

Passive Skills 261

Chapter 261 destruction

zhang shan and the other three found a small group of wild monsters not far away. although there were few monsters here, the four of them could farm enough.

Most importantly, this place wasn't far from the place where the battle had taken place.

When they were farming monsters here, they could vaguely see the corpses lying on the ground.

Since he planned to camp the corpse, he had to be serious.

If they ran too far, they wouldn't be able to see the members of Guild Hu on the ground, and there wouldn't be any point in guarding.

If someone had secretly saved her, she might not even know.

"Brother Liu Guan, let's see what equipment you dropped."

Wind and cloud blade asked Zhang Shan nonchalantly.

They had fought many red bosses, and they would usually only drop one or two red equipment. If they were lucky, they might even drop a normal skill book.

As for better items, it wasn't that they wouldn't drop, but the chances were a little low.

The demon Lieutenant that they had defeated this time was not the first kill, so it did not even make the system announcement.

moreover, it wasn't the last one that the panda ball had destroyed, so the drops should be very ordinary and not worth looking forward to.

Zhang Shan opened his backpack to take a look. There were not many things.

He saw a red equipment, two orange equipment, and a red material.

Hmm, wait, why would there be a skill book here?

he did not remember carrying a skill book in his bag.

Not bad, this demon race minor Colonel even dropped a skill book, which was already very good.

what the hell, what kind of skill book was this?

initially, zhang shan had thought that it would only drop an ordinary skill.

If they didn't use it, they could put it up for auction and sell it for thousands of gold coins.

When he saw the name of the skill book, he realized that it was an impressive skill book that none of them had ever seen.

He did not need to look at the skill book's description in detail. Just by looking at the name of the skill book, Zhang Shan knew that they had hit the jackpot this time.

"Brother Yidao, you're going to give me a big red packet,"

Zhang Shan said to Windcloud blade teasingly.

"Did it drop something good that I used? I don't lack anything now."

Windcloud blade was a little confused. He now had a God-level weapon, and all the other equipment he had on him were red equipment.

He had also gathered all the berserker skills he needed. It seemed like he really did not lack anything.

Zhang Shan did not continue to tease them and showed them what he had dropped.

There was a red equipment, two orange equipment, and a red material. The most eye-catching item was the skill book.

[destruction: Berserker swings his battle axe, erupting with terrifying power and dealing 10x damage to surrounding enemies within a 50-yard radius. Mana cost: 20000. Cooldown: 24 hours. Class requirement: Berserker.]

"F * ck, this is an ultimate skill book? Haha, I'm going to have an ultimate skill too."

Seeing the skill book that Zhang Shan had displayed, Wind and Cloud Blade was ecstatic.

This was really an unexpected gain.

At first, he thought that he could just kill a BOSS, get some experience, drop some items, and earn some money.

Who would have thought that it would drop an ultimate skill book?

His luck was heaven-defying.

"What the f * ck, is snatching other people's bosses better? We've fought so many red bosses ourselves, but why haven't we seen such a good item drop?"

Zhang Shan said jokingly.

"Haha, you can't block it even if you're lucky. Speaking of which, was that last attack from me? I remember that the last hit that killed the BOSS was the special effect of the Holy Strike."

Windcloud blade asked smugly.

Zhang Shan did not pay much attention to it. He was nervous at that time and did not have the time to pay attention to this.

However, only Zhang Shan and Wind and Cloud Blade had divine weapons now. If he was not the one who destroyed it, then it was Wind and Cloud Blade who destroyed it.

It should have been six-barreled buggers. I saw that the last hit dealt more than 160000 damage. Your Holy Strike's effect can't deal such high damage, right? "

Follow me said to wind and cloud blade after recalling for a while.

“Is it like this? I thought it was because of my luck, but it turns out that it was because of brother six-eyed’s high luck!”

To be honest, Zhang Shan was also very surprised. He had originally wanted to control the Panda bear to get the last kill.

However, due to the urgency of the situation.

In order to prevent the boss from being snatched away by the opposing party, the Panda baby activated its skill a little too early and couldn’t directly kill the boss.

In the end, he only managed to destroy the demon Lieutenant after a few more hits.

He didn’t expect that he would get good things without the Panda ball’s kill.

Zhang Shan’s luck had always been very high. With 9 points of luck, he might be among the highest among the small group of players.

although it was not as powerful as the panda dumpling’s 10 points of luck.

...

However, Zhang Shan’s luck had never been bad. It was normal for him to have an outburst once in a while.

There were only four of them, and there was nothing much to split. Destruction was a Berserker skill, so Zhang Shan directly assigned the skill book to wind and cloud blade.

The other three pieces of equipment would be distributed according to their attributes.

Coincidentally, other than wind and cloud blade, of the three of them, Zhang Shan was an agility-type, boss Wu was an intelligence-type, and following the heart was a strength-type.

As for the red-colored material, Zhang Shan had given it to himself.

They were all on the same side, so there was no need to be too particular.

As for wind and cloud blade, he had already gotten such a huge bargain, so he had nothing to do with it.

after the four of them had finished dividing the items, wind and cloud blade gave each of them a red packet of five million gold coins.

This time, everyone had gained something.

I still need to get a special item that can increase the maximum mana. Mana isn’t enough for my ultimate move.

Windcloud blade said hesitantly after learning the destruction skill.

...

It could only be said that the ultimate skill book in the New World came out too early.

No one had enough magic to cast a big move.

Currently, the few players who could release their ultimate skills relied on special items that increased their maximum mana to keep up their mana.

Otherwise, no one would be able to use any big moves, not even an intelligence-type class.

who could have a maximum mana of 20000 at this time? everyone had just reached level 30.

No matter how much he added points and how much equipment he obtained, he couldn't increase his maximum mana to 20000.

For example, the wind cloud Cupid had bought a source of magic from Zhang Shan before he could cast the wrath of the stars.

Heart with me and Feng Yun realm had also bought the corresponding special items from the auction house to raise their maximum mana to 20000.

"Isn't that normal? After we're done hunting for bosses today, you should go to the auction house and get ready. Otherwise, it'll be so embarrassing if you can't use the skill after you've learned it."

well, I'll go back to the city tonight. I hope I can find it at the auction.

"that's hard to say. the auction house might not have such a special item."

"It's fine even if you can't buy it today. As long as you pay more attention to the auction house, you'll be able to buy it."

chapter 262 the storm rises

He had snatched a red boss from the opposing Guild Hu, and it had actually dropped an ultimate skill book.

Could it be that the boss was someone else's good? &Nbsp; hehe.

by the way, if ghostly Tiger knew that we just dropped an ultimate skill book, would he explode in anger?"

Zhang Shan said a little evilly.

"Haha, why don't I go and tell them?"

Windcloud blade said as he looked at the distant Phantom Tiger, who was still lying on the ground.

"forget it, let's not provoke them anymore. we'll guard them until they resurrect in the city and then leave. Let's go find a BOSS, we're not going to play with them anymore."

Killing and guarding the corpse was to teach this group of foul-mouthed guys a lesson, but there was no need to kill and destroy the heart.

After killing them, they would tell them that they had stolen an ultimate skill book from their BOSS. That would be akin to killing them.

After Zhang Shan and the others had been farming monsters for a while, the members of Guild Hu who were lying on the ground chose to resurrect in the city one after another.

They also knew that Zhang Shan and the other three were really planning to stand guard for an hour.

These people from Guild Hu didn't continue to insist.

Moreover, this place was quite Far From Heaven's Gate.

Time might not even be enough now.

Under the leadership of ghostly Tiger, the Guild members returned to the city one after another to revive.

"Eh, they seem to have gone back to resurrect?"

Boss Wu said in the team channel.

Zhang Shan and the other two looked into the distance. It was true. The Guild members who had been lying on the ground had all disappeared.

"haha, they're so foul-mouthed that they've dropped a level."

Wind and cloud blade said happily.

"Then let's go and continue looking for bosses. I hope we can kill a few more."

it's so boring to fight the BOSS by yourself. Wouldn't it be better if someone else fought the BOSS as well? we can just snatch it, hehe.

"F * ck, are you addicted to snatching?"

follow your heart's ultimate skill is still on cooldown. There are only four of us, so we might not be able to snatch the BOSS from the others.

