

## Passive Skills 48

Chapter 48 borrowing monsters to destroy enemies

after clearing the small monsters, everyone surrounded the boss.

For a boss that could not interfere with the players' damage output, no matter how much HP it had, it was just a wooden stake.

A boss with 200000HP would only take Zhang Shan and the rest three to five minutes. After all, with more people, the fight would be faster.

Not long after, the demon elite squad leader fell to the ground unwillingly and a few streams of light landed in Feng Yun realm's backpack.

Before anyone could ask, he displayed the item.

Two blue and one green, this boss's drops were the best of the best. A boss that dropped green equipment was really not worth mentioning.

"Let's go and find the next batch."

wait a minute, someone just said in the Guild channel that they saw a red boss. Let's go and fight the red boss?"

come on, even a purple boss has 2000000 HP. The red one should have at least 2000000 HP. We might not even be able to kill it even if the event ends.

"that's right. besides, don't you know how terrifying the damage of a red boss is? even if you don't lose experience after dying, it's still a waste of time."

yes, ignore the red bosses. Avoid them as soon as you see them. Only attack the purple and orange bosses. Our goal is the city defense contribution list.

After Feng Yun realm gave his order, everyone began to search for their next target.

just as they were about to look for their next target, someone said in the guild channel.

we've found an orange boss, but there are two people from the world Guild following us. We can't do anything.

let's ignore them and go find the next one. There are so many bosses and they're so bored. If they want to play, let them. Feng Yun realm replied.

this won't do. They'll follow us wherever we go. We can't fight them at all. We can't attack players in the city either. We can't do anything to them.

"damn, have they become dogskin plaster? So shameless."

"yeah, we're fighting monsters, but they're just stealing our kills. we're not completely helpless against them."

f \* ck, how shameless. After the event ends, we must kill them all out of Dangyang city. We can't let them stay in Dangyang city anymore.

"What should we do now?"

No one could do anything about it. It was the most disgusting thing to encounter such a shameless person who could not attack and would just snatch the monsters you fought.

Zhang Shan thought for a moment and said, "you guys go to the orange boss. I'll lure the boss over. I'll let the boss kill them and bring them back to the resurrection point.

I don't think you can lure it. The boss runs very fast. Don't let it kill you too, big brother.

"Don't worry, I can run fast. The speed of my shoes has been increased by 10. Although I can't outrun the boss, I can run faster than the others. when the time comes, you guys hold the world guild's people back and don't let them run too fast."

"What about us? are we going to be killed by the boss too?"

it's fine even if you die and go back. What's there to be afraid of if you resurrect nearby? if we kill them and send them back, they won't have the chance to interfere with us in this event.

"alright, let's do that. damn it, i won't lose any experience points if i die anyway."

I'll go deal with those two shameless guys from the heaven and earth Guild first. You guys come over later.

Zhang Shan said to Feng Yun realm.

"alright, that's a good idea. you can go first."

Zhang Shan followed the location that the Guild members had marked and quickly reached the place.

After a careful observation, the Guild's team was in the middle, and the two people from heaven and earth were behind them.

This wasn't easy. Once he lured the BOSS, those two people would definitely run away first. It was possible that even if his own guild members died, those two people would be fine.

he had to think of a way to get them to adjust their positions.

"You guys go past the BOSS and let them follow you. I'll lure the BOSS from behind. Then, you guys block those two trash and don't let them run past you.

got it, understood. I'll act immediately.

Soon, the Guild team passed by the monster and the BOSS. There was some distance between them, so they did not attract the BOSS's aggro.

the two people from the heaven and earth guild who were following them thought that they were going to look for other bosses, so they quickly followed behind them, not letting them fight the monsters in peace.

Just as they passed by the BOSS, Zhang Shan immediately ran forward and fired a shot at one of the elite monsters.

It was as if he had poked a hornet's nest. The BOSS brought a group of underlings and chased after him like crazy.

