

The Peremptory Casey Davies

Chapter 852

You Don't Deserve to
Get It

After hearing what Casey said, the audience all got angry.

They all looked at Casey in disbelief. It was beyond their expectation that Casey would describe this lecture to be just so-so.

He was so bold that he dared to say those words in the presence of those four masters.

Although those four masters just gave a lecture just now, they were so powerful that people throughout R Country all knew them. If someone annoyed them, that people might be killed.

"You arrogant and ignorant young man should dare to say that the lecture given by masters is just so-so. What do you think you are? How dare you talk like that!"

"You're really reckless. Master just asked this problem out of modesty. You not only didn't praise him, but also said that the lecture was just so-so. You're looking for trouble."

"Fella, you're so funny. You're but an ignorant young man in in your twenties. How dare you say that the lecture is just so-so? You come here to make trouble, right? Don't you worry that masters will teach you a lesson in person later?"

...

Abbott, the master who asked Casey that question, was embarrassed. He didn't expect that he would get such an

answer.

As the most powerful experts in fighting in R Country, those four masters were bad-tempered. After staring at Casey for a moment, Abbott spoke in a cold voice, "Since you think that our lecture is just so-so, can you share your insights with us?"

"In fact, people in any sects in H Country have all known what you just talked about. In my opinion, you should visit H Country. When you're there, you'll have a new understanding of Shinobido." Casey said tonelessly. Hearing that, those four masters' expression all changed. At ordinary times, they four all believed that they were as powerful as the so-called Warriors in H Country. Now, Casey should say that any sects in H Country had already known what they talked about.

It was undoubtedly an insult to them.

"Unexpectedly, a young man like you should dare to be so arrogant.

Shinobido is as good as the martial arts of H Country. You should ask us to go to H Country to learn something. It's ridiculous." Abbott spoke.

"Fella, judging from the fact that you think so highly of martial arts of H Country, you should be from H Country. Have your elders come here? Why not ask them to have a fight against us? Then, you'll know if Shinobido is more powerful than the martial arts of H Country." Blair, one of the four masters, said to Casey with an unhappy expression on his face.

Casey twitched his lips. He disdained to

argue with such a short-sighted person. In his opinion, it would be a waste of time to fight against this kind of person.

"I'm sorry. You're even not able to defeat me, not to mention my elders."

Casey spoke while staring at Blair.

Blair was immediately furious, and shouted at Casey at once, "You arrogant young fella! If you think so highly of yourself, dare you have a fight against me?"

Blair was bad-tempered. When he heard what Casey said, he naturally lost temper.

"I'm not interested in doing that." Casey refused with only a few words. He was really not interested in fighting against these weak people.

Blair could do nothing with Casey. As an elder, it was not proper for him to casually attack Casey.

In the audience's opinion, Casey was so bold that he dared to provoke those four masters. Besides, he even refused to fight against Blair in an arrogant way. Everyone thought that he, as a young man who masters couldn't casually attack, was deliberately making trouble for those four masters.

"I know him. He's the guy who spent 150 million M Country dollars on buying Muramasa, the Demon Blade, at the auction that day. The blade he's holding in his arms is Muramasa!" Then, someone recognized Casey and shouted.

After hearing that, more people began to comment on Casey.

"It turns out that he's a rich bumpkin. It seems that he has nothing but money.

It's sad that he gets Muramasa."

"People like him is not eligible to get the best blade of our country! He's too bad. He's just got some money. He's not eligible to talk to masters!"

"Does he really believe that he's able to defeat four masters after he gets Muramasa? Ridiculous. It's really ridiculous!"

...

After hearing the remarks from the audience, those four masters all looked at the blade in Casey's arms with a hint of greed in their eyes.

They were all ninjas and they all used blade as weapon, so they were in need of good blade. Muramasa was the most famous blade in R Country, and they were naturally very interested in it. However, this blade had been kept by a collector. If they wanted it, they would have to pay for it. However, they didn't have so much money, though they were powerful. Therefore, they could only give up on it.

After knowing that the blade in Casey's arms was Muramasa, the Demon Blade, Blair immediately rolled his eyes and spoke to Casey, "Fella, you're too weak and you can't make full use of Muramasa. If you give Muramasa to me as a compensation, I'll forgive you. How about that?"

After hearing what Blair spoke, Casey twitched his lips at once. He didn't anticipate that this so-called master would have the gall to ask him to give the blade to him.

"You want this blade? You don't deserve to get it." Casey said coldly.

Blair didn't expect that Casey would give him such an answer. Hearing what Casey said, he got angry and was about to teach Casey a lesson.

And Casey had been ready to fight. However, before Blair attacked Casey, he was stopped by Abbott.

"Calm down. Didn't you understand that that guy was trying to anger you? After all, he's just a young man. If we, as elders, attack him, there will definitely be someone who say that we have bullied a young man in the future. As a result, our reputation will become ruined."

Abbott said.

Hearing that, Blair believed that he couldn't beat Casey. He could only sneered and gave Casey a murderous look.

Casey thought: These people thought too much. They should think that I was deliberately trying to anger them.

Those four masters were just experts in fighting in Grandmaster Circle, and there was no need for Casey to try to anger them.

"So you're not going to fight against me? If that's the case, I'll leave. Your lecture is so boring that I'm almost asleep."

Casey got up and took a look at those four masters.

Seeing that they were not going to do anything, Casey turned around and went towards the door.

Seeing that, Annabel, Elsa and Watkins hurriedly followed him. Other audience stayed in the Budokan and criticized Casey.

Chapter 854 How Powerful Malcom Was

When those four Shinobido Masters saw Malcom, they no longer cared about Casey, who they considered to be an arrogant and ignorant young man. Instead, they all turned their heads and stared at Malcom.

They were just masters in the advanced stage of Grandmaster Circle, so they couldn't feel the air of forcefulness Malcom gave out.

"You, the head of the Duncan family, is so influential. How dare we think nothing of you?" Abbott taunted him.

Malcom didn't care about it. He just smiled. After that, he said with a smile, "Thank you for attending my wedding.

Sit down, please. To celebrate the wedding, I'll have a fight against the so-called four Shinobido masters later. At

that time, you'll know whether the so-called Shinobido masters are really powerful not."

After hearing that, those four Shinobido masters were obviously unhappy. Being eager to teach Malcom a good lesson, they itched to fight against Malcom.

Among all the people present, Casey might be the only one who could find that Malcom was a dangerous person.

Malcom came here now and was going to challenge four the four Shinobido masters. It seemed that he had become a master in sublimation.

It was beyond Casey's expectation that Malcom really became an expert in fighting in sublimation in advance. It was totally different from what Elsa had told him.

The only possibility was that Malcom had found a new way to make progress,

otherwise he would not be able to become a master in sublimation before the wedding.

It seemingly to be the reason why the people of the Duncan family, who previously attached great importance to the wedding, suddenly paid little attention to it in the last few days.

However, Casey could find that Malcom was not in a stable state. Sometimes, he was an expert in fighting in sublimation. But sometimes, he was more like a master in the advanced stage of Grandmaster Circle.

It should be the shortcoming of making progress by practicing the evil skills.

Making progress by practicing evil skills was after all not as good as making progress by using proper methods.

Now, Malcom was a master in sublimation. However, he should be just as powerful as a master in half sublimation because his was not in a stable state.

But Casey would not know exactly how powerful Malcom was before he fought against other people.

Fortunately, those four so-called Shinobido masters would fight against Malcom today. When they fought against each other later, Casey would get to know exactly how powerful Malcom was.

He was not going to tell those four masters about how powerful Malcom was. The first reason was that he disliked them. The second reason was that those four masters would not believe him even if he told them about that.

Therefore, it would be better if he just watched Malcom teach those four masters a lesson. Then, Casey didn't have to do that himself.

Then, Malcom and Annabel went through procedures that were necessary in the wedding ceremony of R Country. After that, Malcom asked Annabel to find a place to sit. Then, he jumped onto the ring.

People present all looked at Malcom. Everyone realized that they were going to see the highlight of the wedding. Casey also fixed Malcom with a stare. Under the light of the moon, Casey suddenly noticed that Malcom was wearing a piece of jade pendant around his neck.

The shape and color of that piece of jade pendant were exactly the same as that of the Soul Setting Jade held by Casey.

Casey had thought that it would take him some time to find Soul Setting Jade after he defeated Malcom.

Unexpectedly, Malcom should bring Soul Setting Jade with him. It would save Casey some time.

"Could it be that it's this piece of Soul Setting Jade that enables him to become an expert in fighting in sublimation in advance?" Casey thought of a possibility. But it was meaningless for him to think about that at this moment.

As long as Casey went to the ring to kill Malcom and then got Soul Setting Jade, he would complete all what he needed to do here.

"You four masters, come to the ring.

Later, through the fight, I'll prove to everyone that you so-called Shinobido masters are nothing and that I'm the strongest person in R Country!"

With a smile, Malcom looked at those four masters with a deep contempt in his eyes.

After hearing that, Blair exploded with rage at once. Without saying a word, he went to the ring with a blade.

"It never occurred to me that you're so arrogant. I'll teach you a lesson. The Duncan family is but a secular family. How is it possible that your people can be as good as us?"

Blair drew the blade out of the sheath and was about to attack Malcom.

After giving him a glance, Malcom said, "If I just fight against one person at a time, it will take too long a time. You four people should fight against me together. I don't want to waste time."

After hearing that, Blair became angrier. In his opinion, Malcom was degrading him by saying so.

When Casey heard what Malcom said, he smiled. What Malcom was doing was a little similar to what he did when he challenged the Guwu Families.

It seemed the people all like to do something beyond other people's imagination after they became powerful enough. Only in this way could they show how powerful they were.

"You might not be able to defeat me alone, but you should ask the four of us to fight against you together. How dare you! I'm going to attack you now. Are you sure you are not going to get a weapon for yourself now?" Blair shouted

while staring at Malcom.

"I can defeat you without a weapon."

Malcom said coldly.

Blair no longer delayed. After sneering, he rushed towards Malcom at full speed.

"I'll teach you a lesson!"

With a loud shout, Blair raised his blade and then tried to chop the head of Malcom with the blade.

Malcom was calm. When Blair's blade was about to touch his head, he raised his hand and grabbed Blair's blade.

Everyone was startled. It surprised them a lot that Malcom would grab the blade with his bare hand. It was the least thing he should do in a fight.

However, the next second, all people were shocked. They saw that Malcom should successfully take hold of Blair's blade after a burst of black light came out of his palm.

Blair watched Malcom in disbelief. He said, "It's impossible. Why are your hands so strange? I feel as if I have chopped a ball of cotton."

Malcom smiled at him and said, "How is it possible that you, a piece of rubbish, can understand the power I have? Next, I'm going to attack you with a blade, too."

Soon after he finished speaking, people around saw Malcom break Blair's blade with one hand. Then, a ray of light in the shape of a blade appeared around Malcom's other hand. Then, Malcom stabbed Blair in the stomach with the ray of light.

Chapter 855 It Is Not Worth Showing Off

The black ray of light in Malcom's hand

moved so fast that Blair, who had been an expert in fighting in Grandmaster Circle, had no time to dodge. He instinctively widened his eyes. The next moment, he lost all his strength and began to be unconscious.

Malcom kicked Blair out of the ring as if he were dealing with a dog's body.

People present were all shocked by it.

Thinking that they were deceived by their eyes, many people even began to rub their eyes with their hands.

"Were I deceived by my eyes? The head of the Duncan family made a blade out of nothing?"

"I saw it, too. Oh, my God. Is it something human beings can achieve? Is it real?"

"It's the mystical skill developed by gods. In the past, my grandfather told me that there were gods in the world, but I didn't believe it at all. Just now, I saw the skill the head of the Duncan family used. Now, I have the feeling that what my grandfather said is true."

...

At this moment, the people of the Thompson family were looking seriously at Malcom. They had known that Malcom was powerful, but they didn't expect Malcom to be so powerful.

At the same time, they all turned their heads and took a look at Casey because they had seen Casey use mystical skills.

"Casey...Casey, is the head of the Duncan family as powerful as you? He...He should be able to make a blade out of nothing. Besides, the blade was so good." Watkins asked in a trembling

voice.

Casey was staring at Malcom with his eyes narrowed. When he heard the question from Watkins, he nodded and said, "He has indeed been a master in sublimation, but he is not as powerful as a master in sublimation should really be. It seems to have something to do with the evil skills he practiced."

Judging from the blow Malcom just made, Casey roughly got to know how powerful Malcom was. Malcom had really been an expert in fighting in sublimation, but he was much weaker than other masters in sublimation. In addition, he was not in a stable state. There were chances that Casey could defeat him.

Seeing that Malcom used mystical skills and defeated Blair with great ease, other three Shinobido masters became serious.

Abbott came to Blair and bent down to touch his neck, finding that he was dead.

Only then did the other three Shinobido masters realize that they were in great danger. The Duncan family's inviting them to come here was a conspiracy.

"The power Malcom has is strange. I'm afraid that he has been in that stage. If we fight one-on-one, we're definitely no match for him. Now, we can only fight against him together." Abbott turned his head, looked at other two masters and said with a solemn face.

Both of other two masters nodded. Their lives were in danger, so neither of them dared to insist on fighting against Malcom on his own.

They three all turned around and looked at Malcom. Then, led by Abbott, they jumped onto the ring.

Looking at them three, Malcom put on a playful smile and said, "Why, weren't you going to fight one-on-one? Why do you combine against me now? Now, don't you care about your face?"

Abbott sneered and spoke, "Malcom, don't be triumphant. The skill used by you is very evil. Presumably, you have been a devil. Now, we're going to defeat the devil. You had better give in!"

Malcom sneered at once. With a murderous look, he said, "You're but hypocritical old men. Do you have the ability to defeat the devil? Don't be anxious. You'll end up being killed by me, just like that guy. In my opinion, you so-called four Shinobido masters are nothing!"

As soon as he finished speaking, the ray of black light in the shape of a blade appeared in his hand again. His body was emitting a burst of black light. It was because he was making the power come out of his body.

The people present exclaimed again. Now, they were sure that what they saw before was true. Malcom could indeed use the means specific to gods. Seeing that, the three Shinobido masters became cautious. They hurriedly drew their blades out of sheaths and concentrated on the coming fight. Then, they quickly surrounded Malcom.

There was an essential difference between a master in the advanced stage in Grandmaster Circle and a

master in sublimation. Although Malcom was not as powerful as other masters in sublimation, the three Shinobido masters were not able to defeat him. They attacked Malcom with their long blades. In an instant, Malcom resisted their attack. He moved so fast that people could not see his moves. The people, who were watching, could only see the gleam of the blades and hear the sound made when blades struck. They could not see the moves of the people in the ring at all. Before long, people all found that a strong air of forcefulness appeared. Then, there appeared a faintly discernible huge black blade. Everyone were shivering and were a little breathless. The next moment, the faintly discernible blade moved towards those three Shinobido masters. Having not seen such a move before, their expression changed. And they all ran away as fast as they could. The ring was broken into two pieces by that blade. The three Shinobido masters were not touched by the faintly discernible blade. However, they were still hurt and fell to the ground. Abbott spat out blood. He found that his body was seriously injured. He was still alive, but he would not be able to fight against others anymore. Standing in the broken ring, Malcom looked coldly at the three Shinobido masters and taunted, "Could it be that you so-called four Shinobido masters are so weak? Didn't you always look down upon the people of my family?"

Now, I defeat all of you in one move. Do you think that it's ridiculous?"

After saying that, he looked at people present and said loudly, "I want to prove to you that I, the head of the Duncan family, am the most powerful person in R Country. And the so-called four Shinobido masters are nothing. If any of you is not convinced, you can come to the ring to challenge me now!"

After hearing that, people present were afraid. None of them dared to challenge Malcom.

The three Shinobido masters could only sigh helplessly. They knew very well that there was no one who might be able to defeat Malcom in R Country now.

Right at this moment, Casey got up. He had already roughly figured out how powerful Malcom was. The four Shinobido masters had been taught a lesson they deserved. Now, it was his turn.

"It's just the power you get by using evil methods. It's not worth showing off."

Chapter 856 Fight Against Malcom

Malcom was savoring the pleasure of people's in awe of him, and began to feel as if the world were under his control.

Just at this moment, Casey spoke in a calm voice. Malcom immediately lost that kind of feeling.

He cast his eyes at Casey and then narrowed his eyes. Before, the people of the Duncan family had reported to him about Casey. Therefore, he knew that Casey was from H Country and that Casey came here with Elsa.

The people of the Duncan family all believed one thing: The fact that Kennedy disappeared after he came to H Country had something to do with Casey. However, they all believed that Kennedy was killed by Casey's elders, instead of Casey. After all, Casey was too young.

They had no idea why Casey came to R Country with Elsa. However, considering that Casey had not done anything harmful to the Duncan family over the days and that Malcom had successfully become an expert in fighting in sublimation, they didn't take Casey seriously.

Malcom didn't expect that Casey would challenge him. In his opinion, Casey was looking for trouble for himself.

All the people present also turned their heads and cast their eyes to the people who just talked. When they found that it was Casey that talked just now, they were astonished.

Those, who disliked Casey because of what happened in Changping Budokan, was even more confused. However, their opinion was similar to that of Malcom. They all believed that Casey was looking for trouble for himself.

"Is that guy out of his mind? He should provoke the head of the Duncan family at such a moment. Didn't he see how powerful the head of the Duncan family is?"

"Could it be that this guy would provoke anyone he meets? Before, he provoked the four Shinobido masters. Now, he provokes the head of the Duncan family. He's always looking for trouble for

himself."

"I didn't expect him to be so ignorant. I hope that the head of the Duncan family will stab him with that blade, so that he won't dare to be so arrogant in the future."

...

The three Shinobido masters also could not understand why Casey would do so. However, they disliked Casey, so they were happy because they felt better after Casey attracted the attention of Malcom.

Casey got up and walked towards the ring. Then, he jumped onto the ring, which had already been broken into two pieces, and stood opposite Malcom.

Malcom gave Casey a glance and asked, "Are you from H Country?"

Casey nodded.

"Was Kennedy killed by you?" Malcom went on asking.

"Yes. Your people practice evil skills. Since I've seen it, I will certainly not let him off." Casey talked as if it were a trivial matter.

Malcom sneered at once and said, "Stop talking nonsense. Was it Elsa that told you those things? That's Saints Kung Fu. How could it be evil? You had better show some respect to it. Otherwise, you'll die in misery."

Casey twitched his lips and spoke, "Why, you don't dare to let others talk about that? Why are you so anxious? You're afraid, right?"

Malcom narrowed his eyes and said, "You should have seen my power. I've defeated the four Shinobido masters in our country. Do you think that you can

defeat me, young man?"

Casey laughed and said, "It's indeed impossible for them four to defeat you. But, I'm not as weak as they are."

Hearing that Casey made such an offensive remark to them, Abbott was unhappy. He said, "Fella, you're but a young man in your twenties. How dare you say that you're more powerful than we are. Do you think that you can be match for Malcom just because you're being reckless?"

"Humph, leave him alone. He's an ignorant guy. Before he's beaten up by someone, he won't realize that he is wrong." Another Shinobido master said with a sullen face.

After some thought, Abbott believed that he was right. It was a waste of time to talk to such a person. Therefore, he no longer talked to Casey.

After hearing what Casey said, Malcom asked, "That's to say, you want to challenge me?"

"I'm not going to challenge you. I'm just going to enforce justice. Besides, I would like to get the Jade pendant you're wearing. If you give it to me now, I'll let you die without much pain." Casey said tonelessly.

Malcom laughed and said, "You're going to enforce justice? It's the first time for me to meet such a bold person as you in my life. Well, I'll have a fight against you. I'll see how you're going to kill me!"

People around all looked at Casey with contempt. In their opinion, Casey was just boasting. Among the people present, only the people of the Thompson family believed that Casey

might be able to defeat Malcom. Malcom didn't delay. He made his force come out of his hand and turned it into the shape of a dagger. Then, he threw it at Casey's face.

Seeing this, people present all believed that Casey would be killed. They had all seen the power of the discernible blade Malcom just made. Although the discernible dagger was not as powerful as a discernible blade, it must be very powerful.

Casey took a look at the discernible dagger. Now, the only difference between him and Malcom was that he couldn't let XuanJin leave his body. It was impossible for Malcom to kill Casey with only this discernible dagger.

When the discernible dagger was close to Casey, Casey made XuanJin come out of his hand. Then, he raised his hand and grabbed the discernible dagger Malcom made.

Being attacked by XuanJin, the discernible dagger turned into a wisp of black smoke and then disappeared from the air.

Seeing that, Malcom was astonished. He exclaimed, "You're also a master in sublimation!"

The people present were as astonished as Malcom. They had all considered Casey to be a reckless young man.

However, when they saw the white light in Casey's palm, they realized that they had underestimated Casey.

When Abbott and other two Shinobido masters saw Casey resist the attack Malcom made easily, they were all stunned. Just now, if it were them three

who were attacked by Malcom with that discernible dagger, they would have killed before they could realize what had happened.

"This young man has entered that stage...How...How is it possible? He's only in his twenties." Abbott murmured to himself. He finally understood that Casey really disdained them and that they three were too ignorant.

Casey took hold of the handle of Muramasa and then drew it from the sheath. Looking at Malcom, he said, "Try your best to fight against me. Otherwise, you'll become the first person killed by me after I got this blade."

"Oh, it's not right for me to say so. Even if you try your best to fight against me, you'll still be killed."

Chapter 857 I Have Other Skills that Are More Powerful

After hearing what Casey said, Malcom put on a disdainful expression on his face at once.

Although he didn't know why Casey could become a master in sublimation in his twenties, he didn't believe that Casey was able to threaten his life. Besides, when he saw that Casey was holding a blade, he suspected that Casey was actually not a master in sublimation. After all, experts in fighting in sublimation didn't need to bring a weapon with them. When they needed to use a weapon, they could just turned their power into the shape of the weapon.

Malcom was a little contemptuous of Casey because of that.

"How dare you brag like that. You just resisted a blow I made, and you're still not eligible to talk to me like that. I'm stronger than you can imagine!"

Malcom shouted at Casey. Then, there were bursts of black light all over his body. And there were wisps of black smoke coming out from the top of his head, looking evil.

Casey used XuanJin and covered the blade with XuanJin. After that, the blade was covered by white light. Compared with that of Malcom, Casey's power seemed to be purer.

Seeing the change on Casey's blade, Malcom narrowed his eyes. It surprised him that Casey was really quite powerful.

He didn't delay and immediately turned his power into a black discernible blade. Then, the blade flew towards Casey at a high speed.

Soon, the black blade collided with Casey's blade. It was amazingly fast. People could only see a ray of black light intersect with a white light at an extremely high speed. They could only see the figure of Casey and Malcom once in a while.

Being affected by the aftermath of the power Casey and Malcom used, the people around were forced to move away from the ring.

It was a fight between two extremely powerful experts in fighting. The aftermath of their power could even seriously injured masters like Abbott, not to mention ordinary people.

They didn't want to be hurt by the aftermath, so they all moved away from

the ring.

Previously, the ring had been broken into two pieces. Now, when Casey and Malcom were fighting each other in a fierce way, the ring could not bear it any longer and broke into many pieces.

Besides, the ring was too small for them. Before long, they no longer just fought in the ring. They began to fight in the whole courtyard. People present were so scared that they hurriedly ran away from the courtyard in a way as if people who ran not fast enough would die.

"Is this the fight between real powerful experts in fighting? We claim ourselves to be masters, but we're not even one percent times as powerful as them.

We're ridiculous. What that young man said before was true, but we were still self-righteous. We're really in disgrace." Abbott said while shaking his head.

"They're so powerful. There should be people who are so powerful in the world. Could it be that the so-called gods are experts in fighting? They're more powerful than ordinary people can imagine, so ordinary people consider them to be gods." Looking at Casey and Malcom, Watkins thought of a possibility.

"You're obviously not a real expert in sublimation. Why are you so powerful?"

After attacking Casey with a blade, Malcom asked while staring at him.

"If you defeat me, I'll tell you!"

Casey answered. Then, he lifted up Muramasa. The blade suddenly shone brightly. Then, Casey hacked the head of Malcom. Then, a powerful giant

discernible blade moved towards Malcom.

Seeing that, Malcom immediately formed a huge curtain in front of him with all his power, which perfectly covered his body.

The discernible collided with the curtain. After that, an invisible wave dispersed and shattered the ring they stood on into small pieces.

The curtain broke, and the discernible blade disappeared from the air. After Casey and Malcom jumped onto the roof, Malcom threw a few black darts at Casey.

