

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 427: Should Be Different From Others

At that moment, Xie Qiao could not help but show some respect for this Master Qiu!

Not only could he avenge his personal grudges, he could also let the students of the Royal Academy rise to a higher level. Nobody else had this kind of ability.

“Master Qiu, I won’t go to the Peony Courtyard,” after Xie Qiao arrived, she refused directly.

Master Qiu was not surprised, “You’ve already promised Master Lu before, so you are now a member of the Peony Courtyard. Just like what I said earlier, if you want to stay, then the Orchid Courtyard must be better than the Peony Courtyard.”

Master Qiu said, then he looked at the people from the Orchid Courtyard, “It’s not that I look down on all of you, but you guys have been slacking for a long time. With peers like you, no matter how talented Xie Qiao is, sooner or later she will be the same as all of you, mediocre and unremarkable!

“No matter how many first prizes are achieved in the Orchid Courtyard, the Orchid Courtyard will always be a place for a group of useless people,” Master Qiu said.

Once these words were said, everyone from Orchid Courtyard was furious.

“Master Qiu! Our talents are indeed slightly inferior, but it doesn’t mean that we’re completely useless?!”

“That’s right, so what if they are from Peony Courtyard? They’re outstanding because it was unfair from the start. All the talented women in the world have gone there, what can we do?!”

Xie Qiao could not help but sigh when she heard that.

All the students had lost from the beginning

“Unfair?” Master Qiu laughed sarcastically, the voice with some vicissitudes of life continued, “All of you entered the academy around the age of ten. The things taught by the academy are the same. They became talented not by relying on the masters of the Peony Courtyard, but by themselves. Why are you not convinced?”

“You all think that I’m doing this to seek personal revenge. That’s great. In the academy, my words still carry some weight. In the next examination, if half of the students from the Orchid Courtyard have results higher than the person who scores the lowest from Peony Courtyard, then Xie Qiao will be left to her own will. In addition, I will also apologize to you students from the Orchid Courtyard. However, if the Peony Courtyard is still far ahead, then the Orchid Courtyard...”

“In the future, students from Orchid Courtyard will have to lower their heads and stay away from the students from Peony Courtyard,” Master Qiu added.

Even Xie Qiao, who had always been calm, could not help but feel a little angry when she heard that.

When Master Qiu said that, he made her... a troublemaker.

In these two courtyards, no matter who won or lost in the end, she, who caused this fight, would be targeted by a portion of people.

At that moment, the people from the Orchid Courtyard were a little listless.

They did not expect Master Qiu to make such a decision.

However, they could not fight back at all.

The errand boy from the courtyard chased them out, but he did not chase Xie Qiao out.

After the others had left, Xie Qiao looked at Master Qiu and smiled, "Master Qiu is really good at scheming."

Master Qiu sat down and poured a cup of tea for her.

"I know you are a smart person," Master Qiu said, "The smart people in this world have to bear more things than the average people, right?"

"But once your decision is made, once the people of Orchid Courtyard lose, every time they lower their heads and bow to the Peony Courtyard students in the future, they will bear a grudge against me," Xie Qiao also calmly sat over.

"When your father dared to lead his troops as a bandit during the chaos at the border, was he afraid of being insulted and blamed by the Emperor? At that time, your eldest brother was only a low-ranking official, an eighth-grade official, but he dared to expose the Emperor's son-in-law's crime. Was he worried that he would be hated by others?" Master Qiu was very straightforward, after exchanging a glance with her, he actually smiled, "Since you have such a father and brother, you should be different from others."
