

The Peremptory Casey Davies

Chapter 801

Is It Expired?

"Originally, I thought that the five major families could kill you, so I specially gave them five top-level pills to let them have a greater certainty that they would kill you. But who would have thought that even if they joined forces and took the pills, they still failed to kill you! I really overestimated them. They wasted my five top-level pills."

"Since they can't kill you, I have to do it myself. Now only I can cure your wife. If you don't believe me, you can kill me. Then you could only watch your wife die. "

"If you want your wife to be alive, kill yourself. It's time to test your feelings for your wife. Are you willing to sacrifice yourself for your wife?"

After the black-robed man finished speaking, he laughed loudly, as if he was mocking Casey.

Casey did not expect that it was the black-robed man who gave the pills to the heads of the five major families. At that time, he wondered why the five major families suddenly had the pill that could increase their strength. It turned out that it was the black-robed man who gave them, just in order to increase the success rate of the five major families to kill him.

The black-robed man was definitely not simple. He actually could have so many strength-increasing pills.

"Casey, don't listen to him! Kill him

quickly. What he forced me to eat should be chronic poison pills. I will not die immediately. After you kill him, we can find other ways to detoxify." Edith shouted to Casey.

"You can give it a try and see if anyone in this world can cure her except me."

The black-robed man sneered.

Casey frowned. He looked at the black-robed man and asked, "Can you tell me

why you want to kill me? Even if I promise you that I kill myself, I have to know why you are doing this."

"Why?" The black-robed man snorted coldly, "Because you killed my best friend, I have to avenge him!"

"Who is your best friend?" Casey asked back.

The black-robed man looked at Casey. Under his black robe, murderous auras emerged one after another.

"Myles!"

Hearing this name, Casey was stunned, and then he understood why this black-robed man wanted to kill him. Unexpectedly, this guy actually came to avenge Myles.

"In my whole life, I have only one friend, which is Myles. You killed him. I naturally have to avenge him. Originally, I thought that with my strength and the pills, it shouldn't be a problem to kill you, but I didn't expect that you are so strong. So I could only choose this method."

"No matter what, either you die or your wife dies. Through observation these days, I find that you love your wife so much. If she dies, it will definitely be a huge blow to you."

After speaking, the black-robed man

took out a pill from his clothes, showed it to Casey, and said, "This pill is the most poisonous pill I have refined so far. After taking it, the blood vessels in your body will burst instantly. You will spasm, then you will die in pain. There is no antidote for it. Even the God can't save you."

"Now you can choose whether to take this pill or kill me. If you kill me, you could only watch your wife slowly die in your arms."

Casey looked at the pill in the hands of the black-robed man. He took a deep breath, thinking quickly how to deal with this black-robed man.

Of course Casey didn't want to watch Edith die like this, but he didn't want to give up his life, either.

If he could, he could instantly subdue the black-robed man, and then asked him how to detoxify. But Casey was not sure whether the black-robed man would tell the detoxification method under the interrogation.

Just when Casey was entangled in what to do, Edith stared at the pill in the hands of the black-robed man, then gritted her teeth, rushed to the black-robed man, opened her mouth and ate the pill.

Casey and the black-robed man didn't expect Edith would do it suddenly.

Casey's face changed. He quickly rushed towards the black-robed man, kicked him on his chest. Then the black-robed man fell.

After that, Casey hugged Edith quickly, trying to make her vomit out the pill that she had just eaten.

But Edith had already swallowed the pill, so it was impossible to vomit it out.

"Casey, after I die, you must take good care of Sherry. You should learn how to change diapers for Sherry by yourself."

"I love you and love you forever."

While Edith was speaking, she cried out directly. Just now, when the black-robed man was talking about the effect of the poisonous pill, she heard it all. She knew that she would die after taking the pill.

"What the fuck are you talking about here! I won't let you die!"

Casey roared directly. He didn't expect Edith to choose to eat this pill by herself in order to prevent him from dying. Now he didn't know what to do.

Casey turned his head and glanced at the black-robed man who was kicked away by him. Then he dashed out.

When he reached the black-robed man, he grabbed the man's neck and lifted him from the ground, shouting, "Give me the antidote! Otherwise, I will kill you!"

Although the black-robed man was a Grandmaster, he couldn't resist Casey who was in a rage at all.

"There is no antidote for this poison. I have already told you. It was her who rushed to eat it by herself. You can't blame me!" The black-robed man said. Casey dragged the black-robed man to Edith and shouted, "I don't care whether you have the antidote or not, you must cure her now! Otherwise, I will let you die miserably!"

The black-robed man gritted his teeth and looked at Casey, thinking about how to choose at this time.

Then he turned his head to glance at Edith, but he was stunned.

Seeing that the black-robed man watched Edith motionlessly, Casey ran XuanJin in his body and was about to act on the black-robed man.

"What the hell are you doing? Save her quickly!"

The black-robed man turned his head to glance at Casey, and said with some confusion, "Look at her... She doesn't seem to get poisoned?"

Casey stared at Edith carefully. Edith's face was ruddy and her breath was even. She didn't look like she had eaten poison at all.

"Didn't you say that the blood vessels would burst instantly after taking this pill and the whole person would be spasm? Why is she fine now?" Casey asked.

The black-robed man was also puzzled for a while, and said, "Yes, she should indeed have the symptoms I said, but why does she seem to be okay?"

Edith cried for a long time, thinking that she would endure some unimaginable pain. When she thought of that she was about to be separated from Casey, she was so sad.

But after a while, she didn't feel any changes in her body.

Perhaps feeling a little embarrassed, Edith stopped crying, wiped her tears off, looked at the black-robed man, and asked, "Maybe your pill is expired? Why am I so fine now?"

Chapter 802 So Healthy

Hearing Edith's question, the black-robed man was so speechless. There was no doubt that Edith's words were the biggest insult to Alchemist.

Even if the poison was expired, it could still kill people, not to mention that his

pill was only made not long ago. He was also very sure that he didn't bring the wrong pill. He only had one poisonous pill. Whether it was the smell or color, it was unique. If he brought it wrongly, he would have noticed it long ago.

But after Edith ate it, she had no symptoms, which made the black-robed person a little embarrassed. After all, when he made this poisonous pill at the beginning, he was a little proud of himself, because he thought he had made a top poisonous pill that no one could detoxify.

But he didn't expect that Edith had no symptoms after she ate it.

"What's going on?" Casey stared at the black-robed man and asked coldly.

"I... I don't know." The black-robed man answered honestly.

"Maybe it was neutralized with the poison that I ate before?" Edith asked.

"This is impossible. I know the nature of the poisonous pill I refined. It is absolutely impossible." The black-robed man immediately said confidently.

Casey didn't know what would happen to Edith next. He didn't dare to delay time, so he said to the black-robed man, "You should be very clear about the current situation. Your threat to me is gone. If you're not obedient, there will be only an ending for you, which is to die. Now, go to detoxicate my wife."

The black-robed man understood what Casey meant. If it was just now, he could still threaten Casey with Edith's life, but now Edith was fine even if she took the most poisonous pill. Besides,

he couldn't defeat Casey, so he could only listen to Casey's orders honestly. Preventing the black-robed man from escaping, Casey kept one hand on the black-robed man's neck. Once the black-robed man wanted to do something, Casey would instantly break the black-robed man's neck.

The black-robed man glanced at Edith and said, "Pull up the sleeve on your left arm."

According to his request, Edith rolled up her sleeves, revealing her fair and delicate arm.

After seeing Edith's arm, the black-robed man's face changed. He exclaimed, "What the hell is going on! Why is there no poison in her body!" Casey frowned. He looked at the man in black robe, and asked, "What do you mean?"

"The poison I gave her is chronic, which can eat away the flesh and blood in the human body bit by bit, and it will form a clear blood line on the arm. But there is nothing on her arm, which shows that she is fine. But I obviously fed her the poison." The black-robed man said.

Casey also stared at Edith's arm and took a closer look. There was indeed nothing on Edith's arm. Nothing could be seen.

"Are you sure that there will no poison in her body if there is no blood line on her arm?" Casey stared at the black-robed man and asked.

The black-robed man nodded immediately and said, "I can swear with my life. As an Alchemist, I won't lie about pills."

Hearing the black-robed man's words,

Casey's eyes moved suddenly. It was the first time that he heard someone call himself as Alchemist.

Although Casey wanted to find out the origin of this black-robed man, it was not the time to ask now. He must first find out if there was something wrong with Edith's health.

Therefore, the most urgent task was to take Edith to the hospital for an examination. Although the pill was a lot more mysterious than normal medicine, some basic principles were still the same. If there was really something wrong with Edith's health, it could be checked out with the machine.

Casey stared at the black-robed man, and said, "I won't kill you now. If something goes wrong with my wife, I will definitely not let you go."

Hearing Casey's words, the black-robed man knew what Casey wanted to do. As a Grandmaster, he couldn't sit still and wait for death, so he instantly ran his inner force and took out one pill from his pocket. Then he put that pill into his mouth.

Casey easily snatched the pill from his hand. It seemed that it should be the kind of pill that could increase strength.

After that, Casey punched the black-robed man on his chest. The black robe

man let out a muffled snort and vomited a mouthful of blood. When he wanted to run his inner force again, he found that he couldn't use his strength anymore.

"Don't think that you are a Grandmaster and have some pills which can improve your strength then you are qualified to challenge me! If it wasn't for my wife

who suddenly ate your poisonous pill, I would have already broken your leg and forced you to detoxicate my wife."

Casey said.

After hearing Casey's words, the black-robed man suddenly felt a sense of

powerlessness. It seemed that he underestimated Casey's strength.

Now it seemed that he really overestimated himself.

When Edith heard Casey's words, she was immediately embarrassed and felt that her behavior just now seemed a bit stupid. If she knew that Casey had come up with a response plan, she would not be so stupid and ate that pill. In order to prevent the black-robed man from making some trouble, Casey directly knocked him out and put him in the trunk.

After that, Casey drove back to the city, and then went to the best hospital in B City to let Edith do a physical examination.

While waiting for the results of the examination, both Casey and Edith were full of anxiety, for fear that Edith's her body was almost corroded by toxins and she would die soon.

While waiting for the results, Edith had even made the final arrangements. She told Casey to find a good boyfriend for Sherry in the future, at least the boyfriend should be as good as Casey. Otherwise, she would not allow Sherry to make a boyfriend.

When Casey listened to Edith talking about these things, he felt both anxious and funny. For a while, he didn't know what to say.

Finally, a nurse walked over and told them that the results had come out, letting them go to the attending physician's office.

The two people walked into the office of the attending physician. Seeing that the attending physician was frowning and was looking at some photos and reports on the table, both of them were all a little scared.

Edith was so sad all of a sudden. Seeing the doctor's face, she felt she would die soon. She didn't even want to hear what the doctor said next.

Casey was even more apprehensive, but he couldn't shrink back at this time, so he walked to the doctor and asked, "Doctor, how about my wife's examination result?"

The doctor raised his head and glanced at Casey, then his gaze fell on Edith. He said curiously, "I have been a doctor for more than 20 years. I have never seen a woman as healthy as you. All the results are the healthiest standard. If a few indicators don't meet the standard once in a while, it will be okay. After all, there are more or less minor problems with people's health."

"But all of your indicators unexpectedly reach the standard. Your body is perfect without any problems!"

After Casey and Edith heard the doctor's words, they were immediately stunned.

Chapter 803 That Piece of Wood

On the way back, both Casey and Edith couldn't react a little. The doctor's words were still echoing in their ears.

"If her physical fitness continues to be maintained like this, she should be

healthy for a lifetime."

Logically, Casey and Edith should be happy after listening to what the doctor said. But Edith ate two kinds of poison. Having such a healthy body would make them feel very strange.

"Casey, do you think there is a problem with the equipment in this hospital? Or let's go to another hospital to check it again." Edith still said with some worry.

"This hospital is already the best in B City. Their equipment is the most advanced in the world. Even if there are some problems with some equipment, it is impossible for all the equipment goes wrong at the same time. If their results are unreliable, other hospitals' result will be even more unreliable." Casey said.

"Then what the hell is going on? I always feel a little weird. I have been so energetic recently. I never feel tired. Maybe I'm possessed by some ghosts??" Edith said preoccupiedly.

Casey immediately rolled his eyes at her and said, "Others will be sick and weak if they are possessed by ghosts. But you are full of energy. So the ghost who possessed you is kind-hearted?"

When Edith heard Casey's words, she knew that Casey was teasing her. But what Casey said made sense, how could there be any ghosts in this world? Casey was driving while thinking about why such a situation would happen to Edith. After a while, his eyes lit up and then he said, "I know the reason."

"What?" Edith asked quickly.

"Do you still remember that you ate a small piece of that black wood when you were dreaming?"

Edith nodded.

"Think about it! Have you become energetic since that day?" Casey asked again.

Edith thought about it for a while. She found that she had indeed become very energetic after eating that wood. She was too energetic. After eating that wood, she and Casey made love for several days but she still felt not enough.

Thinking of this, Edith couldn't help blushing.

"It seems that I feel so well from that day onwards. Even if Sherry is noisy, I don't feel tired. At first, I thought it was because you were by my side." Edith said.

Her words made Casey more convinced that such a situation happened to Edith was because of that black wood.

Because Casey had already put away that stuff and the two pills, he forgot to ask the master if he knew the origin of those stuff.

If it hadn't been for now, Casey wouldn't have remembered about that piece of wood.

"That piece of wood is indeed extraordinary. I didn't expect that the wood could detoxicate. Although I haven't figured out the origin of that piece of wood, it's indeed good stuff." Casey said lightly.

Knowing that it was because of the piece of wood, Edith felt relieved. In those few days, when she put the wood on the bedside to soothe her nerves, she felt that the wood was magical. That wood was indeed a rare treasure.

"Don't think about that anymore! I just want you to be fine. I will find out what the origin of this wood if there is a chance in the future." Casey said.

Edith nodded and let out a long sigh of relief.

In the Davies House.

In a dimly lit room, the black-robed man was tied to a chair. His face was already exposed. He was a middle-aged man in his forties.

He could reach Grandmaster Circle at his age, which showed that he was outstanding.

There was a table next to him. At this time, there were many small bottles, a wooden sign, and a folded paper on the table.

These things were found from the black-robed man. Because Casey had told

Brady that there were a lot of poisonous pills on this guy's body, Brady, who was in charge of body searches, did not dare to study the stuff casually. He just put them on the table and waited for Casey to come.

Not long after, the door of the room was pushed open. Casey walked in from outside.

Brady followed him. After they two came in, Brady closed the door again.

"Wake him up." Casey said.

Brady took a bucket of ice water that was already on the side, and poured it all on top of the black-robed man.

The black-robed man woke up immediately. Seeing that he himself was tied up and Casey was still standing in front of him, he felt panic. He was about to run his inner force to break away from

the rope, but he found that he still couldn't use the strength in his body.

"Now I ask you some questions and you answer me honestly. Otherwise, don't blame me for being rude to you." Casey said coldly.

"Who are you?"

The black-robed man glanced at Casey and said, "I have already told you. I am a friend of Myles."

When Brady on the side heard the black-robed man's words, a smirk appeared on his face. Then he walked in front of the black-robed man, and took out a dagger from his back without saying a word. He thrust the dagger directly into the black-robed man's thigh. A scream sounded. The entire face of the black-robed man instantly turned red. His two eyes were directly covered with bloodshot.

As the head of Yin Killers, Brady had been engaged in assassinations for many years and had considerable experience in interrogation. He could tell at a glance whether the other party had lied or not.

He knew that what he must do to interrogate others was to make them understand that he was not frightening them. He had to let them know that he could really kill them once they lied.

"Our boss asked who you are, not who your friend is. You have so many bottles on your body, and a wooden sign with the word "medicine" on your body. It seems that your identity should not be simple, so hurry up and tell me the truth obediently. Otherwise, I will spin the dagger twice." Brady said fiercely.

Seeing Brady was so decisive, Casey admired Brady a little. Sure enough, professional things should be done by professional people.

The black-robed man saw that Brady was so ruthless. Besides, Brady's actions just now were too abrupt. Even if he was a Grandmaster, he was scared to death. So he didn't dare to play any tricks.

"I, I'm from Valley of Medicine God. That wooden sign is specially made by Valley of Medicine God. You can find someone who knows the existence of Valley of Medicine God to ask." The black-robed person hurriedly replied.

Casey was a little curious when he heard Valley of Medicine God. He had never heard of Valley of Medicine God before. Besides, he didn't know what Valley of Medicine God did.

But just by listening to the name, he knew that it must be related to the medicine.

After hearing what black-robed man said, Brady immediately widened his eyes and exclaimed, "Oh my God, he turned out to be from Valley of Medicine God!"

Chapter 804 Valley of Medicine God
Seeing Brady's reaction, Casey turned to look at him, and asked, "Do you know Valley of Medicine God?"

Brady nodded, "I have only heard some rumors about Valley of Medicine God. It's said that this Valley of Medicine God is a good place. There are many rare medicinal materials growing there. Hundreds of years of medicinal materials are everywhere."

"A group of highly skilled Alchemists started their sect there. It is said that Valley of Medicine God has been passed down for hundreds of years. There are many masters there, and everyone is proficient in refining medicine. Because of the unique geographical environment and their talent for making medicine, the people in Valley of Medicine God are very strong. Even if their talents are not good, they can rely on some pills to increase their strength."

"The pill of Valley of Medicine God is called a magical medicine by many people. There are many people with great backgrounds who will go to Valley of Medicine God to ask for medicine for treatment. As long as they can give Valley of Medicine God some stuff they like, they can get the pill they want."

"But these are some rumors. No one really knows whether it is true. I didn't expect that I actually met a person who claimed to be from Valley of Medicine God today."

After hearing Brady's words, Casey was thoughtful. Only from the pills that the black-robed man gave to the five major families, this so-called Valley of Medicine God still had a certain strength.

When the black-robed man heard Brady talking about Valley of Medicine God, his face also showed a trace of triumph. It was obvious that he was very proud of being a member in Valley of Medicine God.

"Valley of Medicine God is powerful. How could these rumors be able to

describe its mightiness? In the eyes of the people of Valley of Medicine God, those so-called Guwu Families are just a group of clowns." The black-robed man said.

Without saying a word, Brady slapped the black-robed man's face, and shouted, "Did I let you speak?"

Although Valley of Medicine God was indeed powerful, this black-robed man was the subject of Brady's interrogation. So Brady had to be fierce in front of the black-robed man.

The black-robed man looked aggrieved. If it wasn't that he couldn't use his strength now, how could he sit there and be beaten by a guy who had only reached medium stage of inner force. In Valley of Medicine God, those guys who had reached medium stage of inner force could only do some chores for him.

Casey stared at the black-robed man, and asked, "Since Valley of Medicine God is so powerful, can there be any masters who have reached sublimation?"

"Sublimation? What is that?" The black-robed man was stunned. Obviously, he hadn't heard of anything about sublimation.

Casey couldn't help but laughed when he saw the reactions of the black-robed man. Originally, seeing that this guy was so arrogant, Casey thought that Valley of Medicine God must be a remarkable sect. But the black-robed man actually didn't know sublimation, which meant Valley of Medicine God was only better than those Guwu Families.

Maybe Grandmasters in Valley of Medicine God were only a bit more than those of Guwu Families.

It was undeniable that the pills of Valley of Medicine God might be really powerful, and it could make people with ordinary talents become Grandmaster relying on the pill.

At the same time, it also showed that there were few masters who had reached sublimation. There was no master who had reached sublimation in Valley of Medicine God, a sect with a unique environment, which meant that people couldn't reach sublimation relying on pills.

"Tell me how many Grandmasters are there in Valley of Medicine God!" Casey said.

"There are a total of 21 Grandmasters, including five top Grandmasters, eleven Grandmasters who are the same as me, and five who have just reached Grandmaster Circle. The number of the Grandmasters in Valley of Medicine God is more than that of the six major families." The black-robed man spoke somewhat proudly again.

When Casey and Brady heard this, they both secretly smacked their tongues. They didn't expect that there were so many Grandmasters in Valley of Medicine God, which were almost equivariant to the half number of Grandmasters in C Country Martial Circle.

Originally, Casey thought there were seven or eight Grandmasters at most even if Valley of Medicine God was powerful. Unexpectedly, there were 21

Grandmasters in Valley of Medicine God. It seemed that with the help of pills, it was much easier to improve the strength.

"Boss, this Valley of Medicine God is too horrible! There are more than 20 Grandmasters. If we are targeted by Valley of Medicine God, we will be screwed up. How about letting this person go?" Brady whispered to Casey. The black-robed man saw that Brady was frightened by Valley of Medicine God. He said confidently, "If you guys let me go now, I will spare you guys this time. Otherwise, once the people in Valley of Medicine God know that I was arrested by you guys and have been so humiliated like this, they will definitely come and destroy you Davies family!" Casey curled his lips. He looked at the black-robed man, and asked, "Can you tell me how people in Valley of Medicine God know that you were arrested by me?"

The black-robed man was stunned. He hadn't considered this question before. Now being asked by Casey suddenly, he didn't know how to answer. Valley of Medicine God was an isolated place which was thousands of miles away from B City. Even if the news was spread, it would take several days that the people in Valley of Medicine God knew that the black-robed man was arrested.

Besides, no one knew that the black-robed man was arrested. Casey arrested him in a deserted suburb, and the place was chosen by the black-robed man himself. Even if the people in Valley of Medicine God confirmed that

he was missing, it would be impossible for them to know it was Casey who had arrested him.

Avenging Myles was the black-robed man's private affairs. No one in Valley of Medicine God knew that he came to B City to kill Casey.

There was a hint of despair in the black robe man's heart.

Seeing the reactions of the black-robed man, Casey already understood that the people in Valley of Medicine God could not have known that the black-robed man was in his hands, so he had nothing to worry about.

"The strength of Valley of Medicine God really should not be underestimated. But I'm not afraid of it. Even if they know that you are in my hands, for me, it's just a piece of cake." Casey said lightly.

Casey was not bragging. After experiencing the last battle, Casey had a very clear understanding of his own strength. In addition, during the two days that the master stayed in Davies family, Casey asked the master a lot about how to release of inner force.

Casey also had some understandings. His strength also improved a little.

Although it indeed sounded a little terrifying that there were 21

Grandmasters in Valley of Medicine God, it was not impossible for Casey to defeat them.

Besides, it was impossible that all the masters of Valley of Medicine God came out to battle with Casey.

"You came to B City just to take revenge on me?" Casey asked another question.

The black-robed man didn't dare to look

into Casey's eyes. He did not answer Casey's question.

Casey noticed the folded piece of paper on the table. Then he walked over, opened it and took a look.

On the paper was a portrait of a girl who looked very beautiful. Below the portrait, there was a name, Elsa Duncan.

Casey was shocked suddenly. Duncan was exactly the surname of the family which was in R Country. The master said this family possessed a piece of Soul Setting Jade.

Chapter 805 The Deal

Casey walked to the black-robed man with that piece of paper. He stared at the black-robed man and asked, "Who is Elsa?"

The black-robed man was obviously reluctant to talk about this matter. Brady directly turned the dagger which was inserted in the black-robed man's thigh slightly. The blade spun in his flesh. Naturally, the black-robed man couldn't stand this kind of pain. He screamed again.

"Well, well, I'll tell you everything. Please pull this dagger out of me!" The black-robed man shouted desperately. Brady stopped, but did not pull out the dagger.

With cold sweat on his forehead, the black-robed man stared at Casey and said, "This girl is from the Duncan family in R Country."

"the Duncan family? Is it the behind-the-scenes family in R Country, which controls half of R Country's economy and military power? Is that the Duncan family which has passed down six

generations of Shinobido?" Casey asked.

The black-robed man nodded. There were few people who knew the Duncan family, so he was not curious.

The reason why Casey knew about the situation of the Duncan family was because there was the introduction on the paper that the master gave him. the Duncan family could be said to be the true underground emperor in R Country. Even those in power did not have the courage to provoke the Duncan family. One piece of Soul Setting Jade was in the hands of the Duncan family. The purpose Casey went to R Country was to deal with the Duncan family.

He didn't expect that Elsa on this piece of paper turned out to be a member of the Duncan family.

"Why do you have a portrait of this girl?"

Casey was full of doubts, wondering how Valley of Medicine God knew the Duncan family.

The black-robed man knew that if he didn't tell Casey, he would definitely suffer further torture, so he sighed helplessly and said, "Actually, the main task that I came out of Valley of Medicine God is to meet Elsa. I bring her portrait just to recognize her. The secondary task is to come to B City to avenge Myles."

"the Duncan family has a deal with Valley of Medicine God. Elsa is the one who will talk about the deal with Valley of Medicine God. My task is to take her to Valley of Medicine God to complete this deal after seeing her."

"What deal?" Casey asked.

"I really don't know about this. Only Leader knows the content of this deal. Leader said it was a matter between him and the Duncan family. Even our Lord doesn't know about it. When I came out, Leader asked me not to tell others about the matter." The black-robed man said quickly.

Casey and Brady looked at each other. They obviously didn't believe what the black-robed man said. Brady immediately tortured the black-robed man again. However, the black-robed man kept saying that he really didn't know. Only then did Casey and Brady believe his words.

After that, Casey asked the black-robed man when Elsa would arrive, and the location of Valley of Medicine God. Originally, Casey didn't intend to provoke Valley of Medicine God. After all, he didn't want to have so many enemies. No one knew that he caught the black-robed man. As long as this matter was suppressed, there would be no intersection between him and Valley of Medicine God in the future.

However, Valley of Medicine God had a relationship with the Duncan family, which made Casey have to consider whether the matter between the Duncan family and Valley of Medicine God would affect the matter he got Soul Setting Jade from the Duncan family. So Casey felt that he had to figure out what the deal between the Duncan family and Valley of Medicine God was. If it was possible, he could find a chance to let the Duncan family hand over Soul Setting Jade directly.

Soul Setting Jade was a rare treasure. The Duncan family was not fools. They wouldn't give Casey Soul Setting Jade so obediently. So Casey needed to make some preparations.

He also intended to learn more about the Duncan family through Elsa.

So Casey planned to meet Elsa in place of the black-robed man, to see if he could get something from Elsa. If not, he would think of other methods.

After knowing these things, Casey took the two pills and the piece of black wood he had gotten from Master Tianlong and asked the black-robed man if he knew what they were.

When seeing the two pills, the black-robed man directly exclaimed and asked

Casey why he had perfect-level pills.

Casey quickly asked what a perfect-level pill was.

The black-robed man explained that the color and effect of these two pills had reached the peak, approaching perfect-level pills.

This kind of pills would not cause side effects, but the effect was the strongest among the same type of pills.

Casey didn't expect these two pills to be so powerful, reaching the perfect-level.

It seemed that Master Tianlong didn't lie to him.

Cabala was powerful, but after using it, it would cause people to fall into weakness. Casey even went into a coma for seven days, which had great disadvantages. But this kind of pills had no side effects, which were undoubtedly the strongest treasure.

After putting away the pills, Casey asked the black-robed man about the black wood again. The black-robed man

looked at it for a long time, but he didn't know what the black wood was for. He just felt it was very special. Maybe his Lord knew what this wood was.

Casey had no choice but to give it up. Even the people in Valley of Medicine God couldn't see what the wood was used for. It only proved that the origin of the wood was not ordinary.

If there was a chance, Casey really wanted to ask the Lord of Valley of Medicine God.

He wasn't worried that the people of Valley of Medicine God would make trouble for him. After all, the people of Valley of Medicine God didn't know that he had caught the black-robed man.

After the interrogation, Casey asked Brady to lock up the black-robed man first. This man came from Valley of Medicine God. He must be very experienced in refining medicine. If Casey could learn some knowledge about refining medicine from the black-robed man, it would be a good thing.

Besides, the black-robed man deliberately hurt Edith. Casey would definitely not let him go, so it was naturally impossible for the black-robed man to return Valley of Medicine God in his life.

Half a month passed.

Casey once again let Darius manage all the affairs of Davies family, and told Ellis and Hughes to protect Edith and Sherry at all times. After bidding farewell to Edith and Sherry, Casey left B City and went to the place where the black-robed man was about to meet Elsa.

Only when Casey got Soul Setting Jade

could he come back.

At a small town in the south.

In a somewhat dilapidated house at the foot of the mountain, Casey was sitting on a few bricks, carefully comprehending the strength in his body, and wondering how he could break through to the consummation of XuanJin.

If he guessed right, he should be able to release XuanJin out when he broke through to the consummation of XuanJin.

He arrived here yesterday. According to what the black-robed man said, today was the day to meet the people from the Duncan family.

While Casey was concentrating on it, there was a sound of footsteps outside. Two guys entered the house where Casey was.

Casey looked up, then he saw a girl and an old man coming in.

The girl's skin was so fair. Her eyes were so clear. She seemed to be well-cultivated. She was so gorgeous and stunning.

For a while, even Casey was deeply attracted by her.

Chapter 806 Elsa

This girl who looked like a fairy descending to the earth was the Elsa on the portrait in Casey's hand.

It was just that the portrait couldn't show only one-thousandth of the beauty of Elsa. So after seeing the real person, Casey was in a trance.

Casey had seen many beauties. But Elsa still gave Casey a strong

impression.

However, he quickly looked away. After all, he was already a father. Besides, he only loved Edith. Seeing such a beautiful woman, he would only appreciate her.

After seeing Casey, Elsa and the old man also showed a trace of doubt on their faces, especially Casey's gaze at Elsa made Elsa frown slightly.

"Are you from Valley of Medicine God?" Elsa asked in fluent language of C Country.

Casey stood up and nodded to her.

"Miss, this person is likely not to be from Valley of Medicine God. The people of Valley of Medicine God told us before that they would let a Grandmaster come to meet us. This brat seems to be the same age as you. He can't be a Grandmaster." The old man standing next to Elsa said.

Elsa's beautiful eyes also showed a trace of vigilance. She also thought that Casey pretended to be from Valley of Medicine God.

Seeing that the two of them didn't believe in him, Casey immediately released the aura from his body. Then he walked to the wall and punched it out. An extra fist-sized hole appeared on the wall.

"Can you believe me now?"

Elsa and the old man both watched this scene with shocked faces. The aura that Casey released just now was indeed that only a Grandmaster could release.

The old man was also a Grandmaster, so naturally he wouldn't feel it wrong.

"You are obviously only the same age

as Miss. Why do you have such a strong strength? Even if you are a genius, I am afraid it is impossible for you to reach Grandmaster Circle at your age?" The old man said in disbelief.

Casey said with a smile, "Valley of Medicine God is good at refining pills. It is easy for us to use pills to improve our strength. Therefore, it is not impossible for me to reach Grandmaster Circle at this age."

Since he had to pretend that he was from Valley of Medicine God, he had to pretend to be real.

Both of them felt what Casey said made senses. So their suspicions about Casey were alleviated a lot.

"Valley of Medicine God is indeed well?deserved. We were rude just now.

Please don't mind it." Elsa bowed to Casey very politely.

Casey said with a smile, "Never mind! Since we have already met, let's set off for Valley of Medicine God, so that you can complete the deal with Leader as soon as possible."

After speaking, Casey was about to go out. At this time, the old man glanced at Casey for a while, then he said, "Sir, don't be in a hurry. I don't know if we can see the sample of the pills we want first. It won't be late to set off after seeing it."

Casey was taken aback for a moment. The black-robed man had never said what pills the Duncan family wanted, let alone any samples. Now Casey certainly couldn't take out the pills what the old man wanted.

Casey felt that the black-robed man did

it on purpose. Now, Casey just wanted to call Brady quickly and let Brady take a few stabs on the black-robed man.

"Ahem, I haven't brought the sample with me for the time being. It's not late to look at it when we arrive at Valley of Medicine God." Casey said embarrassingly.

The old man immediately grabbed Elsa's arm, led her back, and said, "You are not sent by Valley of Medicine God to connect with us at all. What we want is not pills at all. How could you have the sample? !"

Casey was shocked immediately. He didn't expect that it was not the black-robed man who cheated him, but the old man.

Casey originally thought that he could use his identity as a black-robed man to take the opportunity to get something from these two people on the way to Valley of Medicine God, but he didn't expect that he would be exposed at the beginning.

It seemed that he was still not suitable for acting.

Elsa also frowned. She looked at Casey, and asked, "Who are you? Why do you pretend to be from Valley of Medicine God? Where did the people sent by Valley of Medicine God go?"

Casey sighed helplessly.

"Since I've been seen through by you guys, I'll just tell you straightly. The person from Valley of Medicine God wanted to kill me, but he was arrested by me. He told me the matter between your family and Valley of Medicine God. Because I'm also curious about Valley of

Medicine God, so I want to go Valley of Medicine God with you guys. You guys can rest assured. I am not malicious."

Casey said.

The old man snorted coldly at Casey, and said, "Who knows if what you said is true! Miss, let's go quickly, just in case there is fraud."

After speaking, the old man was about leave here with Elsa.

Casey shook his head. Then he reached the door with a flash, stopping the two people.

"If I really want to hurt you, you guys will already be two corpses the moment you come in. I don't want to hold grudges with you guys. I am simply interested in Valley of Medicine God."

Of course, Casey was also interested in the deal between the Duncan family and Valley of Medicine God, but he didn't tell them.

"Don't bluff. You actually threaten us? Don't think that you can brag in front of us if you reach Grandmaster Circle!"

In the eyes of the old man, even if Casey could reach Grandmaster Circle at this age, he must have just reached Grandmaster Circle. So it was not difficult for him to beat Casey.

So after seeing Casey stop them, he attacked Casey without saying a word. Casey was a little helpless. Seeing the old man take actions, Casey could only say lightly, "I didn't want to hurt you guys. If you have to fight me, I can only fight back."