Casey raised his blade and hacked those darts into black smoke. Then, those darts disappeared from the air. Failing to hurt Casey with his tricks, Malcom became irritable.

"This damn guy. Where on earth is he? I've become an expert in fighting in sublimation, but I'm still unable to defeat him with some ease. Could it be that I have to use that method just to deal with him?" Malcom cursed.

Seeing that Malcom stood still, Casey understood that he was considering something. In the past, when Casey fought against Kennedy, he had seen Kennedy suddenly become much more powerful. Therefore, Casey knew that the people of the Duncan family, who practiced that kind of evil skills, could suddenly become much more powerful for a short period of time.

Now, Casey had to force Malcom to use that kind of skill. Only in that way could he get to know if he could kill Malcom on his own.

Without hesitation, Casey used his XuanJin and then passed it to Muramasa in a clever way. Casey held the blade with one hand. Then, he moved at full speed and began to use new moves with the blade. Soon, Casey got close to Malcom. Then, he gave out a loud shout and hacked Malcom.

"Tianxing sword technique!"

Then, many fine lights appeared around Muramasa and then flew towards Malcom at a high speed. If Malcom just stood still, he would be holed like a hive. Malcom's expression changed. He didn't expect that Casey could make such a powerful blow. In an instant, many small black blood vessels appeared beside his eyes. His eyes turned red. And there were even a few black terrifying lines on his forehead.

Soon after his appearance changed, a cloud of black smoke appeared around Malcom and wrapped him. The lights Casey threw collided with the black smoke in an instant. With a burst of explosions, Malcom moved backwards at once.

Tianxing sword technique was the swordsmanship transformed from Tianxing Blow by Casey. And it was the first time for Casey to know how powerful it was. It didn't occur to him that this move would be so powerful. He was even eager to know the power of the other two skills in using blade, which were transformed from two other powerful moves.

After making sure that all the fine lights had disappeared, Malcom made the

black smoke around him disappear. Then, he stared at Casey with a fierce look, speaking while gritting his teeth, "Young man, I've underestimated you. You're the first person who could force me to enter into the state of sanctification."

At this moment, Malcom didn't look like a human being. Looking at him, Casey twitched his lips and said, "It's obviously an evil skill, but you should name it as if it were a good skill. It's ridiculous!"

"I have other skills that are more powerful. Now, I'm going to try them on you now!"

Chapter 859 Got the Soul Setting
Jade

Seeing that the giant discernible blade was moving towards him with great force, Malcom was a little startled and then hurriedly threw the black ball of light at the discernible blade.

The black ball of light collided with the giant discernible blade. Soon after the collision, there was a burst of bright light. It was so bright that people who were watching the fight hurriedly closed their eyes.

Then, people present all heard a loud noise. Then, there was a loud noise made when a house collapsed.

A cloud of dust was raised from the ground, covering the house where Casey and Malcom stood.

Only then did people present dared to watch that house. However, the house was now covered by dust and therefore they could not see what was going on there at all.

Just now, they were shocked by the

fight between Casey and Malcom so much that they were still in shock at the moment.

"It's definitely the best fight I've ever seen in my life. There isn't any fight that is as wonderful as it is."

"They're so powerful. How did they do it? The discernible blade is so shocking and I'm in awe of it."

"Now, I believe that there really might be gods and ghosts in the world. The so-called gods and ghosts are just experts in fighting who are so powerful that we cannot imagine."

"Now, I just want to know who wins the fight. Is there anyone who volunteers to go to have a look?"

"Are you kidding? Anyone who goes to have a look might be killed."

...

Annabel stood at the front of the crowd, looking at the dust and feeling worried. At this moment, Elsa came to her and stopped beside her. Before, worrying that she might be found by the people of the Duncan family, Elsa didn't show up. After noticing that there was a fight here, she hurriedly came over.

When she saw that the Duncan's house was seriously damaged by Casey and Malcom during the fight, she was also startled. At the same time, she began to be worried about Casey.

Both Annabel and Elsa were looking anxiously at the dust and wanted to rush over to have a look at Casey.

"Casey, are you ok?"

"Are you ok?"

Annabel and Elsa almost shouted their thoughts at the same time. The next

second, both of them turned their heads and looked at each other.

Elsa was a little shy. Daring not to watch Annabel anymore, she hurriedly lowered her head.

Annabel thought: I was really right. Elsa did fall in love with Casey.

However, after another thought, she realized that all women would love such an excellent person as Casey.

Anyway, it was impossible for her to get Casey. It was good for her to have a friend who she could talk to about Casey.

"Look! Someone's coming out!"

After a long time, someone exclaimed.

People present all cast their eyes at that house.

A person was walking slowly towards them from the dust. Soon, people present were able to see that person clearly.

"It's Casey!" Watkins shouted.

Both Annabel and Elsa shivered. After they clearly saw that it was Casey that was coming out, they were much relieved.

Now, Casey was dressed in rags. There was some blood around the corner of his mouth. His face was covered with dust. He looked rather untidy.

He held Muramasa, which just exerted great power, with one hand, and dragged Malcom with another hand.

And he just walked towards people present in that way.

Compared with Casey, Malcom looked much more terrible.

His face was covered with blood.

Before, in order to resist the blow Casey

made, he gritted his teeth and used his power to the utmost. As a result, the black blood vessels on his face burst open.

And he had run out of strength.

Obviously, it was Casey that completely defeated Malcom in the fight just now.

Malcom's bones were all broken, and the blood vessels on his face burst open. As a result, he was dying. If Casey beat him one more time, he would be dead.

Soon, the dust over the house fell down to the ground. Then, people present saw that the house, on the roof of which Casey and Malcom fought against each other, had been cleaved in two. There was a huge gap in the house, which shocked people present.

No one had anticipated that the blow Casey just made would be so powerful. He should be able to cleave a house in two. It was really unthinkable.

Casey threw Malcom to the ground and then looked at the people present.

People who were glanced at by Casey were instantly in awe of Casey.

Therefore, many people unconsciously straightened up.

It was an extremely hard fight for Casey. If he hadn't taken that perfect pill and therefore got great power, it would be possible for him to lose the fight.

When the black ball of light collided with the discernible blade, Casey was also badly injured. However, because of the effect of the perfect pill, he was in a much better condition than Malcom.

He took out a small bottle from his pocket, poured out a few pills, and then

put them in his mouth.

He asked Collier to give him those pills before he left the Valley of Medicine God. By taking those pills, he could prevent himself from suffering from excessive energy cause by taking the perfect pills.

To avoiding doing something he shouldn't after taking the perfect pill, he specially asked Collier to give him those pills before leaving the Valley of Medicine God.

After taking those pills, Casey lowered his head and took a look at Malcom who was lying on the ground. Seeing that the Soul Setting Jade was wore around Malcom's neck, Casey directly bent down and pulled the Soul Setting Jade from his neck.

Casey observed it with great care. After making sure that it looked exactly the same as the one his teacher gave him, Casey put it into his pocket, and then breathed a long sigh of relief.

He finally achieved the purposes of his visit to R Country.

"You practiced evil skills and did many evil deeds in the past. I'm not a saint, but I also have my moral principles. Since you have been defeated by me, I'll kill you, so that you can no longer do any evil deeds."

Casey spoke while looking at Malcom, after which he trod on Malcom's chest and killed him.

People around all watched it with a serious expression on their faces. It never occurred to them that the head of the Duncan family, who was very powerful in R Country, would die in this

way.

On a big tree that was not far away, a senior citizen in a white robe was standing on a branch. He had white hair and white mustache, looking like an immortal. He was looking at Casey with a smile.

"He's a master in half sublimation. Interesting."

The senior citizen murmured to himself, after which he trod lightly on the branch. The branch moved slightly. Then, he disappeared from the tree.

Chapter 860 I Want to Be Your Student

The fight between Casey and Malcom shocked the whole R Country in a very short period of time. People who knew something about this fight all wondered at Casey's power.

Casey didn't conceal his identity from other people. After the fight, he told other people that he was a Warrior from H Country and that he had specially come to R Country to kill the evil people. In just a short time, the people in R Country all had a new understanding of the martial arts of H Country and understood how powerful the Warriors in H Country were. Even the senior officials in R Country were shocked by this matter, and specially ordered that no one should provoke the people of H Country in the future.

Casey came under heated discussion among the people in R Country. The fight between him and Malcom also became a legend that people in R Country talked about.

After killing Malcom, the first thing

Casey did was to find Elsa's mother for her.

Her mother had been locked up in a dungeon by the people of the Duncan family. She was only given a small amount of water and food that was barely enough to maintain her life. And the people of the Duncan family forced Elsa to listen to them with her life.

When her mother was taken out of the dungeon, Elsa shed tears and expressed her gratitude to Casey for countless times. She even knelt down and kowtowed to Casey.

Casey told her that this was what he should do. Elsa offered a lot of information to Casey, and Casey should rescued her mother in return.

Then, with the help of the people of the Thompson family, Casey caught all the people ranking high in the Duncan family. When he found that many of them had practiced evil skills, he destroyed the power they had and changed them into ordinary people.

After that, Casey asked the people of the Thompson family to deal with them. The death of Malcom had an influence on the Duncan family as a whole. Lowell was not a fool and naturally would not miss such a great opportunity.

Therefore, when the Duncan family was in turmoil, he got most property of the Duncan family. After that, the Thompson family took the place of the Duncan family and became the most powerful family in R Country.

When R Country was in turmoil because of the affair of the Duncan family, Casey was staying in the Thompson's Villa and

was troubled by two women who were in front of him.

In the living room of the Thompson's Villa.

Both Annabel and Elsa were standing in front of Casey and were staring at Casey with a sincere expression on their faces.

Casey was sitting on the sofa. He was speechless and helpless.

"I don't care. I want to be your student. You're so good at fighting, and I just want to learn from you. I really don't have other purposes." Annabel said as if she were telling the truth.

"Oh, my God. Stop it. I'm not a master myself. How can I teach you?" Casey spoke while looking at Annabel.

"You're so powerful. How is it possible that you're not a master? You said so just because you dislike me. If you don't accept me as your student, I'll go to H Country and talk to Edith about the days when we lived together. Although you didn't do anything, Edith will suspect you." Annabel glowered at Casey at once. She was not begging Casey to be her teacher. She was ordering Casey to do so.

Casey frowned. He didn't know how to deal with Annabel.

Elsa also said after taking a look at Casey, "I don't expect you to accept me as your student. I just hope to work as your maid. You have done me a great favor. I have fixed up my mother's life, and have decided that I'll serve as your maid in the future. My mother support it. So, please allow me to work as your maid."

Hearing that Elsa also wanted to be with him, Casey found it very troublesome. He said, "I don't need a maid. Besides, I've got a wife, and it's not good for me to always be with you."

"I know my identity, so I won't have designs on you. I just want to repay your kindness. If I can't do that, it'll trouble my conscience. Agree to my request, please."

After saying that, Elsa kneeled in front of Casey with a sincere expression on her face.

Seeing that, Annabel also hurriedly kneeled and said, "Accept me as your student, please. I'll definitely listen to you."

People in the room, such as Lowell and Becky, all watched it with a helpless expression, and didn't go to stop Annabel and Elsa.

Becky stared at Casey for a while and spoke, "Casey, what about agreeing to their requests? They're just two women, and they won't pose any threat to you. Besides, even if you agree to their requests, you won't lose anything."

After hearing what Becky spoke, Casey immediately thought that these two women would probably pose a huge threat to him. After all, Casey knew what Becky was thinking about. Unlike what she looked like, she was a scheming woman.

Moreover, after undergoing so many things, Casey had found one thing: Compared with those powerful experts in fighting, it was more difficult to deal with women, because he couldn't do anything with them at all in many cases.

Seeing that both Annabel and Elsa kneeled in front of Casey, Watkins rolled his eyes and then got close to Casey and knelt down.

"Casey, since they two have made requests to you, I also want to make a request to you. I really want to learn martial arts from you. Compared with them, I'm the one who don't have designs on you." Watkins said.

After he said those words, Casey glowered at him. Annabel and Elsa also looked angrily at him. It seemed that they two wanted to beat him up.

"Watkins, what do you mean by saying that you're the person who don't have designs on him? Could it be that we have designs on him?" Annabel shouted at Watkins.

"Mr. Watkins, don't slander us, please. I just want to repay his kindness by serving as a maid. How is it possible that I have designs on him?" Elsa also scolded Watkins.

"If you make trouble for me again, I'll stab you with my blade now." Casey spoke coldly while looking at Watkins. Seeing that those three people were so mad at him, Watkins hurriedly got up and muttered, "Well, it's my fault. I don't want to be your student anymore. And you two can continue now."

Casey turned his head and looked at Annabel and Elsa. He said, "Get up. I want neither a student nor a maid. I appreciate your kindness, but that's enough. Since I've achieved my purposes of visiting here, it's time for me to go home."

After hearing that, Annabel and Elsa

became anxious.

"I don't care. Anyhow, if you don't accept me as your student, I won't get up."

"Me, too. If you don't let me serve as your maid, I won't get up."

When Casey was thinking about how to deal with it, a laughter came from somewhere.

"It's fun. They are so cute and beautiful, but you don't want them. You're too cruel."

Then, people present watched a senior citizen in a white robe come to the door. Both his hair and his mustache were white.

Chapter 861 The Lord of the Pantheon

Casey cast his eyes at that senior citizen and then narrowed his eyes at once. He didn't find that there was any air of forcefulness around this senior citizen. He looked as if he were an ordinary person and as if he could pose no threat to others at all.

However, Casey had a vague intuition that this senior citizen was a dangerous person.

Casey knew one thing very well: If an ordinary person looked like a common person, then he or she was really a common person; however, if someone who didn't seem to be an ordinary person looked like a common person, then he or she was highly likely to be a real expert in fighting.

Casey would definitely not believe that this senior citizen was an ordinary person.

He unconsciously took Muramasa in case any thing might occur.

Other people such as Lowell also looked at this uninvited senior citizen with a puzzled expression on their faces. They were really confused. Obviously, this person didn't know the people of the Thompson family.

Besides, he spoke in the language of H Country. Casey soon realized that person came here for him.

"Who are you?" Casey asked while staring at the senior citizen.

The senior citizen fixed Casey with a stare, and said with a smile, "The Pantheon."

Hearing what he said, Casey realized something. He speculated that this senior citizen was probably sent by the people of the Pantheon to persuade him to join the Pantheon.

He rolled his eyes and then took Muramasa. He spoke, "I didn't expect that you will hunt down me even after I come to this place. It's not a proper place to fight here. Let's go outside to have a fight!"

After saying that, Casey rushed out at full speed.

Both Annabel and Elsa watch Casey disappear in an instant in a daze. They felt that it was an excuse Casey found for run away from them.

Not understanding what was going on, the senior citizen was also stunned.

Never had they hunted down Casey in the past.

However, after Casey rushed out, he left the villa without hesitation.

The people of the Thompson family also hurriedly went out of the villa to see what was going on.

However, when they were out of the villa, they saw neither the senior citizen nor Casey. They had no idea where they had gone.

The reason why Casey shouted those words was naturally not that he wanted to fight against the senior citizen. As a matter of fact, it was the excuse he found for running away from Annabel and Elsa.

"That senior citizen seems to be powerful. We should find them as soon as possible. I'm afraid that Casey would be hurt." Elsa said with an anxious expression on her face.

"But...I have the intuition that Casey deliberately did that to run away from us." Annabel, who had a certain understanding of Casey, murmured. Hearing that, Elsa no longer spoke.

...

In an alley where there was no one else, Casey looked around carefully. After making sure that neither Annabel nor Elsa had come here, he was secretly relieved.

He turned around, and saw that the senior citizen was looking at him from somewhere that was not far away.

"Never have we sent someone to hunt you down. I'm afraid that there is some misunderstanding between us." The senior citizen said.

Casey smiled and saluted the senior citizen. Then, he explained, "I'm very sorry. The reason why I said those words was actually that I wanted to find an excuse to run away from the Thompson's Villa. It was too difficult to deal with those two women, so I could

only use that trick."

Hearing that, the senior citizen immediately laughed. He spoke, "I didn't expect you, as a master in half sublimation, would be afraid of two women. It's really surprising."

Casey ignored what he said, and asked, "May I know who you are? Why do you come to me?"

The senior citizen became serious, and said, "I'm Thomas, the Lord of the Pantheon. My people had come to you before, but you refused our request. I come here to do some things, and happen to watch the fight against you and the head of the Duncan family. Therefore, I come to meet you."

After hearing that, Casey was startled. He didn't expect this senior citizen to be the Lord of the Pantheon. After getting to know that, he became alert.

According to his master, the Pantheon was the largest and the most mysterious organization in H Country, and even in the world. And this senior citizen was the Lord of the Pantheon. So Casey was sure that he was at least a master in sublimation. Besides, Casey had the intuition that this senior citizen was a dangerous person. It meant that this senior citizen was a top expert in fighting even among masters in sublimation.

"You, the Lord of the Pantheon should come to meet me in person. I'm really flattered." Casey said.

Thomas smiled and said, "I'd like to have a talk with you. What about finding a place to sit down first?"

Casey nodded and agreed.

He had already got two of the three pieces of the Soul Setting Jade. The only piece that he didn't get was held by the people of the Pantheon. Besides, in the past, his teacher had told him that becoming a member of the Pantheon would not do him any harm. Therefore, meeting the Lord of the Pantheon was a chance for Casey. If he missed this opportunity, he might find it difficult to find the people of the Pantheon in the future.

"Can I deal with my affairs before finding a place to sit down and having a talk with you?" Casey asked.

Thomas smiled and said, "Yes, of course."

In the Thompson's Villa. Both Annabel and Elsa were walking back and forth in the living room with an anxious expression on their faces.

Seeing that, Lowell said, "Sit down and have some rest. It's meaningless for you to be so anxious. Moreover, Casey's very powerful, and he is absolutely safe."

"Alas, I'm not worrying about his safety. I'm just afraid that he will take the opportunity to run away." Annabel said. Lowell was immediately speechless. He did not know what to say now.

Just then, a person rushed in from outside with a piece of paper in his hand. He said, "Just now, someone threw into the house a stone wrapped by this piece of paper. It should be written in the character of H Country, and I don't know its meaning."

After hearing that, Annabel hurriedly approached that person and took that

piece of paper. She looked carefully at it and then put on an angry expression. This piece of paper was naturally from Casey. According to it, Casey had killed the person who hunt him down. However, that organization was very powerful, and there were still a lot of people who wanted to kill him. Casey had to concentrate on dealing with them, so he left first. According to Casey, Annabel and Elsa should stay at the Thompson's Villa and should not go to find him, otherwise they would be in great danger.

"Damn Casey, he just wants to get rid of us. That old man doesn't look like someone who is hunting him down at all. He's obviously acting and fooling us!" Annabel said angrily.

Elsa also looked at that piece of paper. After that, she mumbled to herself, "So he leaves us behind and goes home?"

Chapter 862 The Reason

In an Eastern restaurant.

Both Casey and Thomas were sitting at a table in a corner. There were a few cold dishes and a pot of tea on the table.

Casey took a look at Thomas and asked, "May I know what you want to talk about?"

As the Lord of the Pantheon, Thomas didn't put on airs at all. Although he was a powerful expert in fighting, he was nice to Casey, as if he were an ordinary kind senior citizen.

He ate a mouthful of food, and then asked, "How much do you think you know about this world?"

Thomas asked such a profound

question soon after they began to talk, so Casey didn't know how to answer for a while. But he did have thought about similar questions recently.

Since he got to know something about sublimation, he had realized that the world was more complicated than he had thought. It was just like a river. On the surface, it seemed to be calm.

However, there were actually hidden drifts that Casey couldn't imagine.

Take the evil skills the people of the Duncan family practiced as an example. If it were in the past, Casey would only care about the development of the company and it would be impossible for him to think about the evil skills.

"I don't know much about this world. How much do you know about this world?" Casey asked.

Thomas smiled and said, "You have been a master in half sublimation, and the skills you master are so powerful that ordinary people will consider them to be specific to gods. Therefore, you should have realized that the world is far more complicated than you have thought before."

"As a matter of fact, there are many people who are practicing evil skills in the world, just like the people of the Duncan family. There are even some people who have mastered mystical skills and some wonderful tricks that you can't even imagine."

"For people who have this kind of power, they easily could cause a tremendous impact on the secular society. Take the head of the Duncan family as an example. If he had intended

to harm ordinary people with this kind of power, he will bring a great disaster to the secular world."

"And we, people of the Pantheon, aim at maintaining the order of the world. If anyone does something bad with this kind of extraordinary power, we will take action."

Hearing that, Casey nodded. He finally understood why Executor was a subordinate organization of the Pantheon. Executors dealt with the matters related to the inner force experts while the people of the Pantheon handled the matters involving masters who were at least in Grandmaster Circle and people who had mastered mystical skills.

"Take an example of the fight between you and the head of the Duncan family. In the fight, the power you two exerted has been far beyond the imagination of ordinary people. When such a thing happens, we will guide the public and make them believe that it's just a special visual effect made by someone, so that we can cover the fact that there are such powerful people in the world. It's impossible to explain such a fact."

"If there are some people who have watched you attack the head of the Duncan family with the discernible blade you made with your power, other people won't believe them after they are guided by us. And as a result, those people will have doubts about what they saw themselves. We can do this without being noticed."

"Therefore, there are always all kinds of legends in the secular society. When

these legends are spread, they become more and more outrageous. Certainly, some people firmly believe that they have seen ghosts or Immortals. And some people will even spend their lives on trying to find the truth. However, there are only a few of them, and they won't have an impact on the public's opinion."

"This world is far more dangerous than you have thought. It seems to be in peace, but there are great risks behind it."

After hearing what he said, Casey nodded to show his approval, and then asked, "So do you come to me because you want to ask me to be a member of the Pantheon and maintain the order of the world?"

Thomas smiled and said, "We'll indeed invite anyone who is powerful and has potential to join us. After all, people who are stronger are supposed to bear greater responsibilities. And we'll provide them with better conditions for making progress in return. We're just helping each other."

"However, I don't ask you to join the Pantheon for that purpose. I have another reason for it."

Casey was stunned and asked, "What's that?"

"Now, you're just a master in half sublimation, not in sublimation. Therefore, I guess you have no idea that there are three stages in sublimation. They're initial stage, medium stage, and advanced stage. When you enter a new stage, it means that you've become much more powerful."

"To become more powerful, Malcom, the one you killed, even practiced evil skills. However, he barely entered the initial stage of sublimation. Although you, as a master in half sublimation, could kill him, you actually could not be said to be really powerful."

"And, there is a higher stage than sublimation. Many people are eager to look forward to enter into that stage. We call it Unrealm."

"Unrealm!" Casey was shocked. It never occurred to him that there would be a higher stage than sublimation. Besides, it should be called Unrealm. Could it be that people would become Immortals after becoming a master in Unrealm?

Seeing through what Casey was thinking about, Thomas smiled and said, "The Unrealm has nothing to do with the Immortals in legends. It's called Unrealm merely because the powers of masters in this stage are too mystical and supernatural. You can even say that that they're gods."

"Besides, so far no one has ever entered this stage."

Casey was a little puzzled. If no one had entered that stage, why would Thomas know that there was a higher stage than sublimation?

Casey didn't hesitate and just asked this question.

After hearing that, Thomas said with a smile, "It's the secret of the Pantheon. If you're willing to be a member of the Pantheon, you will get a chance to know it in the future."

Casey was a little speechless. He felt bad. Thomas's refusing to answer his

question was just like someone's refusing to tell Casey how to become an immortal after telling Casey that he had known how to.

However, after hearing what Thomas said, Casey had a new understanding of his power. It turned out that there were three stages of sublimation. And there should be a higher stage than sublimation.

It made Casey, who had thought that he was powerful enough before, think that he was actually very weak.

Besides, because of the fact that there were other mystical skills that Casey knew nothing about other than martial arts in the world, Casey realized that the world was far more dangerous than he had thought.

For example, Edith was free from all kinds of poisons forever and got a perfect body just because she had eaten a piece of wood. It definitely had nothing to do with martial arts.

Since there was something that could make people's body become perfect, there must be something that could kill people without being noticed.

"Does it have anything to do with the reason why you come to find me?"

Casey asked.

"You're only in your twenties now, but you've been a master in half sublimation. Among the people I've ever seen, you're the only one who can do that. I've seen many extremely gifted people, but none of them can be a master in sublimation in his or her twenties."

"Therefore, I believe that you're the one

who is most likely to be a master in Unrealm."

"And that's the reason why I come to you."