"Haha, I'm just saying, don't take it seriously."

"Sigh, the BOSS is still better at someone else's house."

"Stop pulling and run faster."

The four of them galloped on The Map of Heaven's Gate, following them further and further away.

There were almost no other players to be seen now.

This was normal. The Map of Heaven's Gate was so big.

They could farm monsters everywhere, so there was no need for them to come here.

As for the individual players that they occasionally saw, they were probably looking for bosses like them.

After Zhang Shan's group of four had run for a while, someone shouted in the Guild channel.

"Brother one blade, did you guys just steal someone else's BOSS? Someone is scolding you guys on the world Channel."

“Don’t bother, let them scold.”

“did you guys really steal someone else’s BOSS?”

“Yeah, I ran into a bunch of trash, so I stole their BOSS.”

Windcloud blade said smugly.

f * ck, that’s exciting. Why didn’t you invite us to do such a good thing? ”

what are you shouting for? we just wanted to find some bosses to fight. Who knew that we would be ambushed by those trash? we almost died.

“What? That’s impossible. The four of you have three divine weapons and one ultimate skill. How could you not be able to defeat others?”

I wasn’t paying attention and three of us were shot by the meteor arrows. What else can we do? we’re in despair too. If it wasn’t for six-barreled’s rebirth skill, we might still be lying on the ground.

haha, you just got a divine weapon and you’re already so smug. You almost screwed up.

” hehe, that’s jealousy. now, i’ll show you something that you’re even more jealous of. ”

After saying so, Windcloud blade displayed the destruction skill he had just learned in the Guild channel.

“F * ck, where did you get that ultimate skill book? Don’t tell me it was dropped from stealing someone else’s boss?”

“Haha, yes. kill a boss and get this skill book.”

“F * ck, your luck is heaven-defying.”

“It’s alright, hehe.”

Time passed slowly. Zhang Shan and the other three had been running around the Heaven’s Gate map for an entire day.

Other than snatching a red boss from the hands of the opposing Guild Hu, they had also found three other bosses.

However, there were no red bosses among them. There were two orange bosses and one purple boss.

...

Without much effort, the four of them killed the boss.

However, the three bosses did not drop any valuable items.

There were only a few pieces of trash orange and purple equipment. They might not even be able to be sold in the auction house.

He might as well return to the city and directly throw it into the Guild warehouse to exchange for some contribution points.

the four of them ran further and further away. zhang shan looked at the mini-map. they were near heaven's gate pass. even if they rode a horse, it would take at least four to five minutes.

This map was really big.

Just as Zhang Shan and the other three were running and preparing to find the next boss, wind and cloud blade suddenly said.

wait a minute, quickly look at the world Channel. It seems like traversing Four Seas is fighting with Subjugator.

let them be. We don't need to care about this. We just need to find the boss.

Zhang Shan would not care about the life and death of the Dragon King of the East Sea, even though two to three months had passed.

However, he still remembered that the Dragon King of the East Sea had brought people to Dangyang city to find trouble with him.

...

Now that they had encountered Guild Subjugator, they probably would not have a good ending.

that's right, why bother with them? let's fight a few more bosses. I'm about to level up.

Heart moves also echoed.

In addition to the red boss that they had stolen earlier, they had killed a total of four bosses.

Zhang Shan had already reached level 33, and now he had gained another 20 million experience.

The other three were about the same, almost at level 32.

The four-man team had firmly occupied the top four places on the level ranking.

The experience from fighting bosses was still the best. The experience they had gained today was more than what they had gained in the past three or four days.

It was a pity that bosses were rare. It would be perfect if there were bosses to fight every day.

Especially those small bosses, even though their drops were trash.

However, the experience points he gained were considerable.

And it was especially easy to fight, even Zhang Shan could fight it alone.

zhang shan's group of four did not bother with traversing four seas. they did not care about the conflict with guild subjugator.

The four of them continued to run deeper into The Map of Heaven's Gate.

Not long after, wind and cloud blade spoke again.

the situation doesn't seem right. It seems like Guild Subjugator isn't only targeting traversing Four Seas, but all of Chu's players as well. We won't be dragged into this mess, right? "

“What’s this? Did the domineering King take the wrong medicine? although they are indeed strong, we are not to be trifled with. Are they really ignoring our Guild?”

Zhang Shan was very puzzled. You can just target traversing Four Seas, but the other Chu players did not provoke you.

Moreover, most of the players from wind and cloud Guild were farming monsters. There was no conflict between them.

that’s just how arrogant the tyrant king is. I’m not surprised that he swept away the other Chu players while he was fighting traversing Four Seas.

Wind cloud blade explained to Zhang Shan.

zhang shan did not really understand these big bosses. he had never interacted with these people before.

Chapter 263 The magic bead

Based on what Windcloud blade said, their Guild, Windcloud, might really be implicated.

Zhang Shan was very unhappy. This domineering King, was he so arrogant?

Even though domineering aura was indeed very strong, the most important thing was that it was an old Guild.

the popularity of the domineering aura guild was very high. most of the players from the kingdom of qin could be ordered around.

One must know that there were many players who chose the Qin country. Close to 40 million players had chosen the Qin camp.

This domineering King had mobilized tens of millions of players, not to mention the wind and cloud Guild.

Even if the three great guilds of Chu were to join forces, they wouldn’t be able to stop them.

The wind and cloud Guild’s appeal was not good. Other than the Guild members, they could not order the other Chu country players around.

If they were to really fight, the other party would be fighting in an organized Alliance, while the Chu country would be fighting on their own.

He was afraid that he really couldn’t defeat domineering aura.

This was also the reason why the domineering King dared to arrogantly target the players of Chu.

Zhang Shan opened the world Channel to take a look.

you Qin players must have taken the wrong medicine. I’m just a Smurf farming monsters at heaven’s gate, and you guys are also killing them.

“so what if i kill you? if i see anyone from chu, i’ll just kill them. if you’re not happy, just go offline and stop playing.”

“You people from Chu State, stop playing around. If you see anyone, just kill them.”

stop bragging. If you have the ability, go and kill six-barreled Bodhisattva. You guys only dare to bully us civilian players.

so what if he’s six-barreled Bodhisattva? if he dares to show his face, I’ll chop him into pieces.

Zhang Shan had been unjustly implicated. What did it have to do with him?

He was only looking for the BOSS now. He wouldn’t really be implicated, would he?

“What happened? Is this going to trigger a country war?”

it’s still too early for a World War. However, it was clearly Guild Subjugator and Guild traversing Four Seas that started the war. How did the other players from Chu get involved? ”

cutting the grass to kill the rabbit. To domineering aura, cutting down one person is the same as cutting down an entire country.

“How can you be so arrogant? The Chu country is not weak. Other than traversing Four Seas, there’s also the wind and cloud Guild and the unfettered Guild.”

“that’s useless. the domineering king is leading an army of ten million. he’ll kill anything that stands in his way.”

“f * ck, is it that awesome?”

domineering King, Don’t f * cking go too far. If you can’t let me play with you, I can let you too.

it seemed that the dragon king of the east sea had been beaten to a pulp and could only threaten him with his saliva.

“You can’t stop me from playing? Don’t think too highly of yourself.”

The domineering King didn’t care about the Dragon King of the eastern sea’s threat.

“Brothers of the state of Qin, gather up and teleport over together. We’ll massacre the DreamCloud city. I’ll pay the teleportation fee.”

Right after the Dragon King was defeated, Subjugator immediately summoned his Army on the world Channel.

‘F * ck, this must be fake.

Teleport to DreamCloud city and slaughter the entire city? Could the domineering King really afford to pay for such an expensive international teleportation fee?

A single cross-country teleportation cost 1000 gold coins, which was not a big problem for an individual.

However, if the domineering King were to be responsible for the teleportation fees of all the players in the state of Qin, it would be a little too much.

not to mention tens of millions of players, just a few million players would be sent over.

The teleportation fee required was also very frightening.

“Is the domineering King serious? Do you think the domineering King can afford to pay for so many people?”

Zhang Shan asked wind cloud blade, puzzled.

Wasn't this just messing around? He even started to massacre the city.

