

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 516: Lost His Manners

Xie Qiao was serious with a serious face on.

Zhao Xuanjing sighed and looked at her. He said straightforwardly, "Senior Sister is really unwilling? Can you tell me what's wrong with me?"

"Junior Brother is perfect. If you were 20 years younger, we would be happy in a relationship! But... Time will never come back..." Xie Qiao's voice was melodious and sounded quite pleasant.

"Oh?" Zhao Xuanjing raised his eyebrows and smiled mockingly. "Senior Sister is right. After listening to what you said, I also feel that I was too obsessed with what Master asked me to do before..."

"That's right!" Xie Qiao nodded.

"Elder sister is like a mother. Since that's the case, why don't you help me connect with Young Lady Xie?" Zhao Xuanjing said.

Xie Qiao's breathing stopped and she raised her head to glare at him.

Shameless! He was rejected after confessing his feelings, and now he was asking her to introduce someone else?! He should not be a jerk!

No, that was not right...

The Crown Prince was not such a fickle person...

Could it be...

Xie Qiao hurriedly touched her face.

The fake skin was still there, and the makeup was intact. The Crown Prince should not have recognized her.

However, when she carefully thought about the Crown Prince's attitude toward her during this period of time, she thought it was a little strange.

At that moment, Xie Qiao felt guilty and worried. Her expression was even more solemn than when she saw the ghoul. She frowned, as if she had encountered a great disaster.

The old master had just come over from his grandson's courtyard. When he saw Master Mo's bitter and hateful look, he was shocked. "Master, is my grandson alright?!"

Xie Qiao shook her head.

Li Qingyu was fine, but she was not!

The old master heaved a sigh of relief.

Xie Qiao thought that was how a normal person would look at Mo Chusheng. Unlike the Crown Prince, who would always say strange things and tease her on purpose...

O-On purpose?!

Xie Qiao looked at Zhao Xuanjing with her round eyes. She thought for a moment and said, "Do you... know something that you shouldn't know?"

The old master was confused.

"Senior Sister has a secret? Tell me." Zhao Xuanjing was still calm.

Xie Qiao had a speculation, but she was afraid that she was wrong. In order to prevent herself from being deceived, she said, "No matter what Junior Brother knows, you are not allowed to tell others. You know very well that I am very capable. Those who know too much will die early."

She even threatened him.

Her fierce appearance made her look like a little sheep.

When Elder Li heard Master Mo's words, he instantly trembled. The Crown Prince's aunt was his daughter-in-law. After all, he was also an elder. However, in front of the Crown Prince, no matter how high his seniority was, he still had to lower his head and be respectful.

Meanwhile, this Master Mo in front of him was truly skilled and bold. She actually threatened the Crown Prince.

Yet, the Crown Prince actually looked very happy...

This was just ridiculous

Elder Li secretly observed the reactions of Master Mo and the Crown Prince. At that moment, he did not know what to say. After a moment, he had a simple discussion with the Crown Prince about the matters at the imperial court.

After talking for approximately two hours, Elder Li ordered the meal to be served.

Not long after the meal, Li Qingyu finally woke up.

The three of them went to look at him together.

Li Qingyu felt as if he had been in a long and somewhat realistic dream. After opening his eyes, he felt that his head seemed to have become much clearer.

“Yu’er?!” The old master called out with great concern.

Li Qingyu quickly stood up. “Grandfather.”

Elder Li was startled when he saw his behavior. “Great, it’s great that you’re awake... Do you still remember what happened earlier?”

What happened earlier?

Li Qingyu was startled. When he saw Xie Qiao, he subconsciously frowned. “Old witch... Master Mo? Why did I faint?”

After he said that, he was stunned for a moment.

What was wrong with him?

He actually wanted to scold someone earlier! He almost lost his manners in front of his grandfather!