Chapter 863 I Am More than a Hundred and Fifty Years Old

After knowing the reason why Thomas came to him, Casey was a little embarrassed. Thomas should come to ask him to join the Pantheon just because Thomas believed that he could enter the stage that no one had ever entered before. It made Casey have a feeling that he was being fooled.

"I'm afraid that you've overestimated me. I'm just a little more gifted than others. If there have never been anyone who could enter Unrealm, I'm afraid that I won't be able to do that, either." Casey said.

He was not going to tell Thomas that he had mastered XuanJin. In the past, his teacher had warned him that XuanJin was related to many things and that he mustn't tell anyone about it when it was not very necessary to. Thomas was the Lord of the Pantheon and was very powerful. If Thomas got to know that he had XuanJin, something bad might happen.

Even if it was necessary for him to inform Thomas of that, he would not tell Thomas before he had a good understanding of the Pantheon.

"You should have known my age. I'm more than 150 years old now. Although I'm powerful, I'll die in the next few decades. I have to find a Lord for the Pantheon before I die. You have a good character and are extremely gifted, so

you're the best candidate." Thomas went on speaking.

Before, Casey just picked up the cup and took a sip. When he heard what Thomas said, he almost spat out the tea.

He took a close look at Thomas. In his opinion, Thomas was just about sixty or seventy years old. But he claimed that he had been more than 150 years old! In Casey's mind, a person who was more than 100 years old should have lost the ability to move.

Besides, Thomas was sure that he would pass away in a few decades. Could it be that he thought that he should have a 200-year lifespan?

"If you didn't tell me that you're more than 150 years old, I would not be able to find it. You look really young." Casey said.

Thomas smiled and said, "The stronger a person is, the longer he or she lives. It's not rare for people to live so long. If you can become a master in Unrealm, you will definitely live longer than I do." Feeling curious, Casey asked, "May I ask which stage you're in now?"

According to Casey's speculation, this senior citizen, as the Lord of the Pantheon, must be very powerful. He guessed that this senior citizen might be a master in the advanced stage of sublimation.

Thomas smiled at Casey and spoke, "If I make some progress, I'll be a master in Unrealm. However, I can only go so far. I won't be able to be a master in Unrealm."

Casey's eyes widened immediately. It

was beyond his expectation Thomas should be close to being a master in Unrealm. After knowing that, Casey couldn't help wondering if this senior citizen could kill him with mere a blow. "I'm running out of time. Moreover, the Pantheon is now facing a trouble that concerns the world. Coming to you is part of the preparation I make for this trouble." Thomas went on speaking.

"What's that?" Casey asked.

"It's not the time to inform you of that. When the time is ripe, you'll naturally know that. Now, you should become a member of the Pantheon and receive the Pantheon's training, so that you can play a role in the future when the Pantheon is in need of you. The world is facing a crisis, and you're the one who can save the world." Thomas said.

Casey shrugged and said, "I'm willing to join the Pantheon, but I'm afraid that I can't save the world."

Thomas was very happy that Casey was willing to join the Pantheon. No matter whether Casey was willing to be the Lord of the Pantheon in the future or not, and no matter whether Casey was willing to deal with that trouble in the future or not, as long as Casey joined the Pantheon, there was hope.

He had thought that it would take him a great effort to persuade Casey to join the Pantheon. To his surprise, Casey agreed so soon. It seemed that what he said was of some use.

However, Casey knew clearly that the reason why he joined the Pantheon was that he wanted to get the third the Soul Setting Jade and that he wanted to learn

about the secrets of the world.

He could not just ask Thomas to give him the Soul Setting Jade. Therefore, he had to join the Pantheon and found a chance to get the Soul Setting Jade in the future.

"It doesn't matter. I just want you to be a member of the Pantheon. In the future, you'll understand what I mean. When you get to know what that trouble is, you will take the initiative to deal with it, even if I don't ask you to." Thomas said.

So, after a brief talk, Casey became a member of the Pantheon. And the procedures would be done after he was back to H Country.

According to Thomas, he still had something to do, and Casey could go back to H Country alone or follow Thomas to there.

Casey was curious about Thomas who had lived for more than 150 years, so he decided to follow Thomas to there and see what Thomas came to R Country for.

Thomas didn't say anything more. After having a meal, they hurried to the suburb of T City.

On the way, Casey asked Thomas what he was going to do, and Thomas told him that he was going to ask one of his old friends to give him something.

As Thomas's friend, that person was highly likely to be a master in fighting. Maybe that person would be a master in fighting in sublimation. Thinking of that, Casey realized that he did have become more powerful than he was before. In the past, he did not know anything about sublimation; now, he frequently came

into contact with experts in fighting in sublimation.

At many times, if people didn't reach a certain level, he or she would not know something of higher level.

For example, when Casey was an inner force expert in initial stage, he thought that masters in Grandmaster Circle were legendary people and that there were few of them. However, when he became an expert in fighting in Grandmaster Circle, he got to know sublimation and therefore no longer considered masters in Grandmaster Circle to be powerful.

After a long time, they arrived at the outskirts of T City and then came to the foot of a mountain where a lot of people lived. It was a small scenic spot and it was quite popular. Many visitors were climbing the mountain.

"Are we going to climb the mountain?" Casey asked.

"Wait here. There should be someone who will come here to meet us. This old friend is elusive. I just know that he lives in this area, but I don't know the exact address. But he has said that he will send someone to meet me here." Casey answered.

Casey nodded and didn't say anything else.

He lowered his head and observed Muramasa. Now, he was eager to become an expert in fighting in sublimation. After all, when he was on a journey, it was a little troublesome for him to take a blade with him.

Different from him, masters in sublimation didn't need to bring a weapon with them and could make a

weapon with their strength at any time.
Before long, someone spoke from
behind them.

"Hey, old man, are you Thomas?"

Both Casey and Thomas turned around.

They saw that a young woman in
orange clothes was staring at them with
her eyes wide open from somewhere
that was not far away.

Chapter 864 Can I Play with Your Smart
Phone for a While

"Yes, I'm Thomas." Thomas smiled at the
young woman.

"My teacher asks me to pick you up. Come
with me." The young woman spoke to
Thomas.

Thomas nodded and walked towards the
young woman.

Seeing that, Casey caught up with him.

The young woman took a look at Casey with
some curiosity, and asked, "Is this guy your
student?"

Thomas took a look at Casey. He didn't
bother to explain, so he just said, "You can
say so."

Casey didn't bother to explain, either.

Therefore, he didn't say anything.

The young woman came to Casey and then
spoke to Thomas, "You go to that mountain
first. A moment later, you'll see a path. And
you just need to walk along the path. I'm
going to ask him a few questions."

Thomas didn't mind it, and continued his
way.

Casey took a look at the young woman. Not
knowing what she wanted to ask, Casey was
a little confused.

As they walked, the young woman asked
furtively in Casey's ear, "Hey, man, do you
have a smart phone?"

Casey nodded.

"Then, can I play with your cell phone for a while?" The young woman asked.

Casey had no idea what she was going to do with his cell phone. However, considering that he only made phone calls with his cell phone and that there was not anything that he could not let others see, he took out his cell phone and handed it to the young woman.

After taking his cell phone, the young woman immediately began to look for something in Casey's cell phone. After a long time, she gave it back to Casey with a disappointed face.

"This is quite rare. There isn't anything in your cell phone. My Senior Brother told me that there is that kind of thing in the cell phone of every man. Why didn't I find that in your cell phone?" The young woman said as if she were questioning Casey.

Casey asked with a confused expression on his face, "What?"

The young woman took a look at Thomas, who was walking in front of them, and then whispered to Casey, "That kind of video."

"What video?" Casey, who didn't understand women at all, certainly didn't understand what the young woman meant.

Seeing that Casey didn't get it, the young woman was a little speechless. She said, "The kind of video in which people fight against each other without any clothes on."

Casey became even puzzled, and asked, "Why should they fight against each other without any clothes? Under such a circumstance, how can they fight?"

Hearing that, the young woman was shocked a lot. She looked at Casey with her eyes wide open as if Casey were a strange person.

This guy didn't know what she was talking about!

She lived in the mountains in isolation and without the internet, so she was out of date.

To her surprise, Casey was even more out-of-date than she was. He even couldn't

understand such blunt words.

Thomas, who was walking in front of them, put on a playful smile. Obviously, he had heard the conversation between Casey and that young woman.

Although Thomas had been more than 150 years old, he kept up with the times.

Therefore, even he understood what the young woman was talking about. It was beyond his expectation that Casey should fail to understand it.

"Are you pretending that you don't know what I'm talking about? Are you playing the fool?" The young woman asked while staring at Casey.

Casey was puzzled. He didn't understand why the young woman would say that he was playing the fool.

"Well, forget it. You're really boring.

Previously, I thought that you had a good understanding of that. Unexpectedly, you know nothing about that. It seems that I'll have to come to Senior Brother and borrow his tablet computer to watch the video." The young woman muttered.

After that, she walked fast and no longer talked to Casey.

The young woman was named Nora Bates.

She was the student of Thomas's friend.

Because of her personality, Nora was quite open among the women.

However, she was just open in terms of her mind. Although she was extremely curious about sex and the bodies of men, she, as a

woman in her twenties, was still a virgin. It was really amazing.

She learned from her Senior Brother that there were blue movies in the cell phones of every man. Therefore, when she met with Casey, she wanted to play with his cell phone and see if there was any blue movie. She had been a little interested in blue movies after she accidentally glanced at a blue movie playing on her Senior Brother's tablet computer in the past. However, at that time, she blushed and her heartbeat quickened after she merely taking a look at it. So she didn't watch that movie. And she regretted it.

After that, she tried to borrow the tablet computer from her Senior Brother to watch that movie. However, worrying that she would do something inappropriate after getting the tablet computer, her Senior Brother refused to lend it to her.

As a result, Nora grew more and more curious about blue movies. That was the reason why she asked Casey for his mobile phone not long after she met with Casey. After quite a while, Casey suddenly realized what video Nora was talking about just now. He was a little embarrassed.

At that time, he placed his emphasis on the word "fight", so he didn't understand why they needed to take off their clothes. Now, he finally knew that Nora was talking about blue movies just now.

However, he could not figure out why Nora, as a woman, would want to see if there was a blue movie in his mobile phone the first time she met him. It was really a bit strange. Nora was not taking Casey and Thomas to the mountain of the scenic spot, but a mountain beside the scenic spot. It was

almost as high as the mountain in the scenic spot, but it was undeveloped.

There was only a path in this mountain.

When they three went up the mountain along this path, Nora would turn her head and looked at Casey with a hint of unhappiness and anger in her eyes from time to time.

Casey was stunned. It never occurred to him that someone would be angry with him just because there was not blue movie in his mobile phone.

Meanwhile, he thought: There were really all kinds of strange things in the world, and one woman would really differed greatly from another woman. If Casey showed Elsa the blue movies in his mobile phone soon after he met with her, Elsa would definitely consider him to be a freak.

However, Nora considered him to be a freak because there was not blue movies in his mobile phone.

Before, the path became smooth and broad. And Casey saw that there was a villa and some pavilions, which were surrounded by a wall, on the mountainside that was not far away from them. It was an unique and beautiful scenery.

Casey didn't expect that the old friend of Thomas would have a villa and pavilions built in this mountain. There weren't many people who could live such a pleasant life. Soon, they three arrived at the gate. Nora came to the gate and knocked on the door. Then, someone came to open the door for them. Although Thomas's old friend lived in a mountain, there were many servants. After going through the gate, Casey would like to go to the bathroom. So he asked, "Where is the bathroom?"

Nora's eyes lit up at once. After staring at Casey for a while, she put on a playful smile and asked, "You want to go to bathroom? I'll show you the way."

Chapter 865 Meeting an Old Friend

When Casey saw the playful smile Nora wore, Casey couldn't help shivering. He had no idea why she became so excited after he said that he would like to go to bathroom.

He did want to go to bathroom, so he didn't say anything and just followed Nora to somewhere here.

Soon, Casey saw the bathroom. He went in and was going to pee.

However, unexpectedly, Nora also came in. It made his hair stand on end.

"Why do you come in now?" Casey asked while staring at her.

Nora spoke carelessly, "Alas, just ignore me and do what you want to do."

Casey was speechless and gave her a glance. How was it possible for him to pee when a woman was watching him? Now, Casey suspected if Nora had such a quirk after she suffered from something.

"Miss, what about going out? When you're here, I can't do what I want to." Casey said.

"Why are you still nagging? Why can't you do that? Could it be that there is something wrong with you? Do you need my help?"

As Nora said, she looked at Casey's groin.

Casey was speechless. Seeing that Nora was not going to go out at all, he

took her by the arm and went out of the bathroom with Nora in his hand. He saw that there was a big tree beside the bathroom, and then he jumped into the tree and placed Nora on a strong branch.

Nora exclaimed at once. However, Casey ignored her and hurriedly went into the bathroom.

When Casey came out of the bathroom, Nora had already got down from the tree by herself. As a student of Thomas's old friend, she was certainly quite strong. At this moment, Nora was looking at Casey with an angry face and with great hostility in her eyes. She was eager to beat Casey up.

"I'm sorry." Casey saluted Nora. After that, he went to the place where Thomas stayed.

"Humph, you hateful man! You're so mean. Now, you're in my territory, and you annoy me. I won't let you get away with it!" Nora said while gritting her teeth.

Thomas was still waiting for Casey and Nora in the courtyard. When he saw Nora follow Casey with a resentful expression on her face, he felt curious and asked, "Why does she look so unhappy?"

Casey was a little annoyed. After taking a look at Thomas, he thought: He had been more than 150 years old, but he would still do such a thing. And he didn't answer Thomas's question.

After that, they three passed through this courtyard and entered into another big courtyard in which there were artificial hills and pools. There, Casey

saw a senior citizen lying on a rocking chair in the sun.

And there were a few people sitting with their legs crossed in front of him now. It seemed that they were practicing deep breathing.

For unknown reasons, Casey felt very cold the moment he entered this courtyard. He didn't feel cold because of psychological causes. Instead, it was because it was cold in this courtyard. It was very strange.

When Thomas saw the person lying on the rocking chair, he smiled at once and said, "Long time no see. You still live a comfortable life."

The person lying on the rocking chair opened his eyes at once. He sat up, cast his eyes at Thomas, and said, "I can chat with you, but I have nothing to give you."

Thomas laughed and said, "Hey, be friendly to me. I really come to you because I want to have a chat with you. I'm not going to ask you to give me anything."

The senior citizen sneered and said, "I know what you're thinking about. You see, I've known you for over a hundred years. How is it possible that I don't know what you're thinking about?"

Thomas was a little embarrassed. He realized that he could not cotton up to the senior citizen.

The senior citizen, who was lying on the rocking chair, was named Fleming Bates. Fleming was about the age of Thomas. Among their peers, only they two were still alive now.

Casey observed Fleming carefully.

Daring to talk to Thomas, the Lord of the Pantheon, in such a way, this senior citizen must have powerful connections. Besides, when Fleming said that he had known Thomas for more than 100 years, Casey had known that Fleming was also someone who had been more than 100 years old.

He speculated that this senior citizen was as powerful as Thomas. Otherwise, he would not dare to talk to Thomas in that way.

Nora came to Fleming and said, "Great-great-grandpa, don't be nice to them.

When we were on the way to here just now, his student bullied me. Since I was a child, I've never been bullied like that. If he was not your old friend, I would have asked you to beat his student up." After hearing what Nora said, Fleming got angry at once and spoke, "Thomas! You should dare to ask your student to bully my great-great-granddaughter. It seems that you really don't take me seriously now. Today, I must beat you, so that you'll show enough respect for me!"

Looking at Nora, Casey was a little speechless. He didn't anticipate that she would deal with him in this way.

Thomas was also staring at Nora in astonishment. It never occurred to him that Nora would sow discord among them.

"I didn't ask him to bully your great-great-granddaughter. It was just that your great-great-granddaughter showed Casey the way to the bathroom. As for what had happened, I know nothing about that." Thomas explained.

"What! Could it be that my great-great-granddaughter was sexually harassed by this guy in the bathroom?" Fleming glowered at Casey.

Those who were sitting on the ground all opened their eyes and stared happily at Casey. They had a good understanding of Nora. Therefore, when they heard that Nora showed Casey the way to the bathroom, they had realized what had happened. After all, they all have undergone such a thing before. However, in Fleming's opinion, his great-great-granddaughter was a good girl. When Nora said that she had been bullied by Casey, he was sure that it must be Casey's fault.

Nora wanted Casey to be beat up. Therefore, after she heard Fleming said those words, she hurriedly said with an aggrieved expression on her face, "You're right. After I took that guy to the bathroom, he wanted to pull me into the bathroom. And he even wanted to..." Before she could finish speaking, Fleming had already got up from the rocking chair and glowered at Casey. In an instant, Casey was faced with a strong air of forcefulness given off from Fleming.

"You son of a bitch. You should dare to harass my great-great-granddaughter in my home. Even if you're the student of Thomas, I must teach you a good lesson!"

After saying that, Fleming waved his hand. A strong wind moved towards Casey.

Casey found that there were a lot of discernible blades in this strong wind. If

he failed to dodge, he would be holed like a hive,

He moved backwards at full with Muramasa in his hands and with a serious expression on his face.

Chapter 866 A Match

"Don't you think that it's inappropriate for you to attack me without even giving me a chance to defend myself? Why are you so sure that your great-great-granddaughter was telling the truth?"

As Casey moved backwards, he shouted at Fleming.

Fleming sneered and said, "Nora is a good girl. She won't lie to me. And you, as a student of Thomas, would not be a good person."

As he said so, Fleming was surprised at Casey could dodge in such a short time. He didn't mean to hurt Casey. He had planned to scare Casey, so that he could make him lose face in the presence of so many people or beg for mercy in the presence of Thomas.

However, Casey should move backwards at full speed soon after he attacked him, and was not harmed by him at all.

Seeing that, Fleming became interested in fighting against Casey. He wanted to try how long Casey could resist before Casey was defeated by him.

Casey cursed secretly. Nora could definitely not be said to be a good girl. Meanwhile, he was shocked by the power of Fleming who had been more than 100 years old. Fleming was able to make so many discernible blades by merely waving his hand. Casey would not be able to do such a thing even after he became an expert in fighting in

sublimation.

Moreover, he found that each discernible blade made by Fleming was as powerful as the blow he made with all his strength. If he failed to dodge, he would definitely be killed.

This was the power of a person who was close to becoming a master in Unrealm?

Casey remembered that Thomas was close to becoming a master in Unrealm, and he guessed that Fleming was as powerful as Thomas.

Casey was about to be hit by those discernible blades, so he couldn't help feeling anxious. When he noticed that Thomas stood still, Casey thought hard and then got an idea. He rushed to hide behind Thomas in an instant.

Thomas helplessly sighed, after which he lifted his hand and then gently waved it. Then, those discernible blade all turned into currents of air and then disappeared.

"Fleming, don't let your grudge against me concern my student." Thomas said tonelessly.

Fleming sneered and said, "Didn't you hear that you student wanted to harass my great-great-granddaughter? I just want to teach him a lesson."

Thomas turned his head, looked at Nora, and said, "What on earth happened? Tell us the truth. Don't interfere with the affairs of elders."

Nora knew that Thomas was as powerful as her great-great-granddaughter, so she dared not go too far. Therefore, he spoke to Fleming with an embarrassed expression on her face, "Great-great-grandpa, I just said those

words out of anger just now. That guy didn't do anything to me but annoying me."

Fleming sneered and said, "So what? If he annoys you, then he has made a big mistake."

Casey was rather unhappy that Fleming was so protective of Nora. However, Fleming was too powerful, and Casey didn't dare to make trouble for him.

Otherwise, he might be killed by Fleming. Therefore, Casey had to stand it.

Thomas gave Fleming a helpless glance and said, "I come to you to talk about important matters instead of quarreling with you. If you want to quarrel with me, I'm willing to find a time to quarrel with you. However, now, that people almost couldn't hang on. I come to you to get that thing. Are you sure that you're still going to quarrel with me?"

After hearing that, Fleming became more solemn. In the past many years, he never got along well with Thomas. However, Thomas was the only friend he had in the world now. Quarreling with him was just a kind of entertainment. When Thomas mentioned important matters, Fleming stopped.

He gave Thomas a glance and asked, "Is it true that that person almost can't hang on?"

Thomas nodded seriously and said, "Yes, otherwise I won't come here."

Fleming sighed helplessly. His expression was as solemn as that of Thomas. Other people had no idea what they were talking about and why they all put on such a solemn expression on

their faces.

"According to agreement, I'll give you that thing. However, your student annoyed my great-great-granddaughter and even accused me of doing something inappropriate. I can't let him get away with it." Fleming turned his head, looked at Casey, and said tonelessly.

"To avoid being accused of bullying the young, I'm not going to fight against him in person. And fighting against you gets more and more boring these years. Why not let our student have a fight against each other?"

"If your student wins, I'll give you what you want. However, if your student loses, he must apologize to Nora in the presence of you and me and agree to a request made by Nora unconditionally. How about that?"

After hearing what Fleming said, Nora's eyes lit up at once. She said, "I agree with you."

Then she was gloating. Looking at Casey, she was very sure that Fleming's student would win.

Thomas did not just agree. After all, Casey was not his student and he couldn't make the decision for Casey. Therefore, he turned his head and took a look at Casey.

Casey nodded at Thomas, indicating that he was willing to accept it.

Thomas laughed at once. When Casey agreed to the terms, Thomas was sure that he would be able to get what he wanted. After all, Casey was a master in sublimation and had the ability to defeat a master in Nora of sublimation.

Although Fleming was as powerful as Thomas, his students, though talented, should be at most among the top masters among Grandmaster Circle. It was very difficult to have a student like Casey.

If Fleming put forward other terms, Thomas might struggle for a while. However, in terms of letting students fight against each other, he was not worried at all.

"Well, you want our students to have a fight against each other. I agree. I'm interested in knowing how powerful your students are." Thomas said with a smile. Fleming put on a contemptuous smile at once. It seemed that he was very confident in his students.

"I'm willing to have a fight against your student. However, I also have a request. If I win, Nora needs agree to a request made by me unconditionally, too."

Casey suddenly spoke.

Fleming turned his head, looked at Casey, sneered, and said, "It's impossible for you to win."

Nora said, "I agree. I dare to agree to such a request. After all, you won't be able to win."

Seeing that Nora agreed to his request, Casey no longer said anything.

At this moment, Fleming took a look at his students, who were standing there, and said, "Hancock, come here."

A young man in white clothes immediately left other students and walked towards them. He saluted Fleming and Thomas.

After that, he gave off a strong air of forcefulness. He was exactly one of the

top masters among Grandmaster Circle.

Chapter 867 A Cold Pool

Feeling the air of forcefulness from Hancock, Thomas became serious.

Obviously, he was surprised that Hancock would be one of the top masters among Grandmaster Circle.

And Hancock was just about the same age as Casey. There were few people who could do that. There was even not such a person in the Pantheon. That was the reason why Thomas was surprised.

Certainly, different from Fleming, the Pantheon was the most mysterious organization in H Country. Therefore, compared with the students of Fleming, there were more experts in fighting in the Pantheon. Although Fleming had a talented student who became one of the top masters among Grandmaster Circle in his twenties, there were several experts in fighting who became masters in Grandmaster Circle in their thirties in the Pantheon.

What's more, Casey had agreed to join the Pantheon. Hancock was not as gifted as Casey.

When Fleming saw the surprised expression on Thomas's face, Fleming immediately wore a proud expression. He looked as if he were showing off to Thomas.

"Among my students, Hancock's the most gifted one. He becomes one of the top masters among Grandmaster Circle when he's only in his twenties. What's more, I have the intuition that he will become a master in sublimation before he's thirty-five years old. Though you

people claim that the most powerful experts in fighting are members of the Pantheon, there isn't such a gifted person in the Pantheon, right?" Fleming looked at Thomas with a proud expression on his face.

Thomas smiled and said, "It was true that there wasn't such a gifted person in the Pantheon in the past."

Fleming sneered and said, "You failed to find such a person in the past, and you'll fail in the future, too. It's difficult to find such a gifted person as Hancock."

Fleming got Thomas wrong. In Thomas's opinion, there was not such a gifted person in the Pantheon in the past; But, after Casey became a member of the Pantheon, there would be such a genius in the Pantheon. However, in Fleming's view, Thomas said so just because Thomas was unwilling to admit that Thomas had lost to Fleming in this respect.

