

The Return of the God of War [The Protector] Chapter 3291

It's just that they develop quietly, and no one else knows about it.

The current strength is quite strong.

They also interpret a truth – technology can still match the gods.

The resources deceived from Levi Garrison can hardly help them.

Xingguo not only copied a lot of technology, but also copied the name of Daxia Shensi.

They incorporated all the gods into a new organization – the Celestials!

It means that they are descendants of the gods.

But they are used to plagiarism.

It's nothing.

He even said madly – Daxia people are all descendants of the Star Kingdom.

Therefore, they had a plan to divide up Daxia before, and wanted Daxia to return to the embrace of the star country.

Unfortunately it failed.

After the recovery of the spiritual energy, Xingguo has been releasing the remarks that Daxia is their descendant.

They say that everything in Daxia belongs to them.

Even the genius doctor Yan Zangsheng was said to be a star country.

Said his ancestors were in the star country.

...

There are many operations like this.

If possible, they all want to move Daxia to Xingguo.

With such an operation, it is normal to defraud Levi Garrison's resources.

It's just that these guys are so bad.

Not to deceive in the name of Xingguo, but to deceive one by one.

This is the force that defrauded Levi Garrison with the most resources.

Of course combined.

But it's not according to the theory of the stars, but one person by one.

But it's actually one thing.

Except for the organization of revenge Hydra, Xingguo defrauded the most resources.

The first person Levi Garrison looked for was Xingguo.

There is a huge base in the location of the Celestial God Race, called the Heavenly God Base.

Levi Garrison came.

Seeing Levi Garrison and his party coming to the Tianshen Base, they were shocked.

They are all guessing why Levi Garrison and the others are here.

Shortly after.

Li Chengmin appeared.

As the most powerful person in the gods, Li Chengmin has a high status and status.

Especially now that she is still in charge of the existence of the Celestial Clan.

This is Levi Garrison coming.

If other people come, it is estimated that Li Chengmin will not see each other.

I saw that Li Chengmin had a liquid battle suit on his body, and there was still aura that was condensed into liquid flowing.

This is the equipment created by Xingguo to match the gods.

It is at least 1.5 times more powerful when used.

Like Li Chengmin's equipment, when used, the defense is increased by at least 22 times, and the attack is increased by 18 times.

This is unimaginable technology.

A group of gods around Li Chengmin also have such equipment.

The combat power is by no means comparable to the gods of other countries.

After all, all the gods have greatly improved their combat power.

Soon hundreds of gods poured out from the base of the Celestial Clan, and they surrounded Levi Garrison and his party.

"have not seen you for a long time?"

Li Chengmin looked at Levi Garrison's indifferent way.

"Indeed, long time no see!"

Levi Garrison nodded, but then said: "You have become more shameless!"

"What did you say???"

In a word, all the gods in Xingguo were blown away.

They stared at Levi Garrison one by one.

It's just that Li Chengmin wasn't angry.

Just look at Levi Garrison.

There seemed to be a hint of playfulness in his eyes.

"I heard that you are talking all over the place, we Daxia belong to your star country? It's shameless!"

"Do you know what everyone is calling you outside?"

Levi Garrison asked.

Li Chengmin held back the angry crowd and asked with a smile, "What?"

"The country of origin of the universe! Because you feel that everything in the world is yours, this is yours, that is yours, and even the entire universe is yours! Hence the name!"

Levi Garrison said.

“Hahaha.....”

Li Chengmin laughed first.

But then the smile stopped abruptly, stared at Levi Garrison and asked, “So you are here for this matter?”

The Return of the God of War [The Protector] Chapter 3292

Levi Garrison shook his head: “What you say is yours, even I am yours. I don’t care, because you are shameless!”

“Levi Garrison, are you courting death?”

The gods of the star kingdom are going crazy.

“I came to you to settle accounts!”

Levi Garrison continued to speak regardless of their reactions.

“Oh? What account?”

Li Chengmin asked.

Levi Garrison smiled: “Some time ago, I released a reward to the world for detoxifying my daughter!”

Speaking of this, Li Chengmin and the gods of the star country changed their expressions one after another.

“At that time, many people and forces all over the world received bounties! Part of it was true! But a larger part came to deceive me! During that time, I didn’t care, and was deceived by many, many resources. what.....”

As they talked, the gods of Xingguo were full of discomfort.

This move has it all.

Levi Garrison laughed at first, but suddenly his face became extremely cold, and he said solemnly: “But how can my Levi Garrison’s resources be so easy to deceive? Afterwards, a few of my brothers took the people who cheated my resources and

the forces into one. Once you record it! I'll go to the door one by one to settle accounts later!"

There seemed to be electric light flickering in Levi Garrison's eyes, he looked directly at Li Chengmin: "So now I'll settle the account!"

Speaking of which.

Li Chengmin and the rest of Xingguo understood what was going on.

"Unfortunately, there are many people from your star country on the list!"

"The people of your star country have deceived me a total of 1,785 spiritual energy crystals and 1,232 heaven and earth treasures."

Levi Garrison smiled.

Handed the list to Li Chengmin.

Li Chengmin looked at it, and Levi Garrison continued: "What I didn't think was that it was you who defrauded me the most resources! You are very smart, not in the name of a star country or a big power, but in the name of a single person. cheat!"

