

The Return of the God of War [The Protector] Chapter 3320

Hurry up!

Anxious to death!

Again, deceived is deceived.

But if the resources are not in hand, in fact, everything is counted.

Levi Garrison smiled, looked at the crowd and asked, "What are you doing in such a hurry? So many resources are not in a hurry at this time!"

Levi Garrison said this.

Everyone was a little flustered.

Everyone is guessing whether Levi Garrison suspects something?

Or he was worried!

Although he was deceived.

But to hand over resources like this, he must be more careful.

At least let's see how the organization works?

Is it really revenge on Hydra?

Has anything actually been done?

Only when you see it with your own eyes will you be willing to hand over resources.

It's not a matter of believing or not.

It's just experience.

...

Those thoughts raced through the minds of seven decision makers.

They determined that Levi Garrison thought so.

Let's take a look at their specific implementation first, and then decide whether to give resources.

"Don't worry! Don't worry! We're just worried about the delivery of resources. It's not good to be targeted by others!"

Number One said immediately.

At the same time, No. 1 made a look at several other people.

No. 3 immediately understood, and immediately said: "Let's not talk about resources first! Mr. Ye, let's talk about Hydra and War Bear Kingdom first!"

"Huh? Talk about them?"

Levi Garrison was taken aback.

Wondering what tricks they're up to.

"To be honest, we have planted a lot of spies in War Bear Country and Hydra during this time! Until now, these spies are distributed within them, providing us with information at all times..."

Number three smiled.

"puff!"

Levi Garrison almost laughed.

You are obviously acting as a lackey for others, how could you have the guts to say that you have spies?

"Huh? Talk about it!"

Levi Garrison was very curious.

"Mr. Ye, please come to our intelligence department first!"

The third group led the way.

Levi Garrison and his party followed.

When they came to the intelligence department, their intelligence team sent out all the information they had just obtained.

It is the message of the success of the final version of the War Bear Kingdom Super God Project.

The information is very detailed, not only detailed data.

Even the strongest one can't measure the combat power for the time being.

There is even information about Hydra's temporary self-transformation plan...

I have to say that these decision makers are very smart.

Come up with concrete evidence, who wouldn't believe it?

But this is a message given by them as lackeys.

Not being a spy, I got the information myself.

But this is definitely something they do.

It was specially for Levi Garrison to see.

Nothing is more convincing than this.

"Now the War Bear Kingdom has become so powerful that it dominates the entire world, and even the Hydra itself is so powerful! How can you take revenge?"

"We have to get stronger quickly! Mr. Ye, hurry up and bring all the resources! We have to hurry up!"

"And the latest information from our spies shows that the War Bear Kingdom is about to carry out a strategic plan! It seems to be sweeping everything! Hydra will also attack us!"

"So we're running out of time! Mr. Ye quickly brought the resources, and we're about to start preparing!"

...

After several people saw that Levi Garrison was convinced, they immediately involved resources again.

Levi Garrison pretended to be shocked: "Really? Is the situation so serious? Then hurry up!"

No. 1 took the opportunity to ask: "So, what about Mr. Ye's resources? Has it been shipped?"

“When it comes to resources, I want to show you a big baby first!”

A smile appeared on the corner of Levi Garrison’s mouth.

“Huh? Big baby? What big baby?”

Everyone was full of curiosity.

Levi Garrison smiled mysteriously: “Compared with the big baby, resources are nothing at all!”

The Return of the God of War [The Protector] Chapter 3321

“A big baby whose resources are nothing?”

Hearing Levi Garrison’s words, the eyes of everyone in this organization lit up.

Could it be that Levi Garrison has some kind of artifact or something?

For a while, the resources are not fragrant for them.

Resources are not that important anymore.

After all, this is the big baby in Levi Garrison’s mouth.

Levi Garrison has always regarded resources as nothing.

He has so much knowledge and so many resources.

Those treasures from heaven and earth were regarded as Chinese cabbage by him.

Now there is still something he calls a big baby?

How insane is this!

Everyone suddenly became interested.

Resources are really left behind.

“Where is Mr. Ye’s darling?”

No. 1 had already started to get impatient and couldn't help asking.

"Yes! What big baby? So mysterious?"

