The Peremptory Casey Davies **Chapter 951 Be Her Boyfriend**

Hearing Camille words, Casey showed a face of astonishment and almost kicked her out.

“What did you say?” Casey asked again.

“Hey, I want you to be my boyfriend for a few days.” Camille repeated, blushing.

Casey directly dragged Camille's arm toward the outside and said, “Go away.”

Camille, seeing Casey's reaction, was stunned.

Did he think she was not good-looking and not good enough for him?

She was the most beautiful girl in the army, how could he do that?

Outraged, Camille clenched her fist.

“Hey, how can you, I just want you to pretend to be my boyfriend, not a real one. Even if you agree, I am reluctant.” Camille gritted her teeth.

“Then tell me why you want me to pretend to be your boyfriend.” Casey said.

Camille endured her displeasure and told him the reason.

Casey then knew she was a granddaughter of a famous general with much achievement. This general is old, so he had been retired from the army and lived in Dongji City not far away from the North Border.

Camille came back to the army because of her grandfather.

Now Camille had reached the age of marriage. Although she was still very young, the older generation always felt Camille was ready to get married, so they were very active in matchmaking for her.

As an old general with outstanding military achievements, Camille's grandfather had a very high status in Dongji City. When he found his granddaughter a boyfriend, he valued good strength and character. Every time Camille was called back for a blind date, she would always meet some tough guys who were quite informal. Some of them even called her brother directly. Camille, as an elegant girl, naturally could not accept such a partner.

This time, Camille's Grandpa arranged a blind date for Camille and asked her to hurry back to Dongji City.

It was said that her grandpa took a lot of effort to match this blind date.

According to Camille's grandpa, the other party was a master of sublimation, who had a strong talent in martial arts. He was 24 years old and had already achieved the level of half grandmaster and he hoped he could become a grandmaster before he was 30.

Camille heard Boone that grandmaster was very powerful and they all doubted that Casey was a grandmaster.

The master of the sublimation was even more powerful than the grandmaster. Although Camille had not seen one, she knew what it meant.

It was someone that Grandpa's Camille was polite to.

If it were someone else, Camille could have chosen not to go back, but if she didn't go back this time, she would have offended the grandmaster, which was definitely not good for her family.

So in order to be able to refuse this blind date, and not to offend the master of the sublimation, Camille lied that she had a boyfriend, the new general instructor of the Dragon Army.

After hearing that, her grandfather asked her to take her boyfriend back, and then he could compare them and let Camille find a better one.

Camille was worried about how to deal with the blind date, and then she saw the vision of Casey and thought Casey must be better than the grandson of the master of the sublimation.

So she put forward such request to Casey.

Casey was stunned and did not expect this girl would do that and asked him to go to the Dongji City, he felt being fooled.

"It's your business, and I never said I'd be a shield for you, so you'd better figure it out yourself." Casey opened his mouth.

Camille immediately looked aggrieved and said, "General instructor, can you bear to see me marry someone I don't like? It's the 21st century. I don't want my grandfather to decide who I marry. Please help me."

"The master of sublimation is really very powerful, his grandson can reach the Half Step Master at the age of 24, and he is indeed a rare genius, I think he is good for you, so I suggest you go back to have a look, maybe you will fall in love with him at first sight." Casey said.

Casey was unwilling to help, immediately Camille said gnawing teeth,

"General instructor, if you do not help me, I will pester you every day and come to your room every night. They were a few girls in the army, I

do not believe you can control yourself forever.”

“When the time comes, I will tell Boone that I have fallen in love with you. He is a famous gossip lover. If he knows, the whole army will know.”

Hearing that, Casey immediately felt a headache and did not expect the girl, in order to force him to pretend to be her boyfriend, used this means.

After a long silence, Camille stared at Casey again and asked, “Will you help me?”

Casey helplessly sighed and said, “I can help you, but after that, you must explain to everyone, otherwise, I directly find the commander and tell him about it.”

Camille showed a trace of joy and said, “Don’t worry, as long as you help me escape the blind date, I will explain to them clearly and will not smear your innocence.”

Listening to Camille, Casey always felt something was wrong, but he could not say where was wrong.

But now the Dragon Army training had been on the track, all they had to do was insisting, Casey did not need to do a lot of work.

Casey stayed in the room for practice every day, which was boring, so it might as well follow Camille out for a walk.

That evening, Casey told the seniors of the Dragon Army that he would go to the Dongji City with Camille and arranged what they were going to do.

In order not to let others doubt, Casey said he and Camille went to the Dongji City for a secret task, and people had the slightest doubt.

The next day, Casey and Camille took the helicopter toward the Dongji City

On the way, Camille had been staring at Casey and giggling. Casey asked with doubts, “what are you laughing at?”

“Actually, if you told everyone you were going to pretend to be my boyfriend, I'd be fine with it, but when you said we were going on a secret task, I always felt like we were having a real secret affair.”

Camille said with a smile.

Casey was speechless, turned away and no longer paid attention to Camille._____

Chapter 952 Look it Up if You Don't Believe Me

Downtown villa in Dongji City.

In a luxuriously decorated villa.

Benson Hussain, Camille's grandfather, was sitting on a sandalwood chair in the living room, next to an elderly man dressed in sackcloth and looking rather magical.

Standing next to the old man was a very young man, with a starlike brow and a detached air.

The old man was the master of the sublimation, named Dalton Chambers, a hidden master, usually living in the mountains and seldom went out.

Standing next to him is Dalton's grandson, Fitzgerald Chambers, Camille's blind date.

In addition to them, there were many Camille's family members and Benson's old friends in the living room.

Dalton was out of the mountain, Benson naturally would introduce some of his friends to Dalton, after all, he thought Fitzgerald his future son-in-law, of course, he would introduce him to his circle.

"Camille is quite resistant to dating. She is not satisfied with the people I introduced to her before, so she is very reluctant to come back. But I believe that when she meets Fitzgerald, she will certainly not say such words." Benson smiled and said to Dalton.

Dalton also smiled and said, "If she does not like Fitzgerald, we'll have come in vain."

"Don't worry, Dalton, Fitzgerald is excellent, no girl does not like him. When they meet, Camille will understand. But Camille is clever and odd, this time I let her come back, she told me that she has a boyfriend, General instructor of the Dragon Army. People can be general instructor of the Dragon Army. at least are 40 to 50 years old. If she fall in love with a general instructor, she may be abandoned." Benson told the story in a joking way.

Dalton laughed and said, "I have heard that the Dragon Army is the first Army of C Country. If Camille can be with the general instructor of the it, it is a good thing."

"Don't joke with me, this is just an excuse that Camille found. I asked her to bring back the general instructor of the Dragon Army, and then compare him with Fitzgerald. I would like to see what she's gonna say." Benson opened his mouth.

Dalton nodded and said nothing more.

Standing on the side, Fitzgerald showed pride, as a martial arts genius,

even if Camille really brought back the so-called general instructor of Dragon Army, he had nothing to worry about.

They sat in the living room to chat, many people's eyes were focused on Fitzgerald, constantly they praised the excellent Fitzgerald.

At the same time, outside the villa, Camille and Casey walked toward the villa.

Camille glanced at Casey, then reached out her hand, took Casey's arm.

Casey shook off her hand, staring at Camille, "What are you doing?"

Camille stopped, looked at Casey, said angrily, "I now is your girl friend, naturally we have to be pretend. That is what boyfriend and girlfriend do."

"We won't have to." Casey opened his mouth.

"No, if you want to pretend, you have to pretend like real, or my grandfather will certainly suspect." Camille went to Casey again and took the arm of Casey.

Casey was helpless and thought it only took a while, so he was ok with that.

The Criminal Minds Cast: Where Are They Now?

10 Stars Who Got Excluded From The Hollywood Elite Club

Today, Camille had taken off her military clothes and put on the clothes that a young and beautiful girl should wear. Although she had short hair, she still exuded a pure and lovely temperament after blowing her hair.

Even Casey had to admit that Camille's beauty was absolutely first-class. Together they reached the front door of the villa, pushed it open and walked into the living room.

All the people chatting in the living room suddenly became quiet.

All people looked toward Casey and Camille. When Fitzgerald saw Camille, his eyes suddenly became bright, this beautiful girl suddenly attracted his attention.

But seeing that Camille was holding the hand of Casey, Fitzgerald's face immediately became gloomy.

According to Benson, he must want to make Camille and Fitzgerald together, now he found Camille such a beautiful and lovely girl and he was attracted and had been felt Camille his girlfriend.

How could he not be angry now that his girlfriend was holding someone else's arm, looking so intimate?

Benson did not expect that Camille would really bring a man back and acted intimately, which was embarrassing him.

He thought Camille was just looking for an excuse, but did not expect that she would play real.

Dalton did not expect that Benson's granddaughter would come back with a man, although he said before it was good that Camille could be together with the general instructor of the Dragon Army, but he was just being polite.

Now, seeing that Camille was holding another man's hand, he was naturally quite upset.

"Grandpa, I'm back." Camille said with a smile to Benson and went in with Casey.

"This is my boyfriend, Casey, general instructor of the Dragon Army. He is handsome, right?" Camille introduced Casey with a smile.

Casey bowed to Benson, "Nice to meet you."

Benson looked at Camille angrily and shouted, "Take your hand away from him at once. There are so many people looking at you. What's the matter with you?"

Camille did not follow Benson's advice, but said, unconvinced,

"Grandpa, this is my boyfriend. It is proper for me to take him on my arm. I told you before I came back that I have a boyfriend, and he is the general instructor of the Dragon Army.

Benson angrily slapped the table and shouted, "Camille, do you think I am senile? This kid doesn't look much older than you. He's a Dragon Army instructor? After all my years in the army, you expect me to believe that?"

After that, he looked at Casey and said in a cold voice, "Boy, you know what kind of identity of the general instructor of the Dragon Army? If you dare to pretend to be this identity, I will shoot you!"

Camille did not expect Benson would not believe Casey's identity, for a time she did not know what to do, so she gently pinched Casey.

In line with the professional spirit of acting, Casey took a helpless sigh and then said to Benson, "Please show some respect, I will not pretend to be general instructor. If you don't believe it, you can check."

The Peremptory Casey Davies

Chapter 953 No Match for Me

Seeing that Casey did not admit that he did not pretend to be the general instructor, Benson gave birth to a burst of anger.

"Do you really think I can't find out who you are, boy? After all my years in the army, it's not that hard to find out something like this."

With that, Benson looked at a man on the side and said, "Go and get my phone."

The man nodded and went to get his phone.

All are curious looking at Casey and Camille, whispering.

"I can't believe she's actually bringing a guy back. She used to joke with the Benson, and he's never thought it was real, so it looks like this time it's going to be real."

"But this man looks ordinary and arrogant. The Dragon Army is the first strong army in C Country, and the general instructor is powerful. But he.. told lie without blushing."

"Benson and Camille don't look good, and if, this boy is fake, Benson would not let him go and make a hard time for him."

...

Soon, the man came to Benson with his cell phone. Benson made a call immediately and hung up after saying something.

In less than two minutes, Benson received a document from the army, which was just some basic information about the new general instructor of the Dragon Army.

"Boy, I have got the information of the general instructor of the Dragon Army now. If you have any sense, you can admit your mistake and explain the matter clearly. I won't pursue your responsibility for the sake of Camille."

"But if you still don't admit it, after I read the information, you can not walk out of my house safely."

Benson stared at Casey and said coldly.

Casey shrugged his shoulders and said, "Whatever you want."

Seeing that Casey had a contempt attitude, Benson squinted and opened the information. When he exposed the fact, he would teach this boy a lesson.

People in the living room felt Casey arrogant and thought Casey did not know Benson was a big figure in the army, so he was so secure.

Benson stared at the information and saw it was Casey's name on it.

Below the name, it was the photo of Casey. Seeing that, Benson opened his eyes wide, looked up and found it looked like Casey.

He thought he saw it wrong, but after taking a few looks, he was sure that it was Casey standing in the middle of the living room.

He was skeptical that the information was fake, but it was from an old friend in the army, and how could it be fake?

So Casey really was the general instructor of Dragon Army.

Casey saw Benson's face changed, so he understood what happened.

He then said with smile, "Sir, do you still doubt my identity?"

Benson raised his head with a gloomy face. Even if Casey was the general instructor of the Dragon Army, he was still angry with Casey.

"I really don't know that the army is doing and let such a stupid young man to be the general instructor. Can't they find a suitable instructor in the whole C Country to the Dragon Army? It's extremely disappointing."

Benson muttered.

After he looked at Casey and said with a cold face, "even if you are the general instructor of the Dragon Army, you can't covet my granddaughter. No one knows how you became the general instructor. I don't recognize your identity."

The people present were shocked to hear Benson's words, they did not expect Casey really was general instructor of the Dragon Army.

But then they produced the same idea as Benson. If Casey was general instructor of the Dragon Army, he must have used some shady means.

Fitzgerald's eyes were narrowed up. Casey was the general instructor of the Dragon Army, it seemed that the so-called Dragon Army certainly was not a severe army.

As a martial artist, as well as a real half step master, Fitzgerald felt that he must be better than the so-called general instructor of the Dragon Army.

