

# The Return of the God of War [The Protector] Chapter 3683– 3684

I have to say, Gong Qianqiu is too powerful.

Grasp Xiao Feng's psychology to the extreme.

With just one reply, Xiao Feng had such an earth-shaking change!

Xiao Feng returned to normal.

The next two goals-protect Gong Qianqiu, and then improve his strength.

When he heard that Xuanming aliens appeared, he wanted to take revenge.

Become the Xiao Feng that everyone imagines.

Seeing Xiao Feng returning to normal, Zoey Lopez nodded in relief.

I sigh that Xiao Feng's adjustment ability is still good!

This shows that his persuasion has worked.

She thought it was her fault.

Phoenix felt a little strange, but Xiao Feng's recovery was a good thing after all.

It would be great to get out!

Everything is going as Gong Qianqiu expected.

The conflict between Zhen Mosi and Tianshi Mansion is also getting bigger and bigger.

Dugu Tuo directly placed the disappearance of the top ten Tianjiao in Wufang Pavilion on the head of Tianshifu.

It is said that Tianshifu carefully planned to destroy the future of Zhenmosi.

This made the town magic division full of indignation.

Angry to the point of madness!

In order to deepen this hatred, Dugu Tuo once again used tricks.

Deliberately sent three of the eight arrogances of Shentianjian out to perform tasks, and then killed them directly and put the blame on the Tianshifu.

In this way, the entire town Demon Division's anger towards Tianshi Mansion reached a peak.

At the same time, Dugu Tuo also kept confidential information, these things must not be known to the Tianyi Supervisor.

Everyone in the Tianyi Supervisor has been refining the medicine, and no one has gone to tell Yufeng Tiansi.

Of course, he wouldn't even know that Yufeng Tiansi had long since disappeared.

The Tianshi Mansion was also frequently harassed, and many people were killed.

They were also angry.

Not to mention being wronged, the death is so serious.

They also began to fight back accordingly.

The conflict is getting bigger and bigger.

A shocking battle is about to break out.

The ultimate collision of martial arts and magic is coming.

And Gong Qianqiu also acted.

Will reach the super spiritual vein under the Antarctic glacier.

This will be the dividing line she believes!

Once she swallows the super spiritual vein, then her strength will reach the point of competing with Levi Garrison!

Only success, not failure!

under her plan.

The information about the Xuanming alien race in the ghost city was almost exposed.

Even this attracted Levi Garrison to personally go to the ghost city to check the information, and temporarily put aside the inquiry about the West Pavilion.

After all, Xuanming aliens are about to appear.

Under the pressure of Dugu Tuo and the invisible palace Qianqiu, Zhen Mosi finally launched a violent attack on Tianshifu.

A war between the two sides is imminent.

It seems that all forces are busy.

No one noticed Gong Qianqiu at all...

Master Bone also promised that he would be ready to devote himself to attracting the attention of Levi Garrison and others if the situation arises.

Get double insurance!

This made Gong Qianqiu very satisfied.

Do not!

She actually has a big insurance!

She has hired all the killer organizations such as Ten Temple Yama, Seven Kills, and Hongye.

Once she gets her order, all the killers will attack Levi Garrison base camp.

This time she even knew about the underground base.

This is thanks to Xiao Feng.

Once these three insurances are turned on, no one will disturb her.

She will devour the super spiritual veins and become someone who can truly fight against Levi Garrison!

She will no longer be afraid of Levi Garrison at all!

“Master Bone is the last time, as long as I hold on, I will not be afraid of anyone!”

Gong Qianqiu has been looking forward to it very much.

This will be the turning point of her fate.

“The fight is on! The Town Demon Division and the one at the forefront of the Tianshi Mansion have already fought... The war will continue to spread...”

Finally the battle begins...

Gong Qianqiu didn't talk nonsense, and rushed directly to the super spiritual vein under the Antarctic glacier.

Feel the majestic aura remaining in the spiritual veins.

Gong Qianqiu smiled: “Just right for me! I swallowed it all, enough to make me take off!”
