhang shan did not believe that wind and cloud blade's luck would be so good that he just happened to have a divine material.

This was almost impossible.

Besides divine materials, there should be other requirements.

When Zhang Shan had obtained his first divine weapon, he had been running around for almost an entire day.

Master Lu was easy to talk to, but it would be hard to tell if it were other NPCs.

Zhang Shan could only say that wind and cloud blade had seen the light of a divine weapon. However, he was still a long way from truly obtaining a divine weapon.

"Yidao, you're so f * cking lucky,"

ignore him. Let him be smug. We'll split the other equipment. Isn't there a special item that can get us spiritual weapons?"

The final BOSS of this extreme mode dungeon would definitely drop a huge amount of loot.

Apart from the regular drops like equipment and materials, the other three items were all fine.

Other than the axe blade shard, there was also a special tool, the Arsenal token (spirit), and a skill book, earth splitter.

These two items were also top-grade items.

[Arsenal token (spirit): human warriors can use this token to receive a weapon of their profession from the eastern capital General's mansion.]

Although this Arsenal token did not state what grade the weapon was, it did not state the weapon.

However, with such a large 'spirit' character, he could probably get a spirit weapon.

Furthermore, there were no professional restrictions. Anyone who took this Arsenal token to the East Capital Marshal's mansion would be able to get their own weapons.

This was already very powerful, and anyone could use it.

As for the skill book, earth splitter, it was also a very powerful skill.

In the previous monster attack event, the red boss demon vanguard's ultimate skill was this skill. It was extremely powerful.

Of course, the skills that players learned were not as powerful as the boss's, but they were still very powerful.

[earth-splitting slash: by slashing the ground, the damage will spread in all directions, causing 100% damage to nearby enemy units. Effective range: 5 yards. Mana cost: 2000. Cooldown: 5 minutes.]

It was a very powerful AoE skill, but the cooldown was a little long, and it could only be used once every five minutes.

However, it was still very strong.

It had to be said that new world really loved the Berserker class.

Good skills appeared one after another, unlike other classes. At most, he would only have one or two impressive skills. The other skills were all fake.

the berserker had already appeared. two blade stream, berserker's heart, and earth splitter.

Think about it, when a Berserker activated Berserker's heart, he would use charge and slash, followed by a two-blade stream.

The fragile jobs were basically killed in seconds.

...

As long as a Berserker had all three skills, he would definitely be a lot stronger in PvP.

Even Zhang Shan could not handle it, not to mention the other fragile professions.

the others were also getting stronger. zhang shan was starting to feel a little pressured.

Perhaps it wouldn't be long before he couldn't crush the other players anymore, mainly because his HP was a little low.

Even though his Cape was a purple equipment, the priest Cape was only level 20.

It was getting more and more insufficient.

It seemed that after this matter was over, he would have to work hard to level up and reach level 40 as soon as possible.

Then, he would equip the ant Queen's Cape and increase his HP by 60000. At that time, he would truly be invincible.

other than an ultimate skill, no one could kill him.

"Boss, quickly ROLL for the other items."

they didn't get the divine weapon, but didn't they still have the arsenal token to get the spiritual weapon?

...

Feng Yun realm rolled for the Arsenal token.

As for those present, Zhang Shan, wind cloud blade, and Feng Yun Qing Qing would not be participating in the roll.

Zhang Shan had the God-tier hand cannon, and blade of wind and cloud had just rolled the God-tier quest item.

feng yun qing qing's weapon was exchanged for the bandit extermination certificate, and it was also a spiritual weapon.

Therefore, the three of them did not need to participate in the ROLL this time. They would not use it even if it was given to them.

it would be too much if he could only sell it.

The other 47 people rolled the dice together, all of them silently praying.

spiritual weapons could be said to be the top equipment in the game. other than holy weapons, spiritual weapons were the strongest.

Moreover, spiritual weapons were the same as divine weapons. They were bound to the user after they were equipped, so there was no need to worry about them dropping after they died.

moreover, as the player's level increased, the equipment could be used almost all the time.

Other than people like Zhang Shan, who already had a God-level weapon, there was no one who did not want it.

Everyone threw out their dice. With a casual throw, 100 points, it instantly killed everyone.

f * ck, big brother, you're not playing by the rules. You threw out a hundred points. How are we supposed to play? "

"Uh, I can't help it if my luck is good."

Heart with me scratched his head in embarrassment. He had only joined the wind and cloud Guild for a few days.

This was his first time participating in a Guild operation, and he had taken away such a precious item.

It's not good to make your heart move with me.

"I'll give everyone a big red packet later."

it's fine. Rolling is all about luck. You deserve it if you're lucky.

This was moving heart's first time participating in a Guild operation so Feng Yun realm explained to him not to mind.

Chapter 182 earth-splitting slash

The Arsenal token was rolled away by follow your heart, and the others could only helplessly accept it.

If he couldn't win in terms of luck, then what else could he do?

since there were forty-seven people rolling the dice together, the probability of each of them successfully rolling for the item was not high.

Everyone was just a little disappointed, but they didn't have any other thoughts.

Speaking of which, the luck of this rich Big Shot was really good.

This was his first time participating in a Guild operation, and he had already obtained a spiritual weapon. Even Zhang Shan was a little envious of his luck.

He spent a lot of money and had such good luck. No wonder he was able to firmly occupy the second place on the level ranking.

Zhang Shan could not be too casual in the future. Otherwise, the first place on the ranking might be snatched away by this Big Shot.

“Hurry up and distribute the equipment. I still have to go to the East Capital to find ou zixiu’s divine weapon after this.”

windcloud blade was very anxious, as if he could get his hands on a divine weapon as long as he ran to the eastern capital.

Zhang Shan could not bear to remind him.

He would let him live in a dream for now. When wind and cloud blade arrived at the eastern capital and found the divine craftsman ou Zi, he would have to wait for him.

he would naturally know what to do next.

that’s right, boss. Hurry up and distribute the equipment. After that, let’s see what the divine weapon looks like.

Feng Yun realm did not want to waste everyone’s time as he rolled for all the remaining items.

Earth splitting slash skill book. Zhang Shan had nothing to do with it, and this was a Berserker skill book.

There were three red and one orange equipment, with only one red equipment. It was an agility-type equipment, and Zhang Shan could participate in the ROLL.

There was only one red material left, which Zhang Shan could ROLL for.

Even though the BOSS drops had almost nothing to do with Zhang Shan, he did not care.

completing the heart of destruction mission was better than anything else.

What could be compared to a divine weapon?

Furthermore, Zhang Shan had no need for the items dropped by the Hercules commander.

He had already gathered all the level 30 red equipment.

Unless there was a good Hunter profession or a general skill book, the other items, to Zhang Shan, were only for sale.

after rolling all the items, zhang shan had gained nothing.

The earth splitter skill book was rolled by another big Shot Berserker in the Guild.

The equipment was also split among the others.

Mr. Wu’s luck was pretty good. This time, he got another pair of red boots.

When he reached level 30, he would be able to save money on equipment again.

But then again, as a support, boss Wu didn't have a high demand for equipment.

Apart from a top-grade Cape, he could just get any other equipment.

In any case, he wasn't the one dealing damage, and he didn't have any attack skills. He just used his magic sword to kill monsters.

he just had to make do with the equipment and didn't have to go out of his way to get them.

"let's go, let's go. i'll go back first and take a look at the eastern capital."

after the equipment was distributed, windcloud blade hurriedly cast a teleport scroll to return to the city. the attraction of a divine weapon to him was infinite.

the others also returned to the city.

This time's dungeon event had been quite rewarding for everyone. Most of them had more or less received one or two pieces of equipment.

After all, in the extreme mode, the equipment dropped by the dungeon bosses were more common.

In addition to the Hercules commander guarding the pass, they had killed a total of three orange bosses and one red boss.