Camille was annoyed by her grandpa's attitude and said with worry, "Grandpa, you know what the general instructor of Dragon Army means, why do you have to belittle Casey?"

"What do you know? I have arranged a marriage for you. This is Dalton, a master in sublimation of martial arts; this is his grandson, Fitzgerald, has reached the level of Half step master. You and he should be together." Benson introduced Dalton and Fitzgerald.

Camille looked at Fitzgerald and found he was looking at her with proud eyes. When he found Camille looked toward him, he straightened his body.

Fitzgerald looked handsome with good temperament and talent.

But Camille did not like him and she was not interested in such a talent.

"I want to decide who I marry to. You think he is good, but I don't think so. I will only marry to Casey." Camille said petulantly.

Benson was angry and felt his granddaughter ignorant.

He was about to scold Camille, but Dalton, who had not spoken, smiled and said, "Camille finds her favorite person, which is a matter worth congratulating, but my grandson is not worse than the so-called general instructor of the Dragon Army. You have not known Fitzgerald, how can you know that he is not good enough for you, so I suggest that we have a match between Fitzgerald and this boy can we?"

Benson's eyes immediately lit up and he agreed, "Yes, since you have that decision, you have to let me see what he has, let him and Fitzgerald have a fight and you will know who is more suitable for you."

Camille was speechless. In her concept, whether it was suitable or not, it could not be seen after a fight, but Benson's thought was old and she could not change it.

She turned to Casey, now she could only put her hope on Casey.

Casey took a step, since he could solve the problem with a fight, it was much simpler.

"To tell you the truth, ten of him are not necessarily my match." _____

Chapter 954 You'd Better Give Up

When Fitzgerald heard Casey's words, a sneer suddenly crossed his face, and then he stepped out from behind Dalton, already full of eagerness to try.

"You're so shameless. What a arrogant braggart you are! What else can you do besides bragging?"

Everyone on the scene laughed and looked at Casey mockingly.

Obvious, they thought that Casey was not as good as he said.

"What an arrogant and ignorant guy! Although Fitzgerald is just a Half Step Master, being able to step across the threshold for Grandmaster Circle already means extraordinary strength. The Dragon Army is just formidable in warfare, but the individual strength of each member was not strong. Few are inner force experts among all chief instructors of the Dragon Army. This man even thinks he could knock Fitzgerald out. How ridiculous it is!" Benson snorted coldly.

Dalton also looked at Casey contemptuously. Casey looked only a few years older than Fitzgerald. Even if Casey was a genius, his strength being at most equivalent to Fitzgerald. He hadn't seen anyone whose talent surpassed Fitzgerald. How dare Casey say such a thing.

Camille was the only one who believed Casey could beat Fitzgerald, but she also felt that Casey's words were a bit exaggerated. After all, being

able to be so favored by Benson, Fitzgerald must be extraordinary. "The space here is small, why don't we go outside to fight?" Fitzgerald looked at Casey and asked.

"OK," Casey said.

Then everyone walked out of the villa and reached the small courtyard in front of the villa. The courtyard was not too small, and there was a clean open space in the middle, which could be used as a ring for them to fight.

Everyone stood around the clearing, and Casey and Fitzgerald came to the middle of the clearing and stood opposite each other.

"If I defeat you today, from now on, you can never meet Camille again, OK?" Fitzgerald asked in a truthful way.

Casey curled his lips and said, "As long as you can beat me, I will do whatever you say."

Seeing Casey's attitude toward him so contemptuous, as if he couldn't beat him at all, Fitzgerald was also annoyed.

But what Casey said was right. As long as he could beat Casey, no matter how arrogant Casey was, he would be disgraced.

"Take that!"

No more nonsense, Fitzgerald rushed towards Casey with a stride, his internal force circulated, and his aura reached its peak.

It has been a long time since Casey had fought against anyone under the Grandmaster Circle. Now that facing Fitzgerald, he felt he was bullying the weak.

After all, a long time ago, he had already fought a dozen Grandmasters alone. Now that a Half Step Master was nothing to him.

He didn't want to waste time either. He planned to make a quick battle and let Fitzgerald know his strength, so that everyone would not continue to persecute him.

Fitzgerald was ready for a hard battle. There were many moves in his mind, as if he had seen Casey be knocked out by him.

The moment he rushed to Casey, he hit Casey with his carefully designed tricks.

As long as Casey fended off his attack, he had more than a dozen ways to counterattack, and Casey would be unable to fight back.

However, what Fitzgerald didn't expect was that Casey directly ignored his attack. Before he could hit Casey, Casey had lifted his foot and kicked his stomach.

Casey's move was so fast that only Dalton was there to react.

Fitzgerald retreated instantly and fell heavily to the ground. Considering that this was just a competition, Casey didn't hit Fitzgerald hard.

There was a brief silence in the entire yard.

Those who were waiting to ridicule Casey were silent, and many of them stared at Casey with wide eyes.

Benson couldn't believe his eyes. He didn't expect Fitzgerald to be kicked by Casey.

This was enough to see that how large the strength gap between Casey and Fitzgerald was.

The contempt on Dalton's face quickly disappeared. He looked at Casey with steady gaze.

Casey's attack just now seemed simple without much power.

But it just illustrated the strength of Casey.

Even Dalton himself was able to make such an attack after reaching the stage of sublimation.

It showed that Casey was very likely to have reached the realm of sublimation.

10 Stars Who Got Excluded From The Hollywood Elite Club

No Money Could Ever Give You Access To Any Of These People

A master who had reached the realm of sublimation in his twenties!

It must be shocking news to the world.

Dalton didn't know the legend of Casey was already widely known.

It was just that he had been living in the mountains all the year round and didn't know anything about the outside.

"How is this possible! He actually reached the sublimation in his twenties! He was in a class of his own."

"It's no wonder Camille will favor him. This time I am really wrong. I have not found him to be such a powerful master."

Fitzgerald fell on the ground with a face full of disbelief, and he got up from the ground for the first time.

It was really shameful to be kicked by Casey at the beginning of the fight.

"It was just a mistake just now, come again!"

Fitzgerald rushed toward Casey again.

Although he was surprised at Casey's strength, he still felt that he had just made a mistake.

If he tried his best, he still had a chance to win.

So, Casey kicked him out again.

Fitzgerald flew back again and landed where he fell.
The audience exclaimed again.
Fitzgerald's face was flushed this time, and he couldn't expect himself to be kicked by Casey in the same way twice.
And he hadn't seen how Casey made the move at all.
Now the onlookers had probably regarded him as a joke.
He was furious, gritted his teeth and stood up again.
He rushed toward Casey again, and changed his attacking approach. He stopped using his punches, but instead used his feet to kick Casey.
It was a pity that the result had not changed, he still fell down in the same position.
Making a person fall in the same place three times.
It could be clearly perceived how adept was Casey at mastery of strength.

"You can't beat me, it's a waste of effort to continue."

Casey stared at Fitzgerald and said.

At this time Fitzgerald also realized the horror of Casey's strength.
Three times, Casey made him fall down three times, and he had no chance to fight back. Casey was really powerful.

But with so many people here, especially Camille was on the side, if he just gave up like this, he would be humiliated.

"Don't be proud, I don't believe I can't hit you!"

Fitzgerald was about to continue to rush towards Casey.

At this moment, a figure appeared in front of Fitzgerald and stopped him.

Fitzgerald glanced intently. It was his grandfather.

"Grandpa, let me go, I want to fight him to the death!"

Dalton sighed helplessly and said, "Give up, you cannot beat him at all." _____

Chapter 955 Has Been Beyond Grandmaster Circle

"Just... just now I was negligent, and this time I will definitely not let him succeed!"

Fitzgerald's face flushed, and it seemed that he didn't even believe his words.

It's just that so many people were watching now, and the battle between him and Casey was because of Camille, he didn't want to just give up like that.

Dalton glanced at Fitzgerald helplessly, and said, "The gap between you

and him is too big. No matter how many times you try, you will end up in the same way."

Fitzgerald was stunned, looking at his grandpa in an unbelievable manner and asking, "Grandpa, what do you mean? Has his strength already reached the Grandmaster Circle?"

Dalton's eyes narrowed, and he said, "Perhaps, it has transcended the Grandmaster Circle."

Fitzgerald was stunned suddenly, and he turned his head mechanically to look at Casey, with mixed emotions in his eyes.

Dalton said that Casey's strength may still be above the Grandmaster Circle, which meant that Casey had reached the sublimation.

Casey was only a few years older than him. By comparison, they were at the same age group.

In the past, Fitzgerald had always been called a genius in a million, because few people could step cross the threshold for entering the Grandmasters Circle at his age.

And now the man Camille brought back could be a master in sublimation.

Fitzgerald felt that his worldview was beginning to falter.

He had never seen a better man than himself. Among his peers, he had always been the top one. Now suddenly a person who was too much stronger than him had appeared, which was unacceptable to him.

"This... how is this possible? Grandpa, you just reached sublimation few years ago. How could he be in sublimation at this age?" Fitzgerald's voice trembled.

Naturally, Dalton couldn't explain this to Fitzgerald, and turned to look at Casey.

Benson was also looking at Casey in amazement at this time. He didn't expect Casey to be so powerful.

The grandson of Dalton, whom he valued so much, was helpless in front of Casey.

For three consecutive times, Casey kicked Fitzgerald out with one kick. It meant he was much stronger than Fitzgerald.

He looked at Casey with a complicated expression, then took another look at Camille. Seeing Camille's face full of excitement and obsessiveness with Casey, he couldn't help but sigh.

He may be really wrong this time.

Camille ran to Casey happily, then took Casey's arm and smiled and said, "You were really awesome just now."

Casey frowned suddenly and whispered to Camille, "Let go of me." Camille still had a smile on her face, and also replied with a slight voice, "You are my boyfriend now. Only by doing this can I let them see that our relationship is close. I won't let you go."

Casey had no choice but to let Camille hold him.

Fitzgerald felt more frustrated when seeing this scene. He knew that he had completely lost the qualification to compete with Casey for Camille. Dalton stared at Casey for a while, then asked, "Your strength has reached sublimation?"

"No, I'm just in half sublimation," Casey did not hide it, replied Dalton. Although it was somewhat different from his own guess, the feeling between sublimation and half sublimation was actually not much different to him.

6 Uncommon Tips For Building A Healthy Relationship

Being able to touch the threshold for sublimation at Casey's age was incredible.

And Dalton obviously felt that Casey's answer was more acceptable to him.

If Casey had officially stepped into sublimation, then he, who only stepped into the sublimation a few years ago, would be too shameful to continue living in the world.

"Half sublimation. You are already a genius. Your strength and talent are too much better than Fitzgerald. We were rude before, please accept my apologies," Dalton said sincerely.

Casey just nodded, without saying anything.

Everyone at the scene also came back to their senses at this time.

Compared with before, their eyes showed open admiration as they looked at Casey.

"I didn't expect this young man to be so powerful. I thought he was a braggart. I was too self-righteous."

"It's no wonder that he can become the instructor of the Dragon Army at such a young age. We fell into the error of judging by appearances. I am so guilty."

"Tut-tut, it seems that we have all misunderstood Camille. No wonder she doesn't like any of the blind dates Benson has found for her in recent years. It turns out that she has already found such a good person. Camille is really an inner-directed girl."

...

Benson saw that everyone began to boast about Casey, and he felt a little embarrassed. After all, he suspected Casey from the beginning. Now that Casey had proven his strength, he naturally couldn't say anything.

"Grandpa, do you still want to drive Casey away now? He is the chief instructor of the Dragon Army, and he is so strong. If you drive him away, you will never be able to find such a good grandson-in-law in this life."

Camille turned her head and joked to Benson.

Benson glanced at her, and muttered, "I really can't do anything with you."

Obviously, he also accepted Casey from his heart.

He turned his head to look at Casey, and said, "Your strength is really good. It seems that it makes sense for them to ask you to be the chief instructor of the Dragon Arm, but don't think I have to admire you."

"The most important thing to be Camille's boyfriend is whether you can be good to Camille and love her. If you can't do that, no matter how good you are, I won't let Camille be with you."

Camille rolled her eyes at Benson right away, thinking that Benson didn't say that back then.

"Oh, grandpa, Casey is very good to me. He cares me very much. In order to make me keep healthy, he also asks me to do exercise with him. Don't worry about that," Camille said.

Benson didn't deliberately embarrass Casey anymore, but said, "Since the competition is over, let's go inside. This is just a discussion. Dalton, Fitzgerald, please do not take it to heart."

Although Benson was still very polite, both Dalton and Fitzgerald already know that today's protagonists were no longer them.

Just when everyone was about to return to the villa, a sharp noise sounded, and then, a robust man appeared in the courtyard.

Everyone was taken aback, wondering what the person who suddenly appeared was doing.

After the man appeared, his gaze fell directly on Dalton, and then he shouted in a gloomy voice, "Dalton, you finally came out of the mountain!"

"I have been looking for you for so long, and I finally found you today. Do never want to go back alive!" _____

Chapter 956 Guzman

Dalton glanced at the person who suddenly appeared in the yard, his look changed abruptly, and then exclaimed, "Guzman! It turned out to be you!"

The man named Guzman was a thin old man wearing a linen robe, with a long beard, sunken eye sockets, and a hooked nose. He looked a bit evil.