Five minutes later.

Seeing the old man who was pushed to the ground by Casey and couldn't get

up, Elsa was shocked, and involuntarily stepped back.

Although the strength of this old man in the Duncan family was not the strongest, he was also a Grandmaster that everyone admired. She didn't expect that the old man would be subdued by Casey, which made her so shocked.

Casey turned his head and smiled at Elsa, saying, "Don't worry. I really have no malice, but I have already explained the situation. So it is not appropriate to let you go like this. If you go to Valley of Medicine God to report me to them, it will be no good."

When Elsa heard Casey's words, she was a little bit speechless. But after seeing Casey's strength, she felt that Casey was right. If Casey really wanted to kill them, they should be dead long time ago.

The old man who was pressed to the ground by Casey was also full of horror. This young man's strength was just about to catch up with the head of the Duncan family in a normal state.

However, compared with the head of the Duncan family in an abnormal state, this brat was much worse...

Thinking of this, the old man couldn't help but shudder, as if thinking of something terrifying.

Chapter 807 Sneaky

"Well, Sir, I believe that you are not malicious. Please let him go first." Elsa said to Casey.

Casey let go of the old man, and said, "I believe you should have understood your current situation. As long as you

guys cooperate, I will not do anything to you guys. But if you stick to make some trouble for me, don't blame me for being rude."

Since Casey was seen through by them, he could only threaten them.

The old man knew that Casey was serious. So after he got up from the ground, he did not act rashly.

"Even if we promise you to bring you to Valley of Medicine God, do you think you have a chance to get in when you arrive at Valley of Medicine God? Don't the people in Valley of Medicine God know that you are a fake?" The old man looked at Casey with some contempt. Casey said with a smile, "You don't need to worry about this. When I get to Valley of Medicine God, I have my own countermeasures."

The old man snorted and said nothing.

"If this is the case, I will acquiesce that you agree to bring me to Valley of Medicine God. I'm purely interested in Valley of Medicine God. Going with you guys is just for the convenience of getting in Valley of Medicine God. As for your deal, I will not interfere. I hope we can get along peacefully on the way to Valley of Medicine God."

"By the way, even if I won't interfere what the deal between you and Valley of Medicine God is, may I ask about it?"

Elsa was about to tell Casey immediately. Seeing this, the old man stopped her immediately and said, "I'm sorry! It involves the secret of the Duncan family. So we can't tell you." Casey just smiled when he heard the old man's words. The more they didn't

tell him, the more Casey was curious. But it was impossible for him to force two people to say it out now. Anyway, there were still more opportunities, so Casey was not in a hurry at this time.

Without further delay, the three of them set off for the direction of Valley of Medicine God.

According to what the black-robed man said, Valley of Medicine God was in a rather remote mountain range in the south. They needed to pass through several suburbs from this small town, over many mountains, and through many jungles to reach the place where Valley of Medicine God was located. Fortunately, the strength of the three people was not bad. So this distance was nothing to them.

Through the conversation, Casey learned that Elsa had reached medium stage of inner force.

This kind of strength was already quite powerful for a girl. Her talent was much better than Caro.

Moreover, Elsa was quite gentle in her speech and manners, as well as her behaviors. She was a real lady from a rich and powerful family. Just from her appearance, others couldn't tell that she was an inner force expert who had reached medium stage at all.

Of course, in Casey's eyes, the inner force expert who had reached medium stage was not much different from ordinary people, so he treated Elsa as a weak girl.

Along the way, Casey and Elsa hit off. Casey always wanted to take the

opportunity to ask Elsa what the deal between the Duncan family and Valley of Medicine God was. But every time he was interrupted by the old man.

Besides, the black-robed man also warned Elsa not to talk to Casey.

Elsa felt very disappointed. Casey felt weird, as if there was something in Elsa's mind.

The old man who followed Elsa was named Kennedy Duncan, who was Elsa's uncle. This time he came here specifically to escort Elsa.

However, through observation, Casey found that the relationship between Elsa and Kennedy was not very close, and it seemed to be very distant, as if it weren't for going to Valley of Medicine God, the two of them would not have any communication.

Moreover, every time when Kennedy interrupted Elsa, it was not an elder's concern for a junior, but an order, which was indifferent and ruthless.

Casey was no stranger to this kind of family relationship. His mother used to treat him like this. So it was no surprise that an uncle treated his junior like this. After traveling all the way and changing various means of transportation, the three finally arrived in the mountains where Valley of Medicine God was located.

They only needed to climb a few more mountains to see Valley of Medicine God.

On the way, Casey felt a little strange that Kennedy would leave for a while to go to pee every once in a while. This was originally normal, but the frequency

of Kennedy's going to pee was too stable, which was that he would leave once every six hours.

So, it seemed to be a little abnormal.

Before starting to climb the mountain, Kennedy once again said that he wanted to go to pee, and then walked towards the depths of a forest.

Seeing this, Casey immediately said, "I'll go with you."

Kennedy refused immediately, "I'm sorry. I'm not used to peeing with others."

Casey smiled thoughtfully and said, "Okay, I'll go somewhere else."

Kennedy left here immediately. Casey pretended to walk in the other direction.

Not long after walking away, Casey quickly walked past Elsa and followed in the direction of Kennedy. He followed Brady to learn some hidden skills. With Casey's current strength, Kennedy would never find Casey following him. After walking about one kilometer, Casey saw Kennedy stop behind a tall bush, and then he hid behind the bush. Casey was very curious about what Kennedy was doing every time he left. If he really came to pee, Casey would definitely not believe it.

Casey silently climbed up a tree. From the tree, he could see the position behind the bush.

When Casey reached the top of the tree, he saw Kennedy sitting on the ground with a round vessel in front of him. The vessel was filled with red liquid. According to Casey's experience, this red liquid was blood.

Kennedy was chanting. Because Casey

was far away him, Casey didn't know what he was chanting, but it looked a bit like a spell.

After a long time, Kennedy picked up the vessel, then bowed in midair, and then drank the liquid in the vessel.

Casey's heart suddenly sank when he saw this scene. Although he didn't know what Kennedy was doing, from that posture, he knew that Kennedy was performing some kind of evil method or practicing some kind of evil technique. Casey wasn't sure whether this thing was true or not! But since Kennedy could do this kind of thing, it proved that he was not a good guy at all.

If Kennedy was drinking human blood just now, the matter would be even worse.

Casey didn't expect that the Duncan family still had this habit.

Casey jumped directly from the tree, walking up to Kennedy to ask what happened.

The moment when Casey jumped down, Kennedy noticed something wrong, and then he quickly stood up and looked towards Casey.

When Casey saw Kennedy's face, he was even more shocked.

Kennedy's eyes turned black, and the corners of his eyes were covered with dense black blood vessels. He looked like a demon now, which was extremely terrifying.

Chapter 808 The Sins of the Duncan family

"Didn't I tell you not to follow me!" After seeing that the person coming was Casey, Kennedy immediately showed a

ferocious expression on his face,
looking very angry.

He seemed to want to restore his
previous look, but it was a pity that the
incident happened suddenly, and it was
impossible for him to forcefully restore
his previous face. Besides, Casey had
seen his face now.

"I originally thought the Duncan family
was an upright clan, so I didn't want to
have any grudges with you guys, but I
didn't expect you to practice this evil
technique in private. The one you just
drank was human blood?" Casey stared
at Kennedy and asked.

Kennedy snorted coldly and said, "What
I drunk has nothing to do with you. I
advise you not to be nosy here.
Otherwise, don't blame me for being
rude!"

Casey curled his lips. Originally, Casey
felt it was not appropriate for him to grab
the Soul Setting Jade from the Duncan
family. So he wanted to see if he could
figure out what the Duncan family
needed through this deal. Then he could
have a bargaining chip.

If he could directly find what the Duncan
family needed, he could exchange them
with the Duncan family directly.

But now seeing that Kennedy cultivated
evil technique, and the abnormalities
Kennedy showed along the way, Casey
had to doubt that the deal between the
Duncan family and Valley of Medicine
God was also dirty stuff. If that was the
case, he didn't have to care about so
much.

"Does your deal with Valley of Medicine
God this time have something to do with

this evil technique? That's why you don't want me to know?" Casey stared at Kennedy and asked.

Kennedy was frozen, as if his secret had been exposed. Then he shouted to Casey angrily, "Brat, you could have arrived at Valley of Medicine God with us safely, but you have to ask for trouble. Since you can't wait to die, you can't blame me!"

After speaking, Kennedy rushed towards Casey, leaving no room for discussion at all.

Casey snorted when he saw this.

Although Kennedy looked terrifying now, it didn't mean that he had really become a demon.

According to Casey's speculation, what he was cultivating should only be some kind of brutal and bloody strength-increasing method. The reason why he

became like this was that his body had produced some mutations because he couldn't adapt to this cultivation method.

It was also impossible that he could reach sublimation just because his face became terrifying. Otherwise, the Duncan family would have become the most terrifying power in the world.

R Country did not have such a rich historical heritage as C Country. The warriors in C Country could rely on elixirs or some techniques to increase their strength. But if the masters in R Country wanted to increase their strength, they could only use some mean ways.

At the moment Kennedy rushed to Casey, Casey also released a fierce force, and directly fought against

Kennedy.

Casey had to say that the power of Kennedy was so terrible that even Casey was a bit shocked. After they two collided, Casey was forced to retreat a dozen meters away.

Compared with the strength of playing against Casey in the small house before, the strength of Kennedy had increased several times.

Seeing Casey being repelled by himself, Kennedy showed a ferocious smile on his face and then he said, "Brat, in this state, my strength is invincible. You want to beat me? It's impossible! "

Casey also said with smile, "Who told you that it was all my strength? I just wanted to test your current strength."

As soon as Casey finished speaking, his aura suddenly rose, no less than Kennedy's.

Kennedy was also taken aback. He didn't expect Casey's strength to reach such a terrifying level. There was a trace of jealousy in his eyes.

He needed to practice this disgusting technique to make his strength reach this level. However, the brat in front of him was so young but he already had reached the level that of he had worked so hard to achieve, so Kennedy was quite angry.

"Bluffing! After you die, see how you show off in front of me!"

They two collided again. All the surrounding grass fell because of the two people's fight. The two people's tricks hit the surrounding trees, then huge gaps appeared in those trees in an instant.

As the battle progressed, several trees had already fallen down.

Although Kennedy's power was strong, his use of power was obviously not as good as that of Casey. Maybe because it was an evil technique, there was instability. Sometime, his strength was strong, but sometimes, it was weak. It didn't take long for Casey to see Kennedy's flaws.

Casey didn't hesitate, and directly hit Kennedy on his chest with one move. Kennedy immediately flew out towards the back, broke two big trees in succession, and then stopped.

Casey walked up to Kennedy, who was dying and his face was so pale. It seemed that he could not survive.

"Damn it! the Duncan family won't let you go!" Kennedy shouted.

Casey snorted coldly and said, "If all the people in the Duncan family are practicing this evil technique, I won't need you to deal with me. I will personally get rid of you guys who drink human blood."

"Tell me, what is the deal between you and Valley of Medicine God!"

Kennedy subconsciously protected his chest, and said, "I won't tell you. Even if I have to die, I won't tell you!"

Casey ignored him, and directly reached out to touch Kennedy's chest. Kennedy was shocked. He was about to avoid Casey. But it was a pity that he had no resistance in front of Casey. When Casey stepped on him with one foot, he couldn't resist at all.

There was something hidden in Kennedy's chest. Casey took it out. It

was a list of deals.

"Shit, this is the secret of the Duncan family. You are not qualified to see it! Give it back to me!" Kennedy shouted at Casey.

Casey didn't pay attention to him at all, and directly opened the list and read it. It was written with the language of R Country. Fortunately, Casey took language lessons when he was a child. He was proficient in various languages, otherwise he might not be able to understand what was written on this list. This list was written with the names of some medicinal materials that Casey had not heard of, and the quantities written on it were not the same. It did not seem to be something wrong. This made Casey quite puzzled. After all, if only trading some medicinal materials, Kennedy didn't need to hide it like this.

However, when Casey saw the content on the last page of the list, his face immediately sank. A terrible anger rose in his heart.

"Ten pairs of little boys' eyes. Ten pairs of little girls' eyes. Ten samples of blood for infants under three years old, and ten bodies for infants under three years old."

Chapter 809 The Truth

Casey stared at Kennedy who fell on the ground, pointed to the last page of the list, and asked, "What do you want these things for? Why do you have to come to Valley of Medicine God to find these things? Can't you get them from the Duncan family?"

Kennedy knew that he could no longer

survive. Hearing Casey's question, he said with a smile, "We won't get them from R Country, let alone the Duncan family. We just want to get them from C Country."

"The people of C Country are despicable untouchables. You are born to serve us. What's more, C Country has an enormous population. We just need dozens of children. Wouldn't it be more convenient to get them from your country?"

Hearing Kennedy's words, Casey was angrier. He kicked Kennedy on his chest directly.

Kennedy vomited another mouthful of blood. His face became paler.

"Even if you kill me, it's useless. If we can't get these things from Valley of Medicine God this time, people from the Duncan family will find other ways to get these things from other places. The head of the Duncan family is already on the verge of breaking through. After he breaks through, you untouchables will surrender at his feet!" Kennedy shouted. Casey snorted coldly, and said, "You wish! How can you shit petty country be comparable to our country? I alone can destroy the Duncan family!"

After finishing speaking, Casey leaned over and grabbed Kennedy's neck. With force, he broke Kennedy's neck.

Casey didn't have to show any mercy to this kind of beast who was already mentally abnormal.

After learning that the Duncan family was doing this kind of business secretly, Casey no longer planned to get along well with the Duncan family anymore.

Based on the words Kennedy said, it was not way out of line even if he went to R Country to destroy the Duncan family, let alone grabbing Soul Setting Jade.

What was even more unexpected for Casey was that Valley of Medicine God would even agree to make such a deal with the Duncan family, which made Casey hate Valley of Medicine God.

But now Casey was not sure whether Valley of Medicine God had prepared these things that the Duncan family wanted. This involved the lives of dozens of children. So no matter what, Casey must go to Valley of Medicine God this time.

If Valley of Medicine God was really such a sinister and vicious sect, Casey wouldn't mind ruining Valley of Medicine God.

The fighting between the two was quite fierce. Elsa, who was not far away, had already noticed the situation here, so she rushed over here.

When she got here, she happened to see Casey stretched out his hand to break Kennedy's neck. She directly exclaimed, drew a dagger from her pocket, and rushed towards Casey.

"Why did you kill my uncle? It seems that you are lying to us. I shouldn't believe you!" Elsa shouted at Casey.

Casey was in a rage at this time. When he saw Elsa rushing over, he waved his hand and threw her out.

Elsa fell to the ground, looking at Casey with an angry face. Then she said, "Why did you do this? We have no grudges with you. The person who wants to kill

you is from Valley of Medicine God.
What does it have to do with us? Why
are you so vicious!"

"I'm vicious? You actually dare to say
such words! Don't you know why I killed
him? Your so-called the Duncan family
is just a bunch of beasts. You dare to kill
children of our country. It's already
pretty good that I didn't cut him into
pieces!" Casey said in anger.

"Children? What children? When did we
want to kill the children in C Country?"
Elsa showed a look of doubt.

"Don't play dumb here. As a member of
the Duncan family, don't you know what
you are going to trade with Valley of
Medicine God this time?" Casey stared
at Elsa.

Elsa was puzzled for a while, and said,
"We came to Valley of Medicine God
this time only to ask for some medicinal
materials. Is it also wrong?"

Elsa didn't seem to be pretending. It
seemed that she really didn't know the
real content of this deal. Besides, Elsa
didn't have any weird behaviors on the
way, so Casey guessed that Elsa might
really not know what the deal was.

He threw the list directly in front of Elsa,
and said coldly, "You can read it for
yourself!"

Elsa picked up the list and took a closer
look. She didn't think anything wrong
until she saw the last page. When she
saw the last page, her eyes widened
and her face instantly turned pale a bit.

"How... how is this possible! Why is
there such a thing?" Elsa murmured.

"What kind of evil demon is the Duncan
family? You are still practicing this

disgusting evil technique. If you don't give me an explanation today, you will wait for being tortured by me." Casey said coldly.

Elsa looked at Casey and said, "the Duncan family has never done these things. I don't know what's going on. When I set off, they told me just take some medicinal materials. These medicinal materials are too rare. Only Valley of Medicine God has them."

"Now, you still want to quibble? Doesn't his ugly appearance tell you anything?"

Casey stared at Elsa.

Elsa then glanced at Kennedy. She was too anxious just now to pay attention to Kennedy's face.

After seeing Kennedy's face as if he was possessed by a wronged ghost, Elsa was also scared. Her face showed an incredible look.

"Why... why? Why did he become like this? How could he become like this? In the Duncan family, no one practices this evil technique." Elsa said in disbelief.

Seeing Elsa's shocking face at this time, as if she had just learned about the situation of the Duncan family, Casey was also very puzzled.

Logically, if the Duncan family asked her to trade with Valley of Medicine God, she must know the content of the trade.

Otherwise, she didn't have to come here. Because she had just reached medium stage of inner force. It was enough for Kennedy to come alone.

There was no reason for the Duncan family to arrange for a girl who did not know the content of the trade and was not strong to come over. If the Duncan

family let Elsa go out to experience something, Casey would not believe it.

"Don't pretend. If you don't know anything, what will the Duncan family ask you to come to Valley of Medicine God? You're just a girl, besides, you have just reached medium stage of inner force." Casey asked tentatively. Elsa knew what Casey was thinking about. She sighed helplessly. The matter had reached this point, so she had nothing to hide.

She looked up at Casey and explained the reason why she went to Valley of Medicine God with Kennedy.

Chapter 810 Why Do You Take off Your Clothes

"Lord said that the herbs we intend to get from the Valley of Medicine God are very essential to the Duncan family and that we must get them. The Leader of the Valley of Medicine God, who is in charge of this deal, is luscious. He has long known me. Therefore, when negotiating, he requested that I should go there and satisfy his desire. He would only offer the herbs he promised to offer to us after I sleep with him."

Elsa wore a look of gloom and helplessness.

"Previously, I thought that Lord wouldn't agree. However, he agreed without even thinking about it. Just now, I saw that list. Now, I finally understood why Lord agreed without hesitation. What they really would trade should be these things."

Hearing that, Casey frowned slightly and asked, "Anyhow you're a member of the Duncan family. Why would they make

you sacrifice just for these things?"

Elsa felt a little lost and answered, "Although my family name is Duncan, I'm but a maid. I have to do whatever they ask me to do. My being able to survive is a manna from the Duncan family. Therefore, I can't disobey their order."

"Besides, my mother is still under their control. If I don't listen to them, my mother might be in danger. I can't let my mother suffer because of me."

Then, Elsa told Casey her story in detail. According to Elsa, she was only the daughter of the head of the Duncan family and a maid. The wife of the head of the Duncan family was a strong woman and couldn't tolerate other women giving birth to children for her husband. Therefore, Elsa and her mother would have been killed when she was born.

However, an old servant of the Duncan family stopped it. According to the old servant, Elsa and her mother were not valueless. As one of the most powerful families in R Country, the Duncan family sometimes needed to build connections with other families through marriage to get more benefits.

The wife of the head of the Duncan family certainly didn't want her child to be a tool to build connections with other families. If Elsa was alive, it could undoubtedly be avoided.

After all, bringing up Elsa was as easy as keeping a dog for the Duncan family. Therefore, Elsa and her mother weren't killed.

And Elsa began her tragic life. The

reason why the Duncan family raised her was that she might be useful at some point. She was like a tool, having to do whatever needed to be done by her. In order to make her more useful, the Duncan family began to train her. Since she was a child, she was trained in a very vigorous manner. What's worse, the wife of the head of the Duncan family always hated her, and therefore usually asked the people who trained her to beat and abuse her. There had been several times when Elsa almost died in the training.

Luckily, Elsa made it through and became the youngest inner force expert in medium stage of the Duncan family. She had thought that she could play her role and make some contributions to the Duncan family. Unexpectedly, the first task would be to please the Leader of Valley of Medicine God with her body. She had no choice but to obey the order because her mother was still under the control of the Duncan family.

Her mother was the only reason why she didn't kill herself. Her mother educated her and made her a reasonable and gentle person. Therefore, she wouldn't let her mother suffer because of her, no matter at what expense.

After hearing that, Casey had a little sympathy for her. But that was all. Casey didn't know what Elsa said was true or not. Although what she said was touching and although Casey didn't find any trace of her lying, Casey was still alert to her.

The reason why he didn't kill Elsa was

that he needed her help after he went to the Valley of Medicine God.

Besides, Elsa must have a good understanding of the Duncan family. If he just killed her, he would lose a chance to get information.

"It never occurred to me that the people of the Duncan family would do the business of breathing. And I didn't know that the people of the Duncan family are practicing evil skills. If you don't believe me, you can kill me now. I won't blame you." Elsa spoke.

Casey smiled and said, "For the time being, I believe you. I promise not to kill you on condition that you listen to me. Once you fail to that, I'll immediately kill you. You're supposed to know whether I can do that or not."

"And if you perform well enough and if I confirm later that what you said is true, I'll consider helping your mother get rid of the Duncan family. How about that?"

Elsa stared at Casey for quite a while with some emotion. After a long time, she nodded and said, "Well, it's a deal." After saying that, she began to take off her clothes.

Seeing that, Casey was puzzled, asking, "Why do you take off your clothes?"

Elsa spoke while looking at Casey, "My fate is now under your control. I know that it's narcissistic for me to say so, but men, who had met me, since I was a child, all wanted to sleep with me. If it wasn't that I was a member of the Duncan family, I would have been sold to Kabukicho. Now, I listen to you. The first thing I should do is of course to please you."

Hearing that, Casey couldn't help smiling. He couldn't figure out whether just Elsa thought so or the girls of R Country were all like that.

"I'm sorry. You're very pretty, but I'm not interested in you. I've got a wife.

Besides, I have a lovely daughter."

Casey said.

Elsa was stunned. More than half of the men who wanted to sleep with her had wives and children. Therefore, in her opinion, even if Casey had a wife and a child, he could sleep with her.

"Don't worry. I'll keep it a secret. Your wife and daughter won't know anything about it." After saying that, Elsa continued to take off her clothes.

Casey was speechless. He glared at Elsa and said coldly, "If you continue to do that, I'll take some action."

Elsa felt his emotion and realized that he was serious, so she immediately stopped.

"Get up and readjust your clothes. After climbing over these mountains, we'll arrive at the Valley of Medicine God. I'm curious who they are. They should do such evil business."

After saying that, Casey approached Kennedy, took out a lighter, and lit his clothes.

Elsa looked at Casey's back with an unprecedented glow in her eyes.

Chapter 811 Elder Brother and His Sister

On the way to the Valley of Medicine God.

Casey led the way. Elsa followed him, looking obedient. When Casey walked fast, she also walked fast. When Casey

walked slowly, she also walked slowly. She never tried to approach Casey. In the culture of R Country, there was still a traditional concept that men were superior to women. Since Elsa had agreed to put her fate under the control of Casey, she would surely be absolutely obedient to Casey. Besides, after knowing Casey more, Elsa found that Casey was an upright man who would keep his promise. On the way, Casey showed no interest in Elsa. Besides, he didn't go back on his promise. Instead, he seriously told Elsa what they should do after they reached the Valley of Medicine God in detail. Before, Elsa thought that men were all hypocritical and unreliable because all the men she came into contact with, including her father, were all like that since she was a child. After knowing Casey, she formed a different opinion about men. Casey told Elsa that they should pretend to be someone sent by the Duncan family and do business with the Leader of the Valley of Medicine God after they arrived at the Valley of Medicine God. As for the the black coat, Casey had already decided that they should say that the the black coat had gone to B City to take revenge for Myles. After all, it was not a lie, but a fact. Casey learned from Elsa that the Leader of Valley of Medicine God didn't know who would come to Valley of Medicine God with Elsa and that the Leader only knew that two people would come to him. It made Casey's plan feasible. If they still betrayed themselves from the

beginning this time, Casey would just fight with the people of the Valley of Medicine God, check if they had collected the eyes and flesh of children, and would never act with others for the rest of his life.

Elsa said that she had several elder brothers and that one of them looked a bit like Casey, so she suggested that Casey should pretend to be her elder brother. Casey thought that it was feasible, so he agreed.

They two walked along the mountain road. It was not hard to walk on this road. It seemed that it was specially built for people to walk on. There seemed to be quite many visitors to the Valley of Medicine God.

Before long, they saw that there were several people walking slowly before them. One of them was just walking, and other four of them were carrying a deck chair on which a girl was lying. Casey didn't expect that he would come across other people on the way to the Valley of Medicine God. Judging from the way these people behaved, Casey thought that they weren't ordinary people. That girl was lying on a deck chair and four people were carrying that deck chair. It was impossible that ordinary people would do that.

Casey carefully observed those four people, finding that they were all inner force experts in initial stage.

The man walking beside them was also an inner force expert in initial stage.

Soon, Casey and Elsa got close to these people.

"Bro, when can we arrive at the Valley of

Medicine God? It's so sunny here that my makeup has been messed up." The girl on the deck chair complained.

The man turned his head, looked at that girl, and said impatiently, "Be grateful. I'm afraid that you haven't gone more than 1000 paces along the way. They four haven't said anything, but you have complained many times."

"Humph, I pay them wages, and it's their job. There is no reason for them to complain. I'm noble, and it's hard to walk on this mountain road. If I fell over, your dad would be worried." The girl said carelessly.

The man seemed to be speechless. But he didn't say anything, and just continued to walk.

"Hey, guys, are you going to the Valley of Medicine God?" Casey approached them and asked.

Both the man and the girl turned around hurriedly. They didn't know when Casey and Elsa got close to them. Therefore, when they saw Casey and Elsa, they were all scared.

The girl even exclaimed, "Oh, my God. When did you two begin to follow us? You four put me down now and go to catch them who are with unknown background."

That four people immediately put the girl down and were about to attack Casey and Elsa.

Seeing that, Elsa interposed herself between Casey and the four people without thinking about it, looking coldly at them.

In the past, Elsa was trained in the way a professional killer was trained.

Besides, she was an inner force expert in medium stage. She was definitely quite good at fighting.

She just had no chance to fight because she came across Casey.

And these people were just inner force experts in initial stage. In Elsa's opinion, it was not difficult to deal with them.

Seeing that they were going to fight, that man hurriedly stood between the four people and Elsa, and spoke to Casey and Elsa, "I'm sorry. My younger sister is being impulsive. We didn't want to fight with you."

Casey nodded. Finding that this man was a reasonable person, Casey passed it over.

"Are you two also going to the Valley of Medicine God?" The man asked.

Casey nodded.

"Since we're going to the same place, why not go there together? In this way, we can help each other." The man said with a smile.

Casey didn't refuse. In his opinion, if he went to the Valley of Medicine God with these people, it would be easier for him to get into the Valley of Medicine God. After hearing what her elder brother said, that girl immediately spoke, "Bro, do you know who they are? Why do you offer to go to the Valley of Medicine God with them? We're in the wild. What if they're up to no good? What if they're meant for our Stewart family?"

The man glowered at the girl at once and said loudly, "If you continue to talk nonsense, I'll leave you here. In that case, you might become the food of wolves."

The girl finally stopped. However, when she looked at Casey and Elsa, there was still some hostility in her eyes.

The man apologized to Casey and Elsa, after which all of them continued their way.

Having got off the deck chair, it was not appropriate for her to ask other people to carry her now. Therefore, she walked beside the man, keeping looking at Casey and Elsa.

Through conversation, Casey got to know that these people were all members of the Stewart family in K City. The martial arts circle in K City had its own characteristics, and had little contact with the martial arts circle in the mainland. Therefore, Casey didn't know how powerful the Stewart family was. However, considering the fact that the people who carried the deck chair for that girl were inner force experts in initial stage, the Stewart family should be quite powerful. If a family was not powerful enough, it was impossible for that family to get to know where the Valley of Medicine God was.

The man was named McCoy Stewart and the girl was named Astrid Stewart. McCoy was the elder brother of Astrid. And they were sent by their father to go to the Valley of Medicine God to buy medicine that could enhance strength. As they had agreed, Casey pretended to be the elder brother of Elsa. They pretended to be someone from R Country.

After hearing that Casey and Elsa were from R Country, McCoy and Astrid weren't very shocked. After all, it was

not rare that people from all over the world came to the Valley of Medicine God to buy medicine.

Astrid stared at Elsa for a long time.

Previously, she believed that she was quite a beauty. However, after seeing Elsa, she despised herself and gradually began to be jealous of Elsa.

After a long time, she rolled her eyes, stared at Elsa and asked, "I heard that the beautiful girls of R Country all like to act in erotic films. You're so pretty.

Could it be that you have also acted in that kind of films?"

Chapter 812 Being Ill-mannered

After hearing what Astrid said, Elsa immediately frowned and spoke, "It isn't true that beautiful girls all act in that kind of films. In our country, that's just a normal career. Show some respect, please."

Astrid twitched her lips at once and said, "Humph, even if you haven't acted in that kind of films, you must have slept with many men. Women like you look like fairies, but are actually luscious."

If she was not as beautiful as other girls, she would defame them. It was the trick Astrid usually used. Whenever Astrid saw a girl who was more beautiful than her, she would manage to throw mud at that girl so that she could feel better.

In addition, because no one dared to offend Astrid in K City due to her background, she gradually thought that it was no big deal to comment on others like that.

After hearing that, Elsa was obviously angry. If it wasn't that Casey was there, she would have taught Astrid a lesson in

how to talk to others by beating her. Casey didn't expect that Astrid would have such a low emotional intelligence. She just spoke a few words, but she angered Elsa, who was very gentle, so much that Elsa nearly beat her. He looked at Astrid with a cold expression and asked in a deep voice, "Are members of the Stewart family in K City all so ill-mannered? Or, didn't you receive family education?" Hearing that, Astrid instantly exploded with rage. She shouted at Casey while staring at him, "What are you talking about? Who are you? You should dare to say that I'm ill-mannered. If my brother didn't stop it, I would have thrown you two into a valley to feed the wolves!" "Oh? Really? You may have a try." Casey spoke. Elsa stood in front of Casey again and said, "If you dares to touch him, I'll be rude to you!" Seeing that they were going to fight again, McCoy was helpless. When they were in K City, his younger sister had been used to being arrogant. Therefore, she still didn't take others seriously even when they were not in K City. It was basically useless for him to scold her. He just pulled Astrid and spoke, "Stop. We're not in K City now. If something bad happens, I can't keep you save." Astrid didn't take what he said seriously. She spoke, "Bro, we've got five inner force experts in initial stage. Could it be that you five can't deal with them two?" "You're the genius rarely seen in a hundred years in the Stewart family,

becoming an inner force expert in initial stage at such a young age. They're about the same age as you. In any case, they couldn't be stronger than you are."

Hearing that, McCoy was still a little angry. He believed that what Astrid said was quite right, but he didn't want his younger sister to receive the comment that she was ill-mannered.

After hearing what Astrid said, Casey sneered at once. That girl should believe that a team consisted of five inner force experts in initial stage was invincible. It was really a great joke. Elsa alone was able to defeat them all, not to mention Casey who was stronger than inner force experts in Grandmaster Circle.

Hearing that Casey sneered, Astrid unhappily looked at Casey and said, "What are you laughing at? Do you know how powerful an inner force expert in initial stage is? You're at most an ordinary people. How dare you laugh?" "Moreover, you even always let this girl protect you. You're not even as good as this girl. Alas, I accidentally find out the truth. Could it be that you're always under the protection of this girl on the way?"

"My elder brother is very strong. If you continue to comment on him like that, I'll be rude to you!" Elsa spoke to Astrid in a somewhat anxious manner.

Finding that Elsa called him elder brother in such a natural way, Casey smiled.

"See, I'm right. If your elder brother is so powerful, why do you need to protect

him? It means that he's weak and that he depends on you." Astrid talked as if she had known everything.

"Enough! If you continue to incur trouble for me, I'll be really angry." McCoy shouted at Astrid.

Knowing that her elder brother had nearly reached the limit of endurance, Astrid knew that it was time to stop. So she said to McCoy, "Well, well, I see. I just tell the truth."

McCoy looked apologetically at Casey and said, "I'm really very sorry. My younger sister is so wild that she was rude to you."

Casey looked at him and spoke, "Forget it. It's just a trivial matter. I'll pass it over. Let's press on."

McCoy nodded. Worrying that Astrid would say something offensive again, McCoy pulled Astrid and walked on.

Casey and Elsa followed them. In order not to get angry again, they no longer talked to McCoy and Astrid.

As they walked, Elsa cautiously took a look at Casey and spoke in a low voice, "Just now, I ventured to call you elder brother. You don't mind it, right?"

Casey smiled and said, "No, I don't mind it."

Elsa was immediately relieved. At the same time, she was a little happy.

During the following journey, Astrid still looked at Casey and Elsa from time to time while muttering. It could be known without thinking that she was speaking some harsh words to vent her unhappiness.

Both Casey and Elsa ignored her. They walked and enjoyed the scenery along

the way, considering Astrid nothing more than part of the scenery.

To deal with people like Astrid, ignoring her was far more useful than scolding her. It turned out that Astrid did explode with rage because Casey and Elsa ignored her, but she couldn't do anything about it.

They climbed over the last mountain. After this long journey, they finally saw a lively valley, the scenery of which was beautiful. The Valley of Medicine God was located there.

Judging from the scenery, it was like a Fairyland. Elsa even sighed. In the past, she had never seen such a beautiful scenery.

They continued their way. Before long, they saw a plain wooden gate with a board hung on it. The name, The Valley of Medicine God, was written on it. This place was full of life. Therefore, the wooden door was covered with vine. There were even flowers on it.

