

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 1113: Nothing Can Hide

Meng Jifang was pretty good looking. He wore a crown of jade, he was handsome and fair. On the surface, he looked like a handsome young man. Xiao Yurong had the heart of an educator. Looking at this young man, he had a good impression of him.

Moreover, Meng Jifang was very well-behaved today.

“Junior Brother, you don’t know much about Young Master Meng. He is indeed not a person of great evil, but he is detestable.” Xie Qiao did not agree with Xiao Yurong.

She was kind to people and would not deliberately target anyone.

“Why do you say that?” Xiao Yurong was a little surprised.

“This person is rich in appearance, but there’s a saying that one is arrogant and short-tempered. He is just like that. No matter how good his appearance is, he won’t live a long life. Although he is a carefree person, the tail of his eyes is too long, he is sharp yet not friendly enough. He must’ve done all kinds of hurtful things. The problem doesn’t seem to be too big, but he is rich and will never change. If this goes on, it will hurt his dignity and won’t last long,” Xie Qiao added.

To put it simply, this person did not do many immoral things, but he did many tiny immoral things. If his family was not rich, he could have restrained himself. However, his family was rich, and it was like adding oil to the fire, it burned away his longevity.

Xie Qiao did not say exactly how long this person could live.

It was not good to reveal the secrets of heaven. Besides, she did not take the divination fee.

However, it was impossible for him to live beyond 60.

“Look at him just now. He was a little arrogant at the beginning, but he became well-behaved after that.” Xiao Yurong looked at him from the perspective of an elder.

It was like an adult looking at a child. Unless this person had gone too far, he would more or less sugarcoat him in his heart.

“Let’s put it this way. This Young Master Meng did not commit murder or arson in the academy, but he must have committed the crime of bullying the children of humble families,” Xie Qiao added.

As expected, Xiao Yurong frowned when he heard that.

Updates by

It was a bit hateful to bully others by force.

Xie Qiao had heard about Meng Jifang’s behavior when she was in the academy.

Wherever he went, people had to bow their heads respectfully and not offend him. He was the boss, and others were like ants in his eyes.

Of course, it was not that he did not have sympathy, but his principles were a little low.

If she said that this person was bad, she would probably feel that he was wronged. It was just that his parents had taught him so. He had learned it by himself, and others had indulged him. Over time, he had gotten used to it.

“Senior Sister, can you also tell this kind of thing by looking at one’s face?” Xiao Yurong was a little surprised and his face was solemn.

His eldest senior sister was too amazing. If that was the case, then in the eyes of his eldest senior sister, there was really nothing that could be hidden in the life of others!

Xie Qiao chuckled.

No way.

She was one of the people who had been picked on by Meng Jifang. She had a deep impression of him.

“Eldest Senior Sister, is there any way to improve this person’s fate?” Xiao Yurong asked again.

Xie Qiao was stunned.

Previously, when she looked at Meng Jifang’s facial features, she really had not thought about how to improve his fate for him. Now that Xiao Yurong mentioned it...

“Of course there are. There are two ways to solve the problem. First, we have to get rid of all the wealth in the family. The power starts from money, and money brings back luck. Without money, he can’t be arrogant even if he wants to. Besides, he is a little sensible and smart. Without money, he will know how to keep his feet on the ground and restrain himself. As time goes by, he won’t offend anyone and he won’t be a threat. He would be fine.” Xie Qiao thought for a while and said.

“This is impossible. Unless the Meng family was a traitor, otherwise, the family would prosper.” Zhao Xuanjing directly rejected the possibility.
