Chapter 93 The Guild challenge begins

He farmed until the Guild challenge was about to start. Zhang Shan finally reached level 26 and quickly returned to the city.

The participants of the Guild War had to be in the Guild residence before they could enter the two maps.

This was a little ridiculous, and he had to return to the city now. After the Guild War, he would have to spend a lot of time running around the map.

The game producers were not human at all. How good would it be if they could enter the challenge map directly from the outside?

He cast a return bar.

In the afternoon, the Guild had already risen to Level 2 under the hard work of the others, and the new members were quickly recruited.

now, the wind and cloud guild was already a large guild with 10000 members.

A chaotic battle in the wilderness could completely crush everyone.

it was a pity that the guild challenge had a limit on the number of participants. otherwise, the dragon king of the east sea would probably collapse as soon as everyone entered the map.

Currently, the Guild residence was filled with people. Although there were still only two Guild buildings, it was already very popular.

It was no longer like when it was first built, when there were dozens of cats of all sizes.

holy sh * t, you're finally willing to return to the city, divine weapon boss. I thought you'd be farming for the rest of your life.

"There's no other way, I'm just a little short of leveling up, so I have to level up first."

"what the f * ck, you're already rank 26? I'm only level 22, and I can't even level up once a day. How did you level up so fast at level 25?"

"It's not fast, it's already been two days."

why do you want to compete with the boss? aren't you looking for trouble? are you even half as efficient as the boss? "

"Half? You think too highly of me. I'll be thanking the heavens if I can even get a third of it. "

divine weapon boss, let's go and gather at the stone tablet in front of the Guild Hall. We'll enter the challenge map together later.

Zhang Shan followed them to the stone tablet. Feng Yun realm and the rest had already gathered there.

He only had to wait for the 8 O 'clock time to enter the challenge map.

The participants had already been chosen. Through the stone tablet, one could see the information of all the participants.

these were the 200 people who had passed the final selection. however, zhang shan did not know most of them. To be honest, Zhang Shan had joined the wind and cloud Guild for quite some time.

Not to mention the new members who joined later, he could not even recognize all of the core big shots.

he wasn't in the mood for that, either grinding monsters or occasionally killing people every day.

He rarely teamed up with them to farm monsters, so he didn't communicate much with them, so he naturally didn't recognize them.

Although Zhang Shan did not know anyone, everyone knew him.

The divine weapon boss, number one on the level ranking.

He was very famous. Not to mention the Guild members, even in the entire game, there were not many who did not know about six-pipe Bodhisattva.

"Do you know what the challenge map is? Is there any order to the three flags, or can they be cut separately?"

Zhang Shan had not played the game for many years. He did not know how this flag-guarding mode was carried out.

Did he have to finish cutting the first flag before he could cut the second one, or could he split up and cut the three flags at the same time?

He did not understand at all.

I don't know. Our Guild War this time is the first guild War in the game. Other than some public information, we don't know anything else.

normally, it should be in order, from far to near. After the first flag is cut, the second one can be cut. I wonder if it's also set this way in the New World.

"Then what should we do? do you have any arrangements? We can't just wait under the first flag and wait for them to cut it down, right?"

"the plan for now is to split into two teams. one team will guard the first flag, and one blade will lead the other team nearby, ready to send reinforcements at any time."

because we don't know what kind of scrolls the Dragon King of the East Sea and the others got, we can't gather them all together. If it's a large area of effect skill, we'll all be dead.

also, we don't know how big the challenge map is. If the resurrection point is too far from the first flag, it will be very troublesome if we have to run for a long time after the resurrection.

don't worry. We're more powerful than them. We can win no matter what.

"Yes, we'll adapt to the situation after entering the map."

≪ system announcement: traversing Four Seas 'challenge against the wind and cloud Guild is about to begin. Participants from both sides, please enter the challenge map. ≫

One minute after entering the map, the challenge officially began.

Hearing the announcement, everyone entered the map.

"F * ck, isn't this just a tower defense game? The only difference is that the defense tower has been replaced with a war flag."

that's true. The war flags are spread out in three directions. It's not easy to defend.

"that's even better. the dragon king of the east sea only has two scrolls. let's see how he uses them in three directions."

"The trees in the middle of the three roads, is it like other tower defense games, where there are wild monsters, and when they are killed, they will add buffs?"

"i don't know. let's wait and see."

"The resurrection point isn't far from the battle flag. It will take at most two or three minutes to get there. It doesn't matter even if I die once."

it's fine to die once, but it's best not to die a second time. It'll be troublesome if the resurrection time is prolonged.

"Alright, I'll arrange the splitting of the teams now." Feng Yun realm interrupted everyone's discussion.

one blade, take a team to the top lane. Cannon, take a team to the bottom lane. I'll take the middle lane. Each team has 50 people. Bandits, split up and check the woods on both sides. Check the woods on the opposite side as well. If there is really a BUFF, inform us as soon as possible. The rest of you, stay behind the middle lane and be ready to support the three sides at any time.

...

"Boss, are we splitting up like this? They must have gathered and pushed it all the way here."

"Let's do it this way. If they push one of the roads, we'll defend it first. The other two roads will quickly cut down their war flags."

that's true. Their flag is only Level 1 and has 1000000 HP. If 50 people attack it together, it will be destroyed in two to three minutes.

they'll probably send some people to defend. After all, they can add all their attributes under their war banners. As long as the difference in numbers isn't too big, they can still defend.

A minute later, the bugle horn sounded and the war drums beat. The Guild challenge officially began.

Feng Yun realm waved his hand.

"Let's go according to the plan."

Zhang Shan followed Feng Yun realm as they advanced towards the battle flag in the middle.

Feng Yun realm's purpose in placing Zhang Shan in the middle was to prevent traversing Four Seas from attacking the side first.

That way, Zhang Shan could quickly support both sides.

The distance between the middle lane and the two side lanes was not too far. They could make it there within two to three minutes. It was impossible for traversing Four Seas to take down their battle flag with 500 hp during this time.

...

Even if all the defenders on the path that was attacked died, they would have one minute to revive and run.

After three minutes, they could still continue to defend. With Zhang Shan and the backup support troops, they should be able to hold on.

even if they lost, they could at least use up one scroll from the dragon king of the east sea.

Meanwhile, their other two lanes could still attack traversing Four Seas 'war flag. They might even be able to take down the enemy's flag first.

Feng Yun realm's battle plan was to exchange the stones.

If the Dragon King of the eastern sea dared to focus on one path, then the path that the wind and cloud Guild was attacking would be delayed as much as possible.

The other two groups attacked fiercely.