Casey took a look at Hancock and admired him. Being able to be one of the top masters among Grandmaster Circle when he was just in his twenties, Hancock could really be said to be a genius. Besides, Casey was sure that Hancock had only inner force. If Casey hadn't practiced XuanGong, he would be not as powerful as Hancock now. Certainly, compared with Hancock, Casey had wasted a few years. When he lived with the people of the Patel family, he didn't learn martial arts at all. Casey was still the best in terms of being gifted.

Seeing that Hancock was just one of the top masters among Grandmaster Circle,

Casey was relieved. No matter what match they two would attend, Casey was not afraid at all, because he was absolutely more powerful than Hancock. Nora fixed Casey with an angry stare and said, "Brother Hancock is very powerful. You're about the same age as him, so I'm sure that you will lose to Brother Hancock. In my opinion, you had better concede defeat and apologize to me now. Don't waste time." Casey smiled and said, "I haven't played a match with him yet. Why are you so sure that I'll lose to him? Don't say that before we get the results."

Nora sneered at once and muttered, "You're too arrogant. You're far from as good as Brother Hancock. If you insist on playing the match, you'll only lose face."

Casey didn't mind what she said at all. He turned his head, looked at Fleming, and asked, "What match do you want us to play? Shall we have a fight against each other or play other matches?"

Fleming turned around and pointed at the pool in the yard. He said, "I discovered this pool a hundred years ago by chance. The water in this pool is very cold. If common people soak in it for five minutes, that people would be hurt. If that people is lucky enough, he'll just have to lie in bed for a long time. However, if that people is not lucky enough, he or she will pass away."

"However, this pool is very helpful to martial artists. If a martial artist soaks in the pool and uses inner force to resist the coldness, he or she will have a higher level physical fitness. Moreover,

during the process of resisting the coldness with inner force, the inner force will become more powerful, though the inner force expert won't get greater inner force."

"However, even martial artists cannot stay in this pool for too long a time, otherwise it's likely that their health will be damaged."

"Next, you two shall enter into this pool and see who can stay in it for a longer time."

Casey took a close look at the cold pool, finding that it was this pool that made it cold in the yard.

Unexpectedly, there should also be an unusual pool here. However, in terms of the effect, it was far from as good as the pool in the Valley of Medicine God.

In the past, Casey stayed in the pool of the Valley of Medicine God for half a month. Although this pool was different from the one in the Valley of Medicine God, Casey believed that he could stay in it for a longer time.

After hearing what Fleming said, Hancock nodded at once. He turned his head and took a look at Casey. After that, he took off the clothes that covered his upper body, exposing his strong muscles and bronze skin.

Seeing that, Nora screamed at once and shouted Hancock, "Brother Hancock, take off your pants. Don't let it affect you."

Hancock stared at Nora with unhappiness. Then, he ignored Nora, got close to the pool, and then jumped into it.

Seeing that, Casey took off the clothes

that covered his upper body and jumped into the pool without hesitation.

It was very cold in the pool. Casey felt very cold. This kind of coldness differed greatly from the coldness in the cold weather. It seemed as if the coldness in the pool were about to freeze the cells of people. If a person stayed in the pool for too long a time, all organs of that person might stop its work.

Casey was forced to use XuanJin to resist the coldness in a hurry. After he used XuanJin, he didn't feel cold anymore.

Casey was under constant influence of coldness in the pool, so he had to keep using XuanJin all the time so that his health would not be damaged.

Therefore, as a matter of fact, this match was about who had greater force and endurance.

Casey had XuanJin that Hancock didn't have. Besides, Casey was a master in half sublimation while Hancock was just an expert in fighting in Grandmaster Circle. Therefore, Casey would definitely win the match.

People such as Fleming and Thomas all stayed around the pool and watched them two. Fleming and Nora were naturally very confident in Hancock. And Thomas was sure that Casey would win. Casey was the one who was most likely to be a master in Unrealm, so it was impossible for him to lose such a simple match.

Casey, who was in the pool, felt comfortable. In his opinion, this pool was far from as terrible as Fleming had said. Under this circumstance, he could

stay in it for a day.

Hancock took a look at Casey with a proud expression on his face, and murmured, "Fella, you had better think about how to deal with Nora after you lose the match. She's very different from other women. It's possible that you'll suffer a lot."

Casey smiled at Hancock and said, "Thank you for reminding me of it, but I won't give her the chance."

Seeing that Casey was so confident, Hancock was contemptuous of Casey. In his opinion, Casey could deal with the coldness with ease only because he had just entered the pool. Hancock was sure that Casey would lose his confidence next.

Chapter 868 I Will Stay in the Pool for One More While

Thomas took a look at the pool. Then, he turned his head and asked Fleming, "How long can your students bear to stay in the pool?"

"It's not so easy to stay in the pool. The longer one stays in the pool, the harder it is to bear the coldness. After a person soaks in the water in it for a long time, the coldness he or she suffers will get so great that ordinary people can't imagine. Even martial artists can't resist the coldness at that time. It's Hancock that can stay in the pool for the longest time. He can stay in it for one and a half hours. I hope that he can stay in the pool for a longer time this time." Fleming said.

Thomas smiled and asked, "Then, how long do you think Casey can stay in this pool?"

Fleming sneered and said, "Your student seems to be ordinary, and there is nothing special about him. And he will not be as gifted as Hancock is. So he should be able to stay in the pool for an hour or so."

Thomas laughed and said, "My old friend, don't say so, otherwise you'll lose face."

Fleming twitched his lips and didn't take what Thomas said seriously at all. In his view, there would not be a genius who was as good as Hancock, and he believed that Thomas was just pretending to be confident.

"Nora, Hancock will stay in the pool for a long time, and that guy will not come out in a short time. Go to make a pot of tea for us. I want to have tea and have a chat with Thomas." As Fleming spoke, Fleming stared at Thomas. He looked as if he were going to drink poison instead of tea with Thomas.

Nora nodded at once. Then, she turned around and went to make tea.

Thomas took a look at Casey and then spoke to him, "There's no need for you to stay in the pool for too long a time. You just need to stay in it for a longer time than Hancock does."

Casey didn't say anything in return. Instead, he concentrated on feeling the changes in his body caused by the water in the pool.

Fleming sneered. He thought: Thomas should really believe that Casey could win Hancock. After so many years, he was as arrogant as he was before.

Time went by. Fleming and Thomas were sitting at stone table that was not

far away from the pool. They were drinking tea and having a chat about the events happened the past. However, the way they chatted was very different from the way other people chatted. In most of the time, they were quarrelling with each other.

Different from them, Nora had been staying around the pool and watching Casey and Hancock. From time to time, she would remind Casey, "It's time for you to go out now. Otherwise, you'll die."

Casey was not swayed at all. As time went by, he gradually found that he did have a higher level of physical fitness and that his power was becoming more powerful.

This pool was indeed helpful to martial artists, but it was far from as good as the one the Valley of Medicine God. There were originally pharmaceutical ingredients in the pool in the Valley of Medicine God. Moreover, the people of the Valley of Medicine God had been putting herbs into it for hundreds of years. Therefore, people could get great benefit by soaking in the pool of the Valley of Medicine God.

If this pool were as effective as the one in the Valley of Medicine God, Casey might be able to take this opportunity to enter sublimation.

About an hour later, Hancock began to feel bad. Now, his face was pale and the color of his lips turned purple because of the coldness. What's worse, he was running out of inner force after using it for a long time.

Casey was in a different state. Now, his

eyes were closed. However, his face was still red. It seemed that he didn't feel any discomfort, just as if the coldness didn't have any influence on him.

Finding that Casey was totally fine, Hancock got anxious. Sometime later, he would have to get out of the pool. However, Casey was still in a good state. It seemed that Casey would stay in the pool for a longer time than he did. "He just appears to be fine, but in fact he feels worse than I do. This cold pool is unusual, and he has never soaked in it before. Therefore, it's impossible for him to stay in it for a longer time than I will do. It means that he's trying to make me feel anxious by pretending to be calm. He wants to shorten the time I'll stay in the pool in that way."

"Humph, according to my teacher, I'm the most gifted person in the world. How is it possible that I'll lose to others in such a simple match? I can certainly win!"

As he thought, Hancock closed his eyes so that he would not be affected by the state Casey was in.

Fleming, who was sitting drinking tea at somewhere not far away from the pool, found that Casey was not going to get out of the pool after he had stayed in it for an hour. Besides, his face was still red. However, Hancock's face had turned pale. Seeing that, Fleming got rather anxious.

When Thomas saw that Fleming wore an anxious look on his face, he couldn't help laughing and spoke, "My old friend, it's just a match between two young

people. Don't be anxious. We'll naturally get to know the result later."

Fleming sneered and said, "My student will absolutely not lose. There's no need for me to be anxious. It's just that it's boring to have a chat with you."

Seeing that Fleming became less confident, Thomas just smiled and didn't say a word. He picked up the cup of tea and took a sip.

Soon, half an hour passed.

At this moment, it was obvious that Hancock could no longer hang on. His face was very pale and his lips were purple. His lips were even trembling slightly. He was almost unable to resist the coldness with inner force anymore. The coldness made it impossible for him to concentrate, not to mention to close his eyes and stay focused. Therefore, at this moment, he could only open his eyes and look at Casey who was not far away from him.

Casey was still calm. His eyes were closed, so Hancock could not know his emotion through his eyes. Besides, Casey's face was just a little pale. It seemed that he could still stay in the pool for a long time.

Seeing that, Hancock became even more anxious. If it wasn't for the desire to win, he would have jumped out of the pool now.

"Why isn't this damn guy going to get out of the pool now? Could it be that he really could stay in it for a longer time?"

Hancock cursed.

Nora, who was standing beside the pool, was also looking at Casey with an unhappy expression on her face. She

didn't expect that Casey would be able to stay in the cold pool for such a long time.

"Hey, get out of the pool now. If you can't hang on anymore, don't force yourself to do so. Otherwise, your health will be damaged. It'll do no good to you."

Nora shouted at Casey.

Hancock knew very well that Nora was speaking to Casey, but he felt as if Nora was talking to him.

It made it harder for him to hold on.

Just when Hancock got very anxious, Casey opened his eyes.

Hancock became a little hopeful at once. He thought that Casey couldn't hold on anymore and was about to get out of the pool.

Casey looked around and asked, "How long have I been here?"

"You've been in the pool for one and a half hours." Thomas said with a smile.

Casey nodded and said, "Oh, then I'll stay here for one more while."

After saying that, Casey closed his eyes again.

Seeing that, Hancock was dumbfounded, He couldn't hold on anymore, jumping out of the pool at full speed.

Chapter 869 You Are No Match for Me
Fleming stared at Hancock, who was jumping out of the cold pool, with a dark face. It never occurred to him that Hancock, who he was so proud of, would lose to the student of Thomas. It was really beyond his wildest expectation.

Hancock looked at Fleming with a guilty expression on his face, and said, "I'm

sorry. I bring disgrace on you."

Fleming sneered. He didn't say anything to Hancock, and looked at Casey who was still in the cold pool.

Seeing that Hancock had got out of the cold pool, Nora wore an anxious look on her pretty face. She said, "Senior Brother, why did you get out of the pool? Jump into it now, otherwise you'll lose. In this case, I'll miss the chance to teach Casey a lesson."

Looking at Nora, Hancock was a little speechless. He could only stay in the cold pool for an hour and a half. If he didn't get out of the pool after staying in the pool for one hour and a half, his health would really be damaged. It was obviously unwise to win a match at the expense of his health.

However, in his opinion, the reason why Casey could stay in the pool for such a long time was either that there was something special about Casey's body or that Casey had a way to resist the coldness. In short, he didn't believe that Casey could stay in the pool for a long time because he was more powerful.

Thomas got up with a smile. He spoke while looking at Fleming, "It seems that my student has won the match."

Fleming turned his head and looked at Thomas with obvious displeasure in his eyes. Then, he said in a cold voice, "Did you give him anything that can enable him to stay in the cold pool for such a long time?"

Thomas couldn't help smiling. He said, "You got me wrong. You see, it was you that just asked them to play a match. It was impossible for me to know in

advance that you would ask them to play in such a game, not to mention preparing something that could help him resist the coldness."

"What's more, both of them took off their clothes before they jumped into the cold pool. You've seen it. Even if I had given him something that could help him resist the coldness, he had no chance to use it."

Fleming narrowed his eyes. Thomas was right. Under this circumstance, it was impossible for Casey to cheat in this match.

However, he was unwilling to accept that there was someone who was better than his favorite student. Besides, that person was the student of Thomas. He was very unhappy about it. Therefore, he managed to explain it.

Casey still sat still in the cold pool. Nora stared angrily at him. She was so anxious that she stamped her feet.

"Could it be that he is already dead? Otherwise, why would he sit still for such a long time? He's so stupid that he dies just because he wants to win the match. In my opinion, we should nullify this match." Nora said.

Hearing what Nora said, Casey opened his eyes again and then jumped out of the cold pool.

Now, he had won the match. Although he could hold on in the cold pool for a longer time, there was no need for him to do so.

Now, Casey had been a master in half sublimation. And this cold pool was not very helpful to Casey. It was meaningless for him to stay in it for a

longer time.

"I'm alive. You can't void this match just because of the fact that he lost and you'll have to receive punishment. It's against the principles of experts in fighting." Casey gave Nora a glance.

Seeing that Casey was sound and safe, Nora gritted her teeth and said, "I said so just because I thought that you were dead. Unexpectedly, you're still alive. Then, the match won't be nullified. I won't break my promise."

Casey said with a smile, "That's good." Hancock looked at Casey with a gloomy face. After coming out of the cold pool, his face turned red and he had regained his strength. Seeing that Casey believed that he had defeated him, Hancock was unconvinced.

He took a step forward, and said, "It's indeed worth admiring that you can stay in the cold pool for such a long time. However, in my opinion, it doesn't mean that you're more powerful than me. Perhaps you're born to be someone who is not afraid of coldness. Therefore, I'd like to have a fight against you. Are you willing to accept this challenge?"

After hearing what Hancock said, Nora rolled her eyes and hurriedly said something to support Hancock, "Yes, Senior Brother is right. Being able to stay in the cold pool for a longer time doesn't mean anything. It has a lot to do with your constitution. You should have a fight. Only after you fight against each other can you know who is more powerful."

Thomas and Casey understood that both Hancock and Nora were unwilling

to accept the fact that they lost the match. Thomas didn't say a word. He knew one thing very well: It was even more impossible for Hancock to defeat Casey in a fight.

Fleming also didn't want his student to lose to Casey. He wanted his student to win. Even if Hancock defeated Casey in a fight, he would keep his promise and gave Thomas what he wanted. It was just that he hated to see Thomas be proud.

Therefore, although Fleming didn't say a word, he winked at Hancock, indicating that he supported him.

After that, Hancock became more confident. He looked at Casey again and asked, "Why didn't you answer me? Could it be that you're feeling afraid?" Casey smiled and said, "You're no match for me."

Hancock sneered at once and said, "We haven't fought against each other yet. Why are you so sure that I'm no match for you? It's just an excuse, right? Well, fine. And I'll admit that I've lost the match. However, in my mind, you'll always be a coward who dare not accept my challenge."

Nora echoed, "Yes, you're just a coward!"

Casey had no choice but to say, "Well, I'll just make a blow. If you can resist it, you win. If you think that you can't resist it, you can just concede defeat."

Hearing that, Hancock sneered and said, "How dare you boast like that! You can't defeat me with only one blow."

After saying that, he gathered his strength and looked at Casey with the

desire to fight in his eyes.

Seeing that Hancock insisted on have a fight against him, Casey was not going to talk nonsense anymore.

Since Hancock was still unconvinced that he deserved to win the match, he would just let Hancock know how powerful he was.

Just after Hancock finished speaking, Casey used XuanJin. Then, power came out of his palm, giving off a burst of white light. After that, Casey raised his hand and looked at Hancock. He was going to make the blow.

When Fleming saw it, his expression changed greatly. It never occurred to him that the student of Thomas would be a master in half sublimation.

No wonder Hancock would lose to him. Even though Casey was just in half sublimation, he was much more powerful than Hancock, who was one of the top masters among Grandmaster Circle. However hard Hancock tried, it was impossible for him to defeat Casey. Hancock was obviously unaware of this and he was itching to fight against Casey.

Fleming immediately stood in front of Hancock, and said, "Enough. You don't have to fight against Hancock. You win the match."

Hancock didn't understand what was going on. He hadn't even begun to fight against Casey yet, so he had no idea why Fleming would suddenly say so.

Chapter 870 Be A Lady with Simple Mind

"Master, the battle hasn't started yet, why would... you think he will win?"

Hancock looked at Fleming with some puzzlement.

Norawas also full of doubts, and asked, "Yes, Grandpa. The fight hasn't begun yet. Haven't you always been confident in the strength of Hancock? Why don't you believe him now?"

Fleming sighed and said, "It's not that I don't believe him, but that the strength of Thomas's apprentice is not as weak as you think. Hancock can't beat him at any cost."

Both Nora and Hancock had mixed feelings. It was the first time that they saw Fleming think so highly of someone.

Hancock knew that Fleming would not lie to him. However, because he did not know Casey's strength, he still couldn't accept the fact that he could not beat Casey.

Casey also knew what Hancock was thinking. In order to avoid wasting time, he said to Hancock, "I know you may not understand why Fleming said that. I will give you a taste of my strength and you will understand. "

It was also Hancock's intention. Hearing Casey's words, he immediately looked at Casey seriously, wanting to see what kind of move he could use.

Casey operated Xunjin, and then pushed hard in the direction of Hancock. A huge phantom of the palm appeared, bringing a strong wind and blowing in the direction of Hancock.

Now that Casey's strength had reached half sublimation, he didn't need to take a perfect-level pill or use Xuanjin to create this kind of phantom in his attacks.

Of course, because he had not reached sublimation, Casey hadn't been able to get this phantom away from the body. If he wanted to hit others with the power contained in it, he must be close enough.

But just the power brought by this palm was enough to scare Grandmasters.

The moment Hancock saw that palm phantom appeared, his pupils shrank suddenly, and his body retreated to the back subconsciously. A trace of horror arose in his heart. Unexpectedly, Casey's palm possessed such a terrifying power.

He had only seen Fleming show such strong strength. Of course, Casey was still much worse than Fleming, but for Hancock, it was amazing.

Nora also opened her mouth in astonishment when she saw this scene. She couldn't expect Casey's strength to be so terrifying. At the very least, Hancock would not be able to create such a phantom.

Casey also stopped before going too far, and didn't really attack Hancock. Seeing him retreating to the back, Casey took back the power in his hand, and the phantom of the palm also disappeared.

Cold sweat broke out on Hancock's forehead. Just now, he even felt that he would be killed by Casey. When he saw Casey stop, he quietly breathed a sigh of relief, and fear rose in his heart.

After stopping attacking, Casey looked at Hancock, and said, "Please do not laugh at my performance!"

Hancock looked at Casey for a long time

and didn't react. He didn't expect that Casey who seemed to be no younger than him would have reached such a mysterious realm in strength.

Fleming told him about the realm above the Grandmaster, and he also knew sublimation. If Casey was able to create phantom, he had already reached the level of sublimation.

Fleming said that Hancock would reach sublimation before he was thirty-five years old, which was unmatched.

Therefore, Hancock always thought that he was the best genius in the world. No matter it was the disciples of the famous sect or the descendants of the Guwu Family, no one could compare with him. Over time, Hancock became a little arrogant. He felt that no one in this world could compare with him, so he always had a slight disdain for his peers. However, just today, Casey showed him that knowledge was infinite. Casey was obviously about the same age as him, but he had reached sublimation. Casey was thousands of times more talented than him.

Hancock's arrogance was immediately dispersed by this fact.

"You... have you reached sublimation?"

Hancock muttered, staring at Casey.

Casey smiled at him, and said, "Not yet, but I have reached half sublimation."

Hancock didn't feel better when heard Casey say that he had just reached half sublimation. In his eyes, there was no difference between half sublimation and sublimation. Because for the Grandmasters, to reach half sublimation was incredibly hard.

Casey had reached half sublimation, which meant that he was far away from the sublimation. There was still an essential difference between Grandmaster Circle and sublimation. Fleming also looked at Casey with a complicated expression. He didn't expect that Thomas would have such an outstanding apprentice, and he felt a sense of frustration in his heart.

Thomas stood up, looked at everyone with a smile, and said, "So, we won this competition, right?"

Fleming turned his head and glanced at him, snorted coldly, and said, "I won't cheat. Your apprentice is so talented. It's really surprising. This time, you won. But sooner or later, I will beat you."

Thomas smiled and said nothing more.. Casey turned to look at Nora, who was still in shock, and asked, "Now that I have won, can I make a request to you?"

Nora looked at Casey, full of anger. Obviously, she was very unhappy about Casey's win and said, "I will keep my words. As I lost, you can make a request. But if you make such a shameless request again, I will do as you said first and then kill you afterwards."

Casey laughed blankly, naturally it would be impossible for him to make a shameless request to Nora.

"Don't worry, I'm not so shameless. Naturally I won't be too much," Casey said.

"Then what is your request? Please tell me." Nora was still a little nervous, afraid that Casey would make any

request that she couldn't accept.

"My request is that in the future, you must not follow others into the toilet casually, and change your hobby of watching that kind of video. Be a simple-minded lady," Casey said lightly.

After hearing Casey's words, Nora immediately blushed, looked at Casey with shame and annoyance, wishing to kill him.

Fleming was puzzled. He didn't understand what kind of video Casey was talking about. His apprentices not far away all couldn't help but laugh.

"It is not difficult. Can you agree?"

Casey asked.

Nora gritted her teeth and said, "Of course, I can!"

Chapter 871 Branches

Fleming still didn't understand what Casey meant, so he walked over and said, "Casey, you asked Nora not to follow others to the toilet casually. What do you mean? Does Nora follow others to the toilet casually? And what is the video you said? Nora is originally a fair lady, isn't she?"

Casey glanced at Fleming and said with a smile, "Fleming, this is a matter between our young people. There is a generation gap between you and us."

Nora also felt a little embarrassed.

Casey's request had made her very mortified. Fleming even wanted to know the details. If he really knew what Casey meant, she would be too humiliated to stay here in the future.

She said, "Grandpa, you are so old. It is normal for you to not understand what we said. You don't need to understand

it. This guy's request is not excessive. I accepted it. Let's just go over this matter. Don't mention it anymore," Nora said to Fleming quickly.

Hearing what Nora said, Fleming became more curious, but seeing Nora didn't want him to continue this topic, he didn't mention it.

He looked at Casey and said with emotion, "You can reach the stage of half sublimation at this age. Your talent is really rare in the world. Compared with you, Hancock is indeed a lot worse. I don't know how Thomas found you. But I want to know if you are interested in being my apprentice. I promise you will be paid 10,000 times better."

Hearing Fleming's words, Casey couldn't help laughing. He didn't think that Fleming started to poach him in front of Thomas. He wasn't afraid of Thomas at all.

Casey bowed to Fleming and said, "I appreciate your kindness but can not accept your invitation. I believe that you will be able to train Hancock into a peerless master."

Seeing Casey's refusal, Fleming didn't say anything. After all, he knew this was impossible.

Thomas stared at Fleming and said, "Fleming, it's uncool for you to do this." Fleming snorted coldly at him, and just ignored him. Instead, he turned to look at Hancock and said, "Don't despair because of this incident. The Pantheon has resources that you don't know about. His strength may be improved by some means. As long as you work hard and forge ahead, your future

achievements may not be worse than him."

Hancock nodded immediately and said, "I know!"

Casey looked at Fleming dumbfoundingly. He didn't think Fleming really dared to say such presumptuous words. However, Fleming was so powerful. Even if he said that, Thomas would definitely not complain. After all, he came to Fleming to ask for something. Naturally, he had to be polite.

After instructing Hancock, Fleming looked at Thomas and said, "Come with me, and then get the things you want. This time I give you what you want because of your apprentice. I won't be so easy-going next time."

Thomas smiled and said, "You are really liberal."

Fleming glared at him, then walked inside.

Casey was a little curious about what Thomas wanted. He, the lord of the temples, even turned to be so humble and come to Fleming for it. Therefore, he asked, "Can I follow you and take a look?"

Thomas followed Fleming towards the inside and said slowly, "Come on."

Casey immediately followed them, with a glimmer of expectation in his heart. He thought that what could get the attention of two masters, who was about to reach Unrealm, was certainly not an ordinary thing.

They walked all the way to the innermost courtyard of the villa, and Fleming turned and walked into a room

in the courtyard.

Thomas and Casey followed him. When they entered the room, they saw a few shelves where items were placed. On the shelf, there were a wide range of collections, many of which Casey had never seen and didn't know what it was.