A total of 12 pieces of equipment of various colors, as well as a few materials and other items, dropped.

With so many items, if it was split among 50 people, many people would still be able to get their share.

those who didn't get any items had at least gotten some decent experience and a skill point.

No matter what, it was a big profit.

Big Boss one blade and heart follows went to the East Capital to get some awesome equipment. What are we going to do now? are we still going to Heaven's Gate to farm monsters? "

of course, killing monsters is the main theme of the game. Dungeons are just seasoning.

I won't go with you guys. There are too many people at the place you're farming monsters. There aren't enough monsters. I'll go with the priest later and find another place to farm.

Zhang Shan said to the others.

As the Guild's level increased, the number of guild members increased.

There wasn't enough to farm, and Zhang Shan didn't want to fight with his own people.

He could only bring boss Wu to another place to farm monsters.

"don't. it's just the two of you. it's very dangerous to run around heaven's gate."

"It's fine, we just need to be a little more careful."

...

“Do you need to worry about brother divine weapon? What danger can he be in? if they encounter players from other countries, it’s the other party who’s in danger.”

” that’s true. who would dare to provoke brother divine weapon? isn’t that courting death? ”

“Let’s go. Let’s continue farming monsters at heaven’s gate.”

After clearing the dungeon, the others dispersed.

Zhang Shan said to boss Wu.

“Let’s tidy up our backpacks and equipment first. We’ll go to Heaven’s Gate later and find a place to farm monsters.”

“Alright, I’ll go and repair my equipment first.”

After boss Wu joined Zhang Shan’s team, he teleported away.

Zhang Shan also teleported to the auction house and hung up the level 20 red boots that he had just changed out of.

The price of red equipment had always been very high, even if it was a level 20 red equipment.

Now, it could be sold for nearly ten thousand gold coins.

...

Zhang Shan did not beat around the bush. He immediately set the price at 10000 gold coins. The buyout price was also 10000 gold coins.

The auction will last for 24 hours. If you want it, you can take it.

next time, we’ll continue.

After putting the red boots up for auction, Zhang Shan went to the auction house to buy some Cheap Construction Materials.

He was also preparing to advance his engineering level to an engineer. He had been at the trainee Engineer level for a long time.

Because he had not collected enough materials, Zhang Shan had not continued to level up his engineering.

he would wait until he had collected enough materials.

When he leveled up his engineering to engineer, he would be able to make basic combustion bombs.

After using the incendiary bomb, his combat power would be improved again.

Apart from the divine weapon mission that he was currently doing, there was no way for him to upgrade his other equipment.

There were fewer and fewer ways to increase his combat power.

He could only rely on attribute bullets to increase his combat power.

After storing the engineering Materials that he had just won in the warehouse, Zhang Shan teleported to the teleportation Hall.

Not long after, boss Wu teleported over as well.

“Let’s go to Heaven’s Gate.”

there’s only the two of us. I hope no one will find trouble with us.

what are you afraid of? I’ll kill anyone who dares to come looking for trouble. You just have to stay by my panda baby’s side and help me heal. Leave the rest to me.

Currently, there were no players who had reached level 30. The equipment of the other players was still far from Zhang Shan’s.

Not to mention, he still had a divine weapon and so many passive skills.

With boss Wu’s healing, it would be a piece of cake for him to deal with hundreds of people.

The current Heaven’s Gate had already passed the period of large-scale chaos, even if there was pk.

At most, it would be a chaotic battle of a few dozen or a hundred people. For a pk of this scale, Zhang Shan expressed that he could still crush them at the moment.

Chapter 183 How did you get through extreme mode?

after being teleported to heaven’s gate, zhang shan and boss wu quickly ran out of the city gate.

As he was with boss Wu, Zhang Shan did not ride a horse. Otherwise, how could boss Wu keep up?

If they couldn’t ride a horse, they could only slowly run forward in the Heaven’s Gate map like other players.

“Where are we going to find a place to farm monsters?”

Boss Wu asked Zhang Shan.

I don’t know. Let’s run into the Heaven’s Gate map first. There are only level 30 and level 35 monsters outside. Let’s go find monsters above level 40 to farm. Players rarely go to those places.

Level 40 monsters, to the current Zhang Shan, were two levels above him.

It was even more so for the other players.

He believed that not many people would cross levels to kill level 40 monsters for no reason.

level 40 monsters, even though zhang shan was two levels above them, but his attack was high enough, so it should not be a problem to farm them.

Before he had reached level 30, he had been able to farm level 40 army ants.

Now that he had reached level 30, killing level 40 monsters would not be a problem.

It wouldn't affect his farming efficiency too much.

zhang shan and boss wu ran towards the depths of the heaven's gate map. along the way, they could see players from other countries.

however, everyone just looked at each other and ran away.

It had been a few days since the Heaven's Gate map had been released. Everyone's enthusiasm for PK had long passed.

Except for a small number of players who liked to cause trouble, they formed teams and wandered around the sky Gate map.

From time to time, they would ambush some small monster-farming teams. Most of the other players tried to avoid PK.

When they encountered players from other countries, they would try to avoid them.

It wasn't like they were fighting for bosses or maps. If there wasn't a conflict of interest, no one would deliberately cause trouble when they had nothing to do.

The deeper they ran, the less chance they had of meeting players. Not long after, Zhang Shan and the rest found a group of level 40 monsters.

However, this place was too close to the main road. After some consideration, Zhang Shan decided to find another place to farm.

" let's find another place. this place is too conspicuous. although there aren't many players here, it's inevitable that we'll encounter some despicable people. we should try our best not to let others affect our grinding. "

"alright, let's continue searching."

zhang shan and boss wu passed by hordes of monsters one after another, but none of them satisfied him.

These places did not seem safe, even though Zhang Shan was not afraid of being harassed.

However, it was better to avoid it as much as possible.

it would be a waste of time if people kept coming to harass him. he just wanted to find a safe place to quietly farm monsters.

while zhang shan was looking for a place to farm monsters, the news of the wind and cloud guild clearing the extreme mode dungeon finally caught the attention of others.

Even though there was a system announcement after they cleared the instance dungeon.

However, at this point in the game, there were too many system announcements.

There would be a system announcement for the first kill of an orange-colored BOSS, as well as some other types of system announcements.

Every day, there would be all sorts of system announcements.

Hence, the announcement of the wind and cloud Guild clearing the extreme mode dungeon did not attract much attention at the beginning.

However, as time passed, more and more people realized this problem.

The world Channel:

“Am I seeing things? did the wind and cloud Guild clear the extreme mode dungeon? How did they do it?”

that’s impossible. You can clear the game in extreme mode? ”

” it’s true. look at the system announcement. i thought i was mistaken at first, but after looking at it carefully twice, i realized it was true. ”

“ASIBA, are you that fierce? Let me see.”

“Holy sh * t, it’s true. How did they do it? Let’s not even talk about the boss, the minions in the ultimate mode are so overpowered, how did they even handle them?”

who knows? the wind and cloud Guild has a divine weapon boss. Maybe six-pipe Bodhisattva is too powerful? ”

impossible. The monsters in the extreme mode dungeon can’t be taken down by just one person. No matter how strong six-barreled Bodhisattva is, he can’t take down so many monsters by himself.

yeah, they’re all berserk small monsters, and they’re all swarming up. It’s impossible for the players at this stage to withstand them.

” i’ve tried extreme mode before. as long as a monster sees me, a group of monsters will immediately rush up. i can’t even hold on for a few seconds. ”

i’ve tried it before. We need a group of Guardian Warriors who can tank the monsters in front of us. Only then can we slowly clear the monsters. Otherwise, it’s useless no matter how strong our equipment is.

no way! How strong must The Guardian be to be able to withstand it? ”

I don’t know. Anyway, a level 20 Guardian warrior in full red equipment won’t be able to hold on.

f * ck, doesn’t that mean you have to be level 30 with all red equipment? I haven’t seen anyone else in the wind and cloud Guild reach level 30 yet.