“it's hard to say. domineering aura doesn't need to send too many people. as long as they're well organized, it's not impossible for them to massacre a city with hundreds of thousands of players.”

“F * ck, if they really let people slaughter the cities of our Chu State, then what's the point of playing? should we also go over?”

the fate of traversing four seas was none of zhang shan's business.

However, they couldn't just let the city be destroyed.

Although it wasn't the city where the wind and cloud Guild was located, it was still a city in Chu State.

If they continued to sit by and do nothing, it would not look good on their faces.

“Wait a moment. I'll ask freedom King if they're also from cloud dream city and if they want us to help them.”

Speaking of which, the domineering King was indeed arrogant. There were two major guilds in DreamCloud city.

He also dared to cross the city. He really didn't have any respect for others.

After all, they were fighting in their own territory.

If they provoked the other party and died, they would revive in the city without waiting for the support to save them. At most, they would lose one level of experience.

Not long after, wind and cloud blade said to Zhang Shan.

...

I don't think we need to go there yet. Freedom King was just saying that domineering aura is not really going to attack the city. Cloud dream city has already organized a group of people to block the teleportation Hall.

“What's the meaning of this? Could it be that the Overlord was just talking big?”

I don't know, but we have to be prepared. We can't let people really massacre the city.

Windcloud blade could not understand what domineering King was trying to do.

However, it was always good to be prepared.

you guys wait here for a while. I'll go back to the city and see if I can buy you a special item that increases your maximum mana. If we fight later, your ultimate skill will be useful.

Wind and cloud blade had just learned the destruction skill.

This ultimate skill was extremely powerful, even more powerful than invincible slash, and dealt ten times the damage.

However, wind and cloud blade's maximum mana was not high enough, so he could not use this skill.

Zhang Shan had a positioning bead. As long as he set the coordinates here, he would be able to return very quickly. It was very convenient.

alright, then help me go back and take a look. If there's one, buy it first.

...

zhang shan used the positioning ball to mark the coordinates of his current position. then, he teleported back to the auction house in dangyang city.

He had set the location here yesterday.

He checked the special items in the auction house. The items on the auction house were already very rich.

Other than a few top-grade items, most of the items could be found in the auction house.

After all, with so many players, the things that you couldn't get didn't mean that others couldn't get them.

zhang shan quickly browsed through the special items in the auction house, and he really found a suitable one.

[magic bead (orange): special item. Increases maximum mana by 20000.]

This f * cking attribute, and then it was gone.

increasing the maximum mana by 20000 was similar to the mana pool, but the mana pool had a mana recovery effect.

furthermore, the recovery rate was extremely fast, even for an intelligence-type job, if they were equipped with the mana pool.

He didn't need to bring Xiaolan along.

However, this magic bead did not add anything. It only increased the maximum mana by 20000.

this thing had limited use, except for those who had ultimate skills and could not cast enough magic.

Who would still want such a thing?

Most importantly, it was unknown which black-hearted player had put this magic bead up for auction.

The starting bid was 50 million gold coins, and the buyout price was also 50 million gold coins.

That was too f * cking black-hearted.

The only good thing was that this magic bead was not bound to him. He could sell it when he was not using it.

Chapter 264 the king of picking up scraps

Zhang Shan looked at the price of the magic bead and hesitated.

It was really too expensive.

Previously, Zhang Shan's source of magic had only been sold for 50 million gold coins when he sold it to the wind cloud Cupid.

In terms of effectiveness, the source of magic was way better than this magic bead.

Zhang Shan was a little reluctant to buy it, even though wind and cloud blade was in urgent need of such an item.

But he didn't want to be a sucker.

Forget it, I'll just ask Windcloud blade. In any case, I'm helping him buy it.

Zhang Shan did not say anything. He was only helping to run the errands.

There was nothing to be conflicted about. He would let wind and cloud blade make his own decision.

Zhang Shan called wind and cloud blade in the team channel.

after displaying the attributes of the magic bead, he said, "

this is the only item in the auction house for 50 million gold coins. You can't find another one. Do you want to bid for it? "

" just bid for it. it doesn't matter if it's expensive as long as it's effective. moreover, this magic bead doesn't need to be bound to players. in the future, several people can take turns to use it. "

Alright, the person who paid had no objections. Zhang Shan did not have to worry about it. He spent 50 million gold coins and won the magic bead.

Fortunately, during the monster siege event yesterday, he had sold the Arsenal token he had received for 20 million gold coins.

Otherwise, he would not have enough money.

After helping blade of wind and cloud win the magic orb, Zhang Shan looked at the cooldown time of the positioning orb.

he still needed two more minutes before he could use the positioning ball again.

He might as well look at the other auction items in the auction house.

Zhang Shan first scanned through the materials that he could use and bid for everything that was worth the price.

Then, he looked for an engineering recipe, but there was still nothing.

There were only a few dozen blueprints, all of which were below level 3, and he had no use for them at the moment.

What Zhang Shan needed now was a blueprint above level 3. Were these items so rare?

Or did he need too many people?

Logically speaking, there shouldn't be too many players who chose an engineering lifestyle class.

Forget it, if there's nothing, then there's nothing. I'll get it in the future.

Zhang Shan looked around to see if he could pick up some divine materials or something.

However, there was still nothing.

Forget it, the positioning ball's cooldown time was not up yet.

Zhang Shan was casually browsing through the auction house. When he saw one of the auction items, he could not believe his eyes.

what is this? why is it sold so cheap?

[broken iron sheet: a broken iron sheet with a mysterious aura. its origin is unknown and its use is unknown.]

This should also be a godly weapon mission item, but it was similar to the damaged ring that Zhang Shan had obtained previously.

There were no hints, and the players had to explore on their own and try their luck. If he really found the NPC that triggered the quest ...

Then it was very possible to get a divine artifact.

However, what was this metal plate? what kind of divine artifact was it?

Zhang Shan thought for a long time, but he could not be sure.

let's take a picture first. i wonder which wastrel put up this broken metal piece.

It was only sold for one gold coin. It must have been dropped by some ignorant guy who killed some monsters and threw it at the auction house as garbage.

Otherwise, they wouldn't have sold it so cheaply.

Haha, I didn't expect to have such a big harvest on this trip.

Today was a lucky day.

Other than helping Windcloud blade obtain an ultimate skill book, he did not expect to find a divine weapon quest item in the auction.

What a f * cking magical day.

The fun in the game was really wonderful.

zhang shan kept a screenshot of the broken iron sheet's attributes, and then teleported to the warehouse.

first, he would store this thing and the materials he had just bid for.

There might be a big battle later, so he couldn't carry it on his back. If he accidentally died and it dropped, he wouldn't even have a place to cry.

After the cooldown time of the positioning ball had ended, Zhang Shan immediately teleported back to his previous position.

Boss Wu and the other two were still waiting for him.

Zhang Shan said after passing the magic bead to wind and cloud blade.

"This thing is too expensive. It's not worth the price."

50 million to buy such a thing, he was really a spendthrift.

...

"It's fine. I'll just earn back the money I spent. An ultimate move is very useful now. Many times, a big move can turn the situation around, so no matter how expensive it is, you have to buy it."

After wind and cloud blade finished speaking, he transferred 50 million gold coins to Zhang Shan.

actually, what wind and cloud blade said was not wrong. after all, there were still very few ultimate skills currently.

Every ultimate skill, as long as used, had the effect of turning the situation around.

Although the wind and cloud Guild already had four of them, it didn't mean that there would be many in the game.

Zhang Shan estimated that in the entire game, the number of ultimate moves that could be used would not exceed 20.

It might not even be ten.

"What are we going to do now? are we going to continue looking for the boss?"

Zhang Shan asked wind cloud blade.

Right now, they still had to pay attention to the Guild's movements. If they really went to DreamCloud city and massacred the entire city ...

Traversing Four Seas and the unfettered Guild might not be able to hold out, and when that time came, the wind and cloud Guild would have to go over and provide support.

...

“Let’s continue to look for the boss. i’ve just talked to the boss. if the domineering aura guild teleports to dreamcloud city, we’ll all return to the city. At that time, we’ll see if we should go to help the cloud dream city or launch a counterattack and massacre the LAN Tian city.”