"It's definitely unusual for you to be called a big baby by Mr. Ye, right?"

"Mr. Ye, our curiosity has been piqued, so take it out and let us take a look!"

Everyone else looked the same.

curious!

Extremely curious!

"Hey!"

Doctor Dark sighed.

It is said that curiosity killed the cat.

Still curious.

Curiosity can easily kill you!

But he was also looking forward to it.

And the Brain of God, they are all looking forward to it.

It's definitely going to be exciting next time.

It's just that what they expect is different from those of the revenge Hydra organization.

"Of course it's a big baby!"

"But I have to ask first, is everyone in your organization?"

Levi Garrison asked.

He's here to level everyone here today.

It would be meaningless if there were not enough people.

Before he came, he reminded them to gather everyone together.

"It's all there! After receiving your notice! Our people are all here!"

“With fewer people, we’re afraid we won’t be able to handle so many resources!”

“Today, everyone in our organization is here! There are more than 170,000 people in total!”

No. 1 they answered positively.

Levi Garrison smiled: “That’s good! Since everyone is here, then everything will be easy!”

Seeing Levi Garrison smiled.

Everyone laughed too.

It’s just that they never thought that what Levi Garrison was hiding under his smile was killing intent.

He means that when everyone arrives, he can kill them all.

But this group of people understood a different meaning.

“I’ll show you the big baby next!”

Levi Garrison smiled.

“Whoa, whoa, whoa...”

Hearing the display of the big baby, almost all the people on the island came together.

It’s densely packed everywhere.

Just to see the big baby in Levi Garrison’s mouth.

On the 1st, they were even more excited and looked at Levi Garrison without blinking.

Levi Garrison shouted at the dark doctor: “Old black!”

“clear!”

Doctor Dark stepped forward.

“boom!!!”

Everyone’s eyes lit up fiercely.

Can’t wait to see the big baby.

See the cloth bag on the Dark Doctor's back.

They just understood.

That's what the big baby is.

No wonder.

To be packed like this.

It seems that everyone's initial curiosity was right.

What the Dark Doctor is carrying is unusual.

The big baby is always on him.

Countless pairs of eyes in the field were staring at Doctor Dark.

Doctor Dark looked at everyone and sneered in his heart: "If you see this thing, you will die!"

Everyone watched him take down the cloth bag little by little, and then peeled it off layer by layer.

In the end, everyone watched as Doctor Dark completely peeled off the cloth bag.

"What the hell is in there?"

"Looks a bit like a wooden box?"

"But the big baby is definitely in a wooden box... The wooden box is not important, the important thing is the big baby inside!"

At this time, the cloth bag fell off, revealing the wooden box inside...

"Huh? This wooden box is a bit familiar? It seems like I've seen it before?"

Someone was surprised.

The Return of the God of War [The Protector] Chapter 3322

Of course, most people don't know this wooden box.

But there are still people who know about this wooden box.

After all, the wooden box came from them.

Now that I see it, it still feels familiar.

But they all seem familiar at first glance, but can't remember for a while.

"This wooden box seems to have really seen..."

Twenty-three and twenty-nine also muttered to themselves.

The other three who had invited Levi Garrison were also deeply puzzled.

Can you not be familiar with it?

This wooden box was originally bought by them.

I just saw it suddenly, and I can't recognize it.

"This wooden box is a little familiar!"

The seven decision makers also felt familiar, but did not recognize them for a while.

And the few people who really sent the wooden box were at the back of the team, and they could only watch it so-so and couldn't see anything.

If they were closer, they would definitely be able to recognize what this wooden box was at first sight.

Others just feel familiar and dare not recognize it.

And this kind of wooden box is generally more delicate, and it is the same for everyone.

What's more, everyone is in a hurry now, and they just want to see what the big baby inside is.

The wooden box is just a cursory glance and doesn't care.

What everyone thought was to quickly open the wooden box and see the big baby inside!

Greed does the trick.

that's it.

There were so many people, but no one recognized it.

Everyone saw the wooden box, but no one recognized it,

Levi Garrison made a difference.

Are these people crazy?

How could they be so greedy?

Can't even recognize this?

Doctor Dark was also surprised.

