

The Return of the God of War [The Protector] Chapter 3285

[/ The Return of the God of War \[The Protector\]](#)

“boom!”

The terrifying medicinal power was instantly released.

Levi Garrison and God’s brain were almost overturned.

fear!

so horrible!

As expected, it is a magic medicine that can really be compared to a hundred thousand years of snow lotus!

It looks like a dry ginseng root.

But it is a god-defying medicine.

I have never seen such a powerful magical medicine, with such medicinal power.

Levi Garrison saw a lot of heaven and earth treasures during this time.

This is the first time I’ve seen it.

Sure enough, the magic medicine still needs time to hone.

If the environment is too good, nothing will grow.

For example, the center of the super spiritual vein.

The aura is too full, too fierce.

lead to the extinction of all living things.

Magic medicine and the like simply cannot grow.

For something like magic medicine, not only the environment is good, but the spiritual energy is sufficient.

You have to absorb the essence of the sun and the moon.

These are all learned over the years.

It's not done overnight.

Therefore, the time for the recovery of spiritual energy is still short, and the top magic medicine cannot be bred.

Even if there are many heaven and earth treasures.

But still not!

It is equivalent to the theory of Levi Garrison before——

There is a world of difference between quick and step-by-step laying the foundation.

For example, after the aura is revived, the treasures of heaven and earth in this period of time are all instant goods.

The dry magic medicine in front of me was built up step by step after years of accumulation.

The two are not the same.

Now you can see that the effect is completely different.

When this magical medicine appeared in front of Levi Garrison's eyes, he knew that Levilia's poison would be cured.

Waited so long.

It's finally here!

Levi Garrison started to beat the ground excitedly.

"Levilia, Dad finally did it!"

Levi Garrison shouted frantically.

God's brain burst into tears.

No one can imagine what kind of high pressure they have endured during this time.

Now that it's over, the mood breaks down immediately.

During this time, everyone was busy detoxifying Levilia all the time.

Especially Levi Garrison was almost out of breath.

Fortunately, there are mentally disabled people who keep coming to die, let him kill people, and they can decompress.

Otherwise, Levi Garrison will collapse.

They have been waiting for this moment when Levilia detoxifies!

finally come!

"call!"

Levi Garrison gasped heavily.

"Let's go, let's find Levilia!"

Levi Garrison took the magic medicine and went to Levilia immediately.

Levilia was cultivating, and when he saw Levi Garrison running, he understood what was going on.

"Levilia, hurry up! Come! Take the magic medicine!"

Levi Garrison didn't talk nonsense, and gave Levilia the magic medicine directly.

However, instead of giving all the magical medicine to Levilia at one time, it was given to Levilia one by one.

Otherwise, the power of the medicine is too strong, Levilia's body can't bear it, and the blood and strength will explode.

Levi Garrison should give Levilia an appropriate amount to detoxify.

After taking three quarters of this magical medicine, Levilia's body finally came to a balance.

The medicinal power begins to detoxify the toxin.

Levilia is also in pain.

Heartbreaking screams sounded...

But she persevered.

As long as the detoxification is done, it will be completely fine.

...

Time passed by minute by minute.

It took a full six hours.

It was only with the medicinal power of the divine medicine that the toxins on Levilia's body were dissolved.

This is only half the toxin.

"boom!"

Levilia's whole body also sublimated, and a terrible roar sounded from all over.

The excess medicinal power began to flow in her body.

"Success!"

"Finally successful!"

"Levilia's poison has been released! The moment has finally come!"

...

Levi Garrison and the crowd began to cheer.

"Dad, you are lucky!"

Levilia also held Levi Garrison tightly.

"Levilia, you have also been wronged during this time, but Dad is here and will definitely protect you!"

Levi Garrison smiled.

Doctor Dark and the others also joined the cheering ranks.

The well-behaved Levilia thanked them one by one.

The Return of the God of War [The Protector] Chapter 3286

[/ The Return of the God of War \[The Protector\]](#)

After all this time.

Except for the father, these people also helped.

They are all busy detoxifying themselves.

They have all the credit and hard work!

This is the result of our joint efforts!

“Brothers, I, Levi Garrison, owe you a favor! And the senior who gave us the ancient book of Tianji, I must repay when I have a chance!”

Levi Garrison bowed deeply to everyone.

“No way! No way!”

Everyone immediately stopped Levi Garrison.

During this process, everyone regards Levilia as their own daughter or sister or something.

