

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 413: Acknowledging A Master

Yuan Changzi was skeptical. He thought something was wrong, but he could not tell what it was.

After all, this Taoist Master Mo looked very decent and spoke slowly. She looked very convincing.

“How is Senior Mo Lingzi’s health now?” Yuan Changzi asked politely.

Xie Qiao smiled slightly, “It’s alright.”

Yuan Changzi was a little embarrassed. Looking at this Mo Chusheng in front of him, he did not know what to say. After pondering for a moment, he said, “This humble one is from the Yuxu Temple. Could you please leave your address so that we can discuss Taoist techniques together in the future...?”

“The Fortune Pavilion on the Eastern Street is mine. If you need anything, you can look for Shopkeeper Chang,” Xie Qiao said concisely. Then, she covered her mouth and coughed deeply twice, looking a little weak, “If the Yuxu Temple is farther away... the price might be a little higher. If there’s nothing urgent, I usually only take jobs in the city...”

Yuan Changzi revealed a shocked look.

Why did she need to collect money when they were just getting to know each other and talk about Taoist techniques?

“What’s wrong?” Xie Qiao did not feel that there was something wrong with her, “Master, didn’t you come here for the high reward?”

She had to collect money just because she had to break a sweat. Was she wrong?

Yuan Changzi smacked his lips.

That was true...

"I'm usually busy. If not for the money, I naturally don't want to wander around. It's tiring. Why torture myself?" Xie Qiao sighed, "If there's nothing else, why don't you take a rest? I'm still a little tired. I need to rest for a while."

Xie Qiao's eyes were still a little resentful, as if she disliked this person for disturbing her rest.

It had been a long time since Yuan Changzi was so embarrassed.

He quickly left.

Xie Qiao closed the door directly. After that, she threw himself on the bed and fell into a deep sleep.

"It's really strange. Why does her face not seem to match her bones?" Yuan Changzi suddenly remembered.

No wonder he had always thought that this Master Mo was a liar.

It was because her face was not very lucky.

However, there was nothing wrong with looking at this face. However, a person's fate had to be seen in many aspects, such as bones, palm, voice, and even spirit. Earlier, Mo Chusheng's face was also a face of wealth and honor, however, it was as if someone else's face had been put on another person's body. There was a strange feeling all over her body!

However, as Taoists, they all had calm and unperturbed temperaments. How could there be such a person who hid her head and revealed her tail?

It was really strange.

Yuan Changzhi could not figure it out.

On the other hand, the Young Heir's situation was getting better and better.

The princess personally fed the Young Heir and he actually ate an entire bowl of porridge. It was much better than before. Moreover, after eating the porridge, he could already open his eyes slightly and say a few more words.

Such a huge change made the princess cry with joy, and she looked much more energetic now.

She was also secretly grateful toward Mo Chusheng.

"Earlier, I saw that she was a female Taoist master and thought that she didn't have any abilities. I didn't expect her to be so powerful. Your Highness, I was thinking of inviting Master Mo over and becoming our son's master. She can teach him some Taoist techniques and also cultivate one's body and mind..." the old princess's voice was calm, however, one could feel her anticipation.

"As per your wish. However, this expert usually has an inheritance and would not take in disciples easily. We still have to ask politely. If she's not willing, we can't force it. It's just that we don't know where her Taoist temple is. I should go and give some incense money," Prince Ning Bei said in all seriousness.

The princess still hoped that this expert could take in a disciple.

Even if it was just an in-name disciple, it would do too.

She was truly worried about this matter. She initially thought that the evil people in this world would only poison and frame people. She did not expect that there was such an evil method.

Even if it was not done by an evil person, her son would always encounter some accidents in his lifetime. What if he encountered evil again in the future?

With an expert by his side, it would be much more reassuring.

Just as she was thinking, someone from the outside said, "The Eldest Young Master is here."