At this moment, a young man was dozing by the wooden door.

McCoy approached him, saluted him, and spoke, "Fella, we come here to buy some medicine. Can you show us the way?"

The young man perked up at once. He looked at McCoy and the people behind him, and then said impatiently, "It's almost dark now. Come here tomorrow."

Chapter 813 I Will Take Some Action

After hearing what the young man said, McCoy was a little embarrassed. The reason why they took such a long journey was that they wanted to enter the Valley of Medicine God at this time.

Unexpectedly, this young man dismissed them with just a few words. "Fella, you know, there is only forest outside the Valley of Medicine God. There's no place where we can have a rest. What about letting us in and letting us stay inside for one night? We're willing to pay relevant fees." McCoy spoke. Knowing how strong the Valley of Medicine God was, when he spoke, he dared not express any dissatisfaction.

That young man unhappily looked at McCoy and said, "There's no place outside where you can rest? It has nothing to do with me. It's because you come too late. I've told you that you can't go in now. I'm serious. Here, I have the last word. If you're not going to listen to me, you won't have a chance to enter the Valley of Medicine God for the rest of your life."

Obviously, this young man had become arrogant because of the prestige of the Valley of Medicine God and the fact that people who came here to buy medicine were very submissive. The reason why he didn't let them go in was not that it was too late. He simply wanted to feel the pleasure of giving orders to others. Seeing that the young man refused to let them in, McCoy was helpless. He could only sigh. Then, he turned his head and spoke to Astrid, "Well, then, we'll slum it outside for one night." Astrid was quite unhappy, but she didn't dare to show any disrespect to the people of the Valley of Medicine God. So she could only nod. Because of that the black coat and the

deal between the Duncan family and the Valley of Medicine God, Casey got a bad impression of the Valley of Medicine God. Now, seeing that even a young man, who guarded the gate for the Valley of Medicine God, dared to bully others, he became even angry.

This time, he didn't come here to buy medicine. If he found out that the Valley of Medicine God really harmed children, he would even destroy the Valley of Medicine God. Therefore, there was no need for him to tolerate the people of the Valley of Medicine God.

He stared at that young man and said coldly, "It won't be dark in at least three hours. It couldn't be said to be late. Why don't you let us in?"

The young man glared at Casey, saying, "Is there anything wrong with your mind? Or you can't understand me? I said that it's dark, so it's dark now. I don't care about when it will be dark. If you still have no discretion, I won't let you go in tomorrow."

Hearing that, both McCoy's and Astrid's expression changed. If they really couldn't get into the Valley of Medicine God because this young man was offended, their effort would be in vain. Astrid shouted at Casey without any respect, "Is there anything wrong with your mind? He has asked to come here to tomorrow. Why do you still argue with him? If we can't go in because of you, I will definitely not let you get away with it!"

Casey ignored her, looked at that young man, and said, "I'm going in now. If you stopped me, I would take some action."

Hearing that, the young man immediately sneered and said, "It's ridiculous. It's the first time for me to see someone who make trouble in the Valley of Medicine God. Are you common people so bold now? You should dare to disrespect the Valley of Medicine God! You're not eligible to do that!"

Seeing that things were going to get worse, McCoy tried to persuade Casey, "Casey, don't be stubborn. Since he asks us to come here tomorrow, just come here tomorrow. We come here to buy medicine, and don't make things worse."

Astrid pulled McCoy and said, "Bro, at such a point, just leave him alone. He's looking for trouble, and it has nothing to do with us."

After saying that, she hurriedly looked at that young man and said, "Fella, we don't know them. We just came across them on the way. We'll listen to you and come here tomorrow. Whatever he does has nothing to do with us. Please don't forbid us from going in because of him."

"Humph, I don't care if you know each other or not. This guy should want to take some action against me. I wonder what he could do to me. We, people of the Valley of Medicine God, think nothing of you who are weak." The young man shouted to Casey.

Soon, they were at daggers drawn. It seemed that they were about to attack each other.

"Junior Brother, are you picking on the guests again?" At this moment, someone said. Casey and other people

all looked into the door and found that a man, who was a little older than this young man, was coming.

After hearing that, the expression of the young man changed. After that, he hurriedly turned around and spoke to that person, "Senior Brother, I didn't pick on them. I stopped them only because that guy arrogantly said that he was going to take some action against the people of the Valley of Medicine God." After hearing that, the man, who was older, frowned and looked at Casey and other people, and asked, "Who are you? Why did you want to take some action against the people of the Valley of Medicine God?"

Astrid hurriedly spoke, "We're from the Stewart family in K City. We come here to buy medicine. We have nothing to do with them two. They're from R Country. Who knows why they come here? So please believe that we have nothing to do with them two."

After hearing that Casey and Elsa were from R Country, that person was stunned. Then he looked at Casey and asked, "Do you come here to meet the Leader?"

"Yes." Casey answered.

That person smiled and said, "I'm really sorry. Can you please tell me what has just happened here?"

Casey didn't hesitate and told him what had happened after they came here just now.

After hearing what Casey said, the young man was anxious. He hurriedly said, "Senior Brother, don't believe him. He made the whole thing up. He wanted

to take some action against me after he just came here."

The Senior Brother stared at him at once and shouted at him, "Don't I know what kind of person you are? They two are important guests of the Leader.

Luckily, I come here in time, otherwise you would have brought trouble!"

The expression of the young man changed. He didn't expect that these two people would be important guests of the Leader. He was a little afraid.

McCoy and Astrid were also surprised.

They didn't anticipate that Casey and Elsa were so well-connected. They should be the important guests of the Leader of the Valley of Medicine God.

"I'm really sorry. Later, I'll punish him.

Please come with me." Senior Brother saluted Casey and said apologetically.

Casey nodded and didn't say anything.

"You also come with me." That person looked at McCoy and Astrid.

McCoy and Astrid were both relieved at once and became a little excited.

They walked deep into the Valley of Medicine God. Astrid curiously stared at Casey. She thought: In any respect, he didn't seem to be someone who could become the important guest of the Valley of Medicine God.

After a long time, she lost control of herself and murmured, "Humph, there's nothing to be proud of. Maybe it's just because of dumb luck. Perhaps they're treated as important guests just because this girl slept with someone. It's disgusting."

Chapter 814 Tested How Powerful

They were

The Senior Brother led the way while Casey and other people followed him. They were all looking at the scenery of the Valley of Medicine God with a curious expression. From time to time, there would be surprised and admiring expressions on their faces.

The Valley of Medicine God was indeed a good place. There were fields along the way. Various kinds of herbs were planted in great quantities and grew well.

The deeper they walked into the Valley of Medicine God, the stronger the fragrance of medicine was. After smelling it for a long time, people refreshed.

"The Leader told me that it's Leader Zain that went to meet you. Why doesn't he come here with you?" The Senior Brother asked.

Casey answered immediately, "That people said that he was going to B City to take revenge for his best friend, Myles. Time was limited and the chance was rare, so he told us where the Valley of Medicine God was and asked us to come here by ourselves."

Because of the lesson he learned last time, Casey didn't mention the name "Leader Zain". Instead, he used the word "that people". If this people was testing him, he wouldn't be able to continue to act.

After hearing that, that Senior Brother sighed and said, "Leader Zain 's solitary and has only made friends with only one person, Myles. Considering his personality, he would really do this kind of thing."

Hearing him say so, Casey was relieved. He knew that he had muddled through.

"Myles? Is he the Grandmaster killed by a young man named Casey?" Astrid asked.

That Senior Brother nodded and answered, "Yes, that's him. He became famous many years ago, and he was a Grandmaster with great prestige in the martial arts world. However, unexpectedly, he was killed by a young man who was only in his twenties."

"The young man named Casey is a genius rarely seen in ten thousand years. I heard that five powerful families in the martial arts world combined against him not long ago. As a result, they were defeated by Casey alone. He's so gifted."

Although McCoy and Astrid lived in K City, both of them had heard about it. They rather admired Casey in their hearts. After all, McCoy, who became an inner force expert in initial stage in his twenties, could be said to be a genius rarely seen in a century. And Casey killed one Grandmaster after another when he was in his twenties. He was really a legendary people.

"Casey is really very strong. Besides, he's only in his twenties. He must be an elegant and handsome man. If only I had a chance to meet him. If I had the chance to meet him, I would certainly take the initiative to chase after him. I'm from the Stewart family in K City, so I'm good enough to be his girlfriend." Astrid said. It seemed that she admired Casey very much.

Hearing that, Casey couldn't help laughing.

Seeing that, Astrid immediately glowered at him and spoke, "What are you laughing at? Listen, if I were able to be Casey's girlfriend, I would immediately ask him to beat you up."

Casey shrugged, indicating that he didn't care. After all, it was never possible for him to take fancy to someone like Astrid.

Elsa, who walked beside Casey, looked at Casey with mixed feelings. If she remembered correctly, this person, who was now pretending to be her elder brother, was named Casey.

Before long, they were able to see the buildings in the valley that was not far away. The people of the Valley of Medicine God should live in those buildings.

Looking from here, that looked like a village that couldn't be said to be big. It was very quiet there. That was a good place to live in seclusion.

"Ladies and gentlemen, to enter the Valley of Medicine God, you must take a test about how strong you are. We need to know exactly how powerful you are, so that we can prevent things that are out of our control from happening.

Therefore, I hope that you will cooperate with us." When they were about to reach those buildings, the Senior Brother said.

After that, they were taken to a valley where there ran a stream.

"This is the place where we test how strong people are. Now, take turns to beat that big stone over there with all your strength. That stone has been

specially transformed by us. It can absorb inner force and then send it in the form of vibration, which can make the water move. The more water is moved, the stronger that people are. Of course, if people without inner force hit it, nothing would happen. Please take turns to test."

Looking at that big stone, Casey and other people all found it amazing. It never occurred to them that people could test how powerful they were in this way.

McCoy itched to have a try. Therefore, he was the first people to approach the stone, after which he patted that stone with all his strength.

Then, people saw that there was a vibration and the water in the stream moved for about ten centimeters.

"An inner force expert in initial stage. Good. Being able to be an inner force expert in initial stage at your age, you could be said to be a genius." Senior Brother murmured.

Hearing that the people of the Valley of Medicine God praised him, McCoy immediately put on a proud look.

Obviously, he was also very satisfied with himself.

After that, the four inner force experts in initial stage, who came here with McCoy and Astrid, approached that stone and beat it with all their strength, moving the water for almost 10 centimeters.

The Valley of Medicine God needed to know how powerful all guests were to prevent someone with ill intentions from making trouble. Therefore, although Astrid claimed that she was an ordinary

person, she had to take the test. Of course, the water was not moved at all. After Astrid took the test, it was the turn of Elsa and Casey. Astrid stared at them and said with some disdain, "It could be seen that they're weak at one glance. If they take the test, the water won't be moved, either."

Although McCoy was kind, he also believe that neither Casey nor Elsa was strong. After all, geniuses were rare. Not everyone could be like him.

Casey asked Elsa to take the test before him. Elsa stood in front of the stone and then hit the stone with all her might.

As a result, the water in the stream behind the stone moved about fifty centimeters.

Seeing that, people present were all surprised. They didn't expect Elsa to be so powerful.

"Generally speaking, people who could move the water for 30 centimeters are already inner force experts in medium stage. Just now, you moved the water for nearly 50 centimeters. It means that you're very excellent among inner force experts in medium stage. I haven't seen genius like you for many years." Senior Brother spoke somewhat excitedly.

Elsa just smiled at him, after which she stood beside Casey. She was not proud at all. She knew clearly that she was far from as good as Casey.

McCoy and Astrid, who had thought that Elsa was weak, were dumbfounded.

Astrid's face burned. She was jealous of Elsa because Elsa was beautiful, so she always believed that Elsa was just an eye candy. In her opinion, Elsa had no

other advantage than beauty.

Chapter 815 There Was Not Any Change

"Being an inner force expert in medium stage in her twenties, she's really a genius. Compared with her, I'm nothing. Moreover, she's a girl. It seems that I'm far from good enough." McCoy sighed. Astrid, who stood beside him, immediately comforted him, "Bro, don't think so. As a matter of fact, you have been very powerful. At least, you're much stronger than some people." After saying that, she even took a look at Casey.

Now, Casey was the only one who hadn't taken the test.

"It's your turn. Go to take a test." Senior Brother said while looking at Casey.

Casey nodded, approached that stone, turned his head and asked that Senior Brother, "Must I use all my strength?"

"Yes, hit it with all your strength. Don't save any strength." Senior Brother answered.

Casey looked at that stone for a while. He thought: the Leader knew that it was a Grandmaster that would come here with Elsa, so it should be all right for me hit it in the way an inner force expert in Grandmaster Circle did.

After that, Casey began to gather his strength. When he believed that it was almost enough, he patted that stone. Elsa looked expectantly at it. According to her speculation, Casey could at least move the water in the stream for a hundred centimeters.

Casey patted on the stone, making a loud sound. People present were all

startled. Even the Senior Brother of the Valley of Medicine God didn't know what was going on.

Everyone looked at the stream behind the stone. The water in the stream flowed quietly. There was not any change.

Seeing that, Senior Brother was slowly relieved. He had thought that he would be shocked by how powerful Casey was. Unexpectedly, Casey was but a common person.

Elsa was a little confused. She looked at the stream, thinking that there must be something wrong and that Casey was definitely not a common person.

Astrid directly laughed. She pointed to Casey and said, "Unexpectedly, you're also an ordinary people. Why were you so bold that you dared to say that you would be take some action against the people of the Valley of Medicine God? Just now, I at least made the surface of water to move a little. Unexpectedly, after you hit it with all your might, the water didn't moved at all. You should be not as powerful as I am. It's ridiculous."

Seeing that, Elsa was about to argue with Astrid, but she was stopped by Casey.

Casey didn't know why the stone used to test how strong people was didn't have any reaction, but being in this situation was undoubtedly better for Casey.

The Senior Brother took a look at them and said, "Don't waste time. Let's press on."

After saying that, he no longer stayed here, but continued to walk towards the

buildings in the valley.

Casey and other people followed without hesitation.

Not long after they left, two old men, who were in their fifties, came here. One of them was fat while the other was thin. Both of them were smiling.

"Listen, recently, I make some progress. You don't believe me. Well, then, let me take a test here. You'll know that what I said is true." The old senior man spoke. The thin senior man said, "These days, you did nothing more than eating and sleeping. I saw it all. Under this circumstance, it's impossible for you to make progress."

Hearing that, the fat senior man immediately wore a disdainful expression on his face. He didn't bother to continue to argue with him and decided that he would just show it to the thin senior man.

He stood in front of the big stone that was used to test how strong people were, speaking, "When I took the test last time, I moved the water for 108 centimeters. This time, if I can make the water move for more than 108 centimeters, it means that I have made progress. At that time, you'll have to send me your precious ginseng."

"Of course. If I lose, I'll give you the ginseng. However, if I win, you should send me the wine in which there is lucid ganoderma." The thin senior man spoke.

The fat senior man agreed. Then, he stood before the stone, took a deep breath and concentrated all his strength in his hand. Finally, he quickly hit the

stone.

Wanting to know if the fat senior man had made progress, the thin senior man stared at the stream behind the stone without blinking.

However, after a long time, there wasn't any change in the stream.

The fat senior man looked at the stream with a puzzled face and murmured, "Oh, my God. Could it be that I lose all my force because I sleep too much recently?"

The thin senior man immediately burst into laughter and said, "You should fail to move the stream for even a centimeter. Does it mean that you lose? Remember to give me the wine."

The fat senior man was not convinced and wanted to check if there was anything wrong with this stone.

Just then, that stone suddenly gave out one sound. Then, there appeared a crack at the top of the stone. The stone broke into two halves.

Both senior men looked at the crack, finding that the inner part of this big stone had become powder. Only the outer part of the stone was still solid. "How...is it possible? Could it be that you have been so strong? This stone has been transformed with special medicine. Even inner force expert in Grandmaster Circle can't break in in this way." The thin senior man exclaimed.

The fat senior man was also confused. He lowered his head, looked at his hand and murmured, "Could it be that...I'm a genius rarely seen in ten thousand years and that I only show my gift recently? As a result, I become so

powerful just by eating and sleeping?"

.....

Casey and Elsa followed that Senior Brother to a house deep in the Valley of Medicine God. McCoy and Astrid came here to buy medicine, having different purposes from them. So they had been taken to other places.

Casey and Elsa were certainly taken to where the Leader was.

On the way, Casey learned from that Senior Brother that the name of the Leader of the Valley of Medicine God was Kobi Atkinson and that he only ranked second to the Lord, Collier, in the Valley of Medicine God.

Senior Brother approached that house, knocked several times on the door, and then shouted, "The Leader, the person you would like to meet is here."

After a while, the door was opened from inside. A strong, though with greying temples, and vigorous man came out. He was the Leader of the Valley of Medicine God, Kobi. He had already been in his 60s. However, he looked no different from people in their 40s because he took various medicine for years.

Kobi looked at Casey and Elsa. When he saw Elsa, his eyes lit up. He even didn't ask them anything about the black coat, just saying, "Come in."

That Senior Brother motioned for Casey and Elsa to go in, after which he cleverly left.

Chapter 817 Enforce Justice

Seeing that the move Casey made, Kobi was a little puzzled. He asked, "What do you mean? Could it be that you're afraid

that I'll go back on my words after I get the folk prescriptions?"

Casey smiled. The reason why he treated Kobi in this way after they came out was simply that he didn't want to let the fight between him and Kobi affect those children.

Now, having made sure that Kobi was a vicious and abnormal person, Casey was going to deal with him.

He was in the Valley of Medicine God now. However, when he saw that Kobi wanted to hurt the children who were less than ten years old and even babies, Casey was very angry.

If he didn't kill such a scum now, more people would definitely suffer disaster in the future. However effective the medicine he made was, that might not be used to help people.

Casey had got a plan. If he attacked Kobi now, he was quite sure that he could kill him. However, other people of the Valley of Medicine God would know it.

If other people of the Valley of Medicine God didn't know that their Leader was doing this kind of evil business and if they were still kind, it would be great. However, if the people of the Valley of Medicine God were just the same kind of person as Kobi, he would have to fight with a lot of people.

There were more than twenty inner force expert in Grandmaster Circle here. It was still difficult for Casey to deal with them alone. However, if Casey wanted to run away, they couldn't stop him. After all, the Valley of Medicine God would not move away. If he couldn't kill

all the people without conscience in one day, he could do it in a few days.

Sooner or later, he would kill all of them.

"What qualifications do you have to get these three folk prescriptions? You're the Leader of the Valley of Medicine God, but you should secretly hurt even children."

"I, Casey, am going to enforce justice and kill you, a vicious son of a bitch, today!"

After hearing that, Kobi's expression immediately changed. He spoke,

"Casey? You're not from the Duncan family! You're the one who challenged the martial arts world in H Country?!!!"

Casey smiled at him and said,

"Congratulations. You're right."

After saying that, Casey rushed towards Kobi.

At the same time.

In the conference room of the Valley of Medicine God.

Collier, the Lord, was sitting in the host's seat. The fat senior man and the thin senior man were standing in front of him. There were other Directors in this room. They were all staring at the powder on the table.

There were many Grandmasters in the Valley of Medicine God, but they didn't always stay in the Valley of Medicine God. Some of them would go out to perform some tasks. Therefore, there were only sixteen Grandmasters in total in the Valley of Medicine God.

"Lord, the stone used to test how powerful people are really become like this after I hit it with all my might. I also don't know why. Maybe I turn the inner

part of that stone into powder after my governor and conception vessels suddenly become smooth and as a result I suddenly have great strength."

The fat senior said.

The thin senior man looked at him with disdain and spoke, "Stop it. Everyone here knows how strong you are. Just now, I fought with you. I didn't find that you have made much progress."

After saying that, he looked at Collier and said, "Lord, in my opinion, it's highly possible that a super powerful person has sneaked in our valley. We must attach great importance to it. Now, we don't know the purpose of that person. If that person has ill intentions, we might suffer a disaster."

After hearing that, Collier thought that what he said was reasonable. So he immediately asked, "Is there any outsider coming in today?"

The Senior Brother, who had taken Casey and other people into the Valley of Medicine God, was here. After hearing what the thin senior man said, he immediately thought of a possibility. Therefore, he hurriedly took a step forward and said, "Lord, today, there are two groups of outsiders coming in."

"I took them to test how powerful they are. However, the most powerful person among them is but an inner force expert in medium stage. But, when the last person to take the test hit the stone with all his strength, a loud sound was made. However, there was not any change in the water. I thought that that person was just an ordinary person. Just now, when I thought about it, I found that it might be

him that turned the inner part of the stone into powder."

"Besides, according to the time when the two Directors took the test, that person did the test not long before the two Directors did."

After hearing that, people present were all no longer calm. Unexpectedly, they should really be suspicious experts in fighting coming into the Valley of Medicine God.

"Where did that person go?" Collier asked.

"He's the person the Leader wants to meet. After going in, I took him to the house of the Leader." Senior Brother replied honestly.

Collier frowned at once and said, "Recently, the Leader is secretly doing something I don't know. I went to ask him what he was doing, but he refused to tell me. Unexpectedly, he now brings suspicious experts in fighting here. If it went on, something bad would definitely happen."

After thinking carefully for a while, Collier looked at people present and gave an order, "Gather all the Directors and go to the house of the Leader now. I would like to see what on earth he is doing."

After saying that, he stood up and came out of the conference room.

On a shady path in the Valley of Medicine God.

McCoy and Astrid were walking while watching with curiosity. It was already evening. The people of the Valley of Medicine God were hospitable, not only arranging places for them to live in, but

also allowing them to walk around in the Valley of Medicine God.

And they had got the medicine they wanted with enough bargaining chips. The people of the Valley of Medicine God allowed outsiders to come here to buy medicine. After all, the people of the Valley of Medicine God also needed to survive, and they also needed to have a proper living condition. And these things were from people who came here to buy medicine.

"What's the relationship between the two person from R Country and the Leader of the Valley of Medicine God? They should be treated as important guests of the Leader." McCoy spoke.

"Humph, there can't be any relationship between them. In my opinion, maybe it's because that coquette has an affair with the Leader of the Valley of Medicine God." Astrid said explicitly.

McCoy frowned and said, "Astrid, don't talk in that way."

"Is there anything wrong with my words? That coquette is quite powerful, but the man coming here with her is a rubbish that is even not as good as me. What relationship can people like them could have with the Leader of the Valley of Medicine God?"

"Speaking of that rubbish, I get angry. He's nothing, but he pretends to be very strong. Why is he so bold? I hate people who are pretentious most."

"If he really wants to prove that he's powerful and if he's really powerful, why doesn't he go fight against the Leader of the Valley of Medicine God? He's so cowardly that he won't dare to do that."

Astrid said with great certainty.
When she just finished speaking, a house that was not far away collapsed. Casey and the Leader rushed out from inside and stood on the roof. Kobi's face was drenched with sweat. He was breathless and his face was pale. He looked warily at Casey who stood opposite him. He hated Casey, but he was also afraid of Casey. Seeing that, Astrid and McCoy were immediately shocked.

Chapter 818 I Can't Tolerate You, the Scum

"What...What's going on? Why does that guy jump on the roof? Who's the person standing opposite him?" Astrid murmured to herself while staring at Casey and Kobi, who were on the roof. McCoy also looked gravely at them. Just now, they fought so fiercely that they broke the roof of the house. Even inner force expert in medium stage couldn't do that easily.

It meant that the two people standing on the roof were very likely to be experts in fighting in Grandmaster Circle.

At this moment, many people of the Valley of Medicine God found that something was going on here and rushed over quickly.

"Look, it's the Leader. Why does he fight with that guy?"

"Who is the person standing opposite the Leader? He doesn't seem to be a member of us. Besides, as young as he is, he should dare to fight with the Leader. He's so bold!"

"I feel that the Leader seems to be at a disadvantage. Is it a wrong feeling?"

.....

Hearing the comments from people around, Astrid's expression changed from surprise to shock.

"The Leader...the Leader, the person standing opposite that guy should be the Leader of the Valley of Medicine God. Is he out of his mind? He should really fight with the Leader." Astrid began to speak in a trembling voice.

Just now, she was taunting Casey, saying that he was cowardly and that he wouldn't dare to fight with the Leader. And the next second, she saw that they fought so fiercely that they got on the roof. Being proved that she was wrong in such short a time, she was really ashamed.

"Isn't he a common person? Why would he fight with the Leader of the Valley of Medicine God? Moreover, the Leader seems to be very afraid of him." McCoy spoke with a frown.

"Maybe, maybe he was threw onto the roof by the Leader." At this point, Astrid was still unwilling to accept that Casey, who she disliked, was an expert in fighting who the ability to fight against the Leader.

However, even she thought that it was too hypocritical for her to say so.

On the roof, Kobi stared at Casey and asked coldly, "There is no grudge between you and me. Why do you come here to make trouble for me?"

Casey smiled and said, "It's because I can't tolerate scum like you hurting innocent children! If I turn a blind eye to such a matter, I could be said to be the same kind of beast as you."

As someone who had just become a father, Casey was very fond of children. Therefore, when he saw the children who were shut up in the dungeon by Kobi, he couldn't stop himself from getting angry.

If he turned a blind eye to this kind of matter now, he was afraid that no one would help Sherry if she was in such a situation in the future.

There were many crimes in the world. Casey couldn't be a great person, but at least he wouldn't just watch the crime happen.

He didn't seek to save the world, but he wanted to have a clear conscience.

This was the justice for Casey.

After hearing what Casey said, Kobi secretly cursed. It never occurred to him that a guy, who lived in a place as far away as B City, should come to the Valley of Medicine God to interfere with his affair. Even he thought that it was inconceivable.

If he had known that the reason why this matter came to this point was that that the black coat wanted to take revenge for Myles, he would not have asked the black coat to meet the people of the Duncan family.

Worrying that too many people would know about this thing, he asked the black coat, who was solitary and had few friends, to help him. Unexpectedly, he brought a great trouble to him.

"What nonsense are you talking about? This is the Valley of Medicine God, and you're not eligible to attack and defame me!" Kobi shouted at Casey.

There had been many people of the

Valley of Medicine God watching them. It was certainly impossible for him to admit that what Casey said was true. Casey twitched his lips and was about to continue to attack Kobi.

Right at that moment, someone spoke in a deep voice at a distance. No one could ignore it.

"Who is it that dares to attack someone here? Don't you really take the Valley of Medicine God seriously?"

The lookers-on around that house all turned their heads and looked in the direction where the voice came from. Then, they all exclaimed.

"It's Lord! Besides, Directors also come here. Unexpectedly, the inner force experts in Grandmaster Circle should all come here. It seems to be a serious matter."

"Wow, making so many inner force experts in Grandmaster Circle come here together, the guy standing opposite the Leader is really powerful. But it should be all. When so many inner force experts in Grandmaster Circle fight with him together, even if he's god, he can't win."

Hearing the comments from the people around her, Astrid was gloating. She smiled and murmured, "This is the consequence of being pretentious. You force all the experts in fighting of the Valley of Medicine God to come here, and later you'll suffer a lot."

Soon, Collier, together with a group of Directors, arrived at the place where Casey and the Leader were standing. They all jumped onto the roof, surrounding both Casey and Kobi.

Collier stood beside Kobi, looking at Casey with a frown. It seemed that he didn't expect that the super strong expert in fighting that sneaked in the Valley of Medicine God would be a young man only in his twenties.

"I'm Collier, the Lord of the Valley of Medicine God. Can you please tell me who you are and why you come here to make trouble?" Collier didn't just fight with Casey. At the very least, he should know who he was.

Casey took a look at Collier. He didn't talk nonsense, but just said, "Casey, from B City."

Hearing the name of B City, Collier's eyes were wide open. The fact that Casey challenged the martial arts world in H Country recently was widely spread. Although the Valley of Medicine God was located at a remote area, the people of the Valley of Medicine God had heard about that.

It was true that the people of the Valley of Medicine God looked down upon the Guwu Families. However, they were rather interested in the young man who confronted the five powerful families alone, killed the heads of two powerful families in the final fight and drove the five powerful families to corner.

One major reason was that Casey was really too young.

There were countless geniuses in the Valley of Medicine God. And there were various kinds of medicine to help them. However, in the past many years, there had never been someone who could become a Grandmaster in his or her twenties. And Casey not only became a

Grandmaster at such a young age, but he was able to fight against four Grandmasters alone. He was too gifted. Collier had even thought of inviting Casey to come to the Valley of Medicine God. Such a genius was undoubtedly the best candidate for the Lord of the Valley of Medicine God. With his gift and the medicine of the Valley of Medicine God, he would definitely become so powerful that people couldn't imagine. However, Casey came to make trouble himself before he went to invite Casey. After Casey mentioned his name, there was immediately a stir among the people of the Valley of Medicine God. These days, Casey was under heated discussion in the Valley of Medicine God.

McCoy looked at Casey in disbelief and spoke to Astrid, "He should be Casey. Astrid, don't you always pay much attention to the news of Casey? Why did you fail to recognize him on the way?" No one responded to him.

Feeling puzzled, McCoy turned his head and took a look at Astrid, finding that she had been dumbfounded at the time when he didn't notice.

Chapter 819 Perfect Medicine

Collier looked gravely at Casey and asked, "I've heard about you. However, our people have never crossed your path. Why do you come here to make trouble for us?"

"The Valley of Medicine God is seemingly a shrine for people making medicine, but your people secretly do business of breathing. I come here to kill you scums!" Casey shouted at Collier.

Collier was puzzled. He didn't know what Casey was talking about.

Kobi, who stood beside him, immediately rolled his eyes and said, "Lord, this guy is untrustworthy. He comes here to rob me us a thing."

"Before, I made a deal with the people of the Duncan family. I'll trade some rare precious herbs for three folk prescriptions of perfect medicine. Today is exactly the day when the people of the Duncan family should come here."

Hearing that, Collier was startled. He, as the head of the Valley of Medicine God, certainly knew very well what three folk prescriptions of perfect medicine meant. He immediately understood why the Leader had been so secretive these days. Unexpectedly, he was doing such a thing.

"I don't know what the people of the Duncan family look like, so I believed that this guy is from the Duncan family. Therefore, I showed him the medicine I had promised to give them."

"Unexpectedly, the people of the Duncan family has long been killed by him. He learned from the people of the Duncan family that there was such a deal between them and me. So he pretended to be from the Duncan family, coming to here and trying to cheat me out of the precious herbs."

"However, he was bad in acting, and I found out the truth. He was annoyed, so he directly attacked me. Unexpectedly, he should be the Casey from B City."

"Being found out that he is not from the Duncan family and seeing that you, together with Directors, are here, he

knows he will be defeated by us.

Therefore, he defames us."

"I'm telling the truth. In his pocket, there are the pieces of parchment on which the three folk prescriptions of perfect medicine are written. There are unique marks made by the people of the Duncan family on them. It can be proved to be true after we take a look at them."

Hearing those words, Collier was instantly somewhat convinced. After all, he had worked with the Leader for many years, knowing what kind of person the Leader was. Therefore, he considered it unlikely that the Leader would lie to them.

"Fella, you should dare to have designs on the things of the Valley of Medicine God. Give us those pieces of parchment now. Otherwise, we'll attack you!" Collier shouted at Casey.

Seeing that the head of the Valley of Medicine God just believed what Kobi said, Casey got instantly angry. He said coldly, "The Leader secretly kidnaps children under the age of ten and even babies who are just been born. Now, he falsely accuses his critic. And you believe what he says without even thinking about it. You're indeed the same kind of person as him!"

Kobi sneered coldly and spoke, "Stop defending yourself. Can you point out the lies I told? You pretend to be the people of the Duncan family, and even defame me now. Could it be that Lord should believe you, an outsider, instead of me?"

Most of what he had just said was true, but he had omitted the most important

part.

People were easiest to believe a lie which was half a truth. Even Casey couldn't point out the lies Kobi told now. Kobi knew that it was impossible for him to conceal this matter from others. What he needed to do now was to make the head of the Valley of Medicine God and other Directors kill Casey. As long as Casey was killed, it would be easy for him to handle this matter later.

"The Leader is right. Anyway, considering the fact that you sneak in our place, we have to guard against you. Now, we need to put you under our control first. We'll talk about other things later. I hope that you'll cooperate with us." Collier said to Casey.

Casey got angry at once. Before, he had got all sorts of bad impressions of the people of the Valley of Medicine God. Therefore, Casey didn't bother to continue to explain it to them. Since they didn't believe him, he would just defeat them.

"Cooperate with you? Impossible! You scum, I'll kill you!" Casey shouted at Kobi. After that, he rushed towards Kobi again.

Kobi secretly sneered. He thought: Casey was still too young, so that he easily fell into the trap.

After he got involved in a fight, he would have no time to explain. There were so many inner force experts in Grandmasters Circle in the Valley of Medicine God. They could certainly defeat him. After that, Kobi would find a chance to kill Casey. In this way, he would be out of trouble.

Seeing that Casey started a fight, Collier and Directors ran to Casey at full speed without hesitation.

A fierce fight broke out in an instant.

Watching more than a dozen Grandmasters fought against Casey alone, the people of the Valley of Medicine God, who were watching, were shocked.

The young man, who guarded the door and met Casey before, noticed that something was going on here. So he came here to have a look. When he saw that more than a dozen Grandmasters, including the head of the Valley of Medicine God and the Leader, were fighting against Casey, he was greatly shocked.

What shocked him more was that Casey was fighting calmly against more than a dozen Grandmasters. He couldn't imagine how powerful Casey was.

He remembered that he taunted Casey and nearly made Casey beat him before.