Levilia detoxifies, everyone is relieved.

As a result, these people from the dark doctor have no target at once.

Since the recovery of the spiritual energy, their goal has been to detoxify Levilia.

Detox, I really don't know what to do next.

“What's going on outside now?”

Levi Garrison asked.

Doctor Dark and the others told Levi Garrison what happened in the outside world.

Moreover, during Levi Garrison's retreat, Black Hawk agents had secretly sent messages several times, telling Levi Garrison the current situation of the War Eagle Kingdom.

"The big summer has also changed a lot, and the scale of the Heavenly God Division is comparable to the previous forces! Especially your good brother Azure Dragon (Qinglong) has improved by leaps and bounds. It is the most terrifying god I have ever seen!"

The Dark Doctor smiled.

"Huh? That means that this system is very suitable for them now!"

Azure Dragon (Qinglong) and the others are good, and Levi Garrison is also happy from the bottom of his heart.

"That's right, what gods are pulled out from the War Bear Kingdom now is because of the excellent root bones. If the root bones are strong, there will be super gods! I feel that the five Azure Dragon (Qinglong) are all super gods!"

said others.

"That's good. In the future, Daxia and the others will still be on their own!"

Levi Garrison was very pleased.

"I didn't expect such a big change in this month? Zhenmosi and Tianshifu have come out completely?"

Levi Garrison was a little surprised to hear that these two were completely popping up now.

"Then what about Yan Zangsheng and the forces behind him? Is there any information?"

Levi Garrison asked.

"After you disappeared, they also disappeared. At first, they were still looking for the whereabouts of the magic medicine, and then they disappeared when they couldn't be found... As for the identity of Yan Zangsheng, I can't find out..."

"It seems that it has something to do with the secret guarded by the Baolong family. I have been eyeing the Baolong family recently... It will take a while for the result!"

Fire Cloud Evil God said.

“Okay, nothing is in a hurry now! Don’t spread the news of Leviliaji’s detoxification at that time! Then it’s time for me to calculate the general account!”

Levi Garrison smiled.

The others also cheered up.

Finally, the day of reckoning has come.

Who doesn’t look forward to it?

Doctor Dark even brought a list to Levi Garrison: “Mr. Ye, this is the list, you can settle accounts one by one!”

Levi Garrison flipped through the list and said with a smile, “Okay.”

“What about the organization that takes revenge on Hydra? I should come a lot after my retreat, right?”

Levi Garrison asked while watching.

“Well, I’ve come four times! I’ve taken away a lot of resources!”

The Dark Doctor smiled.

It seems that they are at a loss, but in fact this is life-saving money.

“And what scale have the gods of the War Bear Kingdom reached? Has the super god come out? Hope to be stronger, don’t let me down!”

Levi Garrison is most concerned about this.

“It should be terrifying...their first super gods have appeared!”

...

Not wrong.

As early as five days ago, the first batch of the super god plan of War Bear Country was successful.

Create forty-eight super gods that are comparable to five hundred ordinary gods.

This one just hits the base standard they want.

But after the first batch was successful.

Five days later, that is, today, the second batch of super gods appeared.

Only twenty this time.

Each of them is a super god that can rival the eight hundred gods.

The Return of the God of War [The Protector] Chapter 3287

[/ The Return of the God of War \[The Protector\]](#)

It excites them!

The experimental plan works great!

They are about to start their third batch of super gods.

This batch of gods will appear as super gods with one against a thousand!

Although not many.

But it will be a milestone for their super-god plan.

It also heralds the completion of the super god plan.

This will also be the ceiling of their super god plan.

No matter how strong the super gods are, there is nothing they can do.

For root bone modification optimization, they can only do so much.

In addition, they also did the plan to transplant the root bone.

The excellent root bone of a god is transplanted to other gods with the same root bone, or to ordinary people.

However, this technique is too difficult.

So far unsuccessful.

Some high-level plans to want good roots were dashed.

However, they were able to create a group of super gods with one enemy over a thousand, which is already against the sky.

A new phase of the Super God Project has begun.

It is expected to be completed within a week.

Hydra, they all forget to eat and sleep, and they don't know what's going on in the outside world.

Not to mention that Levilia's poison has been solved.

They waited for the plan to be completely over before going outside to find Levi Garrison for trouble or something.

Or simply let Levi Garrison be in front of his eyes, watching their status and strength getting higher and higher, but there is nothing to do.

They are looking forward to that moment...