Guzman stared at Dalton with a sneer, and said, "Hey, it's me. You spoiled my plan back then. If it weren't for you, that beauty would already belong to me. I will never forget it."

"Today, I will get even with you, and let you know what will happen after you spoil others' plan!"

Dalton rolled his eyes, and then hurriedly said to Benson, "This person is an enemy of mine many years ago. I didn't expect him to come here today. This person's strength is unfathomable. This matter has nothing to do with you. Hurry up and ask them to stay away."

Benson looked a bit solemn, he could feel the pressure radiating from Guzman, which was a bit stronger than Dalton.

The battle between the masters at the stage of sublimation was definitely not something they could get involved.

He immediately shouted to everyone in the Hussain family and those friends of the Hussain family, "Follow me back to the villa. Dalton will deal with it."

Everyone knew that the person who appeared suddenly was not a man to be trifled with, so they immediately followed Benson towards the villa.

The main purpose of Guzman's coming today was Dalton, so he ignored the others.

Dalton turned his head and looked at Fitzgerald, and said, "Guzman is so difficult deal with. I am afraid that I will not be able to leave today. I will fight him later. If I lose, you should run away as soon as possible and avenge me in the future."

Fitzgerald knew that Dalton was not joking, and nodded seriously.

At this time, he could only listen to Dalton. After all, in the eyes of the masters in sublimation, a Half Step Master was not much different from the ants.

Casey took a look at Guzman with interest. Judging from his aura, his strength may have reached the medium stage of sublimation. Among the experts Casey had seen, he was second only to Thomas and Fleming.

However, it was the grievance between Dalton and Guzman, and he should not intervene at will. He'd better wait and see how it went. Everyone followed Benson back to the villa, looking at the situation outside through the window.

Seeing that everyone had gone to the villa, Dalton also had less scruples, and looked at Guzman with a gloomy look.

"Guzman, you lothario. You wanted to rape the innocent girl and use her as a tool to make yourself more powerful. I can't sit idly by when I encounter such a shameful thing. How dare you come here. It's ridiculous!" Dalton snorted coldly.

Guzman sneered and said, "If you hadn't done anything to stop me back then, I wouldn't have had to spend so many years before I could break through again!"

"Dalton, tell you, now that I have reached the medium stage of sublimation. I will never let go of anyone who offended me before. You have to pay for what you did back then!"

Dalton's look changed abruptly, but he soon calmed down. Although his strength was only at the initial stage of sublimation, he may not necessarily lose to Guzman.

"So what, just like you who indulges in womanizing, no matter how strong you are, you are vulnerable because of deficiency of the kidney!"

Dalton yelled, without talking nonsense, and rushed towards Guzman.

Guzman's eyes narrowed. He hated people saying that he had kidney deficiency. Dalton had undoubtedly touched his bottom line.

On his palm, a light flashed, and then a machete formed by inner force appeared in his hand.

After Dalton rushed to Guzman, a long whip suddenly appeared in his hand, and he quickly threw it towards Guzman.

Guzman blocked Dalton's long whip with the machete in his hand, and then with a violent wave, a blade of light slashed towards Dalton.

Dalton didn't dare to resist Guzman's attack directly, but quickly turned around and avoided it.

The machete chopped down at the fence door of the villa, directly cut off the iron fence door, and then burst out in the distance, then collapsed towards the distance.

Everyone who watched this scene in the villa opened their eyes wide, and they didn't expect the destructive power of the master in

sublimation to be so terrifying.

If the machete had slashed towards them just now, more than half of the people present would have died.

"Is this the power of the master in sublimation? It's too terrifying?"

Camille muttered to herself.

After that, she turned her head and glanced at Casey on the side. When she ran into Casey that day, she also saw a vision, and she felt it even stranger than the two masters in sublimation.

"It should just be that I think too much. No matter how talented Casey is, he can't be more powerful than them. He also said that he has only reached half sublimation. He must not be as powerful as the two men," Camille muttered.

Fitzgerald looked solemn, he noticed that Dalton was a little helpless in front of Guzman. Although it was a tight fight, he actually fell into the disadvantage.

"Grandpa, you have to beat him!" Fitzgerald clenched his fist, planning for the worst in his mind.

In front of the Hussain's villa was a public grove. In order to prevent the fighting from hurting the people in the villa, Dalton rushed towards the grove.

Everyone couldn't see the battle in the villa, but they were afraid of being affected, so they didn't dare to go out.

However, they could feel the shocking movement outside and the power fluctuations that burst out from time to time. These alone had already made their hearts tremble.

After a while, the trees in the grove began to fall in pieces, and everyone could vaguely see some of the situation there.

Soon, a man rushed towards the villa, it was Dalton.

At this time, Dalton was already full of blood, looking terrible, and his clothes became tattered. When he rushed to the villa yard, he fell down.

He waved at Fitzgerald in the villa, motioning for him to run quickly. Seeing his grandfather's look, Fitzgerald had no heart to run away. He wanted to rush out to rescue him.

At this time, Guzman chased Dalton from behind. He stopped behind Dalton, with a sneer on his face, and said, "Dalton, it's not that easy to run away in front of me!"

"If I guessed correctly, your grandson is among the group of people inside, right? Don't worry, I won't let any of your offspring be let go."

After speaking, Guzman looked towards the window.

"Dalton's grandson, get out of here, and that beautiful chick, you also come out together. As long as you two are obedient, I won't hurt other people today, otherwise, all of you here will die!"

As he said, he raised his hand and pointed to the inside of the window.

The one he pointed at was Camille who was beautiful.

How could Guzman, a lecher, ignore such a beauty. _____

Chapter 957 I'll Keep You Safe

Camille was still in the shock of Dalton's defeat, and then she saw

Guzman point to her and ask her to go out with Fitzgerald.

In addition, a wretched smile was hanging on Guzman's face, making Camille tremble.

Benson's face changed abruptly after hearing Guzman's words, and then he hurriedly protected Camille behind him.

"You all run away, don't listen to him, I'll delay him!" Dalton yelled at the people in the villa.

Then he tried to get up and continue fighting with Guzman.

Guzman stepped directly on Dalton's back, and Dalton, who was about to get up, fell down in an instant, and a mouthful of blood spurted out from his mouth.

"Dalton, you can never stop me with your strength. What an idiot!"

Guzman said with disdain.

Dalton was anxious. If he had known that Guzman's strength was so great, he should have taken Fitzgerald directly to escape at that moment.

Now not only Fitzgerald couldn't escape, even the Hussain family would be implicated.

Benson also knew that it was definitely impossible to resist today, the master in sublimation could kill them easily.

Up to now, he could only pray that Guzman could show mercy and let go of Camille.

He walked over to the door, opened the door directly, and said, "Sir, our Hussain family has no grievances and no grudges against you. Please let go of my granddaughter. She is still just a child. Just catch me. I can give you everything from the Hussain family."

Guzman stared at Benson, then kicked Benson into the air without saying a word.

Benson fell heavily to the ground, spitting out blood.

Guzman didn't use much strength with this kick just now, otherwise Benson should have died.

"Old guy, what's the use for me to catch you? I want that beautiful chick. She can make me comfortable. What can you do?" Guzman said unceremoniously.

Camille hurried to Benson's side, helped Benson up, and asked with concern, "Grandpa, are you okay?"

Benson gritted his teeth, got up from the ground, wiped the blood from the corner of his mouth, and said, "I'm OK. Camille, I am useless and I can't protect you."

There was a trace of determination in Camille's eyes, and she said, "Grandpa, don't worry about me. Even if I die, I will never let this disgusting guy touch me."

Benson suddenly became anxious and said, "Camille, don't be impulsive."

Then he looked at Guzman and said, "Sir, please don't have designs on my granddaughter. The Hussain family has held important positions in the army for generations. Over the years, our family has amassed a fortune. If you promise not to hurt my granddaughter, I can give you everything of the Hussain family. "

Guzman curled his lips and said, "Sorry, I am not interested in those things. I only want your granddaughter."

After speaking, he walked towards the villa.

"Girl, you have to submit to me honestly, I promise I will treat you well and make you comfortable."

Guzman smiled wryly, stretched out to Camille, and grabbed her.

Seeing this, Camille was about to take out the dagger hidden in her clothes and kill herself directly to avoid being defiled by this disgusting guy.

But at this moment, a man stood in front of Guzman.

Camille also felt a gust of wind blowing, followed by a familiar smell.

The Criminal Minds Cast: Where Are They Now?

Casey!

Camille looked at Casey in front of her in disbelief, and opened her mouth in surprise.

"... Casey, what are you doing?" Camille asked.

Casey turned to look at Camille, with a calm smile on his face, and said, "Don't worry, I will protect you."

Although Camille was a little moved by Casey's movement, Guzman was a master who even Dalton couldn't beat. How could Casey beat him. "Don't be stupid. Didn't you see his strength just now? Didn't you say that you have only reached half sublimation? Get out of here, I don't need you to save me!"

Camille anxious, she didn't want Casey to be hurt because of her.

Casey ignored her words, but looked at Guzman in front of him.

Guzman didn't expect that someone would stand up to stop him at this time. He found that Casey looked only in his twenties. Therefore, he didn't have to be afraid at all.

"Boy, are you dicing with death? How dare you spoil my business?"

Guzman stared at Casey and asked.

Casey faintly said, "She is my subordinate, and I am her superior.

Naturally, I am responsible for her safety. I advise you to restrain yourself, otherwise, you will regret coming here today."

Just now Casey recalled that Guzman was the fourth person on the List of Rewards in the Pantheon.

Thus, even if Guzman didn't plan to do anything to Camille, Casey wouldn't let Guzman leave today. After all, in Casey's eyes, he was a great merit.

Now that he had joined the Pantheon, he had to make a contribution to the Pantheon.

When Guzman heard Casey's words, he burst into laughter and said, "Boy, do you know who you are talking to? You have seen the end of Dalton, right? You think you, a young man, can be better than Dalton?" "You'll know it after having a fight with me," Casey said lightly.

After speaking, he took Muramasa in his hand and slowly pulled it out of the scabbard.

Guzman's contempt for Casey was deeper when he saw that Casey was still holding weapon. Casey's action could only show that he had not reached the state of sublimation. Naturally, Guzman would not be afraid of a guy who had not reached the state of sublimation.

Everyone in the villa looked helpless when seeing Casey's calm look, and felt that Casey was still impulsive.

"In fact, his strength is not weak. If he insists on fleeing, he may not be caught. It's a pity that he is still too reckless."

"When I was young, I was the same as him. I would definitely not be able to accept this kind of thing. However, the man standing outside has reached the state of sublimation. Even Dalton was severely injured by him. How can Casey beat him?"

"Originally, I thought Camille found an outstanding husband, but she ran into this matter in a blink of an eye. God is really unfair."

...

Guzman looked at Casey, the smile on his face deepened, and then he kicked Casey unexpectedly, wanting to solve Casey directly.

But what he didn't expect was that Casey easily escaped his kick, and then Muramasa in his hand quickly pierced Guzman's neck.

Above the blade, light emerged, Guzman felt a sense of crisis, and had to retreat quickly to the back. _____

The Peremptory Casey Davies

Chapter 958 I Have Only Reached Half Sublimation

After stabilizing himself in the courtyard, Guzman squinted his eyes and looked at Casey, with a hint of surprise in his expression.

"Guy, why is your strength so weird. You can display the power of sublimation while holding a weapon. Don't you understand the sublimation of inner force?" Guzman asked.

Casey smiled and said, "I have only reached half sublimation, so I still need to use weapons to exert my strength."

Guzman's eyes widened. This was the first time he had heard of the half sublimation.

At the same time, he was also shocked by Casey's talent. He seemed to be in his twenties, but he had reached half sublimation, which was really terrifying.

However, no matter how talented Casey was, he hadn't reached the true sublimation, and for Guzman, there was no threat.

As long as he killed Casey now, all his talent and potential were meaningless.

"Boy, you are so talented, but you are dicing with death now. You are really stupid. Do you really think that you can challenge a master at the medium stage of sublimation as you are talented?" Guzman sneered and asked.

Casey smiled and said, "Maybe I can really beat you with my talent."

"What a dream!" Guzman said directly.

Dalton, who fell to the ground, also shook his head helplessly and muttered, "It's a pity. With his talent, it is only a matter of time to reach sublimation. If he can bear it, he can take revenge on Guzman in the future. He is really cutting his own throat by standing out now."

Casey didn't continue to talk nonsense, and walked out with Muramasa, Xuanjin gushing out of his body, attaching to the blade.

Seeing this, Guzman didn't say anything more. With a wave of his palm, the machete appeared in his hand again.

"Then, I will let you know what kind of strength a real master in sublimation has!"

As soon as he finished speaking, the machete had already slashed towards Casey, with great power, shaking the sky and the earth. Casey didn't dare to neglect at all, and immediately gathered all of his strength on the blade, and chopped out towards the front.

Muramasa collided with machete, and a terrifying wave broke out between the two and dispersed towards the surroundings.

The glass on the door of the villa behind Casey shattered instantly, and everyone standing in the villa fell to the ground by the wave.

Although it took Casey great effort to resist Guzman's attack, he succeeded in dissolving his power.

