

Physicist 461

Chapter 461: Her Goal

Little Lei rushed over as quickly as possible, but he was still a little late. When he arrived, Ye Jiushang had already started drinking.

“Master, why didn’t you wait for me? It’s not nice to eat by yourself.” Little Lei had actually only smelled the fragrance of food when he returned to the Spirit Origin Mountain Range. He knew that Xue Fanxin had made delicious food, so he quickened his pace and rushed over.

Although he was late, it did not affect him much. At the very least, the other dishes on the table had not been touched.

But why were these dishes so light? There was no roasted fish or meat. To him, who was not happy without meat, it was unbearable.

“Hey, I want to eat roasted fish or rabbit meat.”

Xue Fanxin filled a bowl with porridge and placed it in front of Little Lei. She said decisively, “You can only eat porridge today. Don’t think about anything else.”

“But I want to eat roasted fish and rabbit.”

“Are you eating or not?”

“I’ll eat it.” When Little Lei saw Xue Fanxin’s different tone, he immediately picked up his chopsticks and ate the white porridge. He realized that the white porridge was actually quite fragrant, enriched with a faint rice aroma. Although it was not as delicious as roasted meat, it was not bad either. Coupled with the dishes on the table, the taste would be even better.

Indeed, one could not despise what this woman made, even if it was plain porridge.

After Little Lei had a taste of the white porridge, he drank one bowl and asked for another. The more he ate, the more excited he became.

Ye Jiushang ate heartily too. He was clearly eating slowly and elegantly, but he had finished a few bowls.

It seemed that Ah Jiu was also a glutton with potential.

Xue Fanxin ate a little. When everyone was full, she cleaned up the bowls and chopsticks. Then, she checked Ye Jiushang’s injuries and realized that most of them had healed. She sighed again at the wonders and power of the Bone and Flesh Regeneration Pill.

“Ah Jiu, you really frightened me this time. When I realized that I couldn’t save you, I was panicked and scared. I was afraid that I couldn’t save you and would lose you. Fortunately, I had Little Lei, the Nine Revolutions Burning Yang Furnace, the Tree of Life, and the spirit herbs given by the four great clans. Otherwise, I really wouldn’t know what to do.”

“Silly girl, remember this. No matter what happens or how injured I am, you have to believe that I will be fine. Even if I die, as long as my soul hasn’t completely dissipated, I definitely won’t die. Remember, you have to believe me. Believe that your man is not that useless,” Ye Jiushang said with a smile. On the

surface, he was saying something simple, but after thinking about it carefully, his words seemed to have another meaning.

“Ah Jiu, to what extent must my cultivation level reach to be able to come into contact with the world you’re in? Can you give me a goal? Although I’ve been working hard at cultivation, I don’t even know where I’m headed. I’m so confused.”

Little Lei appeared out of nowhere and interrupted, “If you want to help, it’s impossible without being a Mystic Spirit Realm expert.”

“What is the Mystic Spirit Realm?” Xue Fanxin did not care that Little Lei had appeared to disturb her and Ye Jiushang. All she wanted to know was how far the goal she wanted to reach was.

“After the Spirit King Realm is the Mystic King Realm, and after that is the Mystic Spirit Realm. Though even if you reach that level, you will be at the bottom in Master’s world. You’re very weak!”

Even though she knew that she was still far from her goal, Xue Fanxin was not discouraged at all. “Don’t worry, I’ll definitely work hard to reach the Mystic Spirit Realm.”

As long as she reached the Mystic Spirit Realm, she could begin to come into contact with Ah Jiu’s world. At that time...

The Mystic Spirit Realm was her current goal.

Chapter 462: Flame Tiger Flame Furnace

Once Xue Fanxin had a clear goal, she was no longer so confused. She even made a series of plans for herself to reach the Mystic Spirit Realm as soon as possible.

However, she also knew that cultivation was not easy. You could not do it willfully. Many a time, you had to pay attention to opportunities. Otherwise, your cultivation level would be stuck at a certain stage for the rest of your life. You could not advance no matter what.