Today's War Bear Kingdom is too strong.

Let them feel their scalp tingling.

Not to mention others.

There is no such thing as a super god.

Just like the super gods they realized.

The minimum standard super god is a god that can be worth five hundred ordinary gods.

That is to say, a super god can almost match the combat power of the Black Dragon Kingdom.

In other words, basically a super god can kill all the countries and forces after the top ten in the power list.

Even those between fifth and tenth have a fighting force.

This is unimaginable.

And super gods are destined to be no less.

There will also be super-gods who can fight against a thousand.

This is a huge disaster for the whole world.

So Hydra's waist pole is now too hard and too hard.

Really ignore everything.

Super gods have appeared.

Then, in addition to continuously analyzing the specific combat power and showing it in the form of numerical values, Zhanxiong Nation also naturally has to use actual combat to practice.

Although there are many gods in the War Bear Kingdom, it is impossible for them to use themselves to practice.

To deal with other powerful countries, it is easy to expose their trump card.

The best way is to go to the forbidden area and use the beasts to practice.

A second-level forbidden area, or even a first-level forbidden area.

Just throw them into a forbidden area alone to fight.

See how many beasts the peak combat power can kill...

So these super gods were thrown into the forbidden area one by one to test their combat power.

It took a while.

The combat power of the super gods has also been tested.

Not wrong.

After the actual combat test, each super god can hunt down at least 500 ordinary gods.

The second batch of super gods are even more terrifying, each with terrifying combat power and madness like a demon.

All these super gods are qualified.

Meet their requirements!

For a time, the strength of the War Bear Country reached its peak.

They will be fearless against anyone and power.

They are increasingly looking forward to the third batch of super gods.

That would be the ultimate form of their super god.

After all, they can only optimize the root bone to this extent.

Subsequently, the War Bear Kingdom spread the news of the success of the Super God Project to the world.

The whole world boils and explodes.

It only took a few days from the proposal to the success of this plan.

This scares the world the most.

The War Bear Kingdom will be unstoppable.

And at this time, Levi Garrison also selected the first object of reckoning and revenge.

The Return of the God of War [The Protector] Chapter 3288

[/ The Return of the God of War \[The Protector\]](#)

The nearest Tenjinji.

At the beginning, some people in the Tianshen Division told the forces of the Black Sky Alliance about Levi Garrison and the place where the resources were stacked for their own selfish desires.

He also took away all the people related to Tenjinji.

in order to divide up their resources.

Although you are from the Great Summer God.

But one size fits all.

The reckoning is still to be done.

There was no time before, now Levilia is detoxified.

Then Levi Garrison will start to settle accounts one by one.

Soon, Levi Garrison and his party came to the Tianshen Division.

Today's Tenjin Division is quite large.

Not only has the number of gods kept up, but especially the combat power of gods is too strong.

Such as Azure Dragon (Qinglong) several people.

Levi Garrison was stunned when he saw it.

I thought that no matter how strong they were, it was within a limit.

Of course, he didn't use himself to make this limit.

He took Jiao Tianyu and the others as his standard.

But the five Azure Dragon (Qinglong) Kirin (Qilin)s are stronger than them.

In Levi Garrison's prediction, no matter how strong they are, they are not as strong as those of Jiao Tianyu.

The result was unexpected.

Now Azure Dragon (Qinglong) and the others are extremely powerful, even though there is a gap between them and Huoyun Evil God.

But the difference is not too big.

Just startled him.

Azure Dragon (Qinglong) and the others were also very excited: "It is said that our root bones are the best, and the five of us complement each other, and only when we work together can we maximize our combat power."

Levi Garrison was also happy for them.

In the previous "eras", although Azure Dragon (Qinglong) and the others performed well, they were not top-notch.

Never thought that in the recovery of spiritual energy, they would become a sweet pastry.

This is their time.

“You guys keep going! Call me if you need anything!”

Levi Garrison smiled.

Just looking around, he didn't see his apprentice Xiao Feng.

“Where did Xiao Feng go?”

Levi Garrison asked.

“Xiao Feng, haha, something has happened recently, and we often don't see him!”

Phoenix started to laugh.

Everyone else laughed too.

Smile a little ambiguous.

“Huh? Is there a situation?”

Levi Garrison noticed something.

“Yes, Xiao Feng met her love! It is said that he is a super expert!”

“Yes, it seems to be from the Town Demon Division or something, and now we can't see anyone else!”

