

The Return of the God of War [The Protector] Chapter 3674 - 3675 - 3676

A terrible thought popped into his mind.

Could it be that Gong Qianqiu is really behind the scenes?

And I heard Master say that the strength of the person behind this is gradually improving!

Could it be Levilia's practice?

Only Levilia's practice can improve so fast in a short period of time!

All this is true!

She hurt herself on purpose, and then told him that this exercise went crazy!

Just in order not to let herself know, she wants to continue to practice this method...

She also stole the master's divine calamity...

Except for Xu Qingya who knew their base camp before, maybe Gong Qianqiu also knew.

Although she did not come forthright.

But you can track yourself.

With her strength at the time, it was no problem to follow him.

After she figured out everything about the base camp.

Deliberately told the information to the Xuanming Alien Race, and then stole the divine robbery...

Everything that follows, as long as it involves Gong Qianqiu, can be explained.

Very reasonable!

Xiao Feng thought and analyzed everything carefully, especially putting Gong Qianqiu into it.

All made sense!

This idea is completely established!

but.....

Xiao Feng, what are you doing?

How could it be Gong Qianqiu?

Xiao Feng thought that Gong Qianqiu was his own woman, and immediately became restless and irrational.

Even if the evidence is in front of him, he may not believe it.

What's more, it's just his own assumption now.

Qianqiu is definitely not such a person!

She is just a little woman!

How could it be possible to play Zhen Mo Si round and round?

In addition, even if Levilia's exercises are practiced, the speed of improvement is fast or fast, but it does not reach the point of threatening the master in a short time.

It can't be Gong Qianqiu's!

Xiao Feng, you are too human!

Not just one or two doubts!

You can't doubt her just because Qianqiu is yelling at you now...

She scolded me so much, should she be thinking of me?

Now is the critical moment.

Seeing Phoenix, he noticed himself.

Maybe the master is staring at him?

Or other people also see that their abnormality is coming!

If you forcibly contact Gong Qianqiu, in case your master finds out.

It's all over by then!

At that time, I was taking care of myself...

The bamboo basket is empty!

Qianqiu is afraid that this is why he is worried about this!

Xiao Feng thought of another good reason for Gong Qianqiu!

...

Levi Garrison has been staring at the West Pavilion all this time.

It was found that many people died in the West Pavilion.

He is looking for the contacts of these people.

There are also those people who are regarded as spies of the Tianshi Mansion by Shentianjian, and he also collects their information to see if there is any connection among them.

Now I'm slowly getting a head start.

It seems that these people are all pointing in one direction.

have no idea for now.

But Levi Garrison felt that it was too soon.

Just then.

Suddenly, there is a major message circulating in the town of ghost towns – the whereabouts of the Xuanming alien!

There are even messages circulating.

The Xuanming Alien Race is about to destroy the Zhen Mosi.

They are planning a terrifying plan.

Although nothing specific.

It's all a hoot.

But these rumors came to the Zhenmo Division and the Shentian Prison, and they exploded directly.

It was a sensation in the audience.

Even Dugu Tuo was taken aback.

Could it be that the Xuanming alien race was exposed?

Nope!

Xuanming aliens are all in the Shentian prison, no one knows!

Could this be information released by the opponent to deliberately disrupt?

“Check it out! Go and check all the information about the ghost city!”

Dugu Tuo immediately ordered.

But this investigation is about to fall into Gong Qianqiu's trap.

She won't let you find out right away, but gradually.

Let you check it little by little.

“Mr. Ye, there is news about the Xuanming alien race from the ghost market...”

The people from the North Pavilion told Levi Garrison for the first time.

“Go and find out, it is likely to be the opponent's smoke bomb!”

Levi Garrison's first thought was that someone deliberately released a message to divert their attention.

This trick again?

Haven't you already used it?

It's okay to deceive and deceive the gods and the idiots.

If you deceive yourself, you are still far behind!

After all, he has already made progress here.

If they don't take measures, they can really find out!

It is estimated that they also noticed that they were checking.

Afraid to use this trick to divert the target.

But all parties check.

It seems to be the case.

This is Gong Qianqiu's plan.

You won't be able to find it all at once.

But always find something.

Let people dig out a little bit.

Deliberately but not deliberately!

In fact, she was just procrastinating!

No problem found or not...

Just delay enough.

The key is that if you go on like this, you can really find the Xuanming alien race!

Levi Garrison will definitely take revenge!

Soon Zhenmosi and Beige both gained something.

"It seems that the Xuanming alien race is now lurking somewhere..."

"It seems to have something to do with the Town Demon Division!"

...

When the exact information was found out, Levi Garrison was a little shocked.

I actually found something.

If he can really find the Xuanming alien, Levi Garrison will definitely take his revenge first.

Destroy the Xuanming alien race!

But Levi Garrison seemed to understand something.

This force is too powerful.

Now, he actually regards the Xuanming alien as a chess piece, a tool to divert his attention.

He has to do it all round.

This force feels like it's still growing!

If you don't do it as soon as possible, this force will grow to the point of lawlessness.

It must be killed before it fully grows!

Xuanming alien feeling is secondary!

This is the most important!

But check it first, find out which one first kills that one!

...

Levi Garrison will definitely not check one alone, he will continue to check the West Pavilion.

Let Bei Ge and others go to investigate the Xuanming alien race.

In the prison of God.

Dugu Tuo with the first lady.

Dugu Tuo looked shocked: "What? Are there any clues? Are they all related to Zhen Mosi?"

"Yes, from the clues I have so far, it seems that it is really possible to know!"

The first lady also looked solemn.

Dugu Tuo frowned: "Impossible, no one knows about the Xuanming alien race in the Shentian Prison except you and me!"

This thing is top secret!

Although Xuanming aliens are in the Shentian prison.

But no one really knows except them...

It's as if they were in control!

Regarding the whereabouts of the Xuanming Alien Race, other than them, it is impossible for others to know.

And the Xuanming aliens were even more vigilant than them.

Plus they don't go out, no one else can know.

During this time, they have been in the prison of God.

No information was revealed at all.

Does anyone else know that?

Dugu Tuo has always been a little unbelievable!

The first lady was vigilant: "I always feel like something is going to happen! If something happens to the Xuanming aliens, we will be dealt with by the Suppressing Demon Division, and our plan will also fail!"

"Before the Xuanming aliens are exposed, we must completely control the Demon Suppression Division!"

"Well, that's it!"

A ruthlessness flashed in Dugu Tuo's eyes: "So our plan is ahead of schedule!"

"Regardless of whether the Tianshi Mansion is the enemy of the Town Demon Division, we will directly fight the Tianshi Mansion! Let the Town Demon Division and the Tianshi Mansion lose both!"

"When the time comes, the Xuanming aliens will dispatch with us again, and swallow the Zhenmosi and the Tianshifu in one fell swoop!"

The first lady also agreed: "Yes, it should be!"

"But do we want to notify Yufeng Tiansi? After all, his Tianyi Superintendent will be a big help!"

“If he comes, it will be much better to deal with the Tianshi Mansion, and it will also benefit our plan!”

Only Dugu Tuo shook his head: “No!”
