

The Return of the God of War [The Protector] Chapter 3816

Good news from the Brain of God, dear brother.

Since the last separation, God's Brain has been staying in War Bear Country to do his own research.

In the process of research, God's Brain discovered a sealed super spiritual vein in the Siberian Plain of War Bear Country.

"That's great, God helped me!"

Levi Garrison was overjoyed, so he could increase his strength again.

After returning to the base camp, someone reported the recently obtained information to Levi Garrison.

Advertisement

"Now that Yufeng Tiansi has not been caught, Qianqiu's energy is completely entangled in this matter."

"Just in time to push the boat, seize this opportunity and continue to use the super spiritual veins to improve strength."

After making up his mind, Levi Garrison directly asked people to release the message.

The entire base camp and the affiliated forces under Levi Garrison did their best to rescue Yufeng Tiansi.

Advertisement

As soon as the news came out, all parties were shocked.

Mass grave.

Qianqiu Church General Altar.

“What? Levi Garrison actually sent people to rescue Yufeng Tiansi?”

Gong Qianqiu frowned, and suddenly felt the pressure doubled.

Now the strength of the various factions of the Town Demon Division are all shrunk in the base camp and dare not move out.

According to the normal situation, as long as the comprehensive investigation continues, Gong Qianqiu is confident to catch Yufeng Tiansi in the near future.

But now Levi Garrison stepped in, which was beyond her expectations.

You must know that Levi Garrison’s forces are intricate.

Advertisement

And compared to Zhen Mosi, Gong Qianqiu did not penetrate deeply.

Therefore, Gong Qianqiu cannot fully grasp the specific trends of many Levi Garrison’s affiliated forces.

This also made it more difficult for her to prevent Levi Garrison’s bad things.

Once Yufeng Tiansi is rescued by Levi Garrison’s people, the effect is equivalent to that of Zhen Mosi.

When Tiansi returns, the two forces will inevitably join forces.

In that case, neither Qianqiu Jiao nor herself will face enormous pressure, and even her life will be in danger.

“This sect master will never allow such a thing to happen.”

Gong Qianqiu clenched his fists tightly, and then went off to find Yufeng Tiansi in person.

However, Gong Qianqiu didn’t know that all this was a smoke bomb released by Levi Garrison.

Just when Qianqiu Jiao and Gong Qianqiu were in full swing to hunt down Yufeng Tiansi.

Levi Garrison once again took Wen Lei and the three secretly to leave the base camp, and rushed directly to Zhanxiong Country to find the Brain of God.

The brain of God brought several people directly to the super spiritual vein.

"This super spiritual vein was discovered by my new type of detector, but it was blocked by some super power."

"According to my analysis, this should be to avoid the leakage of aura or being discovered by others."

God's brain said solemnly.

Levi Garrison raised his eyebrows and asked, "Do you mean that being blocked was caused by humans?"

"That's right, it's hard to imagine what kind of super powerhouse it would be if such a terrifying super spiritual vein was completely sealed off?"

God's Brain's tone was also full of shock.

Levi Garrison didn't hesitate any longer, and directly released his strength to investigate.

The violent power spread rapidly, and soon came into contact with the energy layer that sealed the super spiritual vein.

Boom boom boom!

After several consecutive collisions, the power released by Levi Garrison was completely resisted.

The ground around the entire super-spiritual vein trembled violently.

"It's so strong?"

Levi Garrison's face was also a little solemn.

Although the power he released just now was only 20% to 30%, this is the effect of his continuous improvement of three super spiritual veins.

It is basically equivalent to the full blow before his body quenching.

Was it shattered by the sealing force?

The key is to not cause any substantial damage to the seal layer?

What kind of powerhouse, or what kind of terrifying strength, can release such an energy seal layer?

Is there still such an unknown peak powerhouse in the world?

“How? Is there a way to break the seal of power?” The Brain of God asked in a deep voice.

The corner of Levi Garrison’s mouth rose slightly and smiled, “You stay away, and watch Lao Tzu smash it with one punch.”

