

# THE PRINCESS CONSORT HAS A LETHAL DESTINY

Chapter 986: What is This Money Bag Even

Xie Qiao was not someone who did not know what was good for her. Baili Ji had said that he wanted to teach her, so there was no need for her to be reserved.

She immediately bowed and said, "Thank you, Senior Baili Ji. I will definitely study hard."

She still had to inform her teacher later.

Her teacher knew that she could communicate with both worlds. If he heard that she saw the famous Baili Ji, he would definitely be even more excited than she was. However, Baili Ji should not have stayed in this world for too long, so she had to put in 120% effort to learn. If she could learn more, she

had to work hard to learn more. In this way, she would not let herself down, and she would not let down Baili Ji's good intentions.

Xie Qiao felt that she had to bring all the pills from her house.

Baili Ji looked like he was consoling her. He nodded at Xie Qiao with satisfaction. "I didn't expect that I would still be able to teach the living after dying for so long. It seems that you and I are really fated."

To be able to communicate with both worlds was amazing.

Baili Ji also knew that Master Mo could rely on this ability to obtain some benefits. However, similarly, she would have to give up even more things. Not all the ghouls in the world were as reasonable and elegant as him.

Just like today when he was reading in the Fortune Pavilion, there were two ugly and dirty ghouls floating outside

A young lady who looked at this kind of thing every day did not lose her mind because this child was brave enough.

Xie Qiao did not say much. At this moment, she put the painting aside.

Then, she took out the bone brush.

Looking at that small bone, Baili Ji's expression was as usual. "Let's not talk about other things. This brush is indeed not bad. Master Mo, what do we need to do now?"

"I'll remove it first. I still need to prepare some other things. I definitely won't be able to complete it in a short while," Xie Qiao said.

"It's alright. If all my descendants are completely gone, I can't blame anyone for going. After existing for a long time, I can still think things through." Baili Ji looked quite carefree.

However, that was just a nice way of saying it.

Xie Qiao understood that all of Baili Ji's descendants were dead. If they became ghouls and were all destroyed, they might feel wronged. They might even become vengeful spirits.

She took out that small piece of bone.

Then, she asked Baili Ji for the descendant's birth characters.

Xie Qiao ground the bone into dust and dropped it into the talisman water bowl. She chanted an incantation with her hands up. A wooden figure was placed next to her.

A wisp of light qi floated out of the bowl and landed on the small wooden figure that had the birth characters written on it. However, this wisp of qi was still too faint, and she was afraid that it would be unstable. Therefore, she had been sitting cross-legged the entire time, chanting the incantation

non-stop.

The color of her lips had turned a few shades paler.

Baili Ji had also been standing by the side the entire time. In the middle of the night, there were a few other spirits from the Baili family who had come out to get some fresh air. They had also seen this scene.

Their feelings were quite complicated.

“This master doesn’t seem to have a very healthy body. Is it alright for her to chant like this? Don’t give up your life for the sake of our family’s little trouble?”

“But how many people in this world are able to communicate with both worlds? Even those who have a pair of yin and yang eyes don’t have her ability, so we can only make things difficult for her.”

The Yuxu Temple also had powerful Taoist masters.

However, they only acquired the heavenly eyes later on in life, unlike Master Mo, who could communicate with them anytime and anywhere.

“You have to thank her properly. By the way, when I was floating outside, I once saw someone’s money bag being thrown in the wilderness. No one saw it, so the money bag should still be there. I’ll tell her later as a token of appreciation?”

“Our ancestor has already told her the location of the treasure chest.. What is this money bag of yours even?”