Seeing this scene, Guzman raised his eyebrows, as if he didn't expect Casey to withstand his attack.

After all, a full blow from him, who had reached the medium stage of sublimation, was not comparable to a person who only reached half sublimation.

In fact, Casey was also a little confused about his current strength.

Although he still stayed at the half sublimation, as time went on, the Xuanjin in his body was gradually increasing.

He judged that he was in half sublimation because he had not reached the advanced stage of Xuanjin. However, so far, the power in Casey's body seemed to be vaguely comparable to the power at the initial stage of sublimation.

The current difference between Casey and masters in sublimation was that he had no way to make Xuanjin out of the body. In other respects, Casey didn't feel much difference between himself and masters in sublimation.

Reaching the advanced stage of Xuanjin was meant to be a Grandmaster of Xunjin, and Casey was still one step away from the advanced stage of Xuanjin, and he already had the strength of sublimation.

There was still a considerable difference between the advanced and the medium stage of Xuanjin.

Casey felt that if he reached the advanced stage of Xuanjin, his strength would be stronger than the initial stage of sublimation of inner force.

Without thinking about it anymore, after Casey warded off Guzman's attack, he rushed towards the grove, lest the fighting later affect the

people in the villa.

The Criminal Minds Cast: Where Are They Now?

No Money Could Ever Give You Access To Any Of These People

Seeing this, Guzman immediately followed, and the machete in his hand swung out, and another blade of light flew out.

Casey dodged quickly, letting the blade of light slash into the woods ahead, and a large swath of trees fell straight down.

Everyone in the villa was quietly relieved when they saw the two people moving away.

Camille solemnly watched the direction Casey rushed in, her face full of worry.

"Casey, you must be safe."

Casey was weaker than Guzman in realm, but he had god mind, could understand every movement of Guzman, and predict Guzman's next attacks in advance.

In this way, Casey could avoid Guzman's attack easily.

Guzman was confused, and he didn't understand why Casey could guess his attack every time.

He was at the medium stage of sublimation. However, it was so hard for him to beat Casey, who was just in half sublimation.

Guzman suddenly became frantic, and his attacks became much fiercer.

In this state, even if Casey had god mind, it was quite difficult for him to deal with Guzman. After all, there was a considerable gap in the power between him and Guzman.

Considering that he would be likely to be forced by Guzman to be unable to fight back, Casey promptly used Cabala to increase his strength.

Up to now, only by this way could Casey continue to compete with Guzman.

At the same time, the dummy in Casey's mind was quickly forming some complicated handprints, and his whole body was flashed with golden light, which looked quite strange.

It was just that this scene only appeared in Casey's mind, and Guzman naturally couldn't see it.

After using Cabala, the aura on Casey's body instantly rose, and the trees around him trembled.

Guzman's eyes squinted. He didn't expect that such a change would occur in Casey, and he suddenly became vigilant.

Casey picked up the Muramasa again and rushed towards Guzman. This

time, the power of his attack was weaker than Guzman's at all. They attacked each other several times in an instant, and Guzman actually felt that his suppression of Casey had completely disappeared. At this time, Casey was equivalent to a true master in sublimation, not much weaker than Guzman.

"Guy, what the hell is going on with you, why is your power suddenly so strong?" Guzman stared at Casey and asked.

Casey grinned at him and said, "Why should I tell you?"

After speaking, he slashed towards Guzman.

At this time, everyone watching the fight in the villa was also surprised. From their perspective, Casey and Guzman seemed to be evenly matched.

A master in half sublimation was even tied with a master at the medium stage of sublimation, which was really beyond their expectation.

"It's no wonder that he dared to come forward. It turns out that he has a means that we can't imagine. If he can survive, he must be a figure standing at the pinnacle of C Country Martial Circle in the future!"

The Peremptory Casey Davies

Chapter 959 Sould Control Print

Guzman looked at Casey in front of him with irritation. He was panting for breath. Fighting with person of his own strength, naturally, he could not be as calm as before.

"Damn thing, you really surprised me. I thought you were just a stupid young man who acts recklessly and blindly. I didn't expect you to have such strength," Guzman said.

"Since you already know it, it's best to surrender obediently and stretch your neck out. Don't waste time here," Casey said lightly.

Guzman suddenly snorted and said, "Do you really think that you are qualified to say this to me with your little trick?"

"Boy, you are not the only one who can increase strength in short time!"

After speaking, Guzman took out a jade bottle from his clothes and poured out a pill from it.

"Originally, this pill will be used by me to save my life at critical moments, but I didn't expect you to be so powerful. In that case, I can only take this pill now."

Guzman showed his pill in front of Casey, and then put it into his mouth. Casey narrowed his eyes, knowing that after Guzman took this pill, he would no longer have any advantage.

At exactly this time, the dummy in his mind had already completed the seal, the dummy exuded a dazzling light, and then a magical seal appeared in front of him.

A playful smile appeared on Casey's face, and then he flew towards Guzman quickly.

"I'm afraid it will be too late for you to take this pill now!"

Guzman snorted coldly, not worried that Casey would attack him at this time.

Although it took a certain amount of time for the pill to exert its effect, Guzman had not yet reached the time when he was unable to fight back, so he was not worried that Casey would continue to attack him at this time.

Seeing Casey about to rush in front of him, Guzman curled his lips, then waved the machete in his hand to resist Casey's attack.

At this moment, Casey suddenly formed a strange handprint on one of his hands, and then shouted, "Sould Control Print!"

Immediately afterwards, the golden magic seal hidden in his mind flew out in an instant, and then swelled into a huge magic seal phantom, which directly suppressed Guzman's body.

Guzman was still waiting for Casey to make a move. He never thought that such a change would suddenly occur, and he didn't react to it for a while.

He had never seen such an attack before, and his face was full of doubts.

But no matter what, he was a master at the medium stage of sublimation. Even he was confused, the machete in his hand had been slashed towards the huge magic seal phantom.

Several blade of light flew in the direction of the seal. Guzman thought that it would be able to withstand Casey's attack, but what he didn't expect was that those blade of light passed directly through the seal, as if it didn't hit anything.

Guzman was astonished. He didn't know what was going on, and for a while, he didn't know how to deal with it.

He wanted to continue to attack to resist the seal released by Casey, but before he could do so, the seal had already hit him.

Guzman's body was not damaged, but the moment seal hit Guzman, Guzman felt that his soul was under control, and his consciousness was no longer able to continue to control his body.

His hand holding the machete dropped, and he became like an

unconscious fool. He looked at Casey rushing towards him dully, without any reaction.

After Casey arrived in front of Guzman, he swiped out Muramasa and slashed it on Guzman's neck.

The Criminal Minds Cast: Where Are They Now?

No Money Could Ever Give You Access To Any Of These People

A blood line appeared on Guzman's neck, and then his head was cut off and his body fell to the ground.

Seeing Guzman being killed by him, Casey was also relieved

At the same time, he had a new understanding of the power of Method of God Soul.

Sould Control Print that Casey just used was exactly a kind of attack mode recorded in god soul practice obtained from the Willson family.

After starting to practice Method of God Soul, Casey had been working hard to study Sould Control Print. Although it was quite difficult to master it, from the results just now, Casey had a fairly good grasp.

The reason why Guzman's blade light had no effect on Sould Control Print was because Sould Control Print was a method of attacking the soul. The power forms between the two were different, and of course it was impossible to have any effect.

In addition, Guzman had never been in contact with Attack Method of God Soul before, and it could be said that he was unprepared, so Casey was able to solve Guzman so easily.

Even if Guzman took the strength-enhancing pill, it was the body's strength that was improved, which had nothing to do with spirits, so Casey didn't care at all.

It was a pity that when Guzman understood this, his head had already been cut off.

He had no chance to regret it.

Casey could feel that his using of Sould Control Print was only at the most basic stage, and he hadn't used its full power.

The reason why he could achieve such good results this time was that Guzman had never been prepared for his Attack Method of God Soul.

If Guzman was prepared, even if he hadn't awakened the god soul, but with his willpower, he may be able to resist Casey's soul attack.

Of course, when Casey was fighting, he would definitely not tell his opponent that he was going to use Attack Method of God Soul.

At present, the biggest effect of Attack Method of God Soul was to catch others unawares.

This was one of Casey's hole cards, so naturally he wouldn't tell anyone. Staring at Guzman who had been beheaded by him, Casey took out his mobile phone and kept the evidence of killing Guzman. In the future, he would receive meritorious service from the Pantheon. Finally, he turned to the villa.

At this time, everyone in the villa was full of anxiety. The fighting movement in the grove just now was earth-shattering. Just listening to the sound made their bodies tremble involuntarily.

Just then, someone stretched out his hand and shouted, "Look, Casey is back!"

Everyone cast their gazes over, and they were all a little excited when they saw Casey walking towards this side.

Soon, Casey walked in front of everyone, and then faintly said, "I have killed that old man, so please tidy up the battlefield over there."

Everyone took a sigh of relief.

Casey actually killed Guzman!

What an incredible thing!

But no one doubted Casey's words at this time, because if it were not for this result, Casey could not stand in front of them so calmly. _____

Chapter 960 He Was A Real Genius

Camille quickly walked up to Casey, stared at Casey's body carefully, and then asked with concern, "Are you okay? Did you get hurt?"

Casey shook his head and said, "I was not injured, but I used some forces with side effects to kill Guzman. Now I need a quiet room. I may be in a coma for about three days. I hope no one will disturb me in these three days."

Camille immediately nodded and said, "Don't worry, I won't let anyone disturb you."

"Can you hold on for a while? We cannot stay in this villa any more. Our family has several properties in Dongji City. I will take you to the safest one."

Casey nodded. Although he used the Cabala, he hadn't spent himself yet, so he could hold on for a while.

Camille immediately confessed to Benson, asked for a car key, and then walked outside with Casey.

At this time, Dalton brought Fitzgerald to Casey, and both of them bowed to Casey solemnly.

"Casey, thanks to you that Guzman, a person with evil intentions, did

not succeed. You saved everyone present, and you saved my life. You are the savior of my Chambers family. The Chambers family will never forget your kindness for generations, and we will do our best to repay you," Dalton said sincerely.

Fitzgerald also thanked Casey and said, "Casey, you are a chivalrous man. I used to be hostile to you because of Camille. Now it seems that I am ridiculous."

"I solemnly apologize to you here, and promise that I will never have any designs on Camille in the future. I wish you two be with each other forever."

Camille blushed immediately after hearing Fitzgerald's words. For some reason, she still felt a little bit happy.

Casey felt a little speechless and wanted to explain to Fitzgerald, but at this time Camille rushed to say, "Oh, let's say these things another time. Casey needs a rest now. I will take him to find a safe place. We will leave first."

Both Dalton and Fitzgerald also nodded quickly. Dalton said, "Yes, yes, take Casey to rest."

"Casey, don't worry, Camille is a good girl, she will take care of you," Fitzgerald said.

Camille was so happy. She didn't give Casey a chance to speak at all, and dragged him and walked outside.

After Casey and Camille left, Dalton, Fitzgerald, Benson and the Hussain family walked towards the side of the battlefield with curiosity.

They were all very curious about what kind of damage such a powerful battle would cause.

When they saw those tresses which were cut off, or even directly blown into powder, their mouths suddenly opened wide in shock.

Above the ground, there were many big pits created by the fluctuation of the power of Casey and Guzman, and the grove were destroyed everywhere.

Especially when they saw Guzman who was decapitated, they all gasped in surprise. Everyone did not expect that this expert who had reached the medium stage of sublimation would die in this way.

"It's really shocking. I never thought that a person can be so powerful. His destructive power can be compared to a small army."

"That's a master at the medium stage of sublimation. No matter where he goes, he could walk tall. Now, he is killed here. If I didn't see it with my own eyes, I would not believe it. "

"Casey is really a real genius among the people. He will definitely reach the acme in C Country in the future."

...

A high-end community in Dongji City.

Camille drove into the community and stopped in front of a foreign-style house with a garden.

This whole foreign-style house belonged to the Hussain family.

After stopping the car, Camille hurriedly got out of the car, helped Casey open the door, and then reached out to help Casey out.

Casey glanced at her and said, "I can still move."

Camille stuck her tongue out at Casey, and said, "I am caring about you."

Casey got out of the car, followed Camille into the house, and asked, "Didn't we agree that you should explain the relationship between us to everyone at last? Why didn't you explain?"

Camille suddenly felt a little guilty and said, "Oh, isn't it an emergency? I wanted to let you rest quickly, so I didn't explain it."

Casey talked helplessly. He knew that Camille had time to explain to everyone just now, but for some reason, Camille didn't seem to want to say that they were just pretending to be sweethearts.

"I don't know what you think about, but I still want to remind you that I am a married person, and I love my wife very much, and I will only love her in this life."

"You may be grateful to me for this incident, but I killed Guzman only because of my personal principles and my own tasks. I hope you don't have any special feelings for me because of this incident."

Camille suddenly became quite aggrieved after hearing Casey's words, and then she directly shouted at Casey, "Hey, how are you like this? Who will have special feelings for you? You are so narcissistic! "

"That's the best." Casey didn't mind Camille's reaction at all. After speaking, he walked into the house.

