Chapter 74 Killing the wolf King

the wolf king's big move made everyone flustered, and a few even fell.

For a full five to six minutes, everyone was busy clearing the small monsters. Other than the tank who kept attacking the wolf King to pull aggro, no one else fought.

As for the wolf King's HP, not only did it not decrease during this period of time, it even rose quite a bit. He still had 5.5 million HP left.

A red boss should not be underestimated, even if it was just a dummy monster.

After clearing the small monsters, everyone heaved a sigh of relief. However, when they saw the wolf King's HP, they couldn't help but have a headache.

"f * ck, the wolf king's big move is so overpowered. summoning so many wild wolves, it's simply terrifying."

"Yeah, even the BOSS knows how to use the human wave tactic."

"Correction, it's the wolf sea tactic."

"D * mn bar spirit."

"do you think wolf king will use his big move again?"

"of course he will. he's not even at half health yet. isn't it normal to use one or two more big moves?"

I hope the BOSS doesn't use his big move and the wolf God's will together.

"I don't think so."

"i don't know, just focus on the output."

"Saint, please don't screw up. I don't want to lose a level."

"Shut up."

Under everyone's continuous attacks, the wolf King's HP slowly dropped to just over two million.

during this period, the wolf king had summoned the wolf god's will twice and had even attacked the wolf pack once.

However, with their previous experience, they did not lose any more members. They only spent a lot of time clearing the small monsters.

"Sigh, we've been fighting for more than half an hour and we still have more than two million HP."

"That's right, before this, it took a few minutes to kill the boss, and at most ten minutes. This time, it took so long and we still haven't killed it."

“It’s mainly because the boss” level is much higher than ours. Otherwise, it wouldn’t have been so difficult.”

“the most difficult part hasn’t arrived yet. the boss is about to go berserk. everyone, pay attention.”

When the wolf King’s HP dropped to 2000000, the damage to the little Secretary became even more terrifying.

Previously, the damage value that appeared above the little Secretary’s head was usually more than 7000. After the wolf King went berserk, every time it hit him, the damage was close to 10000.

“Damn, I can’t hold on much longer.”

“We have to hold on, where are we now? The boss hasn’t used any skills yet.”

“Little Secretary, I’m telling you, if you don’t do your best this time, I’ll cut off all ties with you.”

that’s right. If you fall, then we’ll all die too.

that depends on whether the support is good or not. You can’t look at me, I’m just a sandbag.

After going berserk, the wolf King’s defense had dropped a lot, and everyone’s damage output had also become faster, if nothing unexpected happened.

In at most three to five minutes, he would be able to take down the remaining two million HP.

come on, it’s about to be blown up. I think I see red equipment waving at me.

“Haha, so what if it’s a level 30 red boss? we’ll still beat it up.”

“F * ck, he’s still going berserk and can’t stop.”

The wolf King once again summoned the wolf God’s will.

Feng Yun Qing Qing immediately cast her totem in the middle of the crowd.

“Fortunately, it’s only the third skill. It’ll be fine as long as I don’t use a big move.”

“Don’t talk. I feel like your mouth is blessed, like a crow’s.”

“don’t worry, even if it’s a big move, we don’t have to be afraid. the wolf king only has a million hp left. we can kill it in two minutes at most.”

“F * ck, I told you not to talk nonsense.”

The wolf King started to wave its two front claws again, and a large number of wild wolves instantly rushed out.

“Hang in there and move closer to the support. The Warriors were outside.”

With the experience of dealing with the Wolf Pack’s attacks twice, everyone had also thought of a way to deal with it.

It was to gather everyone together, with the support in the middle and the strength-type on the outside. This way, they could calmly clear out the monsters.

The wolf King did not have any AoE skills anyway, so they were not afraid even if they were all gathered together. It was also good for defense.

“F * ck, this won’t do, I can’t hold on any longer. The monsters are also violent, much more violent than the previous two.”

“What’s going on? the monsters are going berserk too?”

“There’s nothing we can do about it. You guys hold on for as long as you can. The rest of you, hurry up and clear the area.”

Zhang Shan activated his berserk skill again, killing the wolves as quickly as possible.

in less than two minutes, the warriors at the outer circle were all dead. the remaining people struggled to resist the wild wolves and quickly killed them.

...

Fortunately, they had already cleared a lot of them, and there were still about 300 to 400 wolves left. They took turns to tank the wolves, and they could barely hold on.

Zhang Shan brought the Panda baby to the front, and the wind and cloud Cannon also pulled the small wild wolf forward to tank the monsters.

Although the little wild Wolf’s defense and HP were far inferior to the Panda baby, it was still much stronger than the remaining players.

Under the cover of the other players, everyone finally cleared the monsters with great difficulty.

This time, the number of members was very serious. Except for the Warriors who were at the periphery, all of them had died.

Following that, more fragile classes continued to fall.

the only people standing on the field were his secretary and a group of healers.

Including Zhang Shan, there were only 13 people left.

“With so many players down, the remaining players won’t be able to deal enough damage.”

“Are you looking down on my brother shenqi? Even if we all fall, as long as brother divine equipment is still here, we can definitely defeat the boss.”

needless to say, although zhang shan’s damage output alone could not compare to all of them, it was equivalent to seven or eight people.

...

Moreover, the wind and cloud Cannon was still alive. His little wild wolf had a critical hit Halo, which could increase the critical hit effect by a lot.

It would be of great help to the entire boss battle.

The wolf King had less than a million HP left. If they didn't use their big moves, they should be able to kill it in two or three minutes.

They hoped that the wolf King wouldn't use his ultimate move again. If he did, they wouldn't be able to withstand it with only so few people left.

Everyone quietly dealt damage, using all the skills they could. Feng Yun Qing Qing's totem would be used as soon as it was on cooldown.

It was all for the small increase in attack and attack speed.

What if the wolf King summoned the wolf God's will again?

He didn't need to care about that one. The real brittleskins had all fallen.

Although the rest of them were also fragile professions, the attributes of their capes were not bad. It would not be a problem for them to take on the wolf God's will on their own.

The most important thing now was to defeat the wolf King in the shortest time possible and not let it release another big move.

In the heavy and tense atmosphere, the wolf King's HP slowly dropped.

five hundred thousand, three hundred thousand, two hundred thousand, one hundred thousand, fifty thousand yuan yuan yuan.

haha, he's really going to die this time. Even if he's taking the attacks of the Wolf Pack, he'll still be able to blow up the Wolf King.

"good luck."

The people lying on the ground could only cheer them on and 666.

A critical hit dealt more than 8000 damage, and the wolf King's health was immediately emptied. Zhang Shan quickly controlled the Panda baby to cast a combo skill.

the panda baby's two palms waved wildly, and seven consecutive strikes instantly blew up the wolf king. Several rays of light of various colors landed in Feng Yun realm's backpack.