"Although the Pantheon has a lot of resources, but when it comes to treasure collection, I am still worse than you." Thomas looked at the things on the shelf and said with emotion.

"Don't pretend here. The things here are not even comparable to a warehouse in your Pantheon. If I hadn't moved faster and got some back, these things would have been snatched away by the Pantheon," Fleming complained.

Thomas just smiled, but did not deny it.

"The only thing you want here may be this one," Fleming muttered as he walked inside and took out a wooden box on the innermost shelf, and he put it on the table.

Thomas and Casey both walked to the front of the table, waiting for Fleming to open the box.

Fleming stared at Thomas and asked, "Are you sure that one can't hold it anymore?"

Thomas nodded and said, "I know this time is much shorter than last time, but the situation of that person is really not optimistic. I'm afraid it will be shorter and shorter in the future."

After Fleming heard what Thomas said, he also showed a concerned look on his face, and he said, "It seems that there will always be something that should come. When I got this thing, I thought I

could use it by myself, but I gave it to you in the end."

"The rest I have here is estimated to be enough for three times. It will be used up. Now the time that the person can hold on is getting shorter and shorter, I am afraid that the the disaster will come in less than ten years," Fleming said.

Thomas turned to look at Casey and said, "You don't need to worry about this. When that day comes, I will come up with a strategy to deal with it."

Fleming didn't say anything. After a helpless sigh, he put his hand on the box.

Casey listened to the conversation between the them, always feeling confused, and didn't understand what they meant.

But it could be seen that what they said was not a good thing, especially Fleming also said that disaster was coming.

Casey thought it should have something to do with the trouble Thomas mentioned to Casey before.

Could it be that Thomas approached him just to deal with the disaster?

Without thinking about it, Casey looked at the box. Now he was not powerful enough. It didn't make much sense to think too much about this kind of thing.

Fleming opened the box, took out a short black branch from the box, placed it on the table, and then took out a blade and a jade bottle from the box.

After seeing the black branch, Casey's pupils shrank suddenly. Because the smell of the branch was exactly the same as the black wood Casey got from

Master Tianlong!

Chapter 872 Scarlet Sun Wood

Casey stared at the branch carefully for a while, and made sure that the branch was exactly the same as the piece of wood in his hand. The only difference was that the piece of wood in his hand was much larger than this branch.

He didn't expect that what Thomas asked Fleming for would be this branch.

It seemed Thomas and Fleming attached great importance to this branch. Fleming took out the branch carefully for fear of falling it.

Casey would never tell them that he had a piece of wood from the same tree as the branch before knowing the origin of this branch. Thus, he could only hold back the surprise so as not to be seen by the two old guys.

With their strength, killing Casey was a breeze. This wood was so precious to them, if they wanted to grab Casey's piece of wood, Casey really had no way out.

"What is this?" Casey pretended to look like he had never seen it before and asked Thomas.

Thomas didn't hide, and explained it to Casey.

"It is called Scarlet Sun Wood. It is rumored to be left by a sacred tree that has survived in the world for tens of thousands of years. The sacred tree has achieved success in cultivation and reached the stage of Feather Flying . Later, it really got through the god's challenge. Scarlet Sun Wood is what the sacred tree left after being hit by thunder."

"Because the sacred tree has become an immortal, even its branch that has been scorched by lightning is still a rare treasure in the world. People who got this wood named it Scarlet Sun Wood, and it was treasured and passed down as a rare treasure."

Hearing Thomas's words, Casey couldn't help but widened his eyes, and asked, "In this world, is there really a tree that has lived for tens of thousands of years? Has it reached the stage of Feather Flying?"

Thomas laughed and said, "I don't know. I'm just talking about some rumors that I have heard, and there are many versions. This is just one of them. Whether it is true or not depends on what you think."

Hearing what Thomas said, Casey was also relieved. Although masters who reached sublimation were already very miraculous, Casey did not believe that living things could become an immortal. After all, even hearing such a story had already made people feel incredible. The legend of Scarlet Sun Wood should only be made up by people in order to make the wood more extraordinary.

"It's just that Scarlet Sun Wood does have an effect that ordinary people can't imagine. It is still impossible to explain it clearly based on the current level of science," Thomas said again.

Casey agreed with it. The current level of science really could not explain why Scarlet Sun Wood was so magical.

Edith only ate a small piece of it, and became impervious to viruses. Doctors had studied for a long time, used all

kinds of instruments, but still couldn't explain what was going on.

"Then what is the effect of Scarlet Sun Wood? It seems very precious." Casey rolled his eyes and took the opportunity to ask.

"Scarlet Sun Wood is a treasure in a million, it has the effects of calming the nerves, concentrating, improving user's health, and even driving diseases away. For ordinary people, this thing is a panacea," Thomas said.

Of course, Scarlet Sun Wood had even more magical effect, but Thomas didn't plan to tell Casey.

Casey heard that what Thomas said was basically the same as the effect of the wood he knew. He also determined that the wood he had was Scarlet Sun Wood that Thomas talked about.

And he was sure that Scarlet Sun Wood had a greater effect, but Thomas would not tell him.

"Is this wood edible?" Casey asked.

Thomas was taken aback when he heard Casey's question. He had never thought about whether Scarlet Sun Wood was edible.

"Why do you ask it? Just from the appearance, you should know that this branch is not suitable for eating?"

Thomas looked at Casey with some doubts.

Casey smiled and explained, "You just said that this thing is a panacea, so I am a little curious."

Thomas laughed and said, "Scarlet Sun Wood is not for eating. If you want this branch to be effective, you need to burn it with fire. But it's no use knowing this. It

is estimated that only Fleming has a little complete Scarlet Sun Wood. Although it is good, it is not for you. In your life, you may not have the opportunity to get it."

Casey didn't say anything. He didn't agree with Thomas's words in his heart. After all, he had a large piece of Scarlet Sun Wood. If he took it out, Thomas would be shocked.

At this time, Fleming had already cut the branch into sawdust bit by bit with the blade in the box, and put them in the jade bottle.

Casey watched Fleming doing this, thinking that Thomas just said that Scarlet Sun Wood needed to be burned in order to have an effect, so he planned to burn it to see what the effect would be.

Thomas's words made Casey feel relieved about Edith's situation. This wood was a rare treasure in the world. Even if he used it in the wrong way, there should be no harm. Edith was lucky to eat a small piece by mistake. Otherwise, even god was unable to save her after she swallowed the poison pill of the black coat directly.

Not long after, Fleming cut off one third of the branch, turned it into sawdust and put it into the jade bottle.

He carefully put the remaining branch back into the box, then sealed the jade bottle and handed it to Thomas.

"Here you are, this time I won't ask you for things in exchange. This is what your apprentice won. But next time you won't be so lucky. If you can't exchange something equivalent with me. Even if

the world is destroyed, I won't give you Scarlet Sun Wood," Fleming said. Thomas laughed, took the jade bottle from him, and said, "No problem." Fleming turned to look at Casey, and asked, "Boy, you really don't think about being my apprentice? Although the resources here are not as good as the Pantheon, there are some things here that the Pantheon can't get by any means. If you agree to be my apprentice, you can pick whatever I have here, OK?"

Casey bowed to Fleming again and said, "Fleming, please forgive me." If Fleming had Soul Setting Jade, Casey could consider it, but it was a pity that Soul Setting Jade was in the Pantheon. Fleming sighed helplessly, knowing that it was impossible to poach Casey from Thomas.

At this moment Casey suddenly thought of something, looked at Fleming, and asked, "Fleming, would you like to accept female apprentice?"

Chapter 873 Red elixir

The next morning.

Casey and Thomas walked down the mountain. It was already in the afternoon when they went up the mountain yesterday. When they got the Scarlet Sun Wood, it was already evening. Fleming was not a stingy person, so naturally he invited them to stay in the villa for one night.

Early this morning, Casey and Thomas packed up and said goodbye to Fleming and others, and then walked down the mountain.

As they walked, Casey stared at

Thomas and said, "Thomas, is it my credit to get Scarlet Sun Wood this time?"

Thomas turned to look at him, smiled and said, "Of course."

"Then can I get some rewards?" Casey continued.

If Thomas promised to give him a reward, he could directly ask Thomas for Soul Setting Jade, which would be more easy.

"You even think about rewards before reporting for duty in the Pantheon officially," Thomas said, staring at Casey.

"The reason why I agreed to join the Pantheon was not because of my love or sense of mission. I was a businessman in the past and never made money-losing transactions. If there is no benefit, why should I join the Pantheon? If so, I'd better to go to Fleming," Casey said.

Thomas smiled and said, "What you said makes sense, and I am not an unreasonable person. Naturally, you have rewards. I originally prepared something to exchange with Fleming this time, but he gave me Scarlet Sun Wood because of you, then I will give you this thing."

With that said, Thomas took out a jade bottle from his clothes, stretched out his hand and handed it to Casey.

Casey took the jade bottle, opened it and smelled it. A peculiar scent came out from it. Then , Casey looked inside again, and saw a fiery red pill inside, which looked very strange.

"What is this?" Casey asked while

holding the jade bottle.

"What's in this bottle is a perfect-level pill. Although a perfect-level pill is not comparable to Scarlet Sun Wood, this pill is a combination of thirty-three hundred-year-old elixir. It is called Red elixir."

"This pill contains a huge medicinal power, which is a great tonic. If ordinary people eat it, they will die with blood oozing from their eyes, nose and mouth ."

"If used properly, this pill is enough to help a Grandmaster reach the stage of sublimation. For those who practice martial arts, this pill is an opportunity to break through and reach sublimation. Therefore, its value is no worse than Scarlet Sun Wood."

After listening, a shocked expression suddenly appeared on Casey's face. It was unexpected that the little pill in this jade bottle could allow a Grandmaster to break through to sublimation. In this case, this pill was indeed great.

At the beginning, Casey absorbed 90% of the medicinal effects in the Valley of Medicine God, and only reached the stage of a half sublimation. Didn't it mean that the effect of this pill was more powerful than that of the Medicine Lake in the Valley of Medicine God?

Of course, Casey also understood his own peculiarity. What he cultivated was Xuanjin, which was very different from inner force. Although he had reached half sublimation in inner force, but in fact he had only reached the half advanced stage of Xuanjin. He was not the same as other grandmasters who wanted to

get sublimation.

Casey didn't know whether he could reach the advanced stage of Xuanjin in one fell swoop and become a real master at the stage of sublimation.

Casey always felt that it was more difficult for him to break through to the sublimation of Xuanjin than for the Grandmasters to get into sublimation.

Xuanjin was indeed very powerful, but the conditions for the breakthrough had become harsher.

Red elixir also made Casey understand that perfect level pills were different. At least the two perfect level pills that Casey ate before could not be compared with Red elixir.

"Although Red elixir can help the Grandmasters to break through and reach the stage of sublimation, the danger in it is also very imaginable. Although this pill is a perfect-level pill, its efficacy is unbearable for the human. If the top masters in the Grandmaster Circle want to successfully break through by taking this pill, they must also bear the risk of death by exploding the meridians."

"Even with the guidance of people like me and Fleming, the probability of successful breakthrough is only 50%. Once the breakthrough fails, the person who takes the pill is likely to be in in coma because of the excessive efficacy"

Thomas then added.

Hearing this, Casey, who was still thinking about taking Red elixir, suddenly had the idea of shrinking. Unexpectedly, with the guidance of Thomas, and the probability of a

successful breakthrough was only 50%, so the risk of this pill was indeed too great.

Casey, who was full of confidence in his talents, would rather spend more time than take such risks.

Seeing what Casey was thinking about, Thomas smiled and said, "The journey of martial arts learning is not as smooth as imagined. No matter what kind of chance, it is accompanied by equivalent risks. The spirit of martial arts is sometimes the spirit of daring to take risks."

Casey nodded. Thomas was indeed right. The journey of martial arts learning wouldn't be plain sailing. Getting more powerful meant to take greater risks. "Don't look at the probability of success. No matter who gets this pill, he will definitely try it out in the end. If this pill is given to Fleming, he will probably ask his apprentice take this pill before we leave."

"This time, you won Scarlet Sun Wood, so this pill will be yours."

Thomas smiled.

What Casey was thinking of was not this pill. Casey was indeed very excited about this pill that could make him breakthrough. However, with Xuanjin, Casey's desire for this kind of thing is actually not as great as ordinary people.

And what he really wanted now was the third piece of Soul Setting Jade in the Pantheon and when he got that piece of Soul Setting Jade, he could be regarded as completing the task assigned by his master.

Although the master said that there

were still three years left, Casey didn't want to delay it too long. Naturally, the sooner he got the Soul Setting Jade, the better it would be.

So, he stared at Thomas for a moment, and then asked, "Actually, I don't really want Red elixir. Can I exchange this pill for other things?"

Thomas was taken aback, and asked, "What do you want?"

"I heard that there is a jade pendant called Soul Setting Jade in Pantheon. Can I exchange Red elixir for Soul Setting Jade?" Casey said.

Hearing Casey's words, Thomas's eyes narrowed immediately. He looked at Casey with some scrutiny, and asked, "Where did you hear that the Soul Setting Jade is in the Pantheon? Why do you want Soul Setting Jade?"

Chapter 874 I Want to Take You Two as My Apprentices

Casey was a little surprised when he saw Thomas's reaction to his question. He said casually, "I heard about it from a friend. I can't tell you why I want it, but I can guarantee that I will not use it to do bad things."

He didn't directly say that this was something his master wanted. He could know that this Soul Setting Jade was important to the Pantheon from Thomas's reaction. Without knowing what the Thomas's attitude was, Casey couldn't expose his master.

After all, his master's background was definitely not simple. If his master and Thomas bore grudges against each other, or Thomas refused to give it for some reason, Casey would face

considerable trouble.

After hearing Casey's words, Thomas was also thoughtful. He did not ask who Casey's friend was, nor did he ask Casey what he wanted to do with Soul Setting Jade. Instead, he said, "The value of Soul Setting Jade is much higher than that of Red elixir, so it is naturally impossible for you to exchange a Red elixir for Soul Setting Jade."

"However, in the Pantheon, any resource can be allocated based on merit. As long as you get enough merit, it is not difficult to get Soul Setting Jade."

Hearing Thomas's words, Casey couldn't help but heaved a sigh of relief. As long as he had a chance to get it, it would be fine. What he was afraid was that there would be no chance.

"Then how do I get the merits?" Casey asked.

"Finish the task released by the Pantheon. I told you before that the Pantheon's duty is to maintain the order of the world. When there are matters that ordinary people can't solve, the Pantheon needs to work, and that's when you can accumulate merits."

Thomas explained.

"When you formally join the Pantheon, there will be someone who will explain the details to you, but getting Soul Setting Jade is not as simple as you want. If you want to get Soul Setting Jade, you had better to agree to be my successor, so that you will gain merits faster." Thomas smiled and said to Casey again.

Casey didn't answer. Casey had to

understand the operating mechanism of the Pantheon before knowing what to do afterwards. It's not the time to think about it now.

Stop talking about Soul Setting Jade, they continued to walk down the mountain. After a while, Thomas looked at Casey and asked, "Where are the two girls you talked about with Fleming? They are talented. I also want to bring them back to the Pantheon for cultivation. Or you can tell me the address, I will go over and see them. And I will bring one back if they are really great, OK?"

Hearing Thomas's words, Casey shook his head quickly. Yesterday, Casey asked Fleming whether he would accept female apprentices. He was referring to Annabel and Elsa.

Casey found the martial arts talents of Elsa and Annabel were actually very good. Elsa had even reached the sage of inner force, and Annabel's aptitude was not worse than Elsa, but she had not been exposed to martial arts. Since Annabel wanted to learn from a teacher, Casey recommended them to Fleming. In this way the two girls could not only learn from a famous teacher, and but also stay in R Country, so as not to go to C Country to cause trouble for him.

After hearing Casey's introduction to Annabel and Elsa, Fleming became very interested in them and expressed that he would like to see the situation of them. If Annabel and Elsa agreed, he would accept them as his apprentices. Now apprentice also wanted to accept

them his apprentices, Casey naturally would not agree. If Annabel and Elsa also went to the Pantheon, then he would not be able to live in peace.

"These two girls are not suitable for the Pantheon, so please another apprentice." Casey directly rejected Thomas.

Hearing what Casey said, Thomas couldn't only sigh helplessly and say, "It seems that there is no such fate."

Not long after they arrived at the foot of the mountain, Casey looked at Thomas and asked, "How are we going back to C Country?"

Thomas looked at Casey and said, "Naturally, by plane. Do you still want me to fly back with you? I don't have that ability."

Casey also couldn't help but smile. Thomas was too old, and he looked like standing aloof from the world. Casey felt that Thomas was really out of touch with modern tools such as aircraft, so he didn't think about going back by plane for a while.

Without hesitation, Casey went to find a car in the scenic spot not far away, and then they rushed towards the airport in T City.

By now, Casey's trip to R Country had come to an end.

...

Annabel's house.

Annabel and Elsa were sitting in the living room at this time, both looking glum.

The Duncan family had been destroyed, Elsa was homeless. In addition, Annabel liked Elsa very much. Therefore, she

had been letting Elsa stay in her home. After this period of time, they had have become good friends.

"Damn Casey, he has never called us or replied our message. Has he returned to C Country? How about going to C Country to find him directly?" Annabel said with angrily.

Elsa glanced at Annabel and said, "But he doesn't seem to want us to find him, otherwise he won't leave that letter at that time."

"Leave him alone. Shall we have to listen to him and never see him for the rest of our lives?" Annabel said.

While the two girls were chatting, there was a sudden sound of footsteps outside, and then an old man showed up at the door with a girl about the same age as the two of them.

Annabel and Elsa saw these two people and immediately stood up.

"Who are you?" Annabel stared at the old man and asked.

Fleming glanced at her with a smile, and said, "I am Fleming. I came here for you today. It seems that you are indeed talented."

"What are you looking for us for?" Elsa looked at Fleming with some caution, and she felt a strong danger from the old man.

Fleming smiled and said, "I want to accept you two as my apprentices. Do you agree?"

After speaking, Fleming directly raised his hand, two rays of light appeared on the palm of his hand. Then he quickly outlined the shapes of the two figures in his palm, which were the appearances

of Annabel and Elsa.

This method of power control had reached the point of perfection, and it was really shocking.

Annabel and Elsa were stunned when they saw this scene.

Chapter 875 The Pantheon

Headquarters

In the western part of C Country, Kunlun Mountain stretched for thousands of miles, making it the most majestic and magnificent place in C Country.

Since ancient times, the myths and legends, anecdotes, and various folk tales about Kunlun Mountain had emerged in an endless stream, making Kunlun Mountain, a place that few people could explore, cast a veil of mystery.

Many people believed that Kunlun Mountain was the dwelling place of gods, and there was a fairy palace that ordinary people couldn't imagine. The immortals would come to Kunlun Mountain when they passed the test of god. They could go straight to the heavens from here, which was very mysterious.

Of course, this was just Kunlun Mountain in people's imagination. As for whether there were immortals in the world, no one had seen it with their own eyes.

The headquarters of the Pantheon was located in this mysterious mountain range.

Casey and Thomas took a plane to the western city, then took a bus to the foot of Kunlun Mountains, and then rushed towards the Pantheon headquarters on

foot.

Kunlun Mountain were steep and difficult for ordinary people to climb, but for Casey and Thomas, it was easy. It only took them less than half a day to climb over a few large mountains and reach a place not far from the Pantheon mentioned by Thomas.

On the way here, Thomas had already told Casey to report to the Pantheon headquarters first and perform some necessary procedures. After Casey had a certain understanding of the Pantheon, he could choose whether to stay in the Pantheon or go out on duty. Under normal circumstances, the Pantheon did not restrict the freedom of members. It's up to their own wishes to stay. However, since joining the Pantheon, there would always be some rules. Before each member of the Pantheon joined the Pantheon, they would sign a letter of undertaking, and when the Pantheon needed them, they must obey the orders given by the Pantheon.

People who signed this undertaking, but did not want to abide by the Pantheon's orders would be arrested by the Pantheon master and punished accordingly.

Generally speaking, the Pantheon would not deliberately ask members to do anything unless there was an emergency or a major change.

Under normal circumstances, members only need to accumulate enough merits, and the Pantheon would not interfere with what they did in the rest of their time.

After learning about the rules of the Pantheon, Casey planned to report to the Pantheon headquarters first and take a look at how many merits it took to get the Soul Setting Jade. After that, he would go back to B City, and then start doing the Pantheon's task. On the one hand, he could accumulate experience for himself. On the other hand, he could get the Soul Setting Jade for his master as soon as possible.

Thomas had no objection to Casey's decision. Although Casey was different from the other members of the Pantheon in his eyes, and he placed great hopes on Casey.

He didn't intend to ask Casey to do anything now. Before telling Casey about things that others could not touch, Casey had to know more about the Pantheon first and understand the nature of the Pantheon.

Asking Casey to do the task first could not only deepen Casey's understanding of the Pantheon, but also observe Casey's mind to see if he was really the right person.

Not long after, the two came to a hinterland of Kunlun Mountain. A long distance apart, Casey saw many tall buildings as well as a checkpoint. There were many people patrolling near the checkpoint.

After the checkpoint, there were many buildings, and they all seemed very modern in style. Some buildings even lead directly into the mountains. A building of this scale was not a small project at first glance.

According to Thomas, this was only a

small part of the Pantheon. In the entire Kunlun Mountain, there were nine places like this one, and each place had its own duty and bore different needs for the operation of the Pantheon.

Casey looked at this place like a secret military base with a face full of surprise, and said, "It is unexpected that the Pantheon could build such a huge base in the mountains. I thought you, like those secluded sects, stayed in a more archaic place."

Thomas smiled and said, "In the era of development, we naturally had to keep up with the pace of the times. If we are still like those secluded sects, in such a desolate place, we will basically be disconnected from the outside world. How do we know what are happening throughout C Country."

"Throughout the Pantheon, the mountain where I am located is retro. After all, I'm over a hundred years old. The architectural style here is what young people like."

After hearing what Thomas said, Casey felt that there was some truth in it. The Pantheon had to keep abreast of external information at all times, and the assistance of science and technology was naturally indispensable.

"Later, you can take the access order I gave you and go there to register directly. Someone will take you to a special place to register. If you are lucky, you can meet some people who also come to the Pantheon to register."

"I won't go with you. Although I found you specifically, you may not want to be treated specially. As for the things I told

you before, you can think about it, and we can talk about it in the future. "

Thomas said, looking at Casey.

Casey nodded, did not say anything, and continued to walk forward.

After a while, Casey wanted to ask Thomas about the specific registration process, but when he turned around, he found that Thomas had disappeared.

Casey did not know when he had left.

Looking at the empty mountain range behind, Casey also shook his head and smiled, thinking that the strength of this old guy was really terrifying, and he didn't notice anything when Thomas left.

Casey wondered that whether Thomas was more powerful than his master.

Not long after, Casey walked to the checkpoint. The people inside had already noticed Casey, but they didn't move much and kept watching Casey walk to the outside of checkpoint.

"Who are you?" The two people guarding the checkpoint stared at Casey, and one of them asked.

Casey took a look at these two men and found that both of them were powerful. It seemed that the Pantheon was really a strong organization. Even the gatekeepers were so strong, it was no wonder that it was the largest organization in C Country.

Casey took out the access order given by Thomas, handed it to the man, and said, "I'm here to register."

The man took the access order, took a closer look, and murmured, "Another one to register. It's really lively today. He is the fifth one today."

After speaking, he looked at Casey and

said, "Come with me, I will take you in."
Casey nodded and followed the man inside.

Chapter 876 Listening to Others Talk About Him

The man brought Casey to the door of a building connected to the mountain.

Through the window, Casey could see that there were already four people of different ages waiting inside.

"Go in by yourself. The four of them also came here to register. Later, there will be a dedicated person to test you. After passing the test, you can officially join the Pantheon," the person said.

Casey was taken aback, and asked, "Do we still need to pass the test?"

"Of course. Although Pantheon's access order is enough to prove your strength, but we don't know whether the people who recruited you will be misguided.

There have been many such cases before. So, it is necessary to conduct a strength test for the people who come to register," the person replied.

Casey nodded.

"Please note that the person who will test you is Vermilion Bird. She is notoriously grumpy. You'd better not provoke her, otherwise you will suffer today," the person said.

Casey smiled and said, "Thanks for reminding me."

The man said nothing, turned and left here, and Casey also walked into the hall.

