

The Return of the God of War [The Protector] Chapter 3161

“Ok?”

Everyone was a little confused.

The words are not surprising and die endlessly.

As soon as Levi Garrison’s words came out, everyone felt that they had heard it wrong.

What did he say? ? ?

It seems that you can’t hear clearly!

Didn’t you come to surrender?

Why are you killing gods or something?

Everyone didn’t understand.

Don’t understand what Levi Garrison meant, they didn’t listen to what Levi Garrison said.

After being stunned for a long time, several high-level officials next to Emperor Tianqi III smiled subconsciously: “Mr. Ye, are you kidding me?”

They heard what Levi Garrison said clearly, and they all thought Levi Garrison was joking.

After all, what Levi Garrison said was too shocking.

Levi Garrison thought of something, and looked at the densely packed powerhouses on both sides.

His gaze swept over all the gods directly, and looked at the powerhouses behind who had the potential to become gods.

“By the way, there are also them! Kill them all! Not only kill all the gods, but also cut off all of you who have the potential to become gods!”

Levi Garrison said lightly.

Extinct slaughter!

It is to let the Apocalypse Empire cut off any possibility of having a god!

I want your Apocalypse Empire to pass, now, and in the future, there will be no gods! ! !

At this time, everyone in the Tianqi Empire gradually reacted, and Levi Garrison didn't seem to be here to compromise and surrender.

Does he seem murderous?

Purpose unclear?

Emperor Tianqi III reacted and couldn't help asking: "What do you mean? Levi Garrison, didn't you come to compromise and surrender?"

Others echoed: "Yes! Didn't you come to hand over the resources and tell us the secrets of the resources?"

...

This is the idea of everyone in the Apocalypse Empire.

Levi Garrison almost came alone.

Not surrender what is a compromise?

"Ha ha ha ha....."

Suddenly, Levi Garrison laughed.

Really fantasize?

"Which ear did you hear that I surrendered? Am I going to give you resources?"

Levi Garrison asked.

"what???"

Hearing this answer, everyone was a little unacceptable.

What about surrender?

"As for how I got these resources..."

As soon as these words came out, the field instantly fell silent.

Everyone swallowed hard and stared at Levi Garrison.

Everyone held their breath, they were about to suffocate.

This is what they have to dream of!

To be honest, the resources that Ye Xuan possesses are not important.

What matters is the secret of his resources, where did he get it? In what way?

Why does he have so many?

Just keep the secret.

In a short period of time, it can be said that the resources are endless.

It is too important to anyone, to any force.

Now that Levi Garrison mentions this, everyone is going crazy.

But then Levi Garrison turned around and said, "But tell you, you have no life to get it!"

Levi Garrison was right.

The resources he has now are at least brought from the second-level forbidden land, and most of them are even brought from the first-level forbidden land.

Now, even if the War Bear Kingdom is facing the second-level forbidden area, it is cautious, and it takes a lot of gods to dare to explore slowly.

Not to mention the first-level forbidden area.

Having suffered such a big loss in the Amazon rainforest, there is now a shadow on the first-level forbidden area.

Even if Levi Garrison told them that these resources were taken in the first-level forbidden area, would they take them back?

can not!

"It's okay to tell you! All of my resources are from the first-level forbidden area and the second-level forbidden area! As for the third-level forbidden area, whether it is a spiritual energy crystal or a treasure of heaven and earth, the quality is too bad!"

Levi Garrison said.

“What kind of resources came from the first-level forbidden land?”

Hearing what Levi Garrison said, everyone obviously didn't believe it.

resources?

The quality of Levi Garrison's is super high.

It is indeed a first-class forbidden thing.

But Levi Garrison went to get resources from the first-level forbidden area?

Meng who?

“Levi Garrison, you are bullsh*tting!!!”

Everyone agreed that Levi Garrison was talking nonsense.

This is completely impossible.

Levi Garrison is playing with them!

“Great Emperor, it seems that he is not willing to tell the secret of resources! He is still playing with us!”

“Yeah, it looks like he won't hand over resources either!”

.....

Everyone said.

“What do you mean, Levi Garrison? Don't you plan to hand over your resources and secrets?”

Apocalypse the Great III asked loudly.