” don’t guess. they probably have some other secret. maybe they have some special scroll that can instantly kill a group of monsters? ”

the brother above is right. It should be related to scrolls. If it’s not an instant-kill scroll, it must be a defensive scroll. Otherwise, they wouldn’t be able to withstand such a powerful monster.

here’s the problem. If the wind and cloud Guild used scrolls to defeat the small monsters, how did they defeat the final BOSS? it can’t be that they also used scrolls, right? ”

...

the BOSS is easy to deal with. As long as one person can hold it off, it'll be fine. Anyway, the big BOSS of the second floor of the dungeon is a dummy monster. It shouldn't be too difficult.

"You must be joking. Isn't the BOSS on the second floor strong? The normal mode is already very powerful, not to mention the extreme mode."

the strongmen commander is still very strong, especially its big move, trample. It's very disgusting. Without a few strong meat shields, it's impossible to defeat it.

"You're talking about normal mode. The current Guardian warrior can't handle the Hercules commander in hard mode, let alone in extreme mode."

I guess the wind and cloud Guild has a very powerful meat shield. Otherwise, they wouldn't have been able to clear the hard mode and now the extreme mode.

which Guardian is so awesome? there's no special meat shield equipment on the equipment list. Could it be a special item? "

" maybe. you from the wind and cloud guild, come out and say something. "

Even though the world Channel was abuzz with discussions about how they had cleared the extreme mode dungeon.

However, no one in the wind and cloud Guild paid any attention to it.

They were all concerned about the progress of Windcloud blade and heart follows me in the East Capital.

That was a divine weapon and a spiritual weapon.

...

They were all top-notch equipment in the game, especially the godly weapon mission from wind and cloud blade.

Everyone was particularly concerned if wind and cloud blade could successfully obtain a divine weapon.

This meant that this was a very clear way to obtain a divine weapon.

Chapter 184

while zhang shan and boss wu were looking for a monster map, the other big shots in the guild were paying close attention to the progress of windcloud blade and heart moves.

As long as he ran to the East Capital Marshal's mansion, he would be able to get a spiritual weapon.

there would not be any accidents, just like what had happened during feng yun qing qing's bandit extermination.

The only difference might be the attributes and special effects of the spiritual weapons they received.

On the other hand, everyone was more concerned about the progress of Windcloud blade's axe blade fragment quest.

"yidao, what's the situation? have you found the divine craftsman ou zi?"

it's not that fast. I don't have a horse to ride. It's such a big city, and I'm far from it. I'll probably need more than half an hour to get there.

that's f * cking Bullsh * t. Don't you know that we've been waiting anxiously? "

"Why are you guys in such a hurry? let's talk after I find ou."

While Windcloud blade was still running away miserably, heart follows me was displaying the attributes of a spiritual weapon in the Guild channel.

The general's residence wasn't too far from the teleportation Hall of the East Capital.

It didn't take long for heart with me to reach the place and receive the spiritual weapon.

[flying snow sword (spiritual weapon): physical attack power 1300 – 1400, strength 190, equipment level (sealed), current level 20.]

The spiritual weapon would gradually be unsealed as the player's level increased, and it would be unsealed once every ten levels.

Durability, never worn out, bound to the player's heart, can not be dropped.

[special effect 1: power attack. Increases physical attack power by 5%.]

[special effect 2: Sword Mastery. Increases Spellblade skill damage by 20%.]

[special effect 3: flying snow. increases spellblade's attack speed by 5%.]

this spiritual weapon is not bad. It's much stronger than my staff. Its attack power is higher than mine, its attribute points are more than mine, and its special effects are stronger than mine. They're both products of the Marshal's Palace, but why is there such a big difference? "

Feng Yun Qing Qing retorted gloomily.

Her spiritual staff had also been obtained from the eastern capital Marshal's residence. Its attributes and special effects were indeed a little worse than the flying snow sword.

"You're a support, so what if the weapon's attributes are a little worse?"

you can't put it that way. Although I'm a support class, a staff is a weapon that can be used by mages. If you give me a weapon with lower attributes than a Spellblade's, doesn't that mean that a mage's weapon is worse than a Spellblade's? that doesn't make sense.

that's hard to say. Maybe it's because you have a supporting profession, so the general's office gave you a low-end weapon, hehe.

"There's such a thing? isn't this too much nonsense?"

Once heart follows me obtained the spiritual weapon, he immediately headed to Heaven's Gate to farm monsters. Meanwhile, Windcloud blade continued to run around the East Capital.

Zhang Shan brought boss Wu along and searched through the monster maps one by one. Finally, they found a relatively remote location.

"Let's do it here?"

"This place? It's not safe here, it feels so empty. If a large group of players from other countries come, we won't have anywhere to run."

it's fine. This place is a little remote, so there shouldn't be too many people coming here. Let's farm first. If we're harassed too much, we can change to another place.

It would be difficult to farm Monsters in Heaven's Gate if there were too few players.

This was because when others saw that you had fewer people, they would want to come up and mess with you.

Although Zhang Shan was not afraid of small-scale harassment, once a fight broke out.

Small-scale harassment could also lead to a big scuffle.

However, he had no other choice. He couldn't just stop farming monsters.

There was another important reason why Zhang Shan wanted to farm monsters here. This group of level 40 monsters had a passive skill.

As long as it was a monster with a passive skill, Zhang Shan would like it. No matter what passive skill it was, it did not matter.

After all, an additional passive skill would not consume anything from him. there were only benefits and no disadvantages.

Zhang Shan controlled the Panda baby to go forward and pull the monsters. He himself also quickly fired his bullets.

Damage figures appeared above the monster's head, -4130, -4102

It was not difficult to kill a monster with three shots.

Checking monster attributes:

[demon elite warrior: level 40, attack 1200, health points 12000, skill: stun (passive), status: Holy demon's protection]

[stun (passive): every time you attack, there is a certain chance to trigger the stun effect, stunning the target for one second.]

[Holy demon's protection: a protection state that the Holy demon gives to invading demon Warriors, reducing damage by 50%. Will lose its effect after passing Heaven's Gate.]

Although the monsters here were level 40, to Zhang Shan, the overall attributes of the monsters were only slightly stronger than the level 35 monsters from before.

There was no need to consider the monster's attack power. The Panda baby could take it anyway. The monster's HP was only 2800 more than a level 35 monster's.

To Zhang Shan, such a small increase in HP was not a big deal. In any case, three shots would be enough.

If it was a critical hit, one shot might be enough.

His grinding efficiency was about the same as before. Previously, he had to take three hits to kill a level 35 monster.

Moreover, level 40 monsters gave more exp. If he farmed monsters here, his leveling efficiency would be higher.

The key was the monsters here. Their passive skill was really good.

...

He fainted from being forced to do so, but it looked like he was very strong.

As soon as the Panda baby started fighting, it was stunned and didn't move at all.

it could be seen that the effect of this passive stun was very good.

of course, even if zhang shan had this stun passive, the effect would not be as good as the monsters.

As long as his attack speed was strange enough, he believed that the chances of him getting stunned would slowly increase.

f * ck, this is a kind of stun monster. The Panda baby has been stunned for a long time. If it were other players, they wouldn't be able to farm here.

After the Panda baby pulled the monster, boss Wu also went up to kill the monster with his magic sword.

Although boss Wu's attack power was low, he could still deal some damage.

Boss Wu couldn't help but complain when he saw the Panda baby being stunned.

that's right. As long as the ranged classes have high enough attack power, they can still try to kill the monsters. However, the melee classes can forget about it. They'll be stunned as soon as they start fighting. They won't even have the chance to kill the monsters.

"I didn't expect such a disgusting monster to exist in this game."

...

that's good too. I don't have to worry about others stealing my monster. I don't think anyone would want to farm such a disgusting monster.