The man who took Casey suddenly stopped, turned and looked at the hall, and muttered, "Well, that man looks so young. He may be only over 20 years

old. How strong can such a young man be? Who recruited him? It stands to reason that even if the masters who recruit new members are mistaken, they should know it, right?"

"Could he be a peerless genius?"

After thinking about it, the man continued to walk towards the front. Anyway, he was just standing guard at the checkpoint. Whether Casey really had strength had nothing to do with him. In the hall, the four people were standing together talking.

These four people were not young. Looking at the youngest one, he was also over forty years old, and the oldest one was about sixty years old.

After Casey entered the hall, he felt that these four people actually had the aura of the Grandmaster Circle. Although their auras were different, they were indeed Grandmasters.

Among them, the oldest one seemed to reach the advanced stage of Grandmaster Circle.

It seemed that the Pantheon really deserved to be the best organization in C Country. Casey met so many masters of Grandmaster Circle on the first day of coming here. How frightening it would be if all the forces of the Pantheon gathered together.

He noticed that oldest man seemed to be leader of them, and the other three people were respectful to him.

As soon as Casey entered the hall, all four of them looked towards him, and they were all a little surprised to see Casey at such a young age.

But they quickly realized that young

people who could appear here were most likely the apprentices of some powerful masters in the Pantheon. Such people were the last to provoke. Since they could become the apprentices of the masters in the Pantheon, their talent would be great.

The elder smiled directly at Casey and said, "Sir, I am Middleton, from the Stewart family in K City. You are an apprentice of a certain expert, right? Can you tell us what kind of test we will take later?"

Casey stared at Middleton, and he remembered the two people he met when he went to Valley of Medicine God. They both claimed to be from the Stewart family in K City. Casey wondered what the relationship between Middleton and the two people he met was.

The three people around were also looking at Casey with diligent expressions, obviously all of them were flattering Casey.

Casey glanced at them and said, "You have misunderstood. I'm here to register, so I don't know what the test will be later."

Middleton and the others were stunned when they heard Casey's words. They re-evaluated Casey immediately, but they didn't expect him to register.

Casey looked too young.

However, they didn't mean to be negligent. After all, people who could come to the Pantheon were very strong.

"It turns out that you came to register too. It's a blessing to have a chance to join the Pantheon at such a young age.

You must be so talented. It's our fate to meet here," Middleton said. Although he said so, but in his heart he felt that Casey entered the Pantheon by connections. Because, he was at the Circle of Grandmaster, he couldn't even see Casey's strength. He thought it was because Casey was too weak.

Middleton was prestigious in K City, and his interpersonal relationship was naturally exquisite. Even if he had this kind of speculation in his heart, he would not reveal the slightest.

Casey just smiled at him and didn't say anything.

When Middleton saw that Casey didn't mean to talk to them. They just greeted Casey politely and didn't pay attention to Casey anymore.

For this kind of people who come in through the back door, as martial arts practitioners, they naturally despised Casey. People who practice martial arts paid attention to their strength. Even if they could get some convenience by connections, it was also despised.

Middleton and the others were chatting, and Casey stood by and listened to them chatting. From Middleton's words, Casey confirmed that he was the father of McCoy and Astrid, whom he had met in Valley of Medicine God. Because what Middleton talked about at this time was exactly what happened in Valley of Medicine God.

"According to my son, the master named Casey fought against the many Grandmasters in the Valley of Medicine God, and still did not lose. In the end, he used magical means. He hit someone

with one palm, and it turned out to be huge phantom. Finally, he defeated all the Grandmasters in the Valley of Medicine God. This kind of strength is already beyond our imagination."

"And Casey is only about the same age as my son. He is the invincible genius in the world."

Middleton spoke with excitement, as if he had experienced it personally.

The three people around were also amazed, and they didn't expect there to be such a powerful person in this world. Casey listened to these people talking about him, and suddenly felt a little funny, but he didn't say anything, just standing aside with a smile.

Middleton noticed that Casey was listening to him chatting. But when he saw Casey showed such a contemptuous smile on his face after listening, Middleton felt that Casey was an arrogant and ignorant kid. He was afraid that Casey might have a backer in the Pantheon. Otherwise, he would have to reprimand him.

After a while, the sound of high heels sounded. Then they saw a tall woman wearing black tights, long hair and beautiful but cold face. Surrounded by several men, she came to the hall.

Chapter 877 Vermilion Bird

The woman scanned the people in the hall, and when her gazes fell on Casey, she was also slightly surprised, and she seemed to think Casey was too young.

But she didn't care it so much like Middleton. She just glanced at Casey and looked away. After all, in the Pantheon, there were many people with

extraordinary talents. And she was one of them.

Casey also stared at the woman. He thought that this person was Vermilion Bird that the person said at that time. He felt her aura and was a little shocked. This person's strength was also at the advanced stage of Grandmaster Circle. And she seemed to be only twenty-eight or ninety-nine years old. Her talent was not much worse than that of Hancock. Casey didn't know that Vermilion Bird was actually in her thirties. She was well maintained, so she looked almost like a twenty-eight or nine-year-old woman. Middleton and the others also felt the aura on Vermilion Bird, knowing that she was not a person to be trifled with. They immediately showed a respectful look.

"You are the ones who are here to register this time?" Vermilion Bird asked, staring at Middleton.

Middleton hurriedly bowed to Vermilion Bird and said, "Yes."

"OK, my name is Vermilion Bird. I am the person responsible for testing you this time. Later, you have to do whatever I ask you to do. Don't talk nonsense. Otherwise, don't blame me for being rude. Do you hear?" Vermilion Bird said a little impatiently.

They nodded quickly, not daring to neglect. The Pantheon was different from the outside. Outside, they were masters respected by everyone, but in the Pantheon, they were just ordinary members. There were many experts and talents here. Their strength was inappreciable.

After Vermilion Bird finished speaking, she led a group of people into the hall. Everyone did not dare to hesitate, and hurriedly followed.

Casey followed, not knowing what kind of tests the Pantheon would arrange for them.

However, it shouldn't be too complicated. After all, they just had to prove their strength. There's no need to make the test too cumbersome.

The more they went inside, the colder Casey felt. It seemed they had now entered the mountain. The Pantheon was very great that it could hollow out the whole mountain and build it like this.

Soon, everyone came to a place that looked like a training room. The area inside was very large, with a very large ring in the middle. At this time, there were already five masters of the Pantheon wearing black clothes in the room. Casey took a closer look and found that these five people were all masters of Grandmaster Circle.

"The test is very simple. You have to come on stage one by one, and someone will come up to fight against you. As long as you can fight with them a hundred moves, you will pass the test and will be regarded as officially joining the Pantheon. If you fail, get out as early as possible. Do you understand?"

Vermilion Bird stopped and said to them.

They all nodded.

"Let's start the test, who will go up first?"

Vermilion Bird continued speaking.

Middleton smiled and said, "Then let me try first."

After speaking, Middleton walked to the edge of the ring and jumped up.

One of the five masters standing there also stepped out and jumped into the ring.

The battle between them began very quickly. Middleton was at advanced stage of Grandmaster Circle. Naturally, he should not be underestimated. The master of the Pantheon was even on the back foot, and was about to lose.

After they shook hands with each other, they both got off the ring.

Vermilion Bird glanced at Middleton with some appreciation, and said, "The Stewart family in K City is indeed a famous family. You are a great master."

Middleton immediately thanked

Vermilion Bird with some pride, and

said, "Thank you for you praising."

Vermilion Bird didn't say anything,

looked at the remaining four people, and said, "Next."

Immediately, another person walked towards the ring and fought against the master of the Pantheon.

Casey looked a little out of place among them. He didn't care about this so-called test at all, thinking about what kind of tasks the Pantheon would give to him.

Vermilion Bird stared at Casey and saw that this young man looked ordinary, not like a genius, and wondered how he got in.

Many members really joined the Pantheon by the back door. After all, in addition to the masters, there were also some daily maintenance staff. Being able to work in the Pantheon would have a lot more opportunities than

others, so many people would try to join the Pantheon.

Looking at Casey's unremarkable appearance, Vermilion Bird suddenly thought that Casey had come here by the back door.

Others may not mind it. After all, the status of those who could bring people to the Pantheon must be not low. No one wanted to make trouble for themselves.

But Vermilion Bird was different. She had always been a serious person, and she looked down on those who come in by the back door. Anyone who came in by the back door was unlikely to stay in the Pantheon when met her. Therefore, everyone would avoid Vermilion Bird when they helped people join the Pantheon.

Among the people who came today, it was true that they all came in by their own strength.

It's just that Casey was too young and low-key, which made people think that he was just an ordinary person. Thus, Vermilion Bird would think that he come here by by the back door.

Her thoughts and Middleton's thoughts were basically the same.

After staring at Casey for a while, Vermilion Bird walked up to Casey and said, "Hey, my shoes are dirty, wipe them for me."

Casey came back to his senses, and glanced at Vermilion Bird, with a confused look. He didn't expect this woman to let him wipe her shoes.

"Sorry, you can wipe your shoes yourself if they are dirty. I'm not here to

be a servant," Casey replied.
Vermilion Bird suddenly became curious. She originally wanted to test Casey. If Casey really came in by the black door, he would definitely listen to her, and she would be able to make fun of him.

But she didn't expect that Casey would answer like this.

"Do you know that if you don't listen to me, you won't be able to enter the Pantheon?" Vermilion Bird said.

Casey frowned, feeling that she was deliberately making trouble for him.

"Why, the Pantheon has also been eroded by someone like you who abuses power?" Casey asked.

Vermilion Bird's eyes widened immediately. She originally wanted to humiliate Casey, who came here by unfairly trick. She didn't expect Casey to accuse her, which made her angry.

Chapter 878 You Begged Me to Come Here

"Boy, do you know who you are talking to? When did I abuse my power? Are you qualified to say this to me?"

Vermilion Bird shouted at Casey.

Casey curled his lips and said, "Am I wrong? If I don't shine your shoes, you won't let me enter the Pantheon. You satisfy your private desires through your rights. Isn't it an abuse of power?"

Vermilion Bird became angry when she heard it. She was just trying to test Casey. She didn't expect Casey to censure her, and her fists were clenched in anger.

"You bastard. I was... I didn't expect you

to be quite quibble. I really underestimated you." Vermilion Bird wanted to express her thoughts, but soon changed her words.

"I'm not quibbling, just stating the facts," Casey said lightly.

Middleton and the others looked at Casey in surprise, and felt that Casey would be in trouble as he dared to talk to Vermilion Bird in this way.

Vermilion Bird snorted coldly and said, "How did you get the access card for the Pantheon? What kind of tests have you gone through?"

When Casey heard the question, he was stunned. Thomas gave him the access card directly. He really did not take any test. After all, it was that Thomas invited him to join the Pantheon.

"There is no test, it was given to me directly by an old man," Casey replied.

Like catching Casey's mistake, Vermilion Bird showed a sneer on her face and said, "I didn't expect that you really came here by unfair trick. How could such an ordinary person like you be able to join the pantheon. How dare you who came in by unfairly trick say that I am abusing my power? I was just trying to test you."

"Unexpectedly, not only did you come in by the back door, but you were so self-righteous. It's ridiculous! With me today,

no matter which master of the Pantheon you have a relationship with, I will never let you join in the Pantheon!"

Casey looked at Vermilion Bird a little speechlessly. He didn't expect that she actually thought he came in by the back

door.

"It's clear that the Pantheon begged me to come here. When did I get in by unfair trick?" Casey said coldly.

Vermilion Bird sneered after hearing Casey's words, and said, "Have you never heard of the strength of the Pantheon? Why are we going to ask you, an ordinary person to join in the Pantheon? Do not be so stupid when bragging."

Middleton and others were also stunned by Casey's words. Although they were recruited by the Pantheon, they had to pass many tests before they were eligible to come to this place. How could the Pantheon beg someone to join it?

"Man, do not confront with Vermilion Bird here. Apologize to her quickly. It is not good for you to do so," Middleton said, looking at Casey.

Casey snorted and said, "If you don't believe me, you can ask your Lord. I'm not bored enough to make this kind of joke with you."

Vermilion Bird naturally didn't believe it. What's more, he actually wanted her to go to the Lord. It was nonsense. How could they meet the Lord at will?

"I don't care if you're joking. Since you are sure that you are invited here, then I have to see how strong you are. As you dare to be so arrogant, do you dare to fight with me in the ring? "

Casey curled his lips and said, "Why not?"

The people from the Pantheon actually despised him so much. If he had got the Soul Setting Jade yet, Casey would have already turned around and left.

But since Vermilion Bird said she was going to fight with him in the ring, Casey naturally wouldn't mind. By then, Vermilion Bird would know if he had come by his own strength.

Hearing Casey's promise, Vermilion Bird was also a little eager to try. She was most uncomfortable with such arrogant person who was obviously incapable. Since Casey dared to promise to fight her on stage, she naturally had to beat up Casey.

When Middleton and others saw that Casey dared to agree to Vermilion Bird's challenge, they thought he was really presumptuous.

"He really had no self-knowledge. I'm not even sure I can beat her. How could he, such an ordinary man, be qualified to fight Vermilion Bird. He is purely dicing with death," Middleton thought. After a while, the person on the ring completed the test and jumped off the thunder ring.

Vermilion Bird walked towards the ring and glanced at Casey.

Casey didn't hesitate, and followed her towards the ring.

Watching them enter the ring, Middleton also made a contemptuous voice at Casey, and said, "Unexpectedly, he is really courageous. He even dares to provoke Vermilion Bird. He will suffer a lot."

"Lord Middleton, who is Vermilion Bird? I can feel her strength is quite great, and she is a woman. She is really amazing," the person on the side asked.

"It is rumored that the Pantheon has four top masters. They are Azure Dragon,

White Tiger, Black Tortoise and Vermilion Bird. The strength of these four masters has reached the point where ordinary people can't match it, and Vermilion Bird is the weakest and youngest among the four."

"Although she is the weakest among the four top masters, she is only in her thirties, and she is one of the best geniuses in the Pantheon. Her current strength should have reached the advanced stage of Grandmaster Circle. She is about to reach the stage of sublimation."

"Although I can be regarded as being at advanced stage of the Grandmaster Circle, the chance that I can beat her is no more than 30%."

Middleton explained to everyone that he had heard something about the four top masters of the Pantheon.

After the three people heard Middleton's words, their faces were suddenly full of shock. They didn't expect this woman who was still so young to be so powerful.

"In this way, that man is really in trouble." They were gloating and looked at Casey.

On the ring, Casey and Vermilion Bird stood opposite each other. Vermilion Bird didn't take Casey seriously at all, thinking that she could knock him out easily.

Of course, Casey had the same thoughts as Vermilion Bird in his heart at this time, and he thought he could beat Vermilion Bird to the ground with just a few movements.

"Man, if you can insist on ten moves

when fighting with me today, I will make an exception to let you join the Pantheon, but if you can't, you have to get out of here as soon as possible!"

Vermilion Bird said coldly.

Casey stretched out a hand at Vermilion Bird, showing three fingers.

"Three movements, if you are still standing on the stage after three movements, I will leave."

Chapter 879 You're Shameless

Vermilion Bird looked at the three fingers that Casey had stretched out, and a mocking expression suddenly appeared on her face. She said, "It's the first time I've met someone as arrogant as you. I think I am a good genius. I don't dare to say that I can defeat a master who is at the same level as me in three moves. How dare you, a young man in your twenties, dare to say this to me. I want to see why you are so confident. "

After finishing speaking, the aura of the advanced sage of Grandmaster Circle in her body broke out in an instant, shocking everyone present.

Middleton and the others looked at Casey with a bit of contempt. They felt that Casey was a junior, no matter how, he was unable to beat Vermilion Bird with three moves.

Unless, he was a master at the stage of sublimation.

Few people could reach the stage of sublimation at Casey's age. They didn't think Casey was a master at the stage of sublimation

"This man is really arrogant. It's not a

good thing to anger a master at the advanced sage of the Grandmaster Circle."

"He asked for it. He would be fine if he apologized at that time. I didn't expect him to fight against Vermilion Bird. Well, not only could he not enter the Pantheon, he may also have to lose his life."

"Did he want to keep up appearance when he found the person in charge of the test is a beautiful woman, and cause the current situation?"

"It is good to be young and vigorous, but it is not the right time now. Vermilion Bird is indeed a rare beauty, but she's not a woman he can get. He asked for it."

...

Casey felt the aura of Vermilion Bird, and also showed a look of appreciation. She was one of the top masters at the advanced stage of Grandmaster Circle. However, no matter how powerful she was. As long as she had just reached Grandmaster Circle, it was nothing in the eyes of Casey, who had reached half sublimation.

"Let you taste how good I am!"

Vermilion Bird yelled at Casey, and then rushed towards Casey.

At the moment Vermilion Bird rushed in front of him, Casey pushed out his palm directly, a faint phantom appeared in the air, and the power carried by it directly stopped Vermilion Bird.

"What! He actually created a phantom!"

Middleton and the others who were watching the battle on the edge of the ring were instantly wide-eyed.

Vermilion Bird was also stunned and stopped directly because of the appearance of this phantom.

Casey didn't use much power, he just wanted Vermilion Bird to stop. After seeing Vermilion Bird stop, he quickly rushed to Vermilion Bird, smiled at her, and said, "It's not a wise decision to be stunned at this time."

After speaking, he raised his hand and patted Vermilion Bird's neck, and Vermilion Bird immediately lost her strength.

Casey reached out and grabbed one of her arms, and the other hand caught her thigh, lifted her directly, and walked towards the edge of the ring.

Vermilion Bird immediately resisted, but she was clamped by Casey and couldn't use the slightest strength. In addition, Casey's hand was on her thigh. No one had touched her thigh since childhood. Now she was caught by Casey. She felt ashamed and angry, but she had no way out.

"You bastard, let me go!" Vermilion Bird shouted.

Casey didn't care her yelling at all.

When she walked to the edge of the ring, he let go and threw her off the ring. For so many years, Vermilion Bird had never experienced the pain of falling. Now Casey threw her down directly. She fell to the ground without any precautions, and screamed instinctively. Middleton and the others watched this scene dumbfounded. Casey actually threw Vermilion Bird off the ring, instead of knocking her out, which really surprised them.

Vermilion Bird also glanced at Casey on the ring with resentment. Although she was more than 30 years old, everyone at the Pantheon humored her, and no one dared to be so rude to her.

"Now I can join the Pantheon?" Casey stared at Vermilion Bird and asked, without any thoughts of being gentle to her.

Vermilion Bird looked at Casey angrily. Although she was very angry at Casey's move to throw her off, the power Casey showed at that moment shocked her. If Casey really reached the stage of sublimation at this age, it was possible that he was invited here.

"No matter how, I'm an elder. If you just beat me, I won't say anything, but you actually threw me off the ring like this. Did you deliberately want to humiliate me?" Vermilion Bird ignored Casey's question and yelled at him.

Casey looked at her and replied, "I'm sorry, it was my third move, and I didn't mean to humiliate you at all."

Vermilion Bird subconsciously touched the place where Casey had just grabbed her thigh. She was in her thirties and was even thrown down by a young man like this, which was really embarrassing. "You haven't answered my question," Casey asked again.

Vermilion Bird stood up from the ground and looked at Casey very uncomfortably. Although she wanted to drive Casey out directly, Casey's strength had already explained everything. If she drove out such a wizard, the lord would kill her.

"Your strength has reached the sage of

sublimation?" Vermilion Bird asked.

"Not yet, I have just reached half sublimation," Casey replied lightly.

Vermilion Bird was still shocked. Being at the stage of half sublimation was still quite terrifying.

"Well, for your great talent, I will embarrass you today. But I won't forget about you throwing me off the ring, and I will get even with you in the future," Vermilion Bird said.

Casey looked at Vermilion Bird in a puzzled manner. He was just throwing her off the ring. This was because she was not as powerful as him. It was really unreasonable that she wanted to get even with him.

"I said I would get you out of the ring with three moves. I really only used three moves. You are worse than me. Why are blaming me? Are you so untrustworthy?" Casey said.

For some unaccountable reason, Vermilion Bird always feels that Casey the nemesis of her own fate. She could have taken the lead in anything originally, but now she was controlled by Casey now.

"You...you are so shameless!" Vermilion Bird shouted at Casey.

"Why am I shameless? You have to have proof to speak. You're like a bitch without proof," Casey said.

Vermilion Bird was anxious, her face turned red, then he pointed to Casey's nose and said, "You touch my thigh, Is this shameless!"

Chapter 880 I Never Wanted to Take Advantage of You

Casey looked at Vermilion Bird with astonishment, and then looked down at Vermilion Bird's two delicate long legs, suddenly feeling a little embarrassed. He just needed to pinch an acupuncture point on her leg in order to seal the strength in Vermilion Bird's body. He hadn't even considered that it was a woman's thigh.

It's no wonder that Vermilion Bird has a shy and annoyed look on her face at this time. It turned out that she felt that she had been flirted with.

But no one would consider these things during the battle. If the opponent was her enemy, could she still ask the opponent not to touch her when fighting Middleton and the others did not expect that Vermilion Bird would care about this, but now they were no longer daring to say anything. The strength that Casey showed just now had already frightened them.

"I... I'm sorry, I didn't pay attention to this issue during the battle just now," Casey apologized to Vermilion Bird.

Vermilion Bird still glared at Casey, and said angrily, "I think you did it on purpose. I am a few years older than you. You dare to take advantage of me on purpose. You disrespect the elders. I won't let you go!"

"Don't think that if you are strong, I will forgive you. If you are lack of sincerity, no matter how strong you are, it will be useless."

Casey looked at Vermilion Bird and felt that she was five or six years older than him. She claimed to be an elder and said he didn't respect her. It was really

unreasonable.

Moreover, he always thought he was an honest man, how could he be a person with evil intentions? Obviously, she thought too much.

"You may have misunderstood. I really didn't mean to take advantage of you. From the beginning to now, I haven't paid attention to your look. In my eyes, you are just a person in charge of testing. Why would I want to trifle with you," Casey said.

Vermilion Bird's eyes widened immediately. She felt that Casey meant to tell her that he didn't treat her as a woman at all.

Such remarks were undoubtedly the biggest insult to a woman.

Naturally, Vermilion Bird was very angry at him for taking advantage of her, but Casey said he didn't notice her appearance. Wasn't this a satire of Vermilion Bird's narcissism?

She gritted her teeth and looked at Casey, really feeling that she had run into a nemesis she had never encountered in her life.

However, Casey was so strong that she was no match for him. Moreover, he was a unique genius, and she certainly could not drive him away. So, she finally came to the conclusion that she could only bear it.

"You win. But don't think it's over. Even if you are a unique genius, after entering the Pantheon, I will still be your superior. Don't let me catch you out, otherwise I will definitely make you suffer,"

Vermilion Bird said to Casey viciously.

Casey shrugged, saying it didn't matter.

Vermilion Bird looked at Middleton and the other three people, and shouted, "What are you still doing here? Whose turn is it?"

Middleton and the three people were all taken aback by Vermilion Bird's attitude, and they did not dare to neglect at all. A person rushed towards the ring side. After that, the remaining two people took the test under Vermilion Bird's angry gazes. Both of them were a little trembling, for fear that Vermilion Bird would directly drive them out in anger. Fortunately, both of them had real learning, and both were masters at Grandmaster Circle, so they both passed the test.

After all the people were tested, Vermilion Bird led them and walked towards the inside of the mountain. Middleton was very curious about Casey's identity, so he approached Casey and asked, "Sir, your strength is so outstanding. You're really a rare genius. Would you like to tell me your name?"

Casey glanced at him and said lightly, "Casey."

Middleton was shocked when he heard the name. Although he had guessed he was Casey at that time, he was not sure. After all, even Casey's strength demonstrated in Valley of Medicine God did not reach the stage of sublimation, and the one in front of him had the strength of sublimation.

Now that Casey said his name, Middleton was still very shocked. "Could it be that you are the peerless genius in Valley of Medicine God, who

had resisted the joint efforts of more than a dozen Grandmasters?" Middleton asked.

Casey didn't deny it, and nodded. Middleton suddenly became a little excited, and hurriedly followed Casey and said, "What a fate. My son and daughter were also in Valley of Medicine God at that time. My son is McCoy Stewart and daughter is Astrid Stewart. They said that they went to the Valley of Medicine God with you. Do you remember them?"

"Yes, but only just," Casey replied. Middleton suddenly felt that the relationship between himself and Casey had become much closer, and being able to have a relationship with such an enchanting genius naturally had huge benefits.

The three people around looked at Middleton with envy, and they obviously wanted to get close to Casey.

"You should be at the advanced stage of Grandmaster Circle when you were in Valley of Medicine God, right?"