If she did not have enough opportunities, she would probably not be able to reach the Mystic Spirit Realm... However, she believed that she would definitely be able to reach the Mystic Spirit Realm, because Ah Jiu was her greatest opportunity.

While Xue Fanxin was thinking about cultivation, Ye Jiushang was displeased by Little Lei’s interruption. The coldness in his body was extremely obvious.

Little Lei’s entire body trembled from the chill Ye Jiushang emitted. He laughed dryly and said, “Hehe, continue chatting. I’ll go play with Flame Furnace.”

“Who is Flame Furnace?” Xue Fanxin asked curiously.

“It’s the Nine Revolutions Burning Yang Furnace! I named it the Flame Furnace. Isn’t that a very domineering name?” Little Lei was in a hurry to leave, but he was suddenly not afraid anymore. He bragged to Xue Fanxin about the name he had given the Nine Revolutions Burning Yang Furnace.

“Flame Furnace... This name is pretty special.”

“Of course it’s special. Not only is it special, but it’s also very domineering. It’s not just the Flame Furnace; there’s also the Flame Tiger. It’s that little white tiger. Isn’t its name also domineering? It’s as domineering as mine.”

“Flame Tiger?” Xue Fanxin was rendered speechless. She felt that Little Lei especially liked the word ‘Flame.’

“That’s right, that’s right! The little white tiger will be called Flame Tiger in the future. The domineering Flame Tiger. Flame Tiger, Flame Furnace, domineering, domineering, haha...”

“I think calling it Little White is more domineering. The Nine Revolutions Burning Yang Furnace is called the Little Furnace...”

“Idiot, go away. Don’t change the name I gave. The little white tiger and the Nine Revolutions Burning Yang Furnace will be my followers in the future. Their names will be decided by me. I’m going to play with the furnace now. I won’t accompany you.” Little Lei no longer wasted his breath on Xue Fanxin. He left with a smile and ran to play with his new friend.

They had only known each other for less than a day, but their relationship was already as good as honey. It was really confusing.

Ye Jiushang did not care about Little Lei at all. He only wanted to spend time with Xue Fanxin alone. After Little Lei left, he pulled the beauty into his arms and hugged her. “Xin’er, I hope you can put more effort into me, especially when you have nothing to do. You can only think about me. Don’t think about anything else.”

“What? I just said a few words to Little Lei, and you’re jealous?”

“I’m not jealous. I just hope you can pay more attention to me.”

“Aren’t you always by my side?”

“What if I’m not by your side?”

“Then I’ll think of a way to go to you.”

Ye Jiushang’s mood improved. He stroked Xue Fanxin’s head and hugged her even more tightly. The two of them sat on a broken rock and gazed at the stars in the sky. At this moment, they both felt that it was very beautiful.

Xue Fanxin leaned on Ye Jiushang’s shoulder as she thought about something. She suddenly asked, “Ah Jiu, back then, you said that you wanted me to go to that Heavenly Spirit Sect. Can I not go? I want to go to the Flowing Cloud Sect.”

“You don’t have to go to any of them. There’s nothing they can help you with. Previously, I asked you to go to the Heavenly Spirit Sect because the Myriad Spirit Pool is useful to you. Now that you’re already in the Spirit Transformation Realm, it’s no longer important. There’s no need to go. Why would you want to go to the Flowing Cloud Sect?”

There were no resources left in the three great sects that could help Xin’er. The resources on her were even better than those of the three great sects!

Hence, there was no need to waste time in the three great sects.

Chapter 463: Investigate Personally

Xue Fanxin felt a headache when she thought of her missing parents. She could not understand what they were playing at. "Grandpa said that my father had once gone to the Flowing Cloud Sect. His story should have started there, so I want to go to the Flowing Cloud Sect to investigate and see if there are any clues about my father."

"I can send people to help you investigate."

