

The Return of the God of War [The Protector] Chapter 3804

A group of the Ten Great Talents, a group of three of Xu Qingya, and a group of Yufeng Tiansi himself.

Dark as ink.

A figure was running through the forest at high speed.

There are several black figures chasing after them, but because of the difference in strength, the distance between the two sides is getting farther and farther.

It is Yufeng Tiansi who is at the forefront of this exhausted life.

He was the one with the strongest recovery in the underground cell.

It is precisely because of this that Yufeng Tiansi decided to go alone, in order not to be implicated by others.

But he had just escaped from the corpse pit when he was discovered by the members of the Qianqiu Sect, and he followed closely.

Yufeng Tiansi naturally thought about cutting off these "tails" before escaping.

However, after two attempts, Yufeng Tiansi was shocked to discover that the members of the Qianqiu Sect were killing more and more members.

Obviously, the other party has received the relevant information and is conducting an all-round search for escaping personnel.

With this judgment, Yufeng Tiansi no longer entangled too much with the killing blade.

"These guys are really tough."

Yufeng Tiansi was a little depressed.

The members of the Qianqiu Sect who are chasing after him are not very strong in combat.

However, the movement is peculiar and the speed of movement is extremely fast, and the general will actually follow in the footsteps of Yufeng Tiansi.

Yufeng Tiansi quickly probed the surrounding aura, but found no suspicious powerhouse traces.

Immediately stopped.

“If you guys continue to follow, don’t blame Ben Tiansi for being ruthless.”

Yufeng Tiansi warned with a cold face.

“I advise you to go back with us! Otherwise, kill me.”

The leader of the chasing soldiers said solemnly.

“court death!”

Yufeng Tiansi shot directly.

However, what made him depressed was that the pursuer didn’t fight back at all, and he turned around and ran without any hesitation.

But Yufeng Tiansi had just finished recruiting and was about to leave, when the killer behind him followed.

Always maintain a safe distance.

“hateful!”

In the face of the dog-skin plaster-like pursuers, even Yufeng Tiansi was a little helpless.

The key is that as long as you make up your mind to kill these people, you will inevitably be lured into the enemy.

At that time, he will be surrounded by heavy siege.

Not worth the loss.

Yufeng Tiansi had to keep changing his position, trying to increase the distance between the two sides as much as possible.

The direction he rushed towards was the Town Demon Division.

After running for a long time, Yufeng Tiansi's physical strength was extremely exhausted.

Especially the mental exhaustion made him feel a little exhausted.

But fortunately, with his superhuman strength, he didn't suffer any substantial injuries.

In contrast, the top ten talents are not so lucky.

Their roots were completely lost, and they were able to regain some of their strength, which was completely stimulated by the medicinal power of Yufengtiansi's medicinal herbs.

This is equivalent to a non-renewable resource, and every time a part is consumed, it will continue to decrease.

Of course, the top ten geniuses possessed various profound exercises, but the true qi cultivated in a short period of time simply could not make ends meet.

Therefore, in the process of fleeing, almost everyone of the top ten Tianjiao was injured, and they looked embarrassed.

As for Xu Qingya and the others, they did not choose to return to the Town Demon Division, but rushed directly to Levi Garrison's base camp.

This is also Xu Qingya's idea. In her opinion, only Levi Garrison can fight Gong Qianqiu head-on.

Because of this, the three of them escaped very smoothly at first.

It didn't even encounter too many Qianqiu members chased and killed.

It was not until the final stage that they encountered the Qianqiu Sect killer who was guarding the outskirts of Levi Garrison's base camp.

the other side.

Yufeng Tiansi and the top ten Tianjiao tried their best.

Finally, it was divided into two directions and came to the outskirts of the Town Demon Division Base Camp.

However, just after they returned to the interior of the town magic department, they found that the far end was a little brighter.

Countless figures criss-crossed, and even Yufeng Tiansi felt a tingling in his scalp.

“Oops, Gong Qianqiu has deployed a heavy army outside the town magic department.”

Yufeng Tiansi and the top ten Tianjiao sank to the bottom of the valley.

The Return of the God of War [The Protector] Chapter 3805

Countless thousands of church members are searching for carpets.

