

THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 795: Investigation

Yuan Changzi was very shocked. After all, that was a young lady who had been influenced by a ghoul. How could she stir such a disaster at such a young age?

“That was her biological sister. She killed her with her own hands. It was understandable for her to haunt her. Although I want to take care of that ghoul, how can I let her suffer for nothing? It’s more or less to vent. It’ll be more convenient for me when I make a move,” Xie Qiao added.

Yuan Changzi was even more shocked when he heard that.

Her younger sister?

It... was a little shocking.

If that young lady was the cause of her death, she really deserved it.

Taoist masters like them would also pay attention to the cycle of karma when they captured souls. They did not care much about the ghouls. After all, there were too many ghouls. They could not control them. They only cared about the ghouls that had done evil and affected the living.

For those who did not commit deep sins and could not be released... They had to control the souls of the dead and wear down their resentment until the day they could be released.

For those who committed deep sins, their methods were much harsher.

Xie Qiao had two methods to release the souls. The first one was to reincarnate naturally instead of listening to the scriptures and preaches. However, it would take too much time and effort. For instance, some monks would need 49 days to release a soul...

It was too tiring.

The second was to wait until the Gate of Hell to open and stuff them all in. However, this would also be difficult. Even an ordinary Taoist master would not be able to inscribe a yellow talisman.

At this moment, Xie Qiao felt troubled when she thought of Yuan Changzi's words "However, I don't know what Dong Xiyun did this time. As if she was worried that she would live for too long, she insisted on forcing herself to the path of death... I only saw her yesterday. Her sister's ghoul was actually quite calm. For her to change so much in a day, I'm afraid... She must have suffered another great shock."

Dong Yiyun's resentment came from Dong Xiyun. As long as this person did not live well, her resentment could actually dissipate a little.

As for Dong Xiyun, her engagement was canceled.

Dong Yiyun's resentment should have decreased, but it increased instead...

It seemed that this case had to be investigated quickly. She hoped that she could make it in time.

Of course, she could also capture Dong Yiyun forcefully. She was afraid that there would be a fierce battle, but she was also someone who had been through hundreds of battles. She would not lose, but this Dong family was also an official residence. If she wanted to barge in, there was no way that they would allow that!

It was difficult to deal with them through the high walls.

That was why she wanted to wait for the case to be completed. When Dong Xiyun was captured, she would have the opportunity to act.

Xie Qiao was preparing to go to the criminal division to ask her brother about the progress of the case.

If it was really not possible, she would use the power of the ghoul to help and see if she could speed up the investigation.

Yuan Changzi also told her about the matter of him giving Dong Xiyun a talisman.

Xie Qiao only nodded and did not express any opinion.

Just because he could protect her life did not mean that she would be fine.

Yuan Changzi actually wanted to chat with her about cultivation, but Xie Qiao was busy. After chatting for a little bit, he bade farewell and left the Fortune Pavilion. Yuan Changzi could only sigh and feel that it was a pity.

Just from the talismans sold, he could tell that this master's abilities were extraordinary.

He really wanted to learn from her...

Xie Qiao went straight to the criminal division.

There was no doubt about the abilities of the officials of the criminal division. In fact, they had already found out many things.

Seeing that she had come, Xie Pinggang even specially set up a seat for her. "Master, you've heard about it from my sister, right? Now, we've almost finished investigating this case. Today, we've captured a few people and we're interrogating them. After the interrogation, we should be able to figure it out."

"So fast?" Xie Qiao was shocked..