Thinking of that, the clothes on the back of the young man was instantly wet by sweat. He felt a chill in his head. Even his teeth could not help striking each other.

At this moment, a people of the Valley of Medicine God, who stood beside him, found his unusual performance and asked, "What's wrong?"

"That...That person is too powerful. It's horrible. It's really horrible." The young man replied in a trembling voice.

Seeing the way he behaved, the expression of the people talking to him changed. And he exclaimed, "Oh, my

God! That person is so powerful? He's far away from us, but you're so scared by his air of forcefulness. I have to stay away from here in case that I will act in the same way as you do."

The young man was a little speechless. After taking a look at him, the young man continued to watch the fight while shivering.

"This guy does deserve the reputation he enjoys. So many of us are attacking him, but we should fail to defeat him in a short time, He's really a rare talent."

Collier stared at Casey and sighed.

"However, although he's powerful, he's still a Grandmaster. Being attacked by so many of us, he'll be defeated sooner or later."

Now, Kobi was a little anxious. He had thought that it would be easy for the Grandmasters to defeat Casey.

However, this guy should hang on for so long. It was really beyond his expectation.

"It's really difficult to deal with this guy, Lord. Now, in order to defeat him in a short time, you and I have to take medicine that could enhance our strength. If we don't put an end to this fight soon, something might be wrong."

Kobi spoke to Collier.

Collier nodded, after which he took out a pill from his pocket.

Seeing that, Kobi also took out a pill.

Casey was nearly unable to hang on now. He was fighting with more than a dozen Grandmasters. However much XuanJin he had, he couldn't fight with so many people for a long time.

But in this place, he couldn't use

Cabala. After all, when Cabala was no longer effective, he would be weak.

Now, he was in the Valley of Medicine God. If he became weak, he would be unable to protect himself.

Now, seeing that both Collier and Kobi took out pills, Casey thought of the pills he got from Master Tianlong.

According to the black coat, those two pills were perfect pills and that he wouldn't suffer from side effects even if he took them.

Therefore, he took out a small bottle quickly and poured out a pill without hesitation.

At that moment, the air around the roof was filled with the fragrance of that pill.

Seeing that, both Collier and Kobi were surprised. They exclaimed at the same time, "It's a perfect pill! It's impossible!"

Chapter 820 The Discernible Shape of Hand Appeared Again

Seeing the reaction of Collier and Kobi, Casey was more convinced that the pill he had was true.

He took it without any hesitation. Soon after he put the pill into his mouth, it melted. Casey felt a refreshing flow in his body. Then, his body began to burn.

Neither Collier nor Kobi delayed any longer. They hurriedly took their pills.

Soon, they three all gave out extremely strong air of forcefulness. Although the pills taken by Collier and Kobi were not as good as the perfect pill, those two pills were among top-class pills. It was very helpful in enhancing strength.

However, the air of forcefulness they had was much weaker than that of Casey. People within the Valley of

Medicine God all felt the air of forcefulness giving out from Casey. As a result, the people of the Valley of Medicine God, who were rather weak, began to shiver.

Casey felt as if he were in the state when he used Cabala. Before, he had nearly run out of power, but now he was full of power.

The only difference was that the power he got by taking the pill was softer than that he got by using Cabala. Moreover, when he used Cabala, he was forcing himself to realize more potential while that pill purely supplied power to him. Therefore, Casey didn't have the feeling that he was going to explode. When he used Cabala, he would have that kind of feeling.

He carefully checked his strength, and again felt the maximum power a Grandmaster could have.

At this point, he was just a little weaker than experts in fighting in sublimation that his teacher mentioned.

He looked at Collier and other Grandmasters. He was not afraid at all now, thought there were more than a dozen Grandmasters.

"This guy should have a perfect pill. We mustn't underestimate him. Let's attack him together and try our best to defeat him!" Collier shouted.

Then, Kobi and he took the lead in rushing towards Casey.

There was greed in Kobi's eyes when he looked at Casey. The reason why he made the deal with the people of the Duncan family was that he wanted to get the folk prescriptions of perfect

medicine. It must be noted that it was not easy to make perfect medicine even if the Alchemist had the folk prescription of perfect medicine.

Collier, who had been the head of the Valley of Medicine God for so many years, had only made perfect medicine once in his life.

Now, Casey should have had perfect medicine, which made Kobi guess that Casey had other perfect medicine.

If Casey had other perfect medicine, he must kill Casey and rob him of the perfect medicine today, no matter what happened.

They started another fierce fight. Now, Casey could deal with them with ease.

With the power he got by taking the medicine, he moved faster. It was difficult for Grandmasters, apart from Collier and Kobi, to catch up with him.

"Tianxing Blow!"

"Moon Invitation!"

"Thunder Shocking Blow!"

.....

During the fight, Casey attacked those Grandmasters with many moves.

Grandmasters, who couldn't resist the attacks of Casey, fell off the roof.

Before long, there were only eight Grandmasters still fighting with Casey.

In this fight, Casey made full use of the surroundings. When he fought against the Grandmasters of the Valley of Medicine God, he didn't stand still like a tree. Instead, he moved from here to there. He tried his best to keep a distance from them and therefore fought against only two or three people at a time. Only in this way could he defeat

one after another.

If they had been fighting in a ring now, it would have been impossible for Casey to fight against them with so much ease. After all, the space of the ring was limited. If Casey had fought against more than a dozen Grandmasters alone at one time, it would have been difficult for him to defend, not to mention fight back.

Fortunately, the Grandmasters of the Valley of Medicine God varied in how powerful they were. Casey could get rid of many of them by moving fast. If all of them had been as powerful as Collier and Kobi, even with the help of the pill, Casey would have long been defeated. Seeing that those eight Grandmasters kept chasing him, Casey was anxious. He thought that there must be a change. Otherwise, if they fought against him a longer time, he might still be defeated in the end.

He thought of the fight between him and Duffy and other three Grandmasters. When he made his last attack, he used all his strength, making Duffy and other three Grandmasters fall out of the ring. Two of them were even killed. Casey speculated that that move could actually cause more terrible injury. However, there were only four Grandmasters in the ring that time. Therefore, he couldn't get to know the maximum injury that move could cause. Now, there were still eight Grandmasters who he had to deal with. He wondered how many of them could still stand after he used that move. Casey concentrated all his power into

his hand without the slightest hesitation. To gather strength, he began to dodge at full speed on the roof.

"Damn it. That guy moves too fast. I can't catch up with him at all." Kobi secretly cursed.

At this moment, he found that there was a change in the air of forcefulness of Casey. He began to gather power like a sharp arrow that was about to be shot. He had a horrible suspicion and couldn't help slowing down.

Soon, Casey gathered enough power. After that, he suddenly turned around, looked at the eight Grandmasters that had caught up with him, and put on a playful smile.

"I'll use the last move. Let me see if you can resist it!"

After saying that, he quickly pushed his hand forward. A huge cyclone appeared in an instant. Then, those who were watching around the house saw that a faintly discernible shape of hand appeared in mid-air at the moment Casey pushed his hand forward.

"Thunder Shocking Blow!"

"It's bad. Run away! This guy is far more powerful than we have thought!" At this time, Collier also realized that there was something wrong. He hurriedly tried to run away.

Kobi had long anticipated it and had begun to run away before Collier shouted.

After hearing what Collier said, other Grandmasters immediately stopped and then tried to run away.

However, Casey had made that attack. It was already too late for them to run

away.

That discernible shape of hand approached those eight Grandmasters. Many invisible currents of force attacked them. The next moment, all of them lost their balance and fell to the ground.

There were several screams. The Grandmasters who fell to the ground all spat out blood.

Only Collier and Kobi, who were more powerful and had taken pills, managed to stand after landed on the ground. However, their faces became pale. Finally, they failed to pretend. Blood came out from the corners of their mouths.

Chapter 821 A Scum

At this moment, the people of the Valley of Medicine God were watching them dumbfounded. Seeing what had happened just now, they were shocked a lot.

"Did...Did I see the god just now? Only god could own that huge hand, right?"

"More than a dozen Grandmasters fought against Casey alone, but they should all be defeated in the end. It should be the first time for such a thing to happen in the history of the Valley of Medicine God and even in the history of Warrior Circle."

"Is Casey a monster? Why is he so good at fighting? His last move should cause special visual effect. Is it that the god specially makes that special visual effect for him because the god also considers him to be powerful?"

Both McCoy and Astrid, who were far away from Casey and other Grandmasters, were watching with a

stiff face. They didn't know how to describe how they felt.

After using this move, Casey also took a deep breath. He had the feeling that he had run out of power. However, this feeling soon disappeared. He was full of power again because of the remaining effect of that pill.

It was also at this time that Casey realized how effective the so-called perfect pill was. If he used Cabala, after he used that move, he would run out of strength and become very weak.

However, when he took that pill, it should be able to supply more power to him after he used that move. Moreover, Casey didn't have the slightest feeling that he would become weak.

That kind of pills were useful. However, one pill could only be used once. After he used one, it was gone. But he could use Cabala for as many times as he wished. Moreover, as Casey became more and more powerful, the side effects of using Cabala would become weaker and weaker. After his XuanJin was in advanced stage, he might only be weak for a few hours after he used Cabala.

On the whole, Cabala valued more highly than those pills.

With a smile, he jumped off the roof and landed in front of Collier, Kobi and other Grandmasters.

Collier fixed Casey with a stare. It never occurred to him that so many Grandmasters would be defeated by Casey alone.

There was a hint of malicious expression in Kobi's eyes. He knew one

thing very well: If Casey was not killed, then he would be killed.

"Lord, that move must be the last attack Casey could make. If we fight against him together, we might be able to defeat him. Otherwise, the Valley of Medicine God will be destroyed by him." Kobi spoke to Collier.

Collier stared at Casey. Now, he could really do nothing but tried his best without further consideration.

Seeing that Kobi still wanted to attack him, Casey twitched his lips and said to Collier, "It seems that you really don't know what this scum has done. He takes advantage of you people, but you all try your best to protect him. It's really ridiculous."

Hearing that, Kobi immediately shouted at Casey while staring at him, "It has been at this point. Don't sow discord. In any case, Lord won't be fooled by you."

"Really? But it doesn't matter. It has been impossible for you two to defeat me. This so-called head of the Valley of Medicine God is too stupid. I don't mind letting him suffer." Casey said tonelessly.

"Lord, the pills we took will soon be no longer effective. We can't afford to delay any more." Kobi took a look at Collier. Collier sighed helplessly and took a step forward.

Just then, there were cries of babies from somewhere. Instantly, it attracted the attention of everyone.

People all turned their heads and looked in the direction where the cries came from, finding that the door of the house of Leader had been opened and that

Elsa was coming out of the house with a baby in her arms.

Behind her were the children under the age of ten who were all holding babies who could still not walk. There was fear on their faces as they came out after Elsa.

Seeing it, the expression of Collier changed at once. He didn't know when these children were taken to the Valley of Medicine God. Besides, they were in the house of the Leader before.

Kobi secretly cursed. The reason why he was anxious to kill Casey was that he was worried that something like this would happen. Unexpectedly, Elsa took these children out so soon.

Seeing that Elsa came out with those children, Casey looked at Collier again and said, "Now, there's no need for me to explain, right? These children are the best proof of the bad things this scum has done!"

Collier looked at Kobi in disbelief and asked, "Leader, why are these children here?"

Kobi took a deep breath. He had planned to buy some time by making up some more lies. However, after another thought, he realized that the end had been written and that there was no point in buying time.

He laughed. As a result, he was no longer restrained. He seemed to be very evil because of the laughter.

"Why? This guy has made it clear. They're what I'm going to give the people of the Duncan family. The people of the Duncan family wants the eyes and flesh of these kids, so I stole them

from nearby villages. Have I made it clear enough?"

Hearing those words, the expression of Collier and other people of the Valley of Medicine God all changed greatly. They all looked at the Leader in disbelief. It never occurred to them that he would say something like that.

"Kobi! Do you know what you're talking about?" Collier stared angrily at Kobi, his chest rising and falling. After that, he was boiling with rage. He was so angry that he spat out blood again.

"I certainly know what I'm talking about. They're just some kids. It's no big deal. As long as I give these kids to the people of the Duncan family, they will give me three folk prescriptions of perfect medicine. Do you know how long I have been longing to make perfect medicine?"

"You have the only folk prescription of perfect medicine in the Valley of Medicine God. I asked you to show it to me, but you refused. You're just afraid that I'll become the head of the Valley of Medicine God after I succeed in making perfect medicine, right? Well, I gave up on it. I have other ways to get folk prescriptions of perfect medicine."

"Previously, it went on very well. Unfortunately, it's all ruined by Casey. He's the most evil sinner!"

Kobi took a resentful look at Casey as if it was Casey who had ruined everything he had.

"It's you that is the most evil sinner! It's impossible to make perfect medicine by following the folk prescription of the Valley of Medicine God. It's a lie that I

had made some perfect medicine. The reason why I didn't show it to you was that I didn't want you to know the fact that there was no one in the Valley of Medicine God who could make perfect medicine!"

"Unexpectedly, in order to get those folk prescriptions, you should even hurt such small children. It's a shame that there is someone like you in our place!"

"Today, on behalf of all the Directors and other people of the Valley of Medicine God, I'll kill you sinful scum!"

Chapter 822 Had an Excess of Energy

After hearing what Collier said, Kobi was immediately stunned. He murmured, "No one in the Valley of Medicine God could make perfect medicine? How is it possible? It's absolutely impossible."

Collier had rushed towards Kobi with the intention to kill. Obviously, he was not going to let Kobi off.

Kobi realized what was going on. He looked at Collier with contempt in his eyes and spoke, "The reason why you fail to make perfect medicine is that you're not capable enough. Don't put the blame on the folk prescription. If you can't make perfect medicine, why didn't you show it to me? You're just afraid that I would be more prestigious than you are!"

Soon, they started a fight with the desire to kill each other.

Seeing this sudden change, people present all deeply sighed. The people of the Valley of Medicine God had never expected that the Leader, who they admired, would be this kind of person. Casey took a look at them. Then, he

moved and soon got very close to them. He patted Kobi. Kobi, who had been injured before, could certainly not resist this attack. After he spat out blood again, his face became paler.

Casey took Kobi by his neck and said, "A scum like you is not eligible to survive in the world. Now, I'll send you to god. When you're in the hell, I hope that you'll reform and do some good deeds."

After saying that, Casey was about to use strength and break the neck of Kobi. "Wait." Seeing that, Collier hurriedly stopped Casey.

Casey turned his head, took a look at Collier, and asked, "Why? Do you want to bag mercy for him?"

Collier smiled apologetically at Casey, speaking, "You got me wrong. He has committed such a crime. However many excuses he has, he deserves to die.

However, he, as the Leader of our place, secretly does such a thing, and I fail to attach great importance to it. I should shoulder some responsibility. So, let me kill him. You don't have to bother to do it."

Hearing those words, Casey raised his eyebrows. In his opinion, it was all right to agree to his request. After all, it made no difference who killed the Leader. If the Leader were killed by the head of the Valley of Medicine God, he would possibly suffer more before he died.

He handed Kobi to Collier. After taking Kobi, Collier put on a cold expression at once.

He hated the behavior of Leader very much. Under this circumstance, he could only feel better by killing this

despicable and vicious person himself. Kobi took a look at Collier and shouted, "Collier, you're a loser. I hate to be killed by you! You're not eligible to be the head of the Valley of Medicine God!" Collier sneered coldly and shouted, "If you hate to be killed by me, then I must kill you myself. Kobi, I hope that you can understand one thing after you go to hell: To make good medicine, you don't have to use devious means. You're not eligible to try to be the head of the Valley of Medicine God just because of it!"

After saying that, Collier gathered his strength and then patted Kobi on his chest.

Kobi's eyes were instantly wide open. After he spat out blood, he lost all his strength and was motionless.

Collier put his body on the ground and adjusted his position. In this way, Collier helped Kobi keep the final dignity.

After that, Collier got up and turned around. Looking at Casey, Collier saluted Casey and said loudly, "On behalf of all the Directors and other people of the Valley of Medicine God, I, Collier, sincerely apologize to you.

Before, we got you wrong and nearly falsely hurt you. Please be the bigger person and forgive us."

The moment he finished speaking, the Directors all managed to get up and made a low bow to Casey.

Other people of the Valley of Medicine God didn't attack Casey, but they were all deeply impressed by the power Casey had. When they saw that Directors bowed to Casey, they all

saluted Casey, expressing their respect to Casey.

Seeing that the people of the Valley of Medicine God apologized sincerely to him, and considering that Kobi did that thing out of his own thoughts and that Collier and other people attacked him only because they were fooled by Kobi, Casey decided to forgive them.

What's more, so far, it was the people of the Valley of Medicine God that suffered losses.

"It's all right. After all, we have made things clear. I'm not that narrow-minded." Casey said.

Seeing that Casey forgave them, Collier was relieved. Casey, when he was so young, had been so good at fighting. If Casey had a grudge against the people of the Valley of Medicine God because of what happened this time, it would be a terrible disaster for the people of the Valley of Medicine God.

"Can you please send these children back to their homes?" Casey turned his head, looking at Elsa and the group of children behind her.

At this moment, when Elsa looked at Casey, there was a newly emerging feeling in her eyes.

"Yes, of course. I'll ask my people to look for their families now. I'll handle it properly." Collier spoke.

Casey nodded. Collier immediately went to ask the people of the Valley of Medicine God to deal with the things about those kids.

After Collier had made the arrangement, Casey approached Collier, coughed lightly, and said, "Lord Collier, can I consult you about one thing?"

Collier smiled and said, "Yes, of course. What's the matter?"

"Have you ever taken the so-called perfect medicine?" Casey asked.

"Certainly not. Perfect medicine is the most precious medicine, and it shouldn't be taken when it's not necessary.

However, there is a rumor that perfect medicine is effective and has no side effects. Different from perfect medicine, the medicine we take would harm our body, though the side effects are not noticeable. If we take too many ordinary medicine, our power will suffer from irreversible damage." Collier said with some envy.

"It's true that it doesn't cause side effects. But I'm burning now. Besides...I have some feeling. Can you please see me?" Casey asked, feeling a little embarrassed.

Collier immediately checked Casey and then carefully observed Casey. After that, he laughed and asked in his ear, "Is the girl over there your relative?"

Casey shook his head and answered, "No. Why? Do my symptoms have anything to do with her?"

Collier laughed, speaking, "Your symptoms have nothing to do with her. You just have an excess of energy because of that perfect pill. But she can help you solve this problem."

Casey was a little confused. He didn't understand what Collier meant, so he asked, "How?"

Collier smiled mysteriously and said, "Follow me. And ask her to come with us."

Chapter 823 There Is Something

Wrong with You in that Respect
Casey came to talk to Elsa about this matter. After that, Collier walked towards the room while Casey and Elsa followed him.

Collier would turn his head and take a look at Casey and Elsa from time to time with a mysterious smile. Being looked at by him, Elsa was shy and therefore couldn't help lowering her head.

Now, Casey was thinking about the symptoms he had. He really didn't become weak after taking the perfect pill, but he felt bad now when he didn't get rid of the remaining effect of that pill. Now, he would try the way Collier got for him. If it didn't work, he could only go to the mountain to beat stones to vent.

They three stopped at the door of a room. Collier took a look at Casey and spoke, "You go in first. I have a few words to tell her."

Now, Casey was a little restless and just wanted to solve his problem as soon as possible. Therefore, when Collier said so, he just pushed the door open and went in.

Collier asked Elsa a few questions, and then said a few words to her. After that, Elsa's face became red with shyness at once. However, she nodded in the end. After telling Elsa all he should tell, Collier left. Elsa took a deep breath, went into the room where Casey was, and then closed the door gently.

Seeing that Elsa closed the door, Casey was a little puzzled. He asked, "Why do you close the door?"

"It...It's a necessary step to help you solve the problem." Elsa said with her

head lowered.

Casey didn't think deeper, and spoke, "Then do it as soon as possible. Don't waste time."

Elsa nodded, after which she approached Casey and looked at him with shyness in her eyes.

Seeing the way Elsa behaved, Casey became even restless and had sexual desire. But he soon controlled it.

Without hesitation, Elsa unbuttoned her clothes and then untied the belt around her waist.

Seeing that, Casey was greatly shocked, standing up from the chair at once. He stared at Elsa with a frown, and shouted, "What are you doing?"

"You want to solve the problem as soon as possible, so I..." Her voice trailed off.

Finally she spoke in a voice as low as that of a kitten.

Casey immediately realized that there was something wrong. He asked, "What did he ask you to do?"

Elsa spoke in a low voice with an embarrassed expression, "He...He said that I...I just need to sleep with you.

After that, the problem will be solved."

"Don't mind it. My fate is under your control, so it's my duty to get you out of such a small trouble."

Casey cursed secretly at once. No wonder he found before that there was something wrong with the expression in Collier's eyes. Unexpectedly, he, as the head of the Valley of Medicine God, should be a luscious old fox.

"Damn it. I'm really fooled by him. I'm going to get even with him!"

Casey bypassed Elsa, leaving the room

at full speed. If he continued to stay in this room with Elsa, he would lose control of himself just because of that kind of atmosphere. And if he took one more look at Elsa, things might get worse.

Seeing that Casey disappeared from the room in an instant, Elsa was very astonished. Then, she murmured to herself, "Does...Does he dislike me?" After a long time, Elsa sighed helplessly and slowly buttoned her clothes. She was filled with a sense of loss that was difficult to cover.

Collier was not far away from that room. Thinking that he got a perfect match together today, he wore a proud smile. "Casey is surprisingly gifted while that girl is a beauty rarely seen in a million. They can absolutely be said to be a perfect match."

As he walked, he praised himself for his good taste. He thought that he had done a great thing.

However, before long, he felt that there was a chill from behind, making him even shiver.

"What's the matter? It's so warm. Why do I suddenly feel a little cold?" Collier was puzzled.

He felt as if there were a devil watching him from behind. Then, he turned around and took a look. Seeing the angry eyes of Casey by accident, he was scared a lot.

"Casey...Casey, why are you here? Shouldn't you stay in the room with that girl..." Collier spoke with some uneasiness.

Casey glowered at him and said,

"Hurriedly get another way to solve my problem. If that's still a dirty trick, I'll ruin the Valley of Medicine God now!"

Collier dared not to delay answering at all, so he hurriedly said, "Well, well, I'll get another for you now. Calm down."

After saying that, Collier, together with Casey, walked towards Elixir Hall of the Valley of Medicine God.

Collier found several kinds of medicine that could neutralize the remaining effect of that pill there, and then asked Casey to take them. Before long, Casey felt that that kind of desire had disappeared. It was only then that he was relieved.

Collier stared at Casey with a puzzled expression. That was a great chance that any man wouldn't miss. Besides, he had confirmed that Elsa didn't mind it. However, finally, Casey refused. Collier couldn't understand it.

After a while, Collier secretly took a look at Casey. After making sure that there was nobody around them, he asked Casey in a low voice, "Casey, could it be that there is something wrong with you in that respect? I have medicine that could enhance that kind of ability. I assure you that it works very well. If you need it, I'll find several bottles for you. I promise that you'll be great at that after taking medicine. And you don't have to be worried about getting into this kind of embarrassed situation anymore."

After hearing what Collier said, Casey put on a strange smile at once.

Five minutes later, Collier gave out a scream. The people of the Valley of Medicine God, who were cleaning up

where Casey fought against Grandmasters, heard it. He was so scared that he was goose flesh all over. "What...What's the matter with Lord? Could it be that another expert in fighting comes to make trouble?"

.....

The next day.

In the conference room of the Valley of Medicine God.

Collier and Directors were all here, and Casey and Elsa sat among them, too.

The atmosphere was not serious, but it was rather weird.

At this moment, Elsa kept her head down. From time to time, she would secretly glanced at Casey. She was thinking about something.

Collier's face was injured. What was most noticeable was that the skin around his eyes were as dark as that of a giant panda. Directors present all wanted to laugh, but they tried their best to hold it back. As a result, the atmosphere seemed to be a little strange.

After a long time, Collier finally spoke, "There are two reasons why I gather you here today. First, we would like to apologize sincerely to Casey, and we will give Casey some medicine as compensation."

"Second, we want to have a look at the folk prescriptions of perfect medicine Casey has. Certainly, if Casey's unwilling to show it to us, we won't insist."

After hearing what Collier said, Casey directly took out three pieces of parchment on which the folk

prescriptions of perfect medicine were written, speaking, "If you give something valuable enough to me, I'm willing to give you these folk prescriptions of perfect medicine."

Chapter 824 A Pool

After hearing what Casey spoke, Collier's eyes lit up at once. He hurriedly asked, "May I ask what you want, Casey? We're willing to give you whatever we have."

For Casey, there was no big difference between common paper and the pieces of parchment on which the folk prescriptions of perfect medicine were written. After all, he didn't know how to make medicine, and therefore those folk prescriptions of perfect medicine were useless for him.

However, for the people of the Valley of Medicine God, three folk prescriptions of perfect medicine could be said to be the most precious things. If they were willing to give Casey something valuable enough as an exchange, it would be undoubtedly a win-win situation.

"I'm interested in neither herbs nor medicine. What I want now is to become more powerful as soon as possible. Do you have a way that can enable me to become more powerful in a short time?" Casey asked.

Collier, the head of the Valley of Medicine God, had personally admitted that no one couldn't make perfect medicine by following the folk prescription of the Valley of Medicine God. It meant that there was not a perfect pill in the Valley of Medicine God.

In this regard, the people of the Valley of Medicine God was not even as good as Casey. After all, Casey had a perfect pill in his pocket.

Therefore, the medicine of the Valley of Medicine God should be not very helpful to Casey.

And Casey didn't know how to deal with those precious herbs. He didn't know how to make medicine, and he couldn't just eat those herbs.

Therefore, what Casey needed now was the way to make progress. If the people of the Valley of Medicine God offered to give Casey herbs and medicine as an exchange, Casey wouldn't accept, unless they really had nothing relevant to something that could help him make progress.

After hearing those words, Collier thought seriously for a moment. Then he looked at each other with Directors present. It seemed that he was asking them for opinion.

After a while, Collier spoke to Casey, "We have a way to enable you to become more powerful, but we need to discuss about it. Can you two leave here for the time being?"

Casey understood what he meant. After nodding at him, Casey got up from the chair, turned around and was about to go out.

Elsa was still in a daze at this moment. She didn't pay attention to their conversation, so she didn't notice that Casey was going to go out.

Seeing that Elsa just sat there, Casey patted her on the shoulder and reminded her, "Don't be in a daze now.

Leave here for the time being."
Elsa hurriedly stood up. With an embarrassed expression, she followed Casey out.

After they came out of the conference room, Casey took a deep breath. He thought that the air here was fresher than that of outside the Valley of Medicine God. It was indeed a good place.

Then, he turned his head, took a look at Elsa, and asked, "You seem to be worried. Are you feeling uneasy because I pocket the folk prescriptions of the Duncan family?"

Elsa shook her head in a hurry, and answered, "I've put my fate under your control, so it's impossible for me to care about your pocketing those folk prescriptions. What's more, from the moment I agreed to put my fate under your control, I'm no longer a member of the Duncan family."

Casey nodded. He was not going to give the folk prescriptions back to Elsa. After all, when he knew that the people of the Duncan family practiced evil skills and that they even thought nothing of the lives of children, he had put the Duncan family on the blacklist. He would not hesitate to take everything away from the Duncan family, not to mention just three folk prescriptions.

What's more, those folk prescriptions should belong to H Country.

"Then what are you worried about?"

Casey asked with some curiosity.

After hesitating for a while, Elsa sighed helplessly, and spoke, "Do you dislike me because you believe that I, as a

member of the Duncan family, must have practiced evil skills, and therefore refuse to let me get you out of the trouble yesterday?"

Hearing what Elsa said, Casey smiled. He didn't expect that she was thinking about this matter.

"I've got a wife and a daughter, and I won't do anything that will harm them. I've told you before. It has nothing to do with you. Don't think too much." Casey spoke.

Hearing those words, Elsa was secretly relieved, after which she began to have a little respect for Casey.

She had come across many men who claimed that they would not be unfaithful to their wives, but they all ate words when faced with temptation.

Among all the men she had met, Casey was the first one who refused to sleep with her, especially when she had already taken off her clothes in the presence of Casey.

Before long, Collier came out of the conference room with a smile.

"Casey, we've made a decision. We're willing to offer you a chance to become more powerful in exchange for those three folk prescriptions of perfect medicine." Collier spoke.

Casey's eyes also lit up. He was curious about the chance to become more powerful mentioned by Collier.

Since his XuanJin was in medium stage, Casey had long not been able to make any progress.

After getting to know how powerful experts in fighting in sublimation was, Casey had a stronger feeling that

becoming more powerful was an extremely urgent thing because it was more dangerous to live in this world than he had imagined.

Only when he was powerful enough could he keep Edith and his daughter safe. Therefore, he would not miss a chance to make progress.

"There's a miraculous pool in the forbidden area here. It was formed naturally, and has been here for as long as a thousand years. The water in the pool has the unique effect of improving physical fitness of people. Besides, in the past several hundred years, our people put a lot of precious medicines into that pool every year. Therefore, this pool has been the most precious treasure of the Valley of Medicine God."

"Each of our people has a chance to soak in that pool. It's a major reason why there are so many more Grandmasters than that of outside world."

"Every people would change greatly after they have soaked in the pool. After they soak in the pool, even a person without any gift in martial arts can become a genius of martial arts who is no worse than other people."

"If you're willing to give me those three folk prescriptions of perfect medicine, we're willing to make an exception and let you soak in that pool once. How about that?"

After hearing that, Casey was immediately very interested in that pool. It was beyond his expectation that there would be such a miraculous place in the Valley of Medicine God.

He agreed without hesitation.

"Show me those three folk prescriptions, please. If they are really folk prescriptions of perfect medicine, I'll take you to the forbidden area now."

Collier spoke.

Casey took those three pieces of parchment out and handed them to Collier.

Collier took them with two trembling hands. Then, he read them carefully.

The longer he read them, the more excited he became. Finally, he even got too excited.

"They're real folk prescriptions of perfect medicine. I'm going to take you to the forbidden area now. I hope that you can make progress after soaking in the pool."

After saying that, he walked forward. He was so excited that he almost stumbled.

Chapter 825 You Can Stay in the Pool for as Many Days As You Want
Led by Collier, Casey and Elsa walked towards the forbidden area. They were very interested in the pool Collier mentioned.

They three passed the neighborhood.

After a long time, they came to a place where there were many stones and trees.

There was basically no one else. It was the forbidden area, so the people of the Valley of Medicine God didn't dare to come here when it was not necessary.

Soon, Casey saw that there was a green choppy pool that was not far away from him. The water in the pool was clear, but it was green. Around the pool

were stones covered with moss. The moment Casey came here, he felt a little cold possibly because the water was cold

Collier pointed at the pool and said, "That's the pool that has been here for a thousand years. The water in it is rich in pharmaceutical ingredients. In the past hundreds of years, we people has been putting herbs into it. As a result, the water in that pool has been a kind of effective medicine. People will be able to keep all kinds of diseases away by taking just one sip."

"The efficacy of the water is related to the color of it. When I was just accepted into the Valley of Medicine God, the water was still dark green. After so many years, it has gradually become lighter. Maybe it will lose its efficacy in the coming years."

"But it's absolutely good enough for you."

Casey nodded and then asked, "How long shall I soak in the pool?"

"It depends. Some people couldn't bear it and get out of the pool in half a day, but there are someone who can bear to soak in the water for two days and two nights. The longer you soak in the water, the more benefit you can get. You won't be starved to death even if you stay in the pool for a long time. The water is rich in nutrients, and you'll absorb them automatically. You can absolutely maintain your life." Collier explained.

"That's to say, I can soak in the water for as many days as I want to?" Casey asked.

Collier nodded, and answered, "Yes, you can stay in the pool until you think that it's time for you to get out of it." In his opinion, no matter how high a threshold Casey had for pain, it was impossible for him to bear to soak in the water of the pool for too long a time. Therefore, he believed that it was ok for him to say so.

After hearing what Collier said, Casey itched to get to know how long he could bear to stay in the pool. He said, "I got it. I'm going to soak in the water now, and you can just leave me alone."

After saying that, he was about to jump into the pool.

Collier hurriedly stopped him, and said, "Casey, you can't just jump into the pool like this."

Casey was puzzled. He took a look at Collier, and asked, "Then, how shall I get into the pool?"

Collier smiled and said, "You have so many clothes on you. And it's not good for you to absorb the pharmaceutical ingredients. So you should take off your clothes before you get into the pool."

Hearing that, Elsa blushed at once, and said hurriedly, "Well...Well, I'm going. Just do what you need to do."

Collier laughed, and said, "I'm going, too. I'll ask my people to make regular visits to you. If anything happens, just let me know."

Casey nodded. After seeing Collier and Elsa off and making sure that there was no one around, he took off his clothes and jumped into the pool.

It was not very deep in the pool. When Casey sat down, the water just came up

to his chest.

As soon as he soaked in the water, he felt that the pharmaceutical ingredients in the water were quickly coming into his body through his skin.

The water was originally cold, but Casey felt a little hot after the pharmaceutical ingredients began to do its work.

He immediately closed his eyes, and then focused on using XuanJin to absorb the pharmaceutical ingredients. He was not sure whether he could make some progress in the pool or not. However, knowing that his physical fitness could be improved, he had been very satisfied.

From that day on, Casey had been trying to make some progress in that pool and Elsa temporarily settled down in the Valley of Medicine God.

At the beginning, Collier thought that Casey would soak in the water for two days at most. However, two days later, when he went to visit Casey, he found that Casey was sitting quietly in the pool. There was no sign that he was going to get out of the pool.