Zhang Shan activated his farming mode, and shot after shot at the monster.

At the same time, he also had to pay attention to the situation around him in case a player from his camp suddenly appeared and attacked them.

As Zhang Shan was farming monsters, he was also keeping an eye on the progress of Windcloud blade in the East Capital. He had also been running for quite a while.

He should be able to find the divine craftsman ou Zi soon. He wondered how lucky wind and cloud blade was.

Was ou Zi as easy to talk to as Master Lu, or was he as unreliable as an Qisheng?

Zhang Shan expressed his curiosity.

Chapter 185 The mission to challenge the demon general

Zhang Shan and boss Wu were happily farming monsters, and their experience was slowly increasing.

It had been days since he last farmed monsters, so his experience was still a little over 10 million.

He was still close to 30 million experience points away from level 31.

He looked at the level leaderboard and saw that many of them had already reached level 29.

Following my heart had steadily occupied the second place on the leaderboard, and his experience points at level 29 had already increased by more than half.

He was still about ten million experience points away from level 30. With the leveling speed of your heart moves with me.

I should be able to reach level 30 in about three days.

Farming monsters at heaven's gate was still the fastest way to level up.

However, as long as Zhang Shan activated his farming mode, no one could catch up to him.

Zhang Shan's efficiency in killing monsters was no joke, even if he was sharing the experience with boss Wu.

His leveling speed was still much faster than the others.

Mr. Wu was now level 29, and he was in the top 100 of the level ranking board.

With Zhang Shan helping him level up, even if he was just using a magic sword to kill monsters, his leveling speed was much faster than others.

Time passed slowly, and wind cloud blade finally found the divine craftsman ou Zi.

"Yidao, have you reached your destination? How was the situation? Has the divine artifact been repaired?"

"Repair my ass. If a blade can repair a divine weapon, won't we all be able to see it on the equipment ranking?"

that's true. One blade, did you find ou Zi or not? "

"i found it, but lil 'ou won't help me repair the divine artifact."

windcloud blade said gloomily.

"Nani, didn't the item's description say that it's for ou Zi? Why didn't he fix it for you?"

"Lil 'ou said that I'm not fit to use a divine weapon yet, so he gave me a mission. I'll come back to him after I've completed the mission,"

Oh, that's fine. Then, let's do the mission first. What kind of mission did ou give you? is it difficult? "

it's not a matter of whether it's difficult or not. It's just that we can't complete it at all.

After Windcloud blade finished speaking, he displayed the quest that Lil ou had given him.

[mission: challenge the demon general: only true human warriors are qualified to use the divine weapon battle axe.]

Please bring the head of any demon general to the divine craftsman ou Zi.

Holy F * ck! Does this mean that we have to blow up a demon general before we can start repairing the divine weapon? "

"What kind of BOSS is the demon general? has anyone seen it before?"

" i don't know. we've only fought against demon commanders. we're still far from being generals. "

let's not talk about whether we can defeat the demon general first. The problem is that we have to find a demon general first. Otherwise, where can we fight? "

"Where is the demon general? i've never seen a BOSS of this level before."

do you still remember the siege force that attacked Danyang city during the monster siege? it was led by the right general of the demon race.

holy sh * t, now that you mention it, I remember. But the right general of the demon race can fight with the city Lord of Danyang city. Such an awesome boss must be at least a red boss above level 80, right? "

it's hard to say, but the Nephilim's right general must be a very powerful boss. It's impossible for us to defeat it now.

then what should we do? we're not doing the divine weapon mission anymore. It's over before it even starts? "

Windcloud blade was extremely displeased. When he had rolled for the axe blade fragment, his joy had long since disappeared.

It wasn't so difficult when he saw Zhang Shan making the divine weapon.

all he had to do was run to the east capital and spend half a day buying materials, and master lu had already helped zhang shan repair the divine weapon.

Even Zhang Shan, who was currently working on the broken ring mission, was not an easy task.

But at least it was something that the current players could do. At most, it would only cost Zhang Shan a little more gold.

Then, it was time to clear the extreme difficulty dungeon.

Even though it was difficult, they had done it.

Why was it so difficult when it came to him, blade of wind and cloud?

ou zi had given him a difficult problem that was almost unsolvable during the first step of repairing the divine weapon.

The demon general was not a BOSS that they could kill now.

Even if not all demon generals were as abnormal as the right general, they shouldn't be too far off.

Upon seeing this quest, Windcloud blade was immediately enraged. He had no idea where to start.

"What do we do now?"

Windcloud blade was at a loss. He was not sure if he should search everywhere for a BOSS called demonic general.

If they found it, they would organize a group of people to try and see if they could beat it.

what else can I do? I'm here to farm monsters at heaven's gate. I'll check the forums and see if anyone has seen the general of the Nephilim race.

"So you're telling me to give up for now?"

...

Windcloud blade asked, unwilling to give up.

"What can you do if you don't give up? At the very least, we have to find a demon general, right?"

should I try the right general of the Nephilim during the next monster attack? "

f * ck, even if he's looking for death, he doesn't have to die in such a way. We definitely can't beat a BOSS like the right general. There's no need to try. Let's find other demon generals.

" oh right, one blade, did lil 'ou give you any hints or give you any scrolls or items, like the enhanced diamond scroll that brother divine weapon got? "

"No, after Lil 'ou issued the demon general mission, he ignored me. I think I have to complete the mission first before I can continue talking to him."

"What a cold and arrogant NPC."

"what a pitiful man."

"What do you mean? Which man is more pitiful?"

“One blade, it wasn’t easy to get a divine artifact mission item, but now he can’t even proceed with the first step. Isn’t that tragic enough? Hehe.”

what are you guys talking about? no matter how miserable I am, I only saw a chance to obtain a divine weapon. At most, we’ll wait for a few months until we’ve reached a higher level and then go fight the demon general. I don’t believe that we can’t beat the demon general.

...

alright, then hurry up and come over to farm monsters. What are you still doing in the East Capital? ”

I’m coming over now. Anyway, little ou doesn’t care about me now. There’s no point in staying here.

Wind and cloud blade’s divine weapon mission had already encountered a huge problem at the beginning.

zhang shan did not find this strange. it was not so easy to get one’s hands on a divine weapon.

his god-tier hand cannon might have been the first god-tier weapon in the game, so the difficulty might have been reduced.

As for the second item, which was currently in progress, it was also very difficult to get it started.

First, they had to search the entire map for the NPC that triggered the quest. Just this difficulty alone could be said to be as difficult as the sky.

Without a certain amount of patience and luck, it was impossible to even think about it.

Zhang Shan had locked onto the East and West cities from the start.

if he couldn’t find the npc that triggered the quest, he was going to give up.

Fortunately, his luck wasn’t too bad. In the end, he found an Qisheng in the West capital and triggered the divine weapon mission.

The first step of the quest to repair the broken ring has been activated.

wind and cloud blade’s luck was not too bad, at least he had a clear goal.

When their level and strength increased, they would naturally be able to defeat the demon generals.

He just didn’t know when that would happen.

Chapter 186 The Warlock commander, jitanas

Since wind and cloud blade’s divine weapon quest could no longer be carried out, he could only return to Heaven’s Gate to continue farming monsters.

Just as Zhang Shan was farming monsters, he received a call from wind cloud blade.

brother Liu Guan, where are you guys farming monsters? group up with me.

“Are you coming to our side? It’s not safe here to farm monsters in an open area.”

Zhang Shan reminded him.

The monsters here weren't easy to kill. They were in the open area of Heaven's Gate.

It was easy to be harassed by other players, and if he wasn't careful, he could die.

Moreover, the monsters here were all stun monsters, which were very unfriendly to melee classes.

when zhang shan was around, there was no problem. after all, the panda baby was there to tank the monsters.

If Zhang Shan was not around, the rest of them would not be able to farm.

"It's okay if it's not safe. Who would dare to mess with us? that's just looking for death."