“holy sh * t, that’s a good idea. since they dared to come to the city of chu state, why can’t we go to the city of qin state? we’ll do it.”

“Let’s talk about it later. Let’s continue looking for the boss first and talk about it when we start fighting.”

The four of them continued to look for the boss. The outside world was already in chaos, but as long as they didn’t attack the cities of Chu State ...

She couldn’t be bothered with him.

No matter how arrogant domineering aura was, they would not go to beast King Valley.

As for the other conflicts at heaven’s gate, Zhang Shan could not be bothered with them. Wasn’t it better to fight the BOSS?

After running for a while, Zhang Shan finally remembered the broken metal piece that he had just taken a picture of. He sent the attributes of the previous screenshot to the team channel and said.

“Take a look, is this a divine artifact mission item? What type is it?”

Seeing the screenshot that Zhang Shan had sent, the other three were stunned.

“where did you get this?”

Boss Wu asked curiously. Zhang Shan had only returned to Ying city. Where did he get this thing?

“Uh, I saw it at the auction house, so I bought it for only one gold coin.”

“What the f * ck, you’re the king of picking up scraps, right? you’ve already picked up divine artifact mission items from the auction house twice. Ever since you mentioned it last time, I’ve been going to the auction house every day, but I’ve never found anything good.”

Windcloud blade said with jealousy.

that’ll depend on luck. I’ve been going to the auction hall every day since the game started. After so long, I only managed to get these two.

Zhang Shan did not think that he was a freeloader. After such a long time, he was the only one who knew the secret.

It should be considered normal for him to only be able to buy two items at the auction.

Chapter 265 Becoming master Dao

There were too few God equipment mission items. From the start, Zhang Shan had been collecting items in this area from the auction house.

However, after so long, he had only managed to get one.

He didn't know how his luck had exploded today, but he had picked up another item at the auction house.

At present, the only people who knew how to obtain the divine weapon were the big bosses of the wind and cloud Guild that Zhang Shan had told them about.

The other people in the game still didn't know how divine weapons came about.

Zhang Shan thought about it. He was still not sure what type of broken iron plate he had just gotten. It was probably not for his own use.

The Hunter's defensive equipment was leather armor, and their weapon was a flintlock. As for accessories, they did not match iron plates at all.

"This iron plate, which part of which profession do you guys think it's from?"

Zhang Shan could not be sure himself, so he could only ask wind and cloud blade and the other two.

I can't guess, but it's definitely not for your own use. You hunters basically don't have any iron products except for flintlocks.

then it's not an intelligence-type either. Intelligence-type players are fully equipped, but they don't have any iron.

Heart with me said excitedly.

"Isn't that a strength-type equipment? Brother Liu Guan, can you sell this to me?"

Of course, it was not a problem to sell it to him. To Zhang Shan, it did not matter who he sold it to, as long as he paid.

But the problem was that these metal plates might not be used by spellblades.

What if his heart was moved by me for a long time, and he didn't make it for his own use? wouldn't that be a trap?

uh, brother heart follows, although this metal piece should be a strength-type God equipment quest item, it might not be for spellblades.

that's right. I feel that this broken metal piece looks more like a shield.

wind cloud blade chimed in.

"eh, now that you mention it, this thing does look like a shield."

Zhang Shan looked at the screenshot carefully.

Although this divine weapon was severely damaged and only had this broken metal piece left, it was still a divine weapon.

However, he could still see the shadow of a shield.

if he's really a shield, then the little Secretary might have to rise up. Brother six-guard, use all your strength to kill him. No need to be polite, hehe.

Wind cloud blade said happily.

I hope he's not a shield. It wouldn't be good if he tricked the little Secretary.

Zhang Shan said hesitantly.

who cares if it's a shield or not, just sell it to the Secretary. Besides axes and swords, he can use any other strength-type equipment.

that makes sense. This iron plate shouldn't be an axe, nor a sword. If it's not a shield, then it must be an armor. I'll sell it to the Secretary.

Zhang Shan also felt that there was no problem. He first called the little Secretary and asked if he wanted it.

"Little Secretary, I just made a divine artifact mission item. Do you want it?"

After he finished speaking, Zhang Shan shared the attributes of the broken iron piece with him.

what? six-barreled boss, where did you get this? "

"I bought it at the auction."

holy sh * t, that's awesome, Big Boss. You can really pick up a good deal from the auction house.

"hehe, luck."

which part of this divine artifact is this? how can I turn it into a real divine artifact? "

"I can't say for sure. It looks like a shield. As for how I can make the words into a real divine weapon, it will depend on luck. You know Yi Dao's divine axe. He spent a long time to get his hands on it. "

Zhang Shan did not want to trick him. He had to make it clear that a divine weapon was not something that could be obtained just because there was a quest item.

If he was unlucky and this item rotted in his hands, he might not be able to make it into a true divine artifact.

"i really want a divine artifact. it would be great if it was a shield. How many gold coins are you planning to sell it for?"

A divine weapon could be said to be priceless, even if it was just a mission item. There were still a series of problems to be solved before he could obtain a divine weapon.

But even so, this broken metal piece was not cheap.

name your price. If the price is right, I'll sell it. I don't need it anyway.

Zhang Shan did not know how much would be appropriate. Normally, one billion or eight hundred million might not be enough, but one or two hundred million gold coins should be enough.

“Then wait a moment, I’ll ask the boss first.”

alright, I’ll put the items in the Dangyang City warehouse. We can trade them in the future.

Zhang Shan had always been unsure of the relationship between the little Secretary and Feng Yun realm. Could he really be Feng Yun realm’s Secretary?

However, the Secretary was a man. Feng Yun realm found a male secretary?

It didn’t take long for Secretary Feng Yun to reply.

“Six-barreled Big Shot, how about 200 million gold coins?”

“Sure, call me when you return to the city and we’ll trade at Dangyang city’s warehouse.”

...

By right, things related to divine artifacts should be worth more than this price, but there were too many uncertain factors. The little Secretary held the broken iron sheet.

He would definitely be able to make it into a divine artifact.

therefore, it was acceptable to sell it for 200 million.

If Secretary Feng Yun really made a God-tier shield, then his defense and HP might even surpass the Panda bear.

I’ll go back now. I’ll get the item first and then run around to see how I can trigger the mission.

“Alright, I’ll be waiting for you in the Dangyang city’s warehouse,”

A godly item was really attractive. Seeing Secretary Feng Yun’s anxious look, Zhang Shan was reminded of himself back then.

Spending 10,000 gold coins to teleport to the East Capital on the second day of the game was like throwing away everything he had.

One must know that the exchange rate of gold coins at that time was very high.

since secretary feng yun was in such a hurry, zhang shan could only make a trip back.

While the four of them were riding their horses, Zhang Shan spoke on the team channel.

...

wait for me here. I’ll go back and trade the broken iron sheet to the little Secretary.

“Oh my God, is the little Secretary in such a hurry?”

“Then you go back first. We’ll just wait for a while. You’ll be back soon anyway.”

Zhang Shan canceled the previous positioning and remarked the coordinates at the current position. Then, he started to channel the return Channel to the city.

This time, he didn't want to wait for another three minutes of his cooldown time, so he decided to just cast it back.

When Zhang Shan arrived at Dangyang city's warehouse, Secretary Feng Yun was already waiting there.

He took out the broken iron sheet from the warehouse and traded it to the little Secretary.

at the same time, secretary feng yun transferred 200 million gold to zhang shan.

As the saying goes, "a small capital brings ten thousand profits." This time, Zhang Shan was making a hundred million.

At the auction house, he only spent one gold coin to buy this broken iron piece.

He sold it to the Secretary for 200 million gold coins. It was an exaggerated profit.

And this was Zhang Shan's friendly price, if he was willing to completely disclose the way to obtain the divine weapon.

It could definitely be sold for a higher price.

of course, there was no need for this. as for how he had obtained the divine artifact, it was better to keep it a secret for as long as possible. who knew, in the future, he might be able to get something good from the auction house.

One must have dreams.

chapter 266-army at lan tian city

Feng Yun's Secretary asked Zhang Shan after getting the broken iron sheet.

"Brother Liu Guan, where should I start with this? I don't even know how to start."

it's hard to say. The ring I had previously was carrying the quest item. I ran through both items and it took me five days before I found the NPC who triggered the quest.