"This guy is really one in a million. It's normal for him to stay there for a longer time than anyone else. Since I've promised to let him stay there for as many days as he wants to, I'll just let him stay there for a few more days."

On one afternoon, several Directors came to Collier. One of the Directors looked gravely at Collier, and said, "Lord, Casey has soaked in the pool for five days. I'm afraid that he will absorb all the pharmaceutical ingredients in the pool in the coming days."

Collier was not afraid at all. He smiled, and said, "Don't worry about it. Although the efficacy of the water is becoming weaker and weaker, it's enough for at least one hundred people to use it. It's impossible for Casey to absorb all of the pharmaceutical ingredients. There's need for you to worry about that." Since Collier said so, the Directors didn't say anything more. They left with a serious face.

Another five days passed. When Collier was dealing with the affairs of the Valley of Medicine God in his study, one person ran into the study and shouted with an anxious face, "Lord, bad news. There's something bad going on over the pool!"

Collier stopped writing at once, looked up at that person, and asked, "What happens? Is it that Casey has got out of the pool?"

"No. It's that the color of the water in the pool changes. According to Directors, if Casey soaks in the pool for a longer time, the water in the pool will totally lose its efficacy." That people answered.

Collier immediately stood up with his eyes wide open, and exclaimed, "The color changes? How is it possible?"

After saying that, he hurried out of his study and went quickly to the pool.

At this moment, several Directors were standing around the pool and solemnly looking at both the water in the pool and Casey.

After Collier arrived, he hurriedly took a look at the pool, finding that the color of the water was indeed much lighter. But the situation was not as serious as that

person had described.

Casey was still sitting in the water with his legs crossed and his eyes closed.

He could not feel what was going on around him at all, as if he were meditating.

Besides, if people looked carefully at him, they would see that there was a little water vapor coming out of his head. It was really amazing.

Seeing that Collier came, one of Directors said, "Lord, what about waking him up now? If it goes on, the water of this pool will really lose its efficacy."

Hearing that, Collier was embarrassed. Before, he had promised Casey that he could stay there for as many days as he wanted to. He didn't want to break his promise and wake up Casey now.

Therefore, he had to say, "Wait for some more time. Maybe he will wake up himself today or tomorrow. If we wake him up, he will be affected. Anyway, he should nearly reach the limit of endurance."

So, five days later.

Chapter 826 Plan B

Directors stood beside the pool. The water in the pool had nearly turned colorless. Looking at the pool, they all sighed and felt anxious.

Casey was still sitting quietly in the pool with his legs crossed. However, different from that of a few days ago, his skin became a little red, just a little like when he was filled with too much power after he used Cabala.

"It's been half a month. He has stayed in the pool for half a month. The color has almost faded from the water. It means

that he has almost absorbed all the pharmaceutical ingredients in the water."

"There are pharmaceutical ingredients of hundreds of herbs in the water. And the pharmaceutical ingredients of the water itself have never been processed by us, and therefore are quite violent to human beings. If a person soaks in the water for too long a time, that person will suffer great pain. This guy has such a high threshold for pain!"

"It's really unprecedented. In the history of the Valley of Medicine God, people stayed in this pool for five days at most. But he has been in it for half a month. It's really eye-opening!"

"Don't think about that now. If it goes on, this guy will absorb the pharmaceutical ingredients in this pool. If that happens, it will be difficult for us to cultivate more experts in fighting in the future. This is a major matter that will affect the fate of us."

.....

At this moment, Collier also looked anxiously at Casey. He regretted now. If he had anticipated that Casey would stay in the pool for so long a time, he wouldn't have promised Casey that he could stay there for as many days as he wanted to.

It made Collier's heart ache to find that Casey was about to absorb all the pharmaceutical ingredients in the water.

"Casey, what about getting out of the pool now? You have been in the pool for a long time, and you must have absorbed too much pharmaceutical ingredients. Aren't you afraid that you

might be hurt? What about getting out of the pool now? If you stay there for a longer time, it'll be hard for me to explain it to other people." Collier murmured to himself.

"Lord, what about waking him up now? He has given us three folk prescriptions, and, as a reward, we've allowed him to stay in the pool for half a month. It should be enough. If we ask him to get out of the pool now, we can make the pool be effective again by putting herbs into it. Otherwise, if he absorbs all the pharmaceutical ingredients in the water, this pool will be useless forever." A Director got close to Collier and said with sincerity.

Another Director immediately echoed, "He's right. It's this pool that make it possible for so many of us to become Grandmasters. If the pharmaceutical ingredients are all absorbed by him, the Valley of Medicine God will definitely be a spent force in the future."

Collier turned his head, looked at them, and said, "You don't have to worry about the future development. One of the three folk prescriptions Casey gave me is about the perfect pills that can improve physical fitness. Take a pill is more effective than soaking in the pool once. Therefore, the Valley of Medicine God won't decline."

Hearing that, those Directors were all slightly relieved. Thinking of that, they no longer attached great importance to Casey's absorbing all the pharmaceutical ingredients in the water. "But he does stay in the water for a bit too long. If it goes on, something may

go wrong. If he doesn't wake up today, I'll wake him up." Collier added.

He was really worried about Casey.

After all, no one had ever stayed in the pool for such a long time in the history of the Valley of Medicine God. Although it was not good to interrupt Casey, it was better than letting him die.

After Collier explained, Directors got to know that the perfect pills could work as a substitute for this pool, and therefore no longer had any complaints against Casey. Then, he left one after another. Collier didn't stay here for a long time, either. He planned to visit Casey tomorrow. If Casey was still not awake tomorrow, he would wake him up.

After other people all left, Elsa got close to the pool with great care and took a look at Casey.

At this moment, the water had almost turned colorless, so Elsa could nearly see the body of Casey, though he soaked in the water.

After she saw his body, she blushed and then hurriedly looked away from Casey. However, after another thought, she realized one thing: There was no one around, and Casey's eyes were closed. Therefore, no one would get to know that she had peeked at Casey. So Elsa looked at Casey again.

In the past half month, Elsa had always been in the Valley of Medicine God.

Although Casey was in the pool, she didn't take this opportunity to run away. Instead, she had already rested all her hopes on Casey.

When she got along with Casey, she had a good understanding of Casey.

She knew that Casey was a man who would keep his promise. Since Casey had promised to save her mother, he would definitely make it.

In the past, Elsa was a "tool" with no freedom, no friends and no one who gave her care. She had to sacrifice herself at any time when the people of the Duncan family needed her help. However, when she was in the Valley of Medicine God, she saw the most beautiful scenery in the world, made some friends, and received care from the people of the Valley of Medicine God. Whenever she was free, she would come to the pool and tell Casey what she was thinking about, although Casey just sat quietly in the pool. She was happiest in her life in the past half a month.

Her only regret was that Casey had been staying motionless in the pool. As a matter of fact, she preferred to spend the past half month with Casey.

Certainly, she knew that it was just her wishful thinking.

"You...You have a good figure." After staring at Casey for a long time, Elsa spoke like a little woman. Then she covered her mouth with her hand, and giggled.

.....

In the Duncan's, R Country.

In a dark room.

Malcom Duncan, the head of the Duncan family, was standing in front of a desk with a dark face. Three men were kneeling down on the ground behind him, shivering.

After a long time, Malcom turned

around, gave a kick to one of them, and scolded, "It's been half a month. They have arrived in H Country for half a month. But they didn't send any message back. We tried every means to get into contact with them, but we failed. It only means that they have been killed!"

"Those people are son of a bitch. We offered to do business with them with sincerity, but they did this to us!"

Those three men didn't dare to make any noise, and just let Malcom take it out on them.

After quite a while, Malcom took a deep breath, fixed his hair, and then spoke to those three people, "We can't count on the people of H Country now. The only choice is to use plan B and collect what I need in R Country."

"Make arrangements as soon as possible. I can't afford to wait any longer. I want those things in a week. Understand?"

"Yes!" Those three people answered at the same time.

"Besides, I want to marry the young lady of the Thompson family as soon as possible. After I make the progress, I need to sleep with a virgin. And the young lady of the Thompson family is the best choice. You must do it successfully, or I'll punish you!"

Chapter 827 Will We Meet Again

As one of the most powerful families in the world, the Thompson family was very influential in R Country. However, it was far from as powerful as the Duncan family, which controlled the lifeblood of half of R Country.

Besides, at many times, the Thompson family depended on the Duncan family to keep its position in the changing world.

Therefore, when the head of the Duncan family, who had been in his late 50s, took a fancy to the young lady of the Thompson family, the head of the Thompson family had to take the initiative to send his daughter to the Duncan family. Only in this way could he show his respect for the Duncan family. In addition, powerful families always built connections with other powerful families through the marriage of the younger generation. To gain more benefits, the people of powerful families were willing to marry their children to anyone.

In the Thompson's Villa.

There was a serious atmosphere in the living room.

Lowell Thompson, the head of the Thompson family, was sitting on the sofa. His wife, Becky, was also sitting on the sofa. Both of them were staring at Annabel with a sullen face while Annabel was playing with her mobile phone with her head down. She totally ignored Lowell and Becky.

"Now, our family relies mainly on the Duncan family. If we annoy the head of the Duncan family, our family will suffer a great disaster. Could it be that you have the heart to watch our family be ruined?" Lowell spoke.

Annabel stopped playing with her mobile phone, looked up at Lowell, and said, "If the Thompson family is ruined, it'll be your fault. As the head of the Thompson

family, you're not capable. It has nothing to do with me. I've told you that I won't marry to the head of the Duncan family. I'm serious!"

Hearing that, Lowell was so angry that he clenched his fists. He got up from the sofa and wanted to beat Annabel.

Seeing that, Becky hurriedly stopped Lowell. Then she turned her head and spoke to Annabel, "Annabel, don't be stubborn. There are many people who want to marry to the head of the Duncan family, but the head of the Duncan family refused all of them."

"Although the head of the Duncan family is nearly sixty years old, he's very powerful. And he looks as if he's only in his forties. If you marry to him, our family will gain a lot of benefits. Besides, it's a great thing for you."

Annabel twitched her lips, and said, "It's a great thing for me? It's just your wishful thinking. You didn't take my feelings into consideration at all!"

Lowell sneered at once, and said, "As a member of the Thompson family, you have the obligation to do it, no matter what your feelings are. I know that you like the guy in H Country."

"You're not a child now, and you should be reasonable. What's good about that guy? He's not as good as the head of the Duncan family at all. The people of H Country is by birth inferior to the people of our country. He's not eligible to be a match for you at all!"

Hearing that Annabel became immediately anxious. She shouted, "You're shortsighted. The reason why our family needs to rely on other family

is that you, the head of our family, is stupid!"

Knowing that she would not be able to get married with Casey, Annabel had never told her parents that Casey was the son of the boss of Guanling.

Both Lowell and Becky knew that Annabel fell in love with a man of H Country, but they didn't know the identity of that man. In addition, they had never heard of Casey. Therefore, they subconsciously thought that Casey was a fraud without strength and background. Besides, they believed that Casey was someone who had no self-knowledge and was good at deceiving girls.

After hearing what Annabel said, Lowell could no longer contain his anger, and slapped Annabel in the face.

It made a loud sound.

A sudden silence fell. Becky didn't stop Lowell. She just looked Annabel with a helpless expression on her face.

Annabel covered her face with her hand and fixed Lowell with a stare. There was a resentful look in her eyes.

"No matter you're willing to do it or not, and no matter who you love, you have to marry to the head of the Duncan family. I've got a message from the Duncan family. They want to hold the wedding ceremony as soon as possible. It's not up to you. I've the last word. Be reasonable. I spoiled you in the past years. Now, it's time for you to make some contribution to our family."

Lowell spoke to Annabel in a firm tone. Then, he turned around and went back to his room.

Becky said after taking a look at Annabel, "Annabel, think carefully about it. Only by marrying the head of the Duncan family can you have a bright future."

After saying that, she also left.

Annabel lowered her head with a sad look. Then, she went upstairs and came back to her room.

She went into her room after she opened the door. Then, she looked at the wall beside her bed.

There were many sketch portraits of Casey on that wall. Many of the sketches depicted the scenes when she was with Casey.

She was happiest in her life at that time. When her father slapped her in the face, she didn't cry. However, when she saw those paintings, she couldn't help shedding tears.

"Casey, will we meet again?"

.....

At night, in the Valley of Medicine God. The moonlight was bright.

Elsa sat on a big stone by the pool, swinging her legs. She felt bored.

The skin of Elsa was as white as snow.

When the moonlight shone on her, she looked more beautiful. She looked really like a fairy and was very attractive to others.

"According to those people, if you don't wake up tomorrow, they'll wake you up.

As a matter of fact, I like to get along with you in this way. When you're not awake, I can keep staring at you and talk a lot in the presence of you. Most importantly, I can admire your perfect figure. After you wake up, I won't have

the chance to do those things."

Elsa murmured to herself while staring at Casey.

"However, it'll be better if you wake up. After all, so many days have passed. If you're still in this state, something might go wrong."

When Elsa just finished speaking, there was a strange noise coming from the pool.

Elsa was stunned. Then, she carefully observed Casey and found that the water around him was boiling.

She immediately exclaimed, hurriedly jumped off the stone, and stared at Casey with uneasiness.

Steam rose from Casey's body, and his skin turned red rapidly. Casey gave out lot of invisible flows of strength, forcing Elsa to move backward.

After a long time, the red color faded from the skin of Casey. And the water was no longer boiling. Soon after that, he opened his eyes. His eyes were bright. Then, with a loud shout, he jumped out of the pool.

He raised one hand, after which a faintly discernible ray of light appeared around his palm. He moved his hand downward, and then the ray of light fell on a huge stone.

The next moment, with a loud sound, the big stone broke into many pieces.

Chapter 828 half sublimation

Watching this scene, Elsa was shocked a lot. An inner force expert in medium stage was able to break a stone into two pieces with their hands. However, compared with Casey's breaking that huge stone into many small stones with

great ease, it was nothing.

Besides, Elsa was quite sure that she had just seen a ray of white light around Casey's hand. She thought that maybe only god could do such a thing.

Watching his hand, Casey also took a deep breath. Just now, he just hit the stone in a casual manner. However, it was several times more powerful than the Thunder Shocking Blow he used after he used Cabala. Casey was shocked by it.

In the past half month, Casey practiced XuanGong countless times a day and carried the pharmaceutical ingredients through his body. The pharmaceutical ingredients in the water could improve the physical fitness of people.

After staying in the pool for half a month, Casey's body had changed greatly. His muscles had been at least several times stronger than that of before.

Moreover, those violent pharmaceutical ingredients kept flowing in his vessels every day, as a result of which the vessels of Casey underwent a brutal training. Half a month later, his vessels had been extremely strong. And it allowed a lot more strength to exist.

People's body was the carrier of strength. The reason why Grandmasters were so much powerful than inner force experts in medium stage was exactly that the bodies of Grandmasters were much stronger than that of inner force experts in medium stage.

How much strength a person could have depended on how strong his or her body was. Now, Casey became physically stronger and therefore could have more

strength. Therefore, he made a major progress.

In the past half month, when the pharmaceutical ingredients did its work, Casey suffered a lot of pain. To relieve the pain, Casey meditated and thought carefully about XuanGong, hoping to take this opportunity to make a breakthrough.

However, he underestimated the difficulty in making XuanJin enter into advanced stage. Although he made a considerable progress in the pool, his XuanJin was not yet in advanced stage. Before, Casey had speculated that he would be an expert in fighting in sublimation when his XuanJin was in advanced stage. Now, his XuanJin just was not in advanced stage, though it was very close to. Therefore, he should be an expert in fighting in half sublimation now.

The so-called experts in half sublimation were people who could make their strength come out of their bodies, but they couldn't make the strength leave their bodies like experts in sublimation did.

For the time being, Casey could only make XuanJin stay around his hands, so that he could make full use of it. Now, he could change the XuanJin into some shapes, but it was useless for him to do so. That was because the extents of injury caused by XuanJin in different shapes were the same when Casey couldn't make XuanJin leave his body. However, Casey had the instinct that his XuanJin could be conducted to some medium through his palm when he was

in this state.

He couldn't turn XuanJin into the shape of a sword to kill people, but his XuanJin could be conducted to the sword he was holding through his palm. In this way, he would be able to make full use of XuanJin. Then, the strength he used would be nearly as great as that of an expert in sublimation.

After all, XuanJin had its unique advantage. The experts in sublimation changed inner force into some shapes while Casey used XuanJin. Casey was better than experts in sublimation in terms of the nature of strength. Even if he was not in sublimation, the difference between him and experts in sublimation could be made up by the fact that he used XuanJin.

It was true that Casey could not make the strength leave his body, but he was confident that he had the ability to fight against an expert in sublimation. Of course, he might not be able to defeat an expert in sublimation, but he could surely run away.

Most importantly, Casey's XuanJin was about to be in advanced stage. It meant that he was in the same stage as inner force experts in Grandmaster Circle.

Now, however, he was as powerful as an inner force expert in sublimation.

It meant that he would be much more powerful than inner force experts who were in the same stage as him. It was a great advantage.

If Casey made a progress after his XuanJin had been in advanced stage, it was unimaginable that how powerful Casey would be. At that time, for Casey,

it was possible that experts in sublimation were as weak as aunts. Casey stopped thinking about that. Once again, he made XuanJin attach to the surface of his hand. When he watched the white light, he felt how powerful it was.

According to his teacher, being in sublimation was a turning point. When a Grandmaster became an expert in sublimation, the stage he or she was in changed. Besides, the nature of his or her strength was improved.

For experts in sublimation, Grandmasters were just as weak as aunts. In their opinion, even the most powerful Grandmaster, who was extremely gifted and had many tricks, was just as weak as an aunt that was stronger than other aunts.

Therefore, even if Casey was just an expert in half sublimation, he was more powerful than every Grandmaster. Now, Casey was able to fight easily against more than twenty Grandmasters at the same time. And he was sure that he would win.

The reason why he was so confident was that he was really powerful.

Casey withdrew XuanJin, and then breathed out slowly. Having not moved for half a month, he was tired.

Therefore, he limbered up his muscles and joints.

Then he saw Elsa who was staring at him dumbfounded at a distance. He put on a smile, and walked towards her.

In his opinion, when he was in the pool, Elsa would run away. Unexpectedly, she was a person who kept her promise.

Therefore, Casey thought that he should try his best to save her mother.

"It's so late. Why are you still here?"

Casey asked.

Elsa was a little nervous. All of a sudden, she had no idea how to answer. Anyway, it was not proper to tell him that she considered him to be a confessor and that she would talk a lot to him every night.

Just now, being shocked a lot, she ignored one thing. Now, she noticed it.

Casey didn't have any clothes on!

And Casey seemed to have forgotten that he was naked because he stayed in the pool for too long a time.

Elsa blushed at once. Casey was walking towards her, so she saw everything.

She hurriedly covered her eyes with her hands, and said, "Your...Your clothes..."

Only then did Casey realize that he didn't put on his clothes after he got out of the pool. He was embarrassed, and jumped behind a stone at full speed.

"I'm sorry. I stayed in the pool for too long, so I forgot that I needed to put my clothes on after I got out of the pool."

Casey spoke. He was most embarrassed in his life now.

Seeing that Casey had stayed behind a stone, Elsa was secretly relieved.

However, she put on a playful smile.

"Wait here for a moment, please. I'll go get your clothes for you now."

Chapter 829 It Can Not Stop Me

After quite a long time, Elsa came back with Casey's clothes. She put them on the stone behind which Casey stayed.

"I've got your clothes for you. I've

washed them for you, so it's clean." Elsa said with a red face.

Casey didn't say anything. He hurriedly took the clothes, and then put them on.

After that, he was finally relieved.

He came out from behind the stone.

Seeing that Elsa was savoring something with a shy expression, he coughed lightly at once.

"Thanks." Casey spoke tonelessly.

"It's my honor to have the chance to serve you." Elsa said.

Casey didn't want to feel embarrassed again because of what had just happened, so he asked, "Has the people of the Valley of Medicine God sent those children back to their homes?"

"Yes, those children have all gone home. When you were in the pool, there was nothing special happening here. And the Directors thought that you stayed in the pool for too long, so they wanted to wake you up. But they were stopped by Lord." Elsa spoke.

Casey nodded, and felt a little grateful to Collier. In the past half a month, he was trying to make some progress. If he had been woken up, he would have failed.

Fortunately, Collier stopped those Directors from waking him up.

Otherwise, his effort would have been in vain.

Casey walked forward, and Elsa hurriedly caught up with him. Being shocked by the strength demonstrated by Casey just now, Elsa asked out of curiosity, "Can I know which stage you're in now?"

"I'm in half sublimation." Casey just

answered. He was not going to conceal it from her.

Elsa repeated what Casey had said, and then spoke, "You're so powerful. If I'm not mistaken, the head of the Duncan family is trying to enter the same stage as you. I guess that he wants to use the eyes and flesh of children to make the progress."

Hearing what Elsa said, Casey frowned at once. Casey speculated that the head of the Duncan family was trying to be an expert in sublimation. It never occurred to Casey that the head of the Duncan family had been so powerful.

Previously, he thought that the head of the Duncan family was at most in the advanced stage of Grandmaster and that it was easy to destroy the Duncan family. After hearing what Elsa said, he realized that he must attach great importance to this matter.

The people of the Duncan family practiced evil skills simply because they could make rapid progress by using that method. That was a shortcut to become more powerful. Therefore, it was very possible for the head of the Duncan family to become an expert in sublimation in that way.

"It seems that I have to go to R Country as soon as possible. If I can stop him before he becomes an expert in sublimation, I can save myself some trouble. Otherwise, I'll have to fight a tough fight." Casey spoke to himself. Casey was an expert in half sublimation, but he could use Cabala and had a perfect pill. If he used all that, there were chances that he could defeat an

expert in sublimation who entered this stage in evil ways.

The next day.

When Collier got to know that Casey had woken up last night, he was very happy. Soon after he got the news, he asked the cooks to cook a big meal to celebrate it.

After having the meal, he secretly went to the pool to have a look. When he found that the water in the pool looked almost the same as ordinary water, he was still a little sad.

Luckily, Casey didn't absorb all the pharmaceutical ingredients in the water. There was still some remaining pharmaceutical ingredients in the pool. Besides, this pool had its peculiar feature. Under this situation, if the people of the Valley of Medicine God put herbs into the pool, the water in the pool could be effective again. It was just that it would take a long time.

After taking a look at the pool, Collier was about to leave. Right at this moment, he found that something around the pool was gone. After a careful observation, he was sure that a huge rock beside the pool was missing. He looked at the place where the huge rock had been for a long time, and saw that there were many more small stones on the ground than before. However, considering that there were originally many small stones here, he didn't think much about it.

When he left, he even murmured to himself, saying that there should be someone who would steal a stone these days.

After getting to know that the head of the Duncan family was trying to be an expert in sublimation, Casey decided that he would not waste time anymore. He wanted to go to R Country to collect information as soon as possible, so he told Collier that he was going to leave. Collier didn't invite him to stay here for some more days. After all, Casey nearly destroyed their precious pool after he stayed here for about half a month. If he stayed here for a longer time, who knew what would happen? Therefore, he expected Casey to leave.

Before setting out, Casey showed Collier that piece of black wood and asked if he knew what it was. Collier took a close look at it, and drew a conclusion that this piece of wood was valuable. But he didn't know what it was. There had never been relevant record about this kind of wood in the books here.

Casey was helpless, and he could only put it away. It seemingly depended on fate whether he could figure out what it was.

Casey didn't stay here for a longer time. After consulting Collier about the piece of wood, Casey and Elsa was about to leave.

Collier, together with Directors, happily came to see Casey and Elsa off.

When they reached that wooden gate, a person got close to Collier, and said, "Lord, the road is blocked by a stone. It's a huge rock, and it'll take one day to move it out of the way."

Collier hesitated at once. He looked at Casey, and asked, "Casey, what about

staying here for one more day?"

Casey shook his head, and said,

"There's no need for me to do so. Where is that rock? Show me the way."

Collier hurriedly winked at that person.

That person understood what Collier meant, and took Casey to the rock at once.

Collier and other people followed them.

They wanted to know how big that stone was.

Before long, they saw that stone on a narrow lane between two mountains. It completely blocked the road, leaving no room for people to pass.

Seeing it and thinking that Casey was unable to leave here, Collier put on a look of despair at once.

"Casey, the stone is too big, and it'll take a lot of time to move it. So, you had better leave after it has been moved."

Collier said.

Casey smiled and said, "It's just a stone. It can't stop me."

After saying that, Casey looked around and picked up a stick at a place that was not far away.

He released XuanJin. Then, it was conducted to the stick through his palm. That stick immediately gave out a ray of white light.

Soon after that, Casey jumped and hit that rock with the stick.

"Break!"

Casey shouted. As he shouted, the stick fell on the rock. XuanJin was conducted to the rock. There were instantly a lot of cracks on the rock. Soon, that rock broke into many pieces. A path, which allowed one person to pass at one time,

appeared.

Chapter 830 Are You Willing to Be My Girlfriend

In an airport of a city in the South.

Casey and Elsa underwent security checks and then came to the boarding gate. After getting on the plane, they found their seats and sat down.

Two days had passed since they left the Valley of Medicine God. The Valley of Medicine God was located in a remote area, so it took them two days to come to the city where there were fights to R Country.

When they walked in the mountains, they passed by many places where there were many bushes. Therefore, when they came out of the mountains, their clothes were dirty and broken.

Because of the limited time, they didn't have the time to go to a shopping mall to buy clothes. Casey bought some clothes from a stand by the roadside. He was going to buy some clothes after they were in R Country.

At this moment, Elsa was wearing a t-shirt bought by Casey. It was big and didn't fit her at all. After she put it on, it couldn't be seen that she had a perfect figure at all.

But Elsa didn't care. She was even a little happy. It was the first time that someone else had bought clothes for her. No matter how cheap they were, she would like them.

Besides, Elsa's beauty would not be affected by clothes. Even if she wore strange clothes, other people would consider her to be fashionable. She was too beautiful. It was not clothes that

made her look good. It was her beauty and temperament that made the clothes look good.

Casey was different from her. The clothes he wore before was not expensive. Now, after he put on clothes that were cheaper than previous ones, he looked more like a poor man. After sitting down, Elsa smiled from time to time. Casey was confused, so he asked, "What are you laughing at?" Elsa turned her head, looked at Casey, and answered, "I'm laughing at that Lord and those Directors. That day, you broke that huge rock into many pieces with a stick with great ease. They were all dumbfounded. Although two days have passed, when I think of their expression, I still find it amusing." Casey shrugged. That day, Collier and other people were indeed startled after he broke the stone into many pieces. After they realized what had happened, Collier even asked Casey if he would like to be the next head of the Valley of Medicine God. He wanted Casey to protect the people of the Valley of Medicine God. Casey was naturally not interested in it. After breaking the stone, he left with Elsa. In Casey's opinion, it was no big deal. After all, it was easy for experts in half sublimation to do that. After breaking that stone, Casey realized that it was time for him to find a suitable weapon. He made XuanJin attached to the stick and then broke that stone into pieces with it. However, the stick became

powder after it because it was too fragile to bear XuanJin.

Therefore, a weapon that was suitable and of good quality was essential to Casey now. After he could release XuanJin, he could only make full use of his strength by using a weapon.

When he became an expert in sublimation, he would be able to turn XuanJin into the shape of weapon he wanted. At that time, he would no longer need a weapon as a carrier.

Casey wanted to try to find a suitable weapon after he was in R Country.

Before long, all the seats were taken by people. After being reminded by the stewardess, every passenger fastened their seat belts. Soon, the plane took off. Elsa was too beautiful, attracting the attention of many men. Many people would take a look at her every once in a while.

Elsa had been used to being looked at a long time ago, so she didn't care about it at all.

She would look at Casey from time to time. But Casey just sat there thinking, totally ignoring her.

A senior man and a boy about ten years old sat beside Casey and Elsa.

The boy kept staring at Elsa. After a long time, he spoke to Elsa, "You're so pretty."

Elsa turned her head and smiled at the boy. She said thanks to him.

"Is the men sitting next to you your boyfriend?" The boy asked.

Elsa blushed at once, and said hurriedly, "No."

The boy seemed to be relieved. Then he

asked, "That's great. Then, are you willing to be my girlfriend?"

Elsa didn't know how to answer. There had never been a boy who asked her such a question before.

The men around them all looked at the boy with envy. They wanted to say those words to Elsa, but they didn't dare to. However, the boy did it.

Casey was also amused by the boy. He turned his head and looked at the boy with a smile.

The senior man beside the boy was embarrassed. He looked at his grandson, and spoke, "Baby, you're just a kid. She's so beautiful. She won't take a fancy to a kid like you."

"Then, if I become as strong as Casey, will she fall in love with me?" The boy looked at his grandfather with a serious expression. After his grandfather told him the stories of Casey these days, he had regarded Casey as his icon.

"It's difficult to be as powerful as Casey. Being able to confront five powerful Guwu Families alone, few people in the history could make it. He's such a genius. It's not easy to be like him." The senior man sighed.

"I don't care. Anyway, I'll be as strong as Casey. Believe me. I have great potential. Agree to be my girlfriend now. I'll work hard in the future." The boy looked at Elsa again.

Elsa was embarrassed. She wondered how this boy would react if he got to know that Casey was sitting beside him. "Well...It's not up to me. Ask him." Elsa left the trouble to Casey.

The boy looked at Casey with hostility in

his eyes, and said, "Do you agree to let her be my girlfriend? Listen, I'm very powerful, and I'll be as powerful as Casey. If you disagree, you'll regret it in the future."

Casey laughed. He said while staring at the boy, "As a matter of fact, I'm also very strong. What about asking Casey to come here to fight against me?"

Hearing what Casey said, the senior man immediately spoke, "Fella, don't say that. Casey is recognized to be the most powerful people in Warrior Circle now. If you annoy him, you'll be in great trouble."

This senior man considered Casey to be reckless. In his opinion, not everyone was eligible to challenge someone as powerful as Casey.

Casey just smiled. He no longer talked, just leaned against his seat, and took a nap.

The boy was still unwilling to give up. He kept asking Elsa to be his girlfriend. Elsa found it troublesome. Fortunately, the senior man scolded the boy, and after that the boy stopped doing that.

Otherwise, Elsa would suffer on the way.

After the plane landed, Casey and Elsa got off the plane. Then senior man and the boy were behind them. Looking at the back of Casey, he suddenly had a feeling of familiarity. After thinking of a possible situation, he hurriedly took out his mobile phone, and found the photos of Casey taken when he fought against the five powerful Guwu Families.

After looking at the photo and seeing the face of Casey, the senior man

exclaimed, "That...That person is Casey!"

He hurriedly looked up, but both Casey and Elsa had been out of his sight.

Chapter 831 Practice Makes Perfect
In T City, R Country.

In a shopping mall that enjoyed great popularity.

Casey, together with Elsa, came to the door of a shop that sold brand clothes.

Looking at the pretty clothes in the shop, Elsa was deeply attracted by them.

Although Elsa was the young lady of the Duncan family, she was just like a maid.

No matter how rich the Duncan family was, the people of the Duncan family would not give her money. Therefore, Elsa had never been to a shop that sold brand name clothes.

"What about going to the clothing wholesale market and buying clothes there? The clothes here are too expensive. I don't want you to spend too much money." Elsa spoke while looking at Casey.

Hearing that, Casey smiled. He said, "It makes no difference to me whether to buy clothes in clothing wholesale market or in this shop. Since we need to buy some clothes, we should certainly buy some nice ones. Just choose the clothes you like. For me, it's just a small amount of money."

Casey was serious. After all, there was dozens of billions of dollars in his bank card. Spending 500 dollars was not very different from spending 50000 dollars. Casey's bank card could be used all over the world. When he paid by card, the bank would change money

automatically according to the exchange rate. Therefore, he didn't need to go to the bank to change money.

Hearing that, Elsa thought that it was not proper to refuse. Therefore, she nodded at Casey and entered the shop with Casey.

All of the prices of the clothes were dollars. It took thousands of dollars to buy the cheapest clothes in the shop. Although R Country was rich, only rich people would buy clothes in this shop. Few people came into the shop to buy clothes. People just came in to have a look. Therefore, the shop assistants were all bored. When they saw Casey and Elsa come in, none of them were going to offer service to them.

Besides, when they found that the clothes they wore were so cheap, they became even more reluctant to serve them.

There was a chain of contempt everywhere, but there was a difference between the shop assistants in R Country and the shop assistants in H Country. In R Country, when the shop assistants saw people in plain clothes come in, they would not drive them out because they were unwilling to waste time on poor people. In other words, they didn't bother to talk to them.

In H Country, when the shop assistants saw people in cheap clothes come in, they would drive that people out at once.

Casey had known what these people were like a long time ago, so he didn't mind it and just selected clothes with Elsa.

Before long, Elsa took a fancy to a

pretty dress. Casey took it and asked Elsa to try it on.

Seeing that, one shop assistant came to them at once.

"Excuse me, do you want to try it on?"

The shop assistant asked Casey in the language of R Country.

Casey nodded at her.

"I'm very sorry, but our customers are not allowed to try on clothes before they pay for them. If you're not going to buy it, don't try it on." The shop assistant spoke.

As a matter of fact, there was not such a rule in this shop. She just didn't want Casey and Elsa to try on clothes because she thought that they would not buy them. In her opinion, if they tried on clothes and made the clothes dirty, she would be in trouble.

"What about not buying clothes here?"

We can buy clothes at somewhere else." Seeing that this shop assistant looked down upon them, Elsa was afraid.

At this moment, a man and a woman came in from outside. They were

tourists from H Country. They were well-off and had a hobby of visiting shops

that sold luxury goods. Wherever they went, they would visit shops that sold luxury goods, feeling the pleasure of being treated as God.