Alright, since wind and cloud blade thought so, Zhang Shan would add him to the team.

I've invited you. You ran over according to the team's information.

"Alright, I'll be there soon."

if he formed a party with zhang shan to farm monsters, he would level up much faster. windcloud blade had previously formed a party with him.

Of course, although there was one more person to share the experience with Zhang Shan, wind and cloud blade's efficiency in farming was not bad.

In addition to their mutual aid guild skills and the bonus experience, if they were to team up with wind and cloud blade, it would not affect Zhang Shan's leveling efficiency too much.

after 10 minutes, wind and cloud blade ran to where zhang shan was farming. he picked up his axe and went up to kill the monsters.

"What's the situation? why is the panda baby in a stunned state?"

Windcloud blade asked curiously.

"Take a look at the monster's skills and you'll know."

what the f * ck? how could there be such a disgusting monster? this is too much! How are we supposed to farm them? "

"So what? if you can't kill this kind of monster, you can go and kill other monsters."

sigh, I'll just follow you guys for a while. If you go offline, I'll have to find another place. I can't farm these monsters at all.

Stun monsters were definitely the nemesis of close combat, no matter how high your HP or defense was.

as long as they were hit by wild monsters, they would be easily stunned. no matter how good their equipment and skills were, they were useless.

"Have you checked on the forums, where is there a BOSS called demon general?"

The first step of wind and cloud blade's divine weapon mission could only be activated by killing a demon general.

Let's not talk about whether we can defeat them or not. At the very least, we have to find a demon general first.

they hadn't even seen a single demon general yet.

the appearance of the right general during the monster siege was just a game background for them.

they had only seen the notification. as for where the right general was, they had no idea.

as soon as the monster attack began, dangyang city's mayor went out of the city to block the right general.

The players had no chance to see the right general.

As for the other demon generals, Zhang Shan had never seen them before.

I've checked on the forum, but I couldn't find any relevant information. Other than the demon generals when the monsters attacked the city, no one has seen any other maps.

"That's a little difficult. They don't really want us to fight bosses like the right general in the future, do they? This seems a little difficult."

I don't think so. There are ranks for generals too. The right general is obviously of a higher rank. There should be even weaker demon generals.

that's right. Previously, everyone was farming monsters in their own city's map, so their range of activity wasn't large. Now that Heaven's Gate is open, there will probably be demon generals in the depths of Heaven's Gate.

well, there's no rush now. We can't beat bosses that are too strong anyway. When I reach level 30, I'll ride a horse to Heaven's Gate map to look for it.

"speaking of which, why is my quest so nonsensical? it's so random. lil 'ou didn't even give me a hint. i don't even know where to find a demon general."

that's normal. Look, I spent five days before I found the NPC that triggered the quest.

that's right. A divine weapon is so powerful, so it's normal that it's difficult to obtain it. I've been too naive.

After hitting a wall once, wind and cloud blade finally had a clear understanding of the divine weapon mission.

It was definitely not an easy task to obtain a divine weapon, even though it was not too difficult for Zhang Shan to obtain the hand cannon.

However, he didn't think that the other divine weapons would be so simple.

Zhang Shan had picked up scraps in the auction house. When he managed to get a damaged ring, it would affect the difficulty of obtaining a legendary weapon in the future.

With a clear understanding, every divine weapon would not be so easily obtained by players.

It didn't mean that one could get a divine weapon as long as they had a divine weapon mission item.

There would be many steps in this process, and each step was not simple. Any random step could stop most players.

Just like a broken ring, as long as he had the time and good luck, he could find an NPC.

The other players could also find it.

...

However, it was hard to say for the next few steps.

Zhang Shan had spent more than 30 million gold coins right from the start. Not many players could afford this.

Not to mention the heart of destruction mission.

It was an almost impossible task.

Zhang Shan and the rest had been able to defeat the Hercules commander and obtain the heart of destruction partly because of him and an Qisheng's tragic cries.

He got an enhanced diamond scroll.

Also, the wind and cloud Guild's team was the top team in the entire game.

In addition to Zhang Shan's Panda baby, he could take on the final boss, the Hercules commander.

These conditions were all necessary, or else it would be impossible to clear the extreme mode dungeon at this stage.

Furthermore, Zhang Shan was not sure if an Qisheng would do anything else after completing the heart of destruction.

This was hard to say and could only be done step by step. He would find out when he went to find an Qisheng five days later.

...

Zhang Shan and the rest had been grinding at heaven's gate pass for three days, all according to Zhang Shan's online time.

If Zhang Shan was not online, even if boss Wu and wind and cloud blade were online, they could only watch helplessly.

The two of them were completely helpless against the monsters here. They couldn't even stun the monsters.

During this period, there were occasionally players from other countries who came over. However, after seeing Zhang Shan's character name ...

He didn't harass them.

In these three days, Zhang Shan had gained more than 10 million experience. He was only 20 million experience away from leveling up.

while they were farming monsters, someone called out in the guild channel.

a super BOSS has appeared at heaven's gate, and several big guilds from various countries are there, ready to fight for the BOSS. Should we go and take a look? "

"What kind of BOSS is it? why are so many big guilds attracted to it?"

it's a boss called the demon Warlock commander, Gitanas. It's a level 50 Red Magic monster. It's very fierce and has already wiped out a few groups of players.

"Holy sh * t, someone found a level 50 boss just like that? He's so bold, no one can beat him now, right?"

that's hard to say. It's a wild boss and there's no limit to the number of players. A group of players should be able to kill the boss.

Chapter 187 The gathering of heroes

When they heard that there was an ultimate BOSS to fight, the big shots in the Guild were excited. The fiercer the boss, the better the drops.

Furthermore, it was a BOSS with a real name. It was an existence on the same level as blade demon chakra, whom they had fought at heaven's gate.

However, it was 10 levels higher and was a magic monster, so it would definitely be very difficult to deal with.

The most troublesome thing was that all the big guilds in the game knew about this BOSS.

A large group of people were staring at this BOSS.

They might not be able to snatch it.

Even if the wind and cloud Guild's guild level was one level higher than others, the Guild still had more members than other guilds.

The other guilds were at most Level 2 guilds, and they only had 10000 members.

it was not like the wind and cloud guild, which had 50000 members.

However, no matter how many people the wind cloud Guild had, they were nothing compared to the entire game.

If they wanted to go against all the big guilds in the game, they would be overthinking things.

"Are we going? There's already a lot of people over there, all of the top ten guilds are here, and there are at least 100000 players around the BOSS."

of course we're going. There are so many players here anyway, it doesn't matter if we go.

that's right. If we go, we might get some soup. If we don't go, we'll get nothing.

"Boss, let's go over too. As long as we go over, no one will dare to ignore our existence. No matter what, we'll get some benefits."

"Alright, let's go then. But we don't need too many people. We'll just form ten teams and send 500 people."

that's right. If all of our guild members go, we'll put too much pressure on the other guilds. They might gang up on us, and that'll be troublesome.

"Form your teams and let's go."

Zhang Shan disbanded the team with boss Wu and wind cloud blade and waited for Feng Yun realm to add the three of them.

"Boss, hurry up and form a party with the three of us."

After Zhang Shan disbanded the team, wind cloud one blade immediately called for wind cloud realm and added them to the team.

"Mark the boss's location and we'll set off together."

after joining feng yun realm's team, zhang shan and the other two quickly ran towards the target according to the boss's location information given by the others.

They had not run for long when a group of about a hundred people from the Yan Kingdom suddenly appeared in front of them and stopped them.

However, after seeing Zhang Shan's character name, he did not continue to rush forward.

What a joke, who didn't know the name of brother divine weapon in this team of a hundred people?

If he really wanted to go head to head with Zhang Shan and the other two, he would be courting death.

