

# The Return of the God of War [The Protector] Chapter 3542

After taking the elixir, the ten Tianjiao's injuries recovered quickly.

They also immediately gathered together.

Looking at Levi Garrison who was fighting in front of them, their hearts were full of fear.

This is too strong!

If you don't act, these people will be killed in front of you.

I thought it would be useful to combine so many masters.

Now it seems that to Levi Garrison, it is an existence like an ant.

Step on as much as you want.

There is no threat to Levi Garrison at all.

"what to do?"

Han Jiuxiao asked.

"Prepare to activate the town hall artifact!"

"Levi Garrison is too powerful! If you don't use the divine artifact of the pavilion, there is absolutely no way to take him!"

Bai Xinghe and Chu Qingshuang said in unison.

This is their only hope.

If the town hall artifact can't do anything to Levi Garrison, they can't imagine it.

therefore.

The Zhenge artifact must kill Levi Garrison.

Soon they found the attendants and took out all the four wooden boxes.

“Boom...”

Immediately, a vast breath rushed in.

Wufangge Zhenge artifact has not been used for a long time.

The previous use was when fighting against the Xuanming alien race.

put on hold for so long.

It's that there is no one who is qualified to let the Town Demon Division dispatch them.

Now Levi Garrison is the first.

“With the use of the four town pavilion artifacts, Levi Garrison is sure to die!”

This is their slaying belief.

Gong Qianqiu, who was observing secretly, was immediately excited.

“Come on! They are starting to use the artifact of the town hall! Let all parties prepare! Ready to shoot!”

Gong Qianqiu's message was immediately passed on to these allies.

The killer and the scattered repairers are all ready.

The gods of the eternal kingdom are all ready, and their high-tech battle suits have been activated.

“Notify the reinforcements on the periphery to arrive within ten seconds! Let them get ready!”

now.

The top ten experts of the Xuanming Alien Race have also come to the field, and they have long been ambushed in the best place.

“Now it seems that everyone is waiting for the four town pavilion artifacts to be activated, and we are ready to do it! This is a good opportunity for us to kill Levi Garrison!”

All parties are ready to take action.

Gong Qianqiu's subordinates came to report at night: “The organs and poison are also ready! At that time, Levi Garrison will be attacked indiscriminately! As long as he gets a little bit of it, he will be in trouble!”

...

The four artifacts of the town pavilion are about to come out, and the terrifying movement is raging around.

They also felt Levilia, who was hiding in the ground.

Levilia's little face tensed: "Dad may face the most difficult battle! I feel that there are hidden masters in the dark!"

Xiao Feng was also anxious: "What should we do? Shall we go out and help Master?"

"No! Just stay with me, we went, but it's causing trouble!"

...

"boom!"

"boom!"

"boom!"

"boom!"

...

With four roars and explosions, all the four town pavilion artifacts were activated.

East Pavilion Bai Xinghe is holding the Demon Suppression Sword!

Xige Zhong Haiqiu holds the emperor's gun!

Nange Jiang Tianqiong is holding the Weeping Sword!

The middle pavilion Xu Zhetian is holding the nine-day bow!

The four town pavilion artifacts were officially unveiled.

The four artifacts flowed with light, exuding unparalleled power.

"Clang, clang..."

"Buzzing..."

The four artifacts of the town pavilion seem to resonate with the heavens and the earth, making a humming sound.

“Levi Garrison, we admit that you are very strong! Let us use the four great artifacts! But today you will surely die!”

Bai Xinghe is holding the Demon Suppression Sword, crazy like a demon!

A terrifying aura is surging, and the whole person is disheveled, and the momentum is like a dragon.

The other three artifacts are also at their peak.

not only.

The rest of Tianjiao input their skills into Bai Xinghe several people.

Bring them to their peak.

It can also drive the four town hall artifacts to the most terrifying state!

One hit kill!

When the four artifacts of the town pavilion are released, Levi Garrison will surely die!

## The Return of the God of War [The Protector] Chapter 3543

Bai Xinghe even shouted at the masters: “Everyone, please help us!!!”

Because it is too difficult to activate the Zhen Pavilion artifact.

Not to mention to exert the strongest power of the Zhenge artifact.

Even the top ten arrogances who are amazing in ancient and modern times!

With their strength, it is far from enough to unlock the true power of the Zhen Pavilion artifact.

Unless it is used by the strongest person on each side, the real power can be used!

However, reaching the strongest power is estimated to be impossible.

It is also possible for the trapped dragon formation in the North Pavilion. It only needs enough spirit stones to burn to stimulate the ultimate of this formation!

The town hall artifacts of the other four pavilions are different.

The person who must use it has great strength.

Right now, Bai Xinghe feels that he can't really unlock the strongest power of the Demon Suppression Sword.

So call people to help yourself.

"Let us help the top ten talents!"

The masters shouted.

At the same time, it will transfer its own power to the top ten talents such as Bai Xinghe.

In addition to the Demon Suppression Division, the masters of the mysterious forces have also urged the practice techniques to transfer the skills to the top ten talents.

Their goal is to kill Levi Garrison.

This is the best chance for them.