Unexpectedly, after only a few months, you have reached the half sublimation, which is really amazing," Middleton said. This time it was not only Middleton who admired Casey, but even Vermilion Bird turned her head and glanced at Casey, with surprise in her eyes. It seems that she did not expect Casey to reach the half sublimation from the advanced stage of Grandmaster Circle in such a short time. .

"No matter how talented he is, he's still a dirty dog," Vermilion Bird murmured. Casey looked helpless, it seemed that

his image in Vermilion Bird's heart was difficult to change.

Not long after, Vermilion Bird led everyone to a room full of display screens. There were many technicians working in this room.

Middleton and the other three people were not young anymore, and they were not very familiar with these electronic devices, but Casey didn't feel anything special.

"This is the main control room where the Pantheon publishes tasks. Later, I will ask the staff to register an account for each of you. In the future, you can use this account to log in to the Pantheon's exclusive website and take over tasks on it," Vermilion Bird said.

Middleton and the others were a little embarrassed at once, and it was obvious that they were not very good at using computer.

"Vermilion Bird, we don't know anything about computer. What can we do?"

Middleton said.

Vermilion Bird glared at him immediately, and said, "If you don't know it, go to learn it. You have all reached the Grandmaster Circle. can't you learn such a simple thing?"

Seeing Vermilion Bird's impatient look, Middleton suddenly didn't dare to say anything.

Casey didn't care about Middleton and other people, but walked to the display screens and looked a

Chapter 881 Sampson

Casey stared carefully at the List of Rewards. In addition to some names, there were also photos corresponding to

these names, as well as some basic information about these people.

What Casey didn't expect was that the top ten on List of Rewards turned out to be masters at stage of sublimation.

Although most of them were in the early stage of sublimation, that was enough to surprise Casey.

When Casey had never contacted the Grandmaster Circle before, he always felt that it was very difficult to reach Grandmaster Circle, so the number of masters at Grandmaster Circle was small. However, after Casey's strength reached Grandmaster Circle, even half sublimation, the Grandmasters he came into contact with had increased.

Now Casey had the strength of half sublimation. He also met masters at stage of sublimation, even old monsters such as Thomas and Fleming.

Sure enough, people's communication circle was determined according to their own strength. When a person had only 100000 dollars, he would feel that there were few millionaires. However, when a person really had millions of dollars, all around him would become millionaires, and at this time, he would feel that there were few multimillionaires.

Actually, there were still many multimillionaires. The reason for people had such a feeling precisely because they were not rich enough to meet the people in that circle.

Now Casey barely stepped into the circle of the strong, and he would naturally meet a master at the same level as him.

Martial Arts had been passed down for

thousands of years in C Country. Although there were few masters who had reached sublimation in the world, Casey only knew a small part of them. The ten people in the top ten of List of Rewards were all evildoers with great strength. The description of their crimes was very detailed. After reading it, Casey was a little emotional. He couldn't think of people with such great strength would do things that only people with twisted minds would do.

Ranked seventh among them was a person named Wolfe. He had reached early stage of sublimation and had great talent. When he reached the strength of the early stage of the sublimation, he was only in his forties.

He was lecherous. Relying on his powerful strength, he forced some girls to become his toys, and his tricks were heinous.

There were many girls destroyed by Wolfe, and he had done many things that violate the rules of the Pantheon, so he was an important target of the Pantheon.

It's just that Wolfe was and escaped quickly. Even if the Pantheon had many masters, it had not been able to catch Wolfe.

Most of the people on List of Rewards committed a crime similar to Wolfe, or even worse than Wolfe, so they became the target of arrest. With the Pantheon's capture, these people would restrain themselves.

Of course, only people at the sage of sublimation were able to catch those people.

Casey glanced at the information of these people on List of Rewards, and finally set his sights on the first name. Sampson.

The person ranked first had only one name, no photo. The introduction about him was very short: 'This person will threaten the safety of the Pantheon and the entire world.'

It made Casey very interested in Sampson.

He didn't know what kind of person could be recognized by the Pantheon as an existence that could threaten the security of the world. What level of strength did this person have?

And there was no information about Sampson above. Even if masters of the Pantheon were powerful, they would have no way to catch this person.

Vermilion Bird saw Casey staring at List of Rewards, walked to his side, and said, "Although your current strength is not weak, and you have reached half sublimation, but the top ten offenders on List of Rewards have reached sublimation. You just joined the Pantheon, so don't think about catching these people on List of Rewards."

Casey ignored Vermilion Bird's words, but asked, "Who is Sampson? Why is there no information about him except one name?"

Hearing Casey's question, Vermilion Bird said, "Sampson is the most mysterious and powerful enemy the Pantheon has encountered since its establishment. Among the Pantheon now, only the lord knows the details of Sampson."

"Since the lord master knows his details, why not announce it so that it will be easier for everyone to find where Sampson is?" Casey asked on confusion.

Vermilion Bird glanced at Casey and said, "Sampson is not as simple as you think. According to the Lord, Sampson is extremely dangerous. No one in the Pantheon can subdue him. Even if the Lord was not sure to beat him, rushing to investigate Sampson's affairs will only cause trouble for yourself."

"So Lord just announced Sampson's name to let everyone know that there is such a person, so that everyone can be alert."

"Furthermore, it is said that Sampson has lived for more than two hundred years. This person was still an active offender when the last Lord came to power. Now the last Lord is more than one hundred and fifty years old.

Sampson is much older than him, which could show how scary he was."

Hearing Vermilion Bird's words, Casey was also shocked. Originally, Casey thought it was very amazing to live more than one hundred and fifty years.

Unexpectedly, there was still a person more than two hundred years old. Could strong enough strength prolong life?

"This kind of person would be quite scary to live in the world, right? Why doesn't Lord gather all the power of the Pantheon and get rid of him?" Casey asked.

"In fact, Sampson has hardly appeared in people's sight in recent years. At least the Pantheon has never noticed such a

person. So everyone just knows that there is such an old monster, but they don't take it seriously," Vermilion Bird explained.

Casey frowned and asked, "Then how do you know he is still alive in the world? Since he hasn't appeared for a long time, what if he is dead?"

"Lord said is very sure that Sampson is still alive. I don't know why," Sampson replied.

Casey was thoughtful, and it seemed that Sampson was indeed extraordinary. Of course, his current strength was not enough to understand things at this level, so it was useless to think more.

"Don't be complacent as you are talented. If you meet anyone in the top ten of List of Rewards, you'll die. You should start with the simplest task of the Pantheon first." Vermilion Bird said angrily to Casey. Because of her first impression, she didn't like Casey.

"Yap."

Casey just answered faintly, then turned around and stopped paying attention to her.

Chapter 882 Spring is Coming

After the report, Vermilion Bird walked out holding the letter of commitment sighed by Cass and other four people the data of five people with a mad look.

"Casey, you baster, I have remembered you! I have never been treated like this. Don't think you can be so arrogant because you have talent. My three brothers are the masters of the sublimation. One of them can take care of you easily. Wait and see, I will take revenge on you!"

She said angrily and rushed to the mountain where Thomas was with those data.

And in the room to sign the letter of commitment, Middleton looked at Casey with hesitation and then said, "Casey, I know you are capable and have outstanding talent, but the background of Vermilion Bird is not simple. She and the three masters of sublimation were the four famous masters in the Pantheon. They are Azure Dragon, White Tiger, Vermilion Bird and Black Tortoise, they have horrible strength."

"You showed her slightest respect. She cannot defeat you, but she can find helpers. She is the youngest of the four masters and she is a woman. If the other three know it, they certainly won't sit idly by."

Hearing what Middleton said, Casey raised his eyebrows. Since the woman was named Vermilion Bird, he had wondered if there were other three men. And it unexpectedly was true.

And they were masters of sublimation. It was a bit of a problem, but he didn't worry about it. After all, he hadn't done anything wrong. It was Vermilion Bird who had been so aggressive from the beginning.

"Thanks for the warning, but I don't think the other three are unreasonable, so don't worry about me."

With that, Casey turned out of the room and walked to the room arranged by the Pantheon.

In the center hill of the Pantheon.

Outside a simple hut, Thomas sat on a stone bench, leisurely drinking tea.

At this time, Vermilion Bird came over aggressively with a stack of documents to Thomas, and then threw the documents hard on the table.

Thomas asked with curiosity, "What is the matter with you, why do you have such a hot temper?"

Vermilion Bird angrily stared at Thomas, asked, "Did you find the man called Casey?"

Thomas was stunned for a moment, then nodded and said, "Yes, what's the matter? He has a unique talent. Are you angry with his talent?"

"Hum, who would be angry with him about that? He is a man of great talent, but of crooked mind and indecent character. How can we let such a man in?" Vermilion Bird was in a bad mood. "He's a decent man. What did he do to make you so mad?" Thomas asked with doubt.

"He... Hum, he's mean and low, and he doesn't know what to do with his talent. I'll teach him a lesson." Vermilion Bird angrily said.

"Here are the data of five people today. Have a look, I gotta go." Then Vermilion Bird turned and walked down the hill. Thomas looked at Vermilion Bird left with a smile and did not say anything. Vermilion Bird was taken back by Thomas when he was traveling the world. She had no father and mother, and had grown up in the Pantheon, and Thomas treated her as his own granddaughter. Plus Vermilion Bird was lovely, many people in the Pantheon treated her as a princess, so Vermilion Bird had her status in the Pantheon.

It could be told from the way she spoke to Thomas just now.

She was a person whom could not be provoked, but Casey was contemptuous to her, so she could not bear it.

"He proved Vermilion Bird in his first time, it seems that she met with a Nemesis." Thomas touched his beard and smiled.

"However, this year, Vermilion Bird is more than 30 years old. If she looked for a man, her temper would be more and more irritable, it is good that there was someone to control her."

"Unfortunately Casey is already married, otherwise, it is good to match them. It is not easy for a man to control Vermilion Bird."

After drinking a cup of tea, Thomas smiled and shook his head, no longer thinking about it. Then he took out the bottle of Scarlet Sun Wood from his clothes, and his eyes suddenly became profound.

"I have brought the Scarlet Sun Wood back, so I can't delay any longer. Tomorrow I will go to the center of earth and help him consolidate it."

...

After leaving the mountain, Vermilion Bird did not go straight back to her home, but went all the way up another hill, through a hidden hole, got into the mountain.

The inside of the mountain looked much more high-tech than the mountain of Thomas. Once you enter it, you will find a long corridor, and the light will set off the inside as if it were daylight.

Vermilion Bird walked a long distance

toward the inside, came to a refinement room, where three men are training. This three people were the masters Azure Dragon, White Tiger and Black Tortoise.

Although the three were all in their 40s, and the oldest was in his 50s this year, they still looked young because of their strength.

Vermilion Bird went in and then menacingly said to the three, "I was bullied, and you three are still training here?"

The three people all opened their eyes. The eldest man Azure Dragon smiled and looked at Vermilion Bird and opened his mouth, "You are bullying in the Pantheon, who dare to bully you?" White Tiger and Black Tortoise stared at Vermilion Bird and laughed.

Vermilion Bird stared at Azure Dragon, and then told them what happened today.

After listening, the three were thoughtful. Vermilion Bird felt that the three would avenge her.

Azure Dragon turned to see White Tiger and Black Tortoise and asked, "Vermilion Bird is 30 years old, right?" White Tiger and Black Tortoise nodded their heads.

"Nonsense, I am only 29 years old!"

Vermilion Bird called out to them.

Azure Dragon took a look at her and then murmured, "You care about your age now? You did not before."

"I guess that Vermilion Bird's spring may be coming."

Chapter 883 Rob the Cradle

When Vermilion Bird heard Azure

Dragon's words, she opened her eyes wide and said, "Azure Dragon, what nonsense are you talking about?"

Azure Dragon ignored Vermilion Bird, but looked at White Tiger and Black Tortoise and asked, "Do you remember that there was a man provoked Vermilion Bird when he joined the Pantheon? What did she do?"

"I remember, at that time Vermilion Bird came to me and asked me to help her. I went to argue with him and found that the man was really unreasonable, so I fought with him." Black Tortoise immediately said.

"If I remember correctly, it was also a report. Vermilion Bird felt that the man had offended her, so she came directly to find me, but this time she actually endured to the end of the report, and even had a few words with this man. What do you think that means?" Asked Azure Dragon, smiling again.

White Tiger patted his thigh and said, "It means Vermilion Bird likes him!"

"White Tiger, if you talk nonsense again, I will ignore you!" Vermilion Bird stamped feet angrily hearing their words, but she showed a trace of shyness on her face.

"I think what Azure Dragon said is reasonable. This is the first time Vermilion Bird has been so tolerant. And before, if someone took advantage of her, she would ask us to cut off their hands." Black Tortoise followed suit. Hearing that, Vermilion Bird had the impulse to rush to kill Casey. She came to ask the three man to help her, but they thought she took fancy on Casey.

"Don't guessing. He is years younger than me. How could I possibly like him? And he is low and arrogant, I don't like such a man." Vermilion Bird pretended to be calm and said to the three. Azure Dragon smiled and said to Vermilion Bird, "Vermilion Bird, you are no longer young. Even if you are twenty-nine, you are already a big girl. Over the past years, you have been thinking that no one is good enough for you, so you have never considered your relationship. But if you don't take any action, you will be no wanted. "Yes, Vermilion Bird, Casey is more talented than us. He became a half sublimation in his twenties. Even if you have break through now, you cannot catch up with him. What is wrong the age? It is ok to have a boyfriend younger than you." White Tiger, who looked shrewd, said with a smile. But she did realize that she was no longer young. Although her strength had made her look very young, the fact could not be changed. In this way, Casey's talent seemed to make him good enough for her..... 'Oh, what the hell am I thinking about? How could I possibly like him?' Vermilion Bird shook her head. "See, Vermilion Bird hesitates, it seems that we are right." Azure Dragon said with a smile. Vermilion Bird then said angrily, "I am here to ask you for help, but you are worrying about my marriage. Will you help me or not, if not, I will go to others!" "Sure, since Vermilion Bird asked, we naturally will help. Let's go and find him

now and asked why he took advantage of Vermilion Bird." Azure Dragon said righteously and sternly, making a wink at White Tiger and Black Tortoise. Vermilion Bird walked toward outside angrily, followed by the three, to find Casey.

In a room of a building in the mountains, Casey sat in front of a computer. Under the arrangement of Vermilion Bird, he had probably understood some things about the Pantheon, and got a network account to access the Pantheon.

At this time he was browsing the Pantheon's website, trying to find information about Soul Setting Jade.

The main task of this website was to publish tasks for the members of the Pantheon. The members could exchange information or others things they wanted with their rewards.

The inventory of the Pantheon could be found in the website, as well as the information that Casey wanted to know.

But Casey had now just joined the Pantheon, his authority was very low, so he could only see some basic things on the website and had no right to access important information and secrets.

He entered Soul Setting Jade in the search bar of the website, soon it popped up some information about it. Casey took a close look and found that it needed three hundred thousand of rewards.

And among those tasks, the arrest of a master could only win fifty thousand of rewards, which meant that Casey needed to catch six masters to exchange for Soul Setting Jade.

To catch those people on the reward list would get more rewards, but the first three basically could not be caught by Casey, in addition to Sampson, the remaining two were advanced sublimation and medium sublimation separately. If Casey went to find them, he would only lose his own life.

And the fourth to tenth were at the early stage of sublimation, so their value of rewards was not much high, except the tenth was fifty thousand of rewards, the rest were sixty thousand.

Seeing that, Casey suddenly frowned. He did not expect that the value of Soul Setting Jade should be so high, so he had to catch six masters to accumulate enough rewards?

With his strength of half sublimation, it was not easy to beat six masters of sublimation.

The most important thing was that Casey did not know where to find these masters.

"What is the secret of this Soul Setting Jade? Why is it so important to the Pantheon? Isn't this magical jade? Or is there any effect I can't imagine?" Casey muttered to himself.

As he was thinking how to be able to gather enough three hundred thousand of rewards, there was a knock on the door.

"Casey, come out, I come to take revenge! My three brothers are here with me. Let them see how arrogant you are!"

Chapter 884 I Am Married

Casey heard the sound from outside and immediately frowned. He did not

expect that Vermilion Bird would come so soon.

He walked away from the computer and walked to the door. When he opened it, he saw Vermilion Bird standing in front of the door with an angry face and three powerful men standing behind her.

Casey easily felt the three men's power, so he confirmed that the three people already reached the sublimation, and two of them looked not like ordinary master. They must have gone beyond the level of the initial stage of the sublimation.

Vermilion Bird immediately stared at Casey. Think of that her three brothers said she was fancy on Casey, she was angry. How could she take fancy on him?

"These three are my brothers, and they are the most powerful in the pantheon. Apologize to me now, I spare you one based on your talent, or my three brothers would not let you go." Said Vermilion Bird.

Casey looked at the three men behind her and then fixed his eyes on Vermilion Bird, not showing weakness, "I did not do anything wrong, why should I apologize to you?"

Vermilion Bird immediately got furious, "You touched my thigh, and you still said you did nothing wrong?"

"I've explained to you that I don't care that much in a battle." Casey explained.

"See? He is so shameless, and now he has a reason." Vermilion Bird turned around and said to the three.

Casey did not feel that he said something wrong, thinking that if the

three really want to make him a hard time, he would fight with them. Even if he lost, he would not take the blame. Azure Dragon heard Vermilion Bird's words and immediately smiled, and then he directly went to Casey and said, "Bro, let's go in to talk."

White Tiger and Black Tortoise walked towards to Casey too and pushed Casey into the room.

Casey had been extremely vigilant, as long as they took a move, he would instantly use of Cabala, to make his power to the strongest before he fought with them.

Even if he could not defeat them alone, it would make them suffering a bit.

"Don't get me wrong, brother. We're not here to make trouble for you. Don't be nervous. We won't fight with you." Azure Dragon noticed the state of Casey, said with a smile.

"Yeah, yeah, we're not gonna do anything. We're just here to ask you something." Said White Tiger.

"That's right. We're just asking you some questions." Black Tortoise spoke too.

Casey was confused to hear that and did not know what they were up to.

"What do you want to ask?" Casey asked.

"Hahaha, we just want to ask, what kind of girl do you like, do you mind if a girl is older than you, can you accept cradle snatcher?" Asked Azure Dragon.

Casey immediately froze, What?

Vermilion Bird behind them heard the words of Azure Dragon. She was shocked and shouted toward Azure Dragon, "I ask you to teach him a

lesson. Why did you ask these questions?"

Azure Dragon took a look at Vermilion Bird and said, "Vermilion Bird, we are thinking of your marriage. Please don't make trouble here. We will help you to find it out, so that you can get along well with him."

Then he continued to look at Casey and asked, "How do you feel about Vermilion Bird? Her bark is worse than her bite. She's usually very gentle."

"Yes, yes, yes, we watch her grow up. She was spoiled to be arrogant, but if you really are able to surrender her, she will be very docile." White Tiger added. "She is good-looking and talented. As a woman, she is great. Our Lord said she is promising to reach the sublimation. Your talent is a perfect fit with her, the only drawback is, she is a little bit older than you, but an older woman in a marriage is good." Black Tortoise said. Casey looked at the three in a daze. He thought the three people came to beat him, but not unexpectedly they matched him and Vermilion Bird, what was going on?

The three were like arranging a blind date for her, Vermilion Bird and so shy that she wish there was a hole for her to hide.

"You may have misunderstood me. I am already married and have a daughter. I think you may be looking for the wrong person." Casey began.

There three widened eyes in surprise, Azure Dragon exclaimed, "What! You are married? I thought Vermilion Bird finally has a man, but now there was no

hope. When will Vermilion Bird be able to marry?"

Vermilion Bird already felt that she was ashamed to see people. She directly walked to Azure Dragon, pulled his ear and said, "You three go too far. You make me ashamed. I will not teach him a lesson, but I will teach you three a lesson!"

With that, Vermilion Bird tugged the ear of Azure Dragon and went out.

White Tiger and Black Tortoise hurriedly walked out.

Vermilion Bird glared at them and said, "You two can't escape either! I have to beat you!"

Casey looked at them left in a mess with confusion. Why did Azure Dragon feel he could be with Vermilion Bird?

At that thought, Casey felt cold on back.

But Vermilion Bird was indeed old enough to get married, and if she did not get married, her temper was sure to get worse and worse.

In fact, he noticed that Vermilion Bird was not a bad person at heart, she was just too arrogant. If she had been gentle, she might have found a suitable mate.

Of course, it was not his business if Vermilion Bird could find her mate or not. Now he needed to find a way to gather three hundred thousand of rewards to get Soul Setting Jade.

At that thought, Casey sat back to the computer again and continued to browse the website.

Chapter 885 The Crisis of Edith
B City.

Railway station square.

Three figures came out of it, an old man and a young man following a tall, brisk man who seemed to be in his fifties, extremely respectful.

That one young one was Rowan, a distant relative of the Patel family, who Casey and Edith met on Moon Island.

At that time on Moon Island, Rowan and his girlfriend caused a lot of troubles to Casey and Edith, the only flow in their trip.

That old man walking with Rowan was his father, Barton Patel, a cousin of Francis Patel, but the two families had little contact. In the past, the Patel family of G City had been looking down at the Patel family of G City.

Until Rowan heard from Annabel in Moon Island that Casey was the master of the Davies family in B City, and Edith had become his wife, the Patel family of G City thought highly if the Patel family of J City.

But at that time Rowan provoked Casey and Edith. After he learned the true identity of Casey, because of fear of Casey's revenge, he left Moon Island in advance. And he had been worrying for a long time, as well as his family.

Later he felt relieved that Casey did not take revenge on him.

At that time Barton thought about the relationship between distant relatives to curry favor with the Davies family, but it was good enough that Casey didn't take revenge on them. If they curried favor, they might annoy the Davies family, so they gave up the idea.

The man walking ahead Barton and Rowan had a fierce momentum. People

felt it and hid from him, subconsciously feeling that he was not an ordinary man. If Casey was here, he would be able to recognize that he was Wolfe ranked the seventh in the List of Rewards.

Although the appearance of Wolfe was very different from the photo, it could be told it was him from some details.

But these years Wolfe had changed countless identities. Even the Pantheon was not easy to find him.

It was a coincidence that Wolfe got together with the Patel family in G City. Wolfe wanted to find a beautiful girl in G City and he took fancy on a girl of the Patel family in G City.

At that time, he only saw the back of the girl and thought she was pretty. So he quietly followed her back to the Patel's house.

But when he entered the house, Wolfe found that the girl was very plain and just looked better from behind. He was very angry.

Wolfe who had reached the sublimation had high requirements for girls. Over these years, those girls got raped by him were all beauty. Seeing the girl's appearance, Wolfe immediately felt he had a feeling of being cheated.

So he decided to slaughter all the people in the Patel family and then left G City.

Wolfe showed his skill in face of the Patel family. He said he was angry and would kill them all.

When the Patel family of G City saw Wolfe's tactics, they all thought Wolfe was a god descending from heaven. The light could be released from his

hand, and the marble floor of his house was broken when he gently pointed at it. It was really horrible, so they all knelt down and begged for mercy.

Rowan said he didn't get any pretty girls, so it didn't matter who begged for mercy.

At this time, Rowan was quick to wit and told Wolfe he had a relative in B City who was the most beautiful in the city, and Wolfe would certainly like her.

When the Patel family heard what Rowan said, they immediately understood what he meant. They all agreed with him and said that it was true.

After all, Edith was really the most beautiful in J City, which attracted the attention of Wolfe.

When Wolfe heard that, he was really interested and asked them where the beautiful relative was. Rowan said that if Wolfe could spare them, he would take Wolfe to find her.

Wolfe was lust, especially interested in beauty. After listening to Rowan, he agreed.

That was why the three were in the station square in B City.

Rowan and Barton were not worried that they would anger the Davies family, because Wolfe had showed his powerful skill, so they were not afraid of a family relying on business to dominate B City.

In the face of absolute power, money and fame were equally insignificant.

“If that beautiful relative you're talking about isn't as beautiful as you said, you know what's going to happen to you.”

Wolfe said coldly.

Rowan immediately said with a smile to Wolfe, "Don't worry, your excellency, the beauty of Edith will never let you down, but the only fly in the face is that Edith has married."

"Oh? I like it. It's more interesting."

Wolfe immediately licked his lips, revealing a wretched smile on his face.

Rowan and Barton both smiled.

"Your excellency, Edith is now Casey's wife, Casey has a very strong power in B City. If you go and ask for Edith, it will cause the resistance of the Davies family. How about we tell them first?"

Barton asked.