Camille gritted her teeth while looking at Casey's back, and muttered, "Asshole, I shouldn't bring you here. Just stay here by yourself, I don't bother to care about you!"

After speaking, Camille stood there for three seconds, and finally ran to Casey, opened the door, and said impatiently, "The threshold here is a bit high, you should be careful."

At this moment, she felt that she was really self-inflicted. She obviously felt that this guy's words were very annoying, but she still couldn't help but want to care about him.

Even she herself didn't know why she became like this.

Camille went to clean up the room for Casey and prepared everything for Casey.

Casey lay directly on the bed. By this time, he was almost at the limit, and he couldn't care about anything else.

Camille stared at Casey for a while, hesitated for a while, and said, "I admit that I do have a good impression of you, but you don't have to refuse me directly. How do you know that I can't make you fall in love with me?"

Casey didn't respond, and Camille suddenly felt a little embarrassed. After a while, she carefully observed Casey, only then did she discover that Casey had fallen asleep.

The Peremptory Casey Davies

Chapter 961 Inordinate Ambitions

Two days later.

In the room, Casey was lying on the bed, his eyes closed, motionless, still in a coma.

Camille was standing by the bed, staring at Casey for a long time, then bent down and started to unbutton Casey's clothes.

As the buttons on Casey's clothes were unbuttoned, Camille also saw Casey's strong chest and abs on his stomach.

When Camille, who was longing for love, saw this scene, her eyes brightened up instantly, and she almost dribbled on Casey's body.

"Oh my god, this guy has a very good figure. He is really a desirable guy," Camille muttered to herself, and couldn't help taking Casey off his clothes.

In addition to nearly perfect figure, there were a lot of scars on Casey's bronzed skin, which made him more manly.

The average girl did not have any resistance to such a body. Just as men liked plump women, women also liked strong men.

Had it not been for Casey who was still in a coma at this time, Camille wasn't sure if she would fool around with Casey directly.

Camille didn't stop after taking off Casey's shirt. After staring at Casey's pants, her face was a little blushing, but she stretched out her hand to Casey's belt.

She tried to pull Casey's belt out, but because Casey was lying

motionless, she couldn't pull it anyway.

"Oh, I can't move it. Forget it, just take off his pants directly."

Camille muttered to herself, and then walked to the foot of the bed, grabbing Casey's pants with both hands, pulling Casey's pants down. At this moment, Casey, who had been drowsy, suddenly opened his eyes and saw that his shirt had been taken off and his pants had been pulled halfway, he quickly pulled his pants back, with a doubt and vigilance look, and asked, "What are you doing?!"

Camille didn't expect Casey to wake up at this time. After seeing Casey pulling his pants back, she was still stunned.

After coming back to her mind, her face was suddenly flushed. She lowered her head and dared not look directly at Casey.

"You have been in bed for so long, so I want to wipe your body," Camille said in a tiny voice.

Casey didn't believe Camille's words at all, and said, "Don't try to lie to me. Do you want to Take advantage of me while I'm sleeping?"

Camille was stunned for a moment, and then said angrily, "Hey, watch your words. Who wants to take advantage of you while you are sleeping? What do you think of me!"

"If not, why would you take off my clothes, and you were looking at a place where you shouldn't be looking." Casey didn't believe Camille's words.

Camille looked aggrieved and said, "I just thought that your body was almost stinking after lying in the bed for two days, so I want to take off your clothes and wipe your body with a towel. It will make you sleep more comfortably. I didn't expect you to think of me this way. I am so insane that I want to take care of you."

With that said, Camille also pointed her finger at the basin and the towel on the ground.

Casey stared at the basin and towel, and found that Camille really seemed to want to wipe him, knowing that he might have really misunderstood her.

"Well, I'm sorry, I just woke up and saw you taking off my clothes and you were about to drool, so I thought you were going to do something to me. I was thinking too much," Casey explained quickly.

With the improvement of Casey's strength, the side effects of Cabala no

longer affected him as strongly as at the beginning. Thus, Casey had recovered after sleeping for two days.

Hearing Casey's words, Camille felt even more uncomfortable. She did not expect that Casey actually said that she was about to drool just now.

She subconsciously touched the corners of her mouth, and after she was sure that there was no saliva, she breathed a sigh of relief.

"His words must be exaggerated. This guy is really disgusting. He is so narcissistic to say that to me. Who would covet his body? He stinks of sweat. I even don't want to stay in the same room with him." Camille murmured in her heart, glanced at Casey's body, swallowed and spit. Casey was a little embarrassed when he saw Camille's angry look. He felt that it was a bit wrong to think of a girl like this, so he apologized, "I'm sorry, thank you for your caring when I was asleep. I have recovered now. So I don't need you to wipe my body."

Camille snorted at Casey, turned her head to the side, and said nothing. After that, Casey checked his physical condition a bit, and after making sure that he was fine, he went to the bathroom and took a shower.

Camille had already prepared clothes for Casey, so Casey didn't have to continue to wear the previous clothes.

After Casey took a shower, Casey once again expressed his gratitude to Camille. Camille was no longer upset at this time. After all, she did covet Casey's body a bit, and Casey was her savior and her superior, how could she really be angry with Casey?

"As you wake up now, are we going back to the training base?" Camille stared at Casey and asked.

Casey nodded, and then said, "But there is one more thing to do before we go back."

"What?" Camille immediately widened her eyes curiously.

Casey turned to look at Camille, and said, "Go and explain our relationship to your family. We are just pretending to be lovers."

After Camille heard it, she was immediately disappointed, and said, "Oh, it doesn't matter if we explain it or not. It is not a big deal. Let's go back first. I'll explain it to them later."

"No. Go and explain it now." Casey directly rejected Camille.

Camille suddenly puffed up her mouth, looking quite upset, but she couldn't stop Casey, so she had to go to the place where the Hussain family was at this time after she had packed up.

They walked into the living room together. Before coming, Camille had already called Benson. At this time, everyone in the Hussain family was

already waiting in the living room, waiting to thank Casey, their savior. After seeing Camille and Casey coming in, Benson hurriedly greeted them and said with a smile, "You are really a good match. Casey, Camille is really lucky that she can find a boyfriend like you."

Casey said immediately, "Mr. Hussain, in fact, I am not Camille's boyfriend. I just pretended to be her boyfriend. Camille came up with this way to avoid the blind date."

Benson was stunned when he heard what Casey said. _____

Chapter 962 What Do You Think of Concubine

"You pretended... to be lovers?" Benson looked at Casey in disbelief.

"Casey, don't make a joke to me. How can you be false couple? I think you and Camille are very intimate."

Casey turned to look at Camille and said, "You have to explain it."

Camille was obviously reluctant, but still looked at Benson and said,

"Grandpa, what he said is true. We are really pretending to be sweethearts to avoid the blind date you arranged for me."

Benson's look darkened suddenly. He looked at Camille a little angrily, and said, "You, you really want to piss me off. How can you do this!"

"Oh, it's because I don't like the blind dates you found for me before, and I am afraid that you will directly decide my marriage on impulse, so I could only think of such a way," Camille explained in injured tones.

Benson was originally immersed in the joy of getting a real genius as his grandson-in-law, but now he learned that the relationship between Casey and Camille was just a lie. He was filled with a sense of loss.

He gave Camille a fierce look, then his gaze fell on Casey, his eyes rolled, and he smiled and said, "Casey, in fact, whether you are true lovers or not, you are well matched. Why don't you just try to be real lovers. You can go out with Camille. Maybe you will fall in love with each other."

Casey shook his head and said, "Mr. Hussain, actually, I am already married and have a daughter. Camille is still young. It is very easy for her to find a suitable person, so you don't have to worry too much about her marriage."

When Benson heard that Casey was married and had a daughter, his face was suddenly full of disappointment.

He glanced at Camille and said, "Why did you get married so early? Didn't I really have to miss such a outstanding grandson-in-law?"

Camille also looked at Benson helplessly, and muttered, "It's not that I didn't fight for it myself. I can only blame myself for being born too

late."

When Casey heard Camille's words, he immediately turned his head and glanced at her. Camille quickly moved her gaze away, as if she hadn't said anything just now.

"Casey, what do you think about concubine?" After a long silence, Benson asked Casey.

Casey was speechless, and Camille was also a little surprised. She didn't expect that her grandfather would talk to Casey about concubinage.

"Mr. Hussain, I don't have any thoughts about having concubines. You should stop thinking about it." Casey said, "In addition, I will give you another suggestion. Feelings are a personal matter. Imposed feelings don't get good results. Besides, it is now in the 21st century. Young people should love freely. You should not interfere with Camille's affairs in the future."

Benson sighed helplessly, and now he could only smile bitterly at Casey.

...

In the car back to Northern Border.

Camille looked a little sullen along the way. Obviously, she was a little unhappy about Casey asking her to clarify the relationship between them.

"When you came out, you should have seen my grandpa's upset look. I really don't understand why you have to tell the truth to my grandpa. He was so happy. It's just a white lie. You're so stingy," Camille complained.

Casey glanced at her and said, "If you hide it from him now, he will be more disappointed in the future."

"Then just keep hiding it," Camille said angrily.

"Oh? According to you, are you going to let me pretend to be your boyfriend for the rest of my life?" Casey asked.

Camille suddenly became a little shy when her mind was seen through by Casey, and muttered: "Cut, who wants to let you pretend to be my boyfriend? You're really narcissistic."

After speaking, she turned her head over and stopped responding to Casey.

Back to Northern Border, Camille put on her uniform again. She turned to be serious and became Casey's instructor again.

Casey ordered Camille to not use him as a shield in the future, otherwise she would be punished in accordance with the rules. Camille was naturally quite unconvinced, but this was an order from a superior and naturally had to be obeyed.

After returning, Casey first inspected the training of the Dragon Army and confirmed from their physical condition that they were not indolent in the past few days when they were not here. Casey was also satisfied with the result and then added some training intensity to them as appropriate.

Everyone in the Dragon Army was more active because of Casey's return, but they didn't expect Casey to increase their training volume when he came back, and bitter complaints could be heard here and there in the Dragon Army.

As the training progresses, the physical fitness and strength of the Dragon Army had been significantly improved. If everyone in the past could be regarded as King of Soldiers, then everyone in the Dragon Army was the top mercenary.

It was easy to know how terrifying an army formed by the king of mercenaries was.

Halfway through the training, Casey also began to teach the Dragon Army relatively simple and easy-to-learn combat tricks, and also specially developed a set of team cooperation tricks for them to improve the combat effectiveness of the team.

After learning to fight from Casey, everyone in the Dragon Army realized how powerful Casey was. After the guidance of Casey, the simple tricks that seemed to be able to can burst out beyond people's imagination.

As an expert in Thai boxing, Boone realized that the profoundness of martial arts of C Country after learning the tricks taught by Casey. The ancestors' wisdom really could not be compared casually.

And to Casey's surprise, some of the Dragon Army actually had a tendency to master inner force relying on his quick version of deep breathing.

Although only a few people had such a talent, it was already very surprising.

After all, it was difficult to step into the threshold of inner force.

Although these people were strong soldiers, they did not necessarily have martial arts talents. Now that there were a few people who were about to grasp inner force, it was already good news.

The training was in full swing, and Casey also took advantage of this

time to do god soul practice, and he was more sure about the power of Sould Control Print.

Time flew, a month had passed, and the training plan that Casey formulated for the Dragon Army had been successfully completed. A reborn and successful Dragon Army had already appeared on the training base.

And the comparison between the Dragon Army and the Wolf Army also came quietly on this day._____

Chapter 963 The Competition Between the Two Armies

At Martial Arts Hall.

This time the competition between the Dragon Army and the Wolf Army was held in this martial arts hall.

At this time, the stands of the martial arts hall were already full of people, and those who could come here to watch the match between the two armies were naturally people with a certain status in the army. Many of them brought their family and friends over.

There were also people with extraordinary means from the outside world who could get the qualifications for admission here, and would also run over to take a look at the confrontation between the two strongest armies in C Country.

At this time, in the middle of the stands, a group of people wearing uniform uniforms were already seated, and their clothes were embroidered with an imposing wolf tooth.

These people were the high-level members of the Wolf Army.

Sitting in the middle position was a middle-aged man in his forties.

This person was the commander of the Wolf Army, Harding Lambert.

Harding looked arrogant at this time. He chatted quite calmly with the people who came to talk to him.

Although the Wolf Army lost to the Dragon Army last time, it was still the second strongest army in C Country. Naturally, many people wanted to curry favor with Harding.

And Harding had sufficient confidence to defeat the Dragon Army this time.

Most of those who come to talk to Harding also hold this idea.

And the reason they came up with this idea was because everyone had already learned that the new chief instructor of the Dragon Army was a young man in his twenties.

Although these people were all high-ranking, Casey's information was the top secret in the military. Except Magnus, basically no one else knew Casey's background.

As for the fact that Casey used his own power to contend against the five great families, it was only widely circulated in the martial arts circle, and people in the army were naturally not interested in this kind of thing.

It had led everyone to think that the new chief instructor of the Dragon Army was an inexperienced youth. Although they did not know why Casey could be the chief instructor of the Dragon Army, everyone agreed that it was quite difficult for the Dragon Army to defeat the Wolf Army.

