

The Return of the God of War [The Protector] Chapter 3549

The top ten Xuanming alien masters are stronger than these killers!

They also imitated the tactics of these killers, hiding behind others to assassinate.

But there is a specialization in the art industry!

Killers are the most professional!

Maybe their strength is limited, but what they study every day is to assassinate targets in various weird ways.

Therefore, this group of killers assassinated Levi Garrison from a tricky, bizarre, pervasive, and everywhere angle.

The threat is no smaller than the top ten masters of the Xuanming alien race.

And the scary thing about them is that you don't know how they're going to kill you.

Another point – they will not have direct contact with Levi Garrison.

Instead, use insidious tricks to kill Levi Garrison as much as possible!

Now there are killers everywhere, and they attack in an instant.

There are all kinds of hidden weapons, all kinds of poisons, all kinds of sinister and sinister tricks to kill them all.

Overwhelming.

It's simply not enough to deal with.

It feels like a fallen leaf is also a killer.

A gust of wind is also a killer.

Even a speck of dust is a killer.

They know how to hide their bodies too well.

The most important thing is the red leaves in the sky and the green bamboo everywhere.

This is the killer organization Hongye and Qingzhu.

These are all falsehoods.

What's more, hundreds of killers all attacked.

At the same time, Gong Qianqiu's various tricks came.

They are all insidious and ruthless organs, hidden weapons, and all kinds of poisons.

At this moment, it's all used up.

It's the best time after all.

This is a sinister and ruthless attack.

In the area where Levi Garrison was located, all kinds of domineering poisonous mists filled the air, and it was like a gust of wind and rain.

Various hidden weapons suddenly shot at Levi Garrison, as well as various organs.

With the attacks of hundreds of killers, as well as the attacks of the ground powerhouses of the eternal kingdom.

The threat is no less than before.

After all, they are all killers!

face such an attack.

Levi Garrison smiled.

"Buzzing..."

Suddenly there was a tremor around him, and waves of invisible forces formed walls around him.

At least ten meters thick.

It was equivalent to a ten-meter-thick protective cover covering Levi Garrison's entire body.

Including his feet and the top of his head!

They are all guarded!

Soon, hundreds of killers and various hidden weapons attacked.

Including the heads and tough weapons that popped out of Levi Garrison's feet, they all wanted to tear Levi Garrison apart.

But the next moment.

"Bang bang bang..."

The killers at the feet of Levi Garrison found that their heads were sticking out, but their bodies could not come out at all. There seemed to be an invisible wall above their heads, blocking them.

They were exposed, and even the ultimate move was exposed.

Right at Levi Garrison's feet, he could no longer move forward, and could no longer touch Levi Garrison in the slightest.

Watching helplessly, Levi Garrison, who was just a short distance away, had nothing to do.

The same goes for killers from other parties.

The distance of ten meters is already the best distance for these top killers of the Town Demon Division.

All kinds of killing moves were displayed.

"Bang bang bang..."

But the result is the same.

There is an invisible barrier in front of them.

Everyone seemed to be hitting the wall.

People can no longer take a step forward, and are blocked by death.

Even all kinds of weapons were blocked, unable to pierce this invisible wall at all.

Not only that, but all kinds of hidden weapons, organs, and even poisonous mist were all blocked.

This invisible ten-meter power wall has become a gap that they can't cross at all.

No matter what kind of insidious tricks can't penetrate at all.

Not to mention approaching Levi Garrison.

fear!

Shocked!

No one thought it would be like this!

Everyone will be stopped.

The trick is useless.

And the powerhouses of the eternal kingdom began to attack the invisible wall.

It was a blast, but it didn't work at all.

The Return of the God of War [The Protector] Chapter 3550

his.....

She has prepared so many tricks.

Can't use it now?

This is not the point.

The key is that at this moment, both the killers and the hidden weapons are all exposed.

Now it's dangerous.

These killers are relying on this chance.

There is absolutely no second chance.

Once exposed, it's over.

Just waiting to die.

really-

The killers under Levi Garrison's feet just showed up, all exposed.

I wanted to hide but there was no chance.

"Boom..."

"puff!"

"puff!"

...

The invisible wall hanging above their heads crashed down.

Their heads all exploded on the spot!

Dozens of killers fell on the spot.

There were also the killers who appeared ten meters above Levi Garrison's head, and they were also instantly exposed.

They were also blocked by invisible walls, and the weapons in their hands could no longer move forward at all.

"Boom..."

Suddenly the wall in front of them loosened, and their weapons and people fell.

Is it...

They have a surge of hope!

Did they break Levi Garrison's shield and could kill him?

But in the next second, they felt overwhelming coercion coming from all directions.

They were crushed one by one into patties on the spot.

It turned out that there was no shield, but the power of the shield was all pressed on them, covering them.

And the killers on the left and right just realized that they were exposed and wanted to avoid the time to escape.

Suddenly, these invisible walls composed of pure power burst open in front of Levi Garrison.

“Pfft!”

“Pfft!”

...

How can hundreds of killers withstand such coercion?

It exploded into a cloud of blood on the spot.

Hundreds of elite killers are all gone.

Even all kinds of hidden weapons were all smashed.

Invincible!

Simply invincible!

But this seems to have been a slow process.

In fact, it happened instantly.

And at this moment, Xu Zhetian drew his bow again.

This time, Li Zhuyue put all the remaining two bows and arrows on the Jiutian bow.

“Help me!!!”

Xu Zhetian was crazy.

A secret method was used to maximize the potential of the whole body.

The earth shakes.

The powerhouses of other town magicians and mysterious forces all transferred their skills to him.

At this moment, Xu Zhetian was really like a god.

The power he has now is several times that of before.

His body was almost unbearable, and his whole body began to crack, and bloodstains began to emerge.

After all, this time, two arrows have to be shot at once!

Soon, the Jiutian Bow was full to the full moon state.

The two arrows began to burst into flames, and the ground shook again, and the space collapsed and collapsed.

“kill!!!”

He growled.

“Whoosh!”

“Whoosh!”

The two arrows shot at Levi Garrison at the same time.

This is their last hope.

If it fails this time, they can't imagine it.

In order to contain Levi Garrison's attention.

Bai Xinghe and the other three arrogances, again holding the three artifacts of the town pavilion, attacked Levi Garrison.

They don't want to hurt Levi Garrison.

Just want to contain Levi Garrison.

The point is still the two arrows of the Nine Heavens Bow!

They are buying time for the two arrows.

Since they were close to Levi Garrison, they arrived in front of Levi Garrison first.

Demon Suppression Sword, God Weeping Knife, Emperor Spear.

The three town pavilion artifacts reappeared!

This is also the sword that the three of Bai Xinghe pushed their own skills to the extreme, and then launched a sword.

They vomited blood, and had blue veins all over their bodies, feeling like their bodies were about to explode at any time.

Is to burn the price of life to wield the strongest move.

That is, the game of perishing together!

After this move, they definitely won't be able to finish the second move.

There is simply no skill to urge the second move.

Therefore, this move is the last hope.