He had imagined that when he took out the wooden box, everyone would recognize it.

exclaimed again and again.

The results of it?

Not one person recognized.

What are they doing?

"Open it! Hurry up and open it!"

"What is the big baby?"

...

When everyone saw Doctor Dark stop, they couldn't help shouting.

The seven decision makers could not wait to rush up and open the wooden box by themselves.

They couldn't help it.

hurry!

They are in a hurry!

He didn't even realize that Levi Garrison could easily draw out their curiosity.

These five days were anxiously waiting for Levi Garrison's arrival.

And now, he is anxiously waiting for the big baby in Levi Garrison's mouth.

“Please, open it up! Let me see what the big baby is?”

No. 33 almost knelt down to Doctor Dark.

Doctor Dark shook his head helplessly: “You will regret it! The sooner you see it, the sooner you die!”

It’s just that everyone waited too impatiently.

I didn’t hear what the Dark Doctor said at all.

I don’t even think about other things.

Just when Doctor Dark was about to open it, Levi Garrison stopped him.

Levi Garrison looked at the crowd and asked, “Are you sure you want to see the big baby?”

“Look! Look! We’ll look!”

A bunch of people are like crazy.

They all shouted.

The first seven decision makers shouted the most fiercely!

“Mr. Ye, I kneel down for you, let’s take a look at the big baby!”

They have become impatient.

Seeing everyone like this, Levi Garrison raised a smile on the corner of his mouth: “Do you really want to see it? You will regret it!”

In an instant, everyone’s heads shook like a rattle.

“I won’t regret it!”

“I definitely won’t regret it!”

“Hurry up! Let’s see!”

...

A group of people shouted wildly.

Levi Garrison sneered: “Okay, I gave you the opportunity! You don’t want it yourself!”

“Um?”

Everyone was baffled by Levi Garrison’s words.

What does it mean?

But don’t wait for them to think about it.

Levi Garrison asked the dark doctor to open the box.

“Clap!”

Box opens.

Everyone’s eyes looked over.

Doctor Dark slowly took out the contents of the wooden box.

A dead branch like a sword!!!

What?

This is.....

When everyone saw the dead branches, they were dumbfounded.

The audience fell into dead silence!

The Return of the God of War [The Protector] Chapter 3323

The originally noisy scene suddenly became quiet.

Even all the breath-holding sounds, not even the sound of breathing.

Completely to the point where the needle drop can be heard!

Everyone is numb.

One by one like walking dead.

When this dead branch appeared in front of everyone’s eyes, the audience was about to explode.

Everyone just felt a cold air from the soles of their feet shot straight into the sky, as if it froze people's bodies.

Their pupils contracted and their eyes widened.

This is an extremely shocking performance!

It's stunned!

Mainly to give them too much shock!

I was looking forward to the big baby!

Who would have thought that the big baby turned out to be this thing?

No one thought this would be the case! ! !

Doctor Dark also got the expected scene!

Sure enough, this group of people will all be stunned after seeing this!

From his point of view, it seems that the densely packed objects are not people, but sculptures.

The wooden box is just familiar, no one recognizes it.

But when the dead branches came out.

Everyone recognized it!

The dead branches are combined with the wooden box, and everyone can recognize it even more! ! !

Isn't this their thing?

He used the 100,000-year-old snow lotus to coax Levi Garrison, and finally sent this one to insult him?

How could they have forgotten?

This is the worst time they have insulted Levi Garrison!

Don't forget this!

If a single thing is taken out, everyone may not recognize it.

But these two things are combined.

Most of the people present knew it!

Do not!

Everyone should know that!

The part of the people who didn't know, that is, those who wanted revenge, were all killed by them.

The rest of these people are all advocating to deceive Levi Garrison.

"Boom..."

At this moment, for No. 7, it was a blast of thunder!!!

There is no reason for him!

Because this dead branch was picked up by him and put in it.

He knows better than anyone.

At first everyone meant to be deceived.

No need to send wooden boxes to insult Levi Garrison anymore.

Too much trouble.

But No. 6 felt that Levi Garrison had to be humiliated, and suggested sending an empty box to humiliate him.

Therefore, everyone thinks this suggestion is good.

Got everyone's unanimous consent.

That was the decision to do so.