Both of them had found that Casey and Elsa talked in the language of H

Country. Through the expression of the shop assistant, they realized what was going on. Soon after that, they had a sense of superiority. Then, they got close to Casey and Elsa with a smile.

"Alas, it never occurs to me that a person in cheap clothes should dare to enter a shop that sold brand clothes. Is it that times have changed? Or do you think highly of yourself?" The woman said with a mocking expression.

The man took a look at Casey, and said with a smile, "Fella, you should be from H Country. Listen, when you're away from H Country, don't bring disgrace on the people of H Country. Didn't you see that the shop assistant doesn't want to talk to you two?"

Casey took a look at those two people. He was a little speechless. Wherever he went, he would come across such annoying people.

Because of the lesson he learned in the past, Casey didn't give them the chance to taunt him and just asked that man, "Well, in your opinion, what should we do to prevent us from bring disgrace to the people of H Country?"

"Let me put it this way. It has nothing to do with what you do. It has something to do with what you are like. You're so poor. Therefore, no matter what you do, you'll disgrace the people of H Country. And I'm rich, so I'm nobler than you are, no matter what I have done.

Understand?" The man said.

Casey nodded, and said, "Well, I wish you can always be noble."

Then he turned around and looked at the shop assistant. He took out his bank card. After handing it to the shop assistant, he said, "Get a membership card for me, and I'm going to prepay a million dollars. Besides, pack all the clothes that we have looked at. Thank

you."

The shop assistant was immediately stunned. Then, she became excited, and asked, "Are...Are you sure?"

Casey nodded.

The way the shop assistant looked at Casey immediately changed. She hurriedly went to open a membership for Casey with his card.

Seeing that, both man and the woman were dumbfounded. They had planned to display a sense of superiority in the presence of Casey. Unexpectedly, Casey prepaid a million dollars just now. It seemed that Casey was richer than they were.

"Is it real? Is he fooling us?" The woman murmured to herself.

The man nodded. He thought that it was highly possible that Casey was fooling them.

However, five minutes later, when the shop assistant handed the bank card and packed clothes to Casey with respect, the man and the woman could not help swallowing saliva.

Casey took the bank card, looked at the man and the woman with a smile, and said, "Poor as I am, I open a membership and prepay a million dollars. To show that you're noble, shouldn't you prepay more?"

Sweat came out of the man's forehead. He was quite wealthy, but he didn't dare to open a membership and prepay a million dollars in a casual shop.

"Hey, I'm sorry for being rude to you just now. If you don't mind, we can exchange contact information. I'll treat you to a meal later." The man said with

a flattering smile.

"Forget it. I'm too poor, and I'm not eligible to have a meal with noble people like you."

After saying that, Casey took the bags and came out of the shop with Elsa.

Elsa watched everything dumbfounded.

She didn't anticipate that Casey would be so good at dealing with such a thing.

It seemed as if he had undergone special training in this respect.

"How can you make those two people lose face in such a short time? You're so smart!" Elsa asked.

Casey turned his head, looked at Elsa with a smile, and said, "It's because...practice make perfect."

Chapter 832 Run Away

After buying clothes for Elsa, Casey went to buy some clothes for himself. Then, he went to the barber's shop to get a haircut. He had long not had a haircut.

After getting changed and getting a haircut, Casey could be said to be a handsome man. When he held the wedding ceremony in Crystal Castle with Edith, he was handsome enough to be Edith's husband.

When Elsa saw him after he did all that, Elsa was surprised. She praised him, "You're so handsome!"

Then, Casey took Elsa to Sakura Hotel, a well-known hotel in T City. He asked for a suite in which there were two rooms and one living room.

The reason why he chose to live in a suite with Elsa was that they were in R Country now. It meant that the Duncan family was very powerful here. When

Elsa appeared in public, she might be noticed by the people of the Duncan family. If the people of the Duncan family came here for Elsa, Casey would respond to it faster when he was close to Elsa.

Then, Casey came to a cafe in the center of T City with Elsa. He had already got into contact with the person in charge of the affairs of Guanling in R Country. And they agreed to meet at that cafe.

At the same time, in the Thompson's Villa.

In case that Annabel would run away, Lowell arranged for a lot of security guards to stay around the Thompson's Villa. He claimed that he did it to protect Annabel, but in fact he was trying to keep Annabel in the villa in this way.

At this moment, in Annabel's room.

Annabel was standing by the window, looking at the back door of the villa.

There were two security guards on patrol. They were always paying attention to the situation around the villa.

Before long, a woman with a headscarf, who seemed to be secretive, approached the back door. The security guards found her at once. At the same time, they shouted at her.

That woman didn't answer them.

Instead, she picked up a stone from the ground, aimed at the heads of those two security guards, and then threw it at them.

Seeing that, they began to curse. Daring to come to make trouble for the Thompson family, she was really reckless. They rushed towards that

woman at once.

Seeing that, that woman turned around and began to run without any hesitation. Before, Annabel had made a rope with the bed sheet. And she had tied the rope to a place. Now, seeing this scene, Annabel hurriedly put the rope out of the window. Then, she came out of the window and climbed down the rope to the ground.

"Aimee, this time, you suffer a lot. In the future, I'll make it up to you." Annabel said to herself.

The woman who provoked the security guards was exactly the maid who went out with the excuse of buying cake for Annabel.

Annabel looked carefully around. After making sure that there was no one around, Annabel ran fast to the door. She opened the door and looked around. Then, she ran in the direction opposite to that of the security guards. Annabel kept running. She didn't stop until she entered into an alley and was sure that no one had caught up with her, gasping for breath.

"I finally succeed in running away. You force me to marry to the head of the Duncan family, but I won't listen to you. When I'm not there, you won't be able to deal with it!" Annabel said angrily.

Then, she walked towards the other end of the alley with a calm expression.

Lowell had agreed to marry Annabel to the head of the Duncan family. Worrying that Annabel would run away, Lowell restricted Annabel's right to go abroad. Now, Annabel couldn't take either a plane, a train or a ship.

Therefore, even if she had run away from the villa, she could only stay in R Country.

Annabel thought about it again and again. Finally, she took out a VIP card of Sakura Hotel from her pocket, and murmured, "I should find a place to live in first. If I'm caught, I'll threaten them with my life. Anyway, compared with marrying to the head of the Duncan family, I would rather die."

After saying that, she headed for Sakura Hotel.

.....

In the cafe.

Casey and Elsa were sitting at one side of a table. The person sitting across the table was a middle-aged man with a pair of glasses. He seemed to be smart and capable.

He was named Normand, and was the person in charge of the affairs of Guanling in R Country. He was a native of R Country of birth.

R Country was a small country, so it was very easy to seize control of the economy and lifeblood of R Country. Therefore, although the people of Guanling had worked here for many years, Guanling didn't develop well here. The R Country was under the control of families like the Duncan family and the Thompson family. Guanling, as an organization coming from outside, only built an intelligence network over the years. Apart from that, Guanling hadn't achieved anything else.

Therefore, Normand, the person in charge of the affairs of Guanling in R Country, could only provide some

intelligence to Casey. In other respects, Casey had to rely on himself.

"Recently, many people were sent by the Duncan family to look for abandoned children in welfare houses and hospitals. I don't know what the purpose is. The people of the Duncan family always do greatly in confidential work. We make great efforts to get this message." Normand reported the latest situation of the Duncan family to Casey in fluent language of H Country. Hearing that, Casey became very serious. He asked, "When did it happen?"

"About three days ago. The people of the Duncan family seemed to have gather enough children, so they stopped doing this these days." Normand answered.

Casey turned his head and took a look at Elsa. Elsa wore a serious expression. She said, "The head of the Duncan family is a decisive person. He won't delay in doing things. If those children have been under the control of the people of the Duncan family, they should have been killed."

Casey secretly cursed. He didn't anticipate that the head of the Duncan family would hurt the children in his own country after he failed to get those things from H Country. He was really vicious.

"Does it mean that he has begun to try to become an expert in sublimation? If that's the case, we have to hurry to the Duncan family to stop him." Casey spoke.

Elsa shook her head, and answered,

"No. I heard that he would do that after the wedding ceremony. There is a rumor that he can't really be an expert in sublimation before he slept with the bride."

"Besides, it's dangerous there. You're very powerful now. However, if you just come to the Duncan's, the people of the Duncan family would become alert. And maybe the head of the Duncan family would hole up. At that time, it will be very difficult for you to find him."

After hearing what Elsa said, Normand nodded at once, and said, "You're right. These days, the people of the Duncan family have been preparing for a wedding. And the wedding will soon be held."

Casey thought for a moment, and asked, "Who is the bride?"

"The bride is the Annabel, the young lady of the Thompson family." Normand answered.

Hearing that, Casey was startled. He thought of the beautiful girl.

Chapter 833 Annabel Came Across Casey

When Elsa saw the reaction of Casey, Elsa was puzzled. Judging from the intuition of women, Annabel seemed to be important to Casey.

"Do you know her?" Elsa asked.

Casey nodded, and muttered, "She's an old friend of mine."

When Casey was on the plane, he had thought about if he would come across Annabel in R Country and that how he should deal with her when he met her. In Casey's opinion, not coming across her was certainly the best. Annabel had

saved his life. After that, she gave up the life of a young lady of a powerful family and took care of him willingly for a long time. However, Casey didn't know how to deal with the feelings Annabel had for him.

He was afraid that Annabel would keep after him after seeing him. Casey couldn't do anything bad to her because she had saved his life.

Therefore, Casey was not going to meet Annabel at all. He planned to leave R Country as soon as possible after he dealt with the Duncan family and got Soul Setting Cloud.

However, unexpectedly, Annabel was involved in this matter.

Now, Casey had known what the Duncan family was really like. And according to Elsa, the head of the Duncan family married Annabel simply because he needed to sleep with her after he became an expert in sublimation. Considering the evil skills the people of the Duncan family practiced, Annabel would definitely be killed.

Casey didn't want to meet Annabel again. However, when he knew that Annabel would be in great danger, it was impossible for Casey to just watch it happen.

After all, Annabel had saved his life. Even if this matter had nothing to do with him, Casey would not hesitate to save her. Now, this matter even had something to do with him.

After taking a deep breath, Casey looked up at Normand and asked, "How's the situation in the Thompson

family?"

"According to the information we got, the young lady of the Thompson family is unwilling to marry the head of the Duncan family. And she had a major quarrel with the head of the Thompson family for this reason. Now, she's shut up in the Thompson's Villa." Normand answered.

Casey nodded. He knew clearly that the parents of Annabel would be very happy to build connections with the Duncan family through the marriage of their daughter on condition that they didn't know that people of the Duncan family all practiced evil skills. He knew very well about the things of powerful families.

"Tell me where the Thompson's Villa is. I need to go there." Casey spoke.

Now, Casey needed to keep Annabel safe. To do so, it would be best if he stayed with her. If the people of the Thompson family were not smart, he could only take Annabel away by force. Seeing that Casey didn't hesitate at all, Elsa realized that something must have happened between Casey and Annabel in the past. Otherwise, it was impossible for Casey to make a decision so soon.

When she saw that Casey made a decisive decision because of Annabel, she was envious of Annabel and felt a little sad for reasons unknown.

Normand took out his mobile phone at once. When he was about to send the address of the Thompson's Villa to Casey, he received a latest message.

"I just got the message that the young lady of the Thompson family had run away from the villa. Now, the people of

the Thompson family are trying their best to search for her. So far, no one knows where she is." Normand said while looking at Casey.

After hearing this message, Casey wanted to laugh. It did seem to be the way Annabel did things.

"Ask all your men to search for Annabel. If you get any information, tell me in the first place." Casey spoke to Normand. Normand nodded at once, and said, "Yes!"

Then, Casey asked Normand for other information. After that, Casey and Elsa left the cafe. Since Annabel had run away from the Thompson's Villa, he could only wait for the message from Normand.

After all, T City was a big city, and he was a stranger who was new here. It was difficult for him to find Annabel. As for the matter of the Duncan family, Casey believed that what Elsa said was reasonable. If he just went to the Duncan's now, the people of the Duncan family would surely become alert. Once they were prepared for it, it would be difficult for Casey to find the head of the Duncan family.

If the head of the Duncan family holed up and only appeared after he really became an expert in sublimation, it would be a great trouble for Casey. The head of the Duncan family was very likely to try to become an expert in sublimation on the wedding day. And it would be best if Casey went to attack him on that day.

The people of the Duncan family didn't know that Casey would interfere with

this matter. If Casey could suddenly appear at the time when the head of the Duncan family had got everything ready and was about to try, Casey would undoubtedly achieve the best result. Therefore, the top priority for Casey was to find Annabel. After that, they should make a plan.

When they were on their way back to Sakura Hotel, Elsa wanted to talk to Casey very much, but she didn't. She wanted very much to know what the relationship between Annabel and Casey was, but she thought that she shouldn't ask this question.

As a result, she contained her desire to talk along the way.

Soon, they were back in Sakura Hotel. They went up the revolving staircase of the hotel, and then walked towards the suite.

At this moment, Annabel just came back from outside with food. She walked into the restaurant. After looking carefully around, she ran fast to the staircase. She had a VIP card of Sakura Hotel, so she also lived in a top suite here.

When she was in the corridor, she saw that a man and a woman were walking in front of her. When she looked at the back of the man, she was stunned at once.

She thought that she was hallucinating, so she blinked hard. However, the person in front of her was very real and didn't seem to be a hallucination.

"That person should just look a little like Casey. It's impossible for that guy to come here. Don't be silly." Annabel comforted herself.

Just at this moment, Casey arrived at his suite. He turned around to open the door.

When Annabel saw the profile of Casey, the food she just bought all dropped to the ground.

"It...It's really him?"

Annabel felt her heartbeat quicken. She was boiling with rage. As a result, her chest rose and fell.

It never occurred to her that she would see Casey at this place. She just saw the man who she missed day and night. But...Why did he go into a room with a woman?

Chapter 834 He Was a Bad Man

"Could it be that I really mistake others for Casey? That guy has been emphasizing that he is faithful to his wife. Before, I stayed with him for such a long time, and I even slept in a room with him for many days. But he didn't do anything to me. How is it possible that he will have a one night stand with other women?" Annabel said to herself.

When a man was seen enter a hotel room with a woman, people would naturally think that those two people had an affair.

Therefore, Annabel was not sure whether the person she saw was Casey or not.

"But, I saw his profile. He must be Casey. I'm absolutely right." Annabel thought.

When Annabel suddenly thought that that man was really Casey, she suddenly found that she couldn't accept it.

"You damn bastard. Before, you claimed

that you love only Edith, but now you come here and have a one night stand with a women."

"You're a liar. If you're willing to have a one night stand with a woman, why did you refuse to sleep with me? Could it be that you were disgusted with me?"

Thinking of it, Annabel couldn't help shedding tears. In the past few days, she was under great pressure because her parents were going to marry her to the head of the Duncan family.

Therefore, when she saw that the man she loved enter a hotel room with a woman, she collapsed at once.

"You're an asshole. When I'm forced to marry someone, you come here with a woman and have fun. You're a hypocrite. I'm so stupid that I fall in love with you, a hypocritical scum."

Annabel crouched on the ground and cried.

Before long, she suddenly stood up.

Looking at the room Casey lived in, she spoke, "I won't let that bastard go. Even if he's a bad man, I must have him as my man!"

It was impossible for Annabel, with such a personality, to give up. In her opinion, coming across Casey here was a chance for her from god.

She wiped her tears with her hand, and said angrily, "Casey, I'll find you in bed with a woman. It's impossible for you to defend yourself this time!"

After saying that, she walked fast towards the suite where Casey and Elsa lived.

In the suite, Casey sat on the sofa, thinking about how to find Annabel. Elsa

stood beside him. She still wanted to ask Casey what the relationship between he and Annabel was.

Elsa got up her courage and was about to ask Casey.

Just at that moment, the door of the suite was kicked open. After that, Annabel rushed in from the outside with an angry expression. When she saw that Casey was sitting on the sofa and the woman standing beside him was as beautiful as a fairy, she became angrier. So she pointed her finger at Casey and began to scold him.

"You're hypocrite! Didn't you say that you will love only your wife in your life? Why are you in a hotel room with another woman now? And you specially come here to do this. Could it be that you're afraid that your wife will find it out?"

"If you're always a bad man, I won't care about it. However, when I stayed with you, you had never done anything to me. Why? Could it be that you're disgusted with me? Or that's because I'm not as pretty as her?"

Annabel took a look at Elsa. Finding that she was indeed not as good-looking as Elsa, she felt a bit embarrassed at once. She couldn't help calling Casey a hypocrite in her heart. The reason why he didn't sleep with her should be that he thought that she was not beautiful enough.

Ah? Why did she look a little familiar? Had I seen her somewhere?

Looking at Annabel, Casey was surprised. Just now, he was trying to figure out where Annabel would go after

running away from her home. The next second, she appeared. It was indeed beyond his expectation.

After hearing what Annabel said, Casey roughly understood why she was so angry. He was a little embarrassed. He got up from the sofa and approached Annabel. Then, he grabbed her by the shoulder and made her sit down on the sofa.

"What...What do you want to do? Could it be that you're going to kill me because I find that you have an affair with a woman?" Annabel looked nervously at Casey.

"I just want you to calm down." Casey explained.

"There's no need for me to calm down. I'm right. You're a bad man!" Annabel shouted.

When Elsa, who had been standing there, saw Annabel, she was astonished. She knew what Annabel looked like. Therefore, when she saw Annabel, she knew who she was. Seeing that Annabel treated Casey in the same way as a girl treated her boyfriend, Elsa was confused.

Didn't Casey say that he loved only his wife? Why did Annabel treat him as if he was her boyfriend?

Could it be that Annabel was right and that Casey was actually a bad man?

Noticing that Elsa also looked at him with suspicion, Casey found it troublesome. Therefore, he asked Elsa to sit down on the sofa.

Annabel and Elsa were hostile to each other. It seemed that they all considered each other to be an enemy. They

seemed to be calm. However, when their eyes met, there was hostility in their eyes.

"First of all, I would like to make one thing clear. I don't come here to sleep with her. You got me wrong. I undoubtedly love only my wife." Casey said.

"If you're not going to sleep with her, why do you live in a room with her? Casey, you can't fool me!" Annabel said. She didn't believe Casey.

Casey had no other choice, so he told Annabel the reason why he lived in a suite with Elsa. After all, there were two bedrooms in this suite. He was not going to sleep in a bed with Elsa.

Only then did Annabel remembered the status of Elsa. She had seen Elsa several times before. And she had some understandings of Elsa. It never occurred to her that Casey would stay with the young lady of the Duncan family.

"Casey, could it be that the people of the Duncan family send you to catch me?" Annabel stared warily at Casey.

Casey told her the reason why he came to R Country. Besides, he told her what he and Elsa had gone through and the real reason why the head of the Duncan family wanted to marry her.

As Annabel listened, she was more and more shocked. It didn't occur to her that her wedding would have something to do with such a complicated matter.

"That...That's to say, you come here to save me instead of sleeping with her?"

Chapter 835 I Can Definitely Do It

Casey rolled his eyes, and said, "I drop

by to save you. I mainly want to get Soul Setting Jade from the Duncan family and destroy the Duncan family."

"Humph, there's no need for you to find such an excuse. You men always do something unnecessary." Facing Casey, Annabel held her head high. She was secretly happy.

"I've told you everything. Now, it's your turn to tell us something. Why are you here?" Casey didn't bother to argue with her, so he moved to another topic.

After knowing what was going on, Annabel stopped monkey business and told Casey what she had experienced recently. She made it clear that she came here right after she ran away from her home and that she just met Casey and Elsa by coincidence.

After making things clear, Casey was relieved. He had intended to find Annabel. Although it was beyond his expectation that he met Annabel here, it saved him a lot of trouble.

Annabel turned her head and asked Annabel while looking at her, "Are you really just a cooperative partner of Casey?"

Elsa nodded, and answered, "Casey promised to save my mother, and I agreed to put my fate under his control. I will definitely not hesitate to do anything he requires."

"Then, answer me a question. If he wants to sleep with you, will you agree?" Annabel asked.

Hearing that, Elsa blushed. After quite a while, she didn't answer directly. Instead, she said, "He...He won't do that."

Annabel thought for a moment. After looking carefully at Elsa for a while, she asked, "Then, do you like him?"

Annabel went to the heart of the matter.

Elsa turned her head and took a look at Casey. At that moment, she had a lot of thoughts. Finally, she solemnly answered, "Casey saved my life. And I've agreed to put my fate under his control. I just want to repay him, and I don't dare to love him."

Hearing that, Annabel was relieved. As long as Elsa didn't fall in love with Casey, she was willing to make friends with her. After all, if Elsa also liked Casey, she would definitely be her strong rival in love.

"Just now, I was being impetuous and got you wrong. Please forgive me."

Annabel took Elsa's hand as if they were close.

Elsa was astonished. She looked at Annabel and nodded.

Just now, they were at daggers drawn. Now, they were so friendly to each other. Seeing this change, Casey was puzzled. He couldn't figure out what they were thinking.

"Since you need to keep us safe, I'll live here tonight. Elsa should have a room to herself, so I'll have to slum it in Casey's room." Annabel announced.

After saying that, she was going to take her quilt from her suite.

Casey stopped her immediately.

Annabel immediately looked at Casey with an aggrieved expression, and said, "Do you have the heart to let me stay in another suite alone? What if the people of the Duncan family come to catch me?"

Aren't you afraid that I might be taken away?"

"There's no need for you to take the quilt from your suite. You can just use the one in the room." Casey spoke.

Annabel's eyes lit up at once. She asked, "Do...Do you agree to share a bed with me?"

Casey rolled his eyes, and answered, "Not a chance. Both you and Elsa will live in bedrooms and I'll live in the living room."

Annabel was felt an overwhelming sense of loss, and spoke angrily to Casey, "You miss a precious opportunity. You stupid guy!"

Casey didn't say anything in return. Instead, he went to the window and began to think about the plan.

A week later, the wedding would be held. Casey should wait for a week, and then go to the Duncan family on the day of the wedding. By that time, the head of the Duncan family must have got everything ready, and therefore it was impossible for him to give it up and run away. What's more, he didn't know how powerful Casey was. So it was possible that he even would not have the idea of running away.

Besides, Casey believed that it was necessary for him to give the people of the Thompson family some hope. Now, Annabel was here, and the people of the Thompson family would certainly try their best to find Annabel. For their reputation, the people of the Thompson family would definitely not let the people of the Duncan family know that Annabel had run away. However, to make sure

that the wedding would be held, Casey must take some action to give the people of the Thompson family some hope.

Certainly, in Casey's opinion, it was not difficult. Therefore, he was not anxious to do that.

In the evening, Casey went out to buy food. And Elsa and Annabel stayed in the hotel.

Feeling bored, Annabel took a look at Elsa. After that, he approached Elsa and

asked with a smile, "Elsa, do you like to drink?"

Elsa blinked her eyes, looked at Annabel, and answered, "Yes. In the past, I had tried it."

"Great. What about going to the bar tonight? I've just run away from my home, so I need to relax. Drinking is definitely the best choice." Annabel said.

"I...I'll listen to Casey." Elsa answered.

"As long as we want to go to the bar, he won't refuse. When he's back, just do what I tell you." Annabel said.

Elsa thought that it was ok to go out for a drink. Over the years, she had never had fun. And she also wanted to know what people would do at night in T City.

"Then...Well." Elsa agreed.

Annabel kissed her on the forehead at once, and said, "You're so nice."

Coming across Casey by accident, Annabel was naturally extremely excited. They were in R Country now, and Edith was very far away from them. It was a good chance for her to make Casey her man.

And they lived in a suite. Elsa would just sleep in her room, but Annabel would not.

However, when Casey was awake, he would not sleep with her. Therefore, it would be best if she could drink him under the table.

When Casey was drunk, it was not easy for him to resist the temptation.

That was the reason why she enticed Elsa to go to a bar.

"Now, we're in R Country. I can definitely do it. Casey, you'll soon become my man."

Chapter 836 The Decline of the Wong Family

Before long, Casey came back with food. Both Annabel and Elsa were hungry, so they sat at the table and began to eat.

When they were half way through the meal, Annabel looked at Casey and spoke, "Casey, what about going out for a drink after the meal? Elsa said that she has not drunken for a long time and that she wants to have a drink."

Elsa was stunned. She had never said those words.

Annabel turned her head, looked at Elsa, and kept winking at her. Thinking that she had made a promise to Annabel before, Elsa believed that it was not good to expose her lie. So she nodded and said, "Yes...yes. I haven't gone to places like a bar for a long time, and I want to experience the nightlife in T City."

Seeing that both of them wanted to go out for a drink, Casey didn't want to disappoint them. Therefore, he agreed

that they could go to a bar to have some fun after the meal.

Annabel was happy and suggested that they should go to a bar named Koen Bar. The reason why she gave this piece of advice was that she knew that there was a special strong liquor. No matter how well a person could hold his or her liquor, that people would be drunk after drinking a glass of that.

After having the meal, they three left Sakura Hotel for the bar named Koen Bar.

Soon after they went into the bar, a person, who was wandering here, picked up his cell phone and made a phone call.

"Mr. Watkins, I've found Miss Thompson. She went into Koen Bar with a man and a woman just now. I'm going to follow them now. You had better come here as soon as possible."

After saying that, he hung the phone and entered the bar.

At the same time, in a foot massage center, T City.

In a private box. Watkins Thompson, the elder brother of Annabel, was sitting on a sofa, and a woman in kimono was massaging his feet. He had just hung the phone.

The person sitting next to him was a senior citizen with gray hair. There were also several young people. Judging from their clothes and the manner they behaved, it could be easily told that they were from H Country.

If Casey were here, he would be very surprised. The senior citizen sitting beside Watkins was named Duffy, and

he was the head of the Wong family, the most powerful family among the six Guwu Families.

After Casey defeated the six Guwu Families, the five Guwu Families enjoyed a bad reputation in Warrior Circle. When Casey was weak, Duffy ordered the people of five Guwu Families to attack Casey together. It was totally against the principle of Warrior Circle.

Bland didn't kill Duffy, so that Duffy could watch those families decline because of his stupidity. The six Guwu Families, which were previously very famous, declined in just a few months. Many people even combined against those six families. They wanted to take this opportunity to force those six families to leave H Country.

Among those six Guwu Families, the heads of four families were killed, and the head of one family became disabled. Duffy recovered after taking a precious pill of the Wong family. At that time, the six Guwu Families had declined, so they couldn't deal with the people who combined against them at all.

After those several months, those six Guwu Families completely lost. And the Guwu Circle also lost its position. Being driven into a corner, they had to give up everything they had in H Country and fled to other countries.

Led by Duffy, the people of the Wong family came to R Country. They planned to seek development here.

The people of the Wong family were new here and had lost everything they had. Therefore, they were quite poor

now. Duffy was therefore forced to consider working for the powerful families in R Country, so that they could have a chance to develop here.

In the past, Duffy looked down upon the secular society. Now, he had to work for the families in the secular society. For Duffy, it was more painful than being killed.

However, the fate of the Wong family depended on him, so he must not die. However much he looked down upon the secular society, he had to endure it. Today, he came to talk to the people of the Thompson family about cooperation. Duffy was a Grandmaster. If the people of the Thompson family could make him work for them, it would help them a lot. Therefore, Lowell asked his son to negotiate with Duffy. He hoped that they could reach a cooperation.

"Master Duffy, it's an honor that we have the opportunity to cooperate with you. For us, money is nothing. We're willing to give you as much money as you want. But, we hope that you can help us when we're in need of your help."

Watkins spoke to Duffy with a smile.

Duffy nodded at once and said, "Of course, I will. Since we cooperate with you, we'll surely keep our promise."

"Well, since we have reached an agreement, I'm leaving now. Just now, I got to know where my younger sister was, and I have to go to find her now. If I get into trouble, I'll make a phone call to you. If that happens, I hope that you will come as soon as possible." Watkins got up from the sofa.

Duffy nodded. Now, he could basically

be said to be the bodyguard of the Thompson family. If the people of the Thompson family needed his help, he should certainly try his best to do his job.

Watkins was quite respectful to him, but everyone knew that he was just being polite.

He, as the head of the Wong family, should be forced to work as a bodyguard. It never occurred to him that such a thing would happen.

"I'll ask my personal secretary to transfer the money I have promised to give you. I hope that we can have a good cooperation." Watkins spoke. Then, he left.

Duffy saw him off with a smile at once. After that, he murmured to himself, "It seems that they will need us to do our job soon. We must do a perfect job and let them know how powerful we are. Only in this way will they respect us."

"Luckily, we're in R Country and are away from people who know us. If Casey knew that I'm forced to work as a bodyguard, He would definitely laugh at me."

"The foundation of martial arts of the people of H Country is much better than that of people of R Country. I hope that I won't come across people who are as strong as Casey."

Duffy helplessly shook his head, and sighed. He thought of the fight that was against Casey, and then felt afraid.

Chapter 837 I Am Afraid that You Will Be Killed by Him

In Koen Bar.

After entering the bar, Casey, Annabel

and Elsa found a booth and then sat down.

Annabel and Elsa were too beautiful. Therefore, as soon as they three went into the bar, they attracted the attention of many people.

Seeing that Casey came here with two super beauties, one of whom was even as beautiful as a fairy, many people were jealous of Casey.

However, when they found that they three sat down in a booth soon after coming in and that the waiter brought the most expensive wine to them, they immediately realized that Casey was very rich and that they couldn't afford to offend him. Therefore, no one dared to go to harass Casey.

"Fuck, it's really great to be rich. He brings two super beauties to the bar at a time. That's great!"

"Alas, it seems that he's going to have a wonderful night. I wonder if he can deal with it. If he can't, I'm willing to help him."

"Is that so popular now? I want to have a try, too."

...

Casey and the two girls certainly didn't know what those people were talking about. Now, Annabel was very excited. The alcoholic drinks on the table were all ordered by her. She had ordered that special spirit. If people drank a glass of that, that people would be drunk. She didn't money into consideration because she knew that Casey would even be willing to buy the bar for her if she wanted.

"Come on, to our friendship. Cheers."

Annabel poured two glasses of wine for Casey and Elsa. She thought that it was not proper to drink them under the table soon after they came here, so she just poured wine that was not strong into the glasses.

Casey and Elsa picked up the glasses. Then, they three clinked their glasses and drank off.

Elsa seldom drank. Therefore, after drinking a glass of wine, her pretty face became red at once.

However, as an inner force expert in medium stage, she had got good physical constitution. Therefore, she was still not drunk.

The bar was broadcasting loud music.

They three chatted while drinking.

Annabel was outgoing. Therefore, even if neither Casey nor Elsa liked to talk, there was no awkward pause.

Annabel told Casey and Elsa what she had gone through these days, and complained to them about her parents and her brother who was untrustworthy. After hearing what Annabel said, Elsa, who was slightly drunk, remembered the past. She took this opportunity to say it out.

After listening to Elsa's words, Annabel instantly thought that she was actually quite lucky. Besides, she expressed deep sympathy for Elsa.

When they were having a great talk, Watkins entered Koen Bar with a group of people of the Thompson family.

He looked around, and soon found Annabel who was drinking with Casey and Elsa.

He directly walked towards the booth

where Annabel was in. And the people of the Thompson family beat up all the people who tried to stop Watkins. At the beginning, those people were unwilling to give up stopping Watkins. After seeing the strong people who came here with Watkins, they dared not to say anything.

"Look, it's the young master of the Thompson family. Keep away from him. Don't get involved in this matter."

"Which poor man will be in trouble? It seems that we're going to see some fun tonight."

Watkins soon attracted the attention of all the people. The atmosphere in the bar totally changed because of the arrival of Watkins.

Casey and two girls also noticed the change in the bar. Then, they all looked at somewhere that was not far away. When Annabel saw Watkins, she frowned at once and then hid behind Casey. She whispered to him, "He's my elder brother. I'm sure that he comes here to take me home. You must protect me. If I were taken home by him, I would be done."

Casey smiled and said, "Don't worry. When I'm with you, no one can take you away."

Casey was showing off. However, after hearing that, Annabel had a warm feeling.

Compared with her father and her elder brother, Casey could give her more inner sense of security.

Watkins came to the booth. Without saying a word to anyone, he sat down on the sofa, picked up a glass of wine,

and took a sip.

The people of the Thompson family soon surrounded this booth. The music in the bar stopped. People in the bar all were all watching them.

"Annabel, if you have drunk enough wine, go home now. Don't spend your time with such people. You're already someone who's going to get married, so make friends with people who are excellent enough. Don't spend time with these rubbish. Otherwise you'll be affected."

After hearing what Watkins said, Annabel got immediately angry, and said, "Watkins, watch your p's and q's. You're not superior to other people. You're so arrogant. If you were not the young master of the Thompson family, you would have long been killed."

"But I'm the young master of the Thompson family. Annabel, you're also someone who have been under the protection of the Thompson family."

Watkins spoke. He didn't mind what Annabel had said.

"Humph, I've never treated others in such an arrogant way. You're bringing disgrace to the Thompson family!"

Annabel shouted.

Watkins sneered, and spoke, "The reason why I'm being arrogant is that I'm eligible to be arrogant. I'm different from these rubbish. They manage to build connections with our family. They even try to take advantage of you. We should teach this kind of people a good lesson, right?"

As he spoke, he looked at Casey with disdain in his eyes.

He completely considered Casey to be a scheming man who was trying to build connections with the Thompson family by taking advantage of Annabel.

After hearing that, Casey smiled and said, "It's the first time for me to come across someone who has such a strong sense of superiority like you. Why are you so sure that I'm from a family that is not as powerful as the Thompson family?"