"I want to do it myself. I must find out what's going on with my parents. I want to know what happened to them back then. Only by unraveling the mystery myself can I be more clear. Furthermore, I can also understand this world. Climbing up too quickly might not be a good thing. I might miss out on quite a few good sceneries."

After this incident, she realized how little she knew about this world.

If she wanted to understand this world better, the only way was to walk out of the house and see more places. She would then naturally know a lot of things.

Ye Jiushang understood Xue Fanxin's thoughts and respected her decision. "Alright, after I'm done here, I'll accompany you to the Flowing Cloud Sect."

"Alright then, it's set. Ah Jiu, speaking of the three great sects, I have some questions to ask you. Who is that Bai Wuchen? Why do the three great sects listen to his orders?"

"Bai Wuchen? You've seen Bai Wuchen?" Ye Jiushang still had some impression of Bai Wuchen. After all, he had given him the title of Young Master Feces Pit.

"That's right! The Bai family invited me to save someone. I offered a high price for the treatment, yet they were willing to comply. For the sake of money, I went. Who knew that I would meet a guy who was hopelessly obsessed with cleanliness? Little Lei even fought with him! It's like this..." Xue Fanxin explained the event in detail, including the fact that the maidservant had been controlled.

When Ye Jiushang heard about the maidservant, his expression turned ugly. Recalling the vengeful spirit in Su Baifeng's body, he had a bad feeling.

Someone that even the Spacetime Emperor could not completely kill was really not easy to deal with. Since this vengeful spirit insisted on helping Su Baifeng, he could only think of a way to destroy it.

No matter how powerful a vengeful spirit was, it was only a vengeful spirit. Furthermore, it had been suppressed for countless years. Its strength had definitely not recovered yet, so he had to destroy it when it was at its weakest.

"Xin'er, let's finish up here and go to the Mystic World."

"The Mystic World? Is that where the three great sects are?" Xue Fanxin already had a rough understanding of the situation in the Tongxuan Continent.

This continent was divided into several levels. The Nanling Empire was located on the lowest level, and it was where ordinary people lived. The three great sects were considered high-level places, and most people primarily cultivated there. As for the Heavenly Saints Empire, it was at the intersection of the highest and lowest levels.

To put it bluntly, it was in the middle of the mortal world and the Mystic World, a place that was neither high nor low.

No wonder that Heavenly Saints Emperor was so aggrieved. It was indeed not easy to be the ruler of this country.

She did not care though. As long as she finished dealing with things here, she would leave. Perhaps she would never return to this place. Therefore, those people and things that had nothing to do with her were not that important.

Chapter 464: Understand a Little

Ye Jiushang had come to a small place like the Tongxuan Realm to search for the Phoenix Star. Now that he had succeeded, he had no reason to stay. Therefore, some things here should be settled, especially that Ghost King...

“Xin’er, do you care about this place?”

If she did not have any attachments, once they left, he would say goodbye to this place and probably not return in the future.

“It’s not like you don’t know my identity. This is an unfamiliar place to me. What can I care about? Apart from Grandpa, everything else is unimportant. As for those friends... There’s no banquet that won’t end. Friends will have lives that belong to themselves sooner or later. We can’t stay together forever.”

If she had to talk about friends, apart from Gu Jinyuan, she did not seem to have anyone else here. Xue Hanxi treated her quite well, but that was all. No one else had any feelings for her, so she did not have any regrets about leaving this place.

“Then, after we return, I’ll end everything here and take you and Grandpa to the Mystic World.”

“Alright, I really want to see the outside world too! Apart from Grandpa, can I bring Zhuri and Fuyun along? Also, the Night Shadow Guards are all very good.”

“My consort, if you want to bring them, then bring them. I’ll do as you say.” Taking these people to the Mystic World was an insignificant matter to him. If he was willing, he could even move the entire Lord’s Estate.

“Stop it. You haven’t told me what Bai Wuchen’s identity is.” Xue Fanxin finally remembered the question she had asked just now.

She felt that Bai Wuchen was a difficult person to shake off. In that case, she would understand this guy thoroughly before thinking of a countermeasure to deal with him.