Several people who invited Levi Garrison bought wooden boxes.

But No. 7 found it unsatisfactory. He picked up a dead branch and put it in the wooden box. The position was at his feet at the moment.

It was a dead branch he picked up from under his feet!

At that time, No. 7 even joked: "We didn't deceive Levi Garrison. Isn't that the one hundred thousand year snow lotus? Give it to him!"

Now the joke is circulating in their circles.

When they see dead branches, they call it the 100,000-year-old snow lotus.

Wooden boxes they might forget.

But this dead branch is definitely impressive!

After all, this is where the joke of 100,000 Years Snow Lotus comes from!

Now see the dead branches!

Everyone recognized it at a glance.

Especially number seven!

He could never forget this dead branch no matter what!

This was too much of an impact on him.

“boom!”

Understood.

Everything is clear!

Why is it so familiar to see the wooden box?

I understand now.

Isn't this wooden box taken from them?

No wonder it's familiar!

The main thing is that everyone is focused on the big baby.

Where to notice the others!

Shock!

When these people saw the dead branches, they all changed color.

The faces of the seven decision-makers turned green.

They are the closest, they can see clearly, and they are also the most shocking.

Everyone else behind them is going crazy.

Big baby is this???

The most crucial point – why did Levi Garrison bring this here? Why show them back?

Is it...

A terrible idea was born in everyone's mind!

Like a thunderbolt from the blue!

The Return of the God of War [The Protector] Chapter 3324

It was clear that the sky was clear, but as a result, there seemed to be muffled thunder in everyone's ears!

There was a buzzing explosion in my mind, and an illusory scene began to appear in front of my eyes.

horrible!

This is too scary!

Is the impact too great?

Their brains started to mess up.

Some people's brains are all gooey, and some people's brains start to spin at high speed.

Shouldn't this be thrown away?

how come?

Why does he still keep this thing?

Keeping this thing doesn't mean...

Did he know everything???

Do you know that you lied to him with the 100,000-year-old snow lotus?

This.....

“Boom...”

Thinking of this, everyone’s head will burst.

“hiss!”

The sound of breathing cold air is endless!

impossible!

Did they leave any flaws at that time?

Although they recruited many people to cheat, they were all led by No. 3 personally.

Threes are always resourceful and cautious.

No flaws will be left.

And it was checked afterwards, and nothing was found.

If Levi Garrison and the others really knew, it would be impossible to have no reaction at all afterwards.

Besides, if you really know about this, Levi Garrison will not be deceived again later?

Yes!

If Levi Garrison really knew that they were deceived by the 100,000-year-old snow lotus, how could he be deceived in the future?

All those resources were shipped here by them.

Impossible!

The logic doesn’t match!

Besides, they all publicly supported Levi Garrison against the revenge Hydra, and they were on the same front as Levi Garrison.

How could he?

But this thing is in front of them!

In addition, Levi Garrison’s resources are still not available, they have to doubt.

Everyone looked at Levi Garrison in shock.

Don't know what he means?

I don't know if he knows the inside story.

This makes it hard for them to judge!

The seven decision-makers have already turned violent waves in their hearts.

Especially the sevens and threes.

After No. 1 tried his best to calm down, he asked Levi Garrison, "Mr. Ye, what does this mean? Where's the darling? Is this wrong?"

The others also pretended not to know, and immediately echoed: "Yeah, did you take it wrong? Where's the big baby? Mr. Ye, stop joking, take it out quickly!"

They wanted to test whether Levi Garrison really knew.

Levi Garrison smiled: "Isn't this the big baby? This is the big baby I said!"

Levi Garrison smiled and said this.

Even more mysterious.

Now it's even more difficult for them to judge whether Levi Garrison knew about it or not.

"Don't be kidding, Mr. Ye, isn't this a dead branch? Why is it a big baby?"

Number One said helplessly.

Others also echoed: "Yes, Mr. Ye, stop joking! This dead tree can't even match the resources, how can it be a big treasure?"

Levi Garrison insisted: "This is the big baby!"

"Um?"

Just as the others were about to say something, Levi Garrison asked with a smile, "What do you think this branch looks like?"

With that said, Levi Garrison picked up the dead branch!

"Um?"