The Return of the God of War [The Protector] Chapter 3817

Levi Garrison gathered his strength and slammed a punch at the sealed energy shield of the super spiritual vein.

This time, Levi Garrison didn’t hold back at all.

The powerful force collided, and the surrounding earth trembled violently.

Clap clap!

The sealing energy shield is spreading cracks around at a speed visible to the naked eye.

After a while, it shattered completely.

Advertisement

The turbulent and rich spiritual energy rushed to the face.

“Okay, don’t waste time, hurry up and quench your body!”

Levi Garrison clapped his hands and said to the three of Wen Lei.

“This spiritual vein is probably stronger than the Atlantis submarine plan!”

Advertisement

Wen Lei said with emotion.

Levi Garrison also discovered that the spiritual vein in front of him was red, like blood.

The richness of the spiritual energy is much higher than the super spiritual vein of the submarine plan.

“So don’t let it down, hurry up and cultivate.”

Levi Garrison urged.

Due to the previous inference, Levi Garrison was worried that the leakage of spiritual energy here would attract the attention of those who released the power of the seal.

The three of Wen Lei nodded and quickly ran the basic exercises to quench their bodies.

Levi Garrison also sat cross-legged, and the speed of the basic exercises was much faster than Wen Lei’s three.

The scarlet aura quickly poured into Levi Garrison’s body at a speed visible to the naked eye.

Advertisement

Constantly tempering his body, washing his meridians.

The Brain of God is responsible for protecting the law at the periphery to prevent the enemy from approaching and disturbing Levi Garrison and others’ cultivation.

the other side.

Ever since Levi Garrison issued an order to find and rescue Yufengtiansi.

Xiao Feng immediately went all out to track down the whereabouts of Yufeng Tiansi.

He did this for only one purpose: to clear Gong Qianqiu from suspicion.

In Xiao Feng’s opinion, Yufeng Tiansi is different from Xu Qingya and others.

After all, with Yufengtiansi’s identity and strength, he would certainly not ignore the facts and make random accusations.

However, just when Xiao Feng was looking for Yufeng Tiansi almost frantically, he suddenly received a message from Gong Qianqiu.

“Xiao Feng, the situation is urgent, let’s meet at the old place.”

Gong Qianqiu's tone expressed urgency.

This made Xiao Feng want to fly to Gong Qianqiu with his wings and wings to ask what the situation was.

When he came to the appointed place, Gong Qianqiu not only had a soft tone, but even his eyes were a little more intimate and dependent.

This makes Xiao Feng feel very useful. When he thinks that his status in Gong Qianqiu's heart is getting more and more important, Xiao Feng is very happy.

"Qianqiu, you are so anxious to find me, what happened?"

Xiao Feng asked with concern.

Gong Qianqiu said solemnly: "Because of the coercion of Qianqiu Sect, Shen Tianjian appointed the major factions to find Yufeng Tiansi separately."

"Because I am outside the encirclement of Qianqiu Sect, this task also falls on my head."

"But there are so many masters in Qianqiu's teaching, it's really difficult for me to deal with it, Xiao Feng, I need your help very much this time."

"It's just that this action is dangerous. If you... I won't blame you."

Looking at Gong Qianqiu's desolate appearance, Xiao Feng felt pity and agreed without any hesitation.

"Qianqiu, what are you talking about? You are my woman, no matter how dangerous it is?"

"What's more, my strength has not been what it used to be. Even if I encounter that Duguxiao, I am sure to defeat it."

"Don't worry, as long as there is news from Yufeng Tiansi, I will notify you as soon as possible."

Xiao Feng is full of confidence. During this period of time, he has been devouring, and his cultivation realm has indeed improved a level.

"Xiao Feng, I really didn't see anyone wrong."

Gong Qianqiu's eyes were full of peach blossoms, and he said affectionately: "At this critical moment, you really are the most reliable."

This remark made Xiao Feng elated again.

I will remember that before, Gong Qianqiu was alienated and contacted, and even had a cold attitude.

Xiao Feng also felt that his liver and intestines were broken because of this.

Now that the situation has changed greatly, he has finally become Gong Qianqiu's support.