"Although there are many of you, we also have experts, and everyone can be found!"

Just as Li Chengmin was about to say something, Levi Garrison directly interrupted: "Don't tell me it has nothing to do with you, you don't know, you don't know anything, etc. Make a face and admit it!"

What other gods of the star kingdom had to say, Li Chengmin admitted it at once: "Yes, we lied! The people and numbers above are completely correct!"

After speaking, Li Chengmin looked at Levi Garrison like that.

As if to say – yes, I lied, what can you do with me?

Seeing Li Chengmin's attitude, other star gods, that is, members of the Celestial Clan, all stared at Levi Garrison.

"Yes, we lied! How? What can you do to us?"

"Find us to settle the account? Don't you really think that our star country is decadent, right? There are only more than fifty gods left, right?"

"Levi Garrison will let you see how powerful my Star Kingdom Celestial Clan is today!"

...

One after another, the gods came out from the base of the Celestial Clan.

one hundred.

two hundred.

...

One thousand four!

No one would have thought that there are 1,400 gods in the Celestial Clan of the Star Kingdom!

Didn't it say that there were only fifty left?

How come so many come out?

This moment, beyond everyone's expectations.

Including Levi Garrison.

No one would have imagined that not only did Xingguo become decadent, but instead it developed to such a scale.

Of course, it can't be compared with War Bear Kingdom.

Except for Zhanxiong Kingdom, everyone thought that Daxia was the fastest growing country.

The rapid development of Tenshin Division is jaw-dropping.

But now compared with Xingguo, it is almost one sky and one underground.

What's more, the gods of the star kingdom also have matching equipment.

Combat is more terrifying.

These more than 1,000 gods can basically match the more than 3,000 ordinary gods.

This scale was beyond the expectations of everyone present.

Seeing everyone's shocked expressions, the star gods all smiled proudly.

The Return of the God of War [The Protector] Chapter 3293

They liked and looked forward to seeing everyone's shocked look.

After all, everyone's understanding of Xingguo is based on the fact that half of the gods were killed by Daxia's mysterious master with one sword.

Now they have more than 1,000 gods, rivaling the combat power of more than 3,000 gods.

No one would have imagined it.

"Sorry, we are stronger than ordinary gods! Do you see the equipment on my body? At least 1.5 times the combat power!"

The gods of the star kingdom began to show off their equipment.

Especially the top equipment is even more terrifying.

Like Li Chengmin, he is very powerful in being a god.

There is also equipment support.

She can easily defeat two or three hundred gods.

It is a quasi-finished product in the Super God Plan of the War Bear Kingdom.

I also have to say that the technology copied from this country is terrifying.

Only technological equipment can improve so much.

Full of confidence and confidence.

The real combat power of the Star Nation today, except for the War Bear Nation.

They can wrestle their arms from any national power.

Confidence comes from great strength.

Now they have that confidence.

What if you knew we cheated resources?

What can you do with us?

Li Chengmin also spread out his hands, meaning – that’s not wrong, that’s what you see! We are so strong!

“We admit it, we lied! What’s the matter? Are you going to settle the bill now?”

“I seem to have heard that he is here to settle accounts? Hahaha...”

All the gods in Xingguo laughed.

They all thought that after showing their cards, Levi Garrison and the others were all intimidated.

After all, everyone was so shocked.

But Levi Garrison and the others were shocked by why the Star Kingdom was so powerful in such a short period of time.

rather than fear of their power.

In front of Levi Garrison, many gods are nothing.

All are dead.

Levi Garrison suddenly laughed.

This made the gods of the star country smile even happier.

They thought Levi Garrison was scared.

So laughed.

Doctor Dark and the Brain of God are still discussing, or still thinking, how Levi Garrison will deal with Xingguo.

After all, there is still his good friend Li Chengmin in front of him.

I guess it won’t kill you, right?

It should be handled in the same way as Dragon Three Dragon Five.

Everyone’s guessing that’s probably the case.

After Levi Garrison finished laughing, he looked at Li Chengmin and asked, “Are all the gods of your star country here? Or are some of them missing?”

Li Chengmin and the star gods were very puzzled.

What is Levi Garrison going to do?

However, Li Chengmin still replied: "There are still dozens of people who haven't come..."

"Ah? Then call them all to come!"

Levi Garrison said.

"That's not necessary, they are all in the Tianshen base behind! They are all responsible for the operation of the base!"

Li Chengmin immediately explained.

Levi Garrison glanced at the base behind him: "Oh, in the base, that's okay! It's all there!"

"Um?"

This made Li Chengmin and others more and more puzzled.

What is Levi Garrison doing?

Or what is he going to do?

But Li Chengmin, regardless of the rest, directly warned Levi Garrison: "Levi Garrison, I have indeed changed! I'm not the me I used to be! I won't give you a chance! Since you all know that we lied to your resources! You yourself Bring it to your door, we won't let you go!"

Other members of the Celestial Clan echoed: "Yes, you can't blame us if you send it to your door! Hand over the resources and tell me the secret of the resources!"

"Don't think about running! More than a thousand gods have already set their sights on you! Anyone who runs will become a corpse!"

As soon as the words came out.

All the gods stared at Levi Garrison and his party.

It's just that Levi Garrison looked at Li Chengmin and said, "You don't think about your kindness, I do. Except you, everyone will die!"
