

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 231: I'll Burn All Of You!

The ghoul that spoke was an old man. His voice was husky, and his eyes were cloudy. He hovered with his rickety body.

Xie Qiao said nothing. She pursed her lips, exuding an intimidating majesty.

Fang Muxue and the rest could not help but gulp. They suddenly became rather timid. They sat aside obediently and dared not say a thing.

Fortunately, the clothes were sent a moment later. They cleaned up themselves instead of just sitting there.

Three more ghouls came.

"It was her who brought that smell, right? It's disgusting."

"She has talismans on her. We can't go near her."

"She can't do anything to us when she has exhausted all of her talismans, right? My, my. We might scare this young lady so badly that she might piss herself!"

"Watch out, you guys. It's rare that we come up here. Do you want a horrible life in your next life to be stirring troubles here?"

“We’re not messing with others. This young lady can communicate with both worlds, she’s different from ordinary living humans. There’s no disadvantage for us to possess her.”

They were talking to themselves, they were noisy.

They seemed to be queuing to possess Xie Qiao.

Xie Qiao knew that those ghouls only wanted to possess her in order to do things that living humans can do. They usually would not harm her. However, the feeling of being possessed...

She did not want to experience that!

She closed her eyes lightly, not wanting to stir a chaos in her mind.

If she was scared, her soul would be unstable, and it would be easier for the ghouls to possess her.

Very soon, the carrier came back. Xie Qiao said goodbye to Fang Muxue and the rest, and she got the carrier to bring her to the academy.

Xia Yayun washed her face as soon as Xie Qiao left.

Fang Muxue was secretly in disdain.

Xia Yayun could not fight Xie Qiao, and she was secretly scared of the Xie family’s First Young Master, yet she still wanted to challenge Xie Qiao. She had no idea why Xia Yayun was so stubborn.

Moreover, there was no grudge between her and Xie Qiao. She had no idea why Xia Yayun was always stirring troubles with Xie Qiao.

She did not repent after embarrassing herself.

Xia Yayun was really reflecting on her behavior now.

How was she scared by Xie Pinggang's name earlier?!

The ashes on her face and the stares from Fang Muxue and the rest made her too embarrassed to lift her head!

However, Xie Qiao had left now. She could not vent her anger.

As Xie Qiao got onto the sedan chair, those ghouls had already caught up with her.

There were ghouls surrounded inside the sedan chair, above it, and even under it.

Some were lying down, some were hanging, some were moving their faces before Xie Qiao, snarling and snickering at her, "This is my head. Can we exchange heads, please..."

Xie Qiao rolled her eyes.

Could they scare her with something else? Why must they do something so disgusting?!

"Little girl, I like your body. Can I borrow it, please?" A beautiful female ghoul next to her smiled at her in a flirtatious manner.

“I’m here first... Young lady, I hardly come up here. I’d like to borrow your body to visit my home. I’ll return it to you two hours later. Can we do that?”

“My grandson is handsome, and my family has countless fortunes and properties. Do you want to be my granddaughter-in-law? It’d be convenient for me to return next time too...”

“...”

Xie Qiao felt like her head was going to explode.

She could no longer hold back.

“I’ll burn all of you if you guys dare to speak again!” Xie Qiao said while clenching her teeth with a grim face on.

“Hehe,” Some experienced, old ghouls smirked in a creepy manner, “You can burn one or two, but can you really burn all of the ghouls? When you have no more talismans and exhausted your strength, we can still possess you by then.”