Yufeng Tiansi and the top ten Tianjiao suddenly felt ashes.

Not to mention their current state, even in their heyday, I am afraid there is no way to make a bloody way back to the Town Demon Division.

In particular, the physical strength of the top ten Tianjiao has almost reached its limit.

They didn't know how to call for help.

Moreover, looking at this situation, Zhen Mosi is also a stance that cannot be maintained.

Obviously, the momentum of Qianqiu Sect has completely deterred the Zhenmo Division.

Even if Yufeng Tiansi is about to despair, once Zhen Mosi is suppressed.

So even if you go back to the Demon Suppression Division yourself, it will only speed up the demise of the Demon Suppressing Division.

There are interceptions in front, and chasing soldiers behind.

Yufeng Tiansi and the top ten Tianjiao had no choice but to find other routes to escape.

It's just that their hearts at the moment are almost desperate.

As for Xu Qingya and others, they were quite lucky, and they simply gave up on returning to the town magic department.

They rushed directly to Levi Garrison's base camp, but the resistance they encountered was not very great.

Levi Garrison also became the last-minute life-saving straw in their minds.

At the same time, Levi Garrison also got the message.

"It's really God who helped me that the important criminals held by Qianqiu Jiao escaped!"

Levi Garrison was hesitating when to use the power of medicinal veins.

Knowing that the Qianqiu Cultists were gathering near the base camp, Levi Garrison almost rushed back to sit in town to avoid problems.

But after waiting for a long time to get the information again, Qianqiu Sect did not have an offensive attitude at all, but was fortifying within the range.

For a while, he couldn't figure out the real purpose of Qianqiu Sect, and Levi Garrison didn't dare to easily extract the power of medicine veins.

After all, once the body is quenched, it will take a certain amount of time to devote yourself to it.

At that time, if there is any problem in the base camp, Levi Garrison will not be able to support it in time.

Now that I have received the news that the mysterious female sect leader is using the power of the whole church to arrest criminals, she has no time to care.

"I'm going to quench my body now, and I can just hide it from people's eyes and ears."

Levi Garrison said excitedly.

Yan Zangsheng nodded and said, "You can improve your strength with peace of mind, I will protect the law for you."

Then Levi Garrison rushed to the location of Yaomai.

A seemingly ordinary spiritual vein appeared in front of him.

Compared with the two super spiritual veins of the Eternal Kingdom and the Atlantis plan, the appearance of the medicine vein is too mediocre.

The appearance is far from that of the two super spiritual veins.

If the super spiritual vein of the eternal kingdom is the majestic Huashan, then the medicine vein is at most a small hill.

However, even the seemingly mediocre medicinal veins on the outside contain extremely terrifying power.

"The power of spiritual energy contained in it alone is no less than those two super spiritual veins!"

At the moment when Levi Garrison broke the outer energy defense of the medicine vein, an incomparably powerful energy burst out from the medicine vein.

"Wow!"

Just as Levi Garrison had been quenching his body, a sound similar to that of a dragon came.

Even Levi Garrison was shocked and his eardrums hurt, and even his mind was in a trance for a moment.

"What a strong resistance!"

Levi Garrison was a little surprised.

Under normal circumstances, a spiritual vein is destroyed by external force and absorbed by people.

Their most "resistance" point is the rapid overflow of spiritual power.

But the medicine pulse in front of him seemed to have its own wisdom, and it even combined the power of the medicine pulse to fight against him.

As if unwilling to be used by its own energy.

“Is this the medicine dragon in Yan Zangsheng’s mouth? It’s interesting!”

Levi Garrison laughed instead of being angry. The more independent he was, the more beneficial this medicine vein would be to him.

“In front of Lao Tzu, even if you are a dragon, you have to hold it.”

Levi Garrison released the power in his body, and the violent energy coercion covered the spiritual veins like an overwhelming force.

“Wow!”

“Wow!”

The dragon roar in the depths of the medicine veins screamed in resistance from the very beginning.

In the end, it turned into a whisper of surrender to Levi Garrison’s divine might.

The Return of the God of War [The Protector] Chapter 3806

I feel that the power of the medicine pulse has no resistance at this moment.

