

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 768: Defeat the Enemy in One Attack

The reason why Xie Qiao had a headache was that even though she had all kinds of abilities, she could not fight a person who would not follow the rules, right?

Just like that person who practiced medicine, she saw a patient and gave him a treatment method, but the patient did not listen. Should forcefully tie him to a hospital bed and force him to submit?

She wanted to do good things, but it was not easy to force people to do so.

“The capital has been really lively recently,” Qin Liu sat beside her and could not help but say.

“There’s nothing special, right?” Xie Qiao was still as calm as ever.

At any time, she felt free as if she did not care about what was happening out there. When Qin Liu saw her like this, it was as if she had drunk a cup of cold water on a hot day. Her body felt comfortable.

“Your brother must have been very busy recently. He has to get engaged, and he also has to investigate cases. He really can’t even rest his legs.” Qin Liu smiled. “Didn’t he beat the three members of the Bao family to death previously? With that example, I heard that recently, quite a number of women have complained about their husband’s family killing their children.”

However, those who dared to report this to the administrative office were mostly women who had lost their will to live after losing their children, or those who had been abandoned.

Only when they had lost their soft spots did they dare to resist.

Normal women lived their lives well. Those things that had happened in the past were in the past. They did not dare to offend their husband's family and make their lives difficult.

"These cases have all been reported to the criminal division?" Xie Qiao was also quite surprised.

"You really don't know anything about your eldest brother's matter?" Qin Liu could not help but chuckle. "The infant drowning case needs to be recorded in the same book, so the case has been handed over to the criminal division. Every day, some people will be caned at the entrance of the wet market."

Many of them were reported by their neighbors.

As long as they found out the truth, they would be punished according to the rules.

For infanticide, one life was equivalent to 70 canes, as well as a year and a half to two years in prison.

However, compared to theft, the number of cases was still much lower.

There were only a few people who reported the cases.

However, it was enough to intimidate the people. Now... It was said that people did not dare to yell at their daughters anymore. On the way, they even heard people bragging about how much they loved their daughters...

The custom had really changed a lot.

When Qin Liu told her about the situation, Xie Qiao was very gratified.

Her little face also turned a little red. "This isn't bad. Amazing"

"Yes, all the places are led by the capital. This practice will soon spread to other places, but in other places... There will be more cases, so even the punishment will definitely be lighter. They could also redeem their prison time with money, unlike the heavy sentence in the capital," Qin Liu added.

Xie Qiao was already quite satisfied.

She could not ask for too much in the beginning, or else there would not be enough prison for the criminals.

The culture in the capital was slightly better, and other places were not as easy to manage.

Finally, she got some good news.

"By the way, I heard that your brother beat someone up yesterday," Qin Liu said again.

Xie Qiao's hands paused again.

"It was Qi Huai who beat him up. Everyone said that Qi Huai was the one who initiated the fight. I don't know where your brother got the courage to charge and beat him up. He even beat him to the ground and begged for mercy!" Qin Liu looked excited.

The Xie brothers were really interesting.

The older and younger ones had interesting lives.

Xie Qiao's expression became normal again when she heard that it was Qi Huai who was beaten up.

She said indifferently, "The men's academy is full of conflicts. It's normal to spar with each other. But I didn't expect that my foolish brother had only defeated him after the fight lasted for some time. I'm embarrassed now. My family hired a martial arts instructor for him to deal with someone like Qi Huai... I thought he could defeat the enemy in one attack.... Sigh!"