Ye Jiushang said with a look of disdain, “He’s just a rare genius of the Bai family. His identity is nothing.”

“The Bai family?”

“It’s not the Bai family of the Heavenly Saints Empire but the Bai family of the Mystic World. Actually, the four great families of the Heavenly Saints Empire are only outer relatives sent by the Mystic World to earn resources here. The true four great families are all in the Mystic World and have quite a high status. Bai Wuchen is a direct descendant of the Bai family and is a rare genius. His status in the Bai family is extremely high, not something those collateral descendants of the Bai family in Heavenly Saints City can compare to. If Bai Feng goes to the Bai family of the Mystic World, he can only be a slave. Do you understand?”

“I get it a little.”

It turned out that the four great families in Heavenly Saints City were all tools sent by the higher-ups to earn money and cultivate resources outside. The Xue family was no exception.

“There’s no need to think so much. Even the four great families of the Mystic World are not worthy of my attention. Therefore, you can do whatever you want with Bai Wuchen. You don’t have to worry so much.” He stroked her head and used his greatest strength to protect her, letting her do whatever she wanted under his wings.

He did not care about the four great clans and three great sects.

“It’s not that serious. Actually, Bai Wuchen is not a bad person. He’s just a little obsessed with cleanliness and a bit arrogant and conceited. Everything else is fine!”

“You mean you plan to treat him?”

“As long as he can afford it, I’ll treat him,” Xue Fanxin said with a sinister smile. Others could tell at a glance that she was plotting something.

If the Bai family in Heavenly Saints City was already so rich, wouldn’t the one in the Mystic World be even more so?

If she did not earn a fortune from Bai Wuchen, she would not be Xue Fanxin.

Chapter 465: Red Flower

After Ye Jiushang took the Bone and Flesh Regeneration Pill, his injuries had already mostly healed. He could return to the Ninth Lord’s Estate now, but he was not in a hurry. He planned to stay here for a few days, spending time with the little woman he loved. He wanted to live a life that only belonged to them.

He knew her personality very well. If they went back, her attention would be placed on other things. It would be difficult for her to look at him like now.

Most importantly, he had to protect her well. Otherwise, if he was not careful, she would be snatched away, especially by that Lord of the Nether City. He was an absolute enemy.

Xue Fanxin was not in a hurry to go back either. Firstly, she was worried about Ye Jiushang’s injuries. Secondly, she wanted to relax. After all, too many things had happened recently, and there were endless troubles. Upon returning, she still had a bunch of things to deal with. She wanted to take advantage of the moment to have fun, treating it as a picnic.

The Spirit Origin Mountain Range was a beautiful place. Although a huge battle had destroyed it, some activities were still quite interesting. For example, catching fish and snails by the stream, roasting chickens and sweet potatoes in the dirt pile, searching for treasures in the ruins, and so on. They were a good time pass.

At this moment, Xue Fanxin was tying her skirt and rolling up her pants. She walked barefoot in the stream and searched for the snail inside, thinking of making fried conch to eat.

When Little Lei heard about it, he helped to find conchs very diligently. He was especially interested in delicious food that he had never eaten before. He happily searched for snails in the stream and even used the Nine Revolutions Burning Yang Furnace as a container to store them. If it was not enough, he would make the furnace turn bigger. Anyway, no matter how many conchs he found, the furnace could hold them all.

The Nine Revolutions Burning Yang Furnace followed Little Lei. If Xue Fanxin found too many stone snails, it would also fly over and pretend to be one, doing its best to serve everyone, not caring at all that the snails had made it smell bad.

“Hey, is this thing really eatable? It looks ugly and has a hard shell. One is only so little. How can it be eaten?” Little Lei was suspicious about whether this snail could be eaten.

It was so hard and small. How could they eat it?

“You’ll know if it’s edible when I make it. This is a wild snail. The environment it grows in is so good, so the taste must be excellent. However, you can’t eat it so quickly. You have to soak it for a few days and get rid of the mud inside before you can eat it.”