The Return of the God of War [The Protector] Chapter 3818

Qianqiu, don't worry, as long as you find Yufeng Tiansi, you can clear your suspicions."

"At that time, I will take you to the base camp and let everyone know our true relationship, and no one will make irresponsible remarks."

Xiao Feng said with great pride.

Gong Qianqiu only felt nausea.

How dare you say such a thing just because you rubbish?

But due to the current situation, Gong Qianqiu can only bite the bullet and continue to say things against his heart.

Advertisement

"Xiao Feng, I also look forward to this day coming as soon as possible."

Gong Qianqiu's face was full of hope, and he continued: "I've had enough of being misunderstood."

Xiao Feng said very seriously: "Qianqiu, other people misunderstand you, that's their clumsy eyes."

"I believe you are innocent from the beginning to the end. This time, as long as I find Yufeng Tiansi, everything will be revealed."

Advertisement

"If anyone dares to slander you at that time, I will directly kill you."

"I feel at ease with your words."

Gong Qianqiu paused, and suddenly asked: "Xiao Feng, if after clarifying, your master still has prejudice against me?"

"Don't you dare to risk the world and kill your teacher?"

"This....."

Xiao Feng was stunned for a moment, but at that moment, he actually had an inexplicable killing intent.

This thought shocked Xiao Feng.

"Just kidding! Do you really think I'm being so unreasonable?"

Gong Qianqiu said with a smile.

Advertisement

Although there was no abnormality on the surface, Gong Qianqiu clearly felt the murderous aura of Xiao Feng just now.

"It seems that the previous plan of this sect leader is not so far away!"

"In the future, as long as you find an opportunity to deliberately guide him, Xiao Feng may really be able to play an unexpected role."

Thinking of this, Gong Qianqiu's eyes towards Xiao Feng became more earnest.

"Qianqiu, you scared me to death." Xiao Feng let out a long breath.

It's just that the evil thoughts in my heart seem to have a tendency to erupt.

Xiao Feng even thought that if there was such a day, he might really dare to turn against Levi Garrison.

Of course, the premise is that Levi Garrison still slandered Gong Qianqiu in the face of solid evidence.

"Okay, time is running out, I have to hurry up and find Yufeng Tiansi."

"The longer you delay, the more dangerous Yufeng Tiansi will be."

"Xiao Feng, we will contact you in time. Once there is news from Yufeng Tiansi, don't act rashly. Qianqiu Cult is very powerful."

Gong Qianqiu continued to say affectionately: "I'm worried that you will be in danger, and Yufeng Tiansi's personality quirks are not easy to deal with."

"If you really want to make him unhappy, you will inevitably do some weird and outrageous things."

"Don't worry, I'll let you know as soon as possible."

For Gong Qianqiu's concern, Xiao Feng was very useful.

However, how did he know that in the last few words, Gong Qianqiu was already laying the groundwork.

If Xiao Feng really met Yufeng Tiansi first, once Yufeng Tiansi said that Gong Qianqiu was the leader of Qianqiu Cult.

Xiao Feng was limited by his preconceived ideas, and he first thought that this might be Yufeng Tiansi's "weird and outrageous" move.

"Well, be careful with everything, I have to go on a mission." Gong Qianqiu turned and left.

Looking at Gong Qianqiu's slender back, Xiao Feng's eyes were full of infatuation.

I just think of myself from being left out at first, to now being entrusted with important tasks by Gong Qianqiu.

Xiao Feng will feel very happy.

"This is what great strength brings. It seems that I will practice harder in the future."

"Only in this way can Qianqiu gain greater trust and recognition."

"In front of the base camp and even the master, you will have more right to speak."

At this moment, Xiao Feng seemed to have entered a state of being ecstatic.

He now desperately wants to improve his strength, even devouring the power of the strong.

As long as you can improve, you can do whatever it takes.

The Return of the God of War [The Protector] Chapter 3819

God of Heaven.

Just as all parties are looking for Yufeng Tiansi in full swing.

They received a message from Tiansi again.

Tian Si will be back in two days.

At the same time, it also revealed some information about the great power that followed.