Although Zhang Shan had already gotten his hands on two God-tier equipment and had experience, he was still the one who had to give Secretary Feng Yun some pointers on how to get God-tier equipment.

That would be a little difficult for him.

there was no fixed method for this thing. zhang shan did not know where to start, but he just had to bring the quest item and run around.

sigh, this seems a little difficult. If we can't find the NPC that triggers the mission, then we'll be wasting our time.

Feng Yun's little Secretary said with a bit of hesitation.

it depends on your luck. You can also take this item and go to both places. I think the divine weapon mission can only be triggered in the capital city.

hehe, that's good. It's fine as long as there's a range. If we have to run all over the world, it'll be difficult.

"You can go and look for ou Zi from the East Capital first. Wasn't he the one who repaired Yidao's divine weapon axe? lil 'ou is a divine craftsman. you should look for him first and see if you can trigger a mission."

Zhang Shan said after some consideration.

Ou Zi was a divine craftsman. If it wasn't for the decline of the human race's luck, he could have forged a divine weapon.

Of course, repairing a divine weapon was a piece of cake. He just didn't know if ou Zi would let his little Secretary trigger this task.

"That makes sense. I'll go take a look first."

after little secretary feng yun finished speaking, he teleported away.

Zhang Shan could not help but shake his head. He was really anxious.

After the transaction was completed, Zhang Shan used the positioning Pearl and teleported to the place he had previously located.

He had earned 200 million gold coins in one go, and now his savings had reached 270 million gold coins.

He was definitely a rich man.

"Done. Let's continue to look for the boss."

After Zhang Shan returned, the four of them continued to ride their horses and advanced on The Map of Heaven's Gate. Looking for bosses was a delicate task and required patience.

If they were unlucky, they might not even find a single boss even after a few days.

They weren't in a hurry and took it slow. They would just treat it as exploring the map.

In any case, they had already killed four bosses today. It was a fruitful day.

Even if they couldn't find anything after that, it wouldn't be a loss.

Just as the four of them were about to kill another BOSS ...

Unfortunately, before they could run for long, wind cloud blade suddenly said in a serious tone.

" let's go back to the city. the domineering aura guild has really teleported to dreamcloud city. "

After he finished speaking, he got off his horse and started to read.

Holy sh * t, it really came.

Zhang Shan and the other two also dismounted and returned to the city.

This f * cking domineering King was also a troublemaker. He liked to cause trouble.

With this, the matter was no longer as easy to resolve. Unlike peerless, domineering aura was not an easy opponent.

although peerless guild was also the top guild in the game, there was still a gap between the top guilds.

Especially the top few families, the gap was very obvious.

This time, they were going against domineering aura. They would probably have a lot of fun in the future.

After returning to the Guild's base, Zhang Shan realized that the members of the Guild had gathered in the base, and they were densely packed.

Although they had long known that the wind and cloud Guild had 50000 members, it was still rare for all of them to gather in the Guild residence.

At this moment, Feng Yun realm said in the Guild channel.

the domineering King has already led the players from the state of Qin into the DreamCloud city. The Dragon King of the eastern sea and King Xiaoyao were unable to hold them back. The players from the state of Qin are now massacring the people in the DreamCloud city.

they killed so many players that they didn't dare to stay in the city. Some of them were even killed and went offline.

"Holy F * ck, is the domineering King that ruthless? then what should we do? what should we do? Boss has spoken."

"We're not going to help cloud dream city. There's no point in doing so now."

I plan to lead a group of people and directly teleport to the kingdom of Qin's LAN Tian city. We'll directly attack the domineering Aura's base.

the rest of you, stay in Dangyang city and focus on the area around the teleportation Hall. I suspect that the domineering aura Guild has gotten addicted to killing. They might come to Dangyang city after they've massacred DreamCloud city.

f * ck, if they dare to come, we'll cut them all into pieces. Do they think that we, the wind and cloud Guild, are as weak as the Dragon King of the eastern sea? "

the wind and cloud guild was not weak. after farming in beast king valley for so many days, they had become stronger.

Currently, almost all of the Guild's members had reached level 30. Their overall strength was not any weaker than that of domineering aura.

Moreover, they were fighting on their own territory. If domineering aura really came to Dangyang city, they would be overthinking things.

don't be careless. Under the lead of the domineering King, the Qin players are very strong.

Feng Yun realm continued.

...

“But don’t worry too much. They won’t send too many people at a time. After all, it costs a lot to teleport across countries. If too many people come, even if they win, it will be a loss.”

Even Zhang Shan felt that it was a little unbelievable. The domineering King was really arrogant.

they directly killed their way into other people’s cities.

Although the NPCs in the city would not care about the conflicts between players, to the NPCs, it was not a big deal.

all players were the same, no matter which camp they were from.

there was no difference. when players went to other countries, not only could they kill people, but they could also buy supplies from foreign npcs.

however, the npcs did not care. there were even more players in other cities. no matter how strong the qin players led by the domineering king were, they would not be able to survive.

it wouldn’t be able to withstand other people’s human wave tactics.

One had to know that a city had tens of millions of players.

It was a terrifying power.

Zhang Shan could not help but admire the domineering King a little. He was really daring.

...

“How many people do we need to go to LAN Tian city?”

Someone asked in the Guild channel.

“There’s no need to send too many, just five thousand will do. our main purpose is to harass them. after we rush out of the teleportation hall, we will split up into 51 teams and spread out to every corner of the city. kill anyone we see, don’t hold back.”

then let’s set off quickly. While the main force of Guild domination is still in DreamCloud city, we’ll go and kill them.

get ready quickly. Form a team of 50 people. Once you’re done, gather at the teleportation Hall and teleport there together.

After Feng Yun realm’s arrangements, all the Guild members who wanted to go to LAN Tian city to massacre the city quickly formed their own teams.

They had to pay for their own teleportation fees and Feng Yun realm did not say that they would be reimbursed for their teleportation fees.

However, other than a small number of members, most of them should have no problem paying 1000 gold for the teleportation fee.

After all, the wind and cloud Guild didn't recruit just anyone. If he didn't have some strength, he wouldn't have been able to join the wind and cloud Guild.

"Brother Liu Guan, let's team up?"

Feng Yun realm had invited him to join the party.

Zhang Shan thought for a while and rejected.

"I'm not going to form a team with you guys. After you guys charge into Lan Tian city, I'll lead some people to block their teleportation hall and stop their reinforcements from coming back. I'll let you guys kill for a longer time in the city."

Chapter 267 massacre in the city

Zhang Shan refused to form a team with Feng Yun realm and the others to enter the city to kill.

This was Zhang Shan's decision after serious consideration. The wind cloud Guild wanted to destroy LAN Tian city.

They had to stop the other party's reinforcements first.

As long as they appeared in LAN Tian city, a large number of players from the state of Qin would enter the teleportation Hall and flood into the city.

In that case, they wouldn't be able to kill many people in the city and would be driven back very quickly.

As for massacring the entire city, that was simply impossible.

They had to first block the other party's reinforcements outside the teleportation Hall. That way, the people of wind and cloud Guild could kill as much as they wanted in blue field.

Zhang Shan was the most suitable for such a matter. For a cannon like Zhang Shan to go into the city to kill normal players, it would be a waste of combat power.

Blocking the door and blocking the road was his specialty.

Even though the players from the state of Qin could teleport away after they rushed out of the teleportation Hall, they could not teleport.

However, there would always be a slight pause at the moment of rushing out of the teleportation Hall. When people were changing spaces, they would always be a little slow.

At this moment, it was the best time for Zhang Shan to unleash his power.

If one of them rushed out, he would take down one. If a group rushed out, he would take down a group.

With Zhang Shan's strength, as long as there were not hundreds of people rushing out in an instant, he could hold them off.

Moreover, he could not possibly go to the teleportation Hall alone. Zhang Shan had to ask Feng Yun realm to arrange more manpower for him.

how about this, you and I will lead the team and block the teleportation Hall of LAN Tian city. The rest of you will go to the city to kill.

“Sure, you can team up.”

it was even better to have feng yun realm blocking the teleportation hall.