Moreover, everyone had heard that the Wolf Army had found a powerful master at the Grandmaster Circle to be its instructor.

Taken together, everyone's expectations for the Wolf Army surpassed the Dragon Army.

"Captain Lambert, I heard that you have hired a master at the Grandmaster Circle to be the instructor this time, but I heard that those martial arts masters rarely agree to these requests from the army. I didn't expect that you can really hire a master. It seems that the Wolf Army is determined to win this competition."

"That's right. Where the Grandmaster is? Can you introduce him to us?"

"Master West happens to have something. He will come over when his matter is dealt with later. I will introduce you to him at that time,"

Harding said with a smile.

Everyone nodded happily.

The Master West mentioned by Harding was the head of the Chan family, one of the five great families in the martial arts circle, Bradford. After the battle with Casey, Bradford was seriously injured and almost died. After many treatments, he was finally able to survive.

The Criminal Minds Cast: Where Are They Now?

No Money Could Ever Give You Access To Any Of These People

His experience was similar to that of Duffy. After that time, the martial arts family fell. Duffy took the Wong family and fled to R Country, while Bradford chose to join the military.

As a Grandmaster in martial arts, the military naturally attached great importance to him. This time he was invited by Harding to become the instructor of the Wolf Army. Bradford felt that the luck of the Chan family had returned.

But he didn't know that the new chief instructor of the Dragon Army was Casey, the one he knew best.

Harding dismissed Casey, so he never mentioned Casey's name to Bradford.

"I heard that the new instructor of the Dragon Army is a young man in his twenties. I don't know what the commander thinks. He actually asked a young boy to be the chief instructor of the Dragon Army. This time, the dragon will have no chance to defeat the Wolf Army."

"Maybe it's because the commander feels that the Dragon Army is too strong, so he wants to suppress them. This is a good opportunity for the Wolf Army to rise."

Harding was very happy to listen to the people taunting the Dragon Army, and he couldn't help but laugh.

At this time, Boone and Casey walked over with the top managers of the Dragon Army. Today's match was just a competition between the players, they didn't need to play.

Boone heard the conversation just now. He said with a cold look, "I'm afraid that you will still have to lose to the Dragon Army at that time. Last time you almost won. But this time, your combat effectiveness will be much worse than ours"

Harding's look suddenly became gloomy, and he stared at Boone and said, "Don't be proud here. The Wolf Army had been primed by a great expert this time. It's easy to beat you."

Boone curled his lips, his face was full of disdain.

After Camille came back, she had already told him that Casey killed a master in sublimation. Boone knew that Casey's strength had already surpassed the Grandmaster, and even the masters in sublimation was no match for him.

If the Grandmaster the Wolf Army found could be considered as an expert, then Casey who had guided them this month was probably a god.

Casey didn't worry at all. He was quite satisfied with the current strength of the Dragon Army.

Harding's gaze fell on Casey, with a trace of contempt in his eyes, and he said, "You are the new chief instructor of the Dragon Army, right? You are really young. The Dragon Army used to be the strongest army in C Country. I hope they will not hand over this title to us because of you."

Casey smiled and said, "Thank you for your caring, Captain Lambert. Even if you want this title, we won't give it to you."

Harding's face suddenly stiffened, and then he said coldly, "I didn't expect you to be a eloquent guy. But it is impossible to produce any good soldiers with eloquence. I will let you know what the real strength is!"

"I hope so." Casey stopped talking nonsense with Harding, and walked straight towards the area where the Dragon Army was.

Harding looked at Casey's back and gritted his teeth secretly, thinking that he must teach this arrogant junior well later.

Not long after, the competition between the two armies began, and everyone focused on the competition.

There were three links in this competition, which were individual combat, team combat, and group combat.

At the beginning of the competition, everyone present began to cheer for the lineups on both sides. It was obvious that the voice of cheering for the Wolf Army was higher than the voice of cheering for the Dragon Army.

But it didn't take long for the cheering voice for the Wolf Army to weaken.

Because of the first individual combat, the members of the Dragon Army won quickly, and the game ended before the Wolf Army could react. _____

The Peremptory Casey Davies

Chapter 964 Being Shocked

"How is that possible? The Dragon Army could never be as strong as this, and my men in the Wolf Army didn't realize it. What happened?" Harding stood up from his chair and shouted.

Sitting on his side, the people all felt incredible, they did not expect the Wolf Army guided by a grandmaster would be so vulnerable.

"It must have been a mistake on our side that let the Dragon Army take advantage of it, otherwise they wouldn't have won so easily." Harding comforted himself.

At this time he looked at Casey, and found that Casey was also staring at him with a smile on his face, as if it was mocking Harding.

Harding bit his teeth. He relied his hope on the afterward competition. He did not believe that the Dragon Army would win so easily.

There were three individual competitions, and immediately after the first, both sides were replaced.

At the beginning of the competition, the Dragon Army team won the competition by overwhelming advantage again.

The men of the Wolf Army did receive guidance from the grandmaster, although this guidance had some effect, and Monroe West even gave them the real method of breathing.

However, one month was not enough to master the traditional method of breathing.

In this month's time, they only learned some basic skills, although they made some changes on their bodies, the overall improvement effect was not a match to Casey's crash version of the method of breathing.

In this month's time, people in the Dragon Army had inner force by using the crash version of the method of breathing, while the people in the Wolf Army had not even reached the threshold.

On the field of individual combat, it was those who were about to practice their inner force, their strength had far exceeded the general the king of war, who were difficult to be defeated.

Unsurprisingly, the afterwards competition ended in defeat for the Wolf Army.

People held big expectations on the Wolf Army were shocked and their voice to cheer up the Wolf Army lowered.

On the contrary, Dragon Army got victory, with momentum gradually climbing, the whole arena had been covered by their momentum.

Harding's face looked gloomy, he never thought things would become like this.

In the last competition, their strength were almost the same.

But in this opening, they had lost three competitions in a row, which let Harding's mentality collapsed all of a sudden.

But after watching the following competition, he just knew his mentality collapsed too early.

The later team battles and group fighting were also three separate battles, with the best teams from both sides fighting against each other.

There was no suspense, the Dragon Army again relied on Casey's fighting skills, plus the strength of the method of breathing, defeated the Wolf Army.

At the end of the competition, the Wolf Army lost to the Dragon Army without a win.

At this moment, the whole arena began to echo the name of the Dragon Army, they knew that the name of the first strong army in C Country would belong to the Dragon Army.

Harding's face became very gloomy, he could not understand why the Dragon Army could achieve such results with a man with little

experience in his 20s as their general instructor.

"We must find a way win the competition, or the Wolf Army will be stuck under the Dragon Army forever." Harding murmured.

His eyes turned, he said to the person next to him, "Has Master West finished his problem? When he will be back?"

"I have contacted Master West, he said he will arrive here soon." The man replied.

Harding nodded and said, "You now immediately go outside to inform Master West, tell him that later he will fight with the general instructor of the Dragon Army, as long as he wins the general instructor of the Dragon Army, it is not a disgrace today."

The man nodded and quickly walked out.

Harding stood up and went over to Casey.

At this time Boone was happy. He was satisfied about the result of competition.

Seeing that Harding came over, Boone immediately sneered, "Captain Lambert, you did not play well today. I know it must be your mistake, unfortunately, on the battlefield, mistakes killed. We will try our best to win today."

Harding smiled, not angry, said, "The performance of the Dragon Army is really unexpected, I think they can achieve such a result, it must have something to do with the general instructor."

"As it happens, our general instructor of the Wolf Army is very interested in your general instructor and wants to compete with him. I don't know if you dare to fight?"

Harding thought the Dragon Army achieved this result must have help from a master. It could not be Casey, but his elders, so he was qualified to be the general instructor of the Dragon Army.

But these were not important, as long as Casey dare to fight with Monroe, the master could be him. Once Casey lost, it proved that the Dragon Army's achievement had nothing to do with Casey.

It must be someone behind Casey, so they had such a result.

Then they would not lose as badly as they seem, since the grandmaster was really a master.

People all looked at Casey. It depended on if he would fight with the general instructors of the Wolf Army.

Casey smiled and said, "Ok, I am interested in your instructor too, I will

fight with him."

Harding showed a cold smile seeing that Casey agreed.

His eyes lit up as he looked over his shoulder at his seat and saw that Monroe had arrived.

He walked quickly over to Monroe and said, "Master West, you finally come."

Monroe at this time was confused, he did not understand why the Wolf Army lost to the end, according to his speculation on the Dragon Army, they should lose more than win.

"Captain Lambert, I didn't see the competition just now, I don't know..."

Monroe wanted to ask why.

Harding directly interrupted him, "Master West, these are not important, now the most important thing is that you go and compete with their general instructor, as long as you win, it will not be a disgrace for us."

Monroe nodded and followed Harding toward Casey.

When he saw Casey sitting there with a calm face. Monroe was stunned, both arms involuntarily trembling._____

The Peremptory Casey Davies

Chapter 965 Concedes on the Spot

Harding pointed to Casey sitting there and said, "That is general instructor of the Dragon Army, he is more than twenty years old, the Dragon Army can achieve such good results, it must be because he has someone behind him."

"But he certainly can't compare with you, so as long as you win him, let everyone know that the general instructor of the Dragon Army is a vain, we will not be too shameful."

After speaking, Harding turned to Monroe, but found Monroe's face pale and his body trembling, as if he suddenly had a serious illness, quite strange.

"Master West, what's wrong with you? Why do you suddenly seem to be sick?" Harding asked.

Monroe did not answer Harding's question. What occurred to his mind was that Casey, replying on his own strength, defeated the five big families.

That instinctive fear rose from his heart and made it impossible for him to continue as he had been before.

At this time, Casey looked at Monroe, when he saw Monroe standing beside Harding, he was also stunned.

"That's the general instructor you hired for the Wolf Army?" Casey asked.

Although he did not know with what was the matter with Monroe, Harding must have his imposing manner, so he said, "Yes, he is Monroe famous in martial arts and he had reached the level of grandmaster, few people could defeat him. If you fight with him, you will be defeated!"

Casey immediately laughed, with a teasing look at Monroe, said, "Really, I would like to see his level."

Monroe was nervous hearing that. He hurried to Casey and made a bow, "Casey, it is joking, I was just one of your defeat, I know I am certainly not your opponent, I throw in the towel, we don't have to fight."

Seeing Monroe's reaction, the people around were shocked and did not expect he would say such words to Casey.

Harding looked at Monroe with astonishment, and then asked, "Master West, what do you mean by this? He's only in his twenties. Why are you so afraid of him?"

Monroe looked at Harding, sighed and said, "Although he is young, his strength is not as simple as you think."

"If I had known that the general instructor of the Dragon Army is him, I would not have accepted your invitation to be the general instructor of the Wolf Army, because it is impossible to win."

"If you don't understand why I react like this, you can look up the word Casey in B City. There should be many legends about him on the Internet."

"Don't think it's just a rumor, it's true!"

"Captain Lambert, I feel unworthy of the instructor of the Wolf Army, so now I take the initiative to resign this position to you. I am unworthy of your expectations of me during this period of time, if there is a chance in the future, I will try my best to compensate you."

With that, Monroe turned around and walked out of the stadium, ignoring everyone's gaze.

If he did not go quickly, Casey insisted on fighting with him, he might be killed.

Harding stood there like a log, waiting for Monroe's figure to disappear into the stands before he realized what he was doing.

The Criminal Minds Cast: Where Are They Now?

No Money Could Ever Give You Access To Any Of These People

The people present had the same reaction as Harding. They did not understand why Monroe was so afraid of Casey.

At this time, someone took a mobile phone and found some of the deeds of Casey, shouted out.

"My god, the Internet said, Casey once, with his own strength, fought with the five families of the martial arts, killed three people, injured two people in a move. And one of the injured was Monroe!"

"I found that too, it said that Casey in the battle displayed a move shocked heaven and earth, the sky even appeared a vision, saying that Casey was the existence of the god of the martial world!"

Many people took out mobile phones and began to check the information about Casey.

Before they only thought Casey was a rich master from B City and was to experience life in the North Border, so no one checked the details of Casey.

Until now they did not know that they looked down upon Casey.

Harding looked at Casey sullenly, leaned forward to one man and had a look at the information of Casey.

Seeing the above story, as well as the accompanying video, Harding realized that he had met with a terrible opponent.

Casey had no support behind him. Relying on his own ability, he trained the Dragon Army to such a team.

Harding gave birth to a sense of complete defeat.

The commander would not randomly assigned a person without ability to be the general instructor of the Dragon Army, Casey was a general instructor, because he was too powerful.

Casey did not expect things would go like this. The competition ended and people began to search about his deeds, as if he was a character in the legend, and people looked him with awe.

"Captain Lambert, your instructor take the initiative to throw in the towel, is there anyone compete with me?" Casey stared at Harding and asked.

Harding looked at Casey with a complex expression and then took a helpless sigh, he said to Casey, "You are powerful and we have underestimated you."

"We lost to the Dragon Army trained by you and we admit it, but we will continue to work hard to surpass the Dragon Army as soon as possible!"

Casey smiled, it seemed that the people in the army had courage. Casey took a look at Harding.