“That’s troublesome.”

“It is, but it’s worth it! There are also preparations for the side dishes. I haven’t made the sour bamboo shoots yet!”

“Can sour bamboo shoots be eaten?”

“Of course. Anyway, just wait and see. Find it for me now.” Xue Fanxin stopped wasting time and continued her search. Right then, a red flower by the shore attracted her attention.

A beautiful red flower was growing in the cracks of a few large rocks. It faintly emitted a strange red light. Its petals moved slightly as if greeting someone.

Xue Fanxin walked over and looked at the red flower carefully. She felt that it looked like the legendary spider lily.

However, as far as she knew, the spider lily could only be found in places like the Yellow Spring. No matter how she looked at it, the Spirit Origin Mountain Range did not look like the Yellow Spring. There shouldn’t be any spider lilies growing here, right?

“Is this really a spider lily?”

With all kinds of doubts and confusion, Xue Fanxin reached out to touch the petals of the red flower to see what kind of flower it was. Unexpectedly, when her hand approached the petals, the red flower suddenly pounced on her and bit her finger.

2

“Ah...”

Chapter 466: Equinox Flower

Xue Fanxin got bit by the red flower, her middle finger bleeding. Although it did not hurt that much, she still screamed in surprise.

Her scream frightened Ye Jiushang, who was sitting not far away. He flashed over and saw that Xue Fanxin’s finger was bleeding. Even if it was only a little, his heart ached, and he was anxious. “How did you hurt your hand? What hurt you?”

“It’s just a small injury. You don’t have to be so nervous. This flower bit me.” Xue Fanxin sucked on her finger, and the blood quickly stopped. Then, she looked at the red flower in the crack of the stone and felt that it seemed to be a little different.

The color of the flower seemed to have become even redder.

Ye Jiushang followed Xue Fanxin’s gaze. When he saw the red flower in the crack of the stone, he said in shock, “Equinox flower.”

Why was there an equinox flower here?

“Ah Jiu, could this really be the spider lily?” Xue Fanxin knew that the red spider lily was also called the equinox flower, so she was basically certain that the flower in front of her was the spider lily.

The spider lily was a flower of death. Meeting such a flower might not be a good thing.

“This is indeed the equinox flower. However, I don’t understand why it has grown here and there’s only one? The equinox flower can only be found in the Netherworld or in the Land of Death. It’s impossible for it to grow anywhere else.”

It was very abnormal for a Flower of Death to appear in the Spirit Origin Mountain Range.

Ye Jiushang really could not understand the origins of this flower. As he thought about it, he suddenly recalled something and asked nervously, “Xin’er, were you bitten by this equinox flower?”

“Yeah! It’s just a little cut, nothing serious. I checked. The flower is not poisonous, and there’s nothing else, so you don’t have to worry too much about me.”

“Have you forgotten that your blood is extraordinary?”

“Ah?” Only then did Xue Fanxin remember that her blood contained the power of nirvana. Even a little could be very useful.

She wondered what would happen if the spider lily drank her blood.

Ye Jiushang was not in the mood to think about the spider lily. His only concern was Xue Fanxin. He was worried about what effect this bite would have on her.

“Xin’er, check again and sense your body carefully to see if there’s anything wrong with it. The equinox flower comes from the Netherworld or the Land of Death. It’s born with the power of death and will affect other living beings. Since you were bitten by it, you need to see if any power of death has invaded your body.”

If the power of death really invaded her body, it would be troublesome.

However, Xin’er’s blood contained the power of nirvana, which happened to be the nemesis of the power of death. Therefore, it should not have much effect on her.

Xue Fanxin scanned her body again, but she did not find anything strange. Apart from the skin on her fingers, everything else was fine.

“Ah Jiu, are you thinking too much? Although the red spider lily has the title of the Flower of Death, it also has another name, the Soul Guiding Flower. It’s the only flower on the path to the netherworld, guiding the ghosts to find the correct path of reincarnation. This flower...”