The corners of Levi Garrison’s mouth rose slightly, finally subduing the wise medicine dragon.

Next, you can use the power of medicinal veins with confidence and boldness.

Levi Garrison runs the basic exercises, forming a powerful energy opportunity, constantly absorbing the power of medicine veins to wash the body and meridians.

“what?”

After a period of body quenching, Levi Garrison suddenly discovered what was special about this medicine vein.

The energy contained in the medicine vein is milder than that of the other two super spirit veins.

But it has a nourishing effect on the human body, the meridians, and even the spirit.

Although Levi Garrison's basic training method is different from Gong Qianqiu's forcibly swallowing energy.

But in the end, the external spiritual qi is used for one's own use, which will burden the meridians and the body to a certain extent.

However, after being nourished by the medicinal veins, all these energy burdens disappeared.

In particular, it also strengthened Levi Garrison's spiritual power to some extent.

"After using the power of medicine veins, my perception energy will be improved to a higher level."

Levi Garrison said to himself with a smile.

at the same time.

Phoenix and others are still tracking Gong Qianqiu's evidence and information.

The whole staff of Qianqiu was dispatched to search for the important person and there was a lot of commotion.

Especially when Phoenix and the others got the gossip, there were four Xu Qingya and the top ten talents among the fugitives.

"They didn't even die?"

"And also being detained by Qianqiu Jiao at the same time?"

Phoenix and the others were shocked.

You must know that the top ten Tianjiao brought the Wufangge Zhenge artifact to besiege Levi Garrison and disappeared without a trace after he was abused.

It is precisely because of this that the conflict between Levi Garrison and Zhen Mosi has been thoroughly provoked.

Later, it was clarified that Levi Garrison let go of the top ten talents, but Xu Qingya and others were blamed.

Now that they have escaped from Qianqiu Sect at the same time, they must have learned a lot of inside information of Qianqiu Sect.

Otherwise, the Qianqiu Sect would not use the entire sect to hunt down and kill.

“We must find Xu Qingya and the others. Perhaps the key to unlocking the secret of the mysterious female leader is these people.”

Phoenix said solemnly.

Azure Dragon (Qinglong) and others strongly agreed, and they used all their strength to find it.

Coaxing out such a big movement naturally also alarmed Xiao Feng.

Although during this time he has been madly swallowing and improving his strength.

But Xiao Feng also sent people to keep an eye on the movements of the people around him.

Especially for Phoenix and the others, that’s a lot of attention.

After all, Phoenix and others have been working to find the traces and clues of Gong Qianqiu.

“Xu Qingya and the top ten talents are not dead?”

Xiao Feng was also quite shocked, after all, it was rumored that Xu Qingya killed the top ten talents to obtain the treasure.

In addition, Xu Qingya was imprisoned in the top-secret dungeon of Qianqiu Sect, so she must know many secrets of Qianqiu Sect.

Maybe even know the identity of the leader of Qianqiu Sect.

“If you find them and ask the truth, then Qianqiu’s suspicion will be completely cleared.”

Xiao Feng was immediately excited.

Isn’t the reason why he worked so hard to cultivate and improve to have more voice and bring Gong Qianqiu back?

If Gong Qianqiu’s suspicions are cleared again, even Master Levi Garrison will not continue to prevent them from dating.

“Even if Xu Qingya and the top ten talents flee, they are most likely to return to the Town Demon Division.”

“Of course Xu Qingya can also come to find Master.”

“So as long as you search outward with these two locations as the center, you will surely gain something.”

Without involving Gong Qianqiu, Xiao Feng’s mind reacted very quickly.

So the Xiao Feng faction’s confidants expanded around the base camp to find the traces of Xu Qingya and others.

And he himself went to the Town Demon Division to find it.

In Xiao Feng’s opinion, the relationship between the top ten talents and the master is not that good, and the possibility of returning to the town of magic is very high.

Besides, the top ten arrogances have a large number of people and a large target, so it is relatively easy to search.

“The top ten talents, you must stand firm, it is up to you to clear the suspicion for Qianqiu.”

Xiao Feng’s figure flashed and quickly disappeared into the night.