"In this case, I'll go back first and see you later."

After that, Casey went outside, followed by the Dragon Army. At this point, the name Of Casey, in the north border, had become a legend. When it came to Casey, people would say the instructor of the Wolf admitted defeat after taking a glance at Casey.

The Peremptory Casey Davies
Chapter 966 the Assassination Plan

General headquarters in the North Border
In Magnus' room.

Casey was sitting on the wooden chair in the room, looking at the layout of the room.

There was nothing in the room except a bed, a table, and two chairs, and a glass cupboard in which there were some books and some files. After the competition between Dragon Army and the Wolf Army, Dragon Army became famous. From the fact that the Wolf Army did not have a win, Dragon Army had been firmly seated in the position of first Army.

Unless Casey became the instructor of the Wolf Army for a period of time.

The name of Casey became the topic among the armies, all people took Casey as an example, wishing to be as powerful as him.

Not long after the competition, Magnus transferred Casey to the headquarters. Now the Dragon Army's training was on track, they only needed to practice in accordance with the training plan made by Casey, they would be stronger day by day.

The Dragon Army did not want Casey to leave, especially Camille, but Casey could not be a general instructor for a lifetime, so they would separate some day.

Camille had applied to continue to be Casey's instructor, always to be with Casey.

But Casey asked Magnus to reject this application for fear of any troubles.

Magnus was quite satisfied about the achievement of the Dragon Army, so he held a banquet for Casey, intending to let the big figures in the North Border to know Casey.

Casey came to attend this banquet.

At this time, Magnus was making eat. After he poured tea to Casey, he sat on the other side of the chair.

"You are now a celebrity in the north border, but though the Dragon

Army reached progress, a lot of people think you are too young and can't bear the burden. Some even doubt your strength and said that you please me to have your current position. In the banquet, you should know them. The military people always speak recklessly, please be tolerant and don't cause too much trouble." Magnus said to Casey. Casey smiled and said, "Don't worry, when I was a live-in son-in-law, I have become tolerant."

Magnus laughed hearing that.

"At the beginning, I thought you are special, not like ordinary people, I thought it was a pity that you die, so I saved you. But I never expect that you would have reached this achievement now, it seemed that I made a right decision." Magnus laughed.

Casey showed a trace of emotion, said, "Thank you for saving me, otherwise, I'm afraid I would have already died, and how could I become like this?"

Magnus shook his head and said, "This is mainly your own potential. If I had saved a loser, you wouldn't be sitting here talking to me now."

Casey smiled and said nothing more.

After drinking the tea, Magnus glanced at the time and said, "The banquet will start soon. Let's go out."

Casey nodded, and then followed him out.

Twins Who Turned Child Stardom Into Two Luxury Fashion Lines

At the same time, on the border between C Country and S Country, a group of soldiers were patrolling the side of a hill, carrying sophisticated instruments that would sound an alarm if someone from S Country tried to infiltrate C Country.

No sooner had they crossed the hill than five figures appeared in the hill. They were tall and muscular, with the physical features of the S Country.

At this time the five people were emitting a layer of light, if Casey was there, he would find that the five people were emitting the breath of the master of the sublimation.

The light of their bodies was the result of the power that overlaid their bodies.

It was in this way that they escaped detection by the apparatus.

If the S Country wanted to use high-tech weapons against C Country, C Country would find it in the first place.

But if S Country sent five masters of sublimation, it would be very

difficult to find out with the means of C Country's army.

"The means that the mysterious man taught us were really extraordinary, we have escaped the detection." Said a man.

"There is no problem with the mysterious man's means. We must make good use of the strength we have gained from him. We must not fail in our mission to assassinate the commander of C Country" The leader of the five said in a cold voice.

The man who led the assassination was Maksim.

"Captain, although we now have the extraordinary strength, we want to assassinate the commander of C Country. He must have strict defense, can we really assassinate him?" one of them asked.

Maksim looked back at him and said, "The military of the Country is really powerful. We wouldn't necessarily defeat it if there were a war."

"And in the past, they had a lot of powerful armies, and an assassination opportunity like ours was a death wish."

"But now it is different. We have the help of the mysterious man, who has given us great power. I have heard that there are strong men like us in C Country, but they are hidden among the people and never appear in the army."

"One of us is strong enough to stand against a sizeable army, but the damage we can do now with five of us working together is unimaginable."

"The general instructor of C Country certainly has no strong men like us. If we have a chance to get close to him, it is easy for us to kill him."

The remaining four listened to the captain's words, and immediately all nodded in agreement.

"Who is exactly the mysterious man? He looks like a person from the C Country and he is powerful, but he has chosen to help us, what is his purpose?" One of them asked questioningly.

"I heard that the mysterious man wanted something from C Country, but there was a powerful guardian there. He wanted to start a war and make the Guardian of C Country separable, so he chose to help us." Said another.

Maksim glared at them and said, "This is not the time to talk about it. Let's get to where the commander is as soon as possible. This mission must succeed, not fail!"

Several of them nodded, and then, under Maksim's guidance, they sped off in the direction of the Headquarters of the North Border, and a few moments later, they were out of sight along the border.

The Peremptory Casey Davies

Chapter 967 Dare You Shoot Me

The banquet held by Magnus for Casey was held in a square at the headquarters. Because it was a military banquet, it would not be as luxurious as in the secular society.

Although there was a lot of food and some drinks, everyone gathered together to chat and make friends.

Those who could participate in this banquet were all tycoons from various parties in Northern Border. They were all in authority in the military. Everyone was willing to participate in such a banquet. After all, no matter where you were, your contacts were always the most valuable thing.

"I heard that this banquet was held by the commander specially for the new chief instructor of the Dragon Army. This time the Dragon Army had shown unimaginable strength in the competition, all because of this new chief instructor."

"That's right, I am now very curious about what this new chief instructor is like. I heard that he is only in his twenties, and he is really the youngest chief instructor in history."

Many people still had a very strong curiosity about Casey, and they all admired him for his strength. They all heard about that Monroe surrendered as soon as he saw Casey.

However, there were still people who thought that Casey was so young that it was impossible to have too powerful methods. The Dragon Army achieved such results entirely because of its previous good foundation. As for Monroe gave up, some people thought that it was just a rumor that Casey deliberately got out in order to make himself sound very powerful.

After all, there were only a few people who knew the truth on the day of the competition, and no one would go into it even if it was a rumor. Among them, a general named Adkins disliked Casey the most, and he would refute when someone praised Casey.

The main reason was that Adkins had never believed in Martial Arts. He believed that modern technology was the kingcraft.

"How powerful a young brat in his twenties could be. It's just a rumor. No matter how powerful he is, is his body bullet proof? That's ridiculous," Adkins said, walking to the group of people who were talking about Casey.

Everyone turned their heads to look at Adkins, with a trace of fear in their eyes.

Adkins was not a man to be trifled with in Northern Border. He could get angry at any time and take out his gun. So, after seeing him, everyone hurried away.

Seeing everyone walking away, Adkins curled his lips and didn't care. He went to the table and took something to eat.

Not long after, Magnus and Casey arrived on the square.

Everyone's gazes immediately gathered on Magnus and Casey.

As the commander of Northern Border, Magnus was naturally respected by everyone, and everyone looked at him respectfully.

And Casey became famous because of the recent competition, people passed different judgement on him.

Magnus smiled and introduced Casey to many people, and Casey also greeted these people politely.

At this time, Adkins walked in front of Casey and Magnus, and said, "Commander, what is so great about this guy? Why do you host a banquet for him? In my opinion, it's really a fuss."

The people around immediately calmed down. Everyone knew that Adkins was going to cause trouble for Casey.

Magnus stared at Adkins and asked, "Oh? According to you, Casey's strength is not enough to make everyone value him, right?"

"Commander, I don't think his strength is not enough to make people pay attention, but it is the 21st century now. In modern warfare, there is no need for people to rush forward with a sword. No matter how strong he is, he could only be pretentious in front of ordinary people. Can he resist bullets?"

"So, I don't think there is a need to hold a banquet for such a guy in such a significant way."

Adkins said, staring at Casey with disdain.

Magnus smiled, turned his head to look at Casey, and asked, "Do you think he was right?"

Casey didn't expect Magnus to put this question to him, thinking that this guy was so cunning that he didn't want to offend either.

But Casey was not afraid of Adkins. After all, even in the 21st century, science and technology couldn't explain exactly what inner force and god soul were.

"I think he is a bit too self-righteous. He underestimates the potential

that a person can burst out. In the long run, he will definitely suffer because of this," Casey said lightly.

When Adkins heard Casey's words, anger arose in him immediately. He didn't expect a man younger than him to speak to him in this tone.

"Boy, how dare you say that I am self-righteous? You're so arrogant with a little achievement. You are just good at fighting. Can you be strong enough to resist the bullet?" Adkins said fiercely.

Casey also got provoked that he stared at Adkins and said, "You can shoot me and see if I can resist the bullet."

He didn't feel that Adkins would definitely not dare to shoot at him. He said so because with his current strength, it was not difficult to resist the bullet.

Adkins was immediately furious when he heard Casey's words, and then he took out the gun from his waist and pointed it at Casey's head.

"Do you think I dare not?" Adkins shouted.

Everyone was shocked when they saw Adkins really took out the gun and pointed it at Casey.

"Casey is really reckless. He should not provoke Adkins. He really dares to shoot."

"How irritable they are! It really scares me."

When Magnus saw Adkins take the gun out, his face sank, and he said coldly, "Adkins, are you trying to rebel? Would you hold the gun at me if my words make you unhappy? "

Adkins quickly put down the gun in his hand.

"Commander, I just think this guy is too arrogant, so I want to scare him," Adkins explained.

After speaking, he looked at Casey again and said, "Boy, are you afraid? You never know when someone will hold a gun at you. When you react, you will have been killed by the bullet."

Casey smiled and said, "Really? You can have a try and shoot at me."

Seeing that Casey was still so calm, Adkins was furious. He thought that if it were not for the commander, he would have killed Casey with a single shot.

"Stop bragging. You just know that I dare not shoot at you," Adkins said coldly.

Seeing him say this, Casey just smiled, and then took Adkins's gun suddenly.

Adkins didn't even realize how Casey did it.

"Watch carefully, I will let you know now whether the bullet has any effect on me."

After speaking, Casey raised his hand and shot directly into his temple.
Boom!

Chapter 968 Catching Bullets with Hand

The people standing next to Casey were dumbfounded. They didn't expect that Casey would suddenly took the gun in Adkins's hand, and even shot himself in the head.

Because it happened so quickly, everyone just opened their eyes wide, and some opened their mouths, but none of them spoke.

Even Magnus, who was standing next to Casey, was taken aback. He would never have thought that Casey would snatch the gun and shoot himself in the head.

Adkins was completely dumbfounded. He felt that he had really met someone who was not afraid of death. In order to hog the limelight, he dared to shoot himself.

Just when everyone thought Casey was dead, bursts of light began to radiate from Casey's body, and his other hand came to the front of the temple at a speed that surpassed the bullet.

Then the light on his two fingers was shining, and he pinched the bullet that was about to shoot into his head.

His action was like slow motion, appearing in everyone's sight. It was so extraordinary.

It was not difficult for a master in sublimation to resist the impact of bullets by relying on inner force, but it was very difficult to catch the bullet with hand at such a close distance like Casey.

The reason Casey was able to do this was because he had the assistance of god mind. No matter how powerful the bullet was, no matter how fast it was, it was small fry to Casey's god mind.

The perceived speed of god mind was much faster than the speed of bullets.

Coupled with Xuanjin, Casey was able to clamp the bullet with two fingers.

Seeing Casey catch the bullet with two fingers, everyone was stunned. They all thought they would see Casey's head being blown by a bullet, but they didn't expect Casey to clamp the bullet with his own hand.

This was a scene only in the movie!

Adkins was also surprised by the method Casey showed, and his lips trembled uncontrollably.

In the past, he always believed that no matter how powerful martial arts was, it would definitely not be as powerful as a gun. No matter how strong a master was, he would be killed by a bullet.

But it was not until he saw Casey clamp the bullet with his bare hands that Adkins realized that C Country Martial Arts was far more powerful than he had imagined.

A true master had the power to contend with bullets!

Although Magnus knew that there was a kind of power far beyond ordinary people's imagination in this world, it was the first time he saw someone catch the bullet with his hands, and he was naturally extremely shocked.

"Oh my god, he... he actually clamped the bullet with his hand. He is so powerful!"

"I feel like I'm dreaming. How can there be such a powerful person in this world?"

"It seems that we still underestimated the chief instructor. No wonder the instructor of the Wolf Army gave up on as soon as he saw Casey. No matter who it is, he will surrender direct if his opponent can catch the flying bullet by hand."

...

After clamping the bullet, Casey put the gun down, and then handed the gun and the bullet to Adkins.

"Do you still think that bullets can kill anyone?" Casey said lightly.

Adkins took a long breath. He looked at Casey without the previous contempt, but with a trace of awe.

He took the gun and the bullet from Casey, and then looked at Casey and said, "I am so self-righteous, thinking that the bullet is the strongest weapon in the world. My understanding of the world is far from enough."