1

As Xue Fanxin spoke, she suddenly felt a little sleepy. In the end, she closed her eyes and everything went black.

1

“Xin’er...”

Chapter 467: The Story of the Flower (1)

Xue Fanxin suddenly collapsed, startling Ye Jiushang. Flustered, he hurriedly reached out to catch her. He shouted with her in his arms, “Xin’er, Xin’er...”

Little Lei was picking up snails in the distance. When he heard his panicked yells, he was shocked. He turned back and saw that Xue Fanxin had fainted. Throwing down the snails he had just found, he charged over. “Master, what’s wrong with her? She was fine just now. Why has she fainted now?”

To Little Lei, Xue Fanxin held an important position in his heart. If something happened to her, he would get edgy and worried.

“Xin’er...” Ye Jiushang did not have the time to care about Little Lei. He tried his best to call out to the person in his arms and checked her physical condition. He realized that her body was completely fine, but she had fallen into a coma. No matter how he called out to her, she could not be woken up. Even he did not know what was going on in this situation. He became more and more apprehensive. Helpless, he could only settle scores with the spider lily. “What did you do to her? If you dare to hurt her, I’ll make sure you can’t even be a flower in peace.”

The spider lily swayed its petals as if expressing something. Then, the flower flew off the ground and turned into a red light that drilled into Xue Fanxin’s forehead.

It had happened too suddenly. Ye Jiushang was not prepared at all. Even if he had acted in time to stop the red light from flying into Xue Fanxin's forehead, it was useless. This was because when he reached out, he could not grab the red light at all as if he was grabbing air.

"Master, that flower seems to have flown into her forehead." Little Lei had also seen this scene. Although he did not know what was going on, he knew very well that this matter was serious.

He had heard from his master that the flower was called the equinox flower. It originated from the Netherworld.

The Netherworld was not a good place. There were ghosts everywhere, filled with the aura of death.

"Xin'er..." In a moment of desperation, Ye Jiushang could only send a wisp of his divine sense into Xue Fanxin's forehead to see what was going on.

The forehead was closely connected to a person's sea of consciousness. Entering from the forehead would usually lead to the sea of consciousness.

In other words, the equinox flower had reached Xin'er's consciousness.

However, outsiders could not casually enter others' sea of consciousness. If they were forceful, they would definitely cause harm to others' sea of consciousness, unless that person did not reject you.

Ye Jiushang did not know if Xue Fanxin would be willing to let him enter her sea of consciousness, but he had no choice. He could only take the risk. If the situation was wrong, he would immediately retreat.

When Ye Jiushang separated his divine sense and tried to enter Xue Fanxin's sea of consciousness, he realized that she did not reject him. He finally relaxed and entered her boldly.

Was this Xin'er's sea of consciousness?

A person's sea of consciousness was very important. The form and attributes of the sea of consciousness were even more so. This concerned a person's spiritual sense cultivation.

Xin'er's sea of consciousness was actually in a chaotic state.

Just as Ye Jiushang was about to study her sea of consciousness, he noticed that not far away, a spider lily was floating and emitting an extremely intense red light. It slowly illuminated Xue Fanxin's entire sea of consciousness until it was red.

"What do you want?" Ye Jiushang questioned angrily.

The spider lily ignored Ye Jiushang. The red light emitted became stronger and stronger. In the end, it was extremely dazzling, making it impossible to open his eyes.

1

Chapter 468: The Story of the Flower (2)

Ye Jiushang did not know what was going on. The red light was too intense and dazzling just now. He had no choice but to close his eyes, blocking them with his hand. However, when the red light faded, he realized that he was in an unfamiliar place, a world of birds and flowers.

Was this an illusion?

While he wondered if he was hallucinating, he realized that Xue Fanxin was standing in front of him. Hence, he hurriedly went to her side. "Xin'er, are you okay?"

"Ah Jiu, why are you here? Where is this?" Xue Fanxin was glad to see him. She felt that she was no longer alone. Even if she did not know where she was, she was at ease.