The orange-colored BOSS ran very quickly. Even with Zhang Shan's shoes and the +10 movement speed, he could not outrun it.

However, Zhang Shan did not want to run faster than the BOSS. He just wanted to run faster than the others.

With the BOSS and a group of elite monsters, he whizzed past the two players.

the guild members immediately gave him a gap and ran over.

Then, they blocked the two heaven and earth Guild members, a group of elite monsters, and the BOSS.

What happened after that was simple.

Although the BOSS's first aggro target was Zhang Shan, Zhang Shan was the fastest to run.

The main thing was that the Guild teams had blocked the road, so the BOSS had to kill them before they could pass.

At this time, Zhang Shan had already run out of the BOSS's aggro range.

Naturally, the BOSS and elite monsters would attack the players who were close to them, especially the two players from the heaven and earth Guild.

They were the closest to the BOSS.

In the beginning, the BOSS's aggro was on Zhang Shan and it did not attack them. Now, Zhang Shan was out of its aggro range.

...

Naturally, they would be the unlucky ones.

Of course, many of the Guild players didn't manage to escape and died once.

However, it didn't matter. He wouldn't lose experience anyway, and his resurrection was close. He would be a good man again after he revived.

As for the two from the heaven and earth Guild, they shouldn't even think about coming over.

There were less than 50 minutes left until the end of the event, and they might not even be able to make it here.

moreover, the heaven and earth guild must be organizing a BOSS fight as well. they couldn't be so bored as to come and disgust people.

"Okay, problem solved. Are we going to fight the orange BOSS? Or should I go look for the purple one?"

there was a reason for zhang shan to ask this question. if he wanted to farm the contribution leaderboard steadily, he would have to find a purple BOSS to fight.

As the event only lasted for an hour, they had already used more than ten minutes. If they fought the purple bosses, they could still fight three or four more.

If he wanted to fight an orange boss, he could probably only fight one before the event ended.

The key was still to be afraid of accidents. If there was any trouble in the middle and the boss was not killed by the end of the event, it would be a big loss if it was directly refreshed by the system.

...

He wondered if he would be able to earn city defense contribution points faster if he fought an orange boss than a purple boss.

for example, if the same 10000 damage output was counted as one contribution when fighting a purple boss, would it be counted as two contribution points when fighting an orange boss?

Moreover, there was another benefit to fighting an orange-colored boss. The drops would be better, and there was a chance that it would drop orange equipment.

Zhang Shan was inclined to fight orange bosses, but the others were not necessarily the same. After all, everyone wanted to stabilize their ranking.

“Let’s fight the orange boss first. The other guild members have already tested the boss’s attributes. The little Secretary can handle it. “Feng Yun realm thought about it before he answered.

“Then you guys hurry up. I don’t dare to fight alone.”

Zhang Shan looked at the BOSS’s attribute information displayed by the Guild members.

[ demon elite party leader (orange): level 25, HP 10000000, attack 2800, skill 1, enhanced charge, skill 2, three blade stream, status, Demon God’s morale. ]

[ enhanced charge: charges towards the target at high speed and deals double damage. Stuns for 1 second and slows the target for 3 seconds. ]

[ three blade stream: attacks three times in a row. the second attack deals double damage, and the third attack deals triple damage. ]

[ demon god’s encouragement: during the city defense event, the demon troops will receive the demon god’s encouragement. their attributes will increase greatly, and their health points will increase by 10 times. ]

This BOSS wasn’t hard to fight. Only the three blade stream skill was a bit powerful, which was equivalent to dealing six damage at once.

However, it wasn’t a big problem. The Secretary had nearly 10000 HP, and her defense was definitely more than 1000. She could hold on as long as they quickly cleared the monsters.

However, it would take a lot of time. Just the 10 million health alone was scary. With Zhang Shan's damage output, it would take at least half an hour.

Including his other teammates, it would take about ten minutes.

Including the time it took to clear the small monsters, if everything went smoothly, they should be able to clear it in about 20 minutes.
