

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 523: What's the Difference

Old Master Lin was quite resentful. If he could really kill Xie Niushan, he would definitely not hesitate.

However, the truth was that Xie Niushan was his grandchildren's biological father!

"Forget it. It's all in the past. As long as he takes good care of the children, let bygones be bygones. This old man doesn't want to talk about it anymore." Old Master Lin took a deep breath. When he said these words, his voice trembled slightly.

How could he not feel resentment in his heart?!

However, now that he had Xie Pinghuai and Xie Xi as his grandchildren, he could no longer vent his resentment.

Furthermore, Old Master Lin knew what Xie Qiao said was just to make him feel better.

His family was just an ordinary family. They had no official status and no money. Even if he had a blood feud with Xie Niushan, what could he do?

Revenge? He wanted his entire family to be killed?

Thinking about it, Old Master Lin said, "First Young Lady is kind-hearted and has taken good care of us during this period of time. You got Huai'er and Xi'er to interact more with our family. But in the future... I don't know if your Father will tolerate us judging by his temper... Now, although I have some resentment in my heart, that resentment cannot be compared to worry."

Rather than wanting to kill Xie Niushan, he was more worried that Xie Niushan would look down on the Lin family and not allow the two children to interact with them.

“My Younger Brother and Sister are all grown up. They are filial to their elders. It’s their own business to interact with their younger cousins. Right now, I can’t make the decision, and neither can my Father,” Xie Qiao said.

Xie Pinggang nodded at the side.

He did not talk much at the moment.

He was mainly worried that he would scare people when he opened his mouth.

After Xie Qiao finished speaking, the members of the Lin family could not help but glance at Xie Pinghuai.

Xie Xi was still alright. She especially liked to stay with the Lin family. At the Lin Residence, everyone would take care of her. From time to time, they would come over and chat with her a little more. As a result, she was indeed much livelier with the Lin family than when she was somewhere else.

However, Xie Pinghuai was different. He had always been awkward.

At that moment, Xie Pinghuai felt the gaze of others, he pursed her lips. “Why are you looking at me? Aren’t you my biological Grandfather? If my Mother was still alive, she wouldn’t be able to ignore you, right? Now that my Mother is no longer around, I feel wronged... I’ll just make do with visiting your family more often...”

Xie Pinggang wanted to punch him.

Could he talk nicely if he wanted to go to the Lin Residence?! He was so sarcastic that he deserved a beating!

Xie Pinghuai buried his neck in fear after being glared at by Xie Pinggang. Then, he immediately moved behind Lin Yaxiang and said, "A-Aunt, look at my Eldest Brother. He's angry at me..."

He got himself a backer.

"He's your biological brother. Why are you afraid of him?" Lin Yaxiang looked at Xie Pinghuai lovingly. "Could it be that you can't beat him?"

Xie Pinghuai nodded slightly.

"You're still young. It's normal that you can't beat him now. You should learn martial arts. Maybe one day, you'll be able to beat your brother to the ground." Lin Yaxiang smiled.

"That's impossible!" Xie Pinghuai shook his head directly.

This aunt was good at everything, but she was too blind to believe in him!

His eldest brother was as strong as an ox, how could he fight him?

He could casually lift him up and throw him. Fighting with him was like hitting an egg against a stone!

"How can you be so unconfident? Don't you want to see how your Eldest Brother will be defeated by you?" Lin Yaxiang's words were quite wicked, it was as if Xie Pinggang was a nobody, "You and your Eldest Brother are from the same Father. Look at the First Young Lady. She's extremely beautiful. It can

be seen that your Eldest Brother's Mother was a beautiful woman. Therefore, your Eldest Brother must have completely inherited your Father's strengths. And you... are also your Father's child. What's the difference?"