We must do our best to kill Levi Garrison.

Otherwise, there is no chance!

After receiving the skills, the top ten Tianjiao were sent to the four Bai Xinghe holding the four town pavilions.

At the same time, they also transmitted their strongest skills to the four great talents of Bai Xinghe.

"what!!!"

The four arrogances of Bai Xinghe made a terrifying low roar.

As if the ancient gods were roaring.

Their muscles and veins soared, and their bodies grew a lot stronger.

Blue veins burst out on his face, and when his eyes were closed, it was as if divine light had suddenly appeared, and there was a scene of the destruction of the stars.

“Boom...”

A torrent of flames erupted all over the body, reaching the sky.

The earth shook and the mountains swayed, and the sky collapsed.

It feels like this momentum will cover the whole world.

“Crack!”

“Crack!”

“Boom...”

There were bursts of thunderous torn sounds in the sky, and terrifying lightning raged.

It's just too powerful.

These changes in the magnetic field led to this terrible scene.

The four arrogances of Bai Xinghe are as crazy as demons.

They are like gods descending!

The four artifacts of the town pavilion were also sensed and swayed wildly.

A terrifying air flow came out.

A terrifying force is sweeping.

These four artifacts of the town pavilion have been quenched and baptized by the predecessors of the Sifang Pavilion, and finally put their skills into the artifact of the town pavilion.

As a result, the four town hall artifacts are getting stronger and stronger.

It depends on how much the power of the Zhenge artifact can be stimulated.

“Boom...”

The momentum of the town hall artifact continues to rise!

It also resonated with the vision of heaven and earth.

This town pavilion artifact can also use the power of heaven and earth!

Bai Xinghe and several people used the most terrifying and peak power to motivate the four great artifacts.

In a blink of an eye, the four artifacts of the town pavilion were activated, and they soon reached their peak state.

The four artifacts of the town pavilion seem to be able to tear apart the world!

Even Levi Garrison laughed.

These four artifacts of the town pavilion are a bit interesting, and finally I can make my own efforts.

Fortunately, there is nothing to look forward to in vain.

Come on stronger.

Gong Qianqiu and the others were also stunned.

The power of these four town pavilion artifacts is far beyond their expectations.

Much stronger than they imagined.

It's also in their favor!

"Ready! It's time to start!"

A cold glow flashed in Gong Qianqiu's eyes.

"I'm coming!"

"Ready to shoot!"

...

The masters in ambush are also in full swing.

Once the four town hall artifacts are activated, they will simultaneously shoot.

Give Levi Garrison the biggest kill!

Everyone is staring at the four artifacts of the town pavilion in the field.

# The Return of the God of War [The Protector] Chapter 3544

"kill!!!"

Bai Xinghe roared wildly.

Fight with the Demon Sword!

Attack Levi Garrison directly from the front.

Xige Zhong Haiqiu killed Levi Garrison from behind Levi Garrison with a spear of the emperor.

Nange Jiang Tianqiong held the Divine Weeping Knife and slashed down from the air.

The middle pavilion Xu Zhetian had already aimed at Levi Garrison in the dark while holding the Jiutian bow.

Under the nine-day bow, no creatures survived.

Li Zhuyue of the middle pavilion put an arrow on the Jiutian bow.

When the Jiutian Bow was first refined, there were only nine arrows!

An extremely rare extraterrestrial meteorite was used.

The number is scarce, but the power is amazing.

After so many years, only two arrows were used!

An arrow is the time to kill the alien race of Sen Luo.

The other arrow was when he was at war with the Xuanming alien race.

Basically, one arrow killed an ancestor-level existence.

Seven arrows left!

This time brought three arrows.

He has paid enough attention to Levi Garrison.

This arrow Levi Garrison is either dead or injured!

He can't escape!

Although the three of Bai Xinghe directly attacked Levi Garrison directly.

But a few people know that the key lies in the Nine Heavens Bow.

Even if this arrow can't hurt Levi Garrison, it can bring him enough restraint.

Success or failure is here!!!

Xu Zhetian had an arrow on his Jiutian bow!

Levi Garrison is about to be hunted!

The bowstring was gradually drawn by Xu Zhetian into a full moon shape. This required his skill and the skill of ten thousand people to be able to do it!

It can also exert the strongest power.

"what!!!"

Even if Xu Zhetian has so many people's power transmission now, it is very difficult for him to pull up, and he let out a roar.

The ground beneath my feet appeared as fine cracks like spider webs, spreading out for hundreds of miles!

Finally, he was full, pulled to the maximum extent.

His whole body burst into blue veins, like small snakes squirming.

There were even cracks all over the body.

This is the extreme power of the Nine Heavens Bow!

Who can bear it?

Even the top ten geniuses!

Electric lights flickered above the arrow, almost on fire!

This arrow destroys the world!

Nothing in the world can stop this arrow!

Killing is on!

Xu Zhetian is confident that with this arrow, whether it is an alien race or a god, it can penetrate!

Not to mention Levi Garrison! ! !

The three arrogances of Bai Xinghe holding the Demon Suppressing Sword also pushed the three Suppressing Pavilion artifacts to the extreme.