"Blade of wind and cloud, this road is blocked. I can't let you pass now."

why don't you let us go? is Heaven's Gate your home? "

Windcloud blade, don't be so talkative. You know where we're fighting the BOSS. Our boss ordered us to stop everyone from going over.

"Your Guild, misty rain, sure has big words. Do you think you can stop us with just a few of you? I'm going over, try and stop me. "

Of course, Windcloud blade was just saying that. He did not charge in directly as there was no need to. He would wait for Feng Yun realm's main forces to arrive first.

when the group of yan country players saw zhang shan and the rest, although they felt a little guilty, they were determined not to let them pass.

I know that your Guild is very strong right now, but this time, more than a dozen guilds have come to an agreement. Do you want to make an enemy of everyone? ”

“I’m too lazy to talk to you. Let’s wait for our boss to come.”

Windcloud blade did not want to bother with these small fry. So what if there were more than a dozen guilds working together?

How could such a big movement not involve the wind and cloud Guild?

Previously, they had been busy grinding monsters and had no idea that a Big Boss had appeared.

Now that they knew about it, the wind and cloud Guild naturally had to get involved. In the New World, who would dare to ignore the existence of the wind and cloud Guild?

it was true that their guild couldn’t defeat more than a dozen guilds, but if they couldn’t beat them, they couldn’t just destroy them.

If we’re not allowed to participate, then no one will be able to defeat the BOSS.

Windcloud blade made up his mind. They had to get some benefits from this Gitanas.

Not long after, Feng Yun realm brought a large force of five hundred men and rushed over.

Seeing that Feng Yun realm had brought a large Army over, the Yan country players who were blocking the way became even more scared.

“Feng Yun realm, we have more than a dozen guilds working together. Don’t mess things up. Does the Feng Yun Guild want to make an enemy out of everyone?”

“Move aside, let your boss talk to me.”

Feng Yun realm was extremely cold. He did not care about these people and directly led his men to charge over.

The group of Yan Kingdom players did not dare to stop them.

They were only normal members of the misty rain Guild. Even Zhang Shan alone could deal with this group of people.

Not to mention, the wind and cloud Guild had sent another 500 elites. If they blocked the road again, wouldn’t they be looking for trouble?

It was better to let the Guild leaders communicate.

Feng Yun realm led everyone to break through the blockade. He said after a while.

...

“let’s head over first. just now, god of war li jing told me that they haven’t started fighting the BOSS yet. they’re currently discussing cooperation and the distribution of the BOSS’s loot.”

“No way, are there really more than ten guilds discussing how to fight the BOSS together? they didn’t fight with each other.”

what fight? if we really fight, what's the point of fighting the BOSS? no one can beat it.

"that's right. with all the big guilds here, if they really fought, there would be at least a million players. how could anyone be able to kill the boss with ease?"

"That's weird, aren't they worried that they can't defeat the boss? A level 50 real-name magic boss must be ridiculously strong. I don't think we can beat it even if we have a lot of people."

"it's hard to say. whatever, let's go over first."

Under Feng Yun realm's lead, they advanced. Feng Yun realm had communicated with the Guild leaders before.

On the way, they encountered several groups of people who tried to stop them, but none of them stopped them.

It didn't take long for them to reach the boss's location.

At this moment, Zhang Shan realized that the entire map was filled with players. It was a huge patch of darkness, and there were at least 100000 players surrounding it.

Most of them were foreign players with purple names, and some of them were players from Chu.

...

Zhang Shan did not even see what the boss looked like. He could only see a small red dot in the middle of the crowd through the mini-map.

That should be the boss.

Seeing so many people, Zhang Shan lost his confidence. No matter how good his Kung Fu was, he would still be afraid of a vegetable knife.

if they were to fight, the 500 players from the wind and cloud guild would not be enough.

The top 10 guilds were all here, and there were also a few other new guilds, such as traversing Four Seas, which was also from Chu.

Zhang Shan subconsciously wanted to ride on the red Hare, ready to run away at any time. He could not win.

However, his worries were unnecessary. After seeing that they were from the wind and cloud Guild, no one stopped them. Under Feng Yun realm's lead, they ran directly to the red dot in the middle of the crowd.

Chapter 188 let's talk about how to split it

Zhang Shan and the rest came near the BOSS, jitanas. They looked at the BOSS in the distance, holding a staff, and did not look anything special.

If not for the fact that the BOSS's name was a real name, Zhang Shan would have thought that it was just a normal magic monster.

they wouldn't even treat him as a BOSS.

There were 11 small teams around the BOSS. They were the elite members of 11 guilds.

As for the other normal guild members, they were all on the outer perimeter, so they didn't need that many people to fight the BOSS.

Now, they only needed to discuss the distribution of the BOSS's loot. As for how they would defeat the BOSS, no one was too worried.

Including the wind and cloud Guild, there were already 12 guilds 'elite members gathered together.

Even if they relied on numbers, they could still kill the BOSS.

"F * ck, is this brother divine artifact? this is the first time i've seen him in person."

A certain Big Shot cried out.

Zhang Shan did not know any of the other Guild bosses present.

Only unparalleled gentleman from the Qi Kingdom and traversing Four Seas from the Chu Kingdom had a few free-for-all battles and a guild challenge with the wind and cloud Guild.

Zhang Shan recognized them, but he did not know the other big bosses of the big guilds.

However, even though Zhang Shan had never dealt with them before, he could tell from the names of their characters and the country's camp above their heads.

it was still easy to distinguish their origins.

Of the other eleven guilds present, other than peerless and traversing Four Seas, there was also Wei's Wargod Guild and Qin's domineering aura Guild.

the misty rain guild and the pugilistic world guild in the yan kingdom, the unfettered guild in the chu kingdom, the black iron guild and the central plains iron cavalry guild in the zhao kingdom.

The other two were from the state of Zheng's Xuanyuan Guild and Kyushu Guild.

Aside from traversing Four Seas and the black iron Guild, the other nine guilds, together with the wind and cloud Guild, had made up the top ten gaming guilds of the previous year.

The real-name boss of Heaven's Gate had attracted all the top forces in the game.

Looking at the distribution of the major guilds 'national camps, one could clearly see the strength of each Guild.

there were no other big guilds in the camps of the countries where the war god guild and the domination guild were located.

It was obvious that everyone recognized their strength and did not want to squeeze with them to avoid snatching resources.

The Chu country camp was different. They already had the Windcloud Guild and the unfettered Guild. there was also the new traversing four seas, which was obviously the eastern sea dragon king. he felt that the wind cloud guild and the unfettered guild were not strong enough.

He could snatch some meat from their mouths to eat. As for the hard-headed Zhang Shan that he met later on ...

the dragon king of the east sea didn't expect this.

The peerless Guild was not weak either. They had taken over the Qi country's camp by themselves, even though the peerless gentleman had been beaten by Zhang Shan and the others once.

However, they still had their true strength, and no one dared to look down on them.

The remaining three countries were similar to Chu country, each of them had two major guilds.

Before this, everyone did not have much understanding of the game and tried to avoid strong enemies.

They chose the factions of countries that did not have strong competition.

Zhang Shan felt that in a country's camp, it was better to have more powerful guilds.

Although there might be competition for resources during normal times, when it came to the country war ...

The more high-end Guild players there were, the higher the possibility of winning the World War.

No matter how big the conflicts were, when it came to the country war, it would affect everyone's common interests.

Naturally, they would work together to win the country war.

Although it was just a game, most people would not do things that would harm others and themselves.

"Now that everyone is here, let's talk about what you think. How should we split the loot?"

as the leader of the top ten guilds, wargod li jing said.

"Not only are those who should be here, even those who shouldn't be here are here, hehe."

The Overlord teased.

"what do you mean by that? who shouldn't be here?"

The words of the domineering King made some people unhappy, such as the eastern sea Dragon King of traversing Four Seas and black Gold of the black iron Guild.

he was obviously talking about them.