This Big Shot still had an ultimate move. If too many people rushed out of the teleportation Hall at once ...

Feng Yun realm’s rain of fire could clear the enemy.

The team was quickly organized. Zhang Shan and Feng Yun realm took the lead and were first to teleport to LAN Tian city in the country of Qin.

This was also the current situation. Zhang Shan was someone who did not lack money, if it was at the start of the game.

He was really a little reluctant to pay. The teleportation fee was 1000 gold coins, which was really expensive.

when zhang shan and the rest appeared in lan tian city, near the teleportation hall, there were still a few qin players scattered around.

He was just planning to go to another place through the teleportation Hall.

Zhang Shan did not say a word. His bullets flew out rapidly. Wherever his gaze landed, as long as the enemy camp players had purple names, they were all knocked down.

It didn’t matter which country they were from, or which city they were from, as long as their names were purple, they would all be defeated.

some of them might even be new players who had just been teleported to lan tian from the novice village.

he was still wearing the newbie’s clothes.

Zhang Shan did not care about this. Before they came, everyone had changed the PK mode to the National mode.

As long as they weren’t local players, they didn’t need to hold back and would kill them all.

Under Zhang Shan’s control, the other members of the wind and cloud Guild teleported over after they were teleported to the outside of the hall.

The moment they arrived at LAN Tian city, they immediately charged out on their horses.

If the domineering aura Guild could go to the cities in Chu, then the wind and cloud Guild could naturally go to the cities in Qin.

As the members of wind and cloud Guild rushed into LAN Tian city, the local regional channel instantly exploded.

“F * ck, why are there so many foreign players in the city?”

f * ck! The wind cloud Guild is attacking our blue field city.

” where are our people? where’s the domineering king? come back and kill those from wind and cloud guild.”

the domineering King has gone to the DreamCloud city. Tell him to bring his men back.

From LAN Tian city’s regional channel to the state of Qin’s national channel, there was a wave of cheers.

Have the domineering King bring the others back as quickly as possible.

What the f * ck was this? he went to slaughter someone else’s city and ended up with his own lair being destroyed.

At this moment, Subjugator was massacring in DreamCloud city. Suddenly, he heard that the wind cloud Guild had arrived at their LAN Tian city.

He was dumbfounded. In the image of the domineering King, Feng Yun realm was not such a barbaric person.

Why did he end up like him, killing his way into someone else’s city on impulse?

However, even though he was still in a daze, he quickly called for the players from the other two cities in the state of Qin to go to LAN Tian city to provide support.

He was having a good time killing in DreamCloud city, and he didn’t want to go back for now.

Besides, the Dragon King of the East Sea and King Xiaoyao were also organizing the resurrection of the people who had just been defeated.

They were prepared to fight the domineering aura players head-on.

if he were to return now, wouldn’t people think that he, domineering king, had been killed by traversing four seas and getaway?

that wouldn’t do. there weren’t many of them who came this time. including those who had fallen, there were less than 200000 people.

At this time, there were many players left in the state of Qin. Even without them returning, they could still kill the wind and cloud Guild.

...

The domineering King’s plan was pretty good. He wanted both face and substance.

The other Qin players also reacted.

those who were originally from lan tian city, as long as they were not in the city, they would start channeling bars to return to the city to support.

As for the players from Tianshui city and Liangzhou city, they were going to use the teleportation Hall to go to LAN Tian city to help.

Around 5,000 to 6000 players from the wind cloud Guild swarmed into LAN Tian city. Each team consisted of 50 players, and they killed whoever they saw.

Even though the number of players in LAN Tian city had long since exceeded 10 million.

However, the majority of the players were commoners.

many of these people might not even have a full set of purple equipment.

They were all existences who treated an orange equipment as a treasure.

no matter how many of these players there were, it was impossible for them to stop the 5000 to 6000 elite players of wind and cloud.

Moreover, after the wind and cloud guild members charged into LAN Tian city, they would not stay in one place to attack.

...

They were all riding around randomly, and if they encountered a place with too many people, they would be in danger.

He would first go around and find the weaker ones to attack.

They were massacring a city, so the civilian players were the main targets.

Was there a need to massacre the entire city? Wouldn't it be better to directly issue a guild challenge?

The rest of the people charged into LAN Tian city to attack while Zhang Shan and Feng Yun realm led a few hundred people to surround the teleportation Hall.

The ones standing at the front were all hunters and mages, all of whom were ranged classes.

Behind them were a portion of the Warriors who were helping them guard their escape route.

In addition, there were some support classes who were ready to resurrect the fallen players at any time.

It was impossible for no one to die in a battle of this scale, not to mention that they were fighting in someone else's city.

it was very normal for people to die. as for those who fell to the ground, those who could be resurrected should be revived.

If he died and there were no support players around, he would have to resurrect in the city as soon as possible instead of lying around in someone else's city.

In the teleportation Hall, Qin players continued to teleport over.

the moment they walked out of the teleportation hall, they were beaten to the ground by all kinds of firepower.

It was to the extent that the other party had yet to understand what had happened.

Chapter 268 slaughtering the city

the news of Zhang Shan and the rest blocking the teleportation hall quickly spread through the country of Qin's national channel.

As a result, the number of Qin players who came through the teleportation Hall became fewer and fewer.

Zhang Shan, Feng Yun realm and the hundreds of people felt like they had nothing to do.

At this moment, the Qin players were extremely sullen. Their own teleportation Hall was blocked by the other party.

They wanted to go over to provide support, but they couldn't even get over. This was too f*cking ridiculous. Just whose family did this LAN Tian city belong to?

at the same time, there were even more Qin players who were very dissatisfied with Subjugator's actions.

what the hell is Subjugator doing? hurry up and chase the people from wind and cloud Guild away. F*ck, why don't you look after your own home first before you go out to massacre the city?"

"Return my ass. The cloud dream city is in a heated state right now. How can they return in such a short time?"

"Brothers from LAN Tian city, what are you guys doing? hurry up and chase away the people from wind and cloud Guild who are blocking the teleportation Hall. Otherwise, how are we going to go over and support them?"

don't talk about it. Where are we supposed to find people now? the city is filled with people from the wind and cloud Guild. We can't gather any manpower at all.

f*ck, you guys have at least a few million players online in LAN Tian city. You're telling me you can't handle the thousands of players from wind and cloud Guild?"

what the f*ck? there are millions of people. Many cowards have gone offline. Some are still out farming monsters and haven't returned.

"Then why are we still going to help? the people in your own cities aren't even enthusiastic, so are you sending us to our deaths?"

no, don't worry about the wind and cloud guild members in the city. Let them kill as many people as they want. Let's clear out the people blocking the teleportation Hall first.

that's right. The brothers who were teleported over are still lying on the ground. There's a huge pile of corpses outside the teleportation Hall.

wait a moment, I'll go and get some people ready. When the time comes, we'll drive away the people blocking the teleportation Hall. You guys teleport over at the same time and attack from both sides. Clear out this group of people.

“f * ck, this should have happened a long time ago. if you’re ready, just tell us and we’ll teleport there together.”

Even though LAN Tian city had over 10 million players.

However, there were at most a few million players online at this time, and most of them were civilian players.

When these people were in the wind and cloud Guild, when they first rushed into LAN Tian city, they still wanted to cut the wind and cloud Guild back.

However, as the members of the wind and cloud Guild massacred the commoners in blue field city, groups of commoner players were cut down.

These people also retreated. Some of them even went offline temporarily. After all, the people from the wind and cloud Guild could not stay in LAN Tian city for long.

Wouldn’t it be better to wait for the people from wind and cloud Guild to leave and then come online? Why would they risk losing a level to become cannon fodder?

Some people were even more ruthless. They were still farming monsters outside, so no matter how chaotic LAN Tian was, it had nothing to do with them.

he was just here to play games and didn’t have the passion to fight.

Only a small number of players were actually organizing a resistance against the wind and cloud Guild in the city.

Zhang Shan looked at the teleportation Hall. The number of Qin players who were rushing out was decreasing.

He felt that something was not quite right. The players from the state of Qin could not be preparing to do something big, right?

we’re not players from the state of Qin, so we can’t see the state of Qin’s national channel. It’s really inconvenient. I wonder what tactics they’re discussing right now? ”

Zhang Shan said to Feng Yun realm unhappily. He did not know what kind of killer move the other party was preparing.