One of them is the elder of the Qiongcang faction joined by Tiansi, and his strength has reached the realm of perfection.

Advertisement

Even if the three Heavenly Divisions of the Shentianjian joined forces at the beginning, they may not have reached one-tenth of the elder's peak strength.

Even now Tiansi has been practicing in the legendary world for so many years, he still can't last ten rounds under the elders.

This time I came here mainly to follow the young master of the Qiongcang faction to experience the world and cultivate the state of mind.

By the way, help solve the predicament of Zhen Mosi.

Advertisement

"The three major heavenly divisions are not as good as one-tenth of the almighty, isn't this too scary?"

"Even before searching for the legendary world, Tiansi's strength is invincible in time."

"It turns out that the legendary world is called Kunlun Xu! Listening to this name is full of fairy spirit."

“Don’t forget that there is also a young master from the Qiongcang faction. I’m afraid there are other elders coming together this time!”

“With so many great powers in charge, Levi Garrison and Qianqiu Sect are all ants!”

The Town Demon Division cheered and cheered.

It seemed that even breathing became more comfortable.

This message soon spread to Qianqiu Sect.

Mass grave.

Advertisement

Inside the Qianqiu Church General Altar.

Yufeng Tiansi hasn’t caught it yet, and now I hear that Tiansi will return with the great power in two days.

This doubled the pressure on Gong Qianqiu, and the already depressed mood worsened.

“Continue to intensify the search, and we must not allow Yufengtiansi to return to the Town Demon Division.”

“Kill on the spot if necessary!”

Gong Qianqiu almost roared.

“As ordered!”

The Qianqiu Sect members responded with trembling.

The anger in Gong Qianqiu’s heart has not disappeared, and he went directly to the dungeon.

In the dungeon, the top ten Tianjiao and Xu Qingya were nailed to the wooden frame.

The specially made chains passed through the bones of their limbs, and it was extremely painful just to hang them up.

Coupled with the continuous torture in recent days, everyone was dying.

However, Gong Qianqiu just didn't kill them, and even hung his last breath with medicinal pills.

"Gong Qianqiu, you hurry... hurry up and kill me!"

Xu Qingya's voice was hoarse and weak.

"Hurry up and give me a good time!"

"Aren't you amazing? Give me a slap in the head!"

...

Others are begging for death in various ways.

"Shut up for me!"

Gong Qianqiu was already upset, and when he was provoked by this group of people, he was even more angry.

"Want to die? It's not that easy!"

Gong Qianqiu took out a steel whip, which was stained with the medicinal liquid she specially prepared, which can double the pain and stimulate the nerves.

"Hurry up and tell me the whereabouts of Yufeng Tiansi!"

Snapped!

"Let you stare and make your eyes bigger?"

clap clap!

"A bunch of damn rubbish, this sect master makes your life worse than death."

clap clap clap!

As Gong Qianqiu waved the steel whip, the screams in the dungeon came one after another.

Soon the top ten geniuses passed out.

"Drink this and you'll continue to enjoy the whipping awake."

Gong Qianqiu ordered people to pour the prepared medicinal liquid into the mouths of several people.

It didn't take long for the top ten Tianjiao to wake up again.

“Gong Qianqiu, even if I know the whereabouts of Yufeng Tiansi, I won’t tell you.”

Xu Qingya screamed as she endured the pain in her heart.

“I hope your mouth will be so hard after a while.”

Gong Qianqiu took out a dagger and slashed several consecutive lines on Xu Qingya’s face.

Then some poison powder was sprinkled on the wound.

Chi Chi Chi!

After the powder came into contact with the skin, it actually had a corrosive effect, and soon a piece of flesh turned charred black.

Even faintly exposed bones.

“what!”

Xu Qingya passed out in pain.

“Keep your mouth shut!”

Gong Qianqiu said with a sneer.

Immediately use all means to continue to torture others.

The Return of the God of War [The Protector] Chapter 3820

in the jungle.

Inside a hidden cave.

Yufeng Tiansi ate wild fruits to satisfy his hunger.