The others were the top ten guilds in the game last year, and only these two were new forces in the New World.

even the guild of wind and cloud, which was the latest to arrive, did not say anything.

Now that the domineering King had said that even those who shouldn't have come had come, wasn't this basically saying that the two of them weren't qualified to come?

I'm just saying. I don't have any special meaning. Of course, if you want to fight, just use whatever you have. Our Guild will take it.

Domineering King was not polite either. Domineering aura was already tired of being the second place for ten thousand years.

the last time heaven's gate had opened, he had wanted to challenge the war god guild's position as the guild leader.

Naturally, the domineering King paid no attention to the newly established guilds like traversing Four Seas and black iron.

...

alright, let's not talk about irrelevant topics now. If you have any conflicts, you can issue a guild challenge after you've killed the boss.

God of War Li Jing waved his hand to stop the quarrel between the two sides. The boss had not yet started.

Why are you talking about those useless things?

I think it's best to distribute the BOSS 'loot according to strength. The stronger ones will naturally get the best items. This is a truth that has never changed.

that's right. It's already good enough for the strong to eat the meat and the weak to have a mouthful of soup to drink. Do you want to get something good? "

here's the problem. How do we differentiate who's stronger and who's weaker? we can't just fight one round each before fighting the BOSS, right? "

that's simple. We'll use last year's guild rankings to differentiate between the strong and the weak. The Guild rankings in the gaming world are publicly acknowledged by everyone. I believe no one has any objections, right? "

Not to mention others, even Zhang Shan felt that these words were very inappropriate. Last year's game guild rankings.

It had nothing to do with the Guild's current strength.

New world was a new and popular game, and the previous Guild power rankings would definitely be reshuffled.

it was hard to say if the top ten guilds could still maintain their position.

...

how is that possible? according to what you guys said, our Guild, traversing Four Seas, and black iron Guild have never made it onto the Guild rankings. Doesn't that mean that we won't get anything? "

Before the others could speak, the Dragon King of the East Sea was the first to stand up and object.

“Then why do you think so? Do you want me to let you guys pick first?”

There were a lot of guilds present. Including the wind and cloud Guild, there were a total of 12 guilds.

although the first kill of a real-name BOSS would drop a lot of items, it was impossible for there to be 12 items.

Not to mention, the best items were at most one or two, and the rest were just some normal red equipment.

No one would be interested in it.

In fact, what everyone was most interested in was the one or two good items that the BOSS might drop.

Nothing else was important.

I think we should just roll for the equipment. We’ll choose the ones with the highest points first and the ones with the lowest points later. If there’s nothing left after we roll, we’ll have no choice.

that’s impossible. What if I roll a small number? wouldn’t I have come here for nothing? ”

However, if the items were distributed by rolling, then Subjugator would not be happy.

Then why should he try his luck?

Chapter 189 The boss that no one can tank

The BOSS, Gitanas, was still there. The battle had not started yet, so the guilds could not come to an agreement on how to distribute the loot.

In fact, there were two main opinions. Should they rank based on strength or ROLL?

Originally, no one had any objections to the distribution according to strength, but how to confirm the strength of each party was a big problem.

If the ranking of the guilds was calculated according to last year’s ranking, it was not only the Dragon King of the eastern sea and black Gold who would not agree.

Even the wind and cloud Guild would not agree to this.

In last year’s guild rankings, the wind and cloud Guild had entered the top ten.

However, it was only an existence that hung its tail.

If the items were distributed according to last year’s guild ranking, the wind and cloud Guild might not get a single item.

If the Guild’s strength was slightly weaker, they would just pinch their noses and accept it. However, the problem was that the wind and cloud Guild was the only Level 3 Guild in the New World.

If it wasn't for the fact that the big shots in the Guild were relatively low-key, the wind and cloud Guild could be said to be the number one Guild in the gaming world.

It would be unreasonable for them to have worked so hard for nothing.

As for the distribution of items by rolling points ...

This method might seem fair, but the top guilds would definitely not be happy.

It would be a joke if he did not get anything.

In short, it seemed inappropriate to discuss the distribution of the items.

this won't do, that won't do either. What should we do then? let's just fight, the winner stays, and the loser leaves.

"I don't mind fighting, but the problem is, how many people do we each send? We can't just attack the whole Guild together. Who can beat the wind and cloud Guild? they have 50000 players."

alright, stop arguing. Since we're discussing here, let's eliminate the option of fighting first. Any conflicts can be resolved later. I don't want any conflicts to arise this time.

Said Li Jing, the God of War. It was normal that he didn't agree to solve the problem with violence.

No matter how they fought, no Guild could beat the wind and cloud Guild.

In terms of numbers, the other guilds could not compete. In terms of elites, Zhang Shan alone could match up to dozens of people.

"Then what do you think we should do? we can't just stand here and do nothing."

then I'll suggest an idea. No matter what the item is, we'll auction it on the spot. The Guild leaders of the various guilds will come forward to auction it, and the one with the highest price will get it. What do you all think of this plan? "

" alright, that's also a way. we're not afraid of more money. "

It had to be said that this proposal by Wargod Li Jing was very good. The auction not only reflected strength, but it was also very fair.

It was a game after all. If one wanted to play the game to its highest level, it was very normal to have more money than money.

after all, there weren't many white ticket tickets like zhang shan, who didn't need to spend money and could still play well.

The auction was very fair. The item would belong to whoever bid the highest.

Moreover, the guilds could auction it off, and their gold coins spoke for themselves.

Although there were some guilds that were not too happy with Wargod Li Jing's plan, they could not object to it.

The item plan was decided.

“Since no one has any objections, let’s sign the system agreement.”

The game would provide the players with a system agreement, and the players would submit the agreement for confirmation.

It would be carried out under the supervision of the system. It was very stable, and there was no need to be afraid of anyone going back on their word.

God of War Li Jing drafted an agreement, and all parties signed it after confirming it.

The content of the agreement was that the items would be dropped no matter which Guild’s team’s backpack they were in.

The distribution could only be confirmed after the items were auctioned together by the people who signed the agreement. The gold coins earned from the auction would be evenly distributed among the other people who had not won the items.

“Now that we’ve settled the issue of item distribution, how do we fight this BOSS?”

Although they weren’t too worried about not being able to defeat the BOSS, they still had to discuss how to fight it.

After all, it was a level 50 red true-name BOSS. Other than the wind cloud Guild, no other Guild had ever fought it.

Just by looking at the BOSS’s name, one could tell that it would not be easy to deal with.

Most importantly, before they arrived, someone had already tried to fight.

The result was that they were all wiped out by Gitanas.

“Did you manage to find out the boss’s attributes and skills?”

Feng Yun realm asked.

They were the latest to arrive and Feng Yun realm did not know what had happened before.

“I know. This boss is very strong.”

After God of War Li Jing finished speaking, he displayed the boss’s attributes and skills.

Warlock commander jitanas (red): Level 50, attack 20000, HP 120 million.

Skill 1, Heavenly Fire meteor, skill 2, Spell Mastery, skill 3, fear, skill 4, sea of fire. Status: Holy demon’s protection.

[Heavenly Fire meteor: jitanas draws a ray of Heavenly Fire to attack the target, dealing double damage.]

[spell mastery: jitanas is proficient in spells, increases basic attack power by 100%.]

...

[fear: after jitanas uses his fear skill, all surrounding enemy targets will enter a state of fear. they can not attack and can not be controlled.] Lasts for five seconds and has an effective range of 50 yards.

[sea of fire: jitanas explodes the underground fire vein at the target's location, causing 20000 damage per second to the target. Lasts for five seconds. Effective range: 50 yards.]

[Holy demon's protection: the Holy demon gives all invading demon Warriors a protective state, reducing the damage taken by 50%. Ineffective after passing Heaven's Gate.]

"Damn, is jitanas that strong? A normal attack's theoretical damage is already 80000, let alone a high-level skill. Who can withstand this?"