They could only continue to block the teleportation Hall, feeling that they were too passive.

“Don’t worry, we have eyes in the state of Qin. They are preparing to attack from the front and back.”

it’s the people from LAN Tian city. They will teleport over to attack us later. After that, they will teleport the players from the state of Qin to the main hall and rush out at the same time.

Feng Yun realm said calmly.

F * ck, so the wind and cloud Guild had such a move? Zhang Shan had always thought that they were just a bunch of rich, idle people.

There were actually spies in other countries? This had completely overturned Zhang Shan's impression of them.

"then how are we going to deal with them? there are still so many players in lan tian city. if tens of thousands of them teleport over, we'll drown to death,"

Zhang Shan was a little unsettled. The premise of blocking the teleportation Hall was that the LAN Tian players could not have too many people appear to attack their back.

Otherwise, they would have to block the teleportation Hall and watch out for their escape.

the few hundred of them were not enough.

"It's fine. The moment the people from LAN Tian city teleport over, I'll use my ultimate skill. You and the others just focus on the people at the teleportation Hall."

Feng Yun realm was extremely calm. It was amazing to have an ultimate move on hand.

No matter how many people the other party teleported over, it would be useless.

A rain of fire covered an area of 50 yards and dealt five seconds of continuous damage.

if he teleported over and stayed in a group, he would be able to take the damage from a big move.

As for the people who rushed out of the teleportation Hall, there was even less to worry about.

Hundreds of guns and magic staffs were guarding the place. If they wanted to rush out, they would have to take their lives.

Let's see how many of them are not afraid of death.

"Everyone, get ready. We'll fight another wave and cover each other to cast the return bar. Otherwise, when Subjugator comes back with his men and holds us back, many of us will die."

feng yun realm said in the guild channel.

He knew when to stop. There was no need to go all the way. It would be enough to teach the domineering King a lesson so that he would not be too arrogant.

at this moment, there were very few people in the wind and cloud guild who had died. most of the people who had fallen on the ground were quickly rescued.

...

Only a small number of unlucky players were caught off guard and fell to the ground after being ganged up on. There were no support nearby to save them.

He could only resurrect back in the city.

"Get ready, they're about to start."

Feng Yun realm said to Zhang Shan. It seemed like the other party had already coordinated well, if not for Feng Yun realm's spy on the other side.

He might really be tricked.

However, it was completely different now. Not only the few hundred of them, but they had also made preparations.

Even wind cloud blade and wind cloud Cupid had managed to escape from the massacre in blue field city.

These two people with big moves were called back by Feng Yun realm. Together with Zhang Shan and the rest, they were ready to do another round.

It seemed like LAN Tian city had prepared a lot of people. Otherwise, Feng Yun realm would not have called both of them back.

In a short while, countless Qin players with purple names appeared around Zhang Shan and the rest.

These players from LAN Tian city could teleport within their own city. In an instant, they had teleported from all directions to Zhang Shan's side.

...

At the same time, countless players from the state of Qin rushed out from the teleportation Hall.

'ASIBA, why are there so many people here all of a sudden? there must be tens of thousands of people here.'

If not for Feng Yun realm's prior preparations, they would have been screwed.

But it was different now. They had long been prepared.

Zhang Shan could not be bothered with them. The Qin players who had teleported around him only aimed their guns at the teleportation Hall.

He would leave these people to Feng Yun realm and the others. Zhang Shan only had to deal with the people who rushed out of the teleportation Hall.

chapter 269-massacre

The moment the Qin players appeared.

Feng Yun realm and Feng Yun Cupid used their ultimate skills one after the other, covering their surroundings.

A large number of Qin players were instantly killed. The damage from the rain of fire and the wrath of the stars lasted for five seconds.

after the first batch of players had fallen, there were still people behind them who continued to teleport towards the damage range of the big move.

They only teleported according to the coordinates they had chosen in advance. They had no idea that the location they were about to teleport to had already been covered by the ultimate move.

“Don’t f * cking teleport over.”

the entrance of the teleportation Hall is covered by two powerful attacks. Teleport to the side.

“I’m going to faint. I told you not to teleport over.”

LAN Tian city’s regional channel was in chaos. Those who had fallen to the ground kept calling for those who had not arrived, immediately teleporting to another place.

However, there was no time for that.

They had discussed this beforehand and teleported over together. They planned to defeat Zhang Shan and the others in one fell swoop.

At this moment, they couldn’t stop even if they wanted to. Within the range of the two ultimate skills, the players of the state of Qin’s LAN Tian city fell one after another, layer after layer.

Feng Yun realm and Feng Yun Cupid’s two big moves had knocked down at least tens of thousands of people. It was simply ridiculous.

Although it was impossible to defeat all of the Qin players at once.

however, killing so many people in an instant was a huge blow to lan tian city.

At the same time, the players from Tianshui city and Liangzhou city also rushed out of the teleportation Hall.

under zhang shan and the other wind cloud guild members ‘heavy fire, most of them fell at the entrance of the teleportation hall.

They had just arrived at LAN Tian city, and before they could use teleportation to leave, they had already died.

The entrance of the teleportation Hall was covered with corpses. It had only been a few minutes since the wind cloud Guild had arrived at LAN Tian city.

There were at least 100000 Qin players that had fallen near the teleportation Hall.

The players from the state of Qin lost all their energy in one wave.

Zhang Shan and the rest did not stop their attacks.

There were also a few Qin players scattered around. When these people teleported over, they just happened to avoid the damage of two big moves.

They were lucky to have survived, but they had been scared out of their wits by the killing just now.

Even if the number of players from the state of Qin far exceeded the number of players in the wind and cloud Guild.

He didn’t dare to charge forward.

Of course, even if they charged at them, the wind and cloud Guild would not be afraid.

windcloud blade still had an ultimate in his hand, but he had yet to use it.

These Qin players did not dare to charge over but Feng Yun realm had no intention of letting them go. other than zhang shan and a few others, who continued to block the entrance of the teleportation hall.

Under Feng Yun realm's lead, the rest of the players charged towards the players from the state of Qin.

In an instant, the players from the state of Qin scattered like birds and beasts, teleporting away one after another. They did not dare to confront the wind and cloud Guild directly.

With a wave of operations from the wind cloud Guild, all the players from the state of Qin around the teleportation Hall in LAN Tian were cleared.

It turned out that the large number of players from Tianshui city and Liangzhou city who had come out of the teleportation Hall had also died down.

The entrance was already blocked by the wind and cloud Guild. Why were they still teleporting over? were they going to send their heads over?

the counterattack of the players in the three qin cities came to a sudden stop.

for a time, they could no longer unite and could only blame each other.

"What are you people from LAN Tian city doing? didn't you say that you would teleport tens of thousands of people over? why don't I see any of you, only your corpses?"

"How can you say that? do you think we don't want to go? Tens of thousands of players were teleported over, but they were almost all killed by the wind and cloud Guild's two big moves."

that's right. We're facing the storm Guild's big move. Why didn't you guys from Tianshui city and Liangzhou city take the opportunity to rush out? "

"Charge my ass, how can we charge with hundreds of Spears and staffs? anyone who goes out will die."

charge at the same time. There are thousands of people at once. It's impossible for the wind and cloud Guild to wipe you all out, right? "

"It's easy for you to say. You do it."

"What's the point of talking now? don't you still have so many people in LAN Tian city? Why were they so scared of two big moves from wind and cloud Guild? Continue to teleport over."

"You're right. The wind and cloud Guild only has a few hundred people guarding the teleportation Hall. Your LAN Tian city can just teleport a few thousand people over and they'll drown."

don't talk about it anymore. It's not going to work. Let's wait for the domineering King to return first.

The domineering King brought his men to Yunmeng city and brought away all the main players of the state of Qin.

Although the remaining people were huge in number, they could not do anything without a backbone.

On the wind and cloud Guild's side, after defeating the last player from the state of Qin near the teleportation Hall.

Only the people from wind and cloud Guild were left in the surroundings. When the teleportation Hall started, a few people would occasionally teleport out.