“The most outrageous thing is that Xiao Feng has grown very fast, and it seems that he got the correct cultivation method from the Zhenmo Division, which is almost the same as us!”

“That's right, the people from the Zhenmo Division said that gods are actually good spiritual roots and bones, and they can absorb a certain amount of spiritual energy. And they must have a way to cultivate, and they must cultivate faster than us! Xiao Feng is like this!”

...

Levi Garrison was also happy to hear that everyone was fine.

In particular, Xiao Feng can find his true love, which is even more fun.

Chatted with everyone for a while.

Only then did Levi Garrison know that the principle of Zhanxiong Nation's super god plan is the same as that of Zhen Mosi.

It just needs a good root bone to be stronger.

Zhen Mosi has a good cultivation method to strengthen.

The super god plan of War Bear Kingdom is to use technology or other methods to improve and optimize the root bone, so that it can become stronger.

However, Zhen Mosi's cultivation method can always be strong.

The War Bear Kingdom's is a one-time use. After the root bone is optimized, they have nothing to do.

This has always been the place where Eastern and Western powerhouses were born differently.

The East relies on self-cultivation, step by step.

The West is either awakening, an opportunity from heaven, or transformation.

In general, the powerhouses in the West all feel a bit unearned.

It has nothing to do with your own efforts.

After bidding farewell to Azure Dragon (Qinglong) and the others, Levi Garrison will start his real goal.

That is, the one from Tenjinji.

"The whereabouts of the target have been obtained!"

Doctor Dark said.

"Okay, let's go and see!"

The Return of the God of War [The Protector] Chapter 3289

[/ The Return of the God of War \[The Protector\]](#)

Not long after, Levi Garrison and his party came to a base outside the Tianshen Division.

“Why? Let Azure Dragon (Qinglong) and the others use the resources of the Tenshin Division first?”

“They only give us the waste they use up! Give us such good resources, and we can do it too!”

“That group of trash, failed to rob Levi Garrison’s resources at the beginning, otherwise we have one-tenth of Levi Garrison’s resources, and what about Azure Dragon (Qinglong)?”

“These rubbish, at the beginning, I paid everyone in the Tianshen Division! They all failed!”

“But it shouldn’t be. Those people around Levi Garrison can’t stop so many people from the Heitian League! What’s going on?”

...

The two were having a grumbling discussion.

Suddenly Levi Garrison’s voice sounded——

“That’s what you said!”

“what?”

Long San and Long Wu immediately panicked.

Looking around, I saw Levi Garrison and his party came over.

Levi Garrison laughed and said, “Look, you didn’t even have to work hard to find out! No, people said it themselves!”

Not wrong.

It was Long Sanlongwu who was in contact with the Black Sky Alliance at the beginning.

It was they who betrayed Levi Garrison and the location of the resources, and they used the authority of the Heavenly God Division to lead all the Heavenly God Guards away.

After all, there were not many people in the gods at the time, so it was easy to find them.

It's been a long time since this happened.

That is, they complain when resources are needed.

Actually almost forgotten.

In any case, I never thought that Levi Garrison would come to the door.

"You...what are you talking about?"

Long San and Long Wu hurriedly said.

"Don't pretend, we have already found out, and you all said it yourself just now!"

Levi Garrison smiled.

"So what? We are not wrong! You alone occupy so many resources, can't we share a little?"

After seeing the exposure, Long San and Long Wu immediately roared at Levi Garrison.

"For the sake of others, I will give you a chance to apologize and admit your mistakes, and I will let you go!"

Levi Garrison said coldly.

If it were anyone else, he would have killed him long ago.

After all, what these people think about is how to get rid of themselves, to kill themselves.

Levi Garrison killed them as well.

It's just that they are the guardians of the gods, and they don't do anything else.

Levi Garrison gave them a chance for now.

But the two didn't appreciate it at all, and sneered at Levi Garrison: "We apologize to you? How is that possible?"

"It looks like you're here to take revenge? This is premeditated!"

Looking at the people behind Levi Garrison, they sneered.

"But we belong to the Tenjin Division, what else can you do to us? Don't dare to give you the guts!"

The two were extremely arrogant.

Levi Garrison said lightly, "Apologize or not?"

"Impossible to apologize!"

"US....."

"Boom!!!"

"Crack!"

"Crack!"

It's just that they were just halfway through when a violent and unparalleled airflow swept through like a blade.

The arms of Long San and Long Wu were broken instantly, and the blood was pouring out.