Windcloud blade said in shock after seeing the BOSS's attributes and skills.

the people from the wind and cloud guild did not know how strong this BOSS was.

When they saw Li Jing's attributes and skills, they were all shocked.

He was really ridiculously strong.

the chakra they had fought before was already very strong, but compared to jitanas, it was simply too weak.

They were both real-name bosses, and there was only a difference of ten levels between them. How could they be so strong?

after knowing that the ultimate BOSS here had a real name, the big shots of the wind and cloud guild were mentally prepared.

...

However, after seeing the attributes, he was still very surprised.

It was too strong. Not to mention the current players, no one could withstand it.

Even Zhang Shan's Panda baby, as a bug-like existence, could not withstand such damage.

One critical hit and he might die.

"This jitanas, not only is his damage ridiculously high, his third skill is also very disgusting."

yes, after falling into the state of fear, they can't control themselves and can't attack. Then they'll be running around and hitting nothing.

"fortunately, fear's range is 50 yards. hunters with eagle eye can maintain their damage outside the range of fear."

"Everyone knows the BOSS's attributes and skills. How do we fight it?"

Li Jing said.

" how else can we fight it? we'll just have to push it to death. no one can take the BOSS's damage anyway. "

“We’ll have to prepare thousands of Warriors. Otherwise, we won’t be able to kill the BOSS.”

“What’s the big deal with a few thousand soldiers? we have nearly 100000 people here. It’s a piece of cake to gather a few thousand soldiers.”

“alright, then let’s arrange for our members to prepare for the boss.”

Chapter 190 The child of games

no one felt that there was anyone who could withstand the damage from gitanas.

Therefore, they could only use the old method of relying on numbers to kill the BOSS.

The Warriors kept on using charge, so as long as someone kept pulling the BOSS, it would be enough. until the BOSS was finally defeated.

Zhang Shan did a serious calculation. He felt that the Panda baby should still be able to withstand the damage from jitanas.

Although he couldn’t guarantee that he could hold on forever, as long as he had enough support, the Panda baby should be able to hold on for a while.

gitanas’s theoretical damage was 80000, and if it was a critical hit, it would be 160000.

The Panda baby had 136000 HP, high defense, and a passive damage reduction skill.

With full health, the Panda baby should have no problem taking a critical hit from Gitanas.

And the most important point was that Gitanas was a magic monster.

although its attack power was high, its attack speed shouldn’t be too fast. the support should be able to heal the panda baby.

however, zhang shan was in a dilemma as to whether he should let the panda baby fight.

This time, it wasn’t just the wind cloud Guild that was present. All the top guilds in the game were present.

Zhang Shan did not want to be in the limelight. since he could defeat the BOSS while lying down, he wasn’t sure if he had to put in so much effort.

Let’s ask wind cloud blade first.

“Brother Yidao, do you want to let my baby panda go? it should be able to hold off jitanas for a while.”

Oh my God, I almost forgot. The Panda baby should be able to hold on for quite some time. Let’s go. Don’t let go of the chance to show off. I’ll talk to them.

don’t let the warrior go first. Six-pipe Bodhisattva’s Panda baby is very strong and should be able to hold on to jitanas for a long time. The warrior should be ready to fill in the position after the Panda baby dies.

After ending his conversation with Zhang Shan, wind cloud blade said to the crowd.

“What the hell? It’s not a joke that brother artifact’s pet can withstand jitanas’s damage, right?”

that’s right. This BOSS is so powerful. Even his normal damage can reach 80000. How can he possibly survive this? ”

No one believed Windcloud blade’s words, except for the big shots in the wind and cloud Guild.

The others had never seen the baby panda before, so they couldn’t understand how abnormal it was.

don’t worry, it’ll definitely be able to hold on, at least for a while. Six-barreled Bodhisattva’s Panda baby has more than 130000 HP, and it can even reduce damage by 20%. It’ll be no problem at all.

“f * ck, how is this possible? how can a hunter’s pet have such high hp? is this a BOSS?”

yeah, this doesn’t make sense. A pet with 130000 HP is too fake.

“Don’t doubt it, but it’s the truth, hehe.”

Seeing the disbelieving looks on the others’ faces, Windcloud blade was very pleased with himself, as if the Panda baby was his own pet.

“How about this? warrior, get ready and let six-barreled Bodhisattva’s pet try to take the hit. Turn on peaceful mode and don’t accidentally hurt anyone. Change the mode after the BOSS is killed.”

Li Jing said.

“Then you support, you must pay attention to the Panda baby’s health. It can only withstand the boss’s damage twice at most. If you don’t heal in time, it will die immediately.”

Zhang Shan reminded everyone after summoning his panda baby.

“Don’t worry, brother divine weapon. Let’s go.”

According to the strategy that they had temporarily agreed on, Zhang Shan controlled the Panda baby to go forward and attack the boss.

As someone had already fought the boss before, the monsters near the boss had been cleared out.

Only Gitanas was left standing there alone.

When the Panda baby approached, jitanas instantly waved his staff, and a flaming meteor fell, dealing-60158 damage.

Gitanas’s normal attack almost took away half of the Panda baby’s HP.

The support on the field immediately added the Panda baby’s HP, and the others also began to attack.

f * ck, he really did it. That’s too awesome. No wonder you guys could clear the extreme mode dungeon. It’s really a BUG.

artifact bro is indeed the son of the game. Even his pet is so perverted. This is too much.

” f * ck, where’s the balance of the game? this pet can steal the job of a tank. ”

jealousy makes me go crazy. Why didn’t I find such a good pet? ”

maybe you're just too unlucky. Look at the six-barreled Big Boss. He can even get a divine artifact. It's not strange for him to get a powerful pet.

"Can a divine artifact be compared to this pet? No matter how powerful a divine weapon was, it wouldn't have much of an effect on a BOSS. This Panda pet is the same, it can tank almost all bosses at this stage."

that's right. With such an awesome pet, we'll be invincible in BOSS fights. We can easily get any equipment or items we want.

"Pay attention, support, don't stop healing. It doesn't matter even if the effect oversurges, there are many support anyway."

Under jitanas's attacks, the Panda baby's HP kept fluctuating.

When it was a critical hit, his HP was basically empty.

if it wasn't for the fact that there were enough supports on the field, the panda baby would have died a few times already.

Under the attack of a large number of elites from the major guilds, jitanas 'HP slowly decreased.

Due to the limited space, there were only a few hundred people who could actually attack the BOSS.

...

The attack range was different. The melee players surrounded the BOSS and attacked it with their knives.

However, their attack range was slightly shorter than that of archers and hunters. They stood on the second floor and started attacking.

Behind them were the archers and hunters. The hunters with the Eagle Eye skill stood at the outermost. relatively speaking, the hunter profession that stood at the outermost area was also the safest.

Unless Gitanas used a big move, hunters with Eagle Eye were basically not in danger.

when jitanas's health dropped to 80%, it started channeling and the BOSS was ready to cast a skill.

archers from afar, take turns firing meteor arrows. Try to interrupt the BOSS's skills.

God of War Li Jing was the commander of this BOSS battle, and he was constantly arranging battle tactics.

When he saw that jitanas had started casting, he arranged for a skill to interrupt it.

Even though the BOSS 'channeling bar would be reset after it was interrupted, the boss's channeling bar would still be reset.

However, it didn't matter. They had more people and more skills. If they kept interrupting the boss, it would last for a long time. They might even be able to interrupt it until the BOSS was killed.

...

another thing was that the BOSS would not use normal attacks while it was channeling.

He was like an idiot, channeling non-stop. Everyone was fighting a dummy monster.

At this moment, jitanas should be preparing to cast the fear skill.

all targets within a 50-yard radius of the BOSS will be affected by fear.

Including Zhang Shan's Panda baby, they would all run around uncontrollably, and it would be easy for things to go wrong.

Therefore, he would try his best to interrupt them.