Everyone looked at Levi Garrison with suspicious eyes.

The three of them came, and then they didn't hand over the resources, what was he going to do?

“of course not!”

“I'm here today to kill all the gods and potential gods in your country! Let's go together!”

Levi Garrison said lightly.

The Return of the God of War [The Protector] Chapter 3162

“Ha ha ha ha.....”

But when they heard this, everyone laughed.

All were laughing wildly.

I think Levi Garrison is stupid.

Want to kill all the gods and god potentials in the entire Apocalypse Empire?

That’s close to thousands and tens of thousands of people.

How is Levi Garrison possible???

Everyone in Tianqi Imperial City is laughing.

Looking at Levi Garrison is like looking at a fool.

“Clang clang clang clang clang...”

But suddenly a terrifying sound of sword chirping exploded in the air!

It was as if the Nine Heavens Divine Thunder had fallen terribly, exuding rolling might.

“boom!!!”

In an instant, everyone’s hair stood on end, blood flowed back, and a cold air rushed to the sky from the soles of their feet.

“sword???”

Everyone saw a sword floating in front of Levi Garrison!

It is exuding a terrible peerless coercion.

Terrible sword energy surged, sweeping like a hurricane.

Sword Intent penetrates into every corner and into everyone’s heart, like falling into a ten thousand year ice cave, and the god of death descends.

Everyone knows this sword!

Even a little familiar!

After all, when the "Sacred Tribulation" killed the fifty gods of the Star Kingdom that day, it was known to many people.

But now everyone in the Apocalypse Empire is dumbfounded.

Couldn't react for a while.

Familiar and unfamiliar!

"Pfft!"

Suddenly, Divine Tribulation turned into a bolt of lightning and shot out.

A powerful god beside Apocalypse the Great III was cut off in the middle, and blood splashed.

"Pfft!"

Without waiting for everyone to react, another god on the right was cut from the middle...

"Pfft!"

"Pfft!"

.....

The speed of the sword was so fast that it was dazzling.

Not even the eyes of the gods could catch it.

Not to mention others.

For a moment, more than 30 gods around Emperor Tianqi III were beheaded.

Not a single response came.

The Emperor Apocalypse III, who was guarded in the middle, was poured with blood over and over again.

He was already bloody.

horrible!

too frightening!

Levi Garrison won't talk nonsense, just f*ck you!

After so many gods fell, the others reacted one by one.

All the gods reacted, and the others were still stunned.

It is really too fast.

"kill him!!!"

The gods who reacted all attacked Levi Garrison.

They have realized that Levi Garrison is not simple.

All out must be attacked.

Otherwise, there may be danger.

With a single sword, he killed more than 30 gods guarded by Emperor Tianqi III.

This power is terrifying!

So all the gods who reacted have only one idea – kill Levi Garrison! ! !

Only Levi Garrison smiled contemptuously.

"Buzzing..."

Divine Tribulation began to tremble rapidly and circled around Levi Garrison.

The speed became faster and faster, and finally evolved into thousands of swords surrounding Levi Garrison.

It was all the afterimage of the sword that was too fast.

With ten thousand swords around the effect.

"Pfft!"

"Pfft!"

And the gods who came directly seemed to have entered the meat grinder.

As soon as he came into contact with this circle, he immediately shattered his bones and splattered blood.

Indiscriminate slaughter! ! !

Even the body of a god is like a paper tiger, it will shatter when touched.

No matter what means these gods use, they cannot break the circle left by the rapid rotation of the gods.

Not to mention approaching Levi Garrison.

That is impossible.

The gods attacked and fell dozens of people.

“kill!!!”

Levi Garrison made a cold and ruthless voice.

“Hey!”

God robbery attack.

Straight through the throat of a god!

However this is just the beginning.

“laugh!”

“laugh!”

“laugh!”

...

Next, the robbery continued to shuttle in the group of gods and powerhouses.

Continue to penetrate the body of a strong person.

The blood has formed a rain of blood.

UI!

The speed of the robbery is simply too fast, too fast!

The gods were pierced without a reaction at all, even if they wanted to block it, they couldn't stop the power of the gods.

Still pierced!

It is equal to the indiscriminate bombardment of the gods!