Ugh!!

The two let out a piercing scream!

Never thought that Levi Garrison would do it.

"Apologize or not?"

Levi Garrison asked.

"I....."

"Crack!"

Long Sanyi hesitated, and Levi Garrison cut off his arm again.

Blood was pouring out, and the miserable sound sounded again.

"Served, we served, we apologize! We were wrong!"

"We really made a mistake, please forgive us, the king side by side!"

...

This time, both Long San and Long Wu both accepted.

If they force a few more words, it is estimated that there will be no heads.

Levi Garrison was more terrifying than they had imagined.

They also understood that Levi Garrison killed them in the palm of their hands.

It's just for the sake of their Daxia people that they didn't kill them.

"Go, next enemy!"

The Return of the God of War [The Protector] Chapter 3290

[/ The Return of the God of War \[The Protector\]](#)

From this moment, Levi Garrison will officially take revenge.

Follow the list, one by one!

From Daxia to the surrounding countries and forces, settle accounts one by one.

None of the people and forces who deceived his resources back then could run away.

As for Long San and Long Wu, they immediately picked up their broken arms and left.

Take advantage of this time to connect the broken arm.

Can the broken arm be connected?

Maybe not before.

After all, this was interrupted by Levi Garrison's knife.

But now there is a magician.

They took the severed arm and quickly found the genius doctor Yan Zangsheng.

“The other party did not deliberately destroy it, but simply cut it off, otherwise it would not be able to connect at all!”

Yan Zangsheng said.

Yan Zangsheng asked curiously, “Who hurt you?”

“Levi Garrison!”

“Levi Garrison hides deeper than anyone else! He has the power of gods!”

“But we deserve it! We deserve it!”

Long San Long Wu said.

“Levi Garrison, I understand!”

A deep look flashed in Yan Zangsheng’s eyes.

He also knew that the forces behind him would definitely know about it.

And never give up.

Because he knows why the forces behind him are targeting Levi Garrison.

Now Levi Garrison has broken the arms of Long Sanlongwu, even if it deepens hatred.

“No... How could Levi Garrison have the time to trouble them... Could it be...”

Yan Zangsheng thought of a possibility – that Levi Garrison’s daughter had detoxified.

Hahaha!

It turned out that the magic medicine box was obtained by Levi Garrison.

Yan Zangsheng felt a little more gratified.

The big stone in his heart also fell.

Levilia’s inability to detoxify has always been a pain point in his heart.

If Levilia really had an accident because of this, he would probably feel guilty for the rest of his life.

Now he has understood that Levi Garrison absolutely got the magic medicine, and also solved Levilia's poison.

very happy.

But thinking of the forces behind him gave him a headache.

the other side.

Levi Garrison and his party came to Xingguo.

As for the East Island next to it, it passed directly.

Dongdao knew Levi Garrison's strength for a long time, and they didn't dare to deceive Levi Garrison's resources even if they lent them a hundred courage.

But the star country is different.

Although they were killed by Levi Garrison with a sword, they did not know that Levi Garrison did all of this.

Therefore, in the previous reward order, Xingguo also joined the ranks of deceiving Levi Garrison.

With some inferior products, a lot of resources have been defrauded before and after.

The Dark Doctors have all been counted.

All the people and forces in the star country deceived a total of 1,785 aura crystals and 1,232 heaven and earth treasures.

It is impossible to defraud resources so easily.

Levi Garrison is all recorded.

However, Levi Garrison also knew about Li Chengmin's changes.

After the aura recovered, Li Chengmin became a god, and his temperament began to change greatly.

became the star queen.

Xingguo is notoriously tech freak.

As soon as the aura recovered, they thought about how to use technology to create more and stronger gods.

They really did this.

Originally, after they were beheaded by Levi Garrison, there were more than fifty gods left.

But during this period of time, after technological means and the mining of resources, they created more than a thousand gods.

This is still under the circumstances of insufficient resources.

This is something no one has thought of.

I thought that after being cut off by half of the gods, Xingguo was decadent.

But after they quietly developed, they have now reached the top scale.

Their technology is also trying to figure out the strength of the powerful gods.

Although there is no way to discover the true meaning of gods like War Bear Kingdom.

But they are still stronger.

Because of the creation of various equipment that matches the gods.

Create exclusive equipment according to the characteristics of each god, including offensive, defensive, speed-increasing, etc...

To tell the truth, the current star country is stronger than the previous Apocalypse Empire.