However, the players from the state of Qin who were teleported over were defeated one by one.

In the end, the entire teleportation Hall actually became deserted.

...

For a time, not a single player from the state of Qin was teleported over.

They must have given up. Without domineering aura, the remaining players from the state of Qin would be a pile of scattered sand no matter how many of them there were.

They did not know how to deal with the wind cloud Guild's attack.

Feng Yun realm said in the Guild channel when he saw that they were almost done.

let's call it a day and go home. Everyone, cover each other and find a safe place to channel back to the city.

"Received."

"Haha, I really want to kill a few more people. It's a pity that these Qin players ran faster than rabbits. When they saw us, they teleported away."

that's right. Teleportation is not allowed in a foreign city. It's really troublesome. I didn't even manage to kill many people.

you guys are so stupid. Who asked you to kill people so arrogantly? I just quietly approached the players from the state of Qin when I saw them. I instantly killed a large number of them with a single burst. I've killed at least a hundred players from the state of Qin today. Haha.

"damn it, can i compare to you? I'm a warrior and you're a mage. I can only rush over to kill people, unlike you who can sneakily attack."

"Isn't it? Speaking of which, this game really wasn't friendly enough for close-combat classes. I feel like attacking players and bosses aren't as useful as long-ranged classes."

...

"it's alright. at least in a one-on-one, the melee is much fiercer, unlike some long-range mages who can only play dirty."

"F * ck, who's wretched? you're just jealous."

"i'm done talking to you. i can't see any qin players here. i'm going home."

"What the f * ck, what am I supposed to do? There are a few Qin players staring at me. When I rushed up, they teleported away. When I left, they teleported back and followed me."

“You’re dead for sure. You’ll be barbarian.”

“I want to go home, wuwuwu.”

“Hang it back, hehe.”

Chapter 270-you can still run with coins

It was almost impossible to cast a spell and return to the city under the enemy’s eyes.

Anyone else could just cast a stun and interrupt the channeling of the return to town.

Even if the opponent didn’t have a stun skill, with a few people attacking non-stop, they would probably be able to cut down the opponent while the casting bar was still active.

After all, the channeling bar required time, and it was not short. Zhang Shan remembered that the channeling bar for returning to the city required five seconds.

After such a long time, no matter how healthy he was, it would be impossible for him to return home safely.

Therefore, although the wind and cloud Guild’s attack on the city was smooth-sailing, they were still in a bad mood.

However, not everyone who was still alive could return to Dangyang city alive.

The same could be said for the tyrannical King. Although they had a great time killing people in the DreamCloud city, it wasn’t so easy for them to escape unscathed.

those who are being watched, think of a way to charge out of the city. As long as we can get out of the city gate, those Qin players won’t dare to follow us anymore.

Someone suggested in the Guild channel.

“That’s a good idea, but I don’t know if we can reach the city gate.”

“In your dreams. Those Qin players will block you all the way.”

“F * ck, even if we’re blocked, we’re not afraid. At least we can take it head-on. At least it’s better than being hung around like this.”

Compared to the other guild members who had charged into LAN Tian city, Zhang Shan and the rest were much safer.

None of the Qin players dared to come here to harass them.

However, it was hard to say if they would still be so stable when they started channeling.

you guys go back to the city first. I’ll go last. I’ll use the positioning bead to teleport back.

Zhang Shan said to the others.

Anyway, he had the positioning bead and could leave at any time, so he would just let him protect these people.

alright, then be careful. It'll be funny if you hang here.

Wind and cloud blade said to Zhang Shan teasingly.

Of course, this was just a joke.

Ever since he had gotten the positioning ball, Zhang Shan's safety had increased a lot.

If you can't beat me, I'll just teleport away. If you have the ability, then cross the map and chase me.

The others started to channel, while Zhang Shan looked around vigilantly with his hand cannon.

As expected, before Feng Yun realm and the rest finished channeling, a few players from the state of Qin teleported over to check.

Zhang Shan immediately rushed forward and knocked these people down.

Immediately after, a large number of Qin players teleported over, trying to interrupt the wind and cloud Guild's players while they were channeling the return bar.

Zhang Shan immediately activated his berserk and fanatic skills. The violent bullets swept towards the Qin players, attracting their attention in an instant.

after zhang shan's brainless attacks, a large number of qin players fell to the ground.

Meanwhile, Feng Yun realm and the others 'channeling bar was finally completed and most of them had successfully returned.

Only a few unlucky ones stayed because their channeling was interrupted.

zhang shan went all out, and his bullets were continuously fired at the qin players. at the same time, he shouted.

you guys, hurry into the teleportation Hall and teleport back to Dangyang city. Then, you won't have to die. I'll cover for you if you can escape.

Other than casting a spell to return to the city, he could also teleport back, but he would have to spend another 1000 gold coins.

Previously, there were so many people gathered here. There was no need to teleport back at all. They could directly cast a spell and return to Dangyang city. Why would they waste gold coins?

As for those whose channeling had been interrupted, there was nothing they could do.

There was no way they could wait for the next channeling bar. The cooldown time of their identity token's return to the city was ten minutes.

It was impossible for them to last more than ten minutes in the enemy's city.

At this time, the best choice was to teleport back.

although the teleportation fee was very expensive, it was still much better than dying here. losing one level of experience would be very difficult to rise again.

Under Zhang Shan's intense firepower, the Qin players were unable to rush up.

Although the Qin players who teleported over just now might have been more than a thousand people.

however, due to the fact that they had suffered from the big move before, the people who teleported over this time were scattered.

they did not have the time to gather, which gave Zhang Shan the opportunity to cover the others as they retreated into the teleportation hall.

Of the wind and cloud Guild players whose channeling bars had been interrupted, only two or three were unlucky enough to be killed by the blades.

The others retreated into the teleportation Hall one after another and then used the teleportation to return to Dangyang city.

In the vicinity of the teleportation Hall, only Zhang Shan was left of the people from the wind and cloud Guild.

"F * ck, those people from wind and cloud Guild have all run away."

six-barreled Bodhisattva hasn't left yet. Kill him. We have to make him stay. He's too f * cking arrogant. How dare he block so many of us by himself? "

we can't get close to him. Six-barreled Bodhisattva's attack power and attack speed are too strong.

Bullsh * t, what's the use of his firepower alone? there are so many of us charging at him, how many of us can he take on? "

...

"Let's charge together."

In just a short moment of discussion, nearly a thousand Qin players, as if they had taken drugs, charged towards Zhang Shan despite the fierce bullets.

Damn it, he really couldn't take it anymore.

Looking at the players from the Qin country, Zhang Shan was also helpless.

There were too many people. No matter how fast he attacked, he couldn't stop so many people.

It would be more or less possible if he changed his godly weapon, the hand cannon, to one with six tubes.

however, he didn't have to block it for too long.

Zhang Shan's current goal of staying behind was only to defeat more Qin players.

By the time these people reached him, his berserk skill's duration would have ended.

Without the berserk skill's immunity to crowd control, he didn't dare to be reckless.

Thousands of Qin players charged forward against Zhang Shan's bullets, covering a short distance of tens of yards.

...

Every second, three to four Qin players were being beaten down by Zhang Shan.

To the Qin players, the sacrifice of these people was worth it.

In their eyes, Zhang Shan could no longer escape.

f*ck, even though so many people from the wind cloud Guild managed to escape, it's not bad to be able to take down six-barreled Bodhisattva.

it's too early to say that. Hurry up and stun six-barreled Bodhisattva with a stun skill.

I don't believe that six-barreled Bodhisattva can still escape at this point unless he can fly.

"Kill him."

Zhang Shan looked at the Qin players. They were already in front of him. The duration of the berserk skill was about to end.

he quickly used the positioning ball to teleport back to the auction house in dangyang city.

The moment Zhang Shan was teleported away, the Qin players were all dumbfounded.

"Where's Bodhisattva six tubes? Don't tell me that he can use teleportation in LAN Tian city?"

impossible. No one can teleport in a foreign city. How can he do it? "

"Then where did he go? He disappeared in the blink of an eye, isn't that the same as teleporting?"

teleportation is impossible. Maybe it's some other movement skill. Everyone, look around. Six-barreled Bodhisattva should still be nearby.