Casey smiled and said, "The martial arts is far more terrifying than everything you know. Never underestimate people who have made achievements in martial arts. Bullet is nothing to them."

Adkins nodded quickly and said, "I know it now."

Everyone around them also nodded, feeling that Casey's words were very reasonable.

The methods Casey used today were enough for them to have a new understanding of the world.

"Although I know your strength is not as simple as it seems, it is the first time I have seen you catch the bullet. Today you really broaden our view," Magnus said with a smile.

Casey smiled and said, "You are flattering me. I still have no way to fight against heavy thermal weapons. Compared with the military power of a country, my power is still inappreciable."

"However, how can heavy thermal weapons be used at will. Every time you use them, you have to go through layers of approval. On the contrary, you, a master with powerful strength, are more useful."

Magnus shook his head.

Everyone echoed.

In the beginning, they came to talk to Casey because Magnus was standing on the side, and they wanted to get closer to Magnus through Casey. And now they came to talk to Casey because of Casey's strength. In the army, people with strength would be respected. These forthright people often only recognized the standard of strength.

As long as you were strong, even if you were just an ordinary soldier, you would be respected by everyone.

Also, if you were weak, no matter how high your position was, you could not get anyone's attention. Everyone would only think that you got your position through back door and would despise you.

Even Adkins, an outrageous guy, had to be obsequious in front of Casey. After all, Casey could catch the flying bullet by hand.

With his strength, he could kill a person easily.

The whole banquet became lively because of Casey. Everyone wanted to talk to Casey, so that they could familiarize themselves with this terrifying young man.

Just when everyone was enjoying the banquet, a few sounds came from the square, which immediately attracted everyone's attention.

Immediately afterwards, everyone saw five streams of light rushing towards them, and in the blink of an eye, they had reached the small square.

Looking closely, everyone could see clearly that the five streamers were exactly five tall people from S Country.

Everyone was shocked, and they couldn't think of why there would be people from S Country at the headquarters.

Those present were all veterans on the battlefield, and many people responded immediately.

"The enemy sneaks in! Protect the commander!"

Maksim stared at the people on the small square, with a sneer on his

face, and said, "No wonder your commander is not in his residence. It turns out that you are having a banquet here."

"But that's okay, it just so happens that we can kill all top managers of C Country at the same time, and C Country will be greatly injured!"

"You are a bunch of wimps. You can't stop us," _____

Chapter 969 We Have to Fight

Adkins was the first to react. He took out his gun directly, pointed it at Maksim and shouted, "Dare you go on the rampage at the headquarters of C Country. You are dicing with death!"

After speaking, he fired at Maksim several times.

As a general who had been in the army for so many years, Adkins was still very confident in his marksmanship, and he firmly believed that these people would never escape his bullets.

But what he didn't expect was that with the sound of gunfire, the two people standing next to Maksim released a pure force from their bodies, forming a protective shield directly in front of them.

The bullet hit the protective shield, just like it hit the cotton, without causing any harm to the five people at all.

"How is this possible!" Seeing this scene, Adkins once again showed a shocked expression on his face. He glanced at Casey subconsciously. He did not expect the five people who broke into the headquarters to have the ability to resist bullets like Casey.

It was also at this time that Casey realized that the five people who sneaked in were all inner force masters at the initial stage of sublimation.

It made him frowned. Logically speaking, there was no martial arts inheritance in S Country. People in S Country were famous for being tall and strong.

In addition, it was very difficult to reach the realm of sublimation. The martial arts had been passed down for so many years in C Country, and the number of the masters who had reached sublimation was very small. There were very few cases of five masters in sublimation appearing at one time.

Now the S Country directly sent five masters at the initial stage of sublimation to assassinate the commander, which was really confusing. How did they reach the initial stage of sublimation?

The breath of these five people and the way they used their power was quite similar to the deep breathing of C Country, and it seemed to be

subtler.

Casey definitely didn't believe that there was a more powerful martial art in S Country.

The rest of the executives of C Country on the scene also reacted at this time, and the guards who had been patrolling around also took out their guns, and without hesitation, shot at the Maksim and his companions.

For a while, the sound of gunfire was recalled in the entire square, as if a fierce gun battle had taken place.

All the four people around Maksim released their powers, forming a protective cover around them to resist the bullets. Only by relying on the power of these bullets, it was impossible to hurt them at all.

"These people are so weird that bullets have no effect on them!" someone shouted.

However, at this time, it was definitely too late to use the heavy thermal weapons. After all, no one would have thought that the people from S Country would send five masters in sublimation to assassinate them.

If they sneaked in by modern technology, the military would have arrested them for torture and interrogation.

After all, not everyone could come to the headquarters casually.

But these five people were master in sublimation, which caught them by surprise.

"Don't waste bullets. We have extraordinary powers, and bullets are not effective against us. What you can do is to wait for death!"

Maksim shouted at the crowd, then glanced around the audience, and finally fixed on Magnus.

There was a sneer on his face, and then under the protection of the other four, he walked towards Magnus.

Magnus looked at Maksim with a solemn expression. Although he knew that he was now in a huge crisis, he was not in the slightest panic.

"Have you forgotten the loss you suffered from C Country? Now you dare to come to headquarters to assassinate me. Are you not afraid to start a war?" Magnus stared at Maksim and asked.

Maksim laughed and said, "After killing you and these executives, the army of C Country will be rudderless. Even if a war really breaks out,

you will definitely not be able to fight against our country. What's more, we now have a great expert to help us, sooner or later, your country will be trampled by us!"

"Are you really sure that you can kill me this time?" Magnus snorted coldly, and there was a hint of coldness in his eyes looking at Maxim. As the commander of C Country, Magnus naturally had some means of self-protection. At this time, he had already held a button in one of his hands.

However, in an emergency, Magnus had limited means to protect his life. Once the button was pressed, his own life would be threatened, so he couldn't press the button unless he had to.

"We might not even be able to get close to you before, but now it's different. We have the help of a powerful man with extraordinary powers, and even bullets have no effect on us."

"I know that there are all also such strong people in C Country, but there is definitely no such people here. You must have never thought that we will have such power. Therefore, you will be killed by us!"

Maksim spoke confidently.

Magnus narrowed his eyes, thinking about the countermeasures quickly in his mind.

"Now I will let you see how powerful we are!"

Maksim did not hesitate, a long cone formed by the strength of his body suddenly appeared in a hand. And then, he forcefully threw the long cone towards Magnus at a speed comparable to a bullet.

In such a short period of time, Magnus couldn't make any response at all, and could only watch the long cone sticking towards him.

At this moment, a man appeared in front of Magnus, and it was Casey who had taken out Muramasa.

He poured Xuanjin into the blade, and then used all his strength to chop towards the long cone.

When the two collided, a strong wave broke out in an instant, which directly shook those around them to the ground.

"Who told you that there is on one who can handle you here?"

Casey looked cold, staring at Maksim on the opposite side, not weaker than him.

Seeing that his attack was actually blocked, Maksim also showed a trace of astonishment on his face.

"I didn't expect such a master to be here. It seems that we really underestimated you," Maksim said, staring at Casey, and gritted his teeth.

After the crowd got up from the ground, there was a hint of excitement in their eyes. Until now, they could only pin their hopes on Casey.

"Surrender now, and I will kill you directly. Otherwise, I will torture you before killing you," Casey said lightly.

Maksim suddenly showed a face of disdain, and said coldly, "Boy, keep your eyes open and take a careful look. You only have one person, and we have five. You want us to surrender? It's ridiculous! "

Casey didn't speak any more, but raised Muramasa in his hands.

The combination of the five masters at the initial stage of sublimation was a huge challenge for him, but now, he had no other choice but to fight!_____

Chapter 970 Fight Against Maksim

Maksim looked at Casey who was ready to fight, and immediately curled his lips.

He turned his head and glanced at the four people behind him, and said, "You four watch the people around, and I will teach this brat boy."

All four of them nodded, and their gazes at Casey were full of contempt. Although they were very surprised that there was a master in sublimation. But judging from the power released by Casey, they thought his strength was equal to theirs at most.

There were five of them, and Casey was alone. It was not difficult to knock Casey out.

What they need to pay attention most now was the use of heavy thermal weapons by the people from C Country.

But before they came to this square, they had blocked the signal here. It was impossible for them to seek help from the outside world, so now they only need to prevent people on the square from going to the arsenal to get heavy thermal weapons.

"Captain, go and beat that guy. We will solve the rest people. That man doesn't look strong. Don't be merciful later."

"The captain is not a softhearted person. Since this kid dares to stand up, the captain will definitely let him know how strong we are. I guess he will end up miserably."

"This is the first time we have encountered an opponent who is comparable to us. Captain, you must knock him out, let these people know that we are matchless!"

...

Casey didn't take their words seriously. If the other party just sent one person to fight him, the trouble would be easier to solve. He liked this kind of opponents who liked to mumble about the strength of their opponents and were self-righteous. By the time they realized how terrifying Casey's true strength was, it would be too late.

"Magnus, you'd better stand back, the fighting may affect you later," Casey turned his head and said to Magnus.

Magnus nodded immediately and said, "There are five opponents, you are only. Do not pull a stunt. If you can't hold it, run away by yourself. You have a long road ahead and don't care about me, an old guy."

Casey smiled and said, "Magnus, don't look down on me. As long as I try my best, even if the five of them work together, I can't beat them."

"By the way, I know you still have a way to solve the matter, but doing so should cause a lot of damage, so please put your hope on me first. Don't press the buttons in your hand easily. It's never too late for you to use it when I have no way out."

There was a trace of astonishment on Magnus's face. The button in his hand was quite concealed. Even the five people from the S Country hadn't noticed it. It was unexpected that Casey had discovered it. Casey had god mind and knew everything in a radius of a hundred meters. Naturally, he saw the button in Magnus' hand.

Magnus didn't hesitate, and solemnly nodded to Casey. He didn't know why. He felt that with this young man, today's crisis would be resolved. No more nonsense, Casey tightly held Muramasa in his hand, and then rushed directly towards Maksim.

He didn't intend to waste time, as soon as he came up he directly made a rather terrifying attack.

"Tianxing sword technique!"

Light swords swept towards Maksim with a gust of wind. Maksim suddenly narrowed his eyes when he saw this scene. After that, the power in his body suddenly turned into a giant axe. He struck hard ahead, and the phantom of a giant axe appeared. It directly collided with Casey's attack. An explosion sounded, and the turbulent power fluctuations directly shattered the surrounding tables.

Seeing the power of this battle so terrifying, everyone ran towards the surroundings in fright.

The Criminal Minds Cast: Where Are They Now?

Who Is Mark Zuckerberg's Wife? 16 Facts About Priscilla Chan

In this level of battle, once they were affected, they would die. The remaining four masters from S Country kept staring at these people present, and once someone wanted to slip away, they would immediately take action.

"Casey's strength is really strong. Whether we can get out of danger this time depends on him."

"Probably not. After all, no matter how strong Casey is, he should only be able to beat one person. S Country has sent people here. Let's quickly think about whether there is any other way to get out."

...

After Maksim resisted Casey's attack, another axe struck Casey's body. Casey turned his whole body vigorously and avoided the attack. The huge shadow of the axe slashed directly on the ground, and a huge crack appeared on cement-poured ground, looking hideous and terrifying.

"Boy, I didn't expect your power to be so strong. I really underestimated you. However, you are still holding a weapon. It seems you haven't reached the sublimation, right? If this is the case, it's not simple to beat me!"

Maksim yelled at Casey and rushed towards Casey again.

They fought in an instant. The battle raged, and the aftermath of various forces dissipated in the surroundings, causing considerable destruction.

In a short while, the originally neat square was in a mess.

Although Casey was still in half sublimation and he still hadn't reached the advanced stage of Xuanjin, the strength in his body was getting stronger day by day.

Especially after the last fight with Guzman, Casey had a very deep understanding of his strength. In addition to the unexpected increase in combat experience, his understanding of his strength had also deepened a bit.

At this time, Casey could clearly feel that if he could reach the advanced stage of Xuanjin, the power he gained would at least be stronger than that of the initial stage of sublimation. His strength would reach the strength of the medium stage of sublimation at least.

After all, Casey hadn't made a breakthrough yet. In terms of strength, he could already compete with the inner force experts at the initial stage of sublimation.

Although Maksim's was at the initial stage of sublimation, but they were not like Casey, who has reached the present state step by step. They

gained this power by special methods.

So even if he was a real inner force expert at the initial stage of sublimation, his strength seemed a little superficial. In the course of the battle with Casey, his drawbacks had become more and more obvious.

So, Casey still had the upper hand in the battle so far.

Seeing that he could not beat Casey, Maksim became a little impatient.

After gritting his teeth and staring at Casey, Maksim used his whole body strength to cleave the axe towards Casey.

When Casey saw this, he didn't hesitate. He changed his tricks in his hand and made a very subtle blow towards Maksim.

"Thunder Shocking sword technique!"

Accompanied by the thunder, a sword light appeared soaring to the sky, directly colliding with the phantom of the giant axe.

After the huge fluctuation, it was obvious that Casey's tactics were better. Maksim spit out a mouthful of blood and quickly retreated to the back.

"The strength of this man is a bit weird, we can't waste time, go and beat him together, and then kill the commander of C Country!" _____