Watkins twitched his lips and said, "If you're from a family that is more powerful than mine, I will definitely know who you are. However, in my opinion, you're just a piece of rubbish that depends on my younger sister."

After saying that, he stood up directly and then clenched his fists. It seemed that he was going to attack Casey.

"My younger sister will soon hold her wedding ceremony, but ask her to come here for a drink by fooling her. I must teach you a lesson just because of that." Annabel hurriedly got up and stopped Watkins.

"Annabel, you can't stop me. I must teach this reckless guy a lesson."

Watkins spoke.

Annabel was a little speechless. She said, "You got me wrong. I stop you just because I'm afraid that you'll be killed by him. Go away. You're no match for him."

Chapter 838 A Lesson

After hearing what Annabel said, Watkins sneered at one. Obviously, in his opinion, what Annabel said was absurd.

"Annabel, you underestimate me. These days, I have been specially learning

Shinobido from a master. Besides, didn't you see those men? Beating him up is as easy as winking." Watkins said confidently.

Annabel twitched her lips. He should believe that these people could beat Casey up. He really underestimated Casey.

Casey realized that Watkins was the kind of person who wouldn't easily give up. If he didn't beat Watkins up, Watkins would not leave.

Casey didn't want to waste time. He stood up. Looking at Annabel with a smile, he asked, "If I beat your brother up, will you pick on me?"

Annabel glanced at Watkins, and spoke, "I'll be very happy to see that. I've no reason to pick on you. This bastard wants to marry me to a devil. He should be glad that I didn't hit him."

Hearing that, Casey nodded, and said, "Then, it's easy to deal with this matter."

Then, he turned his head, looked at Watkins, and spoke, "Don't waste time. Just fight against me with your men. Considering that you're Annabel's brother, I won't kill you. After I beat you up, leave here, and don't harass us again."

Hearing Casey talked as if he had won, Watkins was very unhappy. He thought: This guy was more arrogant than I was. If I failed to beat him up, I would bring disgrace to the Thompson family. He took off his coat, after which his strong muscles were showed. Then, he said a few words to people beside him. After that, those people began to force other people to leave the dance floor at

once. After that, Casey and Watkins could fight against each other on the dance floor.

"Fella, you're looking for trouble, and I've warned you. If you're killed, don't blame me." Watkins spoke. As he said, he walked towards the dance floor.

Casey smiled. After that, he also walked towards the dance floor.

Seeing that, Annabel hurriedly reminded, "Don't kill him. After all, he's my brother. Teaching him a lesson is enough."

Casey turned his head and said with a smile, "Don't worry. I know what to do."

When the people in the bar found that Watkins was going to fight against Casey on the dance floor, they were all surprised.

They didn't know how powerful Casey was, so they all thought that it was unwise for Casey to challenge Watkins.

"That guy is too bold. He should dare to challenge the young master of the Thompson family. Could it be that he is really not afraid of being killed?"

"He's the first one who dares to challenge the people of the Thompson family in T City, right? Even if he believes that he can defeat the young master of the Thompson family, can he defeat the men who come here with the young master of the Thompson family?"

"Anyway, we're going to see some fun. How badly do you think this guy will be beaten by the young master of the Thompson family?"

...

Watkins warmed up a bit. Obviously, he itched to fight against Casey. He spoke,

"I happen to want to examine how well I learn recently, and I'll have a try."

"Are you sure that you're going to fight against me by yourself?" Casey took a look at those men.

Watkins sneered, and said, "Stop boasting. Fight against me now!"

He no longer talked nonsense, but rushed towards Casey.

"Wow, Mr. Watkins starts a fight! He's so handsome."

"I would like to touch his muscles. Mr. Watkins is so strong. He can definitely defeat that hateful fellow."

The woman, who were watching, all admired Watkins.

"Hey, I'll kill you!"

Watkins gave Casey a punch with great strength. It seemed that he was very powerful.

Watching the move Watkins used, Casey couldn't help shaking his head. In his opinion, Watkins was as weak as a child.

The moment Watkins got close to Casey, Casey turned around quickly and then gave Watkins a roundhouse kick on the stomach.

Watkins's eyes were immediately wide open. Before he could touch Casey with his fist, he fell backwards and finally landed on a table that was not far away. A sudden silence fell.

The young master of the Thompson family, who had been so confident just now, was defeated by Casey with merely one kick?

People in the bar all watched it in disbelief. They didn't know what to say. Watkins endured the pain and got up

from the ground. He didn't expect that he would be easily defeated by Casey, either. He acted in such a confident way before, but he was easily defeated. It was a slap in the face.

He couldn't understand why Casey would be so powerful. However, he shouldn't think about that at this moment. If he failed to beat Casey up today, he would be a joke in future.

"Why are you still standing still? Attack him together! Catch him!" Watkins shouted at the people of the Thompson family.

The people of the Thompson family rushed to the dance floor at once, and soon surrounded Casey.

However, these people were just ordinary people. No matter how many of them there were, Casey could defeat all of them. At most, it would take Casey a little more time.

In an instant, the men of the Thompson family were all knocked down by Casey, wailing in pain.

Watkins watched this scene in disbelief. It was beyond his expectation that the thugs carefully trained by his family would be unable to withstand a single blow.

The lookers-on were also dumbfounded. It never occurred to them that there would be such a powerful person in the world.

Different from that in H Country, there was no martial art that had been handed down for many generations in R Country. Therefore, for common people, they only knew that the ninjas, that existed in some legends, were very

powerful. At ordinary times, it was very difficult for them to come across such a powerful person in their daily life.

Seeing that the thugs coming here with Watkins were all knocked down, Annabel wore a happy expression on her face. She got close to Watkins and said happily, "I've warned you that you are no match for him, but you didn't listen. Now, you must regret it."

Seeing that his younger sister laughed at him, Watkins was very annoyed. He sneered and said, "Don't be so triumphant. Just now, I met a powerful expert in fighting, and he had agreed to work for our family. That guy is indeed strong. However, compared with that expert in fighting, he's very weak."

"Dare you let me ask that expert in fighting to come over and fight against him? By then, you'll know what real expert in fighting is like!"

Chapter 839 They Were All Stunned

After hearing what Watkins spoke, Annabel turned her head and looked at Casey. Now, Casey was the boss, so it was naturally Casey who had the right to decide what to do next.

After drinking some wine, Casey became more playful. Therefore, when he heard that Watkins wanted to ask a so-called expert in fighting to come over, he was interested in that,

Anyway, he was free now, and it was ok for him to spend some more time here.

"The expert in fighting you mentioned should be much more powerful than these thugs, right?" Casey asked.

Watkins sneered and said, "These rubbish can't match that expert in

fighting at all. Listen, he's from H Country. There, people all call him Grandmaster. He's more powerful than ordinary people can imagine. Dare you let me to ask him to come here?"

Casey raised his eyebrows. He didn't expect that Watkins was talking about an inner force expert in Grandmaster Circle. Therefore, he said with a smile, "Well, then I'll wait a minute. Just ask him to come here."

Seeing that Casey was goaded by him, Watkins immediately sneered. Without talking any nonsense, he took out his mobile phone and made a phone call to Duffy.

In his opinion, Duffy could certainly beat Casey up after he came here.

"I've ask him to come here, and he'll arrive soon. If you're bold enough, don't go." Watkins spoke to Casey with great hostility.

Casey just came back to the booth and sat down.

Annabel hurriedly came to him and asked, "Is the Grandmaster he mentioned the inner force expert in Grandmaster Circle that your teacher told us?"

When Casey learned from his teacher in the mountain in the past, Annabel was also there. Therefore, Annabel knew something about the hierarchy of experts in fighting.

At that time, she had known that Grandmasters were extremely strong. Therefore, when she heard what Watkins said, she was suddenly a little uneasy.

Casey nodded and said, "He's

supposed to be."

"Then, why do we still stay here? Why not leave here now? Are Grandmasters very powerful? If he really comes over, we'll be done." Annabel's eyes were wide open. She didn't know which stage Casey was in now.

Hearing that, Elsa immediately laughed and said, "Annabel, don't worry about it. Casey's very powerful. Even when he was attacked by more than ten Grandmasters at the same time, he was able to defeat them."

Annabel was startled. She looked at Casey and asked, "Being attacked by more than ten Grandmasters? Really?"

"Yes, of course. I saw it myself." Elsa answered with a serious expression on her face.

Annabel was shocked a lot. She didn't anticipate that Casey would become so powerful after a long time.

"Let's drink now. We'll go back to the hotel after I defeat the so-called master." Casey said with a smile.

...

On the way leading to Koen Bar.

Duffy was hurrying to Koen Bar along with several people of the Wong family.

"We reached a cooperation with the Thompson family just now.

Unexpectedly, we have a chance to do our job so soon. It's the first time for us to do something for the Thompson family, so we must deal with it perfectly. Otherwise, the people of the Thompson family will question our competence."

Duffy spoke to the people of the Wong family with a serious expression on his face.

Those people nodded. One of them said with a smile, "Different from that in H Country, there is basically no Warrior here. There are some so-called ninja, but they are all mysterious and won't appear in secular society. In my opinion, it should be easy to deal with it. When we're there, Lord can just watch. We should be able to deal with that."

Other people all agreed in agreement. In Duffy's opinion, this people was just telling the truth and he was not exaggerating. Therefore, he didn't refute.

"After we arrive at Koen Bar, you go to deal with the trouble first. If you can deal with it, I won't interfere with it. It's a good chance to demonstrate our ability. You must seize it." Duffy said.

Other people all nodded. They were all excited.

In the bar.

Casey, Annabel and Elsa were drinking leisurely. Watkins was watching them with an angry face. From time to time, he would cursed them.

"When Master Duffy comes, you'll be beaten up."

Soon, Duffy arrived at Koen Bar along with other people of the Wong family. Soon after they came, they saw Watkins stand there with an angry face. In order to leave a good impression on Watkins, the people of the Wong family hurriedly got close to Watkins.

"Mr. Watkins, who dares to make trouble for you? Please tell us. We'll take care of this matter for you." One of them spoke.

Seeing the people of the Wong family,

Watkins smiled. He said, "You're here at last. There is the guy who hurt me. Beat him up for me, please. Otherwise, our family will lose face."

As he said, he pointed at the booth in which Casey stayed.

"Mr. Watkins, we'll take care of it."

The people of the Wong family turned their heads, and looked in the way Watkins showed them. They were about to start a big fight.

However, when they saw the people sitting there, there were all stunned.

Before, they were going to walk towards the booth Casey was in. Now, they couldn't move at all.

"Casey...Casey? How could it be him?"

It was impossible for these people to forget what their parents looked like, but it was more impossible for them to forget what Casey looked like.

It was exactly Casey who brought a catastrophe to the Wong family. If it wasn't for him, the people of the Wong family would not be forced to come to R Country.

However, this was the fate. They came across Casey again in R Country.

Besides, he was the first person who the young master of the Thompson family asked them to deal with.

These people knew clearly how powerful Casey was. In the past, Casey challenged all the people in H Country Martial Circle. They were all witnesses. No one knew better than them how powerful Casey was.

Therefore, when they were asked to fight against Casey by Watkins, they were so scared that they could not

move.

Seeing that the people of the Wong family were not going to attack Casey at all, Watkins was confused. He asked, "Is there any problem?"

The people of the Wong family were all in a cold sweat. There was a big problem, not just a problem. The person sitting there was too terrible. If they came to attack him, they were afraid that would be immediately killed.

At this moment, Duffy got close to them. Seeing that the people of the Wong family stood still, he was also confused. When Watkins saw Duffy, he hurriedly approached Duffy and said, "Master Duffy, there is the person I want you to deal with. Those people just don't move for unknown reason. What about dealing with that guy in person? You're so powerful. It will not take you too long to defeat that guy."

Duffy nodded and said, "No problem, I'll deal with him for you now."

After saying that, he also cast his eyes at Casey.

When he saw the face of Casey, he reacted in exactly the same way as other people of the Wong family did.

Chapter 840 I Have Defeat Him in the Past

"Casey...Casey! Why will he come here? Could it be that he specially comes here to kill all of us? Our family has been reduced to working as bodyguards. Isn't that enough? Damn it. It seems that we have to leave R Country. Otherwise, Casey alone will kill everyone in our family."

In an instant, Duffy came up with a lot of

ideas. He had been brave enough by not just running away.

There were many fine beads of sweat on his forehead. He was thinking hard about what to do next.

He would not fight against Casey. In the past, when the heads of four families fought against Casey together, they were defeated by Casey alone. Now, there was only him and several people of the Wong family here. It was impossible for him to defeat Casey.

However, it took him great effort to reach a cooperation with the Thompson family. If he just ran away, he would lose the chance to cooperate with the Thompson family.

At this moment, Casey found that there was something going on near Watkins. When he saw Duffy who was standing beside Watkins, he was astonished. He didn't anticipate that the master Watkins mentioned would be an acquaintance. Both Annabel and Elsa turned their heads and took a look at Duffy. When they saw that it was a senior citizen with gray hair, they thought that he looked like a powerful expert in fighting.

"Is that guy the master Watkins has mentioned? He seems to be powerful. But why do I have the feeling that he is feeling afraid?" Feeling confused, Annabel asked.

"Because...I've defeated him in the past." Casey said with a smile.

Both Annabel and Elsa cast their eyes at Casey with a surprised look. It was beyond their expectation that the senior citizen over there had been defeated by Casey in the past.

"What a coincidence! Will he take this opportunity to fight against you again for the purpose of demonstrating his power?" Elsa spoke.

"Don't worry. He doesn't dare to do that. Last time, he fought against me with other three Grandmasters, but I defeated them all. Now, only he is here. If I'm not wrong, he should be thinking about how to run away now." Casey laughed.

Being shocked again, Annabel and Elsa stared at Casey in disbelief. They found that Casey always said something shocking.

When Watkins found that Duffy also dared not to move, he felt very puzzled. He couldn't figure out why these people didn't dare to move just after taking a look at the guy who tried to flatter his younger sister.

"Master Duffy, what's wrong? Two of them are woman, and you just need to deal with Casey alone. Is there any problem?" Watkins asked patiently.

After hearing what Watkins said, Duffy gathered his wits. Just now, he was too scared, and was therefore in a daze.

After gathering his wits, he swallowed his saliva. Then he quickly turned around, looked at Watkins, and spoke, "Mr. Watkins, I'm very sorry, but we can't deal with that person for you. And you don't have to give us the money you have promised. Our cooperation goes west. Mr. Watkins, take care of yourself. If you can, run away as soon as possible."

After saying that, Duffy turned around and ran towards the door of the bar at

full speed.

When he almost reached the door, he found that other people of the Wong family were still standing still. He shouted at once, "Why do you stand still there? Run!"

The people of the Wong family finally realized what they should do. Then, they rushed towards the door of the bar. In an instant, Duffy, together with other people of the Wong family, all disappeared from the bar.

Watkins watched it dumbfounded. He completely didn't understand what was going on. Why did Master Duffy run away before he started a fight against Casey?

After a while, Watkins calmed down a bit. He gritted his teeth and cursed, "They're really all losers. How dares he claim himself to be an expert in fighting? I was being so stupid that I believed you!"

Casey got up from the sofa and came to Watkins. He asked with a smile, "Where is the master you have mentioned? Don't tell me that you referred to the person who was frightened away after taking a look at me just now."

Watkins was embarrassed. However, as the young master of the Thompson family, he couldn't show it. Therefore, he had to force himself to look at Casey and said, "Don't be triumphant. You take my younger sister away, so we won't let you off. Besides, my younger sister is going to marry to the head of the Duncan family. Therefore, if the people of the Duncan family get to know it, they won't let you get away with it, too. You'll

be done!

After saying that, Watkins hurriedly ran towards the door of the bar for fear that Casey might give him another kick.

Watching Watkins run away in panic, both Annabel and Elsa couldn't help laughing.

Casey shrugged. Then, he turned around, came back to the booth, and sat down.

With an excited expression on her face, Annabel wanted to give Casey a hug to express her gratitude to him. Casey stretched out his arm, stopping Annabel. After being refused by Casey, Annabel was very unhappy. She murmured, "You should accept it. I just want to express my thanks to you, humph."

Casey didn't take what she said seriously at all. When he lived with her, he had already had a good understanding of her. If he didn't keep refusing her, she would dare to do anything to him.

"Anyway, I'm very happy to see Watkins to be frustrated. To celebrate it, let's have a toast."

As Annabel spoke, she poured two glasses of spirit for Casey and Elsa.

That was the special spirit in this bar.

People who drank a glass of this kind of spirit would be drunk.

They three picked up the glasses, clinked their glasses and then drank off the wine.

After watching Casey and Elsa drink off the wine, Annabel put on a playful smile.

...

In a hotel.

The people of the Wong family lived

here for the time being.

After coming back here, both Duffy and other several people were gasping for breath. However, they didn't dare to have some rest. Instead, they rushed into the hotel and asked all the people of the Wong family to come out.

The people of the Wong family all looked at Duffy with a puzzled expression on their faces. They didn't know why he asked them to go out at night.

"Casey comes to R Country, too. I still don't know what his purpose is, but it's definitely a bad thing for our family. We can't stay in R Country anymore. Pack your things up, and we're leaving here soon." Duffy shouted.

When they heard Casey's name, they were all scared. Then, they all hurriedly ran back to their rooms to pack up their things.

"Oh, my God. Casey really won't let us off. We have just settled down in R Country, but we're forced to flee again. It's too bad."

Chapter 841 What Are You Doing In Sakura Hotel.

After they left the bar, they directly came back here.

When they were on the way back, Elsa began to be stupefied with drinks, and began to stagger.

She was able to drink a lot of wine, but she couldn't hold the wine well. After she drank the glass of spirit Annabel poured for her, she was immediately drunk. It was Casey and Annabel that helped her back.

Annabel knew herself well. If she drank

a glass of that spirit, she would be as drunk as Elsa. Therefore, after she poured two glasses of spirit for Casey and Annabel, she poured herself a glass of other wine.

Why did she intoxicate Elsa? She did that to prevent Elsa from disturbing her when she slept with Casey.

After drinking that glass of liquor, Casey was also dizzy. He didn't anticipate that that liquor would be so strong.

However, he managed to maintain a sober mind and come back to the hotel. After they were back in the suite, Casey put Elsa on the bed of one room. He covered her with a quilt. After that, he left the room.

Annabel pretended to be tipsy, and said, "I'm dizzy. I'll take a bath and then go to sleep."

After saying that, she went to the bathroom.

Casey didn't care about Annabel's state at all. Feeling dizzy, he sat down on the sofa and wanted to sleep right away.

Right at this moment, there was suddenly a scream coming from the bathroom. Casey was startled and became sober at once. Thinking that someone had come to catch Annabel, he hurriedly rushed to the bathroom.

After he opened the door of the bathroom, he saw that Annabel was sitting on the ground. She was disheveled, and therefore part of her body was exposed. Seeing that, Casey was a little antsy.

Annabel looked at Casey with an aggrieved expression on her face, and said, "I...I can't rise to my feet. Give me

a hand."

Casey had no choice but to come to Annabel. He didn't look at her, and just stretched out a hand.

"In this way, I can't get up, either. I twisted my ankle before. And therefore I need you to pick me up." Annabel seemed to be shy and poor. At this point, not a man would be able to refuse her.

Casey had to crouch down and carefully picked her up. He tried his best to avoid touching her.

Annabel would certainly not miss this great opportunity. She leaned against Casey and whispered in his ear,

"Tonight, you can do anything to me."

Hearing that, Casey shivered. He realized that things might be out of his control later, so he hurriedly pushed Annabel away. He spoke, "You've got up. Just have bath. I'm going out now."

After saying that, he got out of the bathroom without hesitation, giving Annabel no chance to do anything else. Seeing that Casey had resisted the temptation, Annabel couldn't help stamping her feet angrily. Just now, she was just pretending to fall down for the purpose of getting a chance to stay close to Casey.

However, she didn't expect that Casey should have such a strong will. At that point, he should be able to resist the temptation.

"Humph, anyway, you're already drunk. Generally speaking, you'll fall asleep later. Then, I can do whatever I want to, and you can't stop me."

Annabel put on a sly expression on her

face. Then she took off her clothes and took a bath.

After Casey got out of the bathroom, to sober up, he shook his head with force. However, his body had been paralyzed by alcohol. Only sleep could help him sober up.

He went to the sofa again. He was going to have some rest directly, so he lay down on the sofa.

Suddenly, he remembered that he could use a trick in XuanGong to sober up. So he closed his eyes and used XuanJin to sober himself up under the instructions of XuanGong.

Gradually, Casey did sober up.

Unexpectedly, XuanJin could be used to sober himself up. It was really fantastic. Before long, Annabel came out of the bathroom with only a towel wrapped around her. Her hair was wet. She looked very sexy.

She cast a glance at Casey. After she found that Casey had fallen asleep, she immediately smiled excitedly.

She quietly got close to the sofa and observed Casey carefully for a while.

After that, she thought: No matter how reluctant you were, you were finally going to be my man.

Then, she sat down near Casey and began to take off her clothes.

At that time, with the help of XuanJin, Casey had sobered up. When he found that there was someone taking off his clothes, he opened his eyes at once.

Annabel was happily taking off his clothes. When she suddenly Casey open his eyes, she was startled and stopped at once.

Casey and Annabel looked at each other. A sudden silence fell for a few seconds.

"What are you doing?" Casey asked. From the way Casey, he didn't seem to be drunk at all. Therefore, Annabel was embarrassed at once. She asked, "You're drunk. Why do you open your eyes? Close your eyes and have some sleep now."

"I've sobered up." Casey spoke. Annabel was even more embarrassed. It was completely different from her plan. Just now, this guy was still plastered. Why did he suddenly sober up?

"Oh, well, I thought that you might feel a little hot, so I wanted to take off your clothes for you. Otherwise, if you're in a sweat, you'll feel uncomfortable."

Annabel hurriedly made up an excuse that even couldn't convince herself.

Casey rolled his eyes. Then he put Annabel's hand away from his body. He said, "I know what you're thinking. And I've told you many times that I love only Edith."

Annabel stood up angrily and said, "So what? You're so brilliant, so it's normal that many women like you. I have the right to love you."

"Anyway, I must sleep with you tonight."

After saying that, Annabel was about to take off the towel and therefore totally exposed her body. She was sure that Casey would lose control of himself. Seeing that, Casey immediately caught hold of her wrists, after which he got up from the sofa at full speed and pulled her into the bedroom. Then, he used some force and put her down on the

bed.

"Just go to sleep. If you dare to do that again, I might throw you out through the window."

After saying that, Casey turned around and went out of the room. He even closed the door for her.

Annabel was so angry that she gave the bed a few punches. She didn't expect that she would fail again.

"Casey! You stupid guy! You'll regret missing the chance to sleep with me!"

Chapter 842 Muramasa, the Demon Blade

On the next morning.

When Elsa came out of her room with messy hair, Casey was sitting on the sofa in the living room and was looking at his mobile phone.

On the table was the steaming breakfast that was just bought.

She raised her head, looked at the clock, and found that it was already ten o'clock in the morning. She immediately patted herself on her forehead. She thought: Last night, I did drink too much. I should wake up so late.

"Good morning. I've got the breakfast for you." Casey spoke to Elsa.

Elsa nodded and said, "Thank you."

At that time, Annabel also came out of her room. Besides, she looked angrily at Casey as if Casey had done some unforgivable things to her.

When Elsa saw that, she thought of many things at once. She wondered if Annabel got so angry because Casey, who was drunk, did something to her last night.

However, after another thought, she

realized that she was wrong. Considering the way Annabel treated Casey, if Casey had done anything to Annabel, she would have been happy. "You stupid man, idiot, you stupid jerk!" Annabel shouted at Casey. Then, she turned around and went to the bathroom.

Seeing this, Elsa immediately realized something: The reason why Annabel was so angry was not that Casey had done something to her, but that Casey had not done anything to her.

Realizing what was going on, Elsa immediately smile. It was beyond her expectation that Annabel would be such an interesting person.

After washing up, both women came to the table and had breakfast.

When they were eating, Casey asked, "Do you know where I can get some weapon with good quality in R Country? Just something like a sword."

When he left the Valley of Medicine God, to make full use of his power, Casey had thought of getting a suitable weapon for himself.

Now, he had found Annabel. Next, he just needed to do something to prevent the people of the Thompson family from doing something that might damage his plan. Then, he would just wait for the wedding to be held. Therefore, he wanted to find a suitable weapon for himself in the next few days.

After hearing what Casey spoke, Elsa thought about it carefully and then shook her head. She said, "I don't know much about weapon, so I don't know where we can get weapon."

As soon as Annabel heard Casey's question, her eyes lit up. She said to Casey with her eyes narrowed, "I know where you can get weapons. Give me a kiss, and then I'll tell you where to find a suitable weapon."

Casey stared at Annabel for a while and then spoke to Elsa, "Go get a rope for me. I'm going to tie her up and send her to the Thompson's Villa. Maybe the head of the Thompson family will be willing to give me a good weapon in exchange of her."

Annabel was so angry that she gritted her teeth. She said, "Casey, I just asked you to give me a kiss. There's no need for you to be so cruel to me!"

"If you tell me where I can get good weapons now, I won't do that to you."

Casey spoke.

Annabel wore an aggrieved expression as if she were a wrong wife. She answered, "Tonight, an auction will take place in the center of T City. Several days ago, I got a message. It's said that Muramasa, the Demon Blade, will be sold at this auction. In R Country, this blade is very famous. It is said that it is extremely sharp. During the Edo period, nearly ten thousand people were killed by the people who used this blade. As a result, it became evil. Rumors have it that anyone who holds this blade will be affected by it and will eventually become a ruthless killer."

"It's widely known to be an evil blade, so it's called a Demon Blade. It's said that whoever gets this blade will suffer disaster."

"However, many people, who like to

collect swords, still want to get this blade. After all, despite the stories about this blade, it could definitely be said to be the best blade in our country. A lot of people don't believe those stories and would like to have a look at that blade." "If you're not afraid of the possibility that you might suffer disaster, you may participate in this auction and try to win it."

After hearing that, Casey nodded. He was interested in that blade.

The blade, Muramasa, was made in the Edo period. Until now, there were still such stories about it. It meant that it was a sharp blade.

As for those so-called stories, Casey certainly didn't believe them. He clearly knew that those stories were made up by people. People tended to be curious about the unknown things. When something existed for a long time, there would always be many such stories about that thing.

"Well, then, we'll participate in this auction tonight and see if I can win the blade, Muramasa." Casey spoke.

Annabel looked at Casey with an angry expression on her face and said, "I gave you information, but you didn't give me a reward. You're so mean."

Casey looked at her and smiled. He said, "Then, after I win the blade back, you can play with it."

Annabel pouted at once and said, "People who will attend this auction are rich. I'm not sure if you can win it back." Casey shrugged and said, "Do you think it possible for someone else to win me in an auction?"

Only then did Annabel remember that Casey was the young master of Guanling and that the money he had was likely to be more than all the assets of the Thompson family. It was highly possible that no one could win him in an auction.

Finding that she couldn't ask Casey to give her another reward, Annabel was annoyed. She vented her anger by eating all the food.

In the evening, Casey, Annabel and Elsa went to the place where the auction would be held. It could be said to be a large-scale auction, and people who participated in it were all rich. Everyone was dressed in expensive clothes, showing that they were noble.

Casey specially put on formal clothes before coming here. Annabel and Elsa were also dressed up. They stood beside Casey just like two bright stars. When they three arrived at the bidding block, Watkins got a piece of information from his men.

"Mr. Watkins, according to the latest piece of news, Miss Thompson, together with other two people, are dressed up and go to the place where the auction will be held this evening. It seems that they're going to buy something."

Hearing that, Watkins sneered and murmured, "Although I am not as good as that guy in fighting, I'm richer than any person in R Country."

"Isn't it that you want to buy something? I won't let you win what you want. I must take revenge on you for what happened last night."

"If I bid against you in the bidding block,

you won't dare to come to beat me there. Wait and see. I'll let you know the power of money."

Chapter 843 An Auction

At the entrance to the bidding block. When Casey and two women got close to the entrance, one person immediately came to stop them and said respectfully, "Sir, may I ask if you have the invitation to the auction?"

Casey shook his head.

That person didn't show any impatience. Instead, he said patiently, "Sir, I'm sorry. But if a person without an invitation wants to enter into the bidding block, we'll have to verify his or her asset first. Only people with assets that value at least 10 million dollars are allowed to come in. May I ask if you want to have verification of your assets?"

Casey directly took out his bank card, and said, "Yes, just do it."

Daring not delay at all, that people hurriedly took Casey into one room. Both Annabel and Elsa waited outside the room.

Before long, Casey came out from the room. The people, who took Casey into the room, looked at Casey as if Casey were made of gold and treated him in an extremely respectful manner.

"Sir, I've asked my colleague to arrange you the seat closest to the auction block. There, you can see the very details of each lot clearly." That person spoke while looking at Casey.

Casey nodded. Then, he asked Annabel and Elsa to go into the bidding block with him.

The reason why they could receive such

service was certainly that there was a large amount of money in Casey's bank card. That people had never seen so much money in his life. In his opinion, Casey had enough money to buy all the lots at the auction today. When he was faced with such a guest, he would certainly provide a great service to him. They three entered into the bidding block. Led by a waiter, Casey, Annabel and Elsa sat down in the seats that were closest to the auction block. Casey was new here. When people around found that he sat in such a seat, they were all confused.

However, someone soon recognized the two women sitting beside Casey: One of them was the young lady of the Thompson family and the other was the young lady of the Duncan family. And then, they thought that they had figured out why Casey could sit in such a seat.

"I'm really envious of him. He should be able to come here with the young lady of the Thompson family and the young lady of the Duncan family. How does he achieve that? I really want to ask him for advice on how to pick up women."

"Humph, he's but a toy boy who depends on women. It's useless for him to sit in that seat. After all, he can't ask those two women to buy things for him. Even if he sits there, he can't afford to buy any of those lots. There's no need to be envious of him."

"If he really wants to achieve success by depending on those two young ladies, I'm afraid that he will be disappointed. It's never possible for those young ladies to get the assets of those two

powerful families. They can at most live a well-off life themselves. At such an auction, those young ladies won't have enough money to bid. If the young masters of those two families come here, they might have enough money to buy things."

"Maybe he just wants to know how it feels to sit at such a seat. I've seen too many such people."

...

Hearing the laughter and remarks from people around, Annabel put on a look of disdain, and spoke, "They're all stupid. They defame others like that just because they're envious of others. They're just richer than ordinary people. They're the same kind of people in essence."

"When Casey bids for the lot, I'll see if you will still say something like that."

Before long, Watkins also came to the bidding block. He sat next to Annabel. He turned his head, looked at Annabel and Casey, and said with a smile, "What a coincidence! We all come to participate in this auction."

Both Annabel and Casey turned their heads and looked at Watkins. Annabel frowned at once and said with dislike on her face, "It's too bad. I was previously happy. Now, a disagreeable person is sitting beside me. I even want to sit in another seat."

After saying that, Annabel stood up and spoke to Casey who sat beside her, "Can I exchange the seats with you? I want to sit next to Elsa."

Casey didn't mind it. He swapped the seats with Annabel.

When Watkins saw that Casey sat beside him, he said with a smile, "It should be my younger sister that makes it possible for you to sit in this seat, right? She's really so silly that she helps you so much."

"I can understand that everyone wants to know how it feels to be superior to others, so I'm not going to say anything about it. But I must make one thing clear. It's I who am the heir of the Thompson family. And I'll get most of the property of the Thompson family. Annabel could only get a small share of it."

"If you take a fancy to a lot later, you can tell me. I'm willing to buy it for you on condition that you send my younger sister back home. No matter how good at fighting you are, you're not good enough to be her husband. She's destined to be married to the head of the Duncan family."

After hearing what Watkins said, Casey roughly understood what he meant. Watkins just came here to make Casey lose face.

Judging from the way Watkins spoke, it could be seen that he considered Casey to be a poor man. In his opinion, it was Annabel that made it possible for Casey to sit in the first row.

Casey shook his head with a smile. He thought: If Watkins really thought so, he would lose face again.

"Thank you for your kindness. However, if I take a fancy to something, I'll buy it myself. I'm not going to trouble you."

Casey said with a smile.

Watkins sneered. He thought: This guy

was really reckless. The lots today were very expensive. It would take all the assets of a so-called rich person to buy the cheapest lot at the auction today. The reason why Casey dared to say those words must be that he had no idea how valuable the lots were. However, he didn't bother to explain it to Casey. In his view, when the auction started, Casey would know how ignorant he was.

Before long, the auction began. Tonight, most of the lots were antiques. Besides, there were a few paintings. As with other auctions, the lots sold at the beginning were things that were not very valuable when compared with other items. However, the starting price of these lots was still very high.

At this auction, all the lots were priced in M Country dollars. The lowest starting price was five million dollars. Every time a person bade, the increase in price should not be less than a hundred thousand dollars.

Not long after the auction began, Watkins had bought several antiques without hesitation, just as if he were shopping in the mall.

Seeing that, people present were all surprised. At the same time, they were all very envious of Watkins. As a member of the Thompson family, he thought nothing of that amount of money.

Every time Watkins bought an item, he would turn his head and look at Casey with a proud face. He seemed to be showing off to Casey.

However, Casey was not affected at all.

Finally, it was time to sell the most valuable item in the auction. The staff workers pushed a trolley to the auction block. On the trolley was a rectangular glass box. In the box was a well-made blade. It could be seen that it was a good weapon at a glance.

Muramasa, the Demon Blade!
Chapter 844 A Hundred Million Dollars

"Wow, this blade looks so good. I can feel that it was giving out a strong air of forcefulness by just looking at it. No wonder it's the most famous blade in our country." Elsa sighed while staring at the blade.