Everyone understands Levi Garrison's meaning more and more.

I don't even know if Levi Garrison knew that the 100,000-year-old snow lotus was deceived by them.

But everyone still has to guess, No. 1 said tremblingly: "Like a treasure?"

"Like ginseng? Or like snow lotus?"

Everyone else is guessing.

...

"no!"

Levi Garrison shook his head all the time.

"What does it look like?"

Levi Garrison also waved a few times to guide them to guess.

It's just that the number one and a few people can't guess it after racking their brains.

"Mr. Ye, just say it directly, we really can't guess it with our imagination!"

said number one.

But at this time, a voice came from the corner: "Like... like a sword!"

The Return of the God of War [The Protector] Chapter 3325

The more he looked at the dead branch, the more like a sword.

The part that Levi Garrison is holding is the handle, and the front is the body of the sword.

All in all it's a sword.

After hearing this answer, Levi Garrison's eyes lit up fiercely.

"Yes! It's a sword!"

Levi Garrison exclaimed.

"what?"

After hearing this answer, everyone present was shocked.

This... what does this mean?

What is the intention?

Everyone looked at Levi Garrison in curiosity and shock, waiting for his next words.

No. 1, these people are shaking, and they don't dare to ask.

They were all waiting for Levi Garrison to speak.

Levi Garrison grabbed the branch and smiled and said, "When I saw it, I felt like a sword! I didn't throw it away on purpose, but kept it!"

Doctor Dark asked deliberately, "Mr. Ye, why are you leaving a dead branch?"

"Isn't this like a sword? Of course it's used to kill people!"

Levi Garrison said this.

Everyone in the audience was shaking.

They felt a chill invading their bodies, making them tremble uncontrollably.

Heartbroken after all.

Everyone knows what's going on.

Even they felt a murderous attack, they were about to fall into hell.

"Hu Chi! Hu Chi..."

Many people started gasping for breath.

The sound of breathing is incessant, everywhere.

There is also the sound of gasping for breath, and the sound of body shaking.

There was instant chaos in the field.

Doctor Dark continued to ask, "Who to kill?"

As soon as this question came out.

In an instant, all the sounds in the field disappeared.

Not even the sound of breathing.

At this moment, it was as if time and space had stopped.

Everyone stood there and didn't dare to do anything, not even breathe.

Just like sculpture.

Not a living thing at all!

Levi Garrison smiled, looked at the seven decision makers, and asked, "Who do you think I should kill?"

"Boom!!!"

This question is like a thunderclap.

The seven people were frightened.

This is implying them!

At this moment, everyone understood.

Levi Garrison definitely knew that they were the ones who deceived the 100,000-year-old snow lotus!

Don't you know everything about this series of operations and asking who to kill?

It is clear that they are going to kill them!

The atmosphere suddenly became tense, and it was even said that the sword was drawn.

This moment is silent to death, and the next moment the situation in the field is about to explode.

Everyone is so nervous...

They don't want to completely turn against Levi Garrison for the time being, and they still have some illusions about Levi Garrison's resources.

What if it was just a coincidence?

What if there is still hope for resources?

At this moment, No. 3 suddenly said: "Of course we want to kill our common enemy – Hydra!"

"That's right! Of course it's killing the Hydra!"

...

On the 1st, they began to agree.

They were all amazed at No. 3's reaction speed, which was too fast.

The embarrassment was instantly resolved.

Levi Garrison and the others were also happy.

The response is really fast.

The embarrassment was instantly resolved.

He looked at the branch and smiled: "Of course the Hydra will kill! But not with this branch! This branch is for killing other people!"

No. 3 immediately echoed: "Yes, no matter what it is, it is used to kill the enemy anyway!"

No. 1 immediately boldly said: "Mr. Ye, stop joking! Now our eldest baby has seen it too! Where are the resources? Or let's talk about other things!"

Others also began to change the topic one after another: "Yes, Mr. Ye has never seen resources, is it an accident?"

Seeing this, Levi Garrison smiled: "Don't worry, I have already arranged the resources for you, you can rest assured about this!"

The arrangement that Levi Garrison said was naturally arranged in hell.

But after everyone heard it, hope was ignited.

I thought there was really hope.