After all, it is the use of magic medicine to restore the cultivation base, and there is nothing as solid as real cultivation.

In addition, fighting and escaping for several days in a row was really exhausting.

However, just yesterday, Yufeng Tiansi learned from the members of the Qianqiu Sect that Levi Garrison also dispatched all the forces under his command to rescue him.

Advertisement

This news made Yufeng Tiansi excited.

In the past, he could only rush to the Town Demon Division, but now he can turn to Levi Garrison's base camp.

Even in comparison, Levi Garrison's side is safer.

"The effect of Levi Garrison's horizontal insertion is really good. Qianqiu's search is obviously not as windy and rainy as before."

Advertisement

Yufeng Tiansi observed the surrounding environment, and then quickly rushed to Levi Garrison's base camp.

Along the way, I encountered several waves of obstacles, but the strength of those Qianqiu Cultists was average.

He was abruptly killed by Yufeng Tiansi, and then ran all the way.

About two hours later.

"It's here."

Yufeng Tiansi looked at the building complex in the distance, which was Levi Garrison's base camp.

"Who?"

Before Yufeng Tiansi's breath was completely released, he suddenly felt that someone was watching him secretly.

"Are you Yufeng Tiansi?"

Advertisement

As soon as the voice fell, Xiao Feng walked out of the darkness.

“Don’t be nervous, I’m Xiao Feng, Levi Garrison’s apprentice, you must have heard of it.”

Seeing that Yufeng Tiansi was about to start, Xiao Feng quickly explained.

Since meeting with Gong Qianqiu, Xiao Feng has been searching for the carpet around the base camp.

I never thought that during the power exploration tonight, I accidentally discovered an unfamiliar and powerful aura.

So Xiao Feng came quickly, not thinking that he actually met the righteous master.

“It turned out to be Mr. Ye’s beloved disciple, and I’ve heard of it for a long time.”

Yufeng Tiansi breathed a sigh of relief and said with a smile, “It’s Yufeng Tiansi, please lead me back to your base camp!”

Yufeng Tiansi was in a particularly comfortable mood, he never thought that he would meet Levi Garrison’s first disciple.

In this way, entering the base camp will save a lot of trouble, and even meet Levi Garrison or his closest people directly.

You are completely safe.

Thinking of this, Yufeng Tiansi smiled even more.

“I need to report first. Yufeng Tiansi must also know that this is a special period, and everything must be done with caution.”

“Presumably Yufeng Tiansi is not in a hurry at this time.”

Xiao Feng said in a deep voice.

Yufeng Tiansi nodded, expressing understanding.

After all, Qianqiu’s sect is very powerful now, and Levi Garrison’s relatives and friends are all in the base camp. It is indeed logical for them to report first.

Otherwise, everyone can travel unimpeded, so what is the use of this layer of defense?

However, what Yufeng Tiansi didn’t know, Xiao Feng first told Gong Qianqiu the information.

Then, Levilia, Phoenix, Levi Garrison and others were notified to come and respond.

Xiao Feng even felt that he had done nothing wrong this time.

Otherwise, if you encounter Qianqiu's masters on the way, you can't handle it yourself, and if there is any deviation, isn't it a failure?

"Yufeng Tiansi, don't look at the road to the base camp is not far, but recently Qianqiu Cult masters are dense, we still wait for the response and then go back."

Xiao Feng said with a serious face: "I have already asked the masters from the base camp to come and respond, let's hide for now!"

"As expected of Mr. Ye's beloved disciple, I admire him for being so rigorous and careful!"

Yufeng Tiansi complimented a few words.

Of course, in his heart, he really thinks it's good to do this, so as to avoid encountering Qianqiu's masters.

Soon the two found a place to hide.

During this period, Xiao Feng forcibly resisted the urge to ask Yufeng Tiansi Qianqiu's secret several times.

I thought that it would not be too late to ask until Levilia and others arrived, and to clarify Gong Qianqiu's suspicion in public.

at the same time.

After Gong Qianqiu received the message, he immediately notified the many Qianqiu masters who were ambushed at Levi Garrison's base camp.
