

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 510: Better to Just Get the Pain Over With Rather Than Prolong the Agony

Elder Li was both worried and happy at the same time.

He was worried that the vengeful spirit would be difficult to deal with, but he was happy that his grandson had not been taught incorrectly, but had been influenced by something filthy!

Li Qingyu was embarrassed and angry at being criticized, "Grandfather!"

"What can I do to make my grandson return to the way he used to be?" Elder Li hurriedly asked Xie Qiao.

When Li Qingyu heard that, his anger froze on his face and he almost could not catch his breath.

What did he mean? Did his grandfather think that he was not doing well?

"Why would you listen to this old woman? Grandfather, I'm doing very well. I just want to go out for a walk. Why are you so stubborn? Moreover, I really dreamed of an immortal. She's flawless and beautiful! She lives on a celestial mountain. We had an agreement!"

Elder Li shook his head.

Sigh. This child was really bewitched by an immortal.

Xie Qiao could not help but smile.

In the past, she had also met people who were bewitched by vengeful spirits. However, most of them were perverted old men. It was the first time she had seen such a young man experiencing that.

After all, young people had strong Yang energy. No vengeful spirits would be so persistent to be holding onto such a rock that was full of Yang energy. Who would have thought that she would meet one now.

It took one or two years of effort to coax this kid into such a state.

If she left him alone...

Every vengeful spirit had different goals. This one might have wanted to tour the famous mountains and rivers with Li Qingyu, to spend eternity with him.

Xie Qiao smiled. That smile alone pierced Li Qingyu's heart.

Why was this old witch looking at him like that?!

"Master... If you need anything, just say it..." Elder Li said in all seriousness.

"Tie him up first," Xie Qiao said.

The vengeful spirit had been following Li Qingyu all this time. It was probably because of its obsession. It could not be separated from him. She had to act quickly to prevent this spirit from escaping.

Elder Li was stunned for a moment before she immediately called for help.

Li Qingyu's reaction was quick. As soon as he heard Xie Qiao's words, he turned around and ran out of the room.

"Quick! Quickly capture Fifth Young Master!" Elder Li hurriedly shouted.

The Li family lived together, and they had few descendants. Including the children of his illegitimate children, Li Qingyu was ranked fifth and the youngest.

He had been practicing literature and martial arts since he was young. At that moment, he was jumping up and down like a monkey. The servants did not dare to be ruthless and could only chase after him.

The courtyard was filled with a foul atmosphere. It was chaotic and scary.

Elder Li was disgraced, but he had already lost his dignity, so there was nothing to worry about. He simply ran into the courtyard and made arrangements. "Bring the broom over. If he runs out, no matter what, stop him immediately. Do not hold back!"

If he ran out and did not return, what would he do?

The master had said that his grandson had something filthy around him, so he naturally could not stay rational.

Elder Li had always been highly respected. Now that he was shouting at the top of his lungs, he had also scared the entire family quite badly.

However, it was very effective.

In a short while, Li Qingyu was like a moth, being pressed down on the ground by several big brooms.

“Hurry up and tie him up.”

How could Elder Li not feel sorry for him? However, when he thought of the changes his grandson had undergone the past two years, his heart turned even colder.

This child was becoming more and more disrespectful to his parents and elders. Now, he was even making a fuss about running away from home. If he was not treated properly, he might really run away in the future. He might die out there, and his grandfather might not even find out about that!

It would be better to just get the pain over with rather than prolong the agony!

Someone brought a hemp rope immediately and tied Li Qingyu up like a dumpling.

Xie Qiao was secretly amused.

Li Qingyu glared at Xie Qiao with resentment, “You old witch! It’s all your fault. What grudge do I have with you? You’re so vicious. You deserve to be a Taoist master for the rest of your life!”