As long as Ah Jiu was around, she was not afraid of even hell.

"I don't know where this is either. It might be an illusion in your sea of consciousness." Ye Jiushang was certain that the Xue Fanxin in front of him was not an illusion but the real her. She was trapped in this unknown place like him.

Although he did not know where this was, he was certain that there was no danger here. It was likely that only a strand of their divine sense was trapped. As long as they could wake up in reality, they could leave this strange place.

But how could they wake up?

"What's going on? Just now, I suddenly felt very, very sleepy. I couldn't help but close my eyes. Then, a red light suddenly came over, and I was here. Ah Jiu, do you think this is caused by that spider lily?"

Apart from the spider lily, she could not think of anything else suspicious.

"That must be it. I wonder what it wants to do?"

"What can a flower do?"

"This flower is quite unusual. It's different from ordinary equinox flowers. In fact, I don't know much about equinox flowers either. I've only seen it once, that too from afar."

"If even you don't know, then this matter will be tricky."

In Xue Fanxin's opinion, Ye Jiushang was omniscient and omnipotent. If he also did not know what was going on, then it must be very powerful.

What was the background of this spider lily?

Just as Xue Fanxin was feeling puzzled, a man and a woman appeared in front of her. The woman was wearing a red knee-length skirt, looking cute and charming, while the man was dressed in a dark purple robe. The two of them were chasing each other in the flowers.

"Master, Master, come and chase me!"

"Hua Ying, don't run around. Come back."

"Master, you said that you would play with me today. Do you want to go back on your word?"

"This is not the way to play with you. Your injuries have just healed, so you shouldn't exercise too much. Stop running."

"My injuries have long healed. Master, will you always be with Hua Ying?"

“Yes, Master will always be with Hua Ying.”

“Then we’ll agree to be together forever.”

“Okay.”

From their conversation, one could tell that they were master and disciple. However, from the way they interacted, they looked very much like lovers.

“Hello, may I ask where this is?” When Xue Fanxin saw the two of them walk over, she went forward to ask. Unexpectedly, they ignored her and did not even glance at her. To be precise, they did not seem to have seen her.

What was going on?

Chapter 469: The Story of the Flower (3)

Although Xue Fanxin was a little displeased, she did not show it. Instead, she walked forward and asked politely, “Excuse me, may I know where this is?”

However, the couple still ignored Xue Fanxin. Despite walking in front of her, they acted as if there was no one except them... If they continued walking like this, the three of them would bump into each other.

“Hey, you...” The man and woman were about to crash into her, making Xue Fanxin angry. Since they did not move out of the way, she could only dodge by herself. However, one of her arms did not move out in time and collided with the two. In the end...

Logically speaking, even if her arm did not hurt, she should have felt something. But there was no sensation at all. What was even stranger was that her arm seemed to be invisible and could be passed through at will.

In other words, if those two people could pass through her arm and continue forward, wouldn’t that mean she was transparent?

In order to test her conjecture, Xue Fanxin ran forward and stood in front of the couple, waiting for them to bump into her. Just as she had expected, they actually passed through her body and did not see her at all as if she did not exist.

“What’s going on?”

Ye Jiushang had been observing the surroundings and had also seen the man and woman. As he could not sense any malice from them, he let Xue Fanxin contact them. Seeing the two of them pass through her body, he instantly understood.

“Xin’er, this should be someone’s Realm of Memory. We don’t belong to this person’s memory, so we can only be spectators here.”

“The Realm of Memory? What’s that?”

“It’s an image created by a person’s memories. It’s not an illusion. It’s just a projection of a person’s memories so that those who enter the Realm of Memory can see the story.”

“See the story?”

What was going on?

“Don’t be anxious. You’ll understand if you continue watching.” Ye Jiushang stroked Xue Fanxin’s head to check if she was actually transparent. He could touch her.

This further proved that this place was a Realm of Memory. In that case, there should be no danger. They might be able to leave after seeing the memories here.