After seeing that this blade was brought to the auction block, Casey got immediately hyped up. He sat straight a little and observed the blade carefully. Judging from its appearance alone, Casey was sure that this blade was very sharp. In H Country, people would praise a good blade by saying that it could cut through iron as if it were mud. This sentence could exactly be used to praise this blade.

Casey had a gut feeling: If he held this blade while covering it with XuanJin, he would be much better at fighting than before.

It seemed that he had found what he needed.

Watkins found that Casey, Annabel and Elsa were paying close attention to the blade and therefore guessed that what they wanted to buy tonight was this blade.

He turned his head, smiled at Casey, and asked, "Why, are you interested in

this blade? If you agree to my term, I'll buy it and send it to you. How about that?"

Casey smiled and said, "Thank you, but you don't have to. I'll buy it myself."

Watkins sneered and said, "This blade is called Muramasa. It's the most famous blade in our country. Do you even know the starting price of it? How dare you say that you'll buy it yourself?"

Casey shrugged and didn't answer.

After Muramasa was brought to the auction block, the host introduced the history of and some stories about Muramasa to everyone with passion.

Finally, the host explained the workmanship, features and details of Muramasa to people present. People present were all amazed at what the host said and kept praising Muramasa.

"Well, I'll say no more. Let's start selling Muramasa. The starting price of this blade is ten million M Country dollars. If you like to collect blades, don't miss this opportunity." The host said with a smile.

Hearing the starting price, many people began to sigh. If ten million M Country dollars were changed into the currency of H Country, it would mean nearly 70 million. And if it was changed into the currency of R Country, it would mean more than a billion. It was shocking.

Most of the people present were rich. At least, they had assets that were worth 10 million M Country dollars. However, it was just the starting price of Muramasa. How much it would take to buy it was still unknown. However, after a little thought, anyone could guess that it would be as much as the value of all

assets of many people here.

However, there were many people who had much more money than this price. Therefore, many people seemed to itch to bid.

After the host told them the starting price, Watkins took a look at Casey again. Casey was calm. It seemed as if he was not shocked by the price. When Watkins noticed that, he put on a disdainful smile at once.

"Unexpectedly, you're quite good at acting. But it's just the beginning. When people begin to bid, the price will be higher and higher. At that time, I'll see if you can still pretend to be calm."

Watkins thought.

After the host said all those words, there were soon people who began to bid.

They all wanted to buy this blade.

In less than five minutes, the price of the blade became as high as thirty million M Country dollars.

At this time, some people began to stop bidding. It wasn't that they didn't want to buy this blade. It was that the price was too high and that they couldn't afford to buy it.

Watkins turned his head, looked at Casey and asked with a smile, "Isn't it that you want to buy this blade? Why don't you bid? Or is it that you can't afford to buy it?"

After saying that, Watkins raised a sign and shouted, "Thirty-five million M Country dollars!"

People present were all shocked. They all looked at Watkins and envied him deeply.

"As the young master of the Thompson

family, he's really rich! He just bids once, but he has increased five million M Country dollars! Ordinary people are unable to do that."

"Since Mr. Watkins begins to bid, it seems that we're all without hope today. No one here is richer than him."

"The price of the blade is nearly the same of the market value of our company. The Thompson family is so rich. Compared with the Thompson family, my family is too poor. It would be great to spend money like water."

...

After hearing what Watkins said, Casey twitched his lips. To bid at the beginning was a waste of time. Therefore, he didn't bid at that time. He just needed to bid when someone made the last bid. In this way, no one would bid against him. Now, seeing that Watkins began to bid, Casey also decided to bid.

He raised the sign and shouted, "Fifty million M Country dollars!"

People present were shocked once again. And they were much more surprised than before. Increasing five million M Country dollars at one time, Watkins had been generous enough. However, Casey increased 15 million M Country dollars at one time. They didn't know how to describe it.

Everyone was staring at Casey in disbelief. It was beyond their expectation that he would bid at this moment.

"Oh, my God. Is that guy out of his mind? He directly bids fifty million M Country dollars for the blade. It seems that he is determined to buy it!"

"Doesn't that guy come here to accompany Miss Thompson? We haven't even seen him before. Isn't him someone who tries to achieve success by depending on Miss Thompson? Why does he bid against Mr. Watkins? Could it be that we were wrong about him?"

"It seems that this guy is from a powerful family instead of a common family. His being able to sit in the first row should have nothing to do with the young master of the Thompson family and the young master of the Duncan family. Otherwise, he would not have bade against the young master of the Thompson family. Besides, he increases the price by 15 million M Country dollars at a time. He's so rich!"

"It's really shocking. Who will buy the blade at last, him or Mr. Watkins? According to my understanding of Mr. Watkins, I'm afraid that he won't give up easily."

...

At this moment, Watkins was also looking at Casey in disbelief. He had thought that Casey didn't bid because he couldn't afford to buy the blade. However, Casey shocked him a lot soon after he bade. He nearly didn't know what to do next.

But Watkins calmed down soon. Since this guy wanted to bid against him, he would just increase the price by a large amount of money. He had never seen anyone who was richer than him.

"Sixty million M Country dollars!"

Watkins shouted.

Then he looked at Casey with his eyes narrowed and said with a sneer, "You

want to bid against me, right? Let's see who will buy the blade at last."

Casey was speechless and gave Watkins a glance. He had made up his mind to buy this blade. With it, he could become much more powerful. For him, this blade was a priceless treasure.

Therefore, Casey would definitely buy it. If Watkins bade against him, he would be undoubtedly wasting his time.

After taking a cold look at Watkins, Casey said, "I hope that you still dare to bid later."

After saying that, Casey raised his sign and shouted,

"One hundred million M Country dollars!"

Chapter 845 I Can Afford to Pay a Higher Price for It

A sudden silence fell.

People present all suspected that they had misheard. For a moment, they didn't believe that Casey really increased the price to a hundred million M Country dollars.

The host was also shocked. As a result, he didn't ask if there was anyone who still wanted to bid for a long time.

"A...A hundred million M Country dollars.

This gentleman bade a hundred million M Country dollars for this blade. Is there anyone that still wants to bid?" After realizing what was going on, the host took a deep breath and shouted in a trembling voice.

A hundred million M Country dollars was completely more than what they had estimated. The blade would be sold at a premium.

"A hundred million M Country dollars? Is

he serious? Is a blade worth so much money?"

"Why do I feel that this guy just wants to bid against Mr. Watkins? Dose he increase the price to so high on purpose?"

"Could it be that this guy doesn't really want to buy the blade and that he is just trying to raise the price of the blade to deal for the purpose of dealing with Mr. Watkins?"

"If he's just trying to raise the price, he shouldn't do this. If Mr. Watkins doesn't bid, he will suffer a great loss."

...

Watkins was staring at Casey in disbelief. Then, he got angry. In his opinion, Casey was fooling him.

"Are you out of your mind? Do you know what a hundred million M Country dollars means?" Watkins shouted at Casey.

Casey smiled at him and spoke, "Why? Could it be that you dare not to bid now?"

Watkins hesitated for a moment. The Thompson family was rich, and a hundred million M Country dollars was just nothing for them. However, the property of the Thompson family was still under the control of Lowell. And Watkins just had only one tenth of the total assets of the Thompson family. He could afford to pay a hundred million M Country dollars. However, if Lowell knew that he spent a hundred million M Country dollars on buying a useless blade, he could break his legs.

Watkins was very unwilling to lose to Casey now. However, after careful

consideration, he didn't bid. If Casey was really just raising the price to deal with him, he would be fooled by Casey after he continued to bid.

"Humph, I know what you're thinking. You just want me to buy this blade at a high price, right? But I won't be fooled by you. I'll give up on this blade. You can just buy it."

"I have to remind you of one thing. There is a stipulation this time. If you bid at random and fail to pay for it, you'll be killed."

Watkins spoke to Casey in a malicious manner. In his opinion, Casey was just acting and he couldn't afford to pay for it at all.

Casey was not scared at all. He shrugged and said, "It's just a hundred million M Country dollars. I'm not poor and I can afford to pay for it."

Watkins thought that Casey was taunting him. He was boiling with rage. Therefore, he raised his sign and shouted, "A hundred...and one million M Country dollars!"

As the young master of the Thompson family, he couldn't stand being despised by others. Therefore, even just for the sake of his face, he must bid against Casey.

However, considering that he might really have to buy the blade, he didn't increase by too much money.

A cheer went up from the people present. They even stood up and clapped for what Watkins had done. After Casey had raised the price to a hundred million M Country dollars, Watkins still dared to bid. Only the

young master of the Thompson family would dare to do such a thing.

"As the young master of the Thompson family, he's really rich! He should be willing to spend more than a hundred million M Country dollars on only buying a blade. This is not what we ordinary people can understand." The people present all admired Watkins.

Hearing those remarks, Watkins wore a somber face. Only he himself knew that he bade just because he didn't want to lose to Casey. He was also reluctant to buy a blade with more than one hundred million M Country dollars.

Seeing that Watkins raised the price again, Casey raised his sign with a cold expression on his face in a leisurely manner, and said, "A hundred and fifty million M Country dollars."

When Watkins heard it, he just got up, pointed at Casey, and swore, "Fuck! You're fooling me, right? I'm not going to buy the blade. I don't believe that you can pay for it."

"Host, I suspect that he's deliberately making trouble. I require you to put him under your control. He just comes here to ruin the auction!" Watkins turned his head and looked at the host.

Everyone present was watching it dumbfounded. When Casey raised the price to a hundred million M Country dollars, they had been astonished enough. Now, when they heard that Casey raised the price to a hundred and fifty million M Country dollars, they were so shocked that their heartbeat quickened a lot.

These people usually participated in

various auctions, but it was the first time for them to come across someone who was as generous as Casey.

Therefore, most of them also thought that Casey was making trouble on purpose. After all, normal people would not increase the price by so much money at one time.

When the host heard what Watkins said, he didn't know what to do. Then, a person came to the host and spoke a few words in his ear. The host nodded at once. He looked at Casey in a more respectful way.

After that people got down from the stage, the host picked up the microphone, and said, "We've confirmed that this gentleman has enough money to pay. Therefore, he was not making trouble on purpose."

The bidding block was in uproar.

Watkins looked at Casey with a surprised expression on his face, and murmured, "You...You can afford to pay a hundred and fifty million M Country dollars?"

"Maybe you can continue to raise the price. I can afford to pay a higher price." Casey said.

Watkins swallowed his saliva. Just now, he had a hundred and one million M Country dollars for the blade merely on impulsive. Now, the price had been increased to a hundred and fifty million M Country dollars. He didn't dare to bid anymore.

"A hundred and fifty million M Country dollars. This gentleman bids a hundred and fifty million M Country dollars for the blade. Is there anyone who still wants to

bid?"

The host asked this question for three times. Then, as if he were worried that Casey would regret it, he struck the hammer for three times and made sure that Casey would buy Muramasa.

People present all cast admiring eyes at Casey. At the same time, they began to be curious about who Casey was.

Casey was able to bid against the young master of the Thompson family and was willing to spend a hundred and fifty million M Country dollars on buying a blade. Considering that, they all believed that Casey was not an ordinary person. At the very least, Casey, who seemed to be calm, was from a family that was much more powerful than the Thompson family.

Watkins came back to his seat with a frustrated face. He was not as good as Casey in fighting; besides, he was not as good as Casey in being rich. He had never anticipated that.

It was absolutely the biggest failure he had ever suffered.

Seeing that Watkins was frustrated, Annabel was very happy. Then, she added one word, "Watkins, don't be too sad. As a matter of fact, except the fact that Casey is better than you in fighting and that he's richer than you are, he's more handsome than you."

After saying that, she began to laugh.

Chapter 846 Visiting the Thompson Family

After making the payment, Casey successfully got Muramasa, the blade which was known as the best blade in R Country.

When he just took it, he found that it was cold. Casey found that the hairs on his body all stood up. Soon after that, he suddenly had a strong desire to kill someone and an impulse to take fight against other people with this blade. History and people's opinion could sometimes give something a special character. In the past many years, this blade was held by all kinds of people. And many stories about it were made up. Therefore, when people got this blade, they would unconsciously look at it in the same way as people did in the stories.

It could be said to be a psychological hint. Casey had this kind of feeling just because he had heard that the people holding this blade were likely to become a ruthless killer.

Of course, if this blade really had an influence on a person's will, Casey would not be able to explain it. That would be a mystical matter.

After he slipped his fingers on this blade, Casey clearly sensed the texture of this blade. In terms of merely quality, this blade could indeed be said to be among the best blades in the world.

He used XuanJin and passed it to the blade through his palm, after which the blade gave out a sound at once. It seemed to be quite mystical thing.

Both Annabel and Elsa watched it with a surprised expression on their faces.

They didn't expect that this legendary blade was really unordinary.

The staff workers were also startled by the sound given out by the blade. They had all heard about the stories about

Muramasa. However, during the many days when they kept this blade, nothing strange had ever happened. Now, as soon as Casey took hold of it, it should give out a sound.

It was scary enough that this blade could make a sound.

As a matter of fact, it was XuanJin that made it give out a sound, and it was impossible for this blade itself to do so.

"It's really good. Before I become a master in sublimation, it will be the medium for me to exert my power. I hope that you will not disappoint me."

Casey returned the blade to the sheath with a smile.

He didn't try how much power this blade, when covered with XuanJin, could exert in this place. After all, if he tore this building down, he would have to compensate for it.

They three went out of the bidding block. Having already bought what Casey wanted, they didn't want to see the items that had not been sold.

Just when they reached the door of the bidding block, Casey saw that Watkins was standing somewhere not far away from them.

The reason why Watkins was waiting here was that he wanted to know if Casey was really able to pay a hundred and fifty million M Country dollars.

When he saw Casey come out with Muramasa in his hand, his face darkened immediately.

Casey smiled at him, and asked, "Why do you wait here? Could it be that you want me to hit you with Muramasa?"

Watkins immediately sneered and said,

"Don't be triumphant. After all, Annabel is going to marry to the head of the Duncan family. When you took her away, you have offended the people of the Duncan family. Now, you're in our country. And you're no match for the Duncan family. I'm going to go to the Duncan's house and ask them to send someone to deal with you now!"

After saying that, Watkins was about to turn around and go to the Duncan's house.

Casey narrowed his eyes, and then rushed to Watkins in an instant. Then, he stretched out his hand, grabbed Watkins by the arm, and said with a smile, "Well, then, I can't let you go."

"What are you doing? Let me go!"

Watkins was immediately in a panic. He didn't anticipate that Casey would do that to him.

"Don't worry. Let's have a meal together. I'll send you back to your home."

As he spoke, while pulling Watkins, he got close to Annabel and Elsa.

The thugs, who came here with Watkins, had already known how powerful Casey was last night. So they dared not to go to save Watkins.

Annabel found that Casey was grabbing Watkins. Feeling confused, she asked, "Why do you catch him?"

"He's going to send messages to the people of the Duncan family. Once they know that you're with me now, my plan will be ruined." Casey explained.

"But we can't hold him for a long time. If we do that, it will be easier for my father to realize that something's wrong."

Annabel said.

"Therefore, after we have a meal, we'll visit your family. I'll talk to your father about it in person."

After saying that, Casey began to walk.

He was still grabbing Watkins.

Watkins was but a common person, and he had no ability to resist at all.

They went to a restaurant. On the way, Watkins had been shouting and trying to make trouble for Casey. After Casey used some tricks, Watkins stopped.

"It's meaningless for you to catch me.

The head of the Duncan family specially asks Annabel to marry him. When you do so, you're against the people of the Duncan family. Sooner or later, the people of the Duncan family will come to you." Watkins spoke to Casey in a threatening tone while eating noodles.

"Alas, stop speaking. If you speak again, I'll throw your food." Annabel glowered at Watkins.

Watkins hurriedly put the bowl under his protection. Then, he looked at Annabel and said, "I make so much effort to save you, but you should treat me in this way. You're so ungrateful."

Annabel twitched her lips and spoke, "I know why you did all that. If I don't marry to the head of the Duncan family, the people of the Duncan family will get angry. And you're just afraid that your property will be affected by it. How dare you say that I'm being ungrateful? Shame on you."

Seeing that they quarreled with each other, Casey put down his chopsticks and spoke, "Stop. Just eat. We'll make things clear after we're in your home."

Annabel sneered at once. After that, she

lowered her head and began to eat noodles.

Watkins was also angry. In his opinion, Annabel went too far. However, now, Annabel got support from Casey. So he didn't dare to say anything.

When Elsa watched it, she unconsciously put on a smile. She could feel one thing: Watkins and Annabel loved each other, though they didn't get along well with each other from an early age. This was the way in which most siblings in the world got along with each other.

However, Elsa had never quarreled with her brothers like that because her brothers really didn't regard her as a family member.

Therefore, Elsa was a little envious of Annabel.

After they had the meal, they all went to the Thompson's Villa together.

Led by Watkins and Annabel, Casey met the parents of Annabel successfully. In the living room of the Thompson's Villa.

Looking at Annabel, who had disappeared for two days, Lowell smashed the cup in his hand.

"How dare you come back home! Get the hell out of here. You're not good enough to be my daughter!"

Chapter 847 Intimidating Them

Annabel was very unhappy that her father snapped at her soon after she came back, so she shouted at Lowell, "I don't care. You marry me to a demon just for your benefits. You're not good enough to be my father!"

Seeing that Annabel dared to talk to him

in such a manner, Lowell wanted to beat her.

Annabel hid behind Casey at once.

Casey was with her. Therefore, she was sure that Lowell would not be able to hurt her.

Casey came here for the purpose of informing the people of the Thompson family of the real reason why the head of the Duncan family wanted to marry Annabel. Therefore, he certainly wouldn't let Lowell hit Annabel.

Lowell gave Casey a glance and asked, "Who are you? This is my family affair. Don't interfere with it. Get out of my way."

Before Casey could say a word, Watkins hurriedly spoke, "Dad, it's he that took Annabel away. Besides, he even beat me. Just now, he even forced me to stay with him. He wants to stop us from building connections with the Duncan family through the marriage of Annabel."

Hearing that, Lowell looked at Casey with a hint of hostility in his eyes, and said in a cold voice, "What do you think you are? You should dare to interfere with the affairs of my family!"

At this moment, Becky, Annabel's mother, found that Casey looked exactly the same as the person in the sketches in the room of Annabel. Therefore, she was immediately sure that Casey was the guy who Annabel missed day and night.

She immediately took a step forward, and spoke, "I know who he is. He's the fella who our daughter loves deeply. He's the reason why our daughter is unwilling to marry the head of the

Duncan family."

After hearing what she said, Annabel disliked Casey more. He directly said to Casey, "It's you that tempt my daughter, making her be unwilling to marry to the head of the Duncan family. Do you think you're eligible to be the husband of the young lady of the Thompson family? Listen, get the hell out of here now. And don't come to find my daughter anymore. Otherwise, I'll teach you a good lesson!"

Casey looked at Annabel's parents helplessly. Unexpectedly, he would be taunted soon after he came here. Watkins knew that Casey should be from a powerful family. However, when he saw that Casey was taught such a lesson by his parents, he was very happy.

"How can you make such a comment on him? It's not that he's not good enough to be my husband. It's that I'm not eligible to be his wife!" Annabel said angrily.

"Humph, you're really blinded by him. He's a poor guy from H Country. How is it possible that he's eligible to marry to the young lady of our family? I've seen too many such people. Even if I kill him now, what can he do?" Lowell said with a disdainful expression on his face.

Becky also stared at Casey with disdain in her eyes. Obviously, she looked down upon Casey because of her preconceived ideas.

Casey knew one thing very well: The best way to deal with the current situation was to let the parents of Annabel realize how stupid they were.

He gave Lowell a glance and said coldly, "You may have a try. I'm interested how you're going to kill me."

Seeing that Casey dared to provoke him, Lowell spoke at once, "Security guards! Catch this arrogant guy. Show him how good at fighting you are!"

Watkins hurriedly came to Lowell, and said, "Father, that guy is very good at fighting. I'm afraid that our security guards can't defeat him."

Lowell didn't believe him. He said, "He's but a fella in his twenties. He can't be too good at fighting. Our security guards have been trained for many years. They can certainly deal with him! After all, he's just an arrogant young man!"

As soon as he finished speaking, a group of strong security guards came rushing in from outside. They seemed to be good at fighting.

After coming in, they directly surrounded Casey and was about to attack him.

Casey drew Muramasa from the sheath and then covered the blade with XuanJin. After that, he narrowed his eyes and took a look at those security guards.

Lowell sneered and said, "Blades are just toys for children. Do you really think that you can defeat these security guards with a blade? It's ridiculous!"

Casey raised Muramasa. With a low sound, he moved the blade. Soon after that, a huge ray of light. The ray of light was about thirty meters long and fell on the front door of the villa.

The crystal lamp suspending from the ceiling was broken into two pieces. The iron door was broken into many pieces

in an instant. And there was even a deep crack in the marble floor, exposing the cement below.

People present had the feeling that the villa shook slightly. The security guards, who surrounded Casey, sat on the ground because of the force of that ray of light.

If those security guards were in the way of that ray of light, they would have been killed.

Just being affected by that ray of light, those security guards, who had been well trained, were so scared that they almost cried.

"It...It's too terrible. He's not a human being! It's really too terrible!" A security guard shouted while looking at Casey with a frightened expression on his face. Both Lowell and Becky were startled by Casey's sudden move. When they looked at the ruined living room, fear really engulfed both of them.

It was impossible for human beings to cause such a damage to the living room. Only god could do such a supernatural thing.

Watkins also stared at Casey in disbelief. He had known that Casey was powerful, but he didn't expect Casey to be so powerful.

"Is...Is that demon blade really so powerful? It should be able to make such a ray of light!" Watkins spoke in a trembling voice.

Except him, both Annabel and Elsa were scared a lot, though they had already known that Casey had been more powerful than ordinary people could imagine.

For a while, Annabel even suspected that Casey was actually a god.

Otherwise, how could he give such a blow?

Elsa was not as shocked as Annabel. After all, when they were in the Valley of Medicine God, she had already seen the faintly discernible palm Casey made. After Casey gave that blow, a sudden silence fell in the villa.

Casey was also looking at Muramasa in disbelief. He didn't anticipate that this blade could exert his power so well. Just now, he was just trying, but it should cause such great damage.

He turned his head, took a look at Lowell and Becky, and asked, "Now, can you listen to me?"

Chapter 848 We Are Going to Be a Family Soon

"Who...Who the hell are you? Why are you so powerful?" Lowell looked warily at Casey. Now, he had to take Casey seriously.

Casey returned Muramasa in the sheath and said slowly, "I'm Cass Davies, from B City, H Country. Maybe you can call me...the young master of Guanling."

When Casey said that he was the young master of Guanling, the people of the Thompson family, including Watkins, were all startled. So far, many powerful families or consortia in the world looked down upon Guanling. In their opinion, Guanling was just a high-end amusement park.

However, the people of the Thompson family knew clearly how powerful Guanling was. Guanling could use the

resources they had to destroy a world-class family like the Thompson family in

a very short time.

This was the reason why Annabel was so afraid of Guanling at that time.

Moreover, it was proved by the destruction of the Cunningham family.

At that time, Lowell had told Annabel and Watkins one thing: The least people they could offend were the people of Guanling. And it would be best if they could make friends with the people of Guanling.

In Lowell's view, Guanling was more powerful than the Duncan family.

They had also heard that it was the young master of Guanling who destroyed the Turner family.

Annabel had a very close relationship with Casey who was the young master of Guanling. However, knowing that Casey would never marry her, she didn't tell her family members about it.

Now, when they got to know the fact that the person their daughter loved was the young master of Guanling, they were shocked.

Watkins looked at Casey with complicated feelings. Now, he finally understood why Casey would spend a hundred and fifty million M Country dollars on buying a blade without hesitation.

He was the young master of Guanling! Considering that Guanling was so rich, 150 million M Country dollars might just be the pocket money Casey received.

Lowell and Becky also thought of many things. Lowell thought: Guanling was really extremely powerful. The young

master of Guanling should have mastered such mystical skills. If the people of Guanling had all mastered such skills, who could be match for Guanling in the world?

Becky thought: The people my daughter loved was not a guy with no money and no power. Instead, he was the young master of Guanling which was very powerful. This girl was so silly that she concealed this fact from them. If she had told them that she loved the young master of Guanling, how would they have forced her to marry the head of the Duncan family? Well, the young master of Guanling was really handsome. He was good enough to be my daughter's husband.

"So you come here to stop us from marrying Annabel to the head of the Duncan family?" Becky asked.

After some thought, Casey believed that what she said was not wrong.

Therefore, he nodded and said, "Yes."

Hearing that, Becky immediately looked at Casey as if he were the husband of Annabel. She said, "Oh, got it. It seems that we've got you wrong. Annabel didn't tell us who you are. Otherwise, we wouldn't treat you in that way."

"Don't just stand still. Since we're going to be a family, let's sit down and talk."

"You're from a powerful family. Besides, you're handsome and strong, Moreover, for the sake of Annabel, you're willing to be against the Duncan family and come here to stop us from marrying Annabel to the head of the Duncan family. From it, I can see that you really love my daughter. Therefore, if you really want to

marry Annabel, we'll support you, even if at the expense of breaking our promise to the people of the Duncan family."

Hearing what Becky said, people present were all dumbfounded. Just now, they were at daggers drawn. Now, according to Becky, they were going to be a family.

Lowell agreed with Becky. After all, if they could build connections with Guanling through marriage, they wouldn't have to be afraid of the Duncan family. Besides, Casey was young and powerful. He would be a much better husband than the head of the Duncan family.

Annabel blushed. She didn't expect that Becky would falsely believe that Casey specially came here to stop them from marrying her to the head of the Duncan family. For a while, she was so embarrassed that she wanted to disappear from the villa.

Casey was astonished. He was surprised that Becky would think of that. "You've probably got me wrong. I do want to stop you from marrying Annabel to the head of the Duncan family, but not for the reason you think. I'm trying to save her. That's because she has saved my life before. Moreover, the Duncan family have committed all sorts of wickedness, and I want to destroy it." Casey explained.

After hearing that, both Becky and Lowell were surprised. They believed that Annabel loved Casey very much. However, according to Casey, he just came here to pay a debt of gratitude, not to marry Annabel.

After hearing the explanation of Casey, Annabel was filled with a sense of loss. She had known that Casey would definitely not accept her love. However, when Casey explained things so clearly and completely denied that there was an affair between them, she was still a little sad.

This guy didn't love her at all.

"Don't say so. Annabel's beautiful. If you take a fancy to her, we will support you." Becky didn't want to miss the chance to build connections with Guanling.

"I'm sorry, but I'm married. Besides, I have a daughter. Therefore, I won't fall in love with anyone else other than my wife. Don't mention it again, please."

Casey said.

Becky was embarrassed. It was beyond her expectation that she would get such a response.

Seeing that the atmosphere was embarrassed, Lowell hurriedly moved to another topic. He asked, "Why did you claimed that the Duncan family has committed all sorts of wickedness? Is it because there is a conflict between Guanling and the Duncan family? Or is there any other reasons?"

Casey told the people of the Thompson family what evil things the people of the Duncan family had done without hesitation. Then, he explained to them the real reason why the head of the Duncan family wanted to marry Annabel.

After he said those words, he asked Elsa, a member of the Duncan family, to prove that what he said was true.

After hearing that, the people of the

Thompson family were all shocked. They didn't expect that the people of the Duncan family would secretly do such evil things.

Lowell knew the fact that the head of the Duncan family was practicing a secret skill to become more powerful. The people of the Duncan family called it Saints Kung Fu. Unexpectedly, it was so evil.

He turned his head, looked at Annabel, and felt guilty. It never occurred to him that he nearly put Annabel in a bad situation for the future of the Thompson family.

Becky was also very guilty. Both Lowell and Becky came to Annabel and apologized to her.

Annabel didn't blame them. After all, they were her parents. Besides, powerful families tended to build connections with other powerful families through marriage. Therefore, there was no need for her to blame her parents.

"I forgive you. However, when the property is distributed in the future, I want to have half of it. Otherwise, Watkins will always bully me. I can't bear it anymore." Annabel said angrily. Watkins was thinking about how to apologize to Casey and build a friendly relationship with him. When he heard what Annabel said, he was dumbfounded at once.

Watkins was thinking about how to apologize to Casey and build a friendly relationship with him. When he heard what Annabel said, he was dumbfounded at once.

Chapter 850 Become an Expert in Fighting in Sublimation before the Wedding Day

"So, am I trapped?" Casey laughed at himself sarcastically. After he heard what Becky said, he had the feeling that he was trapped. If he didn't happen to hear their conversation, he might really be trapped by Becky.

Annabel had also tried every means to get Casey. However, she was very innocent in nature. However, Becky, who was elder than Annabel, was different from her. She knew very well how to build a lasting relationship with a man. If Casey was not prepared in advance, it would be easy to be trapped by her.

At the same time, Casey finally found the reason why Annabel usually came up with those strange ideas. With such a mother, it was impossible for Annabel to be an innocent woman.

"Well, shall I stay here or leave here now? Compared with the people of the Duncan family, it's more difficult to deal with these women." Casey wondered. Just when he was thinking about whether he should live in the Thompson's Villa, Annabel spoke.

"Mom, if I followed your advice, Casey would never be able to get rid of me. However, that's not what I want. As a matter of fact, I just want him to love me. If I use this method, he'll only hate me. I don't want that to happen. Compared with becoming a person he hates, I'd rather not meet him in the future."

Annabel said with a serious expression on her face.

Then, she pushed the bag of medicine back to Becky and defined her position. Seeing that Annabel should refuse to follow her advice, Becky was astonished. Then, she continued to try to persuade Annabel, "Annabel, this is your only chance. If you miss it, it will be hard for you to find such a chance in the future."

"Stop. I won't do that to Casey. If I can't make him love me, it just means that I'm not good enough. I don't want him to consider me to be a bad woman who will do anything in order to achieve my goal."

After saying that, Annabel got up and took a deep breath. She was very relieved.

Casey, who was standing at the door, didn't expect that Annabel would make such a decision. Therefore, he formed a new opinion of her.

In fact, in his view, Annabel was a good woman. However, he had given all his love to Edith and therefore couldn't fall in love with any other woman.

Annabel met Casey too late.

Finding that Annabel was about to come out, Casey went downstairs with Muramasa at once.

After going out of the room, Annabel had the feeling that something was wrong. She said to herself, "Why did I have the feeling that someone was overhearing our conversation? Could it be that it's an illusion?"

...

In the Duncan's house.

In Malcom's room.

It was dark in the room. There were a few lighted candles, the color of which were strange. Beside it was an antique incense burner that was emitting a kind of fragrance that could affect people's spirit.

There was a table in the center of the room. On the table were all kinds of sacrificial offerings. It seemed that those things were being offered to something. Malcom was kneeling down in front of that table. With his eyes closed, he was murmuring something. He seemed to be holding a kind of ceremony.

After a long time, he opened his eyes, exhaled, and then spoke slowly, "What's the matter?"

A person was standing in the corner of the room. After hearing what Malcom spoke, that person immediately bowed to Malcom and said, "Our men found That Miss Elsa had been to Sakura Hotel and an auction. She's with the young lady of the Thompson family and a man in his twenties."

"We suspect that Miss Elsa has betrayed us."

Hearing that, Malcom sneered at once. He murmured, "Why, did she inform the people of the Thompson family of our affairs?"

"I'm not sure, but it's very possible that she has done so. Otherwise she should have come back home immediately after she came back to our country." That person answered.

Malcom sneered and said, "I didn't expect that that damn woman would betray us. She is indeed not as good as a dog. At least, a dog won't betray its owner."

"If you discovered it a few days ago, I would definitely bring her back. But there is no need for me to do that now. Even if she has told the truth to the people of the Thompson family, it doesn't matter. I don't need the young lady of the Thompson family anymore."

As he spoke, he took out a jade pendant from his pocket and watched it for a while. It was Soul Setting Jade, the thing Casey wanted to get from the Duncan family.

"Surprisingly, this jade pendant from H Country has a mystical effect. With it, I'm mentally and emotionally stable. Besides, it can help me get rid of my evil thoughts. With this Jade pendant, I don't need to sleep with a virgin to transfer my evil thoughts after I become a master in sublimation."

"So, it doesn't matter whether that damn woman will tell the truth to the people of the Thompson family."

After hearing that, that person said at once, "Yes, I got it!"

Malcom got up from the ground. After taking a look at a bowl in which there was something black, he said, "Now, everything is ready. And I've got this jade pendant. Therefore, I don't have to

wait anymore."

"Later, I'll begin to make progress. And it will take a few days. If I'm not wrong, I'll become a master in sublimation on the wedding day."

"Don't let anyone know it. And the wedding must be held as agreed. If the people of the Thompson family don't cooperate with us, teach them a good lesson. No matter what the people of the Thompson family think, the wedding must be held on wedding day."

"Besides, after I become an expert in fighting in sublimation, I will be greatly more powerful than I used to be. And the so-called experts in fighting in our country will no longer be match for me. I want every person in our country to know how powerful I am. Therefore, invite the most famous experts in fighting in our country to attend this wedding. At that time, I'll have a fight against them."

"After I kill those experts in fighting, everyone in our country will be submissive to our family!"

That person bowed to Malcom at once, and replied, "Yes!"

After saying those words, Malcom picked up that bowl. The black liquid in the bowl was very smelly. However, Malcom completely ignored it and drank it off.

After drinking that, Malcom hurriedly sat down on the ground and crossed his legs. A wisp of black smoke lingered around him. Black blood vessels appeared beside his eyes, looking terrifying.
