

## Passive Skills 87

### Chapter 87-gathering

He closed the forum and continued to focus on killing monsters, occasionally glancing at the Wolf King.

Although bosses usually wouldn't leave their nearby location after they spawned, they were still humans. They would only feel more at ease after seeing the boss.

Time passed by slowly.

&Lt; system announcement: congratulations to Feng Yun realm, Feng Yun little Secretary, Feng Yun one blade, and the others for clearing demon suppression altar's first level dungeon's hard mode for the first time. &Gt;

All members are rewarded with 1 skill point and 100 merit points.

They were finally done. They had been clearing the dungeon for three to four hours. It was really tiring.

however, would there be a system announcement for the first clear of hard mode? He could even get skill points.

For some reason, Zhang Shan felt as if he had lost a skill point.

The world Channel:

"F \* ck, does wind and cloud Guild treat Dungeons as a place to farm skill points? One normal mode, one hard mode."

yeah, if they were to clear extreme mode again, it wouldn't just be a first-floor dungeon. They would be able to get 3 skill points. That's too much.

"You're thinking too much. Is it possible for humans to clear extreme mode? Don't you guys know how insane the ultimate mode is?"

that's true. The ultimate mode is too difficult. We can't even defeat the small monsters. Has anyone seen The Guardian boss of the ultimate mode? "

I don't think so. Who can clear all those monsters? "

I wonder if the wind and cloud Guild will try the extreme mode again next week? "

that's impossible. They're already level 20. It's impossible for them to not level up for a week and wait for the dungeon next week, right? "

"If that's the case, then the instance dungeon's extreme mode is going to become a problem that humans can't solve? Are there any strong guilds that are ready to challenge them?"

"It's fine if you eat too much, but you'll waste a chance to enter an instance dungeon. It's such a thankless task."

"I don't think anyone can clear the first floor's extreme mode. However, it's hard to say for the second floor."

that's right. It's getting slower and slower to level up. If I can't level up, those big shots will definitely try to challenge it.

Feng Yun realm led a team to clear the hard mode dungeon, which gave the players in the game a certain impact.

For the average player, the normal difficulty of the instance dungeon was as hard as climbing the sky. However, Feng Yun realm and the others actually managed to clear the hard mode.

This meant that the players were improving very quickly. At the same time, the gap between the players was also rapidly widening.

To the other Big Boss level players, since Feng Yun realm and the others could clear the hard mode of the instance dungeon, they would not be able to do so.

Naturally, they would be able to do it as well. He believed that in a few days, more and more guilds would attempt to challenge the hard mode of the instance dungeon.

Calling wind and cloud blade:

brother Yidao, you guys are finally done. Did you get anything good? "

haha, it's alright. Just two red equipment and a skill book. It's just average.

"you're putting on an act. be careful of getting struck by lightning."

"Hehe, brother Liu Guan, is the wolf King still here?"

it's still here. You all got a skill point for nothing. I can only stay here and guard the wolf King, the kind that doesn't have any skill points.

don't be jealous of us. The boss said that after we kill the wolf King, you can pick one first. You're always the one who finds the BOSS. Those thieves in the Guild can die of shame.

haha, then come over quickly. Kill the wolf King and give me a divine weapon.

in your dreams. We'll set off after we distribute the equipment.

After ending the call, Zhang Shan looked at the Wolf King. He was looking forward to it and hoped that it would drop some good equipment.

it was reasonable for him to pick an equipment first. he couldn't keep contributing to the guild, right?

He was the one who discovered the boss, and the little Secretary was only able to resist the wolf King with the cloak she borrowed. He was still the main damage dealer.

It was a little unfair for him to roll with the others in the competition.

Rolling for points depended too much on one's luck. Last time, when the wolf King dropped the jumping skill book, he did not roll for it, which made him depressed for a long time.

However, he didn't say anything last time. After all, he had also rolled a red bracer, so he didn't lose out.

zhang shan alone could not defeat the wolf king. if he did not call feng yun realm and the rest, zhang shan would not be able to get anything.

He was a new member of the team, so he was still fine.

Even the lone Knight who had joined the wind and cloud Guild with him no longer had much of a presence.

However, it was already not bad that he could tag along for a while every time they fought a boss.

Thousand miles's equipment could no longer catch up with the first team. Since they were able to bring him to fight the boss, they were not abandoned.

That guy was now a Mezz. It was a rare opportunity for a civilian player to hang out with a bunch of big shots.

Not long after, Feng Yun realm invited Zhang Shan to join the team.

divine weapon boss, is the wolf King your brother? why do you meet him every day? "

"I've only met him twice, hehe."

"Brother divine artifact's luck is really not for show."

that's right. If they want to guard the same boss, they have to cover the entire map and search it over and over again.

yeah, the new world's settings for bosses aren't very friendly to high-end players.

...

it's fine. Even if ordinary players see a truly powerful boss, they won't be able to fight it. It will eventually be defeated by high-end players.

"It's just a little troublesome."

In less than half an hour, Feng Yun realm and the rest entered the wild wolf Hill.

"F \* ck, brother six steward, why did you go so far away? I thought we could fight the boss as soon as we entered the map."

" wuwuwu, i still have to go for lunch. i still have to run for more than ten minutes before i can hit the wolf king. including the time needed to fight the BOSS, i'll have to eat an hour later. i'm not happy. "

I have no choice. The Dragon King of the East Sea and the others chased me for Ten Streets and ended up here.

you're awesome. Brother Liu Guan, you're the nemesis of the Guild's boss, aren't you? you've slashed the heaven and earth Dragon slaying saber twice and the Dragon King of the eastern sea was killed by you as soon as he came out of the mountains.

they're asking for trouble. Otherwise, I wouldn't have had the time to deal with them.

"the divine artifact boss is so arrogant. it's not that he can't cut it, he just doesn't want to cut it."

“Of course, if brother divine weapon wanted to cut people, he could cut them like vegetables.”

f \* ck, there are so many wild wolves. Why did we only get to the wolf King now? ”

...

clear the way. You have more people, so it won't take long.

imagine the divine weapon boss killing monsters and running away with a bunch of dogs chasing after him. This image ... Hehe.

imagine it. It's just two words, ox Cape.

“When can I be as strong as him?”

you can do it too. Go to the novice village's chick map and you can also be invincible.

“Go to hell.”

The group of people cleared the monsters with great effort and finally reached Zhang Shan's position.

Everyone looked at the wolf King in the distance, eager to give it a try.