Xue Fanxin did not think too much about it. She had no idea what the Realm of Memory was. Now, she could only do as he said and focus on the story.

While she was staring at the couple, the scene suddenly changed. In the blink of an eye, they arrived at another place. It was a cliff floating in the air, with a magnificent martial arts arena built on top. In the middle of the martial arts arena was a stone bed, and on it lay a woman covered in blood.

She was none other than the red-clothed woman called Huaying whom they had just seen.

The woman was lying on the stone bed on her last breath. Her limbs were nailed, and her wounds were constantly bleeding. Bright red blood kept flowing out of the wounds, dyeing the surroundings red. She tried her best to open her eyes in despair and unwillingness, as if she was waiting for something, expecting something...

“Master...”

1

Chapter 470: The Story of the Flower (4)

Xue Fanxin came to the martial arts arena and saw that Huaying was nailed to the stone bed with four nails. Blood was flowing out little by little, and there seemed to be some array formation set up that kept taking away her life force.

Huaying lay on the stone bed. Her mouth kept working hard. As long as she had some strength, she would speak. Her tone was filled with anticipation and confusion, as well as unwillingness and hatred.

“Why can’t I be with Master? Why won’t you let me be with Master? Master, Huaying is in so much pain, and Huaying is so tired. Where are you?”

“Master, are you also imprisoned by them?”

“Master...”

A loud voice sounded from the air, but the speaker was nowhere to be seen. “The criminal, Luo Huaying, has fallen in love with her master. She doesn’t know how to repent and has committed a heinous crime. She will be punished with the Soul Dispelling Nails.”

When Xue Fanxin heard these words, she said angrily, “It’s just a master and disciple relationship. How did it become a heinous crime? Because of this reason, a couple was torn apart and their lives were cruelly taken away. Which bastard is so cold-blooded and heartless?”

“Some sects strictly forbid disciples from having a relationship with their master. Once discovered, they will be severely punished. At best, their cultivation will be crippled, and at worst, their souls will be destroyed. The punishment this woman received should be the most serious. The result will be her soul annihilation.” Ye Jiushang knew quite a lot about sects, so he could tell at a glance what array formation was set up on the stone bed under Luo Huaying.

That was the Soul Dispelling Formation. Coupled with the Soul Dispelling Nails, it would wipe out a person’s soul from this world. No matter what, it would be impossible to find it again.

This was usually the highest punishment in the sect. But no matter how serious her crime was, a woman who was in love with her master should not suffer such a harsh punishment.

“They’re really detestable. How can they use such a cruel and vicious punishment on that young woman?” Xue Fanxin looked at Huaying gradually dying on the stone bed.

The scene changed again. In the blink of an eye, Xue Fanxin had arrived at another location, a mysterious place with blooming spider lilies.

A man in white had his back facing Xue Fanxin and Ye Jiushang. He said to a spider lily in front of him, “Huaying, this is all I can do for you. Whether you can revive or not depends on your luck. Fuyan has already become a demon. Now, the only person in this world who can save him and these ten million living beings is you. You have to work hard, okay? The power of the Soul Locking Crystal has been exhausted. I can only send your remnant soul into the flower now and use its power to protect your soul.”

The white-clothed man took out a wisp of Luo Huaying’s remnant soul from the white crystal in his hand and sent it into a spider lily. Along with a powerful spirit technique, he set up a protective array in the surroundings. He waited for a long time before leaving.

From then on, the white-clothed man never appeared again.

Spring passed and autumn came. The four seasons changed. After many years, the spider lily bloomed more and more beautifully, and its spirituality became stronger. However, it was still only a flower, no different from the other spider lilies here.

After countless years, the white-clothed man finally returned. He moved the spider lily carrying the Falling Flower Shadow out of the soil and planted it in a special potted plant. He planned to take the flower away, but after a few steps, a strong wind suddenly blew. The spider lily that had just been transplanted into the potted plant was blown away by the wind and disappeared...

“Huaying...”
