

The Return of the God of War [The Protector] Chapter 3901

base camp.

A secluded place.

Xiao Feng sat slumped on the ground, his eyes were empty, as if he was a body without a soul.

During this period, Levi Garrison also came to investigate, and personally helped him to remove the evil spirit, but at that time, neither teacher nor apprentice spoke.

Xiao Feng felt shameless, and Levi Garrison was speechless.

More precisely, for the time being, he has not considered how to deal with Xiao Feng.

Although the assassination of Xiao Feng was under the control of the inner demon, many of the previous incidents were done by Xiao Feng in a sober state.

Moreover, many people have tried their best to persuade them, but with little success, Xiao Feng even attacked each other with malicious words.

This is all Xiao Feng's fault, so there is no escaping the responsibility that he should bear.

Xiao Feng could naturally feel the change in Levi Garrison's attitude, but at the moment he didn't have the slightest resentment in his heart.

Levi Garrison didn't take his life, so it was beyond Xiao Feng's expectations, but it was more torturous to live like this.

Xiao Feng sighed again, recalling that scene, his regret couldn't be added in an instant.

"Gong Qianqiu is not a good woman, you'd better stay away, or she will kill her sooner or later."

"Gong Qianqiu has entanglements with many men, Xiao Feng, hurry up and sober up!"

"With such a high vision of Gong Qianqiu, how could it be possible to see you?"

At first, the words of Xu Qingya and others echoed in his ears, but Xiao Feng still said aggressively that they were sowing discord.

Looking back now, it was precisely because she was with the Demon Suppression Division that Xu Qingya had a deep understanding of Gong Qianqiu, and everything was said by them.

"Phoenix Azure Dragon (Qinglong), they should also hate me very much, right?"

Xiao Feng muttered to himself.

It was precisely because he inadvertently leaked the location of Phoenix and others that they were captured by Duguxiao and dug up their roots.

Can you imagine how cruel this act is, and how unbearable the process must be?

So for a long time, Phoenix and others were in the shadow of being abused.

However, it was all his own fault.

"And then the base camp was hit hard by Duguxiao. In the final analysis, it was because I disclosed Levilia's practice to Gong Qianqiu."

"I was so fascinated by her back then that I couldn't even see through such a simple play-by-play."

"I'm so sluggish!"

At the beginning, Gong Qianqiu Ming said on the surface that he had no interest in Levilia's exercises, but he told him that Levi Garrison had concealed the exercises.

This clearly means that he has thoroughly researched his own xinxing. When he hears such words, he will naturally go to Levilia to ask about the content of the exercises.

And the harem Qianqiu pretended to be injured again, to clear the suspicion of secretly cultivating the exercises, and at the same time make himself practice in order to avoid going into the devil.

Coupled with the fact that he was staring at Levilia and did not spread it, no one knew that the exercises had been leaked.

Then it was proved that Duguxiao also practiced the extreme swallowing part of the Levilia Gongfa, so that the cultivation base could be greatly increased in a short period of time.

The destruction in the base camp caused Phoenix and the others' regained confidence to be trampled again, and they almost collapsed.

"As long as the test was carried out at that time, it was possible to see whether she suffered serious internal injuries."

"It won't happen next."

"It's all my fault, ahhh!"

Xiao Feng slammed the ground hard, scolding himself that he was too obsessed at the time, and he didn't even have such a simple face to investigate.

"And the robbery of the gods was stolen. At that time, I led Gong Qianqiu to turn around in the base camp."

"Although I didn't go to Master's room at the time, with Gong Qianqiu's resourcefulness, I will definitely find an opportunity to search."

"That's Master's most handy weapon!"

Later, Gong Qianqiu used the divine robbery attack to successfully escape from the predicament, and if Levi Garrison had not shot in time, I am afraid that he would have died long ago.

"If only I had been killed then, I wouldn't have to be tortured for knowing the secret."

Xiao Feng sighed again, his face even more depressed.

"Master clearly had the opportunity to nip the danger in the bud."

"It's also that I accidentally leaked Master's plan, which allowed Gong Qianqiu to escape in time."

"If there were no leak plans, the rest would not have happened either."

Looking at the ruins of the base camp, there is still a strong smell of blood floating in the air.

Although he didn't know the specific casualties of his own side, Xiao Feng also knew that it would definitely not be small, but all this could have been avoided.

It's all because he leaked secrets again and again, making Gong Qianqiu's plan succeed again and again.

Deng Deng Deng!

There were faint footsteps.

Xiao Feng looked up and saw Xu Qingya, Yufeng Tiansi and others doing restorative training in the distance.

Although they have lost their cultivation base, but with the panacea provided by Levi Garrison, they can barely act on their own at this moment.

"They were all killed by me. If I hadn't made an assertion to tell Gong Qianqiu that time, Duguxiao wouldn't have captured him so quickly."

Xiao Feng hurriedly lowered his head, wishing he could find a crack to burrow in.

At the beginning, after Xu Qingya was captured, she identified Gong Qianqiu in person as the leader of Qianqiu Sect.

If he believed them, the base camp would definitely be able to implement preventive measures earlier.

It can even take the initiative to attack and destroy Qianqiu Sect first.

In this way, there will be no fierce battle today, and those elites in the base camp will not need to sacrifice.

"It's all my fault, it's all my fault!"

"I'm an asshole!"

"I've let so many brothers lose their lives."

Xiao Feng clenched his fists tightly, his fingernails were already deeply embedded in the flesh without knowing it, the blood slowly flowed out along the fingers, and he didn't feel the slightest pain.

Of course, these are not the most let Xiao Feng collapse.

The most unbearable thing for Xiao Feng was the assassination of Levi Garrison.

Recalling that in the past, Levi Garrison took care of himself meticulously, and in terms of cultivation, he taught himself even more than his relatives.

But in exchange, it was a backstab!

Although Xiao Feng also knew that he was attracted by the evil spirit at that time, if he was not addicted to the beauty of Gong Qianqiu, how would he give the other party the opportunity to use the evil spirit?

Fortunately, Levi Garrison was aware of it in advance, otherwise the assassination might have been successful. Wouldn't it be a bigger mistake then?

Zoey Lopez's increasingly haggard face, Levilia frowning at a young age, Azure Dragon (Qinglong) Zhuque and others are uneasy, etc...

A lot of pictures rushed into Xiao Feng's mind as if he had gone crazy, and he felt dizzy, and even the world was spinning.

The whole person is on the verge of collapse.

"It's all my fault!"

"As a wicked person like me, how can I continue to live in the world?"

"The big mistake has been made, and only one death can make up for it."

Thinking of this, Xiao Feng quickly pulled out a dagger in his arms and stabbed it at the heart.

He decided to end this sinful life on his own.

Bang!

Dang!

Just as the dagger was about to pierce the flesh, Xiao Feng felt the force on his wrist, and then his entire arm was extremely numb.

The dagger also fell to the ground.

"Master... Master?"

Xiao Feng looked up and saw Levi Garrison's back in the distance.

"Why don't you let me die?"

Xiao Feng almost roared and asked.

"Death is an act of cowardice. Now that you know that you have made a big mistake, you should personally solve the real culprit."

Levi Garrison's voice transmission exploded in his mind.

This sentence made Xiao Feng instantly feel empowered.

It's not wrong, her sin is very true, but Gong Qianqiu is the initiator. Now she is still at large, and she must end this evil relationship by herself.

"But why is she doing this to me?"

Xiao Feng was puzzled.
