

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 410: They Were Wrong

However, as soon as Xie Qiao said that, those vengeful spirits revealed a confused expression.

'Father, Mother...

'Even if you guys were wrong, how could I let others kill you?'

"Don't kill my Mother, she... only wants me to be a genius..." One of the vengeful spirits actually cried.

She wanted him to be a genius, so when he was disobedient, he was beaten and starved, and his mother never hugged him. She always wanted him to read, to be a child prodigy, and not to become a disgrace to his family and father...

They were all children. When they were bad, they were really bad. However, when they were sad, they were truly pitiful.

"Father chopped me to death. He used an axe to chop me to death... Sister, what did I do wrong?! What did I do wrong?!" Another spirit said. After that, blood and tears flowed from his eyes. His anger and resentment soared to the sky. Xie Qiao almost could not hold it in.

Her body could not take it anymore.

"They were wrong. As parents, they should love and take care of their children. They should guide and educate you. If they didn't do it, they're guilty. If you tell me who they are, if they're still alive, Prince

Ning Bei can sentence them to a crime. If they're dead, I can summon a ghou and pull them out of the ground to avenge you!"

Xie Qiao said again.

However, it was not so easy to summon a ghou.

She had to find something that was related to the ghou, or go to the person's grave and use some dharma instruments and talismans to explain the person's identity. They also had to explain how long it would take to summon the ghou.

Moreover, if she really summoned the ghou, she could not use it to do evil things. Otherwise, with her fate, she would probably have to bid farewell to her family.

The vengeful spirit fell silent for a moment.

He did not speak, but he did not resist anymore.

The vengeful spirit that had been hacked to death should be the leader. Now that he had calmed down, his strength was much weaker.

Xie Qiao immediately took action and captured the vengeful spirits.

The moment she put them into the bottle, she heard a voice, "Sister, I want a good Father and Mother..."

At that moment, Xie Qiao's hand trembled.

“Master?” Prince Ning Bei looked at her suspiciously, “Have you subdued it?”

The words that the master said earlier were quite scary, but at that moment, Prince Ning Bei and the others chose to forget about it.

“I have,” Xie Qiao adjusted her state of mind and picked up the golden top, “I want to take this thing with me. It has been holding the vengeful spirits for too long, so I need to get rid of the bad luck.”

When the bad luck was gone, she could melt the gold and use it as a dharma instrument.

“Master, please go ahead,” Prince Ning Bei did not care about that and said, “I wonder... What evil thing was it? I heard that it wants to ask me to claim justice. If he lets my son go completely, I will do it immediately!”

“It’s a couple of children who have been wronged by their parents. They must have seen that the Young Heir was favored, so they were jealous and wanted to take him away. But with their ability, it should be easy for them to take the Young Heir away. It shouldn’t take so long. I think... seeing how much you two love the young prince, they must’ve gone soft.”

However, since they had already become vengeful spirits, it was easy for them to drive themselves into a dead end.

Even if they were soft-hearted, they would not back down.

“I see,” After saying that, Prince Ning Bei quickly went to look at his son.

The Young Heir was still weak, but they could feel that the son’s breathing was becoming calmer. As they looked at him, the Young Heir actually snorted, “Hungry... Mother... I’m hungry... I’m so hungry...”

As soon as the voice was heard, the princess was so happy that she cried, "Quickly get someone to bring the porridge over!"

"We still need to get a doctor. The evil has been removed, but he needs to consume the medicine," Xie Qiao said in all seriousness.
