

# THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 1218: She Ran Away Again?

At this moment, Xie Pinggang had already led a group of people to kill his way in.

There were quite a number of death warriors inside, but Xie Pinggang was getting more and more excited as he fought. The more death warriors there were, the more it proved that this place was that Great Consort Hui's lair!

"Junior Sister, you don't have to worry about this formation anymore. Let's go quickly!" Lu Yuping had already heard the voice and directly asked his men to stand in front of him.

Great Consort Hui's eyes flashed with viciousness. "Just a few more days!"

"But he has to die whether she succeeds or not! Why bother about him?!" Lu Yuping was anxious.

"It's different!" Great Consort Hui's voice sounded old.

She wanted him to die in her hands more than to die because of this little bit of blood. It was not perfect enough! Unfortunately, it was just a little bit more!

She could feel that Mo Chusheng could not hold on much longer when she broke the formation. Perhaps she would fail in a few hours. When that time came, even Mo Chusheng would be affected by her spell. She could kill one more person!

"Let's go, Junior Sister!" Lu Yuping begged, "Master is already like this. He has no memory, so what you did is meaningless. You and I should leave quickly and take revenge on Mo Chusheng in the future!"

Great Consort Hui was so angry that she gave her father a whip.

She had been enjoying this for the past few days.

Now, this man was full of whip marks. He had lost more than half of his life like a dead dog!

She gritted her teeth and left in the end.

Back then, she had also left the capital in such a sorry state, afraid that the Taoist masters who were more capable than them would cause trouble. Now, she had once again fled in a panic. She had always wanted to save face, but she had always lost all her dignity!

The heavens were really unfair. Every time, they wanted her to not be able to complete the things she wanted to do perfectly!

Lu Yuping called for his death warriors to defend while he dragged his junior sister away quickly.

He was anxious.

Xie Pinggang charged into the middle of the secret room and saw the grand preceptor. He was covered in blood, he immediately put the grand preceptor down. He looked at the various objects around him that were emitting a strange smell and was so angry that he kicked them.

They all had talismans given by Xie Qiao on them. This kick did not cause much of an effect.

Xie Qiao, who was at the top of the mountain, felt her chest relax.

Knowing that the evil technique had failed, she immediately took the opportunity to protect the innate qi of the children. This way, she was not afraid of any more damage to the children.

At least it was not in vain.

She was strong when facing the strong, and weak when facing the weak. Seeing that there was no danger, she let out a sigh of relief and did not want to continue suffering. She walked to Zhao Xuanjing's side with a calm expression, but in less than two breaths, she fainted.

The corner of Meng Jifang's mouth twitched.

His master's bones were really tough?

She fainted so methodically. Those who did not know would think that she could still fight another 300 rounds!

Zhao Xuanjing's heart ached, but he did not say anything. He carried her into the house to rest. Mo Lingzi also went in immediately. He looked at Xie Qiao's current situation and made more talismans to prevent her soul from being unstable and her life from being lost when she was too tired.

Xie Pinggang asked someone to bring the grand preceptor back. He searched for her, but he could not find any trace of Great Consort Hui or the evil person.

"D\*mn it! She ran away again? Could she be a rabbit that knows how to dig holes?!"

There were several exits, and a few of them were dead ends!

If he wasted time, he might not be able to catch up with them even if he chased them now!

However, even if he could not catch up, he had to do it. He had lost hope.

After nearly two hours, Xie Pinggang was stunned when he got out of the secret passage.