Wolfe gave it a thought. Now he was target of the Pantheon, he must be careful. Casey only had a secular family, but if their energy was big enough, Wolfe's whereabouts would be exposed. Wolfe would have to change his appearance again and evade the arrest of the pantheon in that case.

So he was lustful, but still sensible, and he didn't just go in and rob her.

Now hearing what Barton said, he nodded. If Barton and his son could take the girl for him, it would be better.

"In this case, I will give you three days and these three days I will travel around B City, you had better be efficient. If three days later, I don't see her, I will go to the Davies' and kill you" Wolfe said.

"Don't worry, with your majesty, the Davies family dare not refuse to hand over the gril even if they have the greatest courage." Rowan said with a smile.

Chapter 886 A Big Trouble

In the Davies House.

In the living room, Barton and Rowan sat on the chairs. The servant had given them tea. Brady was staring at the two people in the middle of the living room. Although they said they were relatives of Edith, Brady always felt that the two were evil.

After a while, Edith and Darius came in from outside and saw Rowan sitting in the middle of the living room. Edith suddenly frowned.

Just now, when she had heard that relatives of the Patel family came to look for her, she felt quite surprised. She could not think of any relative who would be looking for her at that time.

Seeing Rowan, Edith felt unhappy. In Moon Island, she had not put Rowan as her relatives, unexpectedly, he came. When she looked to Barton, Edith immediately had vague impression of this man, if she was right, this man should be Rowan's father.

Darius did not know who these two people were, only heard that they were Edith's relatives, so he greeted them warmly, but was stopped by Edith.

Darius was confused, but seeing that Edith did not look well, he guessed the two people should not be good, so he did not say anything.

"What are you doing here?" Edith asked coldly.

Rowan had expected Edith's attitude, if Edith said to them like this before, he certainly dare not say anything, but now he had Wolfe behind his back, he got confidence, so after hearing Edith's words, suddenly he became unhappy.

"Edith Patel, we are your relatives, my

father is your elders, and I am older than you. It never minds that you did not greet us, but how dare you talk to us in such tone. Do you look down upon us because you have married into the Davies family?" Rowan sarcastically said.

When Brady heard this, he stepped forward, glared at Rowan and said, "Do you want to die? How dare you speak to Mrs. Davies!"

Brady was a master in medium stage of inner force, Rowan could not stand his momentum, so he was frightened.

He shrank and pretended to be calm.

He took a glance at Brady and then turned to Edith, "Don't think that I am afraid that you people frightened me. Edith, your good life is coming to an end, even if the Davies family protects you, you cannot escape this disaster."

Edith looked at Rowan with a frown and asked, "What do you mean?"

Barton smiled at Edith and said, "Rowan has spoken bluntly. Don't you mind it. But it is not a bad thing. We are here to inform you that a great man likes, and he wants you to come to him in three days. If you don't, the whole Davies family will be in troubles."

Edith looked at Barton frowning deeply and said, "I don't mind that because you are an elder, but please don't talk nonsense here."

"Haha, my father did not talk nonsense, it is true. The Davies family can't provoke that great man, you'd better obediently follow us to see him, otherwise, you will learn your lesson." Rowan said angrily.

“Why do you come to me if someone likes me? G City is so far away from B City, did this so-called great man come to G City to ask you to come and tell me this matter?” Edith realized something was wrong.

Rowan showed a trace of embarrassment. He certainly could not say that he did so to avoid evil, so he sent Edith into the jaws of the tiger.

“We have done what we should do. You have only three days to think about it. After three days, if you don't agree, the great man himself will come to you. And then even the King of Heaven can't protect you, not to mention the Davies family.” Rowan said.

“Don't bluff here. No one in B City dares to say such things at the Davies'. I think you two are tired of living. Do you want to feel the pain?”

Brady walked up to them and looked as if he was going to attack them.

Both Rowan and Barton were scared. Rowan said quickly, “If you dare to attack us, the great man will never let you go. He is a legendary master of sublimation, and you are nothing to him.”

“Master of sublimation?” Brady was stunned. He had never heard of such a name and his face showed a hint of doubt.

Rowan was afraid that they did not believe her, so he quickly took out his phone and found out the video, which was recorded by a man of his family when Wolfe was playing his skill.

Brady took Rowan's phone and then immediately he widened his eyes in

surprise.

He had never seen a master of sublimation before, so he was surprised to see Wolfe in the video as if he had used special effects. If it was true, this person was really powerful.

“Who are you fooling? This is a special effect, do you want to fool us with this kind of tricks?” Brady glared at Rowan. “Everything in this video is true. Why do you think we're so calm now?” Rowan hurriedly said.

Brady felt it reasonable, so he showed the video to Edith and Darius, who frowned too after watching it. They did not expect that there could be such a powerful man in the world.

“I think we should go to Ellis and Hughes. They were powerful and they should be able to see something.”

Darius suggested.

Edith nodded, and then asked people to bring Ellis and Hughes.

Not for a while, Ellis and Hughes came over and stared at the video on the phone, frowning.

“He is a master of sublimation, it is a big trouble.” Hughes who knew the master of sublimation said.

Rowan and Barton was pleased to see their reaction.

“Since you know the fierce of the master of sublimation, listen to us, that great man only wants Edith, and you only need to let

Chapter 887 The Residual Soul

In the Kunlun Mountains.

After two days of adaptation, Casey had been generally familiar with the operation mechanism of the Pantheon,

and familiar with some of the rules here, but also had figured out the way to get Soul Setting Jade.

He had to get Soul Setting Jade from the Pantheon and to get it, he had to accumulate rewards. It was obviously unrealistic to steal the Soul Setting Jade from the warehouse of the Pantheon. Casey could not cope with the four masters here, not to mention the power of the enigmatic Thomas.

And only Thomas and a few core figures knew where the warehouse of the Pantheon was. Casey was new here, it was impossible for him to find the location of the warehouse in the vast mountains.

So at present, the only practical way to get the Soul Setting Jade was to accumulate rewards.

Casey did not intend to stay too long in the Pantheon, after all, if he wanted to accumulate rewards, he had to go out to do the task. Although there were some opportunities for rewards in the Pantheon, but with that few of rewards, it would take long for Casey to have that Soul Setting Jade.

He had only three years in all, and now half a year had passed, so he had to hurry.

He packed up his things and went out from the room. He planned to see Thomas. If Thomas had nothing else to do, he would leave the Kunlun Mountains and go home first.

He came to the center mountain of the Pantheon, far away, Casey saw the thatch hut on the top of the mountain, and a big banyan tree outside the

house.

Not far from the hut there was a stone table on which stood tea sets that looked as if they had just been served. After walking to the hut, Casey shouted, "Thomas, can you come out?"

After a long while, Casey did not get an answer.

"He is not here?" Casey asked himself. He learned from staff at the Pantheon that Thomas had been staying on the mountain since he came back and had not gone down, but now he could not be seen here.

Considering that Thomas might have something to do and went to a place he did not know, Casey went to the front of the stone table and sat down, intending to wait here for a while.

Casey did not know that the small hut on the top of the mountain had a channel connected with the interior of the mountain, along the channel, it directly reached the location of the mountain center.

The mountain was hollow inside, inside was a large cave, and Thomas was now in the cave.

The interior of the cave was dark, and apart from the channel, the rest of it had not been artificially modified.

Now the light in the cave was supported by torches, so it was not so bright, but a little dim.

Thomas was standing in front of a smooth, mirror-like stone wall. In front of him stood a table with candles burning on it.

The stone wall did not look solid, but inside it was dark, not like the darkness

of night, but like an abyss. If you stare at it for a while, you will feel that your body and mind will fall into it, which is quite eerie.

And had it not been for the wall, the darkness would have rushed out and devoured everything around it.

But around the stone wall there were many magical lines, time to time flashing bursts of light, like a charm, the darkness in the stone wall was firmly sealed up.

Few could have imagined that something so counterintuitive existed inside the mountain.

At this time, Thomas was standing in front of the table. In his hand were the wood chips of Scarlet Sun Wood he had got from Fleming.

“Master, I have the Scarlet Sun Wood, I will poweren your soul, so that you can continue to support for a period of time.”

Thomas opened his mouth.

As he spoke, there was a flash of light on the stone wall in front of him, and in the twinkling of an eye there was an old figure, ethereal, almost transparent, and as if imprisoned in the stone wall, looking indescribably mysterious.

The old figure stared at Thomas and said, “Thomas, thank you for your hard work.”

Thomas said with a smile, “Master, you are joking. It is you working hard. I just run errands.”

“I'm just a residual soul. I'm not working hard. I'm stuck in this place, it is boring.” Said the figure faintly.

He was Thomas's master, Mayo Byrne, the previous lord of the Pantheon.

Thomas was sure that above the sublimation, there was the existence of Unrealm, it was because Mayo, who was the only master of Unrealm in the world who Thomas knew.

However, because of a big event happened many years ago, Mayo became a residual soul and was sealed in the stone wall, in suppression of the endless darkness in the stone wall.

“I can’t last much longer. Even if with the help of Scarlet Sun Wood, I will eventually perish. Have you found the man you expected to find? Can he step into the Unrealm and change the present situation before I perish? If there is no one to suppress the entrance, the whole world will be in bad luck.” Mayo sighed helplessly.

“I have found him. He is the most gifted man I have ever seen, but it is up to his fate whether he can reach the Unrealm before you perish.” Thomas said.

Mayo nodded and said nothing more. He was in such a state that even if he wanted to worry about such things, he could do nothing about it.

Thomas no longer thought about it. He moved the candle on the table forward and pressed it against the wall.

“Master,” he said, “I am going to light the wood ships of Scarlet Sun Wood.”

With that, Thomas placed the wood chips bit by bit on the candle, at the moment the wood chips touched the flame, it instantly burned up.

After that, a blue gas appeared in front of the stone wall, and Mayo immediately absorbed the blue gas.

After a while, the blue gas was

absorbed by Mayo, and his figure became much more solid, no longer as ethereal as before.

“This feeling is really good, but there is only so much of Scarlet Sun Wood. If there is enough of it, it is possible to poweren my soul to the point of substance. It is a pity.”

Mayo laughed, free and easy, there was no loss.

Chapter 888 Exceptional Advantages

Casey sat in front of the stone table for a long time and was ready to leave since Thomas had not appeared.

At the moment he turned around, a slight feeling swept from him. Casey, who was sensitive to the perception of things around, immediately he concentrated and looked around, but he did not find any change.

He was puzzled. He was sure that what he had felt was not a delusion, but he was alone, there was no wind, so he wondered what it was.

That feeling was like a strange wave swept his spirit. Casey captured the change by his spirit rather than his sensory perception.

"Is there an existent good at spiritual power among the Pantheon?" Casey soliloquized a sentence.

Through browsing the website of the Pantheon, Casey had learned that there were some people in the world who could control others with spiritual power, so he had such doubts.

But he didn't think much of it. The Kunlun Mountains were riddled with mystery, and it was common for an unexplained event to pop up.

Without thinking, Casey turned to go down the mountain. He came to Thomas wanting to tell him he was leaving, so it didn't matter he could not see Thomas. He had joined the Pantheon, so if he wanted to see Thomas in the future, there were opportunities.

Not long after Casey down the mountain, relying on the Scarlet Sun Wood to restore some power, Mayo's face exposed a joking smile.

"Unexpectedly he has innate god soul, it is quite rare. I took a glance at him with power of god soul and he found me. His power of god soul is still in a state of not waking up, if it wakes up, he will be known as the world's first man." Mayo murmured.

Thomas heard Mayo talking to himself, took one look at him and asked,

"Master, what did you say?"

Mayo smiled, did not answer Thomas's question, but on the stone wall, showed a figure, who was Casey.

"This is your chosen successor?" Mayo asked.

Thomas nodded and asked, "How do you know it is him?"

"He came to see you, and when he saw you weren't there, he went down the hill." Mayo replied.

Thomas nodded and said, "He should have been familiar with the Pantheon, so he came to tell me he is leaving. He has excellent talent and certain power, and he doesn't need my guidance. I can give him some external support, but he is new here, I can't show that I value him. After he finished some tasks, I will

think about giving him something to improve."

"However, although he has great talent, the Unrealm is difficult to reach. I don't know if he can reach that before you vanish."

With that, Thomas sighed.

Mayo laughed and said, "Don't worry, he is more powerful than you think. He is blessed with unique advantages. As long as nothing happens to him, it won't be too difficult to reach the Unrealm."

Thomas was unexpected that his master had high evaluation on Casey. His original talent was not worse than Casey now, he too had reached the sublimation in his 20s, but more than one hundred years had passed, he still was in the state of sublimation.

He did not know why master had such high expectations for Casey.

Mayo was smiling but not saying a word.

The important requirement to the Unrealm was to have god soul, and Casey had a congenital god soul. He only needed opportunities to wake it up, this requirement would be achieved.

So he said that Casey had a unique advantage.

But he did not dare guarantee, after all, god soul was only one of the requirements to reach the Unrealm, in addition to that, a lot of difficulties and obstacles would have to be solved. With a congenital god soul, it did not mean that Casey would be able to reach the Unrealm.

But hope, for Mayo, was enough.

His years of perseverance had not been in vain.

...

Back to his room, Casey took his things and walked toward the registration place of the Pantheon. he must first go to the registration before he left.

On the way, he had been thinking about the feeling he just felt in the central mountain. On the website of the Pantheon, Casey knew that someone could do something beyond the imagination of ordinary people by virtue of his mind, such as moving objects from a distance, mind control and so on. This ability was often referred to as psychic power, and Casey had always thought it was something only seen in movies. Only after reading about it on the Pantheon website did he know it really existed.

He always felt that his mental state was also quite different from ordinary people. Although he could not do such a thing as moving objects from a distance, his mind was running at a very fast speed, and his perception was extremely sensitive, and he could not forget everything easily that he had seen.

Therefore, he was able to master skills that many people could not understand in their lifetime at such a young age.

"Maybe I am also a person with special abilities, but this special ability is more ordinary, just to improve my learning ability." Thinking so, Casey couldn't help laughing.

After a while, Casey went to the room for registration, knocked on the door, and went in toward the inside.

At the moment into the room, Casey met the man sitting inside. As their eyes met,

he felt the temperature of the whole room dropped some.

The man responsible for registration was Vermilion Bird who was forced by her three brothers to have a blind date with Casey.

Vermilion Bird showed a trace of embarrassment when she saw Casey, because of her three brothers, Vermilion Bird was no longer angry, but that day made her quite embarrassed, so she the last person she wanted to see was Casey.

"You..... What are you doing here?" asked Vermilion Bird.

"Oh, I'm leaving, so I came to register." Casey replied.

Vermilion Bird immediately took a sigh of relief, so he did not come to her.

"Where are you going?" asked Vermilion Bird.

"B City."

"Ok, I know, I'll register it, you can go now." Vermilion Bird opened her mouth. Now she did not want to have contact with Casey, or her three brothers would have something to say.

Casey was surprised to hear that, but he said nothing and walked away.

Watching Casey leave, Vermilion Bird was secretly relieved.

"He finally left, it will not be so awkward anymore. My three brothers think I like this man, funny." said Vermilion Bird to herself.

Just then, she received a message from the Pantheon headquarters.

"Recently, there have been some crimes committed to ordinary people under hypnosis in the vicinity of B City. Please

hurry to B City and deal with this incident."

Looking at the word "B City", Vermilion Bird could not help thinking.

Chapter 889 Wolfe Came to Door

B City, in the main courtyard of the Davies'.

The Davies family was worried at this moment, it was the last day of Rowan's three days, if Edith did not agree to follow them to see the great man, the great man would personally come to door, and then the Davies family would face a disaster.

Through the explanation of Ellis and Hughes, they had been clear that the terror of a master of sublimation. The master of this level could not be defeated by the Davies family with its current power.

"I suspect that the Patel family of the G city had provoked this master, so they brought the disaster to us. Otherwise why the master of the sublimation came with them to B City?" Darius said angrily.

"It doesn't matter now. We should think about how to deal with this master.

According to the words of Ellis and Hughes, even ten of them could not defeat a master of sublimation. He is enough cause unimaginable disaster to the Davies family." Jordan the butler said seriously.

Ellis and Hughes agreed. The master of the sublimation should not appear in the secular society, so they did not know where Rowan found the master.

"How about Edith now escapes with

Sherry? If the master can't find you, he may give up." Brady said.

"No! Edith rejected his proposal, "If I run away, he will vent his anger on the Davies family, then the whole Davies family will be in trouble."

In order to avoid the disaster, Edith had asked Conor to take Sherry to a safe place. Rowan did not know that she had a kid, so he would not target Sherry.

"But if you don't escape, it doesn't mean he will let the rest of us go. Not just you, but all of us, leave here, so that it's less likely to have a problem." Dick proposed.

The Davies family had thought of that, but if they ran away, the whole Davies would not be able to operate normally, then it would have impact on the whole Davies' industry.

And no one knew what kind of background the master had. If that master found out, they would face a more dangerous situation.

What was more, if the Davies family fled, the first to suffer certainly was Tianyuan Chamber of Commerce. Edith could not do that.

So these three days the Davies family had been discussing how to deal with the master of sublimation.

Edith wanted to ask Casey to come back, but when Casey left, his power only had reached the Grandmaster Circle. Ellis and Hughes said that even if Casey came back, he could not defeat the master of sublimation. Based on Casey's character, he would certainly fight with the master of sublimation desperately, so she did not tell Casey

about it.

When the Davies family was worrying, a hissing sound echoed in the ears of all people.

"Why not throw yourself to my arms but plan to run away? Are you looking down upon me?"

The voice startled the people, for they had not seen anyone in front of them, but the voice seemed to have been spoken in their ears.

This means could only be used by a master who had quite strong power, at least Ellis and Hughes could not do this degree.

So it was Rowan came.

"Damn, he said three days, why he comes now?" Brady scolded.

Then, they saw a powerful figure walking into the middle of the courtyard. Rowan and Barton followed behind him, respectful.

Ellis and Hughes intently stared at Wolfe and felt danger from his body, which could only be felt from a master of sublimation.

"Our Lord changed his mind at the last minute. He can't wait for three days, so he came to see you now, but you are thinking of running away. How ungrateful! Edith, it is your blessing that Wolfe likes you, do you despise him? I advise you to make the first move before he gets angry, or you'll suffer."

Rowan glared at Edith and said.

Edith looked at Rowan angrily, regretting that she had not killed Rowan and Barton when they came for the first time.

"You are really a beauty, it is rare to see

such a beauty, and you have unique charm of a young woman. I like it, so I don't come in vain."

Wolfe stared at Edith and said with a smile.

Edith felt gross that such a man with great power could be so disgusting.

"No matter how strong you are, I will not do as you want. Even if I die today, I will never yield to you!" Edith stared at Wolfe and shouted.

Wolfe hummed and said, "I did not expect you have a hot temper, but it is not up to you."

Then he went to Edith.

Ellis and Hughes immediately blocked in front of Edith, looking at Wolfe full of vigilance. Ellis said, "Your excellency, please show respect, don't embarrass martial arts!"

Wolfe snorted and said, "Embarrass martial artist? It's only a joke. I'll have every woman I want, and no one can stop me!"

"Unexpectedly the Davies family has two grandmasters, which is formidable, unfortunately, you are two rubbishes compared to me!"

With that, a burst of light appeared on Wolfe's palm, followed by the shape of a long stick, Wolfe took the long stick and swept toward Ellis and Hughes with a fast speed, which Ellis and Hughes had no time to make reaction.

Ellis and Hughes changed on face and hurried to resist Wolfe's attack, but when they reacted, the stick had hit the two of them.

Both flew backward and fell to the ground, each spitting out a mouthful of

blood.

Wolfe looked at two people contemptuously, and then fell his eyes on Edith, smiled, "Beauty, you are mine today, I promise you will have fun!"

Chapter 890 You'll Be Fine

The people in the courtyard were surprised to see the power of Wolfe.

They knew the power of Ellis and Hughes, even if the top martial family could not defeat them.

However, Wolfe defeat them with a single move, it was enough to see how terrible the power of the master of the sublimation was.

Although amazed at the power of Wolfe, Brady, Baron, Dick, Foley and others did not flinched but blocked before Edith seeing that Ellis and Hughes were knocked down.

Wolfe stared at them. His face suddenly sank and he said in a cold voice, "Why, didn't you see the fate of those two grandmasters? Do you still think a few masters of inner force can stop me?"

Dick immediately shouted, "We have to. With us here, you don't expect to take Edith away!"

"That's right! Masters of inner force can kill you!" Cried Foley.

Wolfe looked at them with disdain, as if watching a group of clowns, obviously, he could easily knock down several masters of inner force.

Seeing that the crowd rushed in front for her, Edith was worry and she shouted,

"Don't do this. He is directed at me, I can deal with him. Or you will be hurt."

Wolfe gave a cold hum, "You don't need to persuade them. I can take care of

them right now. they are just a few mole ants, and dare jump in front of me."

With that, Wolfe waved his hand, causing strong wind, which was mixed with Wolfe's power of sublimation. It swept toward Brady and the others.

Brady and others did not make a move, but they were blown to the ground by Wolfe's strong wind. In minutes, several people had been seriously injured.

Master of sublimation and master of inner force were different in nature, like the difference between the cat and the tiger. Ellis and Hughes were knocked down by a move, how could they carry the attack?

Rowan and Barton looked at Wolfe with surprise. They had already seen Wolfe's skill, but they were still shocked that the top force of the Davies family had been taken care of by Wolfe.

"Your excellency, you are wise and powerful. These men are no match for you. Edith, hurry to say yes to Wolfe. Do you want him to make his move?"

Barton shouted at Edith.

Edith looked at the people on the ground with worry. She knew clearly that she had no choice in front of the master of the sublimation.

She gave Barton and Rowan a resentful look and gnawed her teeth and said, "I have always remembered this. Even if I die, I will not let you go!"

Then Edith took out a dagger from her arms and decided to kill herself.

In her heart, she only belonged to Casey. No matter how power this master was, she would not yield in to him, so now she could only kill herself.

Seeing that, Wolfe said with a sneer on his face. "Do you think it is so easy to die in front of me?"

As soon as his words fell, a force had been wrapped around Edith's wrist. Edith felt great pain, and the dagger fell to the ground.

This was the horror of the master of the sublimation. They could control their power out of their body. Their moves were unpredictable, which was better than average masters of inner force.

Edith was worried since she failed to commit suicide. At the thought of her possible situation, she was desperate.

Wolfe walked toward Edith, with a provocative smile on his face, licking his tongue, said in an obscene manner, "Beauty, for you, I risk being discovered by the Pantheon, how could I let you die easily?"

"The Davies family in B City has some influence, so the Pantheon will soon find out. I will take you away, I promise you will live a happy life."

Then Wolfe stretched out his hand to catch Edith's arm.

Edith hurried toward the back, but her speed was not faster than Wolfe's. In the moment of her retreat, Wolfe's arm had been stretched toward her body. All people lowed heads helplessly. In the face of this situation, they had not no way out and could only watch Edith be caught.

As Wolfe's hand was to touch Edith's hand, a soaring momentum appeared in the courtyard, followed by a deafening sound.

"How dare you bastard my woman?"

Before his voice fell, the courtyard came a residual shadow. When everyone saw it clearly, Casey had brought Edith to the distance, away from the hand of Wolfe.

Everyone was excited when Casey appeared. No one expected that Casey would appear at this critical moment. At that moment Edith saw Casey, she burst into tears and then tightly grasped Casey clothes with both hands. She really thought she was going to be raped by the devil, and Casey once again became her savior.

"I am here, you will be all right." Casey placated Edith.

Edith nodded to Casey, at this moment, she had nothing to think of, just to feel the warmth of Casey quietly.

Wolfe did not expect that there would be someone to intervene in this matter, and the power of the other party seemed not weak. He even could take her away from his hands.

He squinted at Casey, found that although his momentum was stronger than the grandmaster, he was far behind the sublimation, so he should not be a master of the sublimation.

"I can't expect that someone came to stop me. Boy, you are a little better than those two grandmasters, do you think you can stop me?"

Exasperated, Wolfe looked at Casey. The others knew Casey was stronger than them, but he was not a match to the master of the sublimation. It seemed to be unable to change.

Edith looked at Casey with worry.

Seeing Casey, Edith felt at ease, but

power of Wolfe could not be underestimated. Casey could only delay the time.

"Casey..." Edith wanted to say something.

Casey smiled and put a finger on Edith's lips, said, "Leave it to me."

For no reason, when Casey said that, Edith had infinite confidence on Casey. She believed that this man could take her through the disaster.