The attack and kill of the three will be the strongest move.

The four town hall artifacts have all been activated.

It's a close call!

"kill!!!"

Hundreds of scattered cultivators arranged by Gong Qianqiu were dispatched at this moment.

Kill Levi Garrison from different directions.

mutation!

This is what everyone present did not expect.

There are still people?

But everyone's purpose is the same – they are all to kill Levi Garrison.

For the arrogance of Bai Xinghe, it is a help!

There are so many people who killed Levi Garrison.

At the same time, the top killers of the major killer organizations such as Yama Hall, Seven Killing Pavilion, Rakshasa Hall, Hongye, and Qingzhu were all dispatched.

It's just that they are not like the loose cultivators who are vigorously attacking and killing Levi Garrison.

They are hiding in the dark, hiding their figures to kill Levi Garrison.

And most of the killers are hiding behind the loose cultivators to hide their stature.

No one thought of this.

Including these loose cultivators do not know.

There will be people hiding behind you.

It looks like one person, but it's actually two people.

Still caught off guard.

This move will definitely maximize the power of the assassination!

But it's just the beginning.

Next, the powerhouses of the Eternal Kingdom came.

Their strong men have a celestial physique, and their bodies have terrifying power of various elemental attributes.

Not only that.

They also specialize in technology.

Whether it is a matching weapon, or a battle suit, it is unprecedented.

Completely improved several levels.

After all, it was researched by super spiritual veins.

## The Return of the God of War [The Protector] Chapter 3545

Not only that.

The advanced technological products of Eternal Kingdom are also fully invested.

They were originally in a base far away from here.

after receiving the message.

These aircraft and various high-tech weapons that the world has never seen before actually arrived in a few seconds.

The most powerful attack on Levi Garrison is about to be launched.

Terrible weapons have long locked Levi Garrison.

These weapons contain the most terrifying aura, and when they are launched, they will be transformed into the most terrifying power.

This is where the high-tech weapons of the Eternal Realm differ from the weapons of the world today.

Their powerful technologies are all based on super spiritual veins!

Any technological product has something to do with the spiritual veins.

The powerhouse of the eternal kingdom has emerged, and the power is even stronger.

Even stronger than the army of the Demon Suppression Division led by the Ten Great Talents!

It's something no one expected.

Everyone was stunned.

Where did this come from?

Many masters of the town magic division are confused, who is this?

They have never seen it!

But everyone can see clearly, they are all here to deal with Levi Garrison!

Everyone is on the same front!

I also understand – I heard that the Zhenmo Division was going to deal with Levi Garrison, so everyone who wanted to kill Levi Garrison came.

It seems that Levi Garrison has quite a few enemies!

This is exactly what is best for everyone!

The more people who come to kill Levi Garrison, the better.

At this moment, everyone gathered the most powerful force to kill Levi Garrison.

Not only that.

The top ten masters specially selected by the Xuanming alien race also shot together.

What they are waiting for is the opportunity of this moment!

finally come.

These top ten masters have more strength than the top ten geniuses, and they go directly behind the top ten geniuses and become invisible.

Imitation of those killers in Yama Temple to give Levi Garrison the strongest blow.

“Our tricks are also ready!”

Gong Qianqiu also arranged various hidden weapons and organs, etc., as well as poisons.

Anyway, all the ways to deal with Levi Garrison are used...

Gong Qianqiu’s face was cold, and he nervously observed the situation ahead.

Victory or defeat is at this moment.

gathered such a powerful force.

Only be allowed to win, not allowed to lose!

If this powerful force cannot win against Levi Garrison again, the consequences will be unimaginable.

Just a moment.

The battlefield changed dramatically.

No one thought of it.

There are so many masters hidden in secret?

Are you waiting for this moment to shoot?

“Hahaha...Okay!”

“Good come!”

Levi Garrison laughed out loud when he saw this situation.

This situation is much better than he expected.

I thought it was the magic weapon of the town and the four town halls.

Now I don’t think there are so many ghosts and ghosts.

Doesn't this make him a good fight at one time?

Very good!

Levi Garrison was just excited.

rather than fear.

If you let other people know about Levi Garrison's psychology, they are afraid that they will collapse.

Under such pressure, how can you still laugh?

This is a lunatic!!

"Whoosh!!!"

Xu Zhetian of the middle pavilion held the Jiutian Bow, pulled it to the maximum, aimed at Levi Garrison, and released it suddenly.

An arrow pierced through ice and flames!

This arrow shot out, as if the space was torn in half, and the whole world was deformed.

"Boom..."

"Crack!"

"Zizzizi..."

What is terrifying is that this arrow is so powerful that it caused an inexplicable burning scene between heaven and earth.

This is the aura between heaven and earth under this momentary squeeze, the aura is also compressed to the extreme, all burst open, and there is a burning scene.

Seeing the burning scene between heaven and earth, everyone was stunned.

Terrible isn't it?

This arrow has the power of ghosts!

Who can stop?

It is indeed an artifact of Zhongge Town Pavilion!!!

The speed of this arrow really reached its limit, like a meteor streaking across the night sky, and disappeared for a moment.

You can't catch the trail at all!
